CORPORATE NAME

The Trustees of Amherst College

Faculty and Administrators

EMERITI

Tom Gerety, *President and Professor of Philosophy, Emeritus*. B.A. (1969), M.Phil. (1974), J.D. (1976), Ph.D. (1976) Yale University; A.M. (hon. 1995) Amherst College; L.H.D. (hon. 1996) Doshisha University; LL.D. (hon. 1995) Williams College, (hon. 2001) Wesleyan University, (hon. 2003) Amherst College.

Calvin Hastings Plimpton, *President, Emeritus*. A.B. (1939) Amherst College; M.D. (1943), M.A. (1947) Harvard University; Med. Sc.D. (1951) Columbia University; LL.D. (hon. 1960) Williams College, (hon. 1961) Wesleyan University, (hon. 1963) St. Lawrence University, (hon. 1971) Amherst College; L.D. (hon. 1962) Doshisha University; L.H.D. (hon. 1962) University of Massachusetts; Litt.D. (hon. 1965) American International College, (hon. 1969) Michigan State University; Sc.D. (hon. 1962) Rockford College, (hon. 1963) Saint Mary's College, (hon. 1966) Trinity College, (hon. 1967) Grinnell College, (hon. 1986) New York Medical College.

Peter R. Pouncey, *President and Edwin F. and Jessie Burnell Fobes Professor in Greek (Classics), Emeritus*. B.A. (1964), M.A. (1967) Oxford University; Ph.D. (1969) Columbia University; A.M. (hon. 1985) Amherst College; L.H.D. (hon. 1987) Doshisha University, (hon. 1990) Trinity College; LL.D. (hon. 1985) Williams College, (hon. 1989) Wesleyan University, (hon. 1995) Amherst College.

Ralph E. Beals, *Clarence Francis Professor of Economics, Emeritus*. B.S. (1958) University of Kentucky; M.A. (1959) Northwestern University; Ph.D. (1970) Massachusetts Institute of Technology; A.M. (hon. 1971) Amherst College.

Edward S. Belt, *Samuel A. Hitchcock Professor in Mineralogy and Geology, Emeritus*. B.A. (1955) Williams College; M.A. (1957) Harvard University; Ph.D. (1963) Yale University; A.M. (hon. 1978) Amherst College.

Michael Birtwistle, *Stanley King '03 Professor of Dramatic Arts (Theater and Dance), Emeritus*. B.A. (1960) Wesleyan University; M.F.A. (1962), Ph.D. (1967) Tulane University; A.M. (hon. 1985) Amherst College.

Willis E. Bridegam, Jr., *Librarian of the College, Emeritus*. B. Mus. (1957) Eastman School of Music; M.S. (1964) Syracuse University; A.M. (hon. 1985) Amherst College.

Gerald P. Brophy, *Samuel A. Hitchcock Professor of Mineralogy and Geology, Emeritus*. B.A. (1951), M.A. (1953), Ph.D. (1954) Columbia University; A.M. (hon. 1968) Amherst College.

Otis Cary, *Professor of History and Representative of Amherst College at Doshisha University, Emeritus*. A.B. (1946) Amherst College; A.M. (1951) Yale University; L.H.D. (hon. 1992) Doshisha University.

Richard J. Cody, *Eliza J. Clark Folger Professor of English, Emeritus*. B.A. (1952) University of London (University College, Southampton); M.A. (1958), Ph.D. (1961) University of Minnesota; A.M. (hon. 1968) Amherst College.

Benjamin DeMott, *Professor of English, Emeritus*. B.A. (1949) George Washington University; M.A. (1950), Ph.D. (1953) Harvard University; A.M. (hon. 1960) Amherst College.

Henry F. Dunbar, *Professor of Physical Education, Emeritus*. A.B. (1944) Amherst College; M.A. (1949), Ph.D. (1950) Columbia University.

Joel E. Gordon, *Stone Professor of Natural Science (Physics), Emeritus*. A.B. (1952) Harvard University; Ph.D. (1958) University of California at Berkeley; A.M. (hon. 1969) Amherst College.

Theodore P. Greene, *Winthrop H. Smith Professor of History, Emeritus*. A.B. (1943) Amherst College; M.A. (1948), Ph.D. (1970) Columbia University.

Robert F. Grose, *Professor of Psychology, Emeritus*. B.A. (1944), M.S. (1947), Ph.D. (1953) Yale University; A.M. (hon. 1970) Amherst College.

Werner L. Gundersheimer, *Adjunct Professor of History and Director of the Folger Shakespeare Library, Emeritus*. A.B. (1959) Amherst College; M.A. (1960), Ph.D. (1963) Harvard University; D.H.L. (hon. 1984) Amherst College, (hon. 1998) Davidson College; D.L. (hon. 1989) Williams College, (hon. 1991) Muhlenberg College.

John B. Halsted, *Winkley Professor of History, Emeritus*. B.A. (1948), M.A. (1949) Wesleyan University; Ph.D. (1954) Columbia University; A.M. (hon. 1966) Amherst College.

Hugh D. Hawkins, *Anson D. Morse Professor of History and American Studies, Emeritus*. B.A. (1950) DePauw University; Ph.D. (1954) The Johns Hopkins University; A.M. (hon. 1969) Amherst College.

Kurt Maximilian Hertzfeld, *Treasurer, Emeritus*. B.A. (1941), M.B.A. (1942) Harvard University; A.M. (hon. 1969) Amherst College.

William M. Hexter, *Edward S. Harkness Professor of Biology, Emeritus*. B.A. (1949), M.A. (1951), Ph.D. (1953) University of California at Berkeley; A.M. (hon. 1966) Amherst College.

Ernest Alfred Johnson, *Professor of Romance Languages, Emeritus*. A.B. (1939) Amherst College; M.A. (1940) University of Chicago; M.A. (1941), Ph.D. (1950) Harvard University.

William E. Kennick, *G. Henry Whitcomb Professor of Philosophy, Emeritus*. B.A. (1945) Oberlin College; Ph.D. (1952) Cornell University; A.M. (hon. 1962) Amherst College.

Heinz Kohler, *Willard Long Thorp Professor of Economics, Emeritus*. B.A. (1956) Free University of Berlin; M.A. (1958), Ph.D. (1961) University of Michigan; A.M. (hon. 1969) Amherst College.

Allen Kropf, *Julian H. Gibbs Professor in the Natural and Mathematical Sciences (Chemistry), Emeritus*. B.S. (1951) Queens College; Ph.D. (1954) University of Utah; A.M. (hon. 1969) Amherst College.

Benjamin Franklin McCabe, *Parmly Billings Professor of Physical Education, Emeritus*. B.A. (1946) Iowa State Teacher's College; A.M. (hon. 1964) Amherst College.

J. Tracy Mehr, *Professor of Physical Education, Emeritus*. B.A. (1950) Holy Cross College; M.B.A. (1967) Boston College; A.M. (hon. 1979) Amherst College.

Ray A. Moore, *Professor of History and Asian Languages and Civilizations, Emeritus*. B.A. (1958), M.A. (1960), Ph.D. (1968) University of Michigan; A.M. (hon. 1976) Amherst College.

James E. Ostendarp, *Professor of Physical Education, Emeritus*. B.S. (1952) Bucknell University; M.A. (1956) Columbia University; A.M. (hon. 1966) Amherst College.

John Pemberton III, *Stanley Warfield Crosby Professor of Religion, Emeritus*. B.A. (1948) Princeton University; B.D. (1952), Ph.D. (1958) Duke University; A.M. (hon. 1967) Amherst College.

Donald S. Pitkin, *Professor of Anthropology, Emeritus*. B.A. (1947), M.A. (1950), Ph.D. (1954) Harvard University; A.M. (hon. 1966) Amherst College.

Robert H. Romer, *Professor of Physics, Emeritus*. A.B. (1952) Amherst College; Ph.D. (1955) Princeton University.

Carl N. Schmalz, Jr., *Professor of Fine Arts, Emeritus*. B.A. (1948), M.A. (1949), Ph.D. (1958) Harvard University; A.M. (hon. 1969) Amherst College.

Viktoria A. Schweitzer, *Senior Lecturer in Russian, Emerita*. M.A. (1955) Moscow State University.

Marc S. Silver, *Massachusetts Professor of Chemistry, Emeritus*. B.A. (1955) Harvard University; Ph.D. (1959) California Institute of Technology; A.M. (hon. 1969) Amherst College.

Charles A. Sorenson, *Professor of Psychology (Neuroscience), Emeritus*. B.A. (1966) University of California at Berkeley; Ph.D. (1971) University of California at Los Angeles; A.M. (hon. 1984) Amherst College.

Frank A. Trapp, *Winifred L. Arms Professor in the Arts and Humanities, Emeritus*. B.A. (1943) Carnegie Institute of Technology; M.A. (1947), Ph.D. (1952) Harvard University; A.M. (hon. 1963) Amherst College.

Donald O. White, *Professor of German, Emeritus*. B.A. (1953), M.A. (1956), Ph.D. (1963) Yale University; A.M. (hon. 1970) Amherst College.

FACULTY

Lawrence Alan Babb, *Willem Schupf Professor of Asian Languages and Civilizations and Professor of Anthropology*. B.A. (1963) University of Michigan; M.A. (1965), Ph.D. (1969) University of Rochester; A.M. (hon. 1980) Amherst College.

Tatyana Babyonyshev, *Lecturer in Russian*. M.A. (1983) Moscow State University.

Carol Y. Bailey, *Visiting Lecturer in Black Studies*. B.A. (1997) University of the West Indies; M.A. (1999) Clark University.

John-Paul Baird, *Assistant Professor of Psychology (Neuroscience)*. B.Sc. (1992) University of Toronto; M.A. (1993), Ph.D. (1997) University of Pennsylvania.

Michèle A. Barale, *Professor of English and Women's and Gender Studies*. B.A. (1968), M.A. (1975) Loyola University; Ph.D. (1983) University of Colorado; A.M. (hon. 2002) Amherst College.

Daniel P. Barbezat, *Professor of Economics*. B.A. (1982) Southern Illinois University at Carbondale; M.S. (1984), Ph.D. (1988) University of Illinois at Champaign; A.M. (hon. 2001) Amherst College.

Carleen R. Basler, *Assistant Professor of American Studies and Sociology*. B.A. (1991) University of California at Los Angeles; M.A. (1998), M.Ph. (1999), Ph.D. (2003) Yale University.

Amrita Basu, *Dominic J. Paino 1955 Professor of Political Science and Women's and Gender Studies*. B.A. (1975) Cornell University; M.A. (1977), M.Phil. (1978), Ph.D. (1984) Columbia University; A.M. (hon. 1994) Amherst College.

Robert L. Benedetto, *Assistant Professor of Mathematics*. A.B. (1993) Harvard University; Sc.M. (1996), Ph.D. (1998) Brown University.

Antonio Benítez-Rojo, *Thomas B. Walton, Jr., Professor of Spanish*. B.A. (1950) Colegio de Belén and Instituto de Enseñanza Superior de Marianao; Ciencias Comerciales (1955) Universidad de La Habana; A.M. (hon. 1987) Amherst College.

Robert J. Bezucha, *George Daniel Olds Professor in Economics and Social Institutions (History)*. B.A. (1962) Lawrence University; M.A. (1963), Ph.D. (1968) University of Michigan; A.M. (hon. 1981) Amherst College.

Anthony C. Bishop, *Assistant Professor of Chemistry*. B.A. (1993) University of California at San Diego; Ph.D. (2000) Princeton University.

Anston Bosman*, *Assistant Professor of English*. B.A. (1990) University of Cape Town, South Africa; B.A. (1992) University of Witwatersrand; Ph.D. (2000) Stanford University.

Alain Bourget, *Visiting Lecturer in Mathematics*. B.Sc. (1993), M.Sc. (1995), Université Laval; Ph.D. (2001) McGill University.

David Brandenberger, *Visiting Lecturer in Russian*. B.A. (1992) Macalester College; A.M. (1995), Ph.D. (1999) Harvard University.

Ute T. Brandest†, *Professor of German*. B.A. (1972), M.A. (1974) University of New Hampshire; Ph.D. (1982) Harvard University; A.M. (hon. 1993) Amherst College.

Lisbeth Kim Brandt*, *Assistant Professor in Asian Languages and Civilizations and History*. B.A. (1984) Smith College; M.A. (1990), M.Phil. (1991), Ph.D. (1996) Columbia University.

Kristin Bumiller‡, *Professor of Political Science and Women's and Gender Studies*. B.A. (1979), M.A. (1979) Northwestern University; Ph.D. (1984) University of Wisconsin at Madison; A.M. (hon. 2001) Amherst College.

Sandra L. Burkett, *Assistant Professor of Chemistry*. A.B. (1990) Princeton University; Ph.D. (1995) California Institute of Technology.

Patrick Caddeau, *Assistant Professor of Asian Languages and Civilizations (Japanese)*. B.A. (1987) Columbia College; M.A. (1996), M. Phil. (1996), Ph.D. (1998) Yale University.

Gregory S. Call, *Professor of Mathematics*. A.B. (1980) Dartmouth College; A.M. (1981), Ph.D. (1986) Harvard University; A.M. (hon. 2001) Amherst College.

John A. Cameron, *Professor of English*. B.A. (1952), M.A. (1957), Ph.D. (1963) Yale University; Diploma (1955) University of Edinburgh; A.M. (hon. 1970) Amherst College.

Mavis C. Campbell, *Professor of History*. B.S. (1958), M.S. (1960), Ph.D. (1971) University of London; A.M. (hon. 1983) Amherst College.

Jay L. Caplan, *Professor of French*. A.B. (1967) Oberlin College; M.A. (1969), Ph.D. (1973) Yale University; A.M. (hon. 1991) Amherst College.

Carmen Carracelas-Juncal, *Lecturer in Spanish*. B.A. (1986), M.A. (1996) Brigham Young University.

May-lee Chai, *Visiting Writer*. B.A. (1989) Grinnell College; M.A. (1992) Yale University; M.A. (1994) University of Colorado at Boulder.

John T. Cheney, *Samuel A. Hitchcock Professor of Mineralogy and Geology*. B.A. (1970), M.A. (1972) University of Montana; Ph.D. (1975) University of Wisconsin at Madison; A.M. (hon. 1987) Amherst College.

Mallorie Chernin, *Conductor and Director of the Choral Music Program*. B.Mus. (1976) University of Wisconsin; M.Mus. (1978) Westminster Choir College.

Fredric L. Cheyette, *Professor of History*. A.B. (1953) Princeton University; M.A. (1954), Ph.D. (1959) Harvard University; A.M. (hon. 1974) Amherst College.

Howell D. Chickering, Jr., *G. Armour Craig Professor of Language and Literature*. B.A. (1959) Dartmouth College; Ph.D. (1965) Indiana University; A.M. (hon. 1976) Amherst College.

Catherine A. Ciepiela*, *Professor of Russian*. A.B. (1983) Amherst College; M.A. (1985), Ph.D. (1992) Yale University.

Carol C. Clark, *Professor of Fine Arts and American Studies*. A.B. (1969), M.A. (1971) University of Michigan; Ph.D. (1981) Case Western Reserve University; A.M. (hon. 1992) Amherst College.

Ethan D. Clotfelter, *Assistant Professor of Biology and Neuroscience*. B.A. (1991) University of North Carolina at Chapel Hill; M.S. (1994), Ph.D. (1998) University of Wisconsin at Madison.

Rhonda Cobham-Sander, *Professor of Black Studies and English*. B.A. (1974) University of the West Indies; Ph.D. (1982) University of Saint Andrews; A.M. (hon. 1998) Amherst College.

Constance S. Congdon, *Playwright-in-Residence*. B.A. (1969) University of Colorado; M.F.A. (1982) University of Massachusetts at Amherst.

Margery C. Coombs, *Adjunct Professor of Geology*. A.B. (1967) Oberlin College; M.A. (1963), Ph.D. (1973) Columbia University.

Javier Corrales†, *Associate Professor of Political Science*. B.S. (1986) Georgetown University; Ph.D. (1996) Harvard University.

Nicola M. Courtright*, *Professor of Fine Arts*. B.A. (1976) Oberlin College; M.A. (1978) Yale University; Ph.D. (1990) The Institute of Fine Arts, New York University; A.M. (hon. 2004) Amherst College.

Francis G. Couvares, *E. Dwight Salmon Professor of History and American Studies*. B.A. (1969) University of Pittsburgh; M.A. (1973), Ph.D. (1980) University of Michigan; A.M. (hon. 1993) Amherst College.

David A. Cox, *Thalheimer Professor of Mathematics*. B.A. (1970) Rice University; Ph.D. (1975) Princeton University; A.M. (hon. 1988) Amherst College.

Peter D. Crowley, *Professor of Geology and Director of the Pratt Museum of Natural History*. B.Sc. (1979) McGill University; Ph.D. (1985) Massachusetts Institute of Technology; A.M. (hon. 1998) Amherst College.

Peter Czap, Jr., *Henry Winkley Professor of History*. B.A. (1953) Rutgers University; Ph.D. (1959) Cornell University; A.M. (hon. 1973) Amherst College.

Cynthia Damon, *Professor of Classics*. B.A. (1979) Stanford University; M.A. (1984) Boston College; Ph.D. (1990) Stanford University; A.M. (hon. 2004) Amherst College.

Rosalina de la Carrera, *Professor of French*. B.A. (1973) Carleton College; M.A. (1977) Cornell University; Ph.D. (1985) The Johns Hopkins University; A.M. (hon. 1996) Amherst College.

David P. Delaney, *Visiting Assistant Professor of Law, Jurisprudence and Social Thought*. B.A. (1987) San Francisco State University; M.S. (1989), Ph.D. (1995) University of Wisconsin at Madison.

Amy P. Demorest, *Professor of Psychology*. B.A. (1979) Williams College; Ph.D. (1987) Duke University; A.M. (hon. 2001) Amherst College.

Jerry P. Dennerline†, *Olin Professor in Asian Studies (History and Asian Languages and Civilizations)*. B.A. (1964) Wabash College; M.A. (1966), Ph.D. (1973) Yale University; A.M. (hon. 1987) Amherst College.

James Q. Denton, *Professor of Mathematics*. B.S. (1951) California Institute of Technology; M.S. (1958), Ph.D. (1962) University of Oregon; A.M. (hon. 1974) Amherst College.

Katia Dianina, *Assistant Professor of Russian*. A.B. (1988) A. Herzen State Pedagogical University, St. Petersburg, Russia; A.M. (1993) Fordham University; Ph.D. (2002) Harvard University.

Bruce P. Diehl, *Lecturer in Music and Director of Jazz Program*. B.Mus. (1990) Eastman School of Music; M.M. (1995) University of Massachusetts at Amherst.

Jan E. Dizard, *Charles Hamilton Houston Professor in American Culture (Sociology)*. B.A. (1962) University of Minnesota at Duluth; M.A. (1964), Ph.D. (1967) University of Chicago; A.M. (hon. 1978) Amherst College.

Andrew C. Dole, *Assistant Professor of Religion*. B.A. (1989) Yale University; M.A. (1997) Yale divinity School; Ph.D. (2004) Yale University.

Christopher T. Dole, *Assistant Professor of Anthropology*. B.A. (1992) Baylor University; M.A. (1996), Ph.D. (2002) Case Western Reserve University.

Robert Doran, *Samuel Williston Professor of Greek and Hebrew (Religion)*. S.T.Lect. (1967) Blackfriars Seminary; S.T.Lic. (1970) Università di S. Tommaso; L.S.S. (1971) Pontifical Biblical Institute; Th.D. (1977) Harvard Divinity School; A.M. (hon. 1990) Amherst College.

Suzanne P. Dougan, *Professor of Theater and Dance and Director of Theatrical Productions*. A.B. (1973) Vassar College; M.F.A. (1979) Yale School of Drama; A.M. (hon. 1996) Amherst College.

Lawrence R. Douglast, *Associate Professor of Law, Jurisprudence and Social Thought*. A.B. (1982) Brown University; M.A. (1986) Columbia University; J.D. (1989) Yale Law School.

Lance Duerfahrd, *Visiting Assistant Professor of English*. B.A. (1990) Brown University; M.Phil. (1996), Ph.D. (2002) Yale University.

Thomas L. Dumm, *Professor of Political Science*. B.A. (1976), M.A. (1978) Pennsylvania State University; Ph.D. (1984) Cornell University; A.M. (hon. 1997) Amherst College.

Jamal J. Elias, *Professor of Religion*. B.A. (1983) Stanford University; M.A. (1985) University of Pennsylvania; M.A. (1987), Ph.D. (1991) Yale University; A.M. (hon. 2002) Amherst College.

Catherine Epstein, *Assistant Professor of History*. A.B. (1985) Brown University; M.Sc. (1987) London School of Economics; Ph.D. (1998) Harvard University.

Jeffrey B. Ferguson, *Assistant Professor of Black Studies and American Studies*. B.A. (1985) Harvard College; Ph.D. (1999) Harvard University.

Richard D. Fink, *George H. Corey Professor of Chemistry*. A.B. (1958) Harvard University; Ph.D. (1962) Massachusetts Institute of Technology; A.M. (hon. 1971) Amherst College; L.H.D. (1988) Doshisha University.

Lorn S. Foster, *Mellon Visiting Professor of Political Science*. B.A. (1969) California State University at Los Angeles; A.M. (1971), Ph.D. (1976) University of Illinois.

Judith E. Frankt, *Professor of English*. B.A. (1981) The Hebrew University of Jerusalem; M.A. (1986), M.F.A. (1987), Ph.D. (1990) Cornell University; A.M. (hon. 2002) Amherst College.

Jonathan R. Friedman*, *Assistant Professor of Physics*. B.A (1987) Vassar College; Ph.D. (1996) City College of New York.

Betsey Garand, *Visiting Assistant Professor of Fine Arts*. B.F.A. (1981) University of New Hampshire; M.F.A. (1983) Tyler School of Art, Temple University.

Jyl Gentzler, *Professor of Philosophy*. A.B. (1985) Bryn Mawr College; M.A. (1988), Ph.D (1991) Cornell University; A.M. (hon. 2003) Amherst College.

Alexander George, *Professor of Philosophy*. B.A. (1979) Columbia College; M.A. (1983), Ph.D. (1986) Harvard University; A.M. (hon. 2001) Amherst College.

Stephen A. George, *The Maxwell Family Professor in Life Sciences (Biology and Neuroscience)*. B.S. (1964) University of British Columbia; Ph.D. (1970) The Johns Hopkins University; A.M. (hon. 1984) Amherst College.

Deborah B. Gewertz, *G. Henry Whitcomb 1874 Professor of Anthropology*. B.A. (1969) Queens College; Ph.D. (1977) City University of New York; A.M. (hon. 1988) Amherst College.

Heidi Gilpin, *Assistant Professor of German*. A.B. (1984) Amherst College; A.M. (1987), Ph.D. (1993) Harvard University.

David Gloman, *Visiting Lecturer in Fine Arts*. B.F.A. (1983) Indiana University; M.F.A. (1986) Yale University.

Miriam R. Goheen, *Professor of Anthropology*. B.A. (1976) Oregon State University; A.M. (1978), Ph.D. (1984) Harvard University; A.M. (hon. 1998) Amherst College.

Richard A. Goldsby†, *Professor of Biology and John Woodruff Simpson Lecturer*. B.A. (1957) University of Kansas; Ph.D. (1961) University of California at Berkeley; A.M. (hon. 1985) Amherst College.

Peter J. Gooding, *Parmly Billings Professor of Hygiene and Physical Education and Director of Athletics*. D.L.C. (1964) Loughborough College; M.S. (1967) University of Massachusetts at Amherst; A.M. (hon. 1981) Amherst College.

Caroline E. Goutte*, *Associate Professor of Biology*. B.A. (1985) Cornell University; Ph.D. (1992) University of California at San Francisco.

George S. Greenstein, *Sidney Dillon Professor of Astronomy*. B.S. (1962) Stanford University; Ph.D. (1968) Yale University; A.M. (hon. 1983) Amherst College.

Frederick T. Griffiths, *Class of 1880 Professor in Greek (Classics) and Professor of Women's and Gender Studies*. B.A. (1969) Yale College; M.A. (1972), Ph.D. (1974) Harvard University; A.M. (hon. 1984) Amherst College.

Allen Guttmann, *Emily C. Jordan Folger Professor of English and American Studies*. B.A. (1953) University of Florida; M.A. (1956) Columbia University; Ph.D. (1961) University of Minnesota; A.M. (hon. 1971) Amherst College.

James Whitey Hagadorn, *Assistant Professor of Geology*. B.A. (1991) University of Pennsylvania; M.S. (1995), Ph.D. (1998) University of Southern California.

Richard Halgin, *Visiting Professor of Psychology*. B.A. (1970) Mount St. Paul, M.A. (1972), Ph.D. (1975) Fordham University.

Daniel Hall, *Writer-in-Residence*.

David Sumner Hall, *Assistant Professor of Physics*. A.B. (1991) Amherst College; A.M. (1994), Ph.D. (1997) Harvard University.

David E. Hansen, *Professor of Chemistry*. Sc.B. (1979) Brown University; Ph.D. (1986) Harvard University; A.M. (hon. 1996) Amherst College.

Tekla A. Harms, *Andrew W. Mellon Professor of Geology*. A.B. (1977) Bryn Mawr College; M.Sc. (1982) Queen's University, Kingston, Ontario; Ph.D. (1986) University of Arizona; A.M. (hon. 1999) Amherst College.

James Harold, *Visiting Assistant Professor of Philosophy*. B.A. (1993) Oberlin College; Ph.D. (2001) University of Minnesota at Minneapolis.

Allen J. Hart, *Associate Professor of Psychology*. A.B. (1982) Amherst College; A.M. (1989), Ph.D. (1991) Harvard University.

Craig Harwood, *Andrew W. Mellon Visiting Assistant Professor of Music*. B.A. (1995) Queens College; M.Phil. (2000), Ph.D. (2002) Yale University.

Maria Heim, *Assistant Professor of Religion*. B.A. (1991) Reed College; Ph.D. (1999) Harvard University.

Leah D. Hewitt, *Professor of French*. B.A. (1972) Kent State University; M.A. (1974), Ph.D. (1979) University of California at Berkeley; A.M. (hon. 1995) Amherst College.

Robert C. Hilborn, *Amanda and Lisa Cross Professor of Physics*. B.A. (1966) Lehigh University; M.A. (1967), Ph.D. (1971) Harvard University; A.M. (hon. 1987) Amherst College.

Constance Valis Hill, *Five College Associate Professor of Theater and Dance*. B.A. (1969) State University of New York at Albany; M.A. (1990) City College of New York; Ph.D. (1998) Tisch School of Arts, New York University.

Baba Hillman, *Five College Assistant Professor of English*. B.A. (1972) Duke University; M.F.A. (2001) University of California at San Diego.

Jerome L. Himmelstein, *Professor of Sociology*. B.A. (1970) Columbia College; M.A. (1972), Ph.D. (1979) University of California at Berkeley; A.M. (hon. 1994) Amherst College.

Adam Honig, *Assistant Professor of Economics*. B.A. (1997), M.A. (2000), M. Phil (2001), Ph.D. (2004) Columbia University.

Margaret R. Hunt, *Professor of History and Women's and Gender Studies and Bruss Reader*. A.B. (1976) Radcliffe College; M.T.S. (1978) Harvard Divinity School; Ph.D. (1986) New York University; A.M. (hon. 1998) Amherst College.

Larry R. Hunter†, *Stone Professor of Natural Sciences (Physics)*. B.A. (1974) Columbia University; M.A. (1978), Ph.D. (1981) University of California at Berkeley; A.M. (hon. 1992) Amherst College.

Nasser Hussain, *Assistant Professor of Law, Jurisprudence and Social Thought*. B.A. (1988) Yale University; M.S. (1990), Ph.D. (1995) University of California at Berkeley.

Kannan Jagannathan, *Professor of Physics*. B.Sc. (1973) Loyola College; M.Sc. (1975) Indian Institute of Technology, Madras; M.A. (1977), Ph.D. (1980) University of Rochester; A.M. (hon. 1993) Amherst College.

Jenny L. Kallick, *Professor of Music*. B. Mus. (1969) University of Southern California; M.M.A. (1973) Yale School of Music; M.Phil. (1986), Ph.D. (1987) Yale University; A.M. (hon. 1996) Amherst College.

Scott F. Kaplan, *Assistant Professor of Computer Science*. A.B. (1995) Amherst College; Ph.D. (1999) University of Texas at Austin.

Laure G. Katsaros, *Assistant Professor of French*. *Maitrise* (1995) Ecole Normale Supérieure, Paris; *Thèse de doctorat* (2000) University Paris VII-Denis Diderot; Ph.D. (2003) Yale University.

Ikumi Kayama, *Lecturer in Asian Languages and Civilizations (Japanese)*. B.A. (1991) Aoyama Gakuin University; M.Ed. (2000) University of Massachusetts at Amherst.

Thomas R. Kearns, *William H. Hastie Professor of Philosophy and Professor of Law, Jurisprudence and Social Thought*. A.B. (1959) University of Illinois; LL.B. (1962), M.A. (1964) University of California at Berkeley; Ph.D. (1968) University of Wisconsin; A.M. (hon. 1981) Amherst College.

Carol W. Keller, *Professor of Fine Arts*. B.A. (1974) Manchester College; M.F.A. (1980) Boston University School for the Arts.

Justin F. Kimball, *Visiting Assistant Professor of Fine Arts*. B.F.A. (1985) Rhode Island School of Design; M.F.A. (1990) Yale University School of Art.

Christopher G. Kingston*, *Assistant Professor of Economics*. B.A. (1994) Trinity College, Dublin, Ireland; Ph.D. (2001) Stanford University.

Joseph N. Kushick, *Professor of Chemistry*. A.B. (1969) Columbia College; Ph.D. (1975) Columbia University; A.M. (hon. 1988) Amherst College.

Hua R. Lan, *Senior Lecturer in Asian Languages and Civilizations and College Advisor for Chinese Studies*. B.A. (1965), M.A. (1965) Shanghai Normal University; M.Ed. (1987), Ed.D. (1990) University of Massachusetts at Amherst.

Tanya L. Leise, *Visiting Assistant Professor of Mathematics*. B.S. (1993) Stanford University; M.S. (1995), Ph.D. (1998) Texas A&M University.

Ronald A. Lembo†, *Associate Professor of Sociology*. B.A. (1974) University of Massachusetts at Boston; M.A. (1980) University of California at Santa Barbara; Ph.D. (1989) University of California at Berkeley.

Helen O. Leung, *Professor of Chemistry*. B.S. (1982), B.A. (1983) California State University at Northridge; M.A. (1985), Ph.D. (1988) Harvard University; A.M. (hon. 2003) Amherst College.

N. Gordon Levin, Jr., *Dwight Morrow Professor of History and American Studies*. B.A. (1956) Yale University; Ph.D. (1967) Harvard University; A.M. (hon. 1975) Amherst College.

Peter Lobdell, *Senior Resident Artist in the Department of Theater and Dance*. A.B. (1968) Amherst College.

William A. Loinaz, *Assistant Professor of Physics*. B.S.E. (1989) Princeton University; M.S. (1991), Ph.D. (1995) University of Michigan.

Rick A. López, *Assistant Professor of History*. A.B. (1993) Amherst College; M.A. (1998), Ph.D. (2001) Yale University.

Pavel Machala†, *Professor of Political Science*. B.A. (1970) St. Olaf College; M.A. (1972), Ph.D. (1976) The Johns Hopkins University; A.M. (hon. 1990) Amherst College.

James E. Maraniss, *Professor of Spanish*. B.A. (1966), M.A. (1967) Harvard University; Ph.D. (1975) Princeton University; A.M. (hon. 1985) Amherst College.

Roberto Márquez, *Visiting Professor of Spanish*. B.A. (1966) Brandeis University; M.A. (1970), Ph.D. (1975) Harvard University.

Mark D. Marshall, *Professor of Chemistry*. B.S. (1979) University of Rochester; M.A. (1981), Ph.D. (1985) Harvard University; A.M. (hon. 2000) Amherst College.

Anna Melick Martinit, *Assistant Professor of Geology*. B.A. (1986) Colgate University; M.S. (1992) Syracuse University; Ph.D. (1997) University of Michigan.

Anthony W. Marx, *Professor of Political Science*. B.A. (1981) Yale College; M.P.A. (1986), M.A. (1987), Ph.D. (1990) Princeton University; L.H.D. (hon. 2004) Williams College; A.M. (hon. 2004) Amherst College.

Catherine C. McGeoch†, *Professor of Computer Science*. B.S. (1981) Butler University; M.S. (1983), Ph.D. (1986) Carnegie Mellon University; A.M. (hon. 2001) Amherst College.

Lyle A. McGeoch, *Professor of Computer Science*. B.S.E. (1981) Princeton University; M.S. (1983), Ph.D. (1987) Carnegie Mellon University; A.M. (hon. 2000) Amherst College.

Rusty B. McIntyre, *Visiting Assistant Professor of Psychology*. B.S. (1997) Northern Michigan University; M.S. (2001), Ph.D. (2004) Texas Christian University.

Karena A. McKinney, *Assistant Professor of Chemistry*. A.B. (1991) Harvard University; Ph.D. (1998) University of California at Irvine.

Uday Singh Mehta, *Professor of Political Science*. B.A. (1978) Swarthmore College; M.A. (1981), Ph.D. (1985) Princeton University; A.M. (hon. 2003) Amherst College.

Jill Suzanne Miller, *Assistant Professor of Biology*. B.A. (1992) Colorado College; M.S. (1997), Ph.D. (2000) University of Arizona.

Kozue Miyama, *Senior Lecturer in Asian Languages and Civilizations (Japanese)*. B.A. (1982) University of Tsukuba, Japan; M.A. (1988) International Christian University, Japan.

Joseph G. Moore, *Associate Professor of Philosophy*. B.A. (1986) University of California at Berkeley; M.A. (1989), Ph.D. (1994) Cornell University.

Michelle D. Morgant, *Professor of Physical Education and Senior Women's Administrator*. B.A. (1974) Colorado Women's College; M.S. (1976) Smith College; A.M. (hon. 1990) Amherst College.

Klára Móricz, *Joseph and Grace W. Valentine Visiting Assistant Professor of Music*. Diploma (1986), Diploma (1992) Franz Liszt Academy of Music; M.A. (1995), Ph.D. (1999) University of California at Berkeley.

Samuel C. Morse, *Professor of Fine Arts and Asian Languages and Civilizations*. B.A. (1978) Harvard College; Ph.D. (1985) Harvard University; A.M. (hon. 1995) Amherst College.

Hilary J. Moss, *Assistant Professor of History and Black Studies*. B.A. (1998) Northwestern University; Ph.D. (2004) Brandeis University.

Manuame Mukasa*, *Assistant Professor of Theater and Dance*. B.A. (1989) University of Colorado at Boulder; M.F.A. (1994) University of California at San Diego.

Aida Y. Nawar, *Senior Lecturer in French*. B.A. (1969) University of Massachusetts at Amherst; M.A. (1972) Smith College; Ph.D. (1984) University of Massachusetts at Amherst.

Catharine Newbury, *Five College Professor of Political Science*. B.A. (1966) Williamette University; M.A. (1968), Ph.D. (1975) University of Wisconsin at Madison.

Walter E. Nicholson, *Ward H. Patton Professor of Economics*. B.A. (1964) Williams College; Ph.D. (1970) Massachusetts Institute of Technology; A.M. (hon. 1978) Amherst College.

Susan R. Niditch, *Samuel Green Professor of Religion*. A.B. (1972) Radcliffe College; Ph.D. (1977) Harvard University; A.M. (hon. 1990) Amherst College.

Magdalen Normandeau, *Visiting Assistant Professor of Physics*. B.Sc. (1989), M.Sc. (1990) Université Laval; Ph.D. (1996) University of Calgary.

Barry F. O'Connell, *Professor of English*. B.A. (1966) Harvard College; M.A. (1972), Ph.D. (1976) Harvard University; A.M. (hon. 1984) Amherst College.

Patricia B. O'Hara*, *The Thalheimer Professor of Chemistry*. B.A. (1976) Adelphi University; Ph.D. (1981) Columbia University; A.M. (hon. 1995) Amherst College.

Rose R. Olvert†, *L. Stanton Williams '41 Professor of Psychology and Women's and Gender Studies*. B.A. (1958) Swarthmore College; Ph.D. (1962) Radcliffe College; A.M. (hon. 1973) Amherst College.

Hilda Otaño-Benítez, *Senior Lecturer in Spanish*. B.A. (1949), B.S. (1949) Institute for Secondary Education of Ciego de Avila, Cuba; Doctor of Law (1954) University of Havana; M.A. (1979) Boston University.

Marisa Parham*, *Assistant Professor of English*. B.A. (1996) Washington University; M.A. (1997), M.Phil. (2000), Ph.D. (2004) Columbia University.

Andrew C. Parker, *Professor of English*. B.A. (1975) Princeton University; M.A. (1977), Ph.D. (1987) University of Chicago; A.M. (hon. 1994) Amherst College.

George M. Perkins, *Visiting Associate Professor of Economics*. A.B. (1966), Ph.D. (1977) Boston College.

Dale E. Peterson, *Eliza J. Clark Folger Professor of English and Russian*. B.A. (1963) Harvard University; M.A. (1965), Ph.D. (1971) Yale University; A.M. (hon. 1981) Amherst College.

Patricia de Santana Pinho Chagas, *Andrew W. Mellon Visiting Assistant Professor of Black Studies*. B.A. (1993), M.A. (1996), Ph.D. (2001) Universidade Estadual de Campinas.

Dominic L. Poccia, *Rufus Tyler Lincoln Professor of Biology*. B.S. (1967) Union College; A.M. (1968), Ph.D. (1971) Harvard University; A.M. (hon. 1987) Amherst College.

William H. Pritchard‡, *Henry Clay Folger Professor of English*. A.B. (1953) Amherst College; M.A. (1956), Ph.D. (1960) Harvard University.

Stanley J. Rabinowitz, *Henry Steele Commager Professor and Professor of Russian*. A.B. (1967) City University of New York (Brooklyn College); A.M. (1969), Ph.D. (1975) Harvard University; A.M. (hon. 1984) Amherst College.

John E. Rager III, *Professor of Computer Science*. S.B. (1977) Massachusetts Institute of Technology; S.M. (1978) University of Chicago; Ph.D. (1987) Northwestern University; A.M. (hon. 2001) Amherst College.

Lisa A. Raskin†, *John William Ward Professor of Psychology (Neuroscience)*. B.A. (1975) Skidmore College; M.A. (1977), Ph.D. (1979) Princeton University; A.M. (hon. 1991) Amherst College.

David I. Ratner†, *Alfred Sargent Lee '41 and Mary Farley Ames Lee Professor of Biology*. B.S., M.S. (1968) Yale University; Ph.D. (1975) Harvard University; A.M. (hon. 1994) Amherst College.

David B. Reck, *Professor of Music and Asian Languages and Civilizations*. B. Mus. (1956) University of Houston; M.Mus. (1959) University of Texas; Ph.D. (1983) Wesleyan University; A.M. (hon. 1986) Amherst College.

Sean Redding, *Professor of History*. B.A. (1978) Swarthmore College; Ph.D. (1987) Yale University; A.M. (hon. 2000) Amherst College.

Jessica Wolpaw Reyes, *Assistant Professor of Economics*. A.B. (1994) Amherst College; Diploma (1995) Churchill College, University of Cambridge; A.M. (1999), Ph.D. (2002) Harvard University.

Monica M. Ringer, *Assistant Professor of History and Asian Languages and Civilizations*. B.A. (1988) Oberlin College; M.A. (1992), Ph.D. (1998) University of California at Los Angeles.

Steven G. Rivkin†, *Associate Professor of Economics*. B.A. (1984) University of Michigan; M.A. (1987), Ph.D. (1991) University of California at Los Angeles.

Paul V. Rockwell†, *Professor of French*. B.A. (1980), M.A. (1982), Ph.D. (1988) University of Wisconsin; A.M. (hon. 2001) Amherst College.

Christian Rogowski, *Professor of German*. B.A. (1980) Mannheim University; M.A. (1981) London University; Ph.D. (1988) Harvard University; A.M. (hon. 2001) Amherst College.

Ronald C. Rosbottom, *Winifred L. Arms Professor in the Arts and Humanities and Professor of French and European Studies*. B.A. (1964) Tulane University; M.A. (1966), Ph.D. (1969) Princeton University; A.M. (hon. 1990) Amherst College.

Andreola Rossi, *Assistant Professor of Classics*. Laurea Degree (1989) University of Rome; Ph.D. (1997) Harvard University.

Sayres S. Rudy, *Visiting Lecturer in Political Science*. B.A. (1986) Davidson College; M.A. (1990) The Johns Hopkins University; M.Phil. (1995), Ph.D. (2003) Columbia University.

Andrea B. Rushing, *Professor of Black Studies and English*. B.A. (1962) Queens College, City University of New York; M.A. (1970) Simmons College; Ph.D. (1983) University of Massachusetts at Amherst; A.M. (hon. 1987) Amherst College.

Karen Sánchez-Eppler, *Professor of American Studies and English*. B.A. (1981) Williams College; B.A. (1983) Cambridge University; M.A. (1986), Ph.D. (1989) The Johns Hopkins University; A.M. (hon. 2001) Amherst College.

Catherine Ashley Sanderson*, *Associate Professor of Psychology*. A.B. (1990) Stanford University; M.S. (1993), Ph.D. (1997) Princeton University.

Martha A. Sandweiss*, *Professor of American Studies and History*. B.A. (1975) Radcliffe College; M.A. (1977), M.Phil. (1979), Ph.D. (1985) Yale University; A.M. (hon. 2000) Amherst College.

Austin D. Sarat, *William Nelson Cromwell Professor of Jurisprudence and Political Science*. B.A. (1969) Providence College; M.A. (1970), Ph.D. (1973) University of Wisconsin; A.M. (hon. 1984) Amherst College; J.D. (1988) Yale Law School.

Eric W. Sawyer, *Assistant Professor of Music*. A.B. (1985) Harvard College; M.A. (1988) Columbia University; Ph.D. (1994) University of California at Davis.

Martha Saxton*, *Associate Professor of History and Women's and Gender Studies*. B.A. (1967) University of Chicago; Ph.D. (1989) Columbia University.

David E. Schneider, *Assistant Professor of Music*. A.B. (1985) Harvard College; M.A. (1990), Ph.D. (1997) University of California at Berkeley.

Suzanne N. Schneider, *Visiting Assistant Professor of English and Black Studies*. B.A. (1993) Middlebury College; M.A. (2001), Ph.D. (2004) Duke University.

Matthew Schulkind, *Assistant Professor of Psychology*. B.A. (1990) Haverford College; M.A. (1993), Ph.D. (1997) Duke University.

Sigrit Schütz, *Senior Lecturer in German*. *Zwischenprüfung* (1968) Heidelberg Universität; M.A. (1970) University of Massachusetts at Amherst; Ph.D. (1977) Five Colleges.

Elizabeth Seeley, *Andrew W. Mellon Visiting Assistant Professor of Psychology*. B.A. (1996) Middlebury College; M.A. (2001), Ph.D. (2003) Northwestern University.

John W. Servost, *Anson D. Morse Professor of History*. A.B. (1972) Columbia College; Ph.D. (1979) The Johns Hopkins University; A.M. (hon. 1992) Amherst College.

Nishiten Shah*, *Assistant Professor of Philosophy*. B.S. (1991) University of Wisconsin at Madison; Ph.D. (2000) University of Michigan.

Nitasha Tamar Sharma, *Five College Visiting Assistant Professor of American Studies*. B.A. (1995) University of California at Santa Cruz; M.A. (1998), Ph.D. (2004) University of California at Santa Barbara.

Tong Shen, *Lecturer in Asian Languages and Civilizations (Chinese)*. M.A. (1988) Long Island University; Ph.D. (1995) University of Massachusetts at Amherst.

Dale S. Sinos, *Visiting Professor of Classics*. B.A. (1968) Hunter College, City University of New York; M.A. (1973), Ph.D. (1976) The Johns Hopkins University.

Rebecca H. Sinos, *Professor of Classics*. A.B. (1976) The College of William and Mary; M.A. (1978), Ph.D. (1980) The Johns Hopkins University; A.M. (hon. 1992) Amherst College.

Patricia L. Sipe, *Visiting Associate Professor of Mathematics*. B.S. (1974) Union College; M.S. (1977), Ph.D. (1979) Cornell University.

Thomas P. Smith, *Visiting Assistant Professor of Philosophy*. A.B. (1983) Stanford University; J.D. (1986) Harvard Law School.

David R. Sofield, *Samuel Williston Professor of English*. B.A. (1957) Princeton University; M.A. (1965), Ph.D. (1971) Stanford University; A.M. (hon. 1977) Amherst College.

- M. Lewis Spratlan**, *Peter R. Pouncey Professor of Music*. B.A. (1962), M.Mus. (1965) Yale University; A.M. (hon. 1980) Amherst College.
- Natasha Staller**, *Associate Professor of Fine Arts*. B.A. (1973) Wellesley College; Ph.D. (1983) Harvard University.
- Norton Starr**, *Brian E. Boyle '69 Professor of Mathematics*. A.B. (1958) Harvard College; Ph.D. (1964) Massachusetts Institute of Technology; A.M. (hon. 1978) Amherst College.
- Jill Stauffer**, *Visiting Assistant Professor of Law, Jurisprudence and Social Thought*. B.A. (1989) M.A. (1997) Ph.D. (2003) University of California at Berkeley.

- Jane A. Taubman**, *Professor of Russian*. B.A. (1964) Radcliffe College; M.A. (1968), Ph.D. (1972) Yale University; A.M. (hon. 1989) Amherst College.
- William C. Taubman**, *Bertrand Snell Professor of Political Science*. B.A. (1962) Harvard College; M.A. (1965), Ph.D. (1969) Columbia University; A.M. (hon. 1978) Amherst College.
- Wako Tawa**, *William R. Kenan Jr. Professor of Asian Languages and Civilizations*. B.A. (1971) State University of New York at Buffalo; M.A. (1975) International Christian University; Ph.D. (1986) Pennsylvania State University; A.M. (hon. 2000) Amherst College.
- Ethan Temeles**, *Associate Professor of Biology and Pick Reader*. A.B. (1978) Cornell University; M.Sc. (1980) Louisiana State University; Ph.D. (1987) University of California at Davis.
- Xiaoping Teng**, *Lecturer in Asian Languages and Civilizations (Chinese)*. B.A. (1982), M.A. (1984) Tianjin University; M.A. (1994) University of Massachusetts at Amherst.
- William E. Thurston†**, *Professor of Physical Education*. B.S. (1957), M.S. (1962) University of Michigan; A.M. (hon. 1979) Amherst College.
- Ronald S. Tiersky**, *Joseph B. Eastman '04 Professor of Political Science*. B.A. (1966) University of Illinois; M.A. (1971), Ph.D. (1972) Columbia University; A.M. (hon. 1987) Amherst College.

Robert C. Townsend, *Class of 1959 Professor of English*. B.A. (1957) Princeton University; M.A. (1959) Cambridge University; Ph.D. (1962) Harvard University; A.M. (hon. 1974) Amherst College.

Christina Tsoules Soriano, *Visiting Lecturer in Theater and Dance*. B.A. (1998) Trinity College; M.F.A. (2003) Smith College.

Sarah M. Turgeon, *Assistant Professor of Psychology*. B.A. (1989) Kenyon College; Ph.D. (1994) University of Michigan.

Martha M. Umphrey*, *Associate Professor of Law, Jurisprudence and Social Thought*. B.A. (1986), J.D. (1991), Ph.D. (2000) University of Michigan.

Joel M. Upton, *Professor of Fine Arts*. A.B. (1963) Rutgers University; M.A. (1968), Ph.D. (1972) Bryn Mawr College; A.M. (hon. 1984) Amherst College.

Daniel J. Velleman*, *Professor of Mathematics*. B.A. (1976) Dartmouth College; M.A. (1977), Ph.D. (1980) University of Wisconsin; A.M. (hon. 1992) Amherst College.

Jonathan M. Vogel, *Professor of Philosophy*. B.A. (1976), Ph.D. (1986) Yale University; A.M. (hon. 1998) Amherst College.

Helen von Schmidt, *Senior Lecturer in English*. A.B. (1978) Amherst College.

Frank H. Westhoff, *James E. Ostendarp Professor of Economics*. S.B. (1969) Massachusetts Institute of Technology; M.Ph. (1971), M.A. (1973), Ph.D. (1974) Yale University; A.M. (hon. 1985) Amherst College.

Patrick Williamson, *Edward H. Harkness Professor of Biology*. B.A. (1970) Beloit College; M.A. (1971), Ph.D. (1974) Harvard University; A.M. (hon. 1990) Amherst College.

David W. Wills, *Winthrop H. Smith '16 Professor of American History and American Studies (Religion and Black Studies)*. A.B. (1962) Yale University; B.D. (1966) Princeton Theological Seminary; Ph.D. (1975) Harvard University; A.M. (hon. 1983) Amherst College.

Geoffrey R. Woglom, *Richard S. Volpert '56 Professor of Economics*. B.A. (1968) Yale College; M.Ph. (1970), Ph.D. (1974) Yale University; A.M. (hon. 1984) Amherst College.

Wendy Woodson, *Professor of Theater and Dance*. B.A. (1969), M.A. (1976) George Washington University; A.M. (hon. 2000) Amherst College.

Beth V. Yarbrough, *Willard Long Thorp Professor of Economics*. B.S. (1977) University of Texas; M.A. (1980), Ph.D. (1983) University of Washington; A.M. (hon. 1993) Amherst College.

Robert M. Yarbrough, *Adjunct Professor of Economics*. B.S. (1977) University of Texas at Dallas; M.A. (1980), Ph.D. (1983) University of Washington.

Alison Young, *Visiting Lecturer in Law, Jurisprudence and Social Thought*. LL.B. (1984) Edinburgh University; M.Phil. (1985), Ph.D. (1988) University of Cambridge.

Patrick R. Young, *Andrew W. Mellon Visiting Assistant Professor of History*. B.A. (1987) Hamilton College; M.A. (1990), M.Phil. (1992), Ph.D. (2000) Columbia University.

Arthur G. Zajonc*, *Professor of Physics*. B.S.E. (1971), M.S. (1973), Ph.D. (1976) University of Michigan; A.M. (hon. 1991) Amherst College.

Paola Zamperini, *Assistant Professor of Asian Languages and Civilizations (Chinese)*. B.A. (1991) University of Ca' Foscari, Venice, Italy; M.A. (1994), Ph.D. (1999) University of California at Berkeley.

William F. Zimmerman, *Professor of Biology*. B.A. (1960), Ph.D. (1966) Princeton University; A.M. (hon. 1980) Amherst College.

Cheryl Zoll, *Visiting Lecturer in Black Studies*. B.A. (1985) Harvard University; M.A. (1992) Brandeis University; M.A. (1994), Ph.D. (1996) University of California at Berkeley.

FELLOWS

Sheila Barker, Ph.D., *Copeland Fellow*.

Margaret Bruchac, M.A., *Five College Fellow, Program for Minority Scholars*.

Aude Cirier, DEA, *Copeland Fellow*.

Noah Charney, A.B., *Teaching Fellow in Physics*.

Robert Karjel, M.Sc., *Copeland Fellow*.

Rajesh Kasturirangan, Ph.D., *Copeland Fellow*.

Michael L. Mannin, M.A., *Karl Loewenstein Fellow in Political Science*.

Grischa Meyer, M.F.A., *Copeland Fellow*.

Peter D. Rush, Ph.D., *Karl Loewenstein Fellow in Political Science*.

Jon A. Sanborn, Ph.D., *Senior Research Fellow in Chemistry*

Rikita L. Tyson, A.B., *Writing Fellow*.

LANGUAGE ASSISTANTS

Florian Alix, *Language Assistant in French*, Ecole Normale Supérieure.

Sabine Baudisch, *Language Assistant in German*, Göttingen University.

Dennis Bühring, *Language Assistant in German*, Göttingen University.

Aurore Dremeaux, *Language Assistant in French*, University of Dijon.

Yuko Kawahara, M.A., *Language Assistant in Japanese*.

Delphine Palissot, *Language Assistant in French*, Levy-Despas Fellow.

Atsuko Shimizu, *Language Assistant in Japanese*.

FACULTY COMMITTEES

Committee of Six. Professors Cheney, Damon, Dizard, Hunt, Tawa, and Townsend; President Marx (*ex officio*); Dean Call (Secretary, *ex officio*).

Academic Standing and Special Majors. Professors Burkett, Hussain, and Staller (Co-Chair); Deans Boykin-East (*ex officio*), Case, Gentile (*ex officio*), Hart, Haynes (*ex officio*), Lieber (Co-Chair), Moss, and Tuleja; Mr. Mager (Secretary, *ex officio*).

Adjudication. Professors Armacost, Dougan, S. George, Jagannathan, Kallick, Rosbottom, Sarat, and R. Sinos.

Admission and Financial Aid. Professors Aries, Chickering (Chair), David Hall, and Hewitt; Deans Call (*ex officio*), Case (*ex officio*), Fretwell (*ex officio*), Lieber (*ex officio*), and Parker (Secretary, *ex officio*); two students to be elected, two students to be appointed by the Dean of Admission.

Affirmative Action, Advisory. To be announced.

Archives. Professor Niditch, Mses. Harrington (*ex officio*) and D'Arienzo (*ex officio*), Mr. Lancaster (*ex officio*).

College Council. Professors Barale (Chair, second semester), J. Moore (Chair, first semester), and K. Sweeney; Deans Boykin-East, Haynes, and Lieber (*ex officio*); five students to be elected; President of Association of Amherst Students (*ex officio*).

College Housing. Professors Benedetto, Brandt, R. Sweeney, and Woodson; Ms. Bryne (*ex officio*); Messrs. Healy (*ex officio*) and Shea (*ex officio*).

Discipline. Professors Epstein, A. George, Rogowski, and Turgeon; Dean Lieber (Chair, *ex officio*); four students to be elected.

Doshisha. Professors Caddeau, Morse (Chair), and Reck.

Educational Policy. Professors Couvares, de la Carrera, Himmelstein, and Leung; Mr. Lobdell; Dean Call (*ex officio*); three students to be elected.

Education and Athletics. Professors Gooding, Demorest, Kaplan (Chair), and Williamson; Ms. Everden; Mr. Hixon; Dean Lieber (*ex officio*); two students to be elected.

Faculty Computer. Professors Miller, Rager, and Sawyer; Director of Information Technology.

First-Year Seminars. Professors Goheen, Hansen (Chair), and Peterson.

Health and Safety. Professors Schulkind, Tiersky, and Upton; Dean Lieber (Chair); Mses. Bearce and Bryne; Dr. Morgan; Messrs. Brassord, Carter, R. Hebert, and Hixon; two students to be elected.

Health Professions. Professors Bishop, Clotfelter, S. George (Chair), and Loinaz; Dean Bassett (*ex officio*).

Honorary Degrees. Professor Townsend (first semester) and two other faculty members to be elected; four students to be elected; Senior Class President (*ex officio*).

Lecture and Eastman Fund. Professors Greenstein, Mehta, and Vogel (Chair).

Library. Professors Niditch, L. McGeoch, and Westhoff; Ms. Harrington (*ex officio*); two students to be elected.

Orientation. Professors Hagadorn and Sánchez-Eppler; Deans Boykin-East, Hart (Chair), and Moss; Ms. McGoldrick; three students to be appointed.

Priorities and Resources. Professors Gentzler, Harms (Chair), and B. Yarbrough; President Marx (*ex officio*); Dean Call (*ex officio*); Mr. Shea (*ex officio*); Mses. Bryne (*ex officio*) and Gurek (*ex officio*); three students to be elected.

Research Awards. Professors Hilborn, Redding, and Woglom.

Student Fellowships. Professors Babb (Chair), Caplan, Kushick, D. Schneider, and Zamperini; Dean Case (Secretary, *ex officio*).

Advisory Committee to the Committee on Trusteeship. Professors Courtright and Townsend.

Five College Representative to the University of Massachusetts Graduate Council. Professor Goldsby.

Administrative and Professional Officers

Anthony W. Marx, *President of the College*. B.A. (1981) Yale College; M.P.A. (1986), M.A. (1987), Ph.D. (1990) Princeton University; L.H.D. (hon. 2004) Williams College; A.M. (hon. 2004) Amherst College.

Gregory S. Call, *Dean of the Faculty*. A.B. (1980) Dartmouth College; A.M. (1981), Ph.D. (1986) Harvard University; A.M. (hon. 2001) Amherst College.

Ira S. Addes, *Psychiatrist, Counseling Center*. B.A. (1969) Brooklyn College; M.D. (1973) Tufts University School of Medicine.

A. Elizabeth Anema, *Director of the Annual Fund*. A.B. (1991) Mount Holyoke College; Ed.M. (2000) Harvard University.

Jack A. Arena, *Senior Coach, Physical Education and Athletics*. A.B. (1983) Amherst College; M.S. (1988) University of Massachusetts at Amherst.

Jacqueline K. Bagwell, *Senior Coach, Physical Education and Athletics*. B.S. (1982) Indiana University.

William E. Barlow, *Director of Development*. B.A. (1983) Wesleyan University.

Carolyn S. Bassett, *Assistant Dean of Students and Assistant Director of Career Center, Health Professions Advisor*. B.A. (1989) Bates College; M.A. (1996) Boston College.

Dawn M. Bates, *Investment Analyst*. B.B.A. (1991) University of Massachusetts at Amherst; C.P.A. (1994).

Jacqueline S. Bearce, *Director of Counseling Center*. B.A. (1966) Merrimack College; M.A. (1968), M.Ed. (1978), Ed.D. (1981) University of Massachusetts at Amherst.

Jane A. Beebe, *Head of Cataloging/Music Librarian*. B.A. (1977) College of Wooster; M.M. (1980) University of Tennessee; M.S.L.S. (1982) University of North Carolina at Chapel Hill.

Paul N. Billings, *Project Manager, Database Services*.

Laurie M. Bouchard, *Assistant Comptroller*. B.S. (1991) American International College; C.P.A. (1995).

Charri J. Boykin-East, *Senior Associate Dean of Students and Director of Residential Life*. B.A. (1983) University of Massachusetts at Amherst; M.Ed. (1984) Cambridge College.

James D. Brassord, *Director, Facilities Planning and Management*. B.S. (1982) University of Connecticut; M.S. (1985) Rensselaer Polytechnic Institute; M.B.A. (1993) University of Connecticut.

Kathryn V. Bryne, *Director of Human Resources*. B.A. (1972) University of Wisconsin at Milwaukee; M.B.A. (1987) Simmons College.

Meg Caddeau, *Assistant Dean of Admission*. A.B. (1986) Brown University; M.A. (1989) Columbia University.

Daniel B. Campbell, *Assistant Director of Physical Plant for Operations*. B.S. (1982) University of Massachusetts at Amherst.

Elizabeth Cannon Smith, *Alumni Secretary and Executive Director of Alumni and Parent Programs*. A.B. (1984) Amherst College.

John B. Carter, *Chief of Public Safety*. B.S. (1985) University of Lowell; M.S. (1998) Fitchburg State College.

Joe Paul Case, *Dean/Director of Financial Aid*. B.A. (1967) Oklahoma City University; B.D. (1970) Yale University Divinity School.

David D. Cernak, *Project Manager, Database Services*. B.A. (1965), M.B.A. (1972) American International College.

Mark A. Cherrington, *College Editor*. B.A. (1975) Syracuse University; M.S. (1984) Boston University.

Trinkett Clark, *Curator of American Art*. B.A. (1973) Connecticut College; M.A. (1976) George Washington University.

Caroline V. Cuthbert, *Associate Director of Alumni and Parent Programs*. A.B. (1990) Amherst College.

Daria D'Arienzo, *Head of Archives and Special Collections*. B.A. (1976) Boston University; M.A.L.S. (1981) Wesleyan University; M.B.A. (1989) University of Massachusetts at Amherst.

Thomas K. Davies, *Assistant Director of Physical Plant for Design and Construction*. B.A., B.S. (1986) University of Pennsylvania; M.S. (1994) Massachusetts Institute of Technology.

Cynthia S. Dickinson, *Director of the Emily Dickinson Museum*. A.B. (1991) Princeton University; M.A. (1993) University of North Carolina at Chapel Hill; M.A. (1995) University of Delaware.

Susan C. Dickman, *Associate Director of Alumni and Parent Programs*. A.B. (1989) Amherst College; M.F.A. (1993) University of Oregon.

Laurie D. Dickson, *Benefits Administrator*. B.S. (1990) Oakland University.

Susan H. Edwards, *Internet/Documents Librarian*. B.A. (1977) San Jose State University; M.L.S. (1980) University of California at Berkeley.

Debra Edelman, *Psychotherapist, Counseling Center*. B.S. (1978), M.Ed. (1987), Ph.D. (1994) University of Massachusetts at Amherst.

Tom Ehrgood, *Director of 50th Reunion Programs*, A.B. (1973) Amherst College; J.D. (1978) George Washington University Law School.

Michael P. Ellison, *Associate Dean of Financial Aid*. B.B.A. (1989) University of Massachusetts at Amherst; M.B.A. (1998) University of Massachusetts at Dartmouth.

Suzanne J. Everden, *Senior Coach and Assistant Athletic Director, Physical Education and Athletics*. B.Sc. (1977) Slippery Rock University; M.Ed. (1980) Springfield College.

Donald R. Faulstick, Jr., *Coach and Assistant Athletic Director*. B.S. (1986) Mansfield University; M.S. (1988) Shippensburg University.

Luke N. Flockerzi, *Assistant Director of Alumni and Parent Programs*. B.A. (2001) Grinnell College; M.S. (2002) University of Massachusetts at Amherst.

Katharine L. Fretwell, *Director of Admission/Senior Associate Dean*. A.B. (1981) Amherst College; Ed.M. (1985) Harvard University.

Kim Gaitskill, *Psychiatrist, Counseling Center*. B.A. (1979) Sarah Lawrence College; M.D. (1987) Rush Medical School.

Mauricia A. Geissler, *Director of Investments*. B.B.A. (1985) University of Wisconsin at Madison.

Kathleen A. Gentile, *Senior Associate Dean of Financial Aid*. B.A. (1977) State University of New York at Geneseo; M.S. (1979), Ed.S. (1979) State University of New York at Albany.

Harrison L. Gregg, *Associate Director of Institutional Research and Project Manager*. A.B. (1964) Harvard College; M.A. (1980) University of Massachusetts at Amherst.

Frederick T. Griffiths, *Associate Dean of the Faculty*. B.A. (1969) Yale College; M.A. (1972), Ph.D. (1974) Harvard University; A.M. (hon. 1984) Amherst College.

Margaret Adams Groesbeck, *Head of Library Reference and Online Services*. B.A. (1968) Barnard College; M.S. (1972) Columbia University; M.A. (1996) University of Connecticut.

Shannon D. Gurek, *Associate Treasurer/Director of Budget*. B.S. (1992) Nichols College; M.B.A. (1999) University of Massachusetts at Amherst; C.P.A. (1995).

Sherre L. Harrington, *Librarian of the College*. B.A. (1976) University of South Carolina; M.L. (1977) University of South Carolina College of Librarianship.

Allen J. Hart, *Dean of New Students*. A.B. (1982) Amherst College; A.M. (1989), Ph.D. (1991) Harvard University.

Michael T. Hawkins, *Associate Dean of Admission*. B.A. (1984) Williams College; M.T.S. (1990) Harvard Divinity School.

Samuel C. Haynes, *Assistant Dean of Students and Director of the Campus Center/Student Activities*. B.A. (1991), M.A. (1994) State University of New York College at Fredonia.

Mark Healy, *Director of Three College Housing*. B.A. (1973) Boston College.

Carolyn G. Hefner, *Associate Director of Major Gifts*. B.A. (1989) Colby College; M.A. (1996) New York University.

Rebecca Henning, *Cataloger*. B.A. (1991) Colby College; M.L.S. (2000) Simmons Graduate School of Library and Information Science.

Marjorie Hess, *Cataloger*. A.B. (1962) Smith College; M.L.S. (1973) State University of New York at Geneseo.

David D. Hixon, *Senior Coach and Associate Athletic Director, Physical Education and Athletics*. A.B. (1975) Amherst College; M.S. (1979) University of Massachusetts at Amherst.

Rosalind Ann Hoffa, *Associate Dean of Students and Director of the Career Center*. B.A. (1965) University of Liverpool, England; M.A. (1982) Colgate University.

Jennifer B. Innes, *Assistant Dean of Students and Director of Quantitative Skills Center*. B.A. (1983) Kalamazoo College; Ph.D. (1993) Yale University.

Alexa Jaffurs, *Head of Access Services, Library*. B.S. (1978) Ohio University; M.L.S. (1987) Florida State University.

Janet Marie Jourdain, *Systems/Media Librarian*. B.A. (1978) Siena College; M.L.S. (1983) University of Arizona at Tucson.

Stephen A. Judycki, *Co-director, Systems, Networking and Telecommunications*. A.S. (1984) Holyoke Community College; B.S. (1990) Westfield State College.

Ruth Kane-Levit, *Psychotherapist, Counseling Center*. B.S. (1976) Simmons College; M.Ed. (1983) Harvard University; Ph.D. (1989) Adelphi University.

Michael Kasper, *Reference Librarian/Coordinator of Collection Development Group*. B.A. (1967) Harpur College; M.L.S. (1973) University of British Columbia.

Carol Solomon Kiefer, *Curator of European Art*. B.A. (1975) LaSalle College; M.A. (1978), Ph.D. (1987) University of Pittsburgh.

Michael C. Kiefer, *Chief Advancement Officer*. B.A. (1974) La Salle College; M.A. (1977) Boston College.

Susan J. Kimball, *Science/Reference Librarian*. A.B. (1995) Bowdoin College; M.S.L.S. (1997) The Catholic University of America.

Mark T. Klingensmith, *Associate Athletic Trainer*. B.S. (1991) Westfield State College.

Gretchen A. Krull, *Assistant Director of Health Education*. B.A. (1971) Wells College; M.Ed. (1987) University of Massachusetts at Amherst.

Jerold Laguilles, *Director of Alumni and Parent Programs*. A.B. (1997) Amherst College; M.S. (1999) University of Maryland at College Park.

John Lancaster, *Curator of Special Collections, Library*. B.A. (1964) Williams College; M.S. (1970) Simmons College School of Library Science.

Demisha W. Lee, *Associate Dean of Admission*. B.A. (1996) Williams College.

Rebecca Lee, *Associate Dean of Students, Career Counselor, and Internship Coordinator*. B.A. (1978), M.S. (1979) University of Pennsylvania.

Constance B. Lentz, *Physician, Student Health Service*. B.A. (1971) Goddard College; M.S. (1977) University of North Carolina; M.D. (1980) State University of New York at Buffalo.

Paullette M. Leukhardt, *Assistant Director, Database Services*. B.S. (1976) University of Massachusetts at Amherst.

Benson Lieber, *Dean of Students*. B.A. (1972) Columbia College; M.A. (1974), M.Phil. (1978) Columbia University.

Patricia F. Long, *Associate Director of Human Resources*. B.S. (1979) Westfield State College.

Susan L. Newton, *Assistant Director of Foundation and Corporate Relations*. B.A. (1977) Southeast Missouri State University; M.S. (1980), Ph.D. (1986) Purdue University.

George D. Nichols III, *Head Swim Coach and Director of Aquatics, Physical Education and Athletics*. B.A. (1982) St. Lawrence University.

Stephen M. Nigro, *Comptroller*. B.S. (1990) Westfield State College; C.P.A. (1995).

Diane Norman-Lentz, *Family Nurse Practitioner, Student Health Service*. B.A. (1978) Vassar College; M.S.N., R.N.C. (1985) Pace University.

Catherine O'Hara Edwards, *Director of Advancement Operations*. A.B. (1987) Amherst College; M.B.A. (1991) INSEAD.

Christine Paradis, *Coach, Physical Education and Athletics*. B.B.A. (1984) College of William and Mary; M.Ed. (1993) Springfield College.

Thomas H. Parker, *Dean of Admission and Financial Aid*. B.A. (1969) Williams College; M.A.T. (1973) Harvard University.

Gail Kern Paster, *Director of Folger Shakespeare Library*. B.A. (1966) Smith College; M.Phil. (1970), Ph.D. (1972) Yale University.

George W. Phillips, *Psychotherapist, Counseling Center*. B.A. (1972) University of Pennsylvania; Psy.D. (1995) Massachusetts School of Professional Psychology.

Robyn L. Piggott, *Director of Foundation and Corporate Relations*. A.B. (1990) Mount Holyoke College; M.A. (1991), M.Phil. (2000) University of Sheffield.

Susan Pikor, *Executive Assistant to the President and Secretary of the Board of Trustees*. A.B. (1965) Emmanuel College.

John A. Pistel, *Senior Development Officer and Director of Principal Gifts*. A.B. (1969) Amherst College; M.A. (1973) Fairfield University.

James J. Plumer, *Coach, Physical Education and Athletics*. B.A. (1983) Colby College.

Maria Rello, *Associate Athletic Trainer*. B.S. (1989), M.S. (1994) University of Massachusetts at Amherst.

Peter H. Robson, *Senior Coach, Physical Education and Athletics*. B.A. (1981) Trent University, Ontario, Canada.

Stacey Schmeidel, *Director of Public Affairs*. B.A. (1986) University of Southern California.

Robert S. Schur, Jr., *Coach, Physical Education and Athletics*. A.B. (1998) Amherst College.

Diana C. Sriver, *Director of Donor Relations*. B.S. (1983) University of Massachusetts at Amherst.

Peter J. Shea, *Treasurer*. B.B.A. (1974), M.B.A. (1979) University of Massachusetts at Amherst.

Susan M. Sheridan, *Head of Library Technical Services*. B.A. (1973) Douglass College; M.L.S. (1974) Rutgers University; M.P.A. (1984) University of Massachusetts at Amherst.

Barbara Trippel Simmons, *Processing Archivist*. B.A. (1976) Colby College; A.M.L.S. (1979) University of Michigan.

Susan R. Snively, *Associate Dean of Students and Director of the Writing Center*. A.B. (1967) Smith College; M.A. (1968), Ph.D. (1976) Boston University.

Margaret A. Stancer, *Director of Desktop Computing Services*. B.A. (1970) University of California at Riverside.

Paul Statt, *Director of Media Relations*. A.B. (1978) Amherst College.

Pamela L. Stawasz, *Associate Director of Alumni and Parent Programs*. B.A. (1994) Trinity College.

Charles G. Thompson, *Director of Dining Services*. A.O.S. (1977) Culinary Institute of America.

Janet Tobin, *Assistant Dean of the Faculty*. B.A. (1982) Bates College; M.A. (1990) University of Massachusetts at Amherst.

Paul M. Trumble, *Head of Serials, Library*. B.A. (1979) State University of New York at Potsdam; M.L.S. (1989) University of Rhode Island.

Frances E. Tuleja, *Associate Dean of Students*. B.A. (1974) Douglass College, Rutgers University; M.A. (1984) University of Pennsylvania.

William McC. Vickery, *Assistant Treasurer for Business Administration/Coordinator of Special Projects, Office of Alumni and Parent Programs*. A.B. (1957) Amherst College; M.B.A. (1959) Harvard Business School.

Jane H. Wald, *Associate Director of the Emily Dickinson Museum*. A.B. (1980) Bryn Mawr College; M.A. (1987) Princeton University.

Thomas A. Warger, *Interim Director of Information Technology*. B.A. (1974) Union College; M.A. (1976), Ph.D. (1979) Brown University.

P. Louise Westhoff, *Associate Registrar*.

Scott H. Willson, *Senior Major Gifts Officer*. B.S. (1959), M.Ed. (1984) Springfield College.

Stanley M. Zieja, *Head Athletic Trainer*. B.S. (1973) University of Massachusetts at Amherst; M.S. (1976) United States International University at San Diego.

Cate Granger Zolkos, *Associate Dean of Admission*. B.A. (1983) Middlebury College.

AMHERST COLLEGE

Amherst College

AMHERST COLLEGE looks, above all, for men and women of intellectual promise who have demonstrated qualities of mind and character that will enable them to take full advantage of the College's curriculum. The College seeks qualified applicants from different races, classes, and ethnic groups, students whose several perspectives might contribute significantly to a process of mutual education within and outside the curriculum. Admission decisions aim to select from among the many qualified applicants those possessing the intellectual talent, mental discipline, and imagination that will allow them most fully to benefit from the curriculum and to contribute to the life of the College and of society. Grades, standardized test scores, essays, recommendations, independent work, the quality of the individual's secondary school program and achievements outside the classroom are among the factors used to evaluate this promise, but no one of these measures is considered determinative.

Founded in 1821 as a non-sectarian institution for "the education of indigent young men of piety and talents for the Christian ministry," Amherst today is an independent liberal arts college for men and women. Its approximately 1,650 students come from most of the fifty states and many foreign countries.

The campus is near the center of the town of Amherst, adjacent to the town common. A few miles away are four other institutions of higher learning—Hampshire, Mount Holyoke, and Smith Colleges, and the University of Massachusetts—with which Amherst engages in a number of cooperative educational programs.

The College offers the bachelor of arts degree and cooperates with the University of Massachusetts in a Five College Ph.D. program. The College curriculum involves study in the humanities, the social sciences, and the natural sciences and combines a broad education with knowledge of some field in depth. Emphasis falls upon each student's responsibility for the selection of an appropriate program.

Some students may engage in independent study free of formal courses in their junior and senior years; Honors work is encouraged and in recent years has been undertaken by nearly half of the graduating class.

Whatever the form of academic experience—lecture course, seminar, conference, studio, laboratory, independent study at various levels—intellectual competence and awareness of problems and methods are the goals of the Amherst program, rather than the direct preparation for a profession. The curriculum enables students to arrange programs for their own educational needs within established guidelines. Faculty advisors, representing all academic departments, assist undergraduates in their course selections; but the ultimate responsibility for a thoughtful program of study rests with the individual student.

The College's Faculty is engaged in two primary activities: first, the education of undergraduates; and, second, research and writing. Its 165 full-time members hold degrees from colleges and universities throughout this country and abroad. Classes range in size from several courses of about five students to a few lecture courses of more than 100 students; about 80 percent of the classes and sections have 25 students or fewer.

Amherst has extensive physical resources: libraries with about 1,000,000 volumes and over 29,000 other media materials, science laboratories, a mathematics and computer science building, theaters, gymnasium, swimming pool,

skating rink, squash and tennis courts, playing fields, a museum of fine arts and another of natural sciences, a music center and concert hall, a dance studio, a central dining hall for all students, a campus social center that includes a snack bar and movie theater, dormitories, media center, and classroom buildings. There are a wildlife sanctuary and a forest for the study of ecology, an observatory and a planetarium, and varied equipment for specialized scientific research. At Amherst, and at its neighboring institutions, there are extensive offerings of lectures, concerts, plays, films, and many other events.

The College provides a variety of services to support the academic work of students. In addition to the advising and teaching support provided by the Faculty, the services include a tutorial program, reading and study skill classes, an Interterm pre-calculus course, a full-time writing counselor, and tutoring for students for whom English is a second language. For more details, please contact the Office of the Dean of Students.

Amherst has a full schedule of intercollegiate athletics for men and women in most sports. About 85 percent of all students participate in the physical education program or in organized intramural athletics.

Undergraduates may also take part in a variety of other extracurricular activities: journalism, public service, publishing, broadcasting, music, dramatics, student government, College committees, and a wide assortment of specialized interests. Religious groups, working independently or through the religious advisors, maintain a program of worship services, Bible study, community service projects, and other activities.

Most graduates continue their formal education to enter such professions as teaching, medicine, law, and business. At Amherst, presumably they have only begun their life-long education at "commencement," but have developed attitudes and values that will encourage them to participate thoughtfully and generously in the service of humanity.

Amherst College is pleased to provide the following information regarding our institution's graduation rates in compliance with the Higher Education Act of 1965, as amended. The rates reflect the graduation status of students who enrolled during the 1996-97 school year and for whom 150% of the normal time-to-completion has elapsed.

During the fall semester of 1997, 431 first-time, full-time, degree-seeking undergraduate students entered Amherst College. As of August 31, 2003, 97% of those students had graduated from our institution.

Questions related to this report should be directed to: Gerald M. Mager, Registrar, Amherst College, Box 5000, Amherst, MA 01002-5000.

FIVE COLLEGE COOPERATION

Amherst is joined with Hampshire, Mount Holyoke and Smith Colleges and the University of Massachusetts in a consortium that sponsors a variety of cooperative programs and enterprises. The goal of cooperation among the five colleges is to enrich the educational opportunities available to students by providing them with access to the resources of all five institutions.

Students are entitled to participate in a course interchange program which allows them to construct up to one half of their program from liberal arts courses at the four other colleges without additional cost. (See page 64 for further information.) Also freely available to students are the libraries of each institution. The present and continuing emphasis of the Five College Libraries is on the sharing and enhancement of total resources and services.

A monthly calendar of lectures, concerts and other cultural events on all five campuses is available online to the Five College community. Access to classes, libraries, and extracurricular activities is made feasible by a free transportation system connecting all five campuses.

An FM radio station (WFCR 88.5) is supported by all five colleges. It is managed by the University with the advice of a board made up of representatives of the cooperating institutions. The five colleges also cooperate in sponsoring *The Massachusetts Review*, a quarterly of literature, the arts, and public affairs.

Academic cooperation includes two joint departments—Astronomy and Dance—and coordinated programs in African-American Studies, East Asian Studies, Latin American Studies and Linguistics. Joint faculty appointments make possible the presence of talented professors in highly specialized areas. Five College senior appointments bring to the area distinguished international figures, listed on pages 330-338.

EXCHANGE PROGRAMS AND STUDY ABROAD

The College encourages students to participate in educational programs at other institutions in the United States and abroad. In addition to the following programs sponsored or co-sponsored by Amherst, students may participate in programs offered by other American or foreign institutions. For further information and guidelines concerning educational leave from the College, see page 56.

Selected students may participate in Independent Study projects under guidance from a teacher at Amherst College without enrollment at host institutions and may pursue their studies elsewhere in the United States or abroad.

The Twelve College Exchange

Within the Northeast, the College has special exchange arrangements with Bowdoin, Connecticut, Dartmouth, Mount Holyoke, Smith, Trinity, Vassar, Wellesley, Wheaton, and Williams Colleges, and Wesleyan University, which together form the Twelve College Exchange Program. This arrangement gives students who wish to take advantage of special programs not available in the Five College area, or who wish to experience a similar, but different, college environment, the opportunity to do so with the minimum of difficulty. Further information is available from the Twelve College Exchange coordinators of the participating colleges. The coordinator for Amherst College is Associate Dean of Students Frances Tuleja.

The Williams College-Mystic Seaport Program in American Maritime Studies

This program is available to undergraduate participants through the Twelve College Exchange program. Its purpose is to provide undergraduates with the opportunity to focus one semester of their studies on man's relationship with the sea. Further information is available in the Office of the Dean of Students.

The National Theatre Institute

Through a Twelve College Exchange arrangement, undergraduate participation in the program of the National Theatre Institute, Waterford, Conn., is possible. Further information is available in the Office of the Dean of Students.

The Associated Kyoto Program

The Associated Kyoto Program, sponsored by Amherst and 15 other institutions, is hosted by Doshisha University in Kyoto, Japan. It emphasizes direct and intensive contact with the Japanese and aims to develop in students an understanding of Japan's culture, history, language, and contemporary society. The program carries credit equivalent to a full academic year's course work. About 50 students are admitted each year, with applicants from member

institutions receiving priority. Information can be obtained from Professors Samuel C. Morse or Wako Tawa or the Study Abroad Advisor.

Göttingen Exchange

Amherst maintains a student exchange program with Göttingen University in Germany. Each year, upon application to the Department of German, two Amherst students are selected to attend Göttingen University. In return, Amherst accepts two Göttingen students to study at the College and to serve as Language Assistants in the German Department. Details about the exchange programs may be obtained from the Department of German.

Doshisha University

THE COLLEGE'S relationship with Doshisha University offers various opportunities for students and faculty to study, to research, and to teach in Japan. Located in Japan's ancient imperial capital of Kyoto, The Doshisha was founded by Joseph Hardy Neesima of the Class of 1870, the first Japanese to graduate from a Western institution of higher learning. Neesima stowed away aboard a clipper ship from Japan while that country was still officially "closed." From the China Coast he eventually arrived in 1865 aboard a ship owned by Alpheus Hardy, who was a trustee of both Phillips Academy, Andover, and Amherst College.

After graduating from both Andover and Amherst, Neesima returned to Japan to found a Christian college in Kyoto. From this modest start The Doshisha has developed into a complex of educational institutions: Doshisha University, a separate Women's College, four senior and four junior high schools and a kindergarten, with a total enrollment of approximately 32,000 on five different campuses. The Doshisha is one of the oldest and best known private educational institutions in Japan.

Scores of Amherst graduates have taught at The Doshisha, and since 1922, except for the war years, Amherst has maintained a resident instructor at Doshisha University. Since 1947 until his retirement in 1992, Professor Otis Cary of the Class of 1943 represented Amherst College at Doshisha, taught American history at the University, and served in a number of other capacities. Currently, Professor Hideo Higuchi is acting as our Amherst representative.

Through the generosity of alumni and friends of the College, Amherst House was built on the Doshisha University campus in 1932 as a memorial to Neesima and to Stewart Burton Nichols of the Class of 1922, the first student representative. In 1962, the College, thanks to further generosity of friends and alumni, built a guest house of modern Japanese design, including quarters for the Representative, three guest suites, and dining facilities. In 1979 a traditional rustic teahouse, *Muhinshuan*, was donated by the family of a Japanese alumnus and rebuilt in a corner of the Amherst House grounds, lending cultural atmosphere appropriate to Kyoto.

In 1971 the College took the lead in organizing the Associated Kyoto Program (AKP), a junior-year program at Doshisha University for Amherst students and others who wish to pursue the study of Japanese language, culture, and history. This program offers the main avenue today for both student and faculty contact with Doshisha University. With offices on Doshisha's main campus since 1971, the AKP, sponsored by 15 American liberal arts colleges, has hosted more than 1,000 American undergraduates for a year of study in Kyoto and has awarded more than 40 fellowships to American and Japanese faculty to participate in educational exchange for periods of one or two semesters. Opportunities for faculty

participation in the AKP are announced in the spring semester every year. Also, since 1958, a graduating Amherst College senior has been selected annually as the Amherst-Doshisha Fellow to spend a year at Doshisha University.

Since 1976 an arrangement with Doshisha University has been established which permits a member of one of the six Faculties (Theology, Letters, Law, Economics, Commerce, Engineering) to spend a year's leave at Amherst.

The Folger Shakespeare Library

THE FOLGER SHAKESPEARE LIBRARY in Washington, D.C., was established in 1932 under the governance of The Trustees of Amherst College by the will of Henry Clay Folger, Class of 1879, and his wife, Emily Jordan Folger. The Folgers' original collection of Shakespeareana remains the largest and most complete in existence today. Subsequent acquisitions have enabled the Library now to claim the largest accumulation of English language publications from 1475 to 1640 outside of England, as well as other important Continental Renaissance materials. Folger holdings span a broad range of subjects and include books, manuscripts, documents, paintings, illustrations, tapestries, furnishings, musical instruments, musical scores, and curios from the Renaissance and theater history.

Located one block from the U.S. Capitol, next to the Library of Congress, the Folger collection is housed in a landmark building widely considered among the loveliest in the nation's capital. Inside its elegant art deco marble facade is an Elizabethan interior with vaulted ornamental plaster ceilings, richly panelled walls, stone and tile floors, and windows of leaded and stained glass. Scholars from all over the world use the Reading Room, modeled after a Tudor banquet hall, and its luminous modern addition, which opened in 1983. Beneath the Reading Room are two block-long subterranean vaults where the collection is stored. Exhibitions from the collection are mounted in the Great Hall, a Tudor long gallery that is open to the public without charge six days a week. An adjacent theater, designed after an Elizabethan innyard playhouse, is the home of a rich and varied season of public and educational programs.

The Folgers intended the Library to be an active educational center "for the promotion and diffusion of knowledge in regard to the history and writings of Shakespeare." Today the Library serves not only as a resource for scholars, but also as a cultural center presenting a full calendar of public concerts, literary readings, lectures, theatrical productions, and other events during the year; as an academic institution offering more than a dozen advanced seminars under the auspices of the Folger Institute; and as a center for the pre-college teaching of Shakespeare in American schools. Over 200,000 visitors attend exhibitions and events at the Folger each year. Thousands more enjoy the national broadcasts of the Folger Consort, which is in residence at the Library. Others refer to the Library's monographs, the *Shakespeare Quarterly*, and the Folger edition of the complete plays, in progress.

ADMISSION

TUITION AND FEES

FINANCIAL AID

Admission

Amherst College looks, above all, for men and women of intellectual promise who have demonstrated qualities of mind and character that will enable them to take full advantage of our curriculum. We seek qualified applicants from different races, classes and ethnic groups—students whose several perspectives might contribute significantly to a process of mutual education within and beyond the curriculum.

We aim to select from among the many qualified applicants those possessing the intellectual talent, mental discipline and imagination that will allow them most fully to benefit from the curriculum and contribute to the life of the college and society. Grades, standardized test scores, essays, recommendations, independent work, the quality of the secondary school program and achievements outside the classroom are among the factors used to evaluate this promise, but no one of these measures is considered determinative.

THE ADMISSION PROCESS

We take great care to give every application a thorough review. Each application is read by at least two admission deans before being presented to the Admission Committee for discussion. We pay closest attention to a student's:

- secondary school (or college) transcript;
- standardized tests: the SAT I and three SAT II exams or simply the ACT. (Due to upcoming changes in the SAT and ACT, applicants applying for a place in the Class of 2010 and beyond will have a revised set of testing requirements. Please visit www.amherst.edu/admission for specific details.);
- teacher and counselor recommendations;
- quality of writing as demonstrated in essays, testing and recommendations;
- extra- and co-curricular involvements and talents.

We give the greatest weight to the academic transcript. The rigor of the courses taken, the quality of grades and the consistency with which a student has worked over four years give us the clearest indication of how well a student will do at Amherst. Standardized tests also play an important role in helping us evaluate a student in comparison to students taught in very different secondary schools. Recommendations, the quality of a student's writing, and extra- and co-curricular talents also help the Admission Committee draw fine distinctions among very talented applicants.

While no precise list of secondary school courses is required for entrance, we strongly recommend the following as minimal preparation for a liberal arts education at Amherst, with the understanding that content and availability will vary from school to school and that most successful applicants will have taken a course of study well beyond this minimum: English—four years; Mathematics—through pre-calculus; three or four years of one Foreign Language; two years of History and Social Science; at least three years of Natural Science, including one year of Laboratory Science.

FIRST-YEAR APPLICANTS

Applying. We require first-year applicants to submit the Common Application and the Amherst College Common Application Supplement by the appropriate application deadline. Applicants may mail in their applications or submit their

applications electronically. If an applicant chooses to mail in an application, we ask that the applicant submit our Pre-Application with a \$55 processing fee or fee-waiver request at least two weeks prior to the chosen application deadline. Sometime after that, but before the appropriate deadline, applicants should submit the Common Application, the Amherst Common Application Supplement, and all supporting materials. We will mail these forms upon request, or they may be downloaded from the Office of Admission website. Students may access an online version of Amherst's application from our website (www.amherst.edu/admission) as well. We automatically mail applications to all seniors on our mailing list.

Regular Decision. More than 90 percent of our applicants choose the Regular Decision option. A student must mail the application by December 31 and will receive our application decision by early April. If admitted, a student will need to reply to our offer by May 1.

Early Decision. About 10 percent of Amherst applicants choose our binding Early Decision (ED) program. This is a good option only for those who have decided early in the college search process that Amherst is their clear first choice. As an Early Decision applicant, a student agrees not to be an ED candidate at any other college. The student also agrees, if admitted, to withdraw Regular Decision applications from other colleges and to enroll at Amherst in the fall.

Early Decision applications are due at the Admission Office by November 15, and we mail our application decisions by December 15. Most ED applicants are either admitted or deferred for reconsideration with the regular decision pool.

IB, AP and College Courses. If a student has taken International Baccalaureate, Advanced Placement or college courses during secondary school, we view this as significant evidence of academic accomplishment and preparation. In addition, some Amherst departments will allow a student to forego introductory-level courses in areas in which rigorous work has already been done. However, we do not accept such courses for credit or advanced standing.

Deferred Admission. An admitted first-year student may, with the permission of the Director of Admission, defer matriculation for a year without reapplying. The student should confirm his or her intent to enroll at Amherst by submitting the matriculation form and required deposit along with a written request for the deferral by May 1. Deferred students wishing to receive credit for academic work completed during the year between high school and their enrollment at Amherst will need to reapply for entrance to the College as transfers.

TRANSFER APPLICANTS

A student is eligible for transfer admission to Amherst if a minimum of 30 semester hours of credit transferable to Amherst College have been completed as a full-time student at a college or university. We do not accept applications from individuals who have already earned an undergraduate degree. Five College students are not encouraged to transfer to Amherst.

We ask transfer students to submit the Amherst College Transfer Application (the Common Application is not accepted for this purpose) with a \$55 application processing fee. We will mail our application upon request. Students may access an online version of our transfer application from the Office of Admission website. Fall transfer applicants must mail the application by February 1 and will receive our response late in May. If admitted, fall transfer students must reply to our offer in early June. Spring transfer applicants must

ensure that the application arrives at the Admission Office no later than November 1. An application decision will be mailed in late December. If admitted, spring transfer students must respond to our offer promptly.

INTERNATIONAL APPLICANTS

We welcome applications from international students. Currently, some 10 percent of our students are international—one half of them non-U.S. citizens and the other half a combination of U.S. dual citizens, U.S. permanent residents, and U.S. citizens living or raised abroad. Our Admission Committee is familiar with various education systems around the world.

Regardless of citizenship or geographic location, international students should follow the same first-year or transfer application process required of any other student. Please note that Amherst College is “need-blind” only for U.S. and Canadian citizens as well as permanent residents of the U.S. requesting financial aid.

Amherst requires any applicant whose first language is not English, and who has not been taught primarily in English for the past four years, to take the Test of English as a Foreign Language (TOEFL) or similar English-proficiency test (APIEL, MELAB, ELPT). This requirement may be waived for students who score above 700 on both the verbal section of the SAT I and the SAT II writing test. Please note that a minimum score of 600 is required on the paper-based TOEFL; a minimum score of 250 is required on the computer-based TOEFL. The same standardized tests (SAT I and three SAT II subject tests or simply the ACT) required of all other applicants are also required of international students.

VISITING STUDENTS

A limited number of places are available in the spring semester for full-time visiting students. A student is eligible for visitor status if the student is currently enrolled in college and has completed at least one year of full-time college work. Individuals enrolled as Visiting Students at Amherst as well as Twelve College Exchange Students at Amherst are not eligible for transfer to the college. The Amherst College Visiting Student Application should be submitted with a \$55 processing fee. Applications are mailed upon request. It must arrive at the Admission Office no later than December 1, and an application decision will then be mailed in late December. If admitted, visiting students must respond to our offer promptly.

For further information please contact:

Amherst, MA 01002-5000

Tuition and Fees

A CANDIDATE'S formal application for admission should be accompanied by a \$55 application fee in check or money order payable to Amherst College. Upon notification of admission to the College a candidate is required to return with his or her acceptance a non-refundable advance payment of \$400, which will be credited in full on the first term bill.

Comprehensive Fee (Tuition, Room, Board)	\$38,940
Student Activities Fee	394
Residential Life Fee (not required of off-campus residents)	110
Campus Center Program Fee	80
Student Health Insurance (optional)	655
	<u>\$40,179</u>

The first semester bill in the amount of \$20,417 is mailed to all parents in July and is due and payable on or before August 13, 2004. The second semester bill totaling \$19,762 is mailed in December and is due and payable on or before January 7, 2005. All College scholarships, Key Education Resources Payment Plan, and any other cash payments received prior to mailing will appear as credits on the bill.

The fee for the support of various activities of the student body for 2004-05 is determined by the Student Allocations Committee. The \$394 fee is turned over to the Student Allocations Committee for disbursement to more than 40 student organizations, clubs, special interest groups and activities. Six dollars of the fee helps to underwrite the Five College Performing Arts Program. This cooperative program entitles students at Amherst College (as well as students at Smith, Hampshire and Mount Holyoke Colleges and the University of Massachusetts) to receive a one-half price ticket discount for all Fine Arts Center sponsored programs. The fee also contributes to the support of the student newspapers, magazines, radio station, yearbook, tutorial and hospital service commitment and student government. In addition to the Student Activities Fee, there is a \$110 Residential Life Fee and a \$80 Campus Center Program Fee which are used to promote all campus programs.

The charge of \$655 appears on the comprehensive bill for 12 months of Accident and Sickness Insurance for the period August 15, 2004, through August 15, 2005. Any clinical services provided on campus at the Amherst College Student Health Service are covered by the comprehensive fee for all Amherst College students. Further details concerning the Student Health Services and the Student Health Insurance Plan appear in the Amherst College Student Handbook.

Guarantee Deposit

Each new student, or former student reentering, is charged a \$175 fee unless this deposit has previously been paid. Included in the \$175 guarantee deposit is a \$25 transcript fee, which provides all students the opportunity to receive transcripts upon request with no additional charge. This part of the fee is a non-refundable charge. The \$150 balance of this deposit is refundable after a student graduates or otherwise leaves the college, less any unpaid charges on his/her account.

Miscellaneous charges such as fees for late registration, extra courses, library fines, lost or damaged property, etc., are payable currently when incurred.

Payment Plans

For those who wish the convenience of monthly payments, arrangements have been made for both pre-payment plans and loan plans, including insurance for continued payment in case of death or disability of the parent. For further details write to: Key Education Resources, 745 Atlantic Avenue, Boston, MA 02111.

Tuition Changes

Despite every effort to maintain College fees at the lowest possible level, it has been necessary to increase the tuition fee at Amherst in each of the past 23 years. Therefore, students and their parents are advised that such increases may well be necessary in subsequent years. The College attempts to notify students of tuition changes as early as possible during the preceding academic year. Financial aid awards will be based on the schedule of fees in effect during the year of the award. Students who may require financial aid as the result of tuition changes are eligible to make application whenever necessary.

Refund Policy

In case of withdrawal before the opening day of a semester, all charges except the Advanced Tuition Deposit will be cancelled. (See also Conduct, page 51.)

Refund of payment for or credit on student accounts in the event of withdrawal are as follows:

TUITION

Period of attendance calculated from day of first scheduled classes:

Fall semester

Prior to September 6		\$15,390
September 7-17	90%	13,851
September 18-October 3	50%	7,695
October 4-30	25%	3,848
October 31 or later		no refund

Spring semester

Prior to January 24		\$15,390
January 25-February 4	90%	13,851
February 5-20	50%	7,695
February 21-March 19	25%	3,848
March 20 or later		no refund

ROOM AND BOARD

Refund shall be made on a per diem basis for any student who withdraws voluntarily or who is dismissed from the College during a semester.

SCHOLARSHIP GRANTS

Scholarship grants are cancelled in full when determining cash refunds.

The officer having general supervision of the collection of tuition and fees and refund policy is the Comptroller.

Financial Aid

IN a sense, every student at Amherst College is on scholarship. Beginning in September 2004, the comprehensive charge for tuition, room and board will be \$38,940, and yet the education of each student costs the College more than \$69,000 per year. General endowment income, gifts and grants to the College supply the difference.

For those students who cannot afford the regular charge, financial aid is available from a variety of sources. Through the years, alumni and friends of the College have contributed or bequeathed capital funds with the income to be used for scholarship and loan assistance to worthy students. Some, such as those designated for candidates for the ministry or for students from certain geographical areas, are restricted in use. For the most part, however, the income from these funds may be used at the discretion of the College.

Each year the alumni of the College through the Alumni Fund contribute a substantial sum for scholarship and financial aid purposes. Several Amherst Alumni Associations also provide special regional scholarships to students from their areas. Such awards are currently sponsored by the Chicago, Connecticut, New York City, Northern California, Northern Ohio, St. Louis, Southern California, and Washington, D.C. Associations. Without these alumni contributions, the College could not maintain its present financial aid program.

Additional financial aid is available to Amherst students from sources outside the College. A number of foundations and corporations grant funds which the College distributes on the basis of financial need. The College also participates in the Federal Work-Study, Pell Grant, Supplemental Educational Opportunity Grant, Direct Stafford/Ford Loan, Perkins Loan, and Direct Parent Loan for Undergraduate Students programs.

Amherst College has a broad financial aid program in which scholarship grants, loans and student employment all play an important part. Over two-fifths of the students receive scholarship grants; more than one-half receive loan and employment assistance.

FINANCIAL AID POLICY AND PROCEDURE

The College grants financial aid only in cases of demonstrated financial need. Students' financial needs are calculated by subtracting from estimated academic year expenses the amount which they and their families may reasonably be expected to supply. Academic year expenses include tuition, room, board and fees, and allowances for books and personal expenses and for transportation. The family contribution is computed in accordance with the need analysis procedures of the College Scholarship Service and amended in individual cases by Amherst College policy. In awarding federal financial aid, the College determines eligibility according to the procedures specified in the Higher Education Act of 1965, as amended. The College assumes that students will assist in financing their education through summer employment and part-time jobs during the college year.

Financial aid awards are generally a combination of scholarship grant and self-help opportunities. Under normal circumstances, after allowances have been made for parental contributions and student contributions from savings and income (usually from summer employment), as much as \$5,100 of an applicant's demonstrated need will be met with a combination of college-year employment and long-term, moderate-interest loans. Within the resources of the

College, a student may expect to receive scholarship and grant aid to cover remaining financial need. Student loans require no payment of principal before graduation from Amherst. The loans are typically repayable on a monthly basis within a ten-year period at a moderate rate of simple interest. Repayment may be deferred for graduate school, and there are various other provisions for deferment and, in some cases, cancellation of student loans.

Receipt of scholarship grants is not contingent upon acceptance of a loan; many students prefer to earn more money during the summer or at college so that not so large a loan is needed. Conversely, students who are unable to meet the summer-earning expectation by reason of unusual circumstances or educational summer-time opportunities or who find it difficult to undertake campus employment may petition for an increase in loan to cover the difference. Outside scholarship awards will be used first to reduce the expected loan and employment parts of a financial aid award. Any excess outside aid may reduce the Amherst scholarship amount, in accordance with the recipient's financial need.

APPLYING FOR FINANCIAL AID

Application for financial aid should be filed by the candidate at the same time as the application for admission, in no case later than the indicated deadlines. Notification of financial aid awards will be made shortly after the time of admission to the College.

To apply for financial aid from the College, a candidate must submit a Financial Aid PROFILE form, to be completed by the candidate and, if dependent, his or her parents and submitted to the College Scholarship Service (CSS) no later than February 15. Supplemental information is required of candidates whose parents own or operate a business or farm, whose parents are separated or divorced, or who are independent of parents' support. Copies of income tax returns are required to verify family financial information. To obtain a Financial Aid PROFILE form, complete the registration process with CSS at www.collegeboard.com. Registration guides and worksheets are available from secondary schools or the Office of Financial Aid.

To apply for federal financial aid, a candidate should complete the Free Application for Federal Student Aid (FAFSA) and submit it according to its instructions. The FAFSA may be completed at www.fafsa.ed.gov. About four to six weeks after submitting the FAFSA, the federal government will send a Student Aid Report to the candidate.

Candidates for admission under the Early Decision program who are also candidates for financial aid may obtain an early financial aid decision as well, if they have filed the Financial Aid PROFILE form by November 1.

Candidates for transfer who demonstrate financial need are eligible for all financial aid at Amherst College. To be considered, a candidate for transfer to Amherst for the fall semester must file the Financial Aid PROFILE form by February 15 (October 15 for the spring semester).

Students in the upper classes who desire renewal of their financial aid awards or who wish to apply for financial aid for the first time must file applications by April 25. Renewal forms may be obtained in the Office of Financial Aid and should be returned directly there. Students will receive notification of their financial aid awards in June.

WILLIAM M. PREST BEQUEST

The Faculty of Amherst College, at its meeting of February 29, 1972, passed by unanimous vote a resolution that:

... until such time as it votes to the contrary, the income and a portion of the principal of the Bequest of William M. Prest, Class of 1888, will be used to initiate new approaches to the problem of providing appropriate forms of financial assistance to Amherst College students.

First claim on the Prest funds goes to transfer students at Amherst, with special consideration to graduates of junior and community colleges. The balance of the income—and up to five percent of the principal—has been used to inaugurate the William M. Prest Loan Fund, a program of long-term loans at a moderate rate of interest with a graduated repayment schedule that reflects accurately the earnings expectation of college graduates.

STUDENT LOAN FUND

Through the generosity of friends of the College, the Student Loan Fund has been established from which small short-term loans may be made to students who require funds to meet personal emergencies or other needs for which financial aid funds may not be obtained. In accordance with the conditions set by the donors, use of the Student Loan Fund is limited to students in good scholastic standing whose habits of expenditure are economical. The New England Society's Student Loaning Fund (for New England residents) and the Morris Morgenstern Student Loan Fund provide special interest-free loans on the same short-term basis as other student loans.

ADDITIONAL FINANCIAL AID INFORMATION

A more detailed description of the financial aid program, "Financing Amherst," is available upon request from the Admission Office. Additional information is also available from the College's website at www.amherst.edu/~finaid. Questions about the financial aid policy of Amherst College should be directed to the Office of Financial Aid, Amherst College, P.O. Box 5000, Amherst, MA 01002-5000 or finaid@amherst.edu.

IV

GENERAL REGULATIONS

DEGREE REQUIREMENTS

General Regulations

TERMS AND VACATIONS

THE COLLEGE year 2004-05 includes two regular semesters, the first with 13 weeks and the second with 14 weeks of classes. In the fall semester is an October break and a Thanksgiving recess. After the winter recess, there is a January Interterm. In the spring semester there is a vacation of one week.

All official College vacations and holidays are announced on the College Calendar appearing at the beginning of this catalog.

The January Interterm is a three-week period between semesters free from the formal structures of regular classes, grades, and academic credit. It is, in essence, a time when each student may undertake independent study in a subject or area to which he or she might not have access during the normal course of the year.

Students may center their activities on the campus or elsewhere as they choose. They may read, write, paint, compose, or inquire into some question or concern as inclination, ingenuity, and resources permit. They may wish to explore further or more deeply a subject which has aroused their curiosity or about which they wish to know more.

CONDUCT

It is the belief of Amherst College that those engaged in education should be responsible for setting, maintaining, and supporting moral and intellectual standards. Those standards are assumed to be ones which will reflect credit on the College, its students, and its guests.

The College reserves the right to exclude at any time students whose conduct or academic standing it regards as unsatisfactory; in such cases fees are not refunded or remitted in whole or in part, and neither the College nor any of its officers consider themselves to be under any liability whatsoever for such exclusion.

All are expected to conduct themselves in a manner consistent with the principles set forth in the following three statements, which together comprise the Amherst College Honor Code. Failure to do so may in serious instances jeopardize the student's continued association with the College.

A. STATEMENT OF INTELLECTUAL RESPONSIBILITY AT AMHERST COLLEGE

Preamble

Every person's education is the product of his or her own intellectual effort and participation in a process of critical exchange. Amherst cannot educate those who are unwilling to submit their own work and ideas to critical assessment. Nor can it tolerate those who interfere with the participation of others in the critical process. Therefore, the College considers it a violation of the requirements of intellectual responsibility to submit work that is not one's own or otherwise to subvert the conditions under which academic work is performed by oneself or by others.

Article I Student Responsibility

Section 1. In undertaking studies at Amherst College every student agrees to abide by the above statement.

Section 2. Students shall receive a copy of the Statement of Intellectual Responsibility with their initial course schedule at the beginning of each semester. It is the responsibility of each student to read and understand this Statement and to inquire as to its implications in his or her specific courses.

Section 3. Orderly and honorable conduct of examinations is the individual and collective responsibility of the students concerned in accordance with the above Statement and Article II, Section 3, below.

Article II Faculty Responsibility

Section 1. Promotion of the aims of the Statement of Intellectual Responsibility is a general responsibility of the Faculty.

Section 2. Every member of the Faculty has a specific responsibility to explain the implications of the statement for each of his or her courses, including a specification of the conditions under which academic work in those courses is to be performed. At the beginning of each semester all members of the Faculty will receive with their initial class lists a copy of the Statement of Intellectual Responsibility and a reminder of their duty to explain its implications in each course.

Section 3. Examinations shall not be proctored unless an instructor judges that the integrity of the assessment process is clearly threatened. An instructor may be present at examinations at appropriate times to answer questions.

B. STATEMENT ON FREEDOM OF EXPRESSION AND DISSENT

Amherst College prizes and defends freedom of speech and dissent. It affirms the right of teachers and students to teach and learn, free from coercive force and intimidation and subject only to the constraints of reasoned discourse and peaceful conduct. It also recognizes that such freedoms and rights entail responsibility for one's actions. Thus the College assures and protects the rights of its members to express their views so long as there is neither use nor threat of force nor interference with the rights of others to express their views. The College considers disruption of classes (whether, for example, by the abridgment of free expression in a class or by obstructing access to the place in which the class normally meets) or of other academic activity to be a serious offense that damages the integrity of an academic institution.

C. STATEMENT ON RESPECT FOR PERSONS

Respect for the rights, dignity and integrity of others is essential for the well-being of a community. Actions by any person that do not reflect such respect for others are damaging to each member of the community and hence damaging to Amherst College. Each member of the community should be free from interference, intimidation or disparagement in the work place, the classroom and the social, recreational and residential environment.

Harassment

Amherst College does not condone harassment of any kind, against any group or individual, because of race, religion, ethnic identification, age, handicap, gender or sexual orientation. Such harassment is clearly in conflict with the interests of the College as an educational community and in many cases with provisions of law.

Sexual Harassment

Amherst College is committed to establishing and maintaining an environment free of all forms of harassment. Sexual harassment breaches the trust that is expected and required in order for members of an educational community to be free to learn and work. It is a form of discrimination because it unjustly deprives a person of equal treatment. Sexual harassment can injure anyone who is subjected to it, regardless of gender or sexual orientation.

The College's policy on sexual harassment is directed towards behavior and does not purport to regulate beliefs, attitudes, or feelings. It is based on federal and state law, which prohibit certain specific forms of sexual harassment; on the College's Statement on Respect for Persons, which requires that a person's sex and sexual orientation be treated with respect; and on the following statement on sexual harassment passed by the Faculty on May 23, 1985:

Unwelcome sexual advances, requests for sexual favors and other unwelcome verbal or physical conduct of a sexual nature constitute sexual harassment when: (1) submission to such conduct is made either explicitly or implicitly a term or condition of an individual's employment, academic work, or participation in social or extracurricular activities; (2) submission to or rejection of such conduct by an individual is used as the basis for decisions affecting the individual; or (3) such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or demeaning working, academic or social environment.

The College believes that sexual harassment, besides being intrinsically harmful and illegal, also corrupts the integrity of the educational process.

Because it is possible for one person to act unintentionally in a manner that sexually harasses another, it is imperative that all members of the College community understand what kinds of behavior constitute sexual harassment. Hence, we provide here a general description of sexual harassment.

Sexual harassment occurs when one person attempts to coerce another into a sexual relationship, or to punish a refusal to respond to or comply with sexual advances. Attempts to subject a person to unwanted attention of a sexual character, sexual slurs or derogatory language directed at another person's sexuality or gender also can be forms of sexual harassment. Thus, sexual harassment can include a wide range of behavior, from the actual coercing of sexual relations to the forcing of sexual attentions, verbal or physical, on a non-consenting individual. It is also possible that sexual harassment can occur unintentionally when behavior of a sexual nature has the effect of creating a hostile environment. In some cases, sexual harassment is obvious and may involve an overt action, a threat, or reprisal. In other instances, sexual harassment is subtle and indirect, with a coercive aspect that is unstated.

Sexual harassment also occurs when a position of authority is used to threaten the imposition of penalty or the withholding of benefit unless sexual favors are granted, whether or not the threat is carried out. Sexual harassment, when it exploits the authority the institution gives its employees, or otherwise compromises the boundary between personal and professional roles, is an abuse of the power the College entrusts to them. The potential for sexual harassment exists in any sexual relationship between a student and a member of the faculty, administration or staff. Anyone in a position of authority should thoroughly understand the potential for coercion in sexual relationships between persons who are professionally affiliated. These relationships may involve persons in a position of authority over their colleagues (e.g., tenured faculty and non-tenured

faculty; administrators and staff); or they may involve those who teach, advise or supervise students.

Sexual harassment also takes the form of unwanted attention among peers. Sexual harassment by peers may have the purpose or effect of creating an intimidating, hostile, or demeaning environment. Sexual harassment by peers can occur between strangers, casual acquaintances, hall-mates, and even friends.

Because sexual harassment is a direct violation of the College's "Statement on Respect for Persons," Amherst College will seriously and thoroughly investigate any complaints of sexual harassment and will discipline those found guilty. Any student who believes she or he may be the victim of sexual harassment by a member of the faculty should consult the section on "Seeking Redress in Cases of Sexual Harassment" and "The Resolution of Student Grievances with Members of the Faculty or Administration" in the *Student Handbook*. The *Faculty Handbook* gives further information about grievance procedures. Any student who believes she or he may be the victim of sexual harassment by a peer should consult the student-student grievance procedures in the *Student Handbook*.

Consensual Sexual Relationships Between Faculty Members and Students

Experience has shown that consensual sexual relationships between faculty members and students can lead to harassment. Faculty members should understand the potential for coercion in sexual relationships with students with whom the faculty members also have instructional, advisory or supervisory relationships.

Even when such relationships do not lead to harassment, they can compromise the integrity of the educational process. The objectivity of evaluations which occur in making recommendations or assigning grades, honors, and fellowships may be called into question when a faculty member involved in those functions has or has had a sexual relationship with a student.

For these reasons, the College does not condone and, in fact, strongly discourages consensual sexual relationships between faculty members and students. The College requires a faculty member to remove himself or herself from any supervisory, evaluative, advisory, or other pedagogical role involving a student with whom he or she has had or currently has a sexual relationship. Since the absence of this person may deprive the student of educational, advising, or career opportunities, both parties should be mindful of the potential costs to the student before entering into a sexual relationship.

In cases in which it proves necessary, the Dean of Faculty, in consultation with the Dean of Students and the Chair (or Head) of the relevant department, will evaluate the student's situation and take measures to prevent deprivation of educational and advising opportunities. The appropriate officers of the College will have the authority to make exceptions to normal academic rules and policies that are warranted by the circumstances.

ATTENDANCE AT COLLEGE EXERCISES

It is assumed that students will make the most of the educational opportunities available by regularly attending classes and laboratory periods. At the beginning of the semester, all instructors are free to state the policy with regard to absences from their courses. Thereafter, they may take such action as they deem appropriate, or report to the Dean of Students the names of any students who disregard the regulations announced.

Students are asked to notify the Office of the Dean of Students if they have been delayed at home by illness or family emergencies. They are also requested

to report any unusual or unexplained absences from the College on the part of any fellow students.

Students who have been attended at home by a physician should, on the day of their return, report their absence to the Office of the Dean of Students and submit a statement concerning their illness and any recommended treatment to the Student Health Office. Students who are ill at College will normally be attended at the College Health Service or will be referred to the University of Massachusetts Infirmary by the Staff Physician. It is assumed that all students not excused by the College physician are well enough to attend their regular classes.

The responsibility for any work missed due to an illness or other absence rests entirely upon the student.

Details about student health and medical programs are provided in the *Student Handbook*.

RECORDS AND REPORTS

Grades in courses are reported in three categories:

Passing Grades = A+, A, A-, B+, B, B-, C+, C, C-, D, Pass

Failing Grade = F

Term averages and cumulative averages are reported on a 14-point scale rounded to the nearer whole number. The conversion equivalents are: A+ = 14, A = 13, A- = 12; B+ = 11, B = 10, B- = 9; C+ = 8, C = 7, C- = 6; D = 4, F = 1. A Pass does not affect a student's average.

Grade reports for D and F grades only will be sent to students after the end of the seventh week of classes each semester. A report of all grades and averages will be sent to each student at the end of each semester.

The academic records and averages of Amherst College students completing Five College Interchange courses at Hampshire, Mount Holyoke and Smith Colleges, and the University of Massachusetts will include these courses and grades; no separate transcripts are maintained at the other institutions for Amherst College students.

"Rank in class" will not be used, but transcripts and grade reports will be accompanied by a profile showing the distribution of cumulative averages for students of the same class level in the current and in the previous two years.

Student academic records are maintained by the Registrar's Office and are confidential; information is released only at the request of the student. Partial transcripts are not issued; each transcript must include the student's complete record at Amherst College to date. An official transcript carries an authorized signature as well as the embossed seal of Amherst College.

Transcripts of credit earned at other institutions, which have been presented to Amherst College for admission or transfer of credit, become a part of the student's permanent record but are not issued, reissued, or copied for distribution. With the exception of Five College Interchange courses, grades for courses that were transferred from other institutions are not recorded; credit only is listed on the Amherst transcript. Transcripts for all academic work at other institutions of higher education, including summer schools, should be requested directly from those institutions.

PASS/FAIL OPTION

Amherst College students may choose, with the permission of the instructor, a pass/fail arrangement in two of the 32 courses required for the degree, but not in more than one course in any one semester. The choice of a pass/fail

alternative must be made within 14 days after the beginning of the semester and must have the approval of the student's advisor. No grade-point equivalent will be assigned to a "Pass," but courses taken on this basis will receive either a "P" or an "F" from the instructor, although in the regular evaluation of work done during the semester the instructor may choose to assign the usual grades for work submitted by students exercising this option. First-year students, who have the privilege of withdrawing from one course without grade penalty, and transfer students, who have the privilege of withdrawing from one course during their first semester at Amherst, must take no less than three graded courses in each semester.

EXAMINATIONS AND EXTENSIONS

Examinations are held at the end of each semester and at intervals in the year in many courses. At the end of each semester, final grades are reported and the record for the semester is closed. In conformity with the practice established by the Faculty, no extension of time is allowed for intraterm papers, examinations and incomplete laboratory or other course work beyond the date of the last scheduled class period of the semester, unless an extension is granted in writing by both the instructor and the Class Dean.

A student who is prevented by illness from attending a semester examination may be granted the privilege of a special examination by the instructor and the Class Dean, who will arrange the date of the examination with the instructor. There are no second or make-up semester examinations, unless a student is prevented by illness from taking such an examination at the scheduled time.

A semester examination may be postponed only by approval of the instructor and the Class Dean.

Only for medical reasons or those of grave personal emergency will extensions be granted beyond the second day after the examination period.

VOLUNTARY WITHDRAWALS AND EDUCATIONAL LEAVES

The College has traditionally recognized the educational and personal rewards that many students receive from a semester or two away from the campus. Some departments, especially language departments, strongly encourage or require that students majoring in their department study in a foreign country. Occasionally, faculty members, advisors, or deans may suggest that students withdraw from formal studies to gain fresh perspectives on their intellectual commitments, career plans, or educational priorities. Family circumstances, medical problems, declining motivation, and other factors commonly encountered by students may require that they remain away from the College for more than the usual College vacation periods. The College, therefore, encourages students to consider carefully their situations, to clarify their objectives, and to decide for themselves whether they should temporarily interrupt their study at the College and take voluntary withdrawals or go on educational leaves.

Students who wish to explore the advantages and disadvantages of voluntary withdrawals and educational leaves should confer with their class deans, College and departmental advisors, resident counselors and parents. Some students will also find it beneficial to discuss their situations and tentative plans with the Registrar, the Study Abroad Advisor, the foreign language departments, the Career Center and the Dean of Financial Aid.

Students who go on educational leave from the College usually do so during the junior year, although sophomore year educational leaves are permitted.

It is expected that students will spend their senior year at Amherst. To receive academic credit for study elsewhere, students must perform satisfactorily in a full schedule of courses approved in advance by the Dean of Students Office, the Registrar, and the students' advisors. Students on educational leave from Amherst must enroll at other institutions as visiting non-degree students. (See Transfer Policy statement.)

To ensure that students have ample time for changing their status with the College and to allow the College to maintain full use of its educational facilities, some minimum procedures and deadlines have been instituted. All students considering voluntary withdrawals or educational leaves for the fall semester must notify their class deans and advisors before March 15. Students who may be away from campus for the spring term should notify their dean and advisor before April 15 of the previous year. Students who fail to notify the dean of their plans prior to these deadlines will not be guaranteed housing for the semester in which they prefer to return. Educational leaves usually require a considerable amount of correspondence with other colleges and universities, especially in the case of foreign study. Therefore, students who may wish to go on educational leaves should begin discussing their plans at least a full semester before they expect to be enrolled in another institution.

Students considering educational leaves and withdrawals should also read the next section on Readmission.

Prior to the seventh week of any semester, students may choose to withdraw voluntarily without their final grades being recorded. However, unless granted exemptions for disabling medical reasons or grave personal emergencies by the Committee on Academic Standing or the class deans, students who withdraw after the seventh week of a semester will withdraw with penalty and have final grades for that semester recorded on their permanent academic records. Refunds of tuition, deposits and fees are treated according to the College policy stated on page 45 of this Catalog. When withdrawals have been approved by the class deans and faculty advisors, the deans will specify any readmission requirements in writing and will indicate what academic work, if any, must be completed prior to readmission.

READMISSION

All students requesting readmission after voluntary withdrawals and academic dismissals and all students on educational leaves who wish to return for the fall semester should write to their class deans as early as possible, but before March 15. For students planning to return for the spring semester, the letters should be received by the College before November 1. In most instances, the deans will approve the readmission requests immediately. In some cases, additional information, such as an interview on-campus with a class dean, may be requested. Readmission requests from students seeking to return from academic dismissals and, in some cases, from voluntary withdrawals will be referred to the Committee on Academic Standing. In these cases, detailed letters requesting readmission, accompanied by grade reports of courses taken at an approved college or university, letters from employers, and other documents supporting the readmission requests should be sent to the class deans. Students on educational leaves should simply confirm their intention of returning to the campus before the above stated dates. Failure to meet these deadlines will jeopardize students' opportunities to participate in the student residence room-selection.

TRANSFER POLICY

Amherst College students who are considering transferring to other institutions should understand that the College will not readmit those who choose to become degree candidates at other colleges and universities. All Amherst College students who transfer to and enroll as degree candidates at other institutions will forfeit their opportunity to re-enroll in the College. Before arranging to transfer, students should discuss their plans and options with their class dean.

Students who plan to attend other colleges and universities while on educational leave or as participants in exchange programs must have explicit written understanding with Amherst College as well as confirmation from host schools that they will be enrolled as visitors, rather than as degree candidates. (See page 65 regarding academic credit from other institutions.)

DELINQUENCIES

At the midpoint and end of each semester, the academic records of all students are reviewed by the class deans and the Committee on Academic Standing. Those students who have clearly shown their unfitness for academic work are dismissed from the College. The academic records of others about whom the Committee has some concern are also carefully examined. Depending on the degree of difficulty a student has experienced, he/she may be regularly reviewed, issued an academic warning or placed on probation. Students who, by failing a course, incur a deficiency in the number of courses required for normal progress toward graduation are expected to make up that course deficiency before being permitted to register for the next academic year. (See Course Requirements, page 60.)

Students belonging to one or more of the following groups may not expect to continue at Amherst College:

- a. Those who in any semester fail in two or more courses. Withdrawal from a course while failing it shall count as a failure.*
- b. Those who in any semester fail a course and receive an average of less than 7 in courses passed.*
- c. Those who in any semester pass all courses but receive an average of less than 6.
- d. Those who have accumulated delinquencies in three or more courses during their college careers.
- e. Those who have been on probation and have failed to meet the conditions of their probation.

Normally, a student dismissed from the College for reasons of unsatisfactory academic performance will not be eligible for readmission until he or she has been away from the College for two semesters. During this time he or she is usually expected to demonstrate readiness for return by completing a semester of approved academic work at another accredited college or university. Conditions for readmission shall be set forth clearly in writing and must be met by the student before he or she can be considered for readmission to the College.

Students taking courses in a summer school to make up a delinquency incurred at Amherst College must have their summer school courses approved in advance by the Registrar. The College does not grant transfer credit for courses completed with a grade below C.

*See Degree Requirements.

ROOMS AND BOARD

Dormitory and house rooms are equipped with bed, mattress, bureau, desk, chairs, and bookcase or shelves. Occupants furnish their own blankets, linen, pillows, and towels, and may provide extra furnishings if they wish, such as rugs, curtains, lamps, etc.; they may not add beds, sofas, lounges, or other furniture of such nature except under certain circumstances. More complete regulations for occupancy are contained in the *Student Handbook*.

All students living in dormitories and houses, except for those students living in the Humphries House cooperative, are required to subscribe to the 21 meals per week plan of Valentine Hall. Valentine Hall is able and willing to accommodate students with special dietary needs. There are no rebates for absence from meals.

Students with unique circumstances who want to live off campus should speak with the dean in charge of housing or their class dean. First-year students, unless specifically excused by the Dean of Students, are required to live in College-owned houses or with relatives.

Degree Requirements

BACHELOR OF ARTS

THE DEGREE Bachelor of Arts is conferred upon students who have satisfactorily met the requirements described below. The plan of studies leading to this degree is arranged on the basis of the equivalent of an eight-semester course of study to be pursued by students in residence at Amherst College.

The degree Bachelor of Arts *cum laude*, *magna cum laude*, or *summa cum laude* (Degree with Honors) is awarded to students who have successfully completed an approved program of Honors work with a department or program.

Other students who satisfactorily meet requirements as indicated below receive the degree, Bachelor of Arts, *rite*.

REQUIREMENTS

Each student is responsible for meeting all degree requirements and for ensuring that the Registrar's Office has received all credentials.

The Bachelor of Arts degree is awarded to students who:

1. Complete 32 full semester courses and four years (eight semesters) of residence,* except that a student who has dropped a course without penalty during the first year, or who has failed a course during the first or second year, shall be allowed to graduate, provided he or she has been four years in residence at the College and has satisfactorily completed 31 full courses.

*In exceptional cases, a student with at least six semesters of residence at Amherst and at least 24 courses, excluding summer school courses not taken as make-up work or recognized as part of a transfer record, may apply for early graduation. Students seeking to graduate before they have satisfied the normal 32-course requirement will have the quality of their achievement thoroughly evaluated. The approval of the student's advisor, department, the Dean of Faculty, the Committee of Six, and finally the Faculty must be received to be granted the status of candidate for the degree.

Transfer students must complete 32 full semester courses or their equivalent, at least 16 of them at Amherst, and at least two years of residence at Amherst, except that a transfer student who has dropped a course without penalty during his or her first semester at Amherst shall be allowed to graduate with one less full course.

2. Complete the requirements for a major in a department or a group of departments including a satisfactory performance in the comprehensive evaluation.

3. Attain a general average of 6 in the courses completed at Amherst and a grade of at least C in every course completed at another institution for transfer credit to Amherst.

COURSE REQUIREMENTS

All students except Independent Scholars are required to elect four full courses each semester and may elect an additional half course. The election of a half course in addition to the normal program is at the discretion of the student and without special permission. A student may not elect more than one half course in any semester except by consent of his or her class dean and the departments concerned. In such cases the student's program will be three full courses and two half courses. Half courses are not normally included in the 32-course requirement for graduation.

In exceptional cases a student may, with the permission of both his or her academic advisor and class dean, take five full courses for credit during a given semester. Such permission is normally granted only to students of demonstrated superior academic ability, responsibility, and will. Fifth courses cannot be used to accelerate graduation. On occasion, a student who has failed a course may be permitted to take a fifth course in a given semester if, in the judgment of the Committee on Academic Standing, this additional work can be undertaken without prejudice to the student's regular program.

Also in exceptional cases a student may petition the Dean of Students at the time of admission or prior to the beginning of any semester for permission to enroll in a program of three courses per semester for any number of semesters of his or her enrollment at Amherst. Such permission may be granted only for reasons of physical disability (e.g., for students who have serious visual or hearing impairments) or compelling family responsibility (e.g., for students who are parents and have custodial responsibility for their children). In such cases, the student may be granted permission to spend as many as two additional semesters at Amherst College and to graduate with no fewer than 31 courses.

A student who by failing a course incurs a deficiency in the number of courses required for normal progress toward graduation is usually expected to make up that course deficiency by taking a three or four semester hour course at another approved institution during the summer prior to the first semester of the next academic year. (See additional information under Delinquencies, page 58.)

A student may not add a course to his/her program after the fourteenth calendar day of the semester, or drop a course after this date except as follows.

First-year students who experience severe academic difficulty may petition the Dean of New Students for permission to drop one course without penalty during their first year. The Dean of New Students, in consultation with the instructor and advisor, will decide on the basis of the student's educational needs whether or not to grant the petition. Petitions to withdraw from a course will normally be accepted only during the sixth, seventh, and eighth weeks of either the first or the second semester. Exceptions to this rule shall be made only

for disabling medical reasons or reasons of grave personal emergency, and shall be made only by the Dean of New Students.

Transfer students may petition their Class Dean to drop one course without penalty during the sixth, seventh, and eighth weeks of their first semester at Amherst. They must follow the petition procedure described above. The Class Dean, in consultation with the student's instructor and advisor, will decide whether or not to grant this petition.

For sophomores, juniors, and seniors, exceptions to the rule prohibiting the dropping of a course after the fourteenth calendar day of the semester shall be made only for disabling medical reasons or reasons of grave personal emergency, and shall be made only by the Dean of Students in consultation with the student's class dean.

Courses taken by a student after withdrawing from Amherst College, as part of a graduate or professional program in which that student is enrolled, are not applicable toward an Amherst College undergraduate degree.

THE LIBERAL STUDIES CURRICULUM

Under a curriculum adopted in 1976, first-year students are required to take a First-Year Seminar. Each First-Year Seminar is planned and taught by one or more members of the Faculty, who develop innovative and often interdisciplinary approaches to a range of special topics. The subject matter of the courses varies, reflecting the concerns of the Faculty members who devise them. The courses offered for 2004-05 are described on pages 69-74.

Through these courses, first-year students are exposed to the diversity of learning that takes place at the College. They get a sample of the nature of the institution and what actually takes place in the College: what people do at Amherst and how they do it.

Amherst's liberal studies curriculum is based on a concept of education as a process or activity rather than a form of production. The curriculum provides a structure within which each student may confront the meaning of his or her education, and does it without imposing a particular course or subject on all students. Students are encouraged to continue to seek diversity and attempt integration through their course selection and to discuss this with their advisors.

Under the curriculum, most members of the Faculty serve as academic advisors to students. Every student has a College Advisor until he or she declares a major, no later than the end of the sophomore year; thereafter each student will have a Major Advisor from the student's field of concentration. As student and advisor together plan a student's program, they should discuss whether the student has selected courses that:

- provide knowledge of culture and a language other than one's own and of human experience in a period before one's lifetime;
- analyze one's own polity, economic order, and culture;
- employ abstract reasoning;
- work within the scientific method;
- engage in creative action—doing, making and performing;
- interpret, evaluate, and explore the life of the imagination.

THE MAJOR REQUIREMENT

Liberal education seeks to develop the student's awareness and understanding of the individual and of the world's physical and social environments. If one essential object in the design of education at Amherst is breadth of understanding,

another purpose, equally important, is mastery of one or more areas of knowledge in depth. Upperclassmen are required to concentrate their studies—to select and pursue a major—in order to deepen their understanding: to gain specific knowledge of a field and its special concerns, and to master and appreciate the skills needed in that disciplined effort.

A major normally consists of at least eight courses pursued under the direction of a department or special group. A major may begin in either the first or second year and must be declared by the end of the second year. Students may change their majors at any time, provided that they will be able to complete the new program before graduation.

The major program can be devised in accordance with either of two plans:

DEPARTMENTAL MAJORS

Students may complete the requirement of at least eight courses within one department. They must complete at least six courses within one department and the remaining two courses in related fields approved by the department.

Some Amherst students may wish to declare a major in more than one department or program. This curricular option is available, although it entails special responsibilities. At Amherst, departments are solely responsible for defining the content and structure of an acceptable program of study for majors. Students who elect a double major must present the signatures of both academic advisors when registering for each semester's courses and they must, of course, fulfill the graduation requirements and comprehensive examinations established by two academic programs. In addition, double majors may not credit courses approved for either major toward the other without the explicit consent of an announced departmental policy or the signature of a departmental chairperson. In their senior year, students with a double major must verify their approved courses with both academic advisors *before* registering for their last semester at the College.

INTERDISCIPLINARY MAJORS

Students with special needs who desire to construct an interdisciplinary major will submit a proposed program, endorsed by one or more professors from each of the departments concerned, to the Committee on Academic Standing and Special Majors. Under ordinary circumstances, the proposal will be submitted during the first semester of the junior year and not under any circumstances later than the eighth week of the second junior semester. The program will include a minimum of six upper-level courses and a thesis plan. Upon approval of the program by the Committee on Academic Standing and Special Majors, an ad hoc advisory committee of three professors appointed by the Committee will have all further responsibility for approving any possible modifications in the program, administering an appropriate comprehensive examination, reviewing the thesis and making recommendations for the degree with or without Honors. Information on preparation, form, and submission of proposed interdisciplinary programs is available in the Office of the Dean of Students.

A part of the major requirement in every department is an evaluation of the student's comprehension in his or her major field of study. This evaluation may be based on a special written examination or upon any other performance deemed appropriate by each department. The mode of the evaluation

need not be the same for all the majors within a department, and, indeed, may be designed individually to test the skills each student has developed.

The evaluation should be completed by the seventh week of the second semester of the senior year. Any student whose comprehension is judged to be inadequate will have two opportunities for reevaluation: one not later than the last day of classes of the second semester of the senior year, and the other during the next college year.

DEGREE WITH HONORS

The requirements for graduation with a degree with honors are as follows:

The degree Bachelor of Arts with Honors is awarded at graduation to students whose academic records give evidence of particular merit. Latin Honors are awarded to students completing a thesis within their major department or program. English honors are awarded to students solely on the basis of performance in course work. The awarding of both Latin and English honors will be made by the Faculty of the College, and will appear on the diploma. In making such awards, the Faculty will observe the following guidelines:

Latin Honors

1. Candidates eligible for the degree *summa cum laude* must have a minimum overall grade point average in the top 25% of their class and have received a recommendation of *summa* based on a thesis or comparable work from a department or program in which they have majored. In addition, the theses of candidates for the degree *summa cum laude* will be reviewed by the Committee of Six, who will transmit its recommendation to the Faculty. Candidates will also have their entire records reviewed by the Dean of the Faculty and the Committee of Six, who will transmit their recommendations to the Faculty.

2. Candidates eligible for the degree *magna cum laude* must have a minimum overall grade point average in the top 25% of their class and have received a recommendation of *magna* based on a thesis or comparable work from a department or program in which they have majored. Although each department or program may define additional criteria upon which it will base its recommendation, the candidate must submit a thesis or comparable work that is judged by the department or program to be of *magna* quality.

3. Candidates eligible for the degree *cum laude* must have received a recommendation of *cum* based on a thesis or comparable work from a department or program in which they have majored. Although each department or program may define additional criteria upon which it will base its recommendation, the candidate must submit a thesis or comparable work that is judged by the department or program to be of *cum* quality.

English Honors

Candidates eligible for English Honors—a degree with Distinction—must have an overall grade point average in the top 25% of their class.

INDEPENDENT SCHOLAR PROGRAM

A limited number of students who elect to do so may participate in an Independent Scholar Program, usually in the junior or senior years in lieu of a traditional major program. Participants are chosen by the four-member Faculty Committee on Academic Standing and Special Majors, which includes the Dean of Students, after nomination for the program by a member of the Faculty.

Independent Scholars are free to plan a personal program of study under the direction of a tutor, chosen by the student with the advice and consent of the Committee. The tutor provides the guidance and counsel necessary to help the student attain the educational objectives he or she has set. The tutor and one or more other members of the Faculty familiar with the student's work will ultimately assign a comprehensive grade and provide a detailed, written evaluation of the student's performance which will become part of the individual's formal record at Amherst College. Grades in such regular courses as the student may elect will be taken into account in assigning the comprehensive grade, and the student is eligible for a degree with Honors, as well as all other awards and distinctions.

FIELD STUDY

The Faculty has instituted a program of Field Study under which students may pursue a course of study away from Amherst for either one or two semesters. Students are admitted to the program by the Committee on Academic Standing and Special Majors after approval of their written proposal and are assigned a Field Study Advisor chosen from the Faculty.

Upon being admitted to Field Study, students become candidates for the degree of Bachelor of Arts with Field Study, which is normally attained in four and one half or five years. During the first semester in residence at Amherst after the period of Field Study, students must take a Special Topics course, normally with their Field Study Advisor, in which they draw on both their experience of Field Study and further investigation relating to it. Students may also pursue a related Special Topics course in the semester before they enter their program of Field Study.

Students pursuing a two-semester plan of Field Study will be allowed to continue after the first semester only upon providing evidence to the Committee that they are satisfactorily carrying out their program. No student shall begin study in the field later than the first semester of the senior year.

Students pursuing Field Study shall maintain themselves financially in the field, and during the period shall pay a Field Study fee of \$50 to the College in lieu of tuition.

The transcript of a student who has undertaken Field Study shall include a short description and appraisal by the Field Advisor of the student's project and of the related Special Topics course.

FIVE COLLEGE COURSES

Amherst, Hampshire, Mount Holyoke and Smith Colleges and the University of Massachusetts have for some time combined their academic activities in selected areas for the purpose of extending and enriching their collective educational resources. Certain specialized courses not ordinarily available at the undergraduate level are operated jointly and open to all. In addition, students in good standing at any of the five institutions may take a course, without cost, at any of the other four if the course is significantly different from any offered on their own campus and they have the necessary qualifications.

The course must have a bearing on the educational plan arranged by the student and his or her advisor. Professional, technical and vocational courses are not generally open for Five College interchange credit. Those courses accrue credit toward degrees other than the Bachelor of Arts degree which is offered at Amherst College. Individual exceptions must be approved by both advisor

and Dean of the Faculty on the basis of the student's complete academic program at the College.

The Premedical Committee reminds health preprofessional students that required courses (biology, chemistry, mathematics, physics) should normally be taken at Amherst College and not at other Five College institutions.

To enroll in a Five College course, an Amherst student must have the approval of his or her advisor and the Dean of the Faculty. Only under special circumstances will permission be granted by the advisor and the Dean of the Faculty for an Amherst student to enroll in more than two Five College courses per semester. If permission to enroll in a course is required for students of the institution at which the course is offered, students from the other Five Colleges must also obtain the instructor's permission to enroll.

Free bus transportation among the five institutions is available for interchange students.

Students interested in such courses will find current catalogs of the other institutions at the Loan Desk of the Library and at the Registrar's Office. Application blanks may be obtained from the Registrar's Office.

Other aspects of Five College cooperation are described in the *Student Handbook*.

ACADEMIC CREDIT FROM OTHER INSTITUTIONS

Amherst College does not grant academic credit for work completed at other institutions of higher education unless it meets one of the following criteria: (1) each course offered as part of a transfer record has been completed and accepted by the College prior to matriculation at Amherst; (2) the work is part of an exchange program of study in the United States or abroad approved in advance by a Dean of Students and the Registrar; or (3) the work has been approved by the Registrar as appropriate to make up a deficiency deriving from work not completed or failed at Amherst College (see Delinquencies).

COOPERATIVE DOCTOR OF PHILOSOPHY

A cooperative Doctor of Philosophy program has been established by Amherst, Hampshire, Mount Holyoke, and Smith Colleges, and the University of Massachusetts. The degree is awarded by the University of Massachusetts, but some, perhaps much—and in a few exceptional cases even all—of the work leading to the degree might be done in one or more of the other institutions.

When a student has been awarded a degree under this program, the fact that it is a cooperative doctoral degree involving Amherst, Hampshire, Mount Holyoke, and Smith Colleges and the University of Massachusetts will be indicated on the diploma, the permanent record, and all transcripts, as well as on the commencement program.

The requirements for the degree are identical to those for the Ph.D. degree at the University of Massachusetts except for the statement relating to "residence." For the cooperative Ph.D. degree "residence" is defined as the institution where the dissertation is being done.

Students interested in this program should write to the Dean of the Graduate School at the University of Massachusetts. However, a student who wishes to work under the direction of a member of the Amherst Faculty must have the proposal approved by the Dean of the Faculty of Amherst College and by the Amherst Faculty Committee of Six.

V

COURSES OF INSTRUCTION

Courses of Instruction

CCOURSES are open to all students, subject only to the restrictions specified in the individual descriptions. Senior Honors courses, usually open only to candidates for the degree with Honors, are numbered 77 and 78, and Special Topics courses are numbered 97 and 98. All courses, unless otherwise marked, are full courses. The course numbers of double courses and half courses are followed by D or H.

SPECIAL TOPICS COURSES

Departments may offer a semester course known as Special Topics in which a student or a group of students study or read widely in a field of special interest. It is understood that this course will not duplicate any other course regularly offered in the curriculum and that the student will work in this course as independently as the director thinks possible.

Before the time of registration, the student who arranges to take a Special Topics course should consult the instructor in that particular field, who will direct the student's work; they will decide the title to be reported, the nature of the examination or term paper, and will discuss the preparation of a bibliography and a plan of coherent study. All students must obtain final approval of the Department before registration. Two Special Topics courses may not be taken concurrently except with the prior approval of the Student's Class Dean.

FIRST-YEAR SEMINARS: THE LIBERAL STUDIES CURRICULUM

During 2004-05, Faculty members in groups of one or more will teach 19 First-Year Seminars. Every first-year student must take one of these courses during the first semester. They are open only to Amherst College first-year students.

01. The Value of Nature. Our impact on the environment has been large and in recent decades the pace of change has clearly accelerated. Many species face extinction, forests are disappearing, and toxic wastes accumulate. The prospect of a general environmental calamity seems all too real.

This sense of crisis has spurred intense and wide-ranging debate over what our proper relationship to nature should be. This debate and the analysis of the conflicting views that fuel this debate will be the focus of this seminar. Among the questions we shall explore will be: What obligations do we have to non-human animals, to living organisms like trees, to ecosystems as a whole, and to future generations of humans? Do animals have rights we ought to respect? Is nature intrinsically valuable or merely a bundle of utilities? We will investigate these and related questions with readings drawn from literature, philosophy, the social sciences and ecology.

First semester. Professors Dizard and J. Moore.

02. Conflict and Cohesion. This course is designed to provide a theoretical and historical foundation for understanding the escalating threat of global conflict, along with the fitful attempts to achieve global cohesion. In Western and non-Western texts ranging from Plato and Confucius to the work of contemporary

scholars and writers such as Hannah Arendt, Amartya Sen, and J. M. Coetzee, we shall survey how social groups attain solidarity and how that solidarity may be rooted in exclusion, antagonism and prejudice. The scale of social organization has generally expanded since antiquity, and this course will follow that trajectory. We shall begin with the origins of the state, observing how differences of blood, language, gender and faith served to set insiders apart from outsiders. We then shift to the emergence of nationalism and of collective identities and interests. Finally, we shall examine the nation-state in the era of globalism, in particular cultural clashes and human rights.

First semester. Professors Basu, Griffiths, Marx, Mehta, and Zamperini.

03. Evolution and Intellectual Revolution. Few thinkers have had such a broad and deep influence on their subject as Charles Darwin has had on biology; few scientific theories have had larger effects on western culture than his theory of evolution by natural selection. This course examines the Darwinian theory of evolution, its genesis and its influence. In so doing, we will study Darwin's career, the scientific and non-scientific background to his work, and the debate over evolution as it was conducted in Darwin's time and as it persists to the present day.

First semester. Professor Hansen.

04. The Japanese Aesthetic: From Samurai to Sony. Soon after the opening of Japan to the West in the mid-nineteenth century, things Japanese became objects of fascination among artists, collectors and even the general public in Europe and the United States. The impact of a Japanese aesthetic was immediately seen in painting, architecture and the decorative arts. To this day Japan continues to influence the arts and design in the West. However, Japanese conceptions of what makes their culture unique and images of Japan familiar in the West often have little in common. How to define the Japanese aesthetic has long troubled scholars in Japan and abroad. Is there a Japanese aesthetic? If so, how can it be defined? Through a series of case studies we will attempt to answer these questions. The seminar will examine a number of cultural phenomena considered to be definitive expressions of the Japanese aesthetic such as samurai, geisha, the tea ceremony and Zen. Examples from Japanese film, literature, art, fashion and commercial design will also be used to facilitate our exploration of Japanese art and culture. The course will consist of assigned readings, lecture, discussion and frequent writing.

First semester. Professors Caddeau and Morse.

05. Coming of Age. How does one write about coming of age? In this course we will read historical works, non-fictional and fictional testimonies, and autobiographies of Americans growing up from the nineteenth century until the present. Works by Tobias Wolff, James Carroll, Mary McCarthy and Lorene Cary will help us understand how one writes about one's childhood, and will be used as a springboard to discuss issues of race, gender and sexuality. Theories that psychologists have used to understand development, particularly the tumultuous periods, will be brought to the analyses of these literary and historical works. Students will have several writing assignments including an assignment to write some of their own autobiography.

First semester. Dean Snively.

06. Drugs in History, Society and Culture. This course examines the changing ways that human beings have used psychoactive drugs and societies have controlled that use. After examining drug use in broad historical and cross-cultural perspectives and studying the physiological and psychological effects of

different drugs, we look at the various ways in which contemporary societies both encourage and seek to control drug use. Among the issues we address are the drug war, the disease model of drug addiction, the proliferation of prescription drugs, the images of drug use in popular culture, and America's complicated history of alcohol control. Above all, we examine the contradictions of a society that energetically both promotes and represses drug use.

First semester. Professors Couvares and Himmelstein.

07. Genes, Genomes and Society. The sequencing of the human genome ranks as one of the most significant scientific achievements of the last century. How might we ensure that scientific progress is matched by society's ability to use that knowledge for human betterment? Although the scientific ramifications of the genomic revolution are just beginning to be explored, major implications are already apparent in such diverse fields as philosophy, medicine and law. The course will begin with a primer on genetics and molecular biology, but quickly move to consider some of the philosophical, ethical and very practical societal concerns raised by recent genetic discoveries. We will consider such issues as the origin of humans and of human races (and are there such?); the use and potential mis-use of DNA fingerprinting by governmental agencies; whether genetic information should be protected from scrutiny by insurance companies or employers; the ability of parents to screen potential offspring for a range of diseases; the creation of genetically altered plants and animals; and human gene therapy.

First semester. Professor Ratner.

08. Thinking About Music. Music from Bach to the Beatles, from ancient Chinese traditions to the latest rock and hip-hop, from Beethoven to Britney—though for most of us primarily an aesthetic experience—also can be approached in a variety of ways: structural, conceptual, historical, biographical, sociological, anthropological, or psychological, to name only a few. Applying thought from a variety of literary sources to music from around the world, contemporary and ancient, classical and pop, folk and tribal, we shall circle around the idea of music and its placement on the tree of human culture. How does Chuck Berry reflect the "invasion" of African-American rhythm and blues into white America in 1950s rock'n'roll? Is the Don Giovanni of Mozart's opera really merely a mundane sexual predator? What do a Grateful Dead concert, a Roman Catholic Mass, and Tibetan Buddhism have in common? Is Madonna as seen in her videos a paradigm of feminism? Why did the audience riot at the first ballet performance of Stravinsky's *The Rite of Spring*? Can political folk music actually change the world? Why were groups such as the Sex Pistols in Great Britain and the Dixie Chicks in the United States seen as subversive? These and other questions shall provide us with topics for discussion and writing, and hopefully lead us to some startling insights and interesting conclusions.

First semester. Professor Reck.

09. National Identity. This course explores the many meanings of national identity for individuals and for collectivities. Among the questions we will ask are: What are the roots of ethnic solidarity? How have national states been created as both cultural and political communities? How has the concept of national citizenship been variously defined? How have sovereign states responded to ethnonational diversity within their borders? These questions and others will be addressed comparatively. To this end, we will focus on a comparison of French, German and American concepts of citizenship; an examination of tensions

between state and nation in other areas of the world and a consideration of the issues of race, ethnicity and immigration in the United States.

First semester. Professors Babb, Czap, Levin, and W. Taubman.

10. *Incipit vita nova: The Implications of Origins.* Why does western culture seek to understand or to articulate beginnings? What cultural significance is to be attached to a given representation of a beginning? This course will study texts that purport to describe cosmic, natural, historical, political or personal origins. In addition, the course will investigate the cultural implications of the desire to seek or establish origins. Readings will be drawn from Plato, the Bible, Bernardus Silvestris, Virgil, Dante, Galileo, Descartes, Rousseau, Jefferson, Darwin, Freud and Nietzsche. Films by Griffith and Miller will also be analyzed.

First semester. Professor Rockwell.

11. *Decisions and Uncertainty.* This course will explore the processes individuals and institutions use to make decisions. Particular emphasis will be given to the role that uncertainty plays in these decisions. The mathematics of probability provides a framework that allows us to understand better the nature of uncertainty. We shall observe how we use probability implicitly and explicitly in our everyday lives. Through case studies of political, economic and social issues in such areas as law, medicine and regulation, the usefulness of probability in making decisions will be demonstrated. The course explores, through common sense approaches, how probability helps us understand today's complex and uncertain world.

First semester. Professor Westhoff.

12. *Friendship.* An inquiry into the nature of friendship from historical, literary and philosophical perspectives. What are and what have been the relations between friendship and love, friendship and marriage, friendship and erotic life, friendship and age? How do men's and women's conceptions and experiences of friendship differ? Readings will be drawn from the following: *The Epic of Gilgamesh*; Plato's *Symposium* and *Phaedrus*; selections from the Bible and Aristotle's *Nicomachean Ethics*; essays by Montaigne, Emerson and C.S. Lewis; Mill's *On the Subjection of Women*; Whitman's poetry; Jewett's *The Country of the Pointed Firs*; Morrison's *Sula*; Truffaut's *Jules and Jim* and Herzog's *My Best Fiend*.

First semester. Professor Townsend.

13. *Partner Dancing.* How do two bodies negotiate in time and space? How do they cooperate (or not) to create or perform a moving relationship? Where do different patterns of steps and gestures and different relationships of proximity or distance originate? Why do some duet forms catch fire and travel from generation to generation while others disappear after a first and only dance? What do these different duo-dancing relationships have to say about power, status, class, gender and race? These are some of the questions that we will explore in Partner Dancing. We will study a wide range of cross-cultural duet forms (including classical traditions from different countries, ballroom, swing and Latin dance forms, West African dance, club dancing, contemporary modern dance and contact improvisation) and look at these forms as models for examining social and political history and aesthetic and cultural conventions. The course will alternate between studio sessions where students experiment with some of these forms (on their feet), readings, and viewings of different films, videos and live performances. Students will also take some of these questions and discoveries and use them to create their own duet forms.

First semester. Professor Woodson.

14. The Unseen Universe. In recent years, astronomers have come to realize that the view of the universe that we get through telescopes is not telling the whole story. Rather, in addition to all the astronomical objects that we can observe, the universe contains an enormous number of unseen things: objects which we have never directly detected and, in some cases, which we never will. Some of these objects are black holes, some are planets orbiting nearby stars, and the nature of the rest—the mysterious “dark matter”—is entirely unknown.

In this course, working with real and simulated data, students will retrace the path whereby we have come to this remarkable conclusion. Much of the course takes an inquiry-based approach to learning, in which students forge their own understanding through seminar discussions and their own efforts. This is a first course in Astronomy; and while much of the work will involve computers, no previous programming experience is required.

First semester. Professor Greenstein.

15. Secrets and Lies. Politics seems almost unimaginable without secrecy and lying. From the noble lie of Plato’s *Republic* to the controversy about former President Clinton’s “lying” in the Monica Lewinsky case, from the use of secrecy in today’s war against terrorism to the endless spinning of political campaigns, from President John Kennedy’s behavior during the Cuban missile crisis to cover-ups concerning pedophile priests in the Catholic church, from Freud’s efforts to decode the secrets beneath civilized life to contemporary exposés of the private lives of politicians, politics and deception seem to go hand-in-hand. This course investigates how the practices of politics are informed by the keeping and telling of secrets, and the telling and exposing of lies. We will address such questions as: When, if ever, is it right to lie or to breach confidences? When is it right to expose secrets and lies? Is it necessary to be prepared to lie in order to advance the cause of justice? Or, must we do justice justly? When is secrecy really necessary and when is it merely a pretext for Machiavellian manipulation? Are secrecy and deceit more prevalent in some kinds of political systems than in others? As we explore those questions we will discuss the place of candor and openness in politics and social life; the relationship between the claims of privacy (e.g., the closeting of sexual desire) and secrecy and deception in public arenas; conspiracy theories as they are applied to politics; and the importance of secrecy in the domains of national security and law enforcement. We will examine the treatment of secrecy and lying in political theory as well as their appearance in literature and popular culture, for example, *Mr. Smith Goes to Washington*, *Primary Colors*, *Schindler’s List* and *The Insider*. Students taking this First-Year Seminar may not take Political Science 03.

First semester. Professor Sarat.

16. Nazi Olympics. This course deals with four “streams”: the evolving culture of Weimar Germany, the rise of Adolf Hitler and the emergence of his dictatorial regime, the development of modern sports, and the evolution of German films, feature as well as documentary. The climax of the course occurs with the confluence of these streams during the 1936 Olympic Games in Berlin when Leni Riefenstahl produced her still-controversial two-part documentary film, *Olympia*.

First semester. Professor Guttman.

17. Pariscape: Imagining Paris in the Twentieth Century. In the hundred years that separate the inaugurations of Eiffel’s tower (1889) and that of Pei’s pyramidal entrance to the Louvre (1989), Paris has been one of the exemplary sites of our urban sensibility, a city that has indelibly and controversially influenced the twentieth-century imagination. Poets, novelists and essayists, painters, photographers and film-makers: all have made use of Paris and its cityscape to

examine relationships among technology, literature, city planning, art, social organizations, politics and what we might call the urban will. This course will study how these writers and visual artists have seen Paris, and how, through their representations, they created and challenged the "modernist" world view.

In order to discover elements of a common memory of Paris, we will study a group of writers (Apollinaire, Calvino, Stein, Hemingway and others), philosophers and social commentators (Simmel, Benjamin, Barthes), filmmakers (Clair, Truffaut, Tati and others), photographers (Atget, Brassai), painters (Picasso, Delaunay, Matisse and others), and architects (Piano and Pei). Finally, we will look at how such factors as tourism, print media, public works, immigration and suburban development affect a city's simultaneous and frequently uncomfortable identity as both a geopolitical and an imaginative site.

First semester. Professor Rosbottom.

18. The Arts of Spain, From the *Siglo de Oro* to Saura. We begin with Goya, from royal commissions to the harrowing "pinturas negras". Other artists to be considered include Casas, Rusinyol, Gaudí, Picasso, Miró, Tapiés, Almodóvar and Saura. Although the primary focus will be visual arts (painting, prints, architecture, film) we will consider poetry (García Lorca), music and dance (*zarzuelas*, flamenco) and religious rituals. We will address the diversity of Spain's political, linguistic and cultural centers, and consider how this complicates any discussion of nationalism or a Spanish "mentality." We will address the importance of concepts like *machismo* and *duende*, the legacy of literary themes and characters (*La Celestina*, *Don Quijote*), as well as the "anxiety of influence" toward Golden Age giants like Velázquez and Zurbarán. Our period was marked by conflict: an empire lost, the defeat by Napoleon, civil war. Holy wars, anti-clerical insurrections, economic vicissitudes, all came into play, as did battles waged in nature's realm, the cosmic order. We close with the artistic efflorescence of Spain's nascent democracy. We will have a field trip to the Boston Museum of Fine Arts, which holds the most extensive collection of Goya works on paper outside of the Prado.

First semester. Professor Staller.

19. Growing Up in America. How do race, social class and gender shape the experience of growing up in America? We will begin by examining the life of a contemporary African-American male on his journey from the inner city to an Ivy League university. We then look back historically at some nineteenth-century lives—male and female, black and white, real and fictional—to understand how the transition from an agricultural to an urban industrial society has influenced the experience of coming of age. The remainder of the course will center on coming of age in the twentieth century. Our focus will be on the formation of identity, relationship with parents, courtship, sexuality and the importance of place. In addition to historical, sociological and psychological texts, the class will discuss autobiographies like those of Douglass and Jacobs and fiction by Baldwin, Plath and Salinger.

First semester. Professors Aries and Clark.

AMERICAN STUDIES

Professors Clark, Couvares (Chair), Dizard, Guttman, Levin, Sánchez-Eppler, Sandweiss*, and K. Sweeney; Assistant Professors Basler and Ferguson; Five College Visiting Assistant Professor Sharma.

*On leave 2004-05.

The core premise of American Studies is disarmingly simple: no discipline or perspective can satisfactorily encompass the diversity and variation that have marked American society and culture from the very beginning. This premise invites majors to craft their own distinctive way of coming to terms with America. Some will favor sociological, historical or economic interpretations; others will be drawn to literary or visual modes of interpretation. However individual majors fashion their courses of study, each major engages with one or more of the department's faculty in an ongoing discussion of what is entailed in the study of American society. This discussion culminates in the choice of a topic for the senior essay. The topic may emerge organically from the courses a major has selected or it may arise out of a passionate engagement with a work of fiction, a curiosity about a historical event, or a desire to understand the persistence of a social problem. Whatever the substantive focus, the senior essay affords majors the opportunity to reflect on what they have learned, refine their analytic and expository skills, and put all this to the test of making sense of some aspect of American society and culture.

The diversity of course selections available to majors ensures that they gain a heightened awareness of the history and present state of the peoples and social forces which constitute American society. Race, class, ethnicity and gender figure centrally in our courses, whether they are treated historically, sociologically or aesthetically. Majoring in American Studies offers students great latitude as well as the opportunity to work closely with a faculty advisor in the senior year on a specific topic.

Major Program. The Department of American Studies assists the student through the following requirements and advising program:

Requirements: American Studies 11 and 12 are required of all majors. Students may also fulfill this requirement by taking American Studies 11 or American Studies 12 twice when the topic changes. In addition, all majors will take American Studies 68, the junior Seminar, and, in the senior year, American Studies 77 and 78 in order to write an interdisciplinary essay on an aspect of American experience. Ideally, majors take these courses in order, but study abroad or other contingencies may make this impossible in individual cases.

Students also take seven other courses about American society and culture. At least three of these courses should be in one department or concentrated on a single theme. At least three of the seven courses should be devoted largely to the study of a period before the twentieth century. Since the topics of American Studies 11 and 12 change frequently, majors may take more than two of these courses and count the third as one of the seven electives and/or one of the courses concentrated on America before the twentieth century.

Advising: In response to the range of the majors' individual preferences and interest, departmental advisors are available for regular consultation. The advisor's primary function is to aid the student in the definition and achievement of his or her own educational goals.

Departmental Honors Program. All majors must complete the requirements outlined above. Recommendations for Latin Honors are made on the basis of the senior essay produced during the independent work of the senior year.

Evaluation. There is no single moment of comprehensive evaluation in the American Studies major. The Department believes that fulfillment of the course requirements, combined with the writing of a senior essay, provides adequate grounds for a fair assessment of a major's achievement.

11. The American Dream. More than any other nation, the United States has envisioned itself as a landscape of pure possibility. From the 17th century to the present, an ever-shifting “American Dream” has been the repository of Americans’ longing for a new kind of personal and national life. In this class we will consider how Americans have imagined their dream in terms of everything from political freedom to home ownership. This class introduces students to American Studies by focusing on whole books, with attention also given to paintings, photographs and film. Books will include *The Narrative of the Life of Frederick Douglass*, *Huckleberry Finn*, *The Great Gatsby*, and *The Human Stain*.

First semester. The Department.

12. The City: New York. This course will explore the conflicted meanings and possibilities of urban life in the United States through a detailed study of the country’s first metropolis: New York. The frontispiece of one nineteenth-century book on the city, *Sunshine and Shadow in New York*, juxtaposed a Fifth Avenue mansion with a Five Points tenement. Claude McKay’s poem “The Tropics in New York” tells of weeping at the sight of “bananas ripe and green, and gingerroot, cocoa in pods and alligator pears” set in a Harlem window. This sense of colliding extremes, of an enormous cultural and economic diversity comingling on the streets continues to reflect the vitality and the difficulty of the city, and to suggest why New York occupies such a powerful place in the national imagination. Drawing on a wide range of materials, we will trace the development of New York from the legend of the purchase of Manhattan Island for \$24 to contemporary ethnographic studies of how immigrant communities have claimed and transformed portions of the city. We will look at sex and sewer systems, the stock market and the skyscraper, riots and newspapers, museums and sweatshops, Chinatown and the Brooklyn Bridge, department stores and jazz clubs, poems and politics, as well as the pain and aftermath of 9/11 in an effort to understand how the daily structures of city life serve to incubate new cultural forms, stage conflict, imagine coalition, and remain resilient.

Second semester. The Department.

68. Race and Races in American Studies. (Also Sociology 38.) This interdisciplinary seminar examines influential scholarship on the “race concept” and racialized relations in American culture and society. The course will focus on selected themes, approaches, methods, debates, and problems in a variety of scholarly genres. Major topics include the cultural construction of race; race as both an instrument of oppression and an idiom of resistance in American politics; the centrality of race in literary, sociological, anthropological, and legal discourse; the racialization of U.S. foreign policy; “race mixing” and “passing” and the vicissitudes of “whiteness” in American political culture; and “race” in the realm of popular cultural representation.

Limited to 25 students. Second semester. Professor Basler.

75. Introduction to Asian American Studies. This course introduces students to the field of Asian American Studies through a historical and comparative approach to the issues facing various Asian American communities. We will focus on the development and concerns of Asian American Studies as an interdisciplinary, community-based field and the simultaneous development of the political pan-ethnic category of “Asian America” brought about during the activism of the 1960s. Weaving together the theoretical and issue-based topics covered by major Asian American Studies scholars, texts, and films, students will trace back contemporary issues to the three waves of Asian immigration to the United States. Topics to be covered include the history of Asian immigration and

the global economy; the development, concerns, and methodologies of Asian American Studies; the heterogeneity of the "Asian American experience"; theories of race, class, and gender; issues concerning the post-1965 second generation; racial politics of contemporary Asian Americans.

First semester. Five College Professor Sharma.

80. Hapa Issues: Asian Americans of Mixed Racial Descent. Growing numbers of inter-racial marriages and the products of these marriages—children of mixed racial descent—have contributed to the increasing diversity of America in the 21st century. Reflecting this heterogeneity, the 2000 Census allowed people to claim more than one background for the first time. In this course, we will evaluate the experiences of hapas—Asians of mixed racial descent—through a historical and comparative framework. This class will explore inter-racial and inter-ethnic marriage trends in various Asian communities in the U.S. in order to highlight the complexity of the Asian American experience. Additionally, we will compare the experiences of hapas representing a range of backgrounds, including those of Asian/White ancestry as well as Asian/Black heritage. Some of the specific topics that will be covered in this course include the following: racial and ethnic community membership and belonging; the dynamics of inter-racial relationships; identity, authenticity, and choice; and the gender identities of mixed race individuals. This course highlights the simultaneous fluidity and social construction of race while marking its real impact on everyday and structural aspects of American life.

Second semester. Five College Professor Sharma.

77, 78. Senior Departmental Honors.

97, 98. Special Topics.

ANTHROPOLOGY AND SOCIOLOGY

Professors Babb, Dizard, Gewertz (Chair), Goheen, and Himmelstein; Associate Professor Lembo†; Assistant Professors Basler and Dole; Five College Fellow Bruchac.

The Anthropology and Sociology program is designed to familiarize students with the systematic analysis of culture and social life. While anthropology has tended to focus on preindustrial peoples and sociology has tended to focus on industrial societies, both disciplines share a common theoretical and epistemological history such that insights garnered from one are relevant to the other. The differences in subject matter form a creative tension rather than a distracting divergence.

Major Program. Students will major in either Anthropology or Sociology (though a combined major is, under special circumstances, possible). Anthropology majors will normally take (though not necessarily in this order) Anthropology 11 or 32 and Anthropology 12 and 23. As well, they must take at least one of the following Sociology courses: Sociology 11, 15, or 16. In addition, majors will take at least four additional anthropology courses. Candidates for degrees with Departmental Honors will take Anthropology 77 and 78 in addition to the other major requirements.

†On leave second semester 2004-05.

Sociology majors will normally take Sociology 11, 15 and 16 and at least one of the following anthropology courses: Anthropology 11, 12, or 23. In addition to these four required courses, majors will also select four courses, including at least one course that focuses on social structure (courses numbered in the 20s) and one that focuses on social processes (courses numbered in the 30s). Candidates for degrees with Departmental Honors will include Sociology 77 and 78 in addition to the other major requirements.

Majors fulfill the department's comprehensive examination requirement by getting a grade of B or better in the relevant theory course (Sociology 15 or Anthropology 23). Those who fail to do so will write a paper on a topic in theory set by the Department.

Anthropology

11. The Evolution of Culture. An analysis of culture in evolutionary perspective, regarding it as the distinctive adaptive mode of humanity. The primary emphasis will be on the relations between biological, psychological, social and cultural factors in human life, drawing on the materials of primatology, paleontology, archaeology and the prehistoric record.

First semester. Professor Goheen.

12. Social Anthropology. An examination of theory and method in social anthropology as applied in the analysis of specific societies. The course will focus on case studies of societies from different ethnographic areas.

Second semester. Professor Babb.

21. Indian Civilization. (Also Asian 22.) A general introduction to Indian civilization. The course will survey South Asia's most important social, political, and religious traditions and institutions. It will emphasize the historical framework within which Indian civilization has developed its most characteristic cultural and social patterns. This course is designed for students who are new to South Asia, or for those who have some knowledge of South Asia but have not studied it at the college level.

First semester. Professor Babb.

23. History of Anthropological Theory. A general survey of writings that have played a leading role in shaping the modern fields of cultural and social anthropology. Beginning with a discussion of the impact of Darwin and the discoveries at Brixham Cave on mid-nineteenth century anthropology, the course surveys the theories of the late-nineteenth-century cultural evolutionists. It then turns to the role played by Franz Boas and his students and others in the advent and later development of cultural anthropology in the U.S. Readings of Durkheim and Mauss will provide the foundation for a discussion of the development of British social anthropology, French structuralism, and Bourdieu's theory of social practice. The course will conclude with a discussion of recent controversies concerning the work of a key theorist in the anthropological tradition.

Not open to first-year students. Second semester. Professor Gewertz.

26. African Cultures and Societies. This course explores the cultural meaning of indigenous African institutions and societies. Through the use of ethnographies, novels and films, we will investigate the topics of kinship, religion, social organization, colonialism, ethnicity, nationalism and neocolonialism. The principal objective is to give students an understanding of African society that will enable

them better to comprehend current issues and problems confronting African peoples and nations.

Second semester. Professor Goheen.

31. Anthropology of the Middle East. This course will use anthropological readings, films, and novels to study the contemporary Middle East. Beginning with an historical eye towards the ways in which the West has discovered, translated and written about the Orient, we will survey a broad range of topics that offer a unique perspective on the people, languages, and cultures of the region. General themes to be explored are the Middle East as a region; the history of its analysis; colonialism, nationalism, and state formation; Islam and modernity; religious sensibilities and Islamist politics; gender and sexuality; transforming social structures; cultural politics and the politics of culture; colonialism; and science, technology, and politics. We will take up these themes through richly contextualized accounts of life within the region. While it is recognized that the Middle East is heterogeneous, particular attention will be given to the influence and role of Islam in the region. By the end of the course, students will have gained a broad understanding of the Middle East and some of the pressing issues faced by people of the region, while at the same time grappling with advanced theoretical readings. No previous knowledge of the Middle East is assumed.

First semester. Professor Dole.

32. Topics in Contemporary Anthropology. This seminar will examine contemporary issues in anthropology. Topics will vary from year to year but might, for instance, include the challenge to anthropology of the post-colonial encounter; the representation of the "other" in museums and magazines; the relationship between culture and practical reason. The universalizing of commodity lust; the linkage of sex, power and disease; the encompassment of the world by capitalism; the writing of money in grants as the prerequisite to the writing of culture in ethnographies.

Limited to 20 students. Second semester. Professor Gewertz.

34. Religion and Society in the South Asian World. (Also Asian 60.) Observers have long marveled at the sheer number of separate religious traditions that flourish and interact with each other in South Asia. In this single ethnographic region, the Indian subcontinent, we find Hindus, Muslims, Sikhs, Buddhists, Jains, Christians, Jews, and others as well. Given this extraordinary diversity, South Asia provides an unparalleled opportunity to study interactions between religious systems in a broad range of social and political contexts. This course takes advantage of this circumstance by exploring, in South Asian settings, a variety of theoretical approaches to the study of religion. Among the subjects to be considered are religion and social hierarchy, religion and gender, religious responses to rapid social change, modern religious movements, religion and modern media, religious nationalism, and South Asian religions in diaspora. Although the course focuses on the South Asian region, it is designed to emphasize theoretical issues of current interest to anthropologists and others who study religion from the perspective of social science. While some background in South Asian studies would be helpful, it is not a prerequisite for this course.

Second semester. Professor Babb.

35. Gender: An Anthropological Perspective. This seminar provides an analysis of male-female relationships from a cross-cultural perspective, focusing upon the ways in which cultural factors modify and exaggerate the biological differences between men and women. Consideration will be given to the positions of

men and women in the evolution of society, and in different contemporary social, political, and economic systems, including those of the industrialized nations.

Limited to 25 students. First semester. Professor Gewertz.

37. Tourism, Culture, and Identities. (Also Black Studies 33.) See Black Studies 33.

Limited to 20 students. First semester. Professor Pinho.

39. The Anthropology of Food. Because food is necessary to sustain biological life, its production and provision occupy humans everywhere. Due to this essential importance, food also operates to create and symbolize collective life. This seminar will examine the social and cultural significance of food. Topics to be discussed include: the evolution of human food systems, the social and cultural relationships between food production and human reproduction, the development of women's association with the domestic sphere, the meaning and experience of eating disorders, and the connection between ethnic cuisines, nationalist movements and social classes.

Limited to 25 students. First semester. Professor Gewertz.

41. Visual Anthropology. This course will explore and evaluate various visual genres, including photography, ethnographic film and museum presentation as modes of anthropological analysis—as media of communication facilitating cross-cultural understanding. Among the topics to be examined are the ethics of observation, the politics of artifact collection and display, the dilemma of representing non-Western “others” through Western media, and the challenge of interpreting indigenously produced visual depictions of “self” and “other.”

Omitted 2004-05. Professor Gewertz.

43. Economic Anthropology and Social Theory. This course will look at the relationship between economy and society through a critical examination of Marx with particular emphasis on pre-capitalist economies. The more recent work of French structural Marxists and neo-Marxists, and the substantivist-formalist debate in economic anthropology will also be discussed. The course will develop an anthropological perspective by looking at such “economic facts” as production, exchange systems, land tenure, marriage transactions, big men and chiefs, state formation, peasant economy, and social change in the modern world.

Limited to 25 students. First- and second-year students must have consent of the instructor. Second semester. Professor Goheen.

45. Medical Anthropology. The aim of this course is to provide an understanding of the major theoretical orientations and themes animating contemporary medical anthropology. The general focus of the course will be on how one is to frame “illness,” “health,” “healing,” and “medicine” as objects of cultural and critical analysis. In addition to addressing several distinct domains of inquiry—cultural constructions of illness, medicine as a cultural system, social suffering, technology, gender, development, the social origins of distress—the course is also organized around a series of debates that have been highly influential in the development of medical anthropology as a field of inquiry.

First semester. Professor Dole.

77, 78. Senior Departmental Honors.

97, 97H, 98, 98H. Special Topics. Independent Reading Courses. Full or half course.

First and second semesters. The Department.

First semester. Professor Zimmerman.

Myth, Ritual and Iconography in West Africa. See Black Studies 42.

Second semester. Professor Abiodun.

Sociology

11. Self and Society: An Introduction to Sociology. Sociology is built on the premise that human beings are crucially shaped by the associations each person has with others. These associations range from small, intimate groups like the family to vast, impersonal groupings like a metropolis. In this course we will follow the major implications of this way of understanding humans and their behavior. The topics we will explore include: how group expectations shape individual behavior; how variations in the size, structure, and cohesion of groups help account for differences in individual behavior as well as differences in the patterns of interaction between groups; how groups, including societies as a whole, reproduce themselves; and why societies change. As a supplement to readings and lectures, students will be able to use original social survey data to explore first-hand some of the research techniques sociologists commonly use to explore the dynamics of social life.

First semester. Professor Lembo.

15. Foundations of Sociological Theory. Sociology emerged as part of the intellectual response to the French and Industrial Revolutions. In various ways, the classic sociological thinkers sought to make sense of these changes and the kind of society that resulted from them. We shall begin by examining the social and intellectual context in which sociology developed and then turn to a close reading of the works of five important social thinkers: Marx, Tocqueville, Weber, Durkheim, and Freud. We shall attempt to identify the theoretical perspective of each thinker by posing several basic questions: According to each social thinker, what is the *general* nature of society, the individual, and the relationship between the two? What are the distinguishing features of modern Western society *in particular*? What distinctive dilemmas do individuals face in modern society? What are the prospects for human freedom and happiness? Although the five thinkers differ strikingly from each other, we shall also determine the extent to which they share a common "sociological consciousness."

First semester. Professor Himmelstein.

16. Social Research. This course introduces students to the range of methods with which sociologists and anthropologists work as they endeavor to create systematic understandings of social action. The strengths and weaknesses of these methods will be explored. Students will be expected to carry out a small scale research project or work with data already available from survey and census materials. Emphasis will be more on general procedures and epistemological issues than on narrowly defined techniques and statistical proofs.

Requisite: Sociology 11 or Anthropology 11 or 12. Second semester. Professor Dizard.

18. The Development of Sociological Theory. This course examines some of the basic schools of sociological theory and how they have developed in critical relation to each other and to the classics of sociology. It includes those theories that have been around American sociology for so long that they seem established

and indigenous (structural-functionalism, conflict theory, exchange theory, interactionism) and those that are new enough to seem critical and insurgent (Marxism and critical theory, feminist theory, post-structuralism).

Second semester. Professor Himmelstein.

21. The Family. The intent of this course is to assess the sources and implication of changes in family structure. We shall focus largely on contemporary family relationships in America, but we will necessarily have to examine family forms different from ours, particularly those that are our historical antecedents. From an historical/cross-cultural vantage point, we will be better able to understand shifting attitudes toward the family as well as the ways the family broadly shapes character and becomes an important aspect of social dynamics.

Omitted 2004-05. Professor Dizard.

23. Contemporary Race and Ethnicity. Recent events and controversies over issues like affirmative action, immigration, and public education suggest the continuing prominence of race and ethnicity in American society and politics. Yet over the past few decades, much of the theoretical initiative in racial and ethnic studies has moved from older social science traditions of race relations toward work more influenced by literary and cultural studies. In response, sociologists have begun to take a fresh look at the phenomena of race and ethnicity. This has included analyses of the social construction of racial and ethnic identity in the context of economic and demographic processes, political institutions and practices, and urban and spatial dynamics.

This course introduces students to the major sociological perspectives on race and ethnicity. With this background, we will turn to an analysis of the structural conditions of group inequality. Comparing different groups' experience with migration, access to labor and housing markets, and cultural acceptance, we will try to bring together groups' internal formation with dynamic patterns of inter-group relations. We will inquire into both the historical centrality of anti-black racism in the U.S. and the implications of complex, multi-racial and ethnic contexts of group interaction.

Omitted 2004-05. Professor Basler.

26. The Postmodern Condition. The postmodern condition may be understood as a distinctive form of social organization that is emerging from inter-related changes in political economy, technology, social structure, and cultural practice. This course will begin by examining a number of perspectives on the transition from modernity, paying particular attention to the ways that social, political, economic, and cultural dimensions of this tradition have been theorized in scholarly accounts. In treating the rise of the post-modern condition from a sociological perspective, the role of the mass media and consumer society will be emphasized. The course will also focus on the deconstruction and reconstruction of identity and a sense of place in a broad range of cultural practices and representational forms. This will involve a consideration of the meanings and uses of ideas of "difference" and "otherness" and of the existence and parameters of social and cultural "borderlands." The post-modern condition is understood to involve both a reactive search for stable identities and coherent cultural practices as well as new formations of identity and cultural practice within a heterogeneous, fragmented, and unstable social order.

Admission with consent of the instructor. Limited to 20 students. Omitted 2004-05. Professor Lembo.

30. Collective Identity and Mobilization. In this course we will explore the social, political, and cultural processes that influence the formation and mobilization of collective identities, with particular attention to ethnicity, race, class, gender, and sexuality in U.S. society. The processes of group formation are complex, especially given the number of social categories to which we may belong, and the factors which influence whether or not we feel strongly enough about our shared fate to construct, maintain, and act on behalf of collective interests and identities. Also of interest are the ways that groups elaborate community cultures and institutions that promote collective identity and political mobilization. Topics include the content and meaning of race and ethnicity, transgressing gender boundaries, the politics of sexuality, the politics of cultural resistance, and the mobilization of collective identities.

Omitted 2004-05. Professor Basler.

31. Conceptualizing White Identity in the United States. The debate over the virtues of multiculturalism and the promotion of diversity have, ironically, led an increasing number of scholars to question the meaning of "whiteness." What does it mean to be "white"? Who gets to decide who is and who isn't "white"? Clearly, "white" means more than is captured by complexion alone, but what is there besides complexion? Given the undeniable fact that cultural variations among those regarded as white are as large as the variations between whites and non-whites, it is not clear what exactly constitutes whiteness. To study whiteness is to analyze the collective memory and practices of "white people" and to scrutinize carefully those moments when white identity is used to mobilize passions. This course will attempt to unpack the myths and realities that have created and maintained "white identity."

Limited to 25 students. First semester. Professor Basler.

33. Social Construction of the Self. This course brings together the perspectives of psychoanalysis, symbolic interactionism, developmental social psychology, as well as a variety of accounts in sociology, literature, and popular culture, to explore how a sense of self and identity develop in social life. Although the focus is on Western culture and traditions, we will be examining documentation provided by cross-cultural accounts in order to contextualize and problematize the truth claims of Western notions of identity construction and self-formation.

Omitted 2004-05.

34. Social Class. This course will consider various ways that class matters in the United States. Historical accounts will be used in conjunction with sociological theories to discuss the formation of classes, including the formation of discourses and myths of class, in American society. Class will then serve as a lens to examine the origins and characteristics of social stratification and inequality in the U.S. The bulk of the course will focus on more contemporary issues of class formation, class structure, class relations, and class culture, paying particular attention to how social class is actually lived out in American culture. Emphasis will be placed on the role class plays in the formation of identity and the ways class cultures give coherence to daily life. In this regard, the following will figure importantly in the course: the formation of upper class culture and the role it plays in the reproduction of power and privilege; the formation of working class culture and the role it plays in leading people to both accept and challenge class power and privilege; the formation of the professional middle class and the importance that status anxiety carries for those who compose it. Wherever possible, attention will be paid to the intersection of class relations and practices with

those of other social characteristics, such as race, gender and ethnicity. The course will use sociological and anthropological studies, literature, autobiographies, and films, among other kinds of accounts, to discuss these issues.

Limited to 30 students. First semester. Professor Lembo.

38. Race and Races in American Studies. (Also American Studies 68.) See American Studies 68.

Limited to 25 students. Second semester. Professor Basler.

39. Sociology of Conflict and Conflict Resolution. In this course we will explore the structural and social psychological origins of conflict, attentive especially to discovering those factors that seem to propel conflict toward violent confrontations. By examining a wide range of conflicts, from interpersonal discord to racial antagonisms and class conflicts to conflicts between nation-states, we will review a variety of theoretical approaches and perspectives. In addition to analyses of conflict, we shall also examine the growing literature on conflict resolution in an attempt to understand the mechanisms that might be useful for averting conflict and reducing tensions between hostile parties.

Requisite: Sociology 11 or Anthropology 11 or 12, or consent of instructor. Some familiarity with basic concepts and scholarly traditions will enable students to apply sociological concepts to the literature of psychologists, lawyers, and industrial relations experts. First semester. Professor Dizard.

40. Social Construction of Nature. This course rests on two premises. The first is that the non-human world—"nature"—exerts a profound influence on social relations. The second is that humans not only modify nature to suit their needs better, they also construct nature ideologically. We will explore the ways in which nature has been manipulated, both physically and symbolically, and the consequences these manipulations have had, both for nature and humans. We will pay particular attention to the shifts over the past century and a half in the ways Americans have regarded the natural world, tracing the emergence of the conservation movement and how it slowly got transformed into the contemporary environmental movement.

Requisite: Sociology 11 or Anthropology 11 or consent of the instructor. Second semester. Professor Dizard.

41. The American Right. Since the 1980s, the Right has been the dominant force in American politics. For spring 2005, this course will examine the Christian Right within a framework of sociological ideas about the social bases of political conflict. We will look at the movement's history, ideology, organizations, and leaders. We shall then examine the changing significance of religion and religiosity in American politics, with a focus on the idea of "culture wars." This will require us to look closely at the differences between how political elites of all ideological persuasions address morally charged issues and how both conservative Christians and other Americans think about these issues. Finally, we shall examine the ways Americans have come in conflict with each other over abortion, gay rights, sex education, and similar issues.

Second semester. Professor Himmelstein.

43. Drugs and Society. This course presents a sociological framework for studying the ways in which societies both encourage and restrict the use of psychoactive drugs.

Omitted 2004-05. Professor Himmelstein.

44. Sport and Society. A cross-cultural study of sport in its social context. Topics will include the philosophy of play, games, contest, and sport; the evolution of modern sport in industrial society; Marxist and Neo-Marxist interpretations of sport; economic, legal, racial and sexual aspects of sport; national character and sport; social mobility and sport; sport in literature and film. Three meetings per week.

Omitted 2004-05. Professor Guttman.

45. Latino Identity in the United States: Continuity and Complexity. The Latino population currently consists of approximately 24 million people in the United States; by the year 2050 the Census Bureau estimates that the Latino population will make up 22 percent of the total population. This diverse group traces its origin to a variety of countries and its experiences in the United States are quite varied. In this course we will examine the experiences of the various Latino communities in the United States. It will examine the socioeconomic experiences of the various Latino groups (Mexicans, Puerto Ricans, Dominicans, among others). This examination will require that we pay attention to issues of race, class, and gender, as well as the complexities of pan-ethnic identity, group politics, and immigration.

First semester. Professor Basler.

77, 78. Senior Departmental Honors.

97, 97H, 98, 98H. Special Topics.

ASIAN LANGUAGES AND CIVILIZATIONS

Professors Babb, Dennerline†, Morse (Chair), Reck, and Tawa; Assistant Professors Brandt, Caddeau, Ringer, and Zamperini; Senior Lecturers Lan and Miyama; Lecturers Kayama, Shen, and Teng.

Affiliated Faculty: Professors Basu and Elias; Assistant Professor Heim; Director of the Five College Arabic Program El-Hibri.

Asian Languages and Civilizations is an interdisciplinary exploration of the histories and cultures of the peoples of Asia. Through a systematic study of the languages, societies, and cultures of the major civilizations that stretch from the Arab World to Japan, we hope to expand knowledge and challenge presuppositions about this large and vital part of the world. The purpose is to encourage in-depth study as well as to provide guidance for a general inquiry into the problem of cultural difference and its social and political implications, both within Asia and between Asia and the West.

Major Program. The major program in Asian Languages and Civilizations is an individualized interdisciplinary course of study. It includes general requirements for all majors and a concentration of courses in one area. As language study or use is an essential part of the major, language defines the area of concentration.

Requirements. All majors are required to take a minimum of nine courses dealing with Asia, exclusive of first-year language courses. A major's courses must include an area concentration (see below), a Colloquium on Asia (Asian 31), and designated courses taught by area specialists broadly covering pre-modern

†On leave second semester 2004-05.

history and culture in two of the three geographic areas outside the area of concentration. Courses designated to fulfill the area distribution requirement are marked in the list of courses with (C) for China, (J) for Japan, (SA) for South Asia, and (WA) for West Asia. Only these courses meet the requirement for the particular area. In addition, each student will show a certain minimum level of competence in one language, either by completing the second year of that language at Amherst or by demonstrating equivalent competence in a manner approved by the department. For graduation with a major in Asian Languages and Civilizations, a student must have a minimum B- grade average for language courses taken within his or her area of concentration. Students taking their required language courses elsewhere, or wishing to meet the language requirement by other means, may be required, at the discretion of the department, to pass a proficiency examination. No pass-fail option is allowed for any courses required for the departmental major.

Area Concentration. Prospective majors should consult with a member of the department as early as possible to plan a concentration. The concentration, which must be approved by the advisor, will include a language and at least three non-language courses dealing entirely or substantially with the chosen area of concentration. Advisors encourage students to enroll in relevant courses in the disciplines as well.

Comprehensive Evaluation. Students writing senior theses fulfill the department's comprehensive requirement. Other majors will, by the middle of the second semester of their senior year, fulfill the requirement by completing essays on a general topic in Asian studies to be evaluated by the department. The essay will respond to a topic, set by the department, of general interest to Asianists.

Departmental Honors Program. Students who wish to be candidates for Departmental Honors must submit a thesis proposal to the Department for its approval and, in addition to the nine required courses, enroll in Asian 77 and 78.

Study Abroad. The Department supports a program of study in Asia during the junior year as means of developing mastery of an Asian language and enlarging the student's understanding of Asian civilization, culture, and contemporary society. Asian Languages and Civilizations majors are therefore encouraged to spend at least one semester abroad during the junior year pursuing a plan of study which has the approval of the Department. Students concentrating on Japan should apply to Amherst College's Associated Kyoto Program (AKP) at Doshisha University in Kyoto or other approved programs. Similar arrangements can be made in consultation with members of the Department for students who wish to study in China, India, Korea, or Egypt.

Courses. Courses listed under the various subheadings below, including "Related Courses," may be applied to meet the requirements of the major. Listed courses that deal exclusively with the area of concentration or include substantial material from that area may be counted toward the area concentration. To request that any other course meet a requirement, the student must petition the department in a timely fashion.

12. Introduction to the Literature of East Asia. A survey of major texts from China, Korea, and Japan from the classical to the contemporary. This course will examine the function of food and drink as they appear in important religious, philosophical, and literary works of East Asia. Readings and discussion in English. Frequent writing. Four film screenings in addition to scheduled class hours.

Omitted 2004-05. Professor Caddeau.

14. Music of the Whole Earth. (Also Music 24.) See Music 24.

Limited to 30 students. Omitted 2004-05. Professor Reck.

15. Buddhism in Theory and Practice. (Also Religion 23.) See Religion 23.

First semester. Professor Heim.

16. Daoist Moments, Confucian Lives. (C) Chinese culture and the related cultures of East Asia have been greatly influenced by a broad set of beliefs, practices, and moral standards commonly called Confucian. Lives are often measured by such things as personal loyalty, family duty, the cultivation of humane qualities, or spiritual enrichment through ritual practices and public service. Alternative visions of human potential, often associated with Daoist, Buddhist, or, more recently, Christian or revolutionary enlightenment, have sometimes challenged and sometimes supported these standards. This course focuses on the representation of individual men's and women's lives, modern and pre-modern. The purpose is to explore the variety of ways in which Confucianism and its alternatives have influenced both the living of individual lives and the effort to invest life stories with meaning. We will balance the study of personal, spiritual, and social doctrines of Confucianism with selections of fiction such as Li Yu's *Prayer Mat of Flesh* (17th c.), drama such as Tang Xianzu's *The Peony Pavilion* (15th c.), memoirs such as Ning Laotaitai's *Daughter of Han* (20th c.) and Yue Daiyun's *To The Storm* (20th c.), and "biographies" such as Jonathan Spence's *Death of Woman Wang*, *God's Other Son*, and *Mao Zedong*.

Omitted 2004-05. Professor Dennerline.

17. To Paint Their Lives. (Also Women's and Gender Studies 16.) An interdisciplinary investigation of women's autobiographical practices. This course will focus on how women across cultures and time narrate and represent their lives through various media and means. Though we will deal mostly with texts and paintings, we will try to include as much as possible other sources, such as movies, photographs, and music. We will engage in close readings and studies of the primary sources, as well as of pertinent theoretical works.

Among the authors and artists we will deal with are Artemisia Gentileschi, Sai Jinhua, Zora Neale Hurston, Charlotte Salomon, Marianne Satrapi, Theresa Cha, Rigoberta Menchu, and Trinh Minh-ha. Our exploration of female autobiographical practices will be read, when possible and meaningful, against the grain of male representations of women's lives.

Omitted 2004-05. Professor Zamperini.

21. Literature, Drama, and Religion of Premodern Japan. (J) This course consists of close reading, lecture, and discussion concerning representative works of literature and drama from ancient to premodern Japan. Theoretical analysis of these works will be integrated with readings from the sociology and anthropology of religion as well as material related to the history of religion in Japan. The course aims to study the relationship between religious belief and literary practice with an emphasis on the impact of ritual on the form and content of literary and dramatic works. From this examination, the course seeks a heightened appreciation for the process of literary creation and the influence of religion on the development of Japanese culture. Readings and discussion will be in English.

Omitted 2004-05. Professor Caddeau.

22. Indian Civilization. (SA) (Also Anthropology 21.) See Anthropology 21.

First semester. Professor Babb.

- 23. Arts of Japan.** (J) (Also Fine Arts 48.) See Fine Arts 48.
First semester. Professor Morse.
- 24. Chinese Civilization.** (C) (Also History 15.) See History 15.
First semester. Professor Dennerline.
- 25. Japanese History to 1600.** (J) (Also History 17.) See History 17.
First semester. Professor Brandt.
- 26. Middle Eastern History: 600-1800.** (WA) (Also History 19.) See History 19.
First semester. Professor Ringer.
- 27. Reading *The Tale of Genji* as a Novel.** (J) This course focuses on the most revered work of the classical Japanese canon, *The Tale of Genji*. Written by a woman in service to the imperial court in the early eleventh century, *Genji* is rich in details concerning Japan's aristocratic culture at its zenith. We will read all 54 chapters of *Genji* in translation at a fairly leisurely pace, taking regular detours to examine works of criticism, theater, and cinema created in response to this touchstone of sophisticated prose fiction. Theoretical analysis will be integrated with readings on topics ranging from gender and feminist theory to the relevance of the term "novel" in describing a work of fiction written nearly a millennium ago in classical Japanese. The course seeks to provide students with an appreciation for *Genji* as a masterpiece of Japanese fiction and of world literature.
First semester. Professor Caddeau.
- 28. The Dao of Sex: Sexuality in China, Past and Present.** (C) (Also Women's and Gender Studies 5.) This survey course will focus on sexual culture in China, from pre-Qin times to the present. Using various sources such as ancient medical texts, Daoist manuals, court poetry and Confucian classics, paintings and illustrated books, movies and documentaries, as well as modern and pre-modern fiction written both in the classic and vernacular languages, we will explore notions of sex, sexuality, and desire. Through the lens of cultural history and gender studies, we will try to reconstruct the genealogy of the discourses centered around sex that developed in China, at all levels of society, throughout 5,000 years. Among the topics covered will be sexual yoga, prostitution, pornography, and sex-tourism.
Limited to 25 students. First semester. Professor Zamperini.
- 29. Fashion Matters: Clothes, Bodies and Consumption in East Asia.** (Also Women's and Gender Studies 13.) This course will focus on both the historical and cultural development of fashion, clothing and consumption in East Asia, with a special focus on China and Japan. Using a variety of sources, from fiction to art, from legal codes to advertisements, we will study both actual garments created and worn in society throughout history, as well as the ways in which they inform the social characterization of class, ethnicity, nationality, and gender attributed to fashion. Among the topics we will analyze in this sense will be hairstyle, foot-binding and, in a deeper sense, bodily practices that inform most fashion-related discourses in East Asia. We will also think through the issue of fashion consumption as an often-contested site of modernity, especially in relationship to the issue of globalization and world-market. Thus we will also include a discussion of international fashion designers, along with analysis of phenomena such as sweatshops.
Limited to 25 students. Second semester. Professor Zamperini.

31. Asian Studies Colloquium. A close study of a focused topic that has broad significance in Asian Studies. Normally to be team-taught by two faculty of the department. The approach will be multidisciplinary; the goal of the course will be to explore a subject of interest in Asian Studies that also has suggestive implications for issues in the humanities and social sciences.

The colloquium for 2004-05 will be "The Six Senses in East Asian Civilization." Buddhist doctrine teaches that there are six organs of sense: eye, ear, nose, tongue, body and mind. It is through these sense organs that we engage the world and experience pleasure and pain. The colloquium will explore contemporary culture in China and Japan with specific reference to traditional religious and philosophical taxonomies associated with the six senses. Topics include art and visual culture; music and ritual; fragrance and intoxication; taste and appetite; and fashion, gender and sexual identity. The above categories and topics will be used to distinguish between mundane and enlightened responses to experience. By studying artifacts, documents, literary and cinematic works the colloquium will explore ways in which deeply personal experiences such as desire, bliss and loss are given meaning in a broader social and cultural context.

Limited to 30 students. Second semester. Professors Caddeau and Zamperini.

39. Islamic Ethics. (Also Religion 57.) See Religion 57.

First semester. Professor Elias.

41. Modern Japanese Literature. A survey of major writers and works of Japanese fiction in translation. The course begins with an examination of literary movements such as naturalism and the I-novel. Our study of these early experiments with literary style will lead to a comprehensive analysis of ways in which personal experience, self-discovery, and confession were used to redefine and expand the boundaries of fictional narrative in Japan during the twentieth century. Readings address the impact of the West; the influence of anxiety in shaping literary development; the concerns of post-war and post-modern generations; and the reception of English-language fiction by ethnic Japanese authors in the West. Authors covered include Ōgai, Sōseki, Ichiyō, Tanizaki, Kawabata, Dazai, Mishima, Ōe, Murakami, and Ishiguro. Reading and discussion in English.

Omitted 2004-05. Professor Caddeau.

42. The Supernatural in Japanese Fiction, Film and Animation. This course begins by examining the role of the supernatural in Buddhist tales, popular legends, and lyric poetry from early Japan. We will then explore the supernatural as it appears in the literary and visual arts of the Edo period (1600-1868) and make our way to contemporary fiction, film, and animation. Major themes and topics of discussion include realism and fantasy; tradition and modernity; war, peace and innocence; and violence and the gothic. Readings include works by Akinari, Kyōka, Ōgai, Sōseki, Tanizaki, Ōe, and Murakami. Screenings include films directed by Ozu, Mizoguchi, Kurosawa, Honda, Masumura, Teshigahara, Miyazaki, Takahata, and Oshii. Attendance at weekly film screenings, in addition to scheduled class time, is expected.

Limited to 30 students. Second semester. Professor Caddeau.

43. Arts of China. (Also Fine Arts 47.) See Fine Arts 47.

Second semester. Professor Morse.

44. Approaches to Chinese Painting. (Also Fine Arts 61.) See Fine Arts 61.

Omitted 2004-05. Professor Morse.

46. **Modern China.** (Also History 16.) See History 16.
Omitted 2004-05. Professor Dennerline.
47. **Modern Japan.** (Also History 18.) See History 18.
Second semester. Professor Brandt.

Second semester. Professor Ringer.
49. **China in the World, 1895-1919.** (Also History 57.) See History 57.
First semester. Professor Dennerline.
52. **Histories of Consumption: Western Europe, the U.S., Japan.** (Also History 91.) See History 91.
Omitted 2004-05. Professor Brandt.
53. **Seminar in World Music: The Musics of Japan.** (Also Music 25.) See Music 25.
Omitted 2004-05.
54. **Asian and Asian American Women: Myths of Deference, Arts of Resistance.** (Also Political Science 47 and Women's and Gender Studies 47.) See Political Science 47.
Omitted 2004-05. Professor Basu.
56. **Sufism.** (Also Religion 53.) See Religion 53.
Limited to 15 students. Second semester. Professor Elias.
57. **Islam in the Modern World.** (Also Religion 55.) See Religion 55.
Omitted 2004-05. Professor Elias.
58. **Buddhist Ethics.** (Also Religion 27.) See Religion 27.
Second semester. Professor Heim.
60. **Religion and Society in the South Asian World.** (Also Anthropology 34.) See Anthropology 34.
Second semester. Professor Babb.
61. **Sacred Images and Sacred Space: The Visual Culture of Religion in Japan.** (Also Fine Arts 66.) See Fine Arts 66.
Omitted 2004-05. Professor Morse.
62. **Treaty-port Japan.** (Also History 90.) See History 90.
Second semester. Professor Brandt.
63. **Women in the Middle East. (WA)** (Also History 62 and Women's and Gender Studies 62.) See History 62.
First semester. Professor Ringer.
64. **Seminar on Middle Eastern History: The Islamic Religious Establishment Between State and Society.** (Also History 93.) See History 93.
Second semester. Professor Ringer.
65. **Chinese Literary Traditions. (C)** This survey course introduces the history, themes, and forms of Chinese literature of the pre-modern period, from its beginnings up until the Yuan dynasty. One of our main goals will be to understand the space and the role of reading and writing practices within traditional Chinese society. We will read in English translation the most representative and influential texts of the literary heritage of this period including the earliest Chinese literary works such as the *Classic of Poetry*, *Lyrics of Chu*, and *Historical Records*; the poetry of Du Fu, Li Bai and Wang Wei; the song lyrics by

Su Shi and Li Qingzhao; fiction such as *The Story of Li Wa* and *Huo Xiaoy*; and dramatic romances such as the *Story of the Western Wing* and *Rescuing One of the Girls*.

In addition to literary texts, representative works in Chinese theories of literature will be incorporated in the course, along with recent scholarship produced in the field of pre-modern Chinese literature and relevant theoretical works.

Omitted 2004-05. Professor Zamperini.

66. The Dream of the Stone. (C) This course will be devoted to reading the English translation of the eighteenth-century novel *Honglouloumeng* (*The Dream of the Red Chamber*) by Cao Xueqin. As we read through the novel together, retracing the dream of the stone and uncovering its richness and complexity, we will in turn address issues such as the place of the novel in traditional Chinese literature, material culture and fashion, class and discrimination, health and disease, masculinity and its discontents. In addition to the primary source, representative theoretical work in the field of pre-modern Chinese literature will be incorporated as much as possible.

Omitted 2004-05. Professor Zamperini.

67. Flowers in the Mirror: Writing Women in Chinese Literature. (C) (Also Women's and Gender Studies 69.) This course will look at texts written by and about women during the course of Chinese literature, from the early period all the way to the present. Thus we will deal with a variety of sources, from poetry to drama, from novels and short stories to movies. We will address the issue of women's representation and self-portrayals, and the complex dynamics involved in the relationship between women as objects of writing and women as writing subjects. In particular, we will try to detect the presence (or the absence) of a "woman's voice" in various historical periods, trying also to understand how it related to the presence of a male voice.

We will also analyze writing and reading practices and their relationship to issues of gender, sexuality, social class, and material culture. In addition to literary texts, representative theoretical work in the field of pre-modern, modern and contemporary Chinese literature will also be incorporated in the course.

Omitted 2004-05. Professor Zamperini.

68. Biographies in Buddhist Literature. (SA) (Also Religion 29.) See Religion 29. Omitted 2004-05.

69. Theravada Buddhism. (SA) (Also Religion 26.) See Religion 26. Second semester. Professor Heim.

77, 78. Senior Departmental Honors.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. Members of the Department.

RELATED COURSES

Women and Islamic Constructions of Gender. (Also Religion 56 and Women's and Gender Studies 56.) See Religion 56.

Second semester. Professor Elias.

Images and Icons. See Fine Arts 92, topic 01.

Second semester. Professor Morse.

Arabic

First- and second-year Arabic are offered as part of the Five College Near Eastern Studies Program. When omitted at Amherst, these courses are offered at the University of Massachusetts and one of the other college campuses. Arabic 01 is numbered 126 and Arabic 02 is numbered 146 and are offered at the University of Massachusetts. Third-year Arabic courses are also offered there as Arabic 326 and 426. Advanced Arabic courses are taught by special arrangement with faculty members in the department. For more information, contact Five College Arabic Program Director Tayeb El-Hibri. See also Five College Courses by Five College Faculty in this Catalog.

01. First-Year Arabic I. This year-long course introduces the basics of Modern Standard Arabic, also known as Classical Arabic. It begins with a coverage of the alphabet, vocabulary for everyday use, and essential communicative skills relating to real-life and task-oriented situations (queries about personal well-being, family, work, and telling the time). Students will concentrate on speaking and listening skills, as well as on learning the various forms of regular verbs, and on how to use an Arabic dictionary.

First semester. Omitted at Amherst College 2004-05. (To be offered at the University of Massachusetts as Arabic 126.)

02. First-Year Arabic II. A continuation of Arabic 01.

Requisite: Arabic 01 or equivalent. Second semester. Omitted at Amherst College 2004-05. (To be offered at the University of Massachusetts as Arabic 146.)

03. Second-Year Arabic I. This course expands the scope of the communicative approach, as new grammatical points are introduced (irregular verbs), and develops a greater vocabulary for lengthier conversations. Emphasis is placed on reading and writing short passages and personal notes. This second-year of Arabic completes the introductory grammatical foundation necessary for understanding standard forms of Arabic prose (classical and modern literature, newspapers, film, etc.) and making substantial use of the language.

Requisite: Arabic 02 or equivalent. First semester. Omitted at Amherst College 2004-05. (To be offered at the University of Massachusetts as Arabic 226.)

04. Second-Year Arabic II. Continued conversations at a more advanced level, with increased awareness of time-frames and complex patterns of syntax. Further development of reading and practical writing skills.

Requisite: Arabic 03 or equivalent or consent of the instructor. Second semester. Omitted at Amherst College 2004-05. (To be offered at the University of Massachusetts as Arabic 246.)

97, 98. Special Topics. Independent Reading Course.

First and second semesters. Five College Teachers of Arabic.

Chinese

01. First-Year Chinese I. An introduction to Mandarin Chinese. This course emphasizes an integrated approach to basic language skills: listening, speaking, reading, and writing. Three class meetings per week are supplemented by two drill sessions and individual work in the media center. A placement test will be given before class begins.

First semester. Lecturers Shen and Teng.

02. First-Year Chinese II. A continuation of Chinese 01. By the end of the course, students are expected to master basic Chinese grammar points and sentence patterns. Three class meetings per week are supplemented by two drill sessions and individual work in the media center.

Requisite: Chinese 01 or equivalent. Second semester. Lecturers Shen and Teng.

03. Second-Year Chinese I. This course in Mandarin Chinese stresses oral and written proficiency at the intermediate level. In addition to the textbook there will be supplementary reading materials. Three class hours supplemented by two drill sessions and individual work in the media center.

Requisite: Chinese 02 or equivalent. First semester. Senior Lecturer Lan and Lecturer Teng.

04. Second-Year Chinese II. A continuation of Chinese 03. This course stresses oral proficiency and introduces simplified characters. Additional supplementary reading materials will be used. Three class hours supplemented by two drill sessions and individual work in the media center.

Requisite: Chinese 03 or equivalent. Second semester. Senior Lecturer Lan and Lecturer Teng.

05. Third-Year Chinese I. This course is designed to expose students to more advanced and comprehensive knowledge of Mandarin Chinese, with an emphasis on both linguistic competence and communicative competence. The class will be conducted mostly in Chinese. Three class hours supplemented by two drill sessions and individual work in the media center.

Requisite: Chinese 04 or equivalent. First semester. Lecturer Shen.

06. Third-Year Chinese II. A continuation of Chinese 05. Developments of the basic four skills will continue to be stressed. Students will be trained to write articles and to read Chinese in both print and hand-written forms. Three class hours supplemented by two drill sessions and individual work in the media center.

Requisite: Chinese 05 or equivalent. Second semester. Lecturer Shen.

07. Fourth-Year Chinese I. In addition to the continued development of linguistic skills, particularly in speaking and writing, this course will introduce the advanced students of Chinese to a list of authentic texts that includes different genres and styles. Classes, primarily conducted in Chinese, meet twice a week.

Requisite: Chinese 06 or equivalent. First semester. Senior Lecturer Lan.

08. Fourth-Year Chinese II. Continuation of Chinese 07. Original texts, both literary and nonliterary, will be introduced to students to strengthen their mastery and appreciation of the Chinese language. Two class meetings per week.

Requisite: Chinese 07 or equivalent. Second semester. Senior Lecturer Lan.

10. The Art of Translation/Interpretation. Translation/interpretation is, in our new intellectual landscape, viewed as socio-cultural transmission. It is also an indispensable component in second language acquisition. With an emphasis on the socio-cultural aspects of language, the course is designed to help advanced students to master the ability of translating/interpreting from the home language to the target language and vice versa, in this case, English and Chinese. Students will be trained to appreciate and critique samples of translations by seasoned translators and will be required to complete translation/interpretation assignments, based on English and Chinese materials selected from literary works, political essays and speeches, etc. The assignments, including the final project,

are to a great extent individualized, according to the students' needs and in consultation with the instructor.

Requisite: Chinese 07 or equivalent. Second semester. Senior Lecturer Lan.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. Members of the Department.

Japanese

01. Introduction to the Japanese Language. This course is designed for students who have never previously studied Japanese. The course will introduce the overall structure of Japanese, basic vocabulary, the two syllabaries of the phonetic system, and some characters (*Kanji*). The course will also introduce the notion of "cultural appropriateness for expressions," and will provide practice and evaluations for all four necessary skills—speaking, listening, reading, and writing. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

First and second semesters. Professor Tawa and Assistant.

02. Building Survival Skills in Japanese. This course is a continuation of Japanese 01. The course will emphasize active learning by each student in the class by means of the materials in the course website and individualized or small group discussions with the instructor. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. By the end of this course, students are expected to be familiar with most basic Japanese structures, to have acquired a substantial vocabulary, and to have gained sufficient speaking, listening, reading, and writing proficiency levels, which will enable the students to survive using Japanese in Japan. As for literacy, a few hundred new characters (*Kanji*) will be added by reading and writing longer passages. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 01 or equivalent. Second semester. Professor Tawa and Assistant.

03. Review and Progress in Japanese. This course is designed for students who have already begun studying Japanese in high school, other schools, or at home before coming to Amherst, but have not finished learning basic Japanese structures or acquired a substantial number of characters (*Kanji*). This course is also for individuals whose proficiency levels of the four skills (speaking, listening, reading, and writing) are uneven to a noticeable degree. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Some Japanese instruction at high school, home, or college. First semester. Professor Tawa and Assistant.

04. Beyond Basic Japanese. This course is a continuation of Japanese 03. The course will emphasize active learning from each student in the class by the use of the materials on the course website and individual or small group discussions with the instructor. By the end of this course, students are expected to be able

to use basic Japanese structures with a substantial vocabulary and to have attained post-elementary speaking, listening, reading, and writing proficiency levels. As for literacy, a few hundred new characters (*Kanji*) will be added by reading and writing longer passages. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 03 or equivalent. Second semester. Professor Tawa and Assistant.

05. Communicating in Sophisticated Japanese. This course is designed for students who have completed the acquisition of basic structures of Japanese and have learned a substantial number of characters (*Kanji*) and are comfortable using them spontaneously. The course will emphasize the development of all four skills (speaking, listening, reading, and writing) at a more complex, multi-paragraph level. For example, students will be trained to speak more spontaneously and with cultural appropriateness in given situations using concrete as well as abstract expressions on a sustained level of conversation. As for literacy, students will be given practice reading and writing using several hundred characters (*Kanji*). Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 02, Japanese 04, or equivalent. First semester. Senior Lecturer Miyama and Assistant.

06. Experience with Authentic Japanese Materials. This course is a continuation of Japanese 05. The course will provide sufficient practice of reading authentic texts and viewing films to prepare for the next level, Japanese 11, in which various genres of reading and films will be introduced. Throughout the course, the development of more fluent speech and stronger literacy will be emphasized by studying more complex and idiomatic expressions. Acquisition of an additional few hundred characters (*Kanji*) will be part of the course. The class will be conducted mostly in Japanese. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 05 or equivalent. Second semester. Senior Lecturer Miyama and Assistant.

11. Introduction to Different Genres of Japanese Writing and Film. This course will introduce different genres of writing: short novels, essays, newspaper and magazine articles, poems, expository prose, scientific writings, and others. Various genres of films will also be introduced. Development of higher speaking and writing proficiency levels will be focused upon as well. The class will be conducted entirely in Japanese. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and

two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 06 or equivalent. First semester. Lecturer Kayama.

12. Moving From "Learning to Read" to "Reading to Learn" in Japanese.

This course will be a continuation of Japanese 11. Various genres of writing and film, of longer and increased difficulty levels, will be used to develop a high proficiency level of reading, writing, speaking, and listening throughout the semester. At this level, the students should gradually be moving from "learning to read" to "reading to learn." This important progression will be guided carefully by the instructor. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Students will be required to practice with the materials that are on the course website at the college. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 11 or equivalent. Second semester. Lecturer Kayama.

13. Introduction to Thematic Reading and Writing. This course is designed for the advanced students of Japanese who are interested in readings and writings on topics that are relevant to their interests. Each student will learn how to search for the relevant material, read it, and summarize it in writing in a technical manner. The course will also focus on the development of a high level of speaking proficiency. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 12 or equivalent. First semester. Senior Lecturer Miyama.

14. Thematic Reading and Writing. This course is a continuation of Japanese 13. In addition to learning how to search for the relevant material, read it with comprehension, and produce a high level of writing, the students will learn to conduct a small research project in this semester. The course will also focus on the development of a high level of speaking proficiency through discussions with classmates and the instructor. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 13 or equivalent. Second semester. Senior Lecturer Miyama.

15. Introduction to Great Books and Films in the Original. This course is designed for students who possess a high proficiency level of speaking but need training in cover-to-cover book reading or film comprehension. Class materials will be selected from well-known books and films. Writing assignments will be given to develop critical and creative writing skills in Japanese. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 14 or equivalent. First semester. Lecturer Kayama.

16. Great Books and Films in the Original. This course is a continuation of Japanese 15. The course is designed for students who possess a high proficiency level of speaking but need training in cover-to-cover reading or film comprehension. Class materials will be selected from well-known books and

films. Writing assignments will be given to develop critical and creative writing skills in Japanese. Small groups based on the students' proficiency levels will be formed, so that instruction accords with the needs of each group. Two group meetings and two individualized or small group evaluations per week are normally required throughout the semester.

Requisite: Japanese 15 or equivalent. Second semester. Lecturer Kayama.

97, 97H, 98, 98H. **Special Topics.**

ASTRONOMY

Professor Greenstein.

Five College Astronomy Department Faculty: Professors Dennis, Edwards, Greenstein, Irvine, Kwan, Schloerb, Schneider, Snell (Chair), Weinberg, and Young; Associate Professors Katz, Mo, Wang, and Yun; Assistant Professors Lowenthal, Tripp, and Wilson; Research Professor Erickson; Research Associate Professor Heyer; Research Assistant Professors Kanbur and Narayanan; Teaching Fellows Finn, Hameed, and Hamilton.

Astronomy was the first science, and it remains today one of the most exciting and active fields of scientific research. Opportunities exist to pursue studies both at the non-technical and advanced levels. Non-technical courses are designed to be accessible to every Amherst student: their goal is to introduce students to the roles of quantitative reasoning and observational evidence, and to give some idea of the nature of the astronomical universe. These courses are often quite interdisciplinary in nature, including discussion of issues pertaining to biology, geology and physics. Advanced courses are offered under the aegis of the Five College Astronomy Department, a unique partnership between Amherst, Smith, Mount Holyoke and Hampshire Colleges and the University of Massachusetts. As a result of this partnership, students can enjoy the benefits of a first-rate liberal arts education while maintaining association with a research department of international stature. Students may pursue independent theoretical and observational work in association with any member of the department, either during the academic year or summer vacation. Advanced students pursue a moderate study of physics and mathematics as well as astronomy.

A joint Astronomy Department provides instruction at Amherst, Hampshire, Mount Holyoke and Smith Colleges and the University of Massachusetts. Introductory courses are taught separately at each of the five institutions; advanced courses are taught jointly. ASTFC indicates courses offered by the Five College Astronomy Department. These courses are listed in the catalogs of all the institutions. For ASTFC courses, students should go to the first scheduled class meeting on or following Thursday, September 9, for the fall semester and Wednesday, January 26, for the spring semester. The facilities of all five institutions are available to departmental majors. (See description under Astronomy 77, 78.) Should the needs of a thesis project so dictate, the Department may arrange to obtain special materials from other observatories.

Major Program. The minimum requirements for the *rite* major are two Astronomy courses at the 20-level, two Astronomy courses at the 30-level or higher, Physics 23 and 24, and Mathematics 11 and 12.

Students intending to apply for admission to graduate schools in astronomy are warned that the above program is insufficient preparation for their needs.

They should consult with the Department as early as possible in order to map out an appropriate program.

Students even considering a major in Astronomy are strongly advised to take Mathematics 11, Physics 23, and some Astronomy during the first year. The sequence of courses and their requisites is such that failure to do so would severely limit a student's options. All Astronomy majors must pass a written comprehensive examination in the second semester of their senior year.

11. Introduction to Modern Astronomy. A course reserved exclusively for students not well-versed in the physical sciences. The properties of the astronomical universe and the methods by which astronomers investigate it are discussed. Topics include the nature and properties of stars, our Galaxy, external galaxies, cosmology, the origin and character of the solar system, and black holes. Three one-hour lectures per week.

Enrollment limited. Admission with consent of the instructor. No student who has taken any upper level math or science course will be admitted. Second semester. Professor Greenstein.

14. Stars and Galaxies. An introductory course appropriate for both physical science majors and students with a strong pre-calculus background. Topics include: the observed properties of stars and the methods used to determine them, the structure and evolution of stars, the end-points of stellar evolution, our Galaxy, the interstellar medium, external galaxies, quasars and cosmology.

Second semester. Professor to be named.

20. Astronomy and Public Policy. Astronomical issues that impact our society will be explored in a seminar format. The approach for each issue will be to pose a question based on a body of scientific evidence with potential consequences for human society. The answers to these questions will be investigated both on scientific and societal grounds. Scientific issues include the potential threat of collisions between the earth and other solar system bodies, and the potential existence of extraterrestrial life. Students will assemble into three teams, two acting as scientists arguing for or against a particular course of action and a third team acting as a congressional subcommittee which must make a policy decision based on the evidence provided, recommending a response and an appropriate level of federal investment. The course bibliography will include primary sources, both from the scientific literature and from congressional records.

Requisites: One semester of calculus and one semester of any physical science. Omitted 2004-05.

23. Planetary Science. (ASTFC) An introductory course for physical science majors. Topics include: planetary orbits, rotation and precession; gravitational and tidal interactions; interiors and atmospheres of the Jovian and terrestrial planets; surfaces of the terrestrial planets and satellites; asteroids, comets, and planetary rings; origin and evolution of the planets.

Requisite: One semester of a physical science and one semester of calculus (may be taken concurrently). Some familiarity with physics is essential. First semester. Professor Dyar.

24. Stellar Astronomy. (ASTFC) This is a course on the observational determination of the fundamental properties of stars. It is taught with an inquiry-based approach to learning scientific techniques, including hypothesis formation, pattern recognition, problem solving, data analysis, error analysis, conceptual modeling, numerical computation and quantitative comparison between observation and theory.

Because many of the pedagogical goals of Astronomy 24 and 25 are identical, students are advised not to take both of these courses. Two class meetings per week plus computer laboratories.

Requisite: Mathematics 11 and either an introductory Astronomy or an introductory Physics course. Omitted 2004-05.

25. Galactic and Extragalactic Astronomy: The Dark Matter Problem. This course explores the currently unsolved mystery of dark matter in the universe using an inquiry-based approach to learning. Working with actual and simulated astronomical data, students will explore this issue both individually and in seminar discussions. The course will culminate in a "conference" in which teams present the results of their work.

Because many of the pedagogical goals of Astronomy 24 and 25 are identical, students are advised not to take both of these courses. Students who have taken the First-Year Seminar "The Unseen Universe" may not take Astronomy 25. Two class meetings per week plus computer laboratories.

Requisite: Mathematics 11 and either an introductory Astronomy or an introductory Physics course. Second semester. Professor Edwards.

26. Cosmology. (ASTFC) Cosmological models and the relationship between models and observable parameters. Topics in current astronomy which bear upon cosmological problems, including background electromagnetic radiation, nucleosynthesis, dating methods, determination of the mean density of the universe and the Hubble constant, and tests of gravitational theories. Discussion of some questions concerning the foundations of cosmology and speculations concerning its future as a science.

Requisite: One semester of calculus and one semester of some physical science; no Astronomy requisite. First semester. Professor Greenstein.

30. Seminar: Topics in Astrophysics. Devoted each year to a particular topic, this course will commence with a few lectures in which a scientific problem is laid out, but then quickly move to a seminar format. In class discussions a set of problems will be formulated, each designed to illuminate a significant aspect of the topic at hand. The problems will be substantial in difficulty and broad in scope: their solution, worked out individually and in class discussions, will constitute the real work of the course. Students will gain experience in both oral and written presentation.

The seminar for spring 2005 will be a hands-on experience with spectroscopic data acquired from planetary atmospheres and surfaces. Four course modules include: (1) theory of planetary spectroscopy, (2) broad band imaging of planetary surfaces, (3) in situ spectroscopy of planetary surfaces, and (4) observations of planetary atmospheres using the FCRAO. Homeworks, labs and two exams.

Requisite: Astronomy 23 and at least three college-level courses in astronomy, physics or geology. Second semester. Professor Dyar.

35. Introduction to Astrophysics. How do astronomers determine the nature and extent of the universe? Following the theme of the "cosmic distance ladder," we explore how our understanding of astrophysics allows us to evaluate the size of the observable universe. We begin with direct determinations of distances in the solar system and to nearby stars. We then move on to spectroscopic distances of more distant stars, star counts and the structure of our Galaxy, Cepheid variables and the distances of other galaxies, the Hubble Law and large-scale structure in the universe, quasars and the Lyman-alpha forest.

Requisites: One Astronomy course at the 20-level or higher and Physics 24. First semester. Professor Wilson.

37. Observational Techniques in Optical and Infrared Astronomy. Offered in alternate years with Astronomy 38. An introduction to the techniques of gathering and analyzing astronomical data, particularly in the optical and infrared regions of the spectrum. Telescope design and optics. Instrumentation for imaging, photometry, and spectroscopy. Astronomical detectors. Computer graphics and image processing. Error analysis and curve fitting. Data analysis and astrophysical interpretation. Evening laboratories to be arranged.

Requisite: Two courses of Physics and either Astronomy 24, 30, 35 or 51. Not open to first-year students. Second semester. Teaching Fellow Finn.

38. Techniques of Radio Astronomy. (ASTFC) Offered in alternate years with Astronomy 37. Introduction to the equipment and techniques of radio Astronomy. With lab. Equipment, techniques, nature of cosmic radio sources. Radio receiver and antenna theory. Radio flux, brightness temperature and the transfer of radio radiation in cosmic sources. Effect of noise, sensitivity, bandwidth, and antenna efficiency. Techniques of beam switching, interferometry and aperture synthesis. Basic types of radio astronomical sources: ionized plasmas, masers, recombination and hyperfine transitions; nonthermal sources. Applications to the sun, interstellar clouds, and extragalactic objects.

Requisite: Physics 24, Mathematics 11 and some familiarity with Astronomy. Not open to first-year students. Omitted 2004-05.

52. Astrophysics II: Galaxies. (ASTFC) Physical processes in the gaseous interstellar medium: photoionization in HII regions and planetary nebulae; shocks in supernova remnants and stellar jets; energy balance in molecular clouds. Dynamics of stellar systems: star clusters and the Virial Theorem; galaxy rotation and the presence of dark matter in the universe; spiral density waves. Quasars and active galactic nuclei: synchrotron radiation; accretion disks; super-massive black holes.

Requisite: Four semesters of Physics. Second semester. Professor Lowenthal.

73, 74. Reading Course. Students electing this course will be required to do extensive reading in the areas of astronomy and space science. Two term papers will be prepared during the year on topics acceptable to the Department.

Open to seniors. First and second semesters. The Department.

77, 78. Senior Departmental Honors. Opportunities for theoretical and observational work on the frontiers of science are available in cosmology, cosmogony, radio astronomy, planetary atmospheres, relativistic astrophysics, laboratory astrophysics, gravitational theory, infrared balloon astronomy, stellar astrophysics, spectroscopy, and exobiology. Facilities include the Five College Radio Astronomy Observatory, the Laboratory for Infrared Astrophysics, balloon astronomy equipment (16-inch telescope, cryogenic detectors), and modern 24- and 16-inch Cassegrain reflectors. An Honors candidate must submit an acceptable thesis and pass an oral examination. The oral examination will consider the subject matter of the thesis and other areas of astronomy specifically discussed in Astronomy courses.

Open to seniors. Required of Honors students. First and second semesters. The Department.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. The Department.

BIOLOGY

Professors S. George, Goldsby† (Simpson Lecturer), Pocci†, Ratner‡, Williamson, and Zimmerman‡; Associate Professors Goutte* and Temeles (Chair); Assistant Professors Clotfelter and Miller.

The Biology curriculum is designed to meet the needs of students preparing for postgraduate work in biology or medicine, as well as to provide the insights of biology to other students whose area of specialization lies outside biology.

Courses for Non-Major Students. Biology 08 and 14 each focus on a particular topic within biology, and are specifically intended for students who do not major in biology. These courses will not normally count towards the Biology major, and do not meet the admission requirements for medical school. The two semesters of introductory biology (Biology 18 and 19) may also be taken by non-majors who wish a broad introduction to the life sciences.

Major Program. The Biology major consists of three categories:

1. Two introductory biology courses (Biology 18 and 19);
2. Four courses in physical sciences and mathematics (Mathematics 11, Chemistry 11 or 15, Chemistry 12, and Physics 16 or 23);
3. Five additional courses in biology, except for Special Topics and Biology 08 and 14, chosen according to each student's needs and interests, subject to two constraints: First, at least three of the five must be laboratory courses. These courses are Biology 22, 24, 25, 29, 30, 32, 35, and 39. Second, the five courses must include at least one course in each of the following three areas:
 - (a) Molecular and cellular mechanisms of life processes: Molecular Genetics (Biology 25), Cell Structure and Function (Biology 29), Biochemistry (Biology 30), Structural Biology (Biology 37);
 - (b) Integrative processes that show the relationship between molecular mechanisms and macroscopic phenomena: Developmental Biology (Biology 22), Genetic Analysis of Biological Processes (Biology 24), Animal Physiology (Biology 26), Immunology (Biology 33), Neurobiology (Biology 35);
 - (c) Evolutionary explanations of biological phenomena: Ecology (Biology 23), Evolutionary Biology (Biology 32), Animal Behavior (Biology 39).

All Biology majors will take a Senior Comprehensive Examination administered by the Department. Beginning with the fall of 2004, all senior majors will attend Biology seminars, at which faculty, students, and visitors discuss current research in the life sciences.

Most students should begin with Biology 18 in the spring semester of their first year. Students with Advanced Placement grades of 4 or 5 may choose to place out of either Biology 18 or Biology 19. To be exempted from Biology 18, a student must also pass a written examination that will be offered by appointment. Exemption from both Biology 18 and Biology 19 requires permission of the Department. A student exempted from Biology 18 and/or Biology 19 must substitute an upper level course for each exemption. The Biology major will then require a total of seven courses from categories 1 and 3 above, four of which must have a laboratory component.

*On leave 2004-05.

†On leave first semester 2004-05.

‡On leave second semester 2004-05.

Chemistry 11 and/or Chemistry 12 are requisites for several Biology courses. Students are therefore encouraged to take Chemistry 11 in the fall of their first year, particularly students whose planned courses emphasize integrative processes or cellular and molecular mechanisms. Students preparing for graduate study in life sciences should consider taking Chemistry 21 and 22, Physics 17, and a course in statistics in addition to the minimum requirements for the Biology major. Note that Chemistry 21 and 22 are requisites for Biology 30 and that prior completion of Physics 17 or 24 is recommended for Biology 35.

Departmental Honors Program. Honors work in Biology is an opportunity to do original laboratory or field research and to write a thesis based on this research. The topic of thesis research is chosen in consultation with a member of the Biology Department who agrees to supervise the Honors work. Honors candidates take Biology 77 and 78D in addition to the other requirements for the major, except that Honors candidates may take four rather than five courses in addition to Biology 18 and 19, subject to the laboratory and subject area constraints.

Courses for Premedical Students. Students not majoring in Biology may fulfill the two-course minimum premedical requirement in Biology by taking two laboratory courses in Biology. Students interested in health professions other than allopathic medicine should consult a member of the Health Professions Committee regarding specific requirements.

08. The Biology of Catastrophe: Cancer and AIDS. AIDS, the acquired immunodeficiency syndrome, is caused by HIV infection and is the result of a failure of the immune system. Cancer is the persistent, uncontrolled and invasive growth of cells. A study of the biology of these diseases provides an opportunity to contrast the normal operation of the immune system and the orderly regulation of cell growth with their potentially catastrophic derangement in cancer and AIDS. A program of lectures and readings will provide an opportunity to examine the way in which the powerful technologies and insights of molecular and cell biology have contributed to a growing understanding of cancer and AIDS. Factual accounts and imaginative portraits will be drawn from the literature of illness to illuminate, dramatize and provide an empathetic appreciation of those who struggle with disease. Finally, in addition to scientific concepts and technological considerations, society's efforts to answer the challenges posed by cancer and AIDS invite the exploration of many important social and ethical issues. Three classroom hours per week.

Limited to 50 students. This course is for non-majors. Students majoring in Biology, Chemistry, or Psychology will be admitted only with consent of the instructor. Omitted 2004-05. Professor Goldsby.

14. The Evolution of Human Nature. Recent extensions of Darwinian natural selection provide a unified explanatory theory of social evolution in animals and humans. After considering the relevant evolutionary principles of genetics, population biology and behavior, we will discuss and illustrate the social behavior of animals, with emphasis upon chimpanzees, our nearest relatives among the apes. With this background, we will consider how evolutionary social theory explains our cognitive abilities and psychological traits as biological adaptations that underlie social and cultural evolution in our species. Evidence that supports this theory of human nature and history is found in our instinct to acquire language and many other behaviors, our social and mating systems, behavioral differences between the sexes, aggression and cooperation within and between the sexes, mating behavior, systems of kinship and inheritance, incest avoidance, reciprocity and exchange, warfare in prehistoric

and technologically primitive societies, patriarchy, religion, and systems of morals, laws, and justice. Three hours of lecture and films per week.

First semester. Professor Zimmerman.

18. Adaptation and the Organism. An introduction to evolutionary theory, and how evolutionary theory can be used to study the diversity of life. Following an exploration of the core components of evolutionary theory (such as natural selection, sexual selection, and kin selection), we'll examine how evolutionary processes have shaped morphological, anatomical, physiological, and behavioral adaptations in organisms to solve many of life's problems, ranging from how to maintain salt and water balance to how to attract and locate mates to how to schedule reproduction throughout a lifetime. We'll start with a familiar organism—ourselves—and then relate and compare adaptations of humans to those of their nearest (vertebrate) and not-so-nearest (bacteria and plants) relatives, examining how and why these organisms have arrived at similar or different solutions to life's problems. Laboratories will complement lectures and will involve field experiments on natural selection and laboratory studies of vertebrates, invertebrates, bacteria, and plants. Four classroom hours and three laboratory hours per week.

Second semester. Professors Clotfelter and Miller.

19. Molecules, Genes and Cells. An introduction to the molecular and cellular processes common to life. A central theme is the genetic basis of cellular function. Four classroom hours and three laboratory hours per week.

Requisite: Prior completion of, or concurrent registration in, Chemistry 12, or consent of the instructor. First semester. Professors Ratner and Williamson.

22. Developmental Biology. A study of the development of animals, leading to the formulation of the principles of development, and including an introduction to experimental embryology and developmental physiology, anatomy, and genetics. Four classroom hours and four hours of laboratory per week.

Requisite: Biology 19. Limited to two sections of 24 students each. Omitted 2004-05. Professor Poccia.

23. Ecology. A study of the relationships of plants and animals (including humans) to each other and to their environment. We'll start by considering the decisions an individual makes in its daily life concerning its use of resources, such as what to eat and where to live, and whether to defend such resources. We'll then move on to populations of individuals, and investigate species population growth, limits to population growth, and why some species are so successful as to become pests whereas others are on the road to extinction. The next level will address communities, and how interactions among populations, such as competition, predation, parasitism, and mutualism, affect the organization and diversity of species within communities. The final stage of the course will focus on ecosystems, and the effects of humans and other organisms on population, community, and global stability. Three hours of lecture per week.

Requisite: Biology 18 or consent of the instructor. Not open to first-year students. Second semester. Professor Temeles.

24. Genetic Analysis of Biological Processes. This course will explore the application of genetic analysis towards understanding complex biological systems. Scientists often turn to the study of genes and mutations when trying to decipher the mechanisms underlying such diverse processes as the making of an embryo, the response of cells to their environment, or the defect in a heritable disease. By reading papers from the research literature, we will study in detail

some of the genetic approaches that have been taken to analyze certain molecular systems. We will learn from these examples how to use genetic analysis to formulate models that explain the molecular function of a gene product. The laboratory portion of this course will include discussions of the experimental approaches presented in the literature. Students will apply these approaches to their own laboratory projects. Three hours of lecture and three hours of laboratory per week; the laboratory projects will require additional time outside of class hours.

Requisite: Biology 19. Not open to first-year students. Limited to 30 students. Omitted 2004-05. Professor Goutte.

25. Molecular Genetics. A study of the molecular mechanisms underlying the transmission and expression of genes. DNA replication and recombination, RNA synthesis and processing, and protein synthesis and modification will be examined. Both prokaryotic and eukaryotic systems will be analyzed, with an emphasis upon the regulation of gene expression. Application of modern molecular methods to biomedical and agricultural problems will also be considered. The laboratory component will focus upon recombinant DNA methodology. Four classroom hours and four hours of laboratory per week; some laboratory exercises may require irregular hours.

Requisite: Biology 19. Not open to first-year students. Limited to 30 students. Omitted 2004-05. Professor Ratner.

26. Animal Physiology. Function, structure and regulation in biological tissues, organs, and organ systems. How organisms maintain their body form against gravity, manage food intake, control ion and water content, circulate fluids, exchange gases, respond to temperature changes, and process sensory information. How these activities are regulated by the nervous system and by hormonal controls. Four classroom hours per week.

Requisite: Biology 18 or consent of the instructor. Not open to first-year students. Omitted 2004-05. Professor Williamson.

28. Experimental Design and Data Analysis in the Life Sciences (Biostatistics). Organisms—even members of the same species—differ from one another in many ways, as do other things biologists study, such as cells within an organism and replicates of biochemical preparations. This course is about how to describe differences quantitatively, and how to formulate and test hypotheses about differences. For example, how likely is it that an observed difference between an experimental and a control group would arise by chance because of variability in the population being studied even if there were no effect of the experiment? The course will include study of the principles behind parametric and non-parametric methods of data analysis, practice in using these methods, and discussion of examples from the life sciences literature of successes and failures in the design of experiments and the use of statistics.

Second semester. Professor George.

29. Cell Structure and Function. An analysis of the structure and function of cells in plants, animals, and bacteria. Topics to be discussed include the cell surface and membranes, cytoskeletal elements and motility, cytoplasmic organelles and bioenergetics, the interphase nucleus and chromosomes, mitosis, meiosis, and cell cycle regulation. Three classroom hours and three hours of laboratory per week.

Requisites: Biology 19 and completion of, or concurrent registration in, Chemistry 12. Second semester. Professor Poccia.

30. Biochemistry. (Also Chemistry 30.) Structure and function of biologically important molecules and their role(s) in life processes. Protein conformation, enzymatic mechanisms and selected metabolic pathways will be analyzed. Additional topics may include: nucleic acid conformation, DNA/protein interactions, signal transduction and transport phenomena. Four classroom hours and four hours of laboratory work per week. Offered jointly by the Departments of Biology and Chemistry.

Requisites: Chemistry 21 and Biology 19. Chemistry 22 is a co-requisite. Anyone wishing to take the course who does not satisfy these criteria should obtain consent of the instructor. Second semester. Professors Williamson and Bishop.

32. Evolutionary Biology. An introduction to the field of evolutionary biology. Lectures concern the evidence for evolution and the development of evolutionary theory. Emphasis is placed on microevolutionary mechanisms of change, large-scale macroevolutionary patterns, and major innovations in the history of life. Readings assigned from the primary literature will focus on experimental studies of evolution and will be followed by student presentations and discussion. Laboratories will offer hands-on experience with evolutionary processes including characterization of genetic structure in natural populations, selection, reproductive isolating mechanisms, and the evolution of insecticide resistance. Three hours of lecture and three hours laboratory work per week.

Requisites: Biology 18 and 19. Not open to first-year students. Limited to 24 students. First semester. Professor Miller.

33. Immunology. The immune response is a consequence of the developmentally programmed or antigen-triggered interaction of a complex network of interacting cell types. These interactions are controlled by regulatory molecules and often result in the production of highly specific cellular or molecular effectors. This course will present the principles underlying the immune response and describe the methods employed in immunology research. In addition to lectures, a program of seminars will provide an introduction to the research literature of immunology. Three classroom hours per week.

Requisites: Biology 19, and Biology 25 or 29 or 30 or consent of the instructor. Limited to 30 students. First semester. Professor Goldsby.

35. Neurobiology. Nervous system function at the cellular and subcellular level. Ionic mechanisms underlying electrical activity in nerve cells; the physiology of synapses; transduction and integration of sensory information; the analysis of nerve circuits; the specification of neuronal connections; trophic and plastic properties of nerve cells; and the relation of neuronal activity to behavior. Three classroom hours and four hours of laboratory work per week.

Requisites: Biology 18 or 19, Chemistry 11; Physics 17 or 24 is recommended. Limited to 24 students. First semester. Professor George.

37. Structural Biology. This course will concentrate on the structure of proteins at the atomic level. It will include an introduction to methods of structure determination, to databases of structural information, and to publicly available visualization software. These tools will be used to study some class of specific structures (such as membrane, nucleic acid binding, regulatory, structural, or metabolic proteins). These proteins will provide the framework for discussion of such concepts as domains, motifs, molecular motion, structural homology, etc., as well as addressing how specific biological problems are solved at the atomic level. Four hours per week.

Requisites: Biology 19 and Chemistry 12. Chemistry 21 would be helpful but is not required. Limited to 20 students. First semester. Professor Williamson.

39. Animal Behavior. Shaped by millions of years of natural and sexual selection, animals have evolved myriad abilities to respond to their biotic and abiotic environment. This course examines animal behavior from both a mechanistic and a functional perspective. Drawing upon examples from a diverse range of taxa, we will discuss topics such as sensory ecology, behavioral genetics, behavioral endocrinology, behavioral ecology and sociobiology. Three classroom hours and four laboratory hours per week.

Requisite: Biology 18 or consent of the instructor. Not open to first-year students. Limited to 30 students. First semester. Professor Clotfelter.

43. Seminar in Evolution. Evolutionary approaches to explaining structure and function at different levels of biological organization. For 2004 the general topic will be the evolutionary genetics and molecular mechanisms of conflict between parents and offspring, between males and females, and between different genetic elements within the same cell or within the same genome. Three hours per week.

Requisites: Biology 18 and 19 and either Biology 23, 32 or 39, or consent of the instructor. Limited to 15 students. First semester. Professor Zimmerman.

45. Seminar in Behavioral Ecology. This course explores the relationship between an animal's behavior and its social and ecological context. The topic for 2003 was the evolution of sexual dimorphism in animals. Sexual dimorphism is widespread in animals, yet its causes remain controversial and have generated much debate. In this seminar we examine a variety of sexual dimorphisms in different groups of animals and consider hypotheses for how these sexual dimorphisms may have evolved. We then consider how such hypotheses are tested in an attempt to identify the best approaches to studying the evolution of sexual dimorphisms. Then we look at evidence that either supports or refutes various hypothesized mechanisms for the evolution of sexual dimorphisms in different animal groups. Finally, we consider whether some mechanisms for the evolution of sexual dimorphism are more common among certain kinds of organisms (predators) than others (herbivores). Three hours per week.

Requisite: Biology 18, 23, 32 or consent of the instructor. Not open to first-year students. Limited to 15 students. Omitted 2004-05. Professor Temeles.

47. Seminar in Ecology. The topic for 2004 will be the ecology and evolution of plant-animal interactions. Most animals on Earth obtain their energy from green plants, and thus it is not surprising that interactions between plants and animals have played a prominent role in our current understanding of how ecological processes such as predation, parasitism, and mutualism shape evolutionary patterns in plants and animals. In this course we will start our analysis with a consideration of how plant-animal relationships evolve by studying examples from both extant systems and the fossil record. Next we will examine the different kinds of plant-animal interactions (pollination, seed dispersal, seed predation, and herbivory, to mention a few) that have evolved on our planet, and the ecological processes promoting reciprocal evolution of defenses and counter-defenses, attraction, and deceit. Finally, we will turn our attention to global change and the implications of human alteration of the environment for the future of plant-animal relationships, such as pollination, which are of vital importance to life on Earth. Three class hours per week.

Requisite: Biology 18 or 23 or 32 or consent of the instructor. Not open to first-year students. Limited to 14 students. First semester. Professor Temeles.

57. Seminar in Developmental Genetics. A great deal of our molecular understanding of developmental biology stems from genetic analysis of mutants in model systems. In this seminar, we will discuss genetic experiments that have elucidated the mechanisms underlying cell signaling events in multicellular animals. We will consider a range of phenomena that occur early in development and are critical for establishing proper cell fates during the development of the two best-studied genetic model systems: *Drosophila* and *C. elegans*. We will see how information from one species can be directly applied to another, and how differences between species can help us to focus on fundamental issues. All readings will be from current scientific journals. Three classroom hours per week.

Requisite: Biology 22, 24 or 25. Limited to 15 students. Omitted 2004-05. Professor Goutte.

77, 78D. Senior Departmental Honors. Honors students take three courses of thesis research, usually, but not always, with the double course load in the spring. The work consists of seminar programs, individual research projects, and preparation of a thesis on the research project.

Open to seniors. First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. Independent reading or research courses. Half or full course as arranged. Does not normally count toward the major.

First and second semesters.

RELATED COURSES

Introduction to Neuroscience. See Neuroscience 26.

Second semester. Professors Baird and George.

Sustainable Agriculture and Human Populations. See Pick Colloquium 07.

Not open to first-year students. Limited to 14 students. First semester. Professors Temeles.

Invasive Species. See Pick Colloquium 08.

Not open to first-year students. Limited to 14 students. Second semester. Professors Clotfelter, Miller, and Temeles.

BLACK STUDIES

Professors Abiodun, Cobham-Sander, Rushing (Chair), and Wills; Assistant Professors Ferguson and Moss; Visiting Assistant Professor Schneider; Andrew W. Mellon Visiting Assistant Professor Pinho; Five College Professor Newbury; Visiting Lecturers Bailey and Zoll.

Affiliated Faculty: Professors Basu and Peterson; Associate Professor Hart; Assistant Professors Hussain, Mukasa and Parham; Visiting Assistant Professor Delaney.

Black Studies is an interdisciplinary exploration of the histories and cultures of black peoples in Africa and the diaspora. It is also an inquiry into the social construction of racial differences and its relation to the perpetuation of racism and racial domination.

Major Program. A major in Black Studies usually consists of a minimum of ten courses. Courses required of all majors are: Black Studies 11 (normally to be taken by the end of the sophomore year), and Black Studies 64, the Black Studies

Tutorial, which is usually taken during the junior year. Majors are encouraged but not required to take Black Studies 97 or 98. In addition, each major normally will be required to take courses offered or approved by the Department in at least three distinct disciplines, and to take at least two such courses in each of the three following areas: Africa, the United States, and Latin America and the Caribbean. Each major will also be expected to take at least one course other than Black Studies 11 that focuses on cultural connections between Africa and the diaspora (e.g., Black Studies 23, 24, 28, 29, or 45). Early in the spring semester of the senior year, all majors will be required to pass a comprehensive examination in Black Studies.

Field Work. Majors are encouraged to participate in field work or its equivalent in one of the following ways: (1) course-related work in local communities; (2) research and participation in communities elsewhere in the United States; (3) study and work abroad (e.g., in Sub-Saharan Africa or the Caribbean).

Departmental Honors Program. Candidates for Departmental Honors in Black Studies must complete the Major Program, including the Seniors Honors sequence, Black Studies 77 and 78 or 78D. The Honors sequence will be devoted to a special research project, culminating in a thesis. Departmental Honors will be based both on the quality of the thesis and the student's entire academic record. Recommendations for both College and Departmental Honors will be made in accordance with the criteria set forth in this catalog under "Degree with Honors."

11. Introduction to Black Studies. An interdisciplinary introduction to Black Studies. Topics will include the Frazier-Herskovitz debate, the sociology of the black underclass, the literary criticism of black literature, contemporary discussions of Eurocentrism and Afrocentrism, and the conceptual framework of black history.

Second semester. The Department.

12. Critical Debates in Black Studies. In this course students will focus closely on major debates that have animated the field of Black Studies, addressing a wide range of issues from the slave trade to the present. Each week will focus on specific questions such as: What came first, racism or slavery? Is African art primitive? Did Europe underdevelop Africa? Is there Caribbean History or just history in the Caribbean? Should Black Studies exist? Is there a black American culture? Is Affirmative Action necessary? Was the Civil Rights Movement a product of government action or grass roots pressure? Is the underclass problem a matter of structure or agency? The opposing viewpoints around such questions will provide the main focus of the reading assignments, which will average two or three articles per week. In the first four weeks, students will learn a methodology for analyzing, contextualizing, and making arguments that they will apply in developing their own positions in the specific controversies that will make up the rest of the course.

Limited to 25 students. First semester. Professor Ferguson.

19. Reading Gender, Reading Race. (Also English 01, section 04, and Women's and Gender Studies 01.) See English 01, section 04.

Limited to 20 students. Second semester. Professor Schneider.

23. Short Stories from the Black World. This course which includes presentations by African, Caribbean, and African-American story-tellers, studies the oral origins of written stories and the thematic and stylistic continuities between orature and written literature. Among the authors to be read are Chinua Achebe, Ama Ata Aidoo, Toni Cade Bambara, Jan Carew, Charles Chesnutt, J. California

Cooper, Bessie Head, Jamaica Kincaid, Earl Lovelace, Paule Marshall, James Alan McPherson, Grace Ogot, and Opal Adisa Palmer.

Omitted 2004-05. Professor Rushing.

24. Representations of Black Women in Black Literature. This cross-cultural course examines similarities and differences in portrayals of girls and women in Africa and its New World diaspora with special emphasis on the interaction of gender, race, class, and culture. Texts are drawn from Africa, the Caribbean, and the United States. Topics include motherhood, work, and sexual politics. Authors vary from year to year and include: Toni Cade Bambara, Maryse Condé, Nuruddin Farah, Bessie Head, Merle Hodge, Paule Marshall, Ama Ata Aidoo, and T. Obinkaram Echewa.

Omitted 2004-05. Professor Rushing.

25. African Languages in the Diaspora. Prejudice often drives the debate about language use in the African Diaspora. This class will address these attitudes with an in-depth examination of Creole and Pidgin languages of the Caribbean, African American (Vernacular) English (AAE), and Gullah, a language spoken by descendants of former slaves living on the Sea Islands of South Carolina. We will survey aspects of the linguistic structure and social context of these languages, including their history and development, their grammatical structure, their relationship to other non-standard vernaculars, and the social factors that play a role in current usage. With this background we will then reconsider the question of non-standard vernaculars in education, with a focus on the 1990s Ebonics controversy and the 1970s Ann Arbor "Black English" trial.

Second semester. Visiting Lecturer Zoll.

26. African American Autobiographies: A Survey. (Also English 70.) Autobiographies are the core of a written African-American literature that began with slave narratives. We will read works by Frederick Douglass and Harriet Jacobs, including such later classics as Richard Wright's *Black Boy*, *The Autobiography of Ida B. Wells*, and *The Autobiography of Malcolm X*. We will also study more recent works such as John Edgar Wideman's *Fatheralong* and Audre Lorde's *Zami*. Independent projects will focus on changing modes of autobiographical writing and critical perspectives on the genre.

Recommended requisite: A first course in English and/or Black Studies 11. Omitted 2004-05. Professor Rushing.

27. Creating a Self: Black Women's Testimonies, Memoirs and Autobiographies. Pioneering feminist critic Barbara Smith says, "All the men are Black, all the women are White, but some of us are brave." This cross-cultural course focuses on "brave" women from Africa and its New World diaspora who dare to tell their own stories and, in doing so, invent themselves. We will begin with a discussion of the problematics of writing and reading autobiographical works by those usually defined as "other," and proceed to a careful study of such varied voices as escaped slave Linda Brent/Harriet Jacobs, political activist Ida B. Wells, and feminist, lesbian poet Audre Lorde—all from the U.S.; Lucille Clifton, the Sistren Collective (Jamaica); Carolina Maria dejesus (Brazil); Buchi Emecheta (Nigeria); and Nafissatou Diallo (Senegal).

Second semester. Professor Rushing.

28. Religion in the Atlantic World, 1441-1600. (Also Religion 32.) See Religion 32. Second semester. Professor Wills.

29. Childhood in African and Caribbean Literature. (Also English 55.) See English 55.

Open to first-year students with consent of the instructor. First semester. Professor Cobham-Sander.

30. Inscribing Orality in Caribbean Women's Writing. This course examines the prose fiction of selected Caribbean women writers from the anglophone, hispanophone and francophone Caribbean, with an emphasis on the writers' deployment of Caribbean oral forms in their written narratives. We will look at how such oral forms as storytelling, proverbs and gossip are deployed as the primary mode of narration; the political implications of inscribing voice; the use of voice for addressing a wide range of issues, particularly those directly related to women's lives. Additionally, students will be encouraged to explore such questions as: Whose voice is being written by these women? Is there a female way of writing? What are the stylistic and thematic similarities/differences among writers? Students will also be required to engage critically with a body of secondary material addressing trends in Caribbean women's fiction. Writers include Erna Brodber, Merle Collins, Curdella Forbes, Oonya Kempadoo, Jamaica Kincaid, Esmeralda Santiago, Olive Senior, and Miriam Warner-Vieyra.

First semester. Visiting Lecturer Bailey.

31. Caribbean Literature: Home and Away. (Also English 65.) See English 65. Omitted 2004-05. Professor Rushing.

32. Discussing Blackness in Brazil. This course will address selected issues of blackness in Brazil and facilitate discussion and analysis of their overarching themes. It will offer a panorama of perspectives on blackness in contemporary Brazil and examine relevant and interconnected topics such as race, class, gender, and the definition of blackness in Brazil. In addition, it will explore issues of racial politics and representations of blackness in Brazilian media and culture. Students will read texts such as George Andrews' *Blacks and Whites in Sao Paulo, Brazil 1888-1988*, Michael Hanchard's *Orpheus and Power*, and D. J. Hellwig's *African-American Reflections on Brazil's Racial Paradise*.

Limited to 20 students. Preference given to Black Studies majors. Second semester. Professor Pinho.

33. Tourism, Culture and Identities. (Also Anthropology 37.) This course examines tourism in relation to the production of culture, analyzing its impact on the identities of both tourists and the so-called "natives." Employing theories and methods from anthropology, sociology and cultural studies, and focusing mainly on African, Latin American and Caribbean countries, it explores such questions as: What is the role of tourism in the formation of regional, national and transnational identities? How does tourism reflect global inequalities of economic and social power? Does it reinforce race and gender inequalities? What is the impact of tourism on local communities, and what influence do local communities have on tourism? The course will address such issues as the resurgence and re-creation of traditions to satisfy the tourist market; the importance of "authenticity"; the process of producing the "other" as "exotic" and/or searching for the "same"; and the recent trends of cultural/ethnic tourism, roots tourism, eco-tourism, sex tourism, and "favela-tour."

Limited to 20 students. First semester. Professor Pinho.

36. African American Oral Traditions. In sub-Saharan Africa and many places in its American diaspora, the spoken, rather than the written, is the word of power. This course examines the continuing connections between African American oral forms—like children's games, folk tales, work songs, ballads,

spirituals, sermons, proverbs, the blues, signifying, scatting, storytelling and “lyin”—and written literature which incorporates and builds on them. We will read such texts as Gayl Jones’s *The Healing*, James Weldon Johnson’s *God’s Trombones*, James Alan McPherson’s *Elbow Room*, Toni Cade Bambara’s *The Salt Eaters*, John Edgar Wideman’s *Brothers and Keepers*, Paule Marshall’s *Praisesong for the Widow*, and Brenda Marie Osbey’s *All Saints: New and Selected Poems*.

Second semester. Professor Rushing.

37. Caribbean Poetry: The Anglophone Tradition. (Also English 99.) See English 99.

Omitted 2004-05. Professor Cobham-Sander.

40. “Past the Last Post”: New African Writing. (Also English 67.) See English 67. First semester. Professor Rushing.

41. Women and Politics in Africa. (Also Political Science 29 and Women’s and Gender Studies 61.) See Political Science 29.

First semester. Five College Professor Newbury.

42. Myth, Ritual and Iconography in West Africa. Through a contrastive analysis of the religious and artistic modes of expression in three West African societies—the Asanti of the Guinea Coast, and the Yoruba and Igbo peoples of Nigeria—the course will explore the nature and logic of symbols in an African cultural context. We shall address the problem of cultural symbols in terms of African conceptions of performance and the creative play of the imagination in ritual acts, masked festivals, music, dance, oral histories, and the visual arts as they provide the means through which cultural heritage and identity are transmitted and preserved, while, at the same time, being the means for innovative responses to changing social circumstances.

Second semester. Professor Abiodun.

43. Visual and Verbal Metaphors in Africa. This course explores the various ways in which traditional African visual and verbal arts are interdependent. Focusing on the Yoruba of southwestern Nigeria, it will examine and analyze Yoruba art as metaphor, a concept known as *Owe* in the Yoruba language. This approach to the study of art in an African society makes it possible to include the verbal and performing arts which are still living forms through which important information has been preserved in the traditionally non-literate societies of Africa.

First semester. Professor Abiodun.

44. Issues of Gender in African Literature. This course explores the ways in which issues of gender are presented by African writers and perceived by readers and critics of African writing. We will examine the insights and limitations of selected feminist, post-structural and post-colonial theories when they are applied to African texts. We will also look at the difference over time in the ways that female and male African writers have manipulated socially acceptable ideas about gender in their work. Texts will be selected from the oeuvres of established writers like Soyinka, Achebe, Ngugi and Head, as well as from more recent works by writers like Farah, Aidoo, and Dangaremba. Preference will be given to students who have completed a previous course on African literature, history, or society.

Not open to first-year students. Limited to 25 students. Omitted 2004-05. Professor Cobham-Sander.

45. African Art and the Diaspora. (Also Fine Arts 70.) See Fine Arts 70.

First semester. Professor Abiodun.

46. Survey of African Art. (Also Fine Arts 49.) See Fine Arts 49.

Second semester. Professor Abiodun.

51. Religion in Black America: The Twentieth Century. (Also Religion 61.) See Religion 61.

First semester. Professor Wills.

53. The Birth and Growth of Bebop, 1938-1950. This course will examine the seeds of Bebop, from the Swing transition bands and soloists of the late 1930s through the major players of Bebop and the changes they made to the music and the culture. Major figures who will be studied closely include Coleman Hawkins, Lester Young, Dizzy Gillespie, Charlie Parker, Thelonius Monk, Bud Powell, Art Tatum, and Dexter Gordon. Attempts will be made to represent each jazz instrument and its transition from Swing to Bebop, and we will study both the small group approach chosen by Bebop musicians as well as attempts to bring Bebop into the larger ensemble. Additionally, the course will address the many social, economic, and racial factors that were important to the development of Bebop. Literary works of Langston Hughes, Ralph Ellison, Amiri Baraka, Albert Murray and the Beat Poets will also be examined.

Limited to 20 students. Some knowledge of musical terminology helpful but not required. Preference given to Black Studies majors, Music majors, and upperclassmen. Second semester. Lecturer Diehl.

54. Black Music/Black Poetry. (Also English 15.) Music is the central art form in African American culture. This course will juxtapose the poetry of the Harlem Renaissance of the 1920s and the poetry of the Black Arts Movement of the 1960s and 1970s as seen through the prism of the myriad ways music makes its way into poetry: poetry about musicians, poetry based on musical forms, and poetry that uses musical genres such as the spiritual, gospel music, blues, R&B, and jazz. We will consider rhythm, refrain, pitch, tone, timbre, cadence, and call-and-response in addition to paying particular attention to casual, generalized references to music, careful allusions to song titles, quotations from songs, the adaptation of song forms, precise musical notation in the text, the use of language from jazz life, and the poem as "score" or "chart." Among the poets we will read are Gwendolyn Brooks, Sterling Brown, Michael Harper, Langston Hughes, LeRoi Jones/Imanu Amiri Baraka, and Sonia Sánchez. Two class meetings per week.

Preference will be given to students who have taken Black Studies 11, a first course in English, Black Studies 61: Harlem Renaissance, or Music 38: Introduction to African American Music. Limited to 20 students. First semester. Professor Rushing.

57. African-American History from the Slave Trade to Reconstruction. (Also History 41.) This course is a survey of the history of African-American men and women from the sixteenth and seventeenth centuries through the Civil War and Reconstruction. The content is a mixture of the social, cultural, and political history of blacks during two and a half centuries of slavery with the story of the black freedom struggle and its role in America's national development. Among the major questions addressed: the slave trade in its moral and economic dimensions; African retentions in African-American culture; origins of racism in colonial America; how blacks used the rhetoric and reality of the American and Haitian Revolutions to their advancement; antebellum slavery; black religion

and family under slavery and freedom; the free black experience in the North and South; the crises of the 1850s; the role of race and slavery in the causes, course, and consequences of the Civil War; and the meaning of emancipation and Reconstruction for blacks. Readings include historical monographs, slave narratives by men and women, and one work of fiction.

Combined enrollment limited to 50 students. First semester. Professor Moss.

58. African-American History from Reconstruction to the Present. (Also History 42.) This course is a survey of the social, cultural, and political history of African-American men and women since the 1870s. Among the major questions addressed: the legacies of Reconstruction; the political and economic origins of Jim Crow; the new racism of the 1890s; black leadership and organizational strategies; the Great Migration of the World War I era; the Harlem Renaissance; the urbanization of black life and culture; the impact of the Great Depression and the New Deal; the social and military experience of World War II; the causes, course and consequences of the modern civil rights movement; the experience of blacks in the Vietnam War; and issues of race and class in the 1970s and 1980s. Readings and materials include historical monographs, fiction, and documentary films.

Combined enrollment limited to 50 students. Second semester. Professor Moss.

61. Harlem Renaissance: Transnational, Trans-regional, and Cross-racial Journeys. The Harlem Renaissance was a product of complex cross-racial experiments by both black and white intellectuals, not only in Harlem, but across the United States and abroad. During the 1920s, H. L. Mencken, Eugene O'Neill, Carl Van Vechten, Franz Boaz and other white thinkers joined such black thinkers as Claude McKay, James Weldon Johnson, Langston Hughes, and George Schuyler who were attempting to exchange older ideas of "blackness as limitation" for a "blackness of possibility." This course provides a broad overview of the Harlem Renaissance by emphasizing the complex transgressive journeys that constituted its central spirit. Readings will include a wide range of literary genres, including poetry, drama, novels, speeches, and histories of the period. Some of the selections include poetry by Langston Hughes and Countee Cullen, *Home to Harlem* by Claude McKay, *Black No More* by George Schuyler, *The New Negro* by Alain Locke, speeches by Marcus Garvey, *The Emperor Jones* and *All God's Chillun' Got Wings* by Eugene O'Neill, *Passing* by Nella Larsen, *Harlem Renaissance* by Nathan Huggins and *Terrible Honesty* by Ann Douglass.

Limited to 30 students. Omitted 2004-05. Professor Ferguson.

62. Exploring Ralph Ellison's *Invisible Man*. Ralph Waldo Ellison wrote *Invisible Man* to confirm the existence of the universal in the particulars of the black American experience. The same can be said of the larger aim of this course. It will provide students with the opportunity to explore the broadest themes of Black Studies through the careful reading of a particular text. Due to its broad range of influence and reference, *Invisible Man* is one of the most appropriate books in the black tradition for this kind of attention. The course will proceed through a series of comparisons with works that influenced the literary style and the philosophical content of the novel. The first part of the course will focus on comparisons to world literature. Readings will include James Joyce, *Portrait of the Artist as a Young Man*; Sigmund Freud, *Totem and Taboo*; and H.G. Wells, *The Invisible Man*. The second part of the course will focus on comparisons to American literature. The readings in this part of the course will include Herman Melville, *The Confidence Man*; William Faulkner, "The Bear"; and some of Emerson's essays. The last part of the course will focus on comparisons with books

in the black tradition. Some of the readings in this part of the course will include W.E.B. Du Bois, *Souls of Black Folk* and Booker T. Washington, *Up From Slavery*. Requires 20-25 page research paper.

Not open to first- and second-year students. Limited to 15 students. Preference given to Black Studies majors. Second semester. Professor Ferguson.

64. Black Studies Tutorial. This class prepares individual students for research in a particular discipline of Black Studies through an independent study with a member of the Department. Focused reading and weekly meetings will provide the methodological tools for a substantial (20-30 pages) research paper due at the end of the semester.

This course, required for Black Studies majors, is limited to juniors and seniors who are Black Studies majors. First and second semesters. The Department.

68. Seminar in African American Literature. (Also English 66.) See English 66. The topic changes each time the course is taught. In fall 2004 the topic will be "Racial Surveillance and the Spectacle of Skin."

Limited to 20 students. First semester. Professor Schneider.

69. Studies in Nineteenth-Century American Literature. (Also English 62.) See English 62. The topic changes each time the course is taught. In spring 2005 the topic will be "Stories That Pass On: Slavery, Reconstruction, and the Return of the Repressed."

Limited to 20 students. Second semester. Professor Schneider.

70. African National Narratives. (Also English 75.)

Omitted 2004-05. Professor Cobham-Sander.

77, 77D, 78, 78D. Senior Departmental Honors.

First and second semesters. Members of the Department.

97, 97H, 98, 98H. Special Topics.

First and second semesters. Members of the Department.

The following courses are listed for inclusion in a Black Studies Major.

Race and Races in American Studies. See American Studies 68.

Second semester. Professor Basler.

African Cultures and Societies. See Anthropology 26.

Second semester. Professor Goheen.

Poverty and Inequality. See Economics 23.

Omitted 2004-05. Professor Rivkin.

Reading Regions, Reading the South. See English 01, section 06.

First semester. Professor O'Connell.

Reading Popular Culture. See English 13.

First semester. Professor Schneider.

Four African American Poets. See English 56.

Omitted 2004-05. Professor Rushing.

Foundations of African American Literature. See English 63.

Omitted 2004-05. Professor Parham.

Studies in African American Literature. See English 66.

Omitted 2004-05. Professor Parham.

- Pre-Columbian Civilizations of Latin America and the Caribbean.** See History 11.
First semester. Professor Campbell.
- Peoples and Cultures of the Caribbean.** See History 12.
Omitted 2004-05. Professor Campbell.
- Colonial and Post-Colonial Africa.** See History 22.
Second semester. Professor Redding.
- Topics on the Caribbean: Haiti and the French Caribbean.** See History 28.
Omitted 2004-05. Professor Campbell.
- Caribbean History.** See History 55.
Omitted 2004-05. Professor Campbell.
- State and Society in Africa Before the European Conquest.** See History 63.
First semester. Professor Redding.
- Introduction to South African History.** See History 64.
Second semester. Professor Redding.
- Seminar on Trade and Plunder in Latin America and the Caribbean.** See History 86.
First semester. Professor Campbell.
- Comparative Slave Systems.** See History 88.
Omitted 2004-05. Professor Campbell.
- Topics in African History.** See History 92.
First semester. Professor Redding.
- Race, Place, and the Law.** See Law, Jurisprudence and Social Thought 33.
First semester. Professor Delaney.
- The Civil Rights Movement: From Moral Commitment to Legal Change.** See Law, Jurisprudence and Social Thought 44.
Omitted 2004-05. Professor Delaney
- The Social Psychology of Race.** See Psychology 44.
First semester. Professor Hart.
- Religion and Race in the Early Republic.** See Religion 59.
Omitted 2004-05. Professor Wills.
- Contemporary Race and Ethnicity.** See Sociology 23.
Omitted 2004-05. Professor Basler.
- Collective Identity and Mobilization.** See Sociology 30.
Omitted 2004-05. Professor Basler.
- Conceptualizing White Identity in the United States.** See Sociology 31.
First semester. Professor Basler.
- Women of Color: Witnesses to American History.** See Women's and Gender Studies 40.
Omitted 2004-05.

BRUSS SEMINARS

The Bruss Seminar is part of the Bruss Memorial Program, established in memory of Professor Elizabeth Bruss, who taught at Amherst from 1972 to 1981. Under the Program, a member of the faculty is appointed Bruss Reader for a term of two or three years, with the responsibility of addressing questions with regard to women as they emerge from existing disciplines and departments, and to promote curricular change and expansion to incorporate the study of women. The Bruss Reader does this by serving as a resource person, through revision of department offerings, and by teaching the Bruss Seminar. The subject of the seminar, therefore, changes over time reflecting the disciplines of successive Bruss Readers.

26. Women and the Law in Cross-Cultural Perspective. Historically the law has functioned as much to differentiate women from men as to assert their similarities. This course will explore the variety of types of laws (natural law, religious law, statute law, customary law, and the like) that have been used to regulate women's lives and try to assess the philosophies that lie behind them. Family law, especially where it pertains to marriage, divorce, married women's property, domestic assault, custody and so forth, will receive special attention through a comparison between Western European and American legal traditions and Muslim sharia law, both in the past and the present. The course will look closely at the law and law enforcement as they pertain to female sexuality, and assess issues to do with women criminals as well as women as victims of specific types of criminal acts such as rape. It will examine what happens to women when (a) legal structures break down, as in war, and (b) when "the law" becomes a tool of racial, ethnic, religious, sexual or gender repression. Finally it will address the extent to which "changing the law" succeeds as a strategy for empowering women by looking at several key legal campaigns involving women in both Western and non-Western settings. Sources will include religious writing (such as the Book of Leviticus from the Hebrew Bible and the second and fourth surahs of the Qu'ran), transcripts of court cases from a variety of times and places, historical writings on adultery and prostitution, biographical accounts of female criminals, and contemporary discussions in various media pertaining to the human rights of women and sexual minorities. One class meeting a week.

Limited to 30 students. Second semester. Professor Hunt.

CHEMISTRY

Professors Fink†, Hansen, Kushick (Chair), Leung, Marshall, and O'Hara*; Assistant Professors Bishop, Burkett, and McKinney; Senior Research Fellow Sanborn.

Major Program. Students considering a major in Chemistry should consult a member of the Department as early as possible, preferably during their first year. This will help in the election of a program which best fits their interests and abilities and which makes full use of previous preparation. Programs can be arranged for students considering careers in chemistry, chemical physics, biochemistry, biophysical chemistry, biomedical research, medicine, and secondary school science teaching.

*On leave 2004-05.

†On leave second semester 2004-05.

The minimum requirements for a major in Chemistry are Chemistry 11 or 15, 12, 21, and four of the following five courses: 22 (Organic Chemistry II), 30 (Biochemistry), 35 (Inorganic Chemistry), 43 (Physical Chemistry) and 44 (Modern Physical Chemistry). In addition, several of these courses require successful completion of work in other departments: Biology 19 for Chemistry 30; Mathematics 12 and Physics 16, 23 or 32 for Chemistry 43; and Mathematics 12 and Physics 17, 24 or 33 for Chemistry 44.

Departmental Honors Program. A candidate for the degree with Honors will also elect Chemistry 77 and 78D in the senior year. It is helpful in pursuing an Honors program for the student to have completed physical and organic chemistry by the end of the junior year. However, either of these courses may be taken in the senior year in an appropriately constructed Honors sequence. Honors programs for exceptional interests, including interdisciplinary study, can be arranged on an individual basis by the departmental advisor.

Honors candidates attend the Chemistry seminar during their junior and senior years, participating in it actively in the senior year. All Chemistry majors should attend the seminar in their senior year. At this seminar discussions of topics of current interest are conducted by staff members, visitors and students.

In the senior year an individual thesis problem is selected by the Honors candidate in conference with some member of the Department. Current areas of research in the Department are: inorganic and hybrid materials synthesis; design and characterization of novel catalysts; protein-nucleic acid interactions; immunochemistry; fluorescence and single-molecule spectroscopy; high resolution molecular spectroscopy of jet-cooled species; chemical-genetic characterization of cell signaling enzymes; protein phosphatase inhibitor design; biochemistry of tRNA modification enzymes; and atmospheric chemistry of biogenic volatile organic compounds.

Candidates submit a thesis based upon their research work. Recommendations for the various levels of Honors are made by the Department on the basis of the thesis work, the comprehensive examination, and course performance.

Note on Placement: Chemistry 11 followed by Chemistry 12 are the appropriate first courses in Chemistry for most students. For those students with extensive high school preparation in the subject and strong quantitative skills as measured by SAT I and II (or ACT), Chemistry 15 followed by Chemistry 12 is recommended by the Department. Decisions are made on a case-by-case basis to determine whether placement out of either Chemistry 11/15 or Chemistry 12 or, less frequently, both is appropriate. Students considering advanced placement are advised to contact the Department soon after arriving on campus.

Chemistry 10 has been designed to introduce non-science students to important concepts of Chemistry. This course may be elected by any student, but it does not satisfy the major requirements in Chemistry nor is it recommended as a means of satisfying the admission requirements of medical schools.

10. Energy and Entropy. Primarily for non-science majors, this course focuses on the concepts of energy and entropy, ideas which play a central role in understanding the universe. The course, designed for those who wish to gain an appreciation and comprehension of two of the most far-reaching laws governing the behavior of the physical world, will address historical, philosophical and conceptual ramifications of the first and second laws of thermodynamics. We will also study practical applications of these laws to a variety of chemical, physical and environmental phenomena. Societal implications and policy formulations will also be discussed. Our studies will include

the efficiencies of energy conversion processes and alternative sources of energy. Consideration will be given to the ways in which the ideas of energy and entropy are used in literature, the arts and the social sciences. No prior college science or mathematics courses are required. Three class hours per week.

First semester. Professor Fink.

11. Introductory Chemistry. This course examines the structure of matter from both a microscopic and macroscopic viewpoint. We begin with a detailed discussion of the physical structure of atoms, followed by an analysis of how the interactions between atoms lead to the formation of molecules. The relationship between the structures of molecular compounds and their properties is then described. Experiments in the laboratory provide experience in conducting quantitative chemical measurements and illustrate principles discussed in the lectures.

Although this course has no prerequisites, students with a limited background in secondary school science should confer with one of the Chemistry 11 instructors before registration. Four class hours and three hours of laboratory per week.

First semester: Professors Burkett and McKinney. Second semester: Professor to be named.

12. Chemical Principles. The concepts of thermodynamic equilibrium and kinetic stability are studied. Beginning with the laws of thermodynamics, we will develop a quantitative understanding of the factors which determine the extent to which chemical reactions can occur before reaching equilibrium. Chemical kinetics is the study of the factors, such as temperature, concentrations, and catalysts, which determine the speeds at which chemical reactions occur. Appropriate laboratory experiments supplement the lecture material. Four class hours and three hours of laboratory work per week.

Requisite: Chemistry 11 or 15 (this requirement may be waived for exceptionally well-prepared students; consent of the instructor is required); and Mathematics 11 or its equivalent. First semester: Professor Kushick. Second semester: Professor to be named.

15. Fundamental Principles of Chemistry. A study of the basic concepts of chemistry for students particularly interested in natural science. Topics to be covered include atomic and molecular structure, spectroscopy, states of matter, and stoichiometry. These physical principles are applied to a variety of inorganic, organic, and biochemical systems. Both individual and bulk properties of atoms and molecules are considered with an emphasis on the conceptual foundations and the quantitative chemical relationships which form the basis of chemical science. This course is designed to utilize the background of those students with strong preparation in secondary school chemistry and to provide both breadth in subject matter and depth in coverage. Four hours of lecture and discussion and three hours of laboratory per week.

First semester. Professor Marshall.

21. Organic Chemistry I. A study of the structure of organic compounds and of the influence of structure upon the chemical and physical properties of these substances. The following topics are emphasized: hybridization, resonance theory, spectroscopy, stereochemistry, acid-base properties and nucleophilic substitution reactions. Periodically, examples will be chosen from recent articles in the chemical, biochemical, and biomedical literature. Laboratory work introduces the student to basic laboratory techniques and methods of instrumental analysis. Four hours of class and four hours of laboratory per week.

Requisite: Chemistry 12 or equivalent. First semester. Professors Bishop and Hansen.

22. Organic Chemistry II. A continuation of Chemistry 21. The second semester of the organic chemistry course first examines in considerable detail the chemistry of the carbonyl group and some classic methods of organic synthesis. The latter section of the course is devoted to a deeper exploration of a few topics, among which are the following: sugars, amino acids and proteins, advanced synthesis, and acid-base catalysis in nonenzymatic and enzymatic systems. The laboratory experiments illustrate both fundamental synthetic procedures and some elementary mechanistic investigations. Four hours of class and four hours of laboratory per week.

Requisite: Chemistry 21. Second semester. Professor Hansen.

30. Biochemistry. (Also Biology 30.) Structure and function of biologically important molecules and their role(s) in life processes. Protein conformation, enzymatic mechanisms and selected metabolic pathways will be analyzed. Additional topics may include: nucleic acid conformation, DNA/protein interactions, signal transduction and transport phenomena. Four classroom hours and four hours of laboratory work per week. Offered jointly by the Departments of Biology and Chemistry.

Requisites: Chemistry 21 and Biology 19. Co-requisite: Chemistry 22. Anyone wishing to take the course who does not satisfy these criteria should obtain the consent of the instructor. Second semester. Professors Bishop and Williamson.

35. Inorganic Chemistry. Periodicity of both physical and chemical properties of the elements are examined on the basis of fundamental atomic theory. The structure, bonding, and symmetry of inorganic molecules and solids are discussed. Structure and bonding in coordination complexes are examined through molecular orbital and ligand field theories, with an emphasis on understanding the magnetic, spectral and thermodynamic properties of coordination complexes. Mechanisms of inorganic reactions, including ligand substitution and electron transfer, will be examined. The laboratory experiments will complement lecture material and will include a final independent project. Three hours of lecture/discussion and four hours of laboratory per week.

Requisite: Chemistry 21 or consent of the instructor. Second semester. Professor Burkett.

43. Physical Chemistry. The thermodynamic principles and the concepts of energy, entropy, and equilibrium introduced in Chemistry 12 will be expanded. Statistical mechanics, which connects molecular properties to thermodynamics, will be introduced. Typical applications are non-ideal gases, phase transitions, heat engines and perpetual motion, phase equilibria in multicomponent systems, properties of solutions (including those containing electrolytes or macromolecules), and transport across biological membranes. Appropriate laboratory work is provided. Four hours of class and four hours of laboratory per week.

Requisite: Chemistry 12, Physics 16, 23 or 32, Mathematics 12. Mathematics 13 recommended. Omitted 2004-05.

44. Quantum Chemistry and Spectroscopy. The theory of quantum mechanics is developed and applied to spectroscopic experiments. Topics include the basic principles of quantum mechanics; the structure of atoms, molecules, and solids; and the interpretation of infrared, visible, fluorescence, and NMR spectra. Appropriate laboratory work will be arranged. Three hours of class and four hours of laboratory per week.

Requisite: Chemistry 12, Mathematics 12, Physics 17, 24 or 33. First semester. Professor Leung.

77, 77D, 78, 78D. Senior Departmental Honors.

Open to Senior Honors candidates, and others with consent of the Department. First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. A full or half course.

Consent of the Department is required. First and second semesters. The Department.

CLASSICS (GREEK AND LATIN)

Professors Damon, Griffiths*, and R. Sinos (Chair); Assistant Professor Rossi; Visiting Professor D. Sinos.

Major Program. The major program is designed to afford access to the achievements of Greek and Roman antiquity through mastery of the ancient languages. The Department offers majors in Greek, in Latin, and in Classics, which is a combination of the two languages in any proportion as long as no fewer than two semester courses are taken in either. All three majors consist of eight semester courses, of which seven must be in the ancient languages. The eighth may be a Classics course, Philosophy 17, or a course in some related field approved in advance by the Department. Courses numbered 01 may not be counted toward the major. Latin 02-16 will normally be introductory to higher courses in Latin, and Greek 12-18 will serve the same function in Greek.

Departmental Honors Program. The program of every Honors candidate in Greek, Latin, or Classics must include those courses numbered 41 and 42 in either Greek or Latin. It will also include, beyond the eight-course program described above, the courses numbered 77 and 78. The normal expectation will be that in the senior year two courses at the 41/42 level be taken along with the 77/78 sequence. Admission to the 77 course is contingent on approval by the Department of a thesis prospectus. Translations of work already translated will not normally be acceptable nor will comparative studies with chief emphasis on modern works. Admission to the 78 course is contingent on the submission of a satisfactory chapter of at least 2,000 words and a detailed prospectus for the remaining sections to be defended at a colloquium within the first week of the second semester with the Department and any outside reader chosen. In addition, Honors candidates must in the first semester of their senior year write an examination on a Greek or Latin text of approximately 50 pages (in the Oxford Classical Text or Teubner format) read independently, i.e., not as a part of work in a course, and selected with the approval of the Department. The award of Honors will be determined by the quality of the candidate's work in the Senior Departmental Honors courses, thesis, and performance in the comprehensive work and language examination.

The Department will cooperate with other departments in giving combined majors with Honors.

Comprehensive Requirement. Majors in Greek, Latin, and Classics will fulfill the Department's comprehensive requirement in one of two ways.

- (1) Students ordinarily complete the requirement through course work that provides a chronological survey of the cultures of the major.

*On leave 2004-05.

- For the Greek major, one course: Classics 23 (Greek Civilization), Classics 32 (Greek History), Classics 34 (Archaeology of Greece) or Classics 38 (Greek Drama).
 - For the Latin major, one course: Classics 24 (Roman Civilization), Classics 33 (Roman History), or Classics 36 (Roman Archaeology).
 - For the Classics major, two courses: one from the courses fulfilling the Greek major's requirement, and one from the courses fulfilling the Latin major's requirement.
- (2) When circumstances prevent the satisfaction of this requirement through course work, students may take an examination consisting of essay questions on the literary and historical interpretation of major authors. It will be given in the fifth week of the first semester of the senior year.

The statement of requisites given below is intended only to indicate the degree of preparation necessary for each course, and exceptions will be made in special cases.

For students beginning the study of Greek the following sequences of courses are normal: Either 01, 12, 15, 18; or 01, 15, 12.

Classics

21. Greek Mythology and Religion. A survey of the myths of the gods and heroes of ancient Greece. The course will examine the universal meanings that have been found in these myths and the place of the myths in the religion of their time. Three class hours per week.

Omitted 2004-05. Professor R. Sinos.

23. Greek Civilization. Readings in English of Homer, Sappho, Aeschylus, Sophocles, Euripides, Aristophanes, Herodotus, Thucydides, and Plato to trace the emergence of epic, lyric, tragedy, comedy, history, and philosophy. We shall also use inscriptions, papyri, and other documentary evidence to explore the historical background. Central questions include: What are the implications of male control over public performance and the written record? How did a slave-holding society give birth to democracy? How did the militarism and radical competitiveness of Athenian society create and destroy the possibilities for cultural achievement? What can be inferred about ancient women if they cannot speak for themselves in the texts? Three class hours per week.

Omitted 2004-05.

24. Roman Civilization. Roman civilization, in the Roman view, started with war and government, the arts instilled by the city's eponymous founder, Romulus. Second came religion and a set of cultural values that kept the Romans recognizably Roman over the 12 centuries between founding (traditionally 753 BCE) and collapse (476 CE). The civil wars that punctuate this long history reveal the difficulty of Rome's evolution from an agrarian community to a world empire. This course examines both Rome's fundamental institutions (army, constitution, law, religion, *familia*) and those that entered in the wake of conquest, meeting either welcome (literature, philosophy, science, new gods) or suspicion (monotheistic religion, magic). Primary readings supply the evidence: Caesar, Cicero, Juvenal, Livy, Lucan, Lucretius, Ovid, Polybius, Sallust, Tacitus, Virgil. Three class hours per week.

Omitted 2004-05. Professor Rossi.

32. Greek History. A chronological survey of ancient Greece from the Bronze Age to the age of Alexander, with emphasis on the emergence of a culture in Greece distinctive from the Near East, the birth and growth of democracy at

Athens, the Persian Wars and the growth of Athenian power, the war between Athens and Sparta and the effects of Athens' defeat, and the ascendancy of Philip of Macedon and his son Alexander. We will use primary sources, including the histories of Herodotus and Thucydides and other literature as well as monuments, inscriptions, and coins; whenever possible we will compare different sources and consider the advantages and disadvantages of each. Three class hours per week.

First semester. Professor R. Sinos.

33. History of Rome: The Roman Empire, 31 BCE-235 CE. The political and social systems established by Augustus lasted almost unchanged through four dynasties and shaped a world of unprecedented prosperity for millions of inhabitants on three continents. How did this immense creation cohere? What did belonging to the Empire mean for groups and for individuals? What forms did resistance take and how was it handled? What were the conditions of daily life? Primary sources—literature, public and private documents, technical manuals, buildings, coins, etc.—will be the focus of our attention in studying the Roman Empire at its peak. Three class hours per week.

Second semester. Professor Damon.

36. Roman Archaeology: Pompeii and Herculaneum. A study of the archaeological finds from the buried cities of Pompeii and Herculaneum and the ways in which those finds illuminate the lives of the ancient Romans. The course will cover urban design, public structures, houses and villas, gardens, graffiti and dipinti, papyri, sculpture, wall paintings, mosaics, and everyday objects. An economic and social context for the remains of the material culture of these cities on the Bay of Naples will be developed from readings in Roman history and Latin literature, including Cicero, Horace, Petronius, Statius, Pliny, and Juvenal. Three class hours per week.

Omitted 2004-05. Professor Damon.

37. The Comic Tradition. In this course we will trace the carnival origins of comedy and the early stages of the comic tradition as it survives in Greek and Roman authors like Aristophanes, Menander, Plautus, and Terence. We will analyze the quality of ancient comedy and the social context in which this genre developed. Special attention will be given to the structure of plots and to the universal nature of comic heroes and types. Further, we will follow the later development of this tradition in authors like Shakespeare, Molière, Goldoni, Beckett, and Ionesco, and in modern sitcoms and movies. Secondary readings will include Freud, Bakhtin, and Frye. Two class meetings per week.

First semester. Professor Rossi.

38. Greek Drama. Selected plays of Aeschylus, Sophocles, Euripides, and Aristophanes with attention to staging, Athenian politics, and the modern use of the texts to reconstruct systems of gender, sexuality, class, and ethnicity. We shall also consider the remakings of the plays in contemporary film, dance, and theater: Michael Cacoyannis, *The Trojan Women*; Martha Graham, *Night Journey*; Rita Dove, *The Darker Face of the Earth*; Pier Paolo Pasolini, *Oedipus Rex* and *Medea*. Three class hours per week.

Omitted 2004-05. Professor Griffiths.

77, 78. Senior Departmental Honors.

First and second semesters. Members of the Department.

97, 98. Special Topics.

First and second semesters. Members of the Department.

Greek

01. Introduction to the Greek Language. This course prepares students in one term to read Plato, Homer, and other Greek literary, historical, and philosophical texts in the original and also provides sufficient competence to read New Testament Greek. Three class hours per week. This course is normally followed by Greek 12 and then Greek 15.

First semester. Professor D. Sinos.

01. Introduction to the Greek Language. This course prepares students in one term to read Homer, Plato, and other Greek literary, historical and philosophical texts in the original and also provides sufficient competence to read New Testament Greek. Three class hours per week. This course is normally followed by Greek 15 and then Greek 12.

Second semester. Professor R. Sinos.

12. Greek Prose: Plato's *Apology*. An introduction to Greek literature through a close reading of the *Apology* and selected other works of Attic prose of the fifth and fourth centuries B.C. Additional readings in translation. Three class hours per week.

Requisite: Greek 01 or equivalent. Second semester. Professor D. Sinos.

15. An Introduction to Greek Tragedy. After a review of forms and grammar, a play will be read with emphasis on poetic diction, dramatic technique and ritual context. Additional readings in translation. Three class hours per week.

Requisite: Greek 01 or equivalent. First semester. Professor D. Sinos.

18. An Introduction to Greek Epic. The *Iliad* will be read with particular attention to the poem's structure and recurrent themes as well as to the society it reflects. Three class hours per week.

Requisite: Greek 15 or its equivalent or consent of the instructor. Second semester. Professor Rossi.

41. Advanced Readings in Greek Literature I. The authors read in Greek 41 and 42 vary from year to year, but as a general practice are chosen from a list including Homer, choral and lyric poetry, historians, tragedians, and Plato, depending upon the interests and needs of the students. Greek 41 and 42 may be elected any number of times by a student, providing only that the topic is not the same. In 2004-05 Greek 41 will read Thucydides. Three class hours per week. Seminar course.

Requisite: A minimum of three courses numbered 01 to 18 or consent of the instructor. First semester. Professor R. Sinos.

42. Advanced Readings in Greek Literature II. See course description for Greek 41. In 2004-05 Greek 42 will read Hesiod and the Homeric Hymns. Three class hours per week. Seminar course.

Requisite: A minimum of three courses numbered 01 to 18 or consent of the instructor. Second semester. Professor D. Sinos.

77, 78. Senior Departmental Honors.

First and second semesters. Members of the Department.

97, 98. Special Topics.

First and second semesters. Members of the Department.

Latin

01. An Introduction to Latin Language and Literature. This course prepares students to read classical Latin. No prior knowledge of Latin is required. Three class hours per week.

First semester. Professor Damon.

02. Intermediate Latin. This course aims at establishing reading proficiency in Latin. Forms and syntax will be reviewed throughout the semester, while Book 4 of Virgil's *Aeneid* will be read in its entirety. Three class hours per week.

Second semester. Professor Damon.

15. Latin Literature: Catullus and the Lyric Spirit. This course will examine Catullus' poetic technique, as well as his place in the literary history of Rome. Extensive reading of Catullus in Latin, together with other lyric poets of Greece and Rome in English. Three class hours per week.

First semester. Professor Rossi.

16. Latin Literature in the Augustan Age. An introduction to the literature and culture of Augustan Rome through a close reading of Ovid and other authors illustrating the period. Three class hours per week.

Second semester. Professor R. Sinos.

41. Advanced Readings in Latin Literature I. The authors read in Latin 41 and 42 vary from year to year, the selection being made according to the interests and needs of the students. Both 41 and 42 may be repeated for credit, providing only that the topic is not the same. In 2004-05 Latin 41 will read *Bella civilia*: Caesar and Lucan. Three class hours per week. Seminar course.

Requisite: Latin 15 or 16 or consent of the instructor. First semester. Professor Damon.

42. Advanced Readings in Latin Literature II. See course description for Latin 41. In 2004-05 Latin 42 will read Augustan topics. Three class hours per week. Seminar course.

Requisite: Latin 15 or 16 or 41 or consent of the instructor. Second semester. Professor Rossi.

77, 78. Senior Departmental Honors.

First and second semesters. Members of the Department.

97, 98. Special Topics.

First and second semesters. Members of the Department.

RELATED COURSES

Ancient Philosophy. See Philosophy 17.

First semester. Professor Gentzler.

Readings in the European Tradition I. See European Studies 21.

First semester. Professor Doran.

COLLOQUIA

Colloquia are interdisciplinary courses not affiliated with a department. Whether colloquia are accepted for major credit by individual departments is

determined for each colloquium separately; students should consult their major departments.

14. Personality and Political Leadership. What constitutes personality? What constitutes political leadership? Do leaders of various sorts (totalitarian, democratic) have distinctive personalities? How do the personalities of leaders combine with other personal and cultural influences to shape their political behavior, and how does that behavior in turn shape the environment from which they come? In an attempt to answer such questions, the course will consider theories of leadership and of personality, examine approaches to psychobiographical assessment, and evaluate psychobiographies of leaders such as Wilson, Hitler, Gandhi, and Khrushchev. Finally, students will be asked to prepare their own psychobiographical term papers concerning past or current politicians.

Limited enrollment. Admission with consent of instructors. Second semester. Professors Demorest and W. Taubman.

18. Post-Cold War American Diplomatic History. This course will examine the history of American foreign relations from the fall of the Berlin Wall to the present. One class meeting per week.

Limited to 30 students. Requisite: Political Science 26, 30, History 49, 50, and 51. Not open to first-year students. First semester. Professors Levin and Machala.

23. Eros and Insight. What would it be like to experience yourself, those around you and the world through deliberate and disciplined contemplation?

This seminar will define and then explore contemplative knowing as attentiveness, openness and the act of sustaining contradiction. By this means we will seek common ground between the seemingly opposed realities of art and science, *erôs* and insight. We will conclude by re-imagining together Plato's famous Symposium on the question of love.

Omitted 2004-05. Professors Upton and Zajonc.

26. Literature, Violence, and the State. (Also HACU 297 at Hampshire College.) A course on the poetics and politics of tragedy focusing on representations of state violence whose victims and agents of criminality have been women. The class will examine closely Sophocles' *Antigone*; Shakespeare's "The Rape of Lucrece" and *Titus Andronicus*; and nineteenth- and twentieth-century depictions of the life and death of Beatrice Cenci (Shelley's and Artaud's among others). Beginning with Aristotle's *Poetics*, we will consider also other writings in philosophy, classical and romantic poetics, and contemporary literary and social theories that link ethical, aesthetic, and emotional criteria to the question of what constitute legitimate acts of sovereign force or individual self-sacrifice. To be offered at Amherst College.

Requisite: A previous course using literary and/or feminist theory, or consent of the instructors. Limited to 24 students. Omitted 2004-05. Professor Parker of Amherst College and Professor Russo of Hampshire College.

Computer Science

See Mathematics and Computer Science.

CREATIVE WRITING

Advisory Committee: Writer-in-Residence Hall (Director); Visiting Writer Chai; Professors Ciepiela*, Frank†, Maraniss, and Sofield; Associate Professor Douglas‡; Senior Lecturer von Schmidt.

The Creative Writing Center offers courses in the writing of fiction, poetry, drama, non-fiction, and translation; in addition we sponsor a reading series, as well as class visits by practicing writers and editors. The work of the Center is interdisciplinary in that those who teach creative writing are drawn from various College departments.

The faculty of the Center strongly believes that creative writing should take place in the context of a liberal arts education. We also believe that students benefit from the discipline of writing from experience, real and imagined, and from submitting that writing, in small classes, to the criticism of instructors and other student writers. Because we believe that creative writing is in large part learned through creative reading, all faculty of the Center also teach courses in the reading of literature. We do not offer a major and do not invite students to formulate interdisciplinary majors in creative writing; instead we believe that the most desirable education for a writer is not a heavy concentration of writing courses, but rather a selection of such courses along with many others in literature and other subjects.

The Center does not offer courses independently: all of the courses listed below are located in various departments and count toward the major requirements of those departments. In addition to the courses listed here, students may arrange to take special topics courses with any faculty member willing to do so—including those who do not teach in the Center—and to undertake creative writing honors projects in their major departments.

Generally, pre-registration for creative writing courses is not allowed. Consult the Creative Writing web page (www.amherst.edu/~cwc) for information on admission procedures.

Writing Poetry I. See English 21.

Limited enrollment. First semester: Writer-in-Residence Hall. Second semester: Professor Sofield.

Writing Poetry II. See English 22.

Limited enrollment. First semester. Writer-in-Residence Hall.

Composition. See English 23.

ECONOMICS

Professors Barbezat (Chair), Nicholson, Westhoff, Woglom, and B. Yarbrough; Adjunct Professor R. Yarbrough; Associate Professor Rivkin†; Assistant Professors Alpanda, Honig, Kingston*, and Wolpaw Reyes; Visiting Associate Professor Perkins.

Major Program. A major in economics comprises a sequence of courses that begins with Economics 11, a survey of current economic issues and problems and an introduction to the basic tools essential for all areas of economics. Economics 11 is a requisite for all other courses in economics, and for many courses there is no other requisite. After completing Economics 11 a student may enroll in a variety of applied courses. Students may be excused from the requirement of taking Economics 11 by demonstrating an adequate understanding of basic economic principles. Three specific ways of being excused from the Economics 11 requirement are: (1) Attaining a grade of 4 or 5 on both the macroeconomic and microeconomic portion of the Advanced Placement Exam; (2) Passing a placement exam that is given by the department typically at the beginning of each semester; (3) Attaining a grade of 6 or 7 on the higher level International Baccalaureate in Economics.

In addition to Economics 11, all majors must complete the sequence of core theory courses: Economics 53 or 57; 54 or 58; and 55. These courses can be taken in any order, but it is recommended that a student take Economics 53/57 or 54/58 before enrolling in Economics 55. In addition, it is not generally advisable to take more than one of the core theory courses in a given semester. The core theory courses must be completed at Amherst. In exceptional circumstances (studying abroad is not an exceptional circumstance), a student may be permitted to substitute a non-Amherst course for one of the core courses. Such exceptions are considered only if a written request is submitted to the Department Chair prior to initiating the other work.

The major is completed by taking a number of elective courses in economics and passing a comprehensive exam. Majors must take a total of nine courses in economics, which include Economics 11, the core theory courses, and at least one upper level elective numbered 60 to 77 (students in the Class of 2005 are exempted from this requirement). Honors students must take a total of ten

*On leave 2004-05.

†On leave second semester 2004-05.

courses. Non-Amherst College courses (including courses taken abroad) may be used as elective courses. Such non-Amherst courses must be taught out of an economics department, and the student must receive one full Amherst College course credit for the work. Therefore, if a student were to take five courses abroad, which included two economics courses and for which Amherst College awarded four course credits, the work done abroad would be counted as the equivalent of one elective course in economics. If only one of the five courses were an economics course, the student would not receive any elective credits. Students who transfer to Amherst and wish to receive credit towards the major requirements for previous work must obtain written permission from the Chair of the department.

In addition to the requirements described above, majors must attain a grade of C+ or better in Economics 11 and a grade of C+ or better in Economics 53 or 57, Economics 54 or 58, or Economics 55, whichever is taken first. A student may be admitted to the major conditionally after successfully completing Economics 11 with a grade of C+ or better, but will be dropped from the major if he or she obtains a grade below C+ in the first core theory course taken. If a student fails to meet this requirement, he or she can gain admittance to the major by achieving a grade of B or higher in at least one of the remaining core theory courses.

Departmental Honors Program. To be eligible to enter the honors program, a senior (or second semester junior in an E Class) must have completed the core theory courses with an average grade of 11.00 or higher. Honors students take Economics 77, the Senior Departmental Honors Seminar, in the fall semester, and complete their honors essay under the guidance of an individual advisor in the spring semester, Economics 78. Economics 77 and 78 can both be counted as elective courses towards the major total course requirement. Students who successfully complete Economics 77 and 78 do not have to take the comprehensive exam in economics. Students who intend to enter the honors program are encouraged to take the advanced macroeconomic and microeconomic core theory courses.

Comprehensive Exam. A written comprehensive exam is given during the first week of the second semester to senior economics majors who have completed the core theory courses. There are two parts to the comprehensive exam: 1) a multiple-choice portion examining the material in the core theory courses; 2) an essay portion, where students are asked to apply economic analysis to a current issue.

Graduate Study. Students who intend to pursue graduate study in economics are strongly advised to take additional courses in mathematics. Such students should plan on taking Mathematics 12 and 25, at a minimum, and ideally Mathematics 13 and 28 in addition.

Note on Pass/Fail Courses. Economics 11 may be taken on a Pass/Fail basis only by second semester juniors or seniors, and only with the consent of the instructor. Other departmental courses may be taken on a Pass/Fail basis at the discretion of the instructor. Majors may not use the Pass/Fail option in a course used to satisfy a major requirement.

11. An Introduction to Economics. A study of the central problem of scarcity and of the ways in which the U.S. economic system allocates scarce resources among competing ends and apportions the goods produced among people.

Requisite for all other courses in economics. Each section limited to 25 Amherst College students.

Three hours of lecture and one hour of discussion per week. First semester: Professors Alpanda, Honig, Rivkin, and Woglom.

One lecture and three hours of discussion per week. Second semester: Professors Alpanda, Barbezat, Perkins, and Reyes.

23. Poverty and Inequality. Highly politicized debate over the determinants of poverty and inequality and the desirability of particular government responses often obscures actual changes over time in social and economic conditions. Information on the true impact of specific government policies and the likely effects of particular reforms becomes lost amid the political rhetoric. In this course we shall first discuss the concepts of poverty, inequality, and discrimination. Next we shall examine trends over time in the poverty rate, inequality of the earnings distribution, family living arrangements, education, crime, welfare reciprocity, and health. We shall focus on the U.S., but also study a small number of less developed countries. In the final section of the course, basic economic principles and the evidence from experience with existing government programs will be used to analyze the likely impacts of several policy reform proposals.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05. Professor Rivkin.

24. Industrial Organization. This course examines the determinants of and linkages between market structure, firm conduct, and industrial performance. Some of the questions that will be addressed include: Why do some markets have many sellers while others have only few? How and why do different market structures give rise to different prices and outputs? In what ways can firms behave strategically so as to prevent entry or induce exit of rival firms? Under what circumstances can collusion be successful? Why do firms price discriminate? Why do firms advertise? Does a competitive firm or a monopoly have a greater incentive to innovate? In answering these and other questions, the consequent implications for efficiency and public policy will also be explored.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05.

25. Environmental and Natural Resource Economics. Students in this course will explore society's use of the natural environment as a component of production and consumption. The allocation of exhaustible and renewable resources and the protection of environmental quality from an economic standpoint will be examined. Public policy avenues for controlling natural resource management and the environment will also be explored. Case studies include air pollution and acid rain, depletion of the ozone layer and the greenhouse effect, the solid waste crisis, and deforestation, among others.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05.

26. Economics of Education. Investments in education benefit individuals and society in a variety of ways. Education affects the productivity of the labor force, economic growth, the earnings of individuals, social mobility, the distribution of income, and many other economic and social outcomes. In 1990 educational expenditures exceeded seven percent of the Gross Domestic Product of the United States. A sector this large and important poses a number of serious policy questions—especially since it lacks much of the competitive discipline present in profit-making sectors of the economy. Should we increase expenditures? Are resources allocated efficiently? Equitably? How should the sector be organized? Who should bear the costs of education? Which policy changes will be effective? Many of these questions are part of the national policy debate. This

course will use economic principles to study these and other issues which have been central to discussions of education policy.

Requisite: Economics 11 or consent of the instructor. Limited to 50 students. Omitted 2004-05. Professor Rivkin.

28. Economic History of the United States, 1600-1860. The economic development of the United States provides an excellent starting point for an understanding of both this nation's history and its current economic situation. We begin with the colonial period and the creation of the nation and end with the Civil War and the breakdown of the Union. Throughout we provide an economic reading of the events and try to explain the conflicts and resolutions in economic terms.

Requisite: Economics 11. Limited to 35 students. First semester. Professor Barbezat.

29. Economic History of the United States, 1865-1965. The economic development of the United States provides an excellent starting point for an understanding of both this nation's history and its current economic situation. We begin with the reconstruction period after the Civil War and end with the Civil Rights Era and the War on Poverty. Throughout we provide an economic reading of the events and try to explain the conflicts and resolutions in economic terms.

Requisite: Economics 11. Limited to 35 students. Second semester. Professor Barbezat.

30. Current Issues in the United States' Economy. This course examines the contemporary economic development of the United States. Rather than starting at some time and asking "What happened next?," the course proceeds in reverse chronological order and asks "From where did this come?" Current structures, policies and problems will be analyzed and explained by unfolding the path of their sources. Among the topics covered will be the savings and loan crisis, the boom-bust of the 1980s, health care policies, foreign economic policy, as well as topics that particularly interest the group of students taking the course.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05. Professor Barbezat.

31. The Economics of the Public Sector. This course examines the role that the government plays in the economy. We begin focusing on market failures: situations in which unregulated actions by the consumers and firms result in inefficiency. Acid rain, the depletion of the ozone layer, and global warming are used in case studies. How has the government reacted to these problems? How should the government respond? The second part of the course studies how the government's tax policies affect the economy. The tax reforms of the 1980s and the recent deficit reduction act will be emphasized. During the semester most of today's pressing public policy issues will be addressed: health care, welfare reform, the social security system, the budget deficit, etc.

Requisite: Economics 11. Limited to 50 students. First semester. Professor Perkins.

32. International Trade. This course uses microeconomic analysis to examine economic relationships among countries. Issues addressed include why nations trade, the distributional effects of trade, economic growth, factor mobility, and protectionism. Also included are discussions of the special trade-related problems of developing countries and of the history of the international trading system.

Requisite: Economics 11. Limited to 50 students. First semester. Professor B. Yarbrough.

33. Open-Economy Macroeconomics. This course uses macroeconomic analysis to examine economic relationships among countries. Issues addressed include foreign exchange markets, the balance of payments, and the implications of openness for the efficacy of various macroeconomic policies. Also included are discussions of the special macroeconomic problems of developing countries and of the history of the international monetary system. Not open to students who have taken Economics 76.

Requisite: Economics 11. Limited to 50 students. First semester. Professor B. Yarbrough.

34. Money and Economic Activity. This course studies the monetary systems that facilitate exchange. Such systems overcame the limitations of barter with commodity monies such as gold, and gradually evolved into financial intermediaries that issue paper notes and bank deposits as money. Intermediaries in markets for insurance, debt, and equity are studied too. Also, the effects of financial markets on aggregate economic activity and the level and term structure of interest rates are studied.

Requisite: Economics 11. Second semester. Professor Perkins.

36. Economic Development. An introduction to the problems and experience of less-developed countries, and survey of basic theories of growth and development. Attention is given to the role of policies pursued by LDCs in stimulating their own growth and in alleviating poverty. Topics include population, education and health, industrialization and employment, foreign investment and aid, international trade strategy and exchange rate management.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05. Professor Kingston.

37. Macroeconomic Policy. This course examines a variety of issues surrounding the formulation, interpretation, and analysis of macroeconomic policy. Both monetary and fiscal policy will be covered. Will the Fed lower interest rates next week? Should the federal government avoid budget deficits? The course will develop economic theories that underlie these and other policy decisions, as well as examine current and past macroeconomic policy. The federal budgeting process and the Federal Reserve System will both be examined in detail. In addition, the interaction between the political process and macroeconomic policy outcomes will be examined. The primary emphasis will be on U.S. domestic policy.

Requisite: Economics 11. Limited to 50 students. Omitted 2004-05.

40. Health Economics. This course is designed to familiarize students with the application of economic analysis to health care. Emphasis will be placed on the supply and distribution of medical personnel, the financing of health care, the problems of rising hospital costs, alternative organizational forms for the delivery of medical care, and the role of government in each of these areas.

Requisite: Economics 11. Limited to 50 students. Second semester. Professor Reyes.

53. Macroeconomics. This course develops macroeconomic models of the determinants of economic activity, inflation, unemployment, and economic growth. The models are used to analyze recent monetary and fiscal policy issues in the United States, and also to analyze the controversies separating schools of macroeconomic thought such as the New Keynesians, Monetarists and New Classicals. A student may not receive credit for both Economics 53 and Economics 57.

Requisites: Economics 11 and Mathematics 11 or equivalent. First semester: Professors Alpanda and Barbezat. Second semester: Professors Honig and Woglom.

54. Microeconomics. This course develops the tools of modern microeconomic theory and notes their applications to matters of utility and demand; production functions and cost; pricing of output under perfect competition, monopoly, oligopoly, etc.; pricing of productive services; intertemporal decision-making; the economics of uncertainty; efficiency, equity, general equilibrium; externalities and public goods. A student may not receive credit for both Economics 54 and Economics 58.

Requisites: Economics 11 and Mathematics 11 or equivalent. First semester: Professor Westhoff. Second semester: Professor B. Yarbrough.

55. An Introduction to Econometrics. A study of the analysis of quantitative data, with special emphasis on the application of statistical methods to economic problems.

Requisites: Economics 11 and Mathematics 11 or equivalent. First semester: Professor Rivkin. Second semester: Professor Westhoff.

57. Advanced Macroeconomics. This course covers similar material to that covered in Economics 53 but is mathematically more rigorous and moves at a more rapid pace. A student may not receive credit for both Economics 53 and Economics 57.

Requisites: Economics 11 and Mathematics 12 or equivalent, or consent of the instructor. Second semester. Professor Woglom.

58. Advanced Microeconomics. This course covers similar material to that covered in Economics 54 but is mathematically more rigorous and moves at a more rapid pace. A student may not receive credit for both Economics 54 and Economics 58.

Requisites: Economics 11 and Mathematics 13 or equivalent, or consent of the instructor. First semester. Professor Nicholson.

60. Labor Economics. An analysis of the labor market and human resource economics. Issues concerning labor supply and demand, wage differentials, the role of education, investment in human capital, unemployment, discrimination, income inequality, and worker alienation will be discussed utilizing the tools of neoclassical economics. In addition, we shall examine the major non-neoclassical explanations of the perceived phenomena in these areas.

Requisite: Economics 54 or 58. Omitted 2004-05. Professor Rivkin.

62. Seminar in Macroeconomic Issues. An upper-level course studying the theoretical and policy controversies spawned by the New Classical revolution in macroeconomics. We trace the birth of the New Classical School as a logical development of the Keynesian research agenda. Then we look at the fundamental challenges posed by New Classical economics for the ways in which macroeconomists view the relationships between economic theory, empirical testing, and policy advice. Students will write a research paper applying the ideas developed in the course to a topic of their choice.

Requisite: Economics 53 or 57. Second semester. Omitted 2004-05. Professor Woglom.

63. The Economics of Finance. A study of the role of financial markets in the efficient allocation of resources. We look at how financial markets: (1) enable the transfer of resources across time and space; (2) facilitate the reduction and management of risk; and (3) provide information about the future, which is important to public policymakers as well as private firms and individuals. The financial theories studied include: (1) the theory of present discounted values;

(2) the capital asset pricing model; (3) the efficient markets hypothesis; and (4) the Black-Scholes model for the pricing of contingent claims.

Requisite: Economics 54 or 58. Limited to 35 students. First semester. Professor Woglom.

64. Evaluating Social Policies. This course examines a number of social programs in the United States including Social Security, Medicaid, Unemployment Compensation, Aid to Families with Dependent Children, and the Earned Income Tax Credit. The purpose of this examination is not only to show how these programs operate, but also to illustrate how econometric tools can be used to evaluate these operations. A significant portion of the course will be devoted to showing the advantages and disadvantages of using actual data from the programs in such evaluations.

Requisite: Economics 55 or consent of the instructor. First semester. Professor Reyes.

65. Topics in Econometrics. A continuation of Economics 55 that uses statistics, general economic theory and mathematics to understand empirical relations in economics. The course introduces matrix algebra and uses it to develop a careful treatment of the multiple linear regression model and refinements. Also includes an introduction to methodological developments in econometric modeling of time series data, and extensive practice in the use of statistical packages for computation.

Requisite: Economics 55. Second semester. Professor Alpanda.

66. Law and Economics. This course introduces students to the ways in which legal issues can be examined using the tools of economic analysis. Topics covered include: Property and contract law, accident law, family law, criminal law, financial regulation, and tax law. In all of these areas the intent is not to provide an exhaustive examination of the law, but rather to show how economic methods can contribute to an understanding of the basic issues that must be addressed by the law.

Requisite: Economics 54 or 58 or consent of the instructor. First semester. Professor Nicholson.

67. Advanced Economic Theory. This course is designed as a sequel to Economics 54, Microeconomics. The objective of the course is to provide students with a mathematically rigorous foundation in microeconomic theory. Topics may vary from year to year and will be chosen from among the following: revealed preference; relationship among demand, indirect utility, and expenditure functions; duality; profit maximization and cost minimization; uncertainty; game theory; externalities and public goods; oligopoly models; adverse selection, signaling, and screening; principal-agent problems; general equilibrium theory; computation of economic equilibria; efficiency, the core, and the second best; dynamic programming; etc.

Requisite: Economics 54 or 58. Second semester. Professor Westhoff.

72. From Poor Relief to Welfare-to-Work. In this course, we will examine the economic history of poverty. We will begin with an examination of how poverty and the "poor" have been defined over time. We will then look at estimates of poverty measures from 1770-1990 in the United States among different groups (women, children, different ethnic groups, etc.). After analyzing the trends in poverty we will describe both private and public poverty policy programs. We will begin with the early poor laws of the New England and the Mid-Atlantic states and continue through to the contemporary era of welfare reform. At the

end of the course, we will examine global poverty and put the U.S. experience into an international context.

Requisite: Economics 53/57 or 54/58. Omitted 2004-05. Professor Barbezat.

73. Game Theory and Applications. Game theory analyzes situations in which multiple individuals (or firms, political parties, countries) interact in a strategic manner. It has proved useful for explaining cooperation and conflict in a wide variety of strategic situations in economics, political science, and elsewhere. Such situations can include, for example, firms interacting in imperfectly competitive markets, auctions, arms races, political competition for votes, and chess. This course will provide an introduction to the tools and insights of game theory. Though mathematically rigorous, emphasis will be on applications rather than on formal theory.

Requisite: Economics 54 or 58. Omitted 2004-05. Professor Kingston.

74. Economics of the Not-For-Profit Sector. A study of the Not-For-Profit (NFP) firm as an institutional form that society has used in response to market failures, such as the presence of jointly consumed goods, asymmetric information, and principal-agent problems. Examples will be taken from industries where the NFP form is prevalent: health care, education, museums, performing arts, and public radio and television. Issues related to the financing of NFPs, including their capital structure and reliance on donations as opposed to commercial revenues, will also be studied.

Requisite: Economics 54 or 58. First semester. Professor Perkins.

75. Economic Growth. Income in the United States has increased more than tenfold over the last century, and incomes in the United States and most of Western Europe are at least 30 times higher than incomes in much of sub-Saharan Africa. This course explores what economists know about the process of economic growth that generated such outcomes. We will examine both formal theories of economic growth and the empirical literature on comparative economic growth, as well as examples of individual countries' growth experiences.

Requisites: Economics 55 and at least one of Economics 32, 33, 36, 53, 54, 57, or 58. Omitted 2004-05. Professor B. Yarbrough.

76. Topics in Open-Economy Macroeconomics. An upper-level seminar in international macroeconomics, with an emphasis on emerging market economies. We will read and discuss empirical research papers. Topics covered will include exchange rate regimes, banking and currency crises, contagion, the role of foreign banks, dollarization, institutions and governance, and current account sustainability.

Requisite: Economics 33, 53 or 57. Second semester. Professor Honig.

77. Senior Departmental Honors Seminar. A seminar preparing senior economics majors to undertake independent research for their honors projects. Five or six topics of current interest will be studied.

Requisites: An average grade of 11.00 or higher in Economics 53/57, 54/58, and 55. First semester. Professor Reyes.

78. Senior Departmental Honors Project. Independent work under the guidance of an advisor assigned by the Department.

Requisite: Economics 77. Second semester.

97, 97H, 98, 98H. Special Topics. Independent Reading Course. A full course or half course.

Admission with consent of the instructor. First and second semesters.

ENGLISH

Professors Barale, Cameron, Chickering (Director of Studies), Cobham-Sander, Frank† (Chair, second semester), Guttman, O'Connell, Parker, Peterson, Pritchard‡, Rushing, Sánchez-Eppler (Chair, first semester), Sofield, and Townsend; Writer-in-Residence Hall; Assistant Professors Bosman* and Parham*; Senior Lecturer von Schmidt; Visiting Assistant Professors Duerfahrd and Schneider; Five College Assistant Professors Hey and Hillman; Visiting Writer Chai.

Major Program. Students majoring in English are encouraged to explore the Department's wide range of offerings in literature, film, and culture. Rather than prescribe any particular route through its curriculum, the Department helps its students to develop their own interests and questions. To this end, majors work closely with their advisors in defining an area of concentration—through frequent consultations, the submission and periodic revision of a concentration statement, and, in the senior year, the successful completion of the comprehensive requirement.

Majoring in English requires the completion of ten courses offered or approved by the Department, including at least one course numbered 01 to 20 and one of the upper-level seminars numbered 75. Majors may count towards the ten required courses up to three courses in creative writing. Because English 75 can lead in the senior year to a tutorial project, the Department strongly urges majors to fulfill the seminar requirement during the junior year. The Department will not guarantee admission to a particular section of English 75 in the second semester of the senior year.

In addition to taking at least one course numbered 01 to 20 and a section of English 75, all students must submit a *concentration statement*, no later than at preregistration in the spring of the junior year, that defines the focus of their major. At preregistration in the fall of the senior year, members of the Class of 2005 then must provide a four- or five-page draft of a *retrospective essay* recounting the development of their interests as an English major. A final version of this essay, due at the end of the add/drop period of the second senior semester, will be evaluated by a committee of departmental readers. The approved retrospective essay, together with an updated concentration statement, satisfy the comprehensive requirement in English.

For the Class of 2006 and following, the retrospective essay will no longer be required; instead, the comprehensive requirement will be satisfied in the fall of the senior year by students passing an examination based upon an outside reading list that will be provided at the declaration of their major, which is usually in the spring of their sophomore year.

No more than two courses not offered by members of the Department may be counted towards the major, except with the recorded permission of the student's advisor.

Departmental Honors Program. The Department awards Latin honors to seniors who have achieved distinction in course work for the major and who have also demonstrated, in a submitted portfolio of critical or creative work, a capacity to excel in composition. Students qualify for Latin honors only if they have attained a B+ average in courses approved for the major; the degree *summa cum laude* usually presupposes an A average.

*On leave 2004-05.

†On leave first semester 2004-05.

‡On leave second semester 2004-05.

Unlike other Amherst departments, English has no senior honors course. While students often include in their portfolios work that they complete in the Senior Tutorial (English 87/88), enrollment in these independent study courses is not a requirement for honors consideration.

To be considered for honors a student must submit to the Department a *portfolio*, which contains normally 50 to 70 pages of writing. The materials included may derive from a variety of sources: from work completed in the Senior Tutorial course(s); from Special Topics (English 97/98), composition, and creative writing courses; from projects undertaken on the student's own initiative; or from essays composed originally for other courses in the major (these essays must be revised and accompanied by a covering statement that describes in detail the nature of the project they constitute and comments thoughtfully and extensively upon the writer's acts of interpretation and composition). The Department does not refer to the portfolio as a "thesis" because that is simply one of many forms the portfolio may take. It may be, for example, a short film or video, a collection of essays or poems or stories, a play, a mixture of forms, an exploration in education or cultural studies.

Before a student can submit a portfolio, it first must be approved by his or her designated tutor or major advisor. If the portfolio is approved, a committee of faculty examiners is then appointed. Following an interview with the student, the committee conveys its evaluation to the whole Department, which then takes into account both the portfolio and the record in the major in making its final recommendation for the level of honors in English.

Senior Tutorial. Senior English majors may apply for admission to the Senior Tutorial (English 87/88) for either one or both semesters. Preregistration is not allowed. Appropriate tutors are assigned to students whose applications have been approved. The purpose of the Senior Tutorial is to provide an opportunity for independent study to any senior major who is adequately motivated and prepared to undertake such work, whether or not he or she expects to be considered for Latin honors at graduation. Admission to English 87/88 is contingent upon the Department's judgment of the feasibility and value of the student's proposal as well as of his or her preparation and capacity to carry it through to a fruitful conclusion.

Graduate Study. Students interested in graduate work in English or related fields should discuss their plans with their advisor and other members of the Department to learn about particular programs, deadlines and requirements for admission, the Graduate Record Examinations, the availability of fellowships, and prospects for a professional career. Students should note that many graduate programs in English or comparative literature require reading competence in two, and in many cases three, foreign languages. Intensive language programs are available on many campuses during the summer for students who are deficient. To some extent graduate schools permit students to satisfy the requirement concurrently with graduate work.

N.B. The English Department does not grant advanced placement on the basis of College Entrance Examination Board scores.

COURSES PRIMARILY FOR FIRST-YEAR STUDENTS. These courses numbered 01 (first or second semester) are offered primarily for first-year students. Courses with this number are writing intensive and limited in enrollment to 20 students.

01. Courses Primarily for First-Year Students. Seven sections will be offered in the first semester, 2004-05.

01. NOVELS, PLAYS, POEMS. Why does any writer—an Amherst College student, Philip Roth, Emily Dickinson, William Shakespeare—say what he or she says one way rather than another? And what in the expression itself makes a story, a play, a poem effective, something a reader might care about, be moved or delighted by? We will try to answer these questions by reading major examples of each genre, including much recent work, with close and sustained attention to details of expressive language. The course will be taught in three sections of 15-20 students. Frequent writing exercises.

Open to upperclassmen as well as first-year students.

Professor Chickering.

02. NOVELS, PLAYS, POEMS. Same description as English 01, section 01, first semester.

Professor Pritchard.

03. NOVELS, PLAYS, POEMS. Same description as English 01, section 01, first semester.

Professor Sofield.

04. AMERICAN RENAISSANCE. A study of what might be referred to as "classical American literature" or "The Age of Emerson." The writers studied will be Emerson, Thoreau, Fuller, Hawthorne, Melville, Whitman, and Dickinson. Among the central questions asked are these: How successful were these writers in their efforts to create a distinctively American language and literature? What was their view of nature and of human nature? How did they dramatize social conflict? In what ways did they affirm or challenge traditional conceptions of gender? The course will pay close attention to the interactions of these writers with one another and will give particular emphasis to Emerson as the figure with whom the others had to come to terms.

Professor Guttman.

05. RESPONDING TO FILM. Like poems, plays and novels, films invite a response from their viewer that is at once one of pleasure and one of attentive analysis and nuanced judgment. This course will pay attention to a number of individual films, from past and present, from this country and elsewhere, that invite and deserve such responses. A strong emphasis in the course will be upon encouraging and disciplining the efforts of students to find language for themselves that is adequate to what they see and hear in films and upon helping them use that language to see and hear ever more in the films they watch. Frequent short writing assignments and at least one screening per week.

Professor Cameron.

06. READING REGIONS, READING THE SOUTH. In the United States, as in many countries, we divide ourselves up into regions. Differences in language and/or dialect, in history, in customs and politics, are often seen as legitimating regional divisions. The South has always held an especially powerful place in the American imagination, even before the Civil War. Through close encounters with texts and music, we will explore the differences *within* the South, the ways in which particular literary texts have come to be seen not just as representing the South but, in part, constituting its difference, and the complex roles played by race, ethnicity, and class. Among

the writers and musicians we will study: Louis Armstrong, Ernest Gaines, Eudora Welty, Flannery O'Connor, Breece D.J. Pancake, William Faulkner, Hank Williams, and the Carter Family.

Professor O'Connell.

07. AUTOBIOGRAPHY AND SELF-CREATION. Readings in memoirs, autobiographies, and other autobiographical work, plus screening of autobiographical films, with an eye to understanding how we create ourselves textually and addressing the "this isn't art, this is life" dilemma. Readings will include work by such writers as Eudora Welty, Maxine Hong Kingston, Robert Lowell, Vladimir Nabokov. Films to include work by Ross McElwee, Alan Berliner, Federico Fellini.

Senior Lecturer von Schmidt.

01. Courses Primarily for First-Year Students. Four sections will be offered in the second semester, 2004-05.

01. WRITING ABOUT LITERATURE. This course offers students an opportunity to develop their analytic and writing skills. We will read a variety of literary forms—prose and poetry, novels and essays and drama—and will write frequently and at length about what we read. This semester our readings will focus on the topic of Justice. We will read such authors as Cather, Dickens, Kafka, Nietzsche, Shakespeare, Sophocles, Wright. Three class hours per week.

Open only to first-year and sophomore students. Limited to 15 students per section. Professor Barale.

02. WRITING ABOUT LITERATURE. Same description as English 01, section 01.

Professor Chickering.

03. WRITING ABOUT LITERATURE. Same description as English 01, section 01.

Dean Lieber.

04. READING GENDER, READING RACE. (Also Black Studies 19 and Women's and Gender Studies 01.) The topic changes each time the course is taught. In spring 2005 the topic will be "Black Masculinities." Taking the burgeoning discipline of Black Masculinity Studies as our field of critical inquiry, in this course we will examine the mythos of the African American male in U.S. culture. From sexual threat to "Uncle Tom," victim of violence to original gangsta, Black Power to blaxploitation, and black macho to Maplethorpe's "Black Book," if the very body of the black man can be said to be a "blank/black page onto which the identity theme of American whiteness, with its distinguishing terrors and longings, imprints itself as onto a photographic negative" (Maurice Wallace), this class hopes to explore not only the ways in which representations of the black masculine have developed over the years, but also the social and psychic demands that might be said to inform the circulation of these images in "mainstream" America.

Limited to 20 students. Professor Schneider.

COURSES 02 TO 20. Open to all students, these courses are commonly writing intensive, limited in enrollment, and introductory in nature. Prospective majors are strongly advised to elect more than one.

06. Reading, Writing, and Teaching. Students, as part of the work of the course, each week will tutor or lead discussions among a small group of students at

Holyoke High School. The readings for the course will be essays, poems, autobiographies, and stories in which education and teaching figure centrally. Among these will be materials that focus directly on Holyoke and on one or another of the ethnic groups which have shaped its history. Students will write weekly and variously: critical essays, journal entries, ethnographies, etc. Readings for the course will include works by Sylvia Ashton-Warner, James Baldwin, Judith Ortiz Cofer, John Dewey, Jonathan Kozol, Herbert Kohl, Sarah Lightfoot, John Stuart Mill, Abraham Rodriguez, Esmeralda Santiago, and Patricia Williams. Two class meetings per week plus an additional workshop hour and a weekly morning teaching assistantship to be scheduled in Holyoke.

Limited to 20 students. First semester: Professor Sánchez-Eppler. Second semester: Professor O'Connell.

07 to 10. American Literature in the Making. Over the last 25 years literary historians and critics have completely remade the field of American literature. The important artistic contributions of women, of African Americans, of Latinos, of Asian Americans, and of Native Americans have received attention and appreciation. In many instances long-forgotten texts have been uncovered and appreciated as first-rate works of art. Neglected artists like Willa Cather and James Weldon Johnson have been reread, re-seen. The goal of this four-semester sequence is to survey American literature from its beginnings to the present in a history that attempts to bring together what were once considered the classics with the most important of the newer additions to the body of American literature. In doing so our primary attention will be on texts of exceptional literary merit.

07. American Literature in the Making: Colonies, Empires, and a New Republic. Once American literature began with the Pilgrims and Puritans, though they were latecomers among the Europeans in the Americas. In this course we will begin with the oral traditions of some of the native inhabitants and then read accounts from the European discovery and conquest, Spanish, French, and English: Columbus, Verrazano, Cartier, Cortes, Bradford, and others. Then we will read the literature of the settlers: diaries, sermons, captivity narratives, and autobiographies. In the eighteenth century we will follow the emerging literature of independence, not only that written by Anglo-Americans but also the writings of Africans and African Americans like Olaudah Equiano. We will end the course with the literature of post-independence: novels by Charles Brockden Brown and Rebecca Rush.

Limited to 80 students. Omitted 2004-05. Professor O'Connell.

08. American Literature in the Making: Nineteenth Century to the Civil War. The course will cover the years from 1820 to 1920. These are the years when Anglo-American literature achieved an international reputation. They are also the years of African Americans' first intense and bitter struggle for liberation, and the years when the Euro-American conquest of the Indians was completed. The second half of the century also experienced the largest immigration in the history of the country until the post-1965 period, which enabled the United States to become the greatest industrial power in the world. The literature we will read is enmeshed in all these complex events: Cooper, Sedgwick, Emerson, Thoreau, Fanny Fern, Hawthorne, Melville, Harriet Beecher Stowe, and Frederick Douglass.

Limited to 80 students. Second semester. Professor O'Connell.

09. American Literature in the Making: The Twentieth Century, 1900-1941. The focus in this course will be on lesser-known writers alongside the "major" figures:

James Weldon Johnson, Willa Cather, Nella Larsen, Fitzgerald, Sherwood Anderson, Ernest Hemingway, Zora Neale Hurston, Langston Hughes, Edward Dahlberg, Henry Roth, Tillie Olsen, Hisaye Yamamoto, Toshio Mori, Saul Bellow, Eudora Welty, James Baldwin and others.

Limited to 80 students. Omitted 2004-05. Professor O'Connell.

10. American Literature in the Making: The Twentieth Century, 1942-2000. This course examines briefly the literature of World War II and then turns to Saul Bellow, Norman Mailer, Bernard Malamud, Philip Roth, and Lionel Trilling, the writers who made Jewish American literature a central part of American literature. Their dominance turned out to be quite brief and for the remainder of the century a rich abundance of writing appears, some of which can be labelled ethnically (American Indian, African American, Asian American, Latino), but what stands out is a range of imaginations and styles. Among the other writers we will read: James Baldwin, Toni Morrison, N. Scott Momaday, Maxine Hong Kingston, Chang-Rae Lee, Gloria Anzaldua, Anne Tyler, and Jane Smiley.

Limited to 80 students. First semester. Professor O'Connell.

12. Reading Poetry. A first course in the critical reading of selected major British and American poets. Attention will be given to prosody and poetic forms, and to different ways of reading poems. In spring 2004 students read poetry by William Shakespeare, John Donne, John Keats, Emily Dickinson, Wallace Stevens, Elizabeth Bishop, and Philip Larkin. Three class hours per week.

Omitted 2004-05. Professor Chickering.

13. Reading Popular Culture. (Also Women's and Gender Studies 28.) The topic changes each time the course is taught. In fall 2004 the topic will be "Freaks." Americans have long been fascinated with the idea of the outsider. The question becomes, however, what constitutes "outside" and "inside" in the production of American identity? In order to more critically interrogate the construction of the representative American Self, this course will probe the margins of national belonging to explore the figure of the "freak" in American popular culture. Tracing the history of the sideshow from the nineteenth century to the present day and looking at a range of novels, short stories, and films that focus on the "extraordinary Other," we will attempt to flesh out the various ways in which our current understandings of masculinity, femininity, sexuality, normalcy, and racial identity have been both consolidated and challenged through the dissemination of images of "abnormality."

Limited to 20 students. First semester. Professor Schneider.

14. Reading Fiction. A first course in the reading and criticism of fiction, with emphasis on the comic. Novels and stories by such writers as Jane Austen, Dickens, George Eliot, Henry James; lesser-known books and writers from this century, mainly from England and America. Attention centered on matters of technique and on different kinds of literary value. Three class hours per week.

Limited to 35 students. Omitted 2004-05. Professor Pritchard.

15. Black Music/Black Poetry. (Also Black Studies 54.) See Black Studies 54. First semester. Professor Rushing.

17. Big Books. This course explores the particular pleasures and interpretive problems of reading (and writing about) very long works—books so vast that any sure sense of the relation between individual part and mammoth whole may seem to elude the reader who becomes lost in a colossal imaginative world. How do we gauge, and engage with, works of disproportionate scale and encyclopedic ambition? How do we find our bearings within huge texts and

who or what is our guide? In fall 2004 the readings will be from three fictional chronicles of entire societies undergoing major transformations: George Eliot's *Middlemarch*, Fyodor Dostoevsky's *The Brothers Karamazov*, and Don De Lillo's *Underworld*.

Limited to 20 students. Preference given to sophomores and first-year students. First semester. Professor Peterson.

18. Coming to Terms. An introduction to contemporary literary studies through the analysis of a variety of critical terms, a range of literary examples, and the relations between and among them. The terms considered in spring 2005 will include lyric, narrative, author, translation, and autobiography.

Preference given to sophomores. Second semester. Professors Parker and Townsend.

19. Film and Writing. A first course in reading films and writing about them. A varied selection of films for study and criticism, partly to illustrate the main elements of film language and partly to pose challenging texts for reading and writing. Frequent short papers. Two 90-minute class meetings and two screenings per week.

Limited enrollment. Second semester. Senior Lecturer von Schmidt.

20. Introduction to the Study of Film. This is an introductory class for students who are seeking to familiarize themselves with the history of cinema from the silent era to the present, its periods, genres, styles and directors. It is an opportunity for beginning students to learn how to observe, describe, and think critically about film, and how to raise questions about scene, shot, frame, camera movement, and editing style in order to understand the effects (historical and personal) that each film renders. Some theoretical texts will help us explore the ways in which these aspects of the medium have been addressed.

Limited to 20 students. First semester. Professor Duerfahrd.

WRITING COURSES 21 TO 29.

21. Writing Poetry I. A first workshop in the writing of poetry. Class members will read and discuss each others' work and will study the elements of prosody: the line, stanza forms, meter, free verse, and more. Open to anyone interested in writing poetry and learning about the rudiments of craft. Writing exercises weekly.

This course is limited in enrollment. Preregistration is not allowed. Please consult the Creative Writing Center website for information on admission to this course. First semester: Writer-in-Residence Hall. Second semester: Professor Sofield.

22. Writing Poetry II. A second, advanced workshop for practicing poets. Students will undertake a longer project as well as doing exercises every week exploring technical problems.

Requisite: English 21 or the equivalent. This course is limited in enrollment. Preregistration is not allowed. Please consult the Creative Writing Center website for information on admission to this course. First semester. Writer-in-Residence Hall.

23. Composition. Organizing and expressing one's intellectual and social experience. Twice weekly writing assignments: a sketch or short essay of self-definition in relation to others, using language in a particular way—for example, as spectator of, witness to, or participant in, a situation. These short essays serve

as preparation for a final, more extended, autobiographical essay assessing the student's own intellectual growth.

Open to juniors and seniors. Limited enrollment. Second semester. Senior Lecturer von Schmidt.

25. Non-Fiction Writing. The topic changes each time the course is taught. In spring 2004 we studied writers' renderings of their own experiences (memoirs) and their analyses of society and its institutions (cultural criticism). Workshop format, with discussion of mostly modern American examples and of students' experiments in the genre. Students must submit examples of their writing to the English office. Three class hours per week.

Limited enrollment. Omitted 2004-05. Professor Townsend.

26. Fiction Writing I. A first course in writing fiction. Emphasis will be on experimentation as well as on developing skill and craft. Workshop (discussion) format.

This course is limited in enrollment. Preregistration is not allowed. Please consult the Creative Writing Center website for information on admission to this course. First semester: Visiting Writer Chai. Second semester: Professor Frank.

28. Fiction Writing II. An advanced level fiction class. Students will undertake a longer project as well as doing exercises every week exploring technical problems.

Requisite: Completion of a previous course in creative writing. This course is limited in enrollment. Preregistration is not allowed. Please consult the Creative Writing Center website for information on admission to this course. Second semester. Visiting Writer Chai.

29. Imitations. A poetry-writing course, but with a strong emphasis on reading. Students will closely examine the work of various poets and periods, then attempt to write plausible imitations on their own. There will also be some exercises in translation, using Stanley Burnshaw's *The Poem Itself*, all by way of learning about poetry from the inside, as it were.

Limited to 15 students. Second semester. Writer-in-Residence Hall.

30. Chaucer: An Introduction. The course aims to give the student rapid mastery of Chaucer's English and an active appreciation of his dramatic and narrative poetry. No prior knowledge of Middle English is expected. A knowledge of Modern English grammar and its nomenclature, or a similar knowledge of another language, will be helpful. Short critical papers and frequent declamation in class. The emphasis will be on Chaucer's humor, irony and lyricism. We will read *The Parliament of Fowls*, *Troilus and Criseyde*, and some shorter poems. Three class hours per week.

Omitted 2004-05. Professor Chickering.

34. Renaissance Drama: The Places of Performance. The course surveys multiple forms of drama and spectacle in Renaissance England with special attention to the cultural articulation of space. We will consider the relation of a range of texts to their real and imagined performance sites—public theatres like the Globe as well as private playhouses, castles, fairgrounds, taverns, and the streets of London—asking what impact these places had on the dramas themselves, on their representation of public and private worlds, and on the social and political role of theatre in society at large. Reading will include works by Marlowe, Shakespeare, Jonson, Heywood, Middleton and Rowley, and Milton.

A previous course in Shakespeare or Renaissance literature would be helpful. Omitted 2004-05. Professor Bosman.

35. Shakespeare. Readings in the comedies, histories, and tragedies, including *A Midsummer Night's Dream*, *I Henry IV*, *As You Like It*, *Hamlet*, *King Lear*, *Macbeth*, *Antony and Cleopatra*, and *The Tempest*. Two class meetings per week.

Limited to 50 students. Omitted 2004-05. Professor Sofield.

36. Shakespeare. Readings in the comedies, histories, and tragedies, including *Romeo and Juliet*, *A Midsummer Night's Dream*, *1 Henry IV*, *Othello*, *Hamlet*, and *The Tempest*, plus three more plays to be read out of class. Three class meetings per week.

Limited to 50 students. Second semester. Professor Chickering.

38. Major English Writers I. Readings in the poetry and prose of six classic figures from the seventeenth and eighteenth centuries: Ben Jonson, Milton, Dryden, Pope, Swift, Samuel Johnson. Attention given to other writers from the *Norton Anthology of English Literature*, Vol. 1. Three class meetings per week.

Open to first-year students with consent of the instructor. First semester. Professor Pritchard.

39. Major English Writers II: Romantics. Readings in poets and prose writers from the late eighteenth and early nineteenth centuries: Blake, Wordsworth, Coleridge, Byron, the Shelleys, and Keats.

Omitted 2004-05. Professor Townsend.

40. Victorian Novel I. A selection of mid-nineteenth-century English novels approached from various critical, historical, and theoretical perspectives. In spring 2005 the course will focus on novels written around 1848, among them Disraeli's *Sybil*, Gaskell's *Mary Barton*, E. Brontë's *Wuthering Heights*, Dickens's *Dombey and Son*, Trollope's *Barchester Towers*, and Eliot's *Adam Bede*.

Second semester. Professor Parker.

42. Victorian Novel II. A selection of late-nineteenth-century British novels approached from a variety of critical, historical, and theoretical perspectives.

Omitted 2004-05. Professor Parker.

43. Modern British Literature, 1900-1950. Readings in twentieth-century British writers such as Bernard Shaw, Joseph Conrad, D.H. Lawrence, Virginia Woolf, Wyndham Lewis, Ford Madox Ford, Evelyn Waugh, W.H. Auden, Robert Graves, George Orwell, and Ivy Compton-Burnett. Three class hours per week.

Not open to first-year students. Omitted 2004-05. Professor Pritchard.

44. Major English Writers III: Victorians. Readings in poets and prose writers from the mid- and late nineteenth century: Tennyson, Browning, Arnold, Swinburne, Hopkins; Carlyle, Newman, Mill, Ruskin, Huxley, Pater. What interest do these canonical writers hold for us now and how can we describe that interest in the language of criticism?

Limited to 40 students. Omitted 2004-05. Professor Pritchard.

45. Modern British and American Poetry, 1900-1950. Readings and discussions centering on the work of Hardy, Yeats, Eliot, Frost, and Wallace Stevens. Attention also to Pound, A.E. Housman, Edward Thomas, William Carlos Williams, Hart Crane.

Omitted 2004-05. Professor Pritchard.

46. Poetry 1950-2005. To be taught in 2004-05 as English 75, section 04.

Second semester. Professor Sofield.

47. The Rise of the English Novel. Exploring the relations between literary form and socioeconomic change, this course examines the rise of the novel in England

in the context of the rise of capitalism. Topics of discussion will include the novels' portrayals of subjectivity, the representation of female experience, the role of servants in the imaginary worlds of novels by ruling-class authors, and the early novel's affinity for and relation to criminality. Novels by Defoe, Richardson, Fielding, Sterne, Burney and Edgeworth.

Omitted 2004-05. Professor Frank.

48. Dangerous Reading: The Eighteenth-Century Novel in England and France. (Also European Studies 36 and French 62.) See European Studies 36.

Second semester. Professors Frank and Rosbottom.

49. The Moral Essay. The moral essay is a genre situated somewhere between literature and philosophy, between stories and sermons. "The essay interests itself in the narration of ideas," one critic writes, "in their unfolding." The moral essay is not about morals *per se* but about manners, about the way people live—and die. We will read essays by Montaigne, Bacon, Emerson, and Simone Weil.

Second semester. Professor Townsend.

51. Science Fiction. Surveying a range of classic and contemporary texts in the genre of science fiction, this course will explore the relation between the politics of world-making and future technologies of representation. Special emphasis will be placed on the discourses of difference (racial, sexual, and class, as well as spatial and temporal) in the elaboration of fictional worlds.

Omitted 2004-05. Professors Parham and Parker.

52. Hard Reading. (Also Women's and Gender Studies 12.) Many things can make a text difficult to read, just as we can understand the very idea that reading is "hard" or "easy" in any number of ways. A novel or play or short story can evade us because its narrative is convoluted or because its structure is fractured. We might have to slog through language that is "outdated" or dialectical. We might find we dislike the characters—or perhaps the author. Paragraphs can be too long, conversations too stilted, and all action might take place in the white space. Sometimes the very subject matter of a text makes it difficult for us to enjoy a piece of writing: we could loathe regional writing or find certain topics threatening or even repulsive. In this course we will examine some possible examples of books that seem to push us away. We will read works by some of the following writers: Emily Brontë, Ralph Ellison, George Eliot, Sarah Orne Jewett, Ha Jin, Adrienne Kennedy, Nella Larsen, Annie Proulx, Gertrude Stein, and David Henry Hwang.

Requisite: One English course numbered 01 through 19. Preference given to sophomores. Omitted 2004-05. Professor Barale.

53. The Literature of Madness. A specialized study of a peculiar kind of literary experiment—the attempt to create, in verse or prose, the sustained illusion of insane utterance. Readings will include soliloquies, dramatic monologues and extended "confessional" narratives by classic and contemporary authors, from Shakespeare and Browning, Poe and Dostoevsky to writers like Nabokov, Beckett, or Sylvia Plath. We shall seek to understand the various impulses and special effects which might lead an author to adopt an "abnormal" voice and to experiment with a "mad monologue." The class will occasionally consult clinical and cultural hypotheses which seek to account for the behaviors enacted in certain literary texts. Three class hours per week.

Open to juniors and seniors and to sophomores with consent of the instructor. Requisite: Several previous courses in literature and/or psychology. Omitted 2004-05. Professor Peterson.

54. "The Linguistic Turn": Language, Literature and Philosophy. "The Linguistic Turn" is a first course in literary and cultural theory. Though it will devote some early attention to the principles and methods of linguistic analysis, this class is not conceived as an introduction to linguistics *per se*. We will be asking, instead, much broader questions about the nature of "language," among them whether there is such a thing, and, if so, why it has come to define for us the nature of our contemporaneity.

Open to juniors and seniors. First semester. Professor Parker.

55. Childhood in African and Caribbean Literature. (Also Black Studies 29.) In 2002 the course concentrated on Caribbean authors. The course explores the process of self-definition in literary works from Africa and the Caribbean that are built around child protagonists. We will examine the authors' various methods of ordering experience through the choice of literary form and narrative technique, as well as the child/author's perception of his or her society. French texts will be read in translation.

Open to first-year students with consent of the instructor. First semester. Professor Cobham-Sander.

56. Four African American Poets. A critical reading of Lucille Clifton, Michael Harper, Audre Lorde, and Robert Hayden. Two class meetings per week.

Omitted 2004-05. Professor Rushing.

57. Topics in Literary Theory. The topic changes each time the course is taught. Omitted 2004-05.

58. Modern Short Story Sequences. Although little studied as a separate literary form, the book of interlinked short stories is a prominent form of modern fiction. This course will examine a variety of these compositions in an attempt to understand how they achieve their coherence and what kinds of "larger story" they tell through the unfolding sequence of separate narratives. Works likely to be considered include Lermontov's *A Hero of Our Time*, Hemingway's *In Our Time*, Isaac Babel's *Red Cavalry*, Joyce's *Dubliners*, Sherwood Anderson's *Winesburg, Ohio*, Jean Toomer's *Cane*, Eudora Welty's *Golden Apples*, Gloria Naylor's *Women of Brewster Place*, Raymond Carver's *Cathedral*. The course concludes with a significant independent project on a chosen modern (or contemporary) example of the form and its relation to preceding works.

Limited to 15 students. Preference given to junior and senior English majors. Second semester. Professor Peterson.

59. African National Narratives. (Also Black Studies 70.) A critical examination of the artistic and cultural values inscribed in texts that have attained prominence as representations of nationhood or nationality. The course explores both ancient and modern examples of so-called "foundational" narratives from Africa. We shall include in our reading national epics that emerge from traditional oral cultures (*The Sundiata* of Old Mali) and modern reworkings of epic narrative styles (Ouologuem's *Bound to Violence*). The course concludes with a close literary and cultural reading of "unofficial" epics that have become canonized by educated elites, including Achebe's *Things Fall Apart*. In our discussion we shall seek to clarify the artistic and ideological forces that seem to account for the high status of these various "books of the nation."

Omitted 2004-05. Professor Cobham-Sander.

61. Studies in American Literature. The topic changes each time the course is taught. In fall 2002 the topic was "Twentieth-Century American Indian Literature." Before the twentieth century American Indian writing took the form of

sermons, political statements, journalism, or a few remarkable autobiographies. But there was little in the way of poetry, short stories, or novels. Especially since the 1960s Indian writing has enjoyed what has been called a "renaissance," and there are a number of Indian writers who stand among the first ranks of American writers. We will attempt as comprehensive a survey as possible of the major American Indian writers since 1960 across all genres, writers such as Louise Erdrich, James Welch, Gerald Vizenor, Leslie Marmon Silko, Linda Hogan, and Sherman Alexie. In addition the course will begin with a brief look at Indian writers of the first half of the twentieth century: Charles Eastman, John J. Mathews, and Darcy McNickle.

Omitted 2004-05. Professor O'Connell.

62. Studies in Nineteenth-Century American Literature. (Also Black Studies 69.) This course will regularly examine, from different historical and theoretical stances, the literary and cultural scene in nineteenth-century America. The goal of the course is to formulate new questions and possibilities for investigating the history and literature of the United States. The topic changes each time the course is taught.

In spring 2005 the topic will be "Stories That Pass On: Slavery, Reconstruction, and the Return of the Repressed." In this course, an introduction to nineteenth-century African American literature, we will read works by Frederick Douglass, Harriet Jacobs, Harriet Wilson, William Wells Brown, Charles Chestnutt, and Pauline Hopkins, amongst others. In order to add a new twist to the study of these "classics," however, we will also explore several twentieth-century takes on this time period in order to think about the ways in which the dark days explored in these texts continued to occupy the imagination of a range of American auteurs long after they had supposedly been laid to rest. The history of slavery and Reconstruction, as represented in works from D.W. Griffith's famous 1915 film, *Birth of a Nation*, to William Faulkner's *Absalom, Absalom!*, to Toni Morrison's *Beloved*, maintains a hold on the American memory that, written or rewritten according to the social and political concerns of succeeding eras, cannot be repressed.

Limited to 20 students. Second semester. Professor Schneider.

63. Foundations of African American Literature. The focus of this introduction to African American literature is the complex intertextuality at the heart of the African American literary tradition. Tracing the tradition's major formal and thematic concerns means looking for connections between different kinds of texts: music, art, the written word, and the spoken word—and students who take this class will acquire the critical writing and interpretive skills necessary to any future study of African American literature or culture.

Omitted 2004-05. Professor Parham.

64. Realism and Modernism. A study of the emergence of literary realism and its transformation into the "naturalistic" novels and the experimental fictions of the early twentieth century. Readings from the work of Howells, James, Twain, Crane, Dreiser, Chopin, Chesnutt, Stein, Hemingway, Toomer, Larsen, and Faulkner. Three class hours per week.

First semester. Professor Townsend.

65. Caribbean Literature: Home and Away. (Also Black Studies 31.) Beginning with what constitutes the Caribbean, this course examines representations of the complex and vexed connections between Caribbean nations like Antigua, Barbados, Grenada, Haiti, Jamaica, and Trinidad and such former (and present) political, economic, and cultural colonizers as Canada, France, Great Britain,

and the United States. In addition to examining themes like education, gender ideology, migration, and tourism, we will note the presence of African survivals and the ways literary presentations of the Caribbean have changed over time. Close readings of the writer's language and narrative strategies, and the rhetorical device of intertextuality by which texts "talk" to other texts, will be central to our study. Our reading will be culled from such books as Opal Palmer Adisa's *Bake-Face and Other Guava Stories*, Edwidge Danticat's *Breath, Eyes, Memory*, Jamaica Kincaid's *A Small Place*, George Lamming's *In the Castle of My Skin*, Caryl Phillips' *Cambridge*, Jean Rhys' *Wide Sargasso Sea*, and Derek Walcott's *Sea Grapes*.

Omitted 2004-05. Professor Rushing.

66. Studies in African American Literature. (Also Black Studies 68.) The topic changes each time the course is taught. In fall 2004 the topic will be "Racial Surveillance and the Spectacle of Skin." Moving from some of the earliest representations of the African in America—from early racial science to early race literature—through to present day circulations of the same, in this course we will look at the ways in which the Black body, as cultural text, has come to be both constructed and consumed within the nation's imagination. Covering a variety of canonical writings from African American authors such as Frederick Douglass, W.E.B. Du Bois, Nella Larsen, Zora Neale Hurston, Richard Wright, and Toni Morrison, as well as works by some of their lesser-known contemporaries, we will pair these readings with theoretical and filmic texts that similarly explore the idea of the Black Subject as the at once privileged and disenfranchised object of constant cultural surveillance.

Limited to 20 students. First semester. Professor Schneider.

67. "Past the Last Post": New African Writing. (Also Black Studies 40.) The best known Anglophone African novel is Nigerian Chinua Achebe's masterful *Things Fall Apart* with its depiction of the tragic collision between a "traditional" African society and the political, economic, and cultural colonizing power of Great Britain; a rich and richly varied body of literature belongs to this category. The next generation, represented in works like Ayei Armah's *The Beautiful Ones Are Not Yet Born* from Ghana and Ngugi's *Petals of Blood* from Kenya, presents the problems of postcolonial Africa in a range of styles that includes both social and magical realism. In their various ways, the texts for this course depart from both those traditions and are difficult to subsume under the rubric of postcolonial theory. Our study of *Welcome to Our Hillbrow* by South Africa's Phaswane Mpe, *The Stone Virgins* by Zimbabwe's Yvonne Vera, *Sozaboy: A Novel in Rotten English* by Nigeria's Ken Saro-Wiwa, *Kisalo and His Fruit Garden* by Kenya's David Maillu, and *Maps* by Somalia's Nuruddin Farah will focus on the ways these heirs to earlier African fiction sidestep what African American critic and theorist Barbara Christian called "The Race for Theory," take on language as a central concern, and are both self-reflexive and ludic.

First semester. Professor Rushing.

70. African American Autobiographies: A Survey. (Also Black Studies 26.) See Black Studies 26.

Omitted 2004-05. Professor Rushing.

71. Written in English: An Introduction to Postcolonial Literature. This seminar is an introduction to what is generally known as postcolonial literature—literature written by the inhabitants of countries formerly colonized by other, often European, nations. In spring 2004 we mainly focused on former members of the British Empire, on literary works that, despite originating in very different geographies, nonetheless share a language. Beginning with the idea that texts

written in English can come from many places in the world, we will then look for other kinds of similarities, namely questions of power, identity, and loss. We will also pay particular attention to the kinds of literary and cultural representations of "history and its futures" that are the hallmarks of postcolonial literature. Some of the texts we may encounter this semester include novels like Rhys' *Wide Sargasso Sea* (Dominica), Armah's *The Beautiful Ones are Not Yet Born* (Ghana), and Sidhwa's *Cracking India* (Pakistan); films like Gibson's *Braveheart* (U.S./Scotland) and Law's *The Floating Life* (Hong Kong/Australia); and Friel's short play, *Translations* (Ireland).

Limited to 15 students. Omitted 2004-05. Professor Parham.

72. Readings in American Fiction, 1950-2000. The main writers to be read in this course have been characterized by one unfriendly critic as Phallic Narcissists: Saul Bellow, Norman Mailer, John Updike, Philip Roth. Their work, fiction and non-fiction, will be considered along with that of younger contemporaries such as Robert Stone, Richard Ford, Sue Miller, Nicholson Baker. Three class hours per week.

Not open to first-year students. Omitted 2004-05. Professor Pritchard.

73. "This New Yet Unapproachable America": A Survey of Asian American Writing. Emerson's phrase speaks, as fully now as when he wrote it, to the constant remaking of American literature and culture by the coming together in the United States of many different peoples. It also indicates how integral a part of American literature Asian American writing necessarily is. Only recently, however, have scholars and critics begun to discover and write about Asian American literature. This body of writing is extensive, rich, and diverse. Somewhat problematically, the term "Asian American" gathers under one heading the substantially different histories of people originally from many parts of the continent. The primary aim of the course is to introduce students to the range and abundance and quality of Asian American writing from the poems in Chinese left on the walls at Angel Island to the postmodern stories of Jessica Hagedorn.

Not open to first-year students. Recommended: English 61. Omitted 2004-05. Professor O'Connell.

SEMINARS IN ENGLISH STUDIES. These courses all emphasize independent inquiry, critical and theoretical issues, and extensive writing. They are normally open only to juniors and seniors and limited to 15 students. Preference is given to declared English majors in their junior year, who are strongly advised to elect 75 then and not later. Although this seminar is a requirement for the major, the Department cannot guarantee admission to seniors in their second semester.

The Department offers at least three sections of English 75 each semester. Each instructor will specify appropriate requisites.

75. Seminar in English Studies. Four sections will be offered in the first semester, 2004-05.

01. FORSTER, LAWRENCE, AND WOOLF. A study of the fiction of three important English novelists who flourished in the first decades of the twentieth century. Readings will include *Howard's End* and *A Passage to India* by E.M. Forster, *The Rainbow* and *Women in Love* by D.H. Lawrence, *Mrs. Dalloway* and *To the Lighthouse* by Virginia Woolf. Some attention will be paid as well to stories and essays by these writers and to their relation to the social and literary group known as "Bloomsbury."

Professor Cameron.

02. *FILM NOIR, ITS CONTEXT AND ITS LEGACY.* This seminar will examine the intense period of film production and film stylization in America between 1942-1959 known as the period of *Film Noir*. There will be some survey of the literary and sociological background to *Noir*, but emphasis will be placed on a reading of the films. The innovation in cinematic language, the creation of a specific mood and situations of moral complexity, the ambiguity of the hero and the birth of the *femme fatale*: these are some of the themes that we will consider in determining how these films function both as documents of post-war American culture and as critiques of that culture. Wider questions will be raised about the difference between the art film and the "B" film, the official death of *Film Noir* and the rise of Neo-Noir, European *Noir*, *Noir* on TV. The development of the genre will be studied through works by Wilder, Lewis, Welles, Huston, Fuller, Aldrich, Coppola. Readings will include essays by the French film critics who gave the style its name, works of film criticism, and essays on lighting by a cinematographer of the period.

Professor Duerfahrd.

03. SEMINAR ON ONE WRITER: VLADIMIR NABOKOV. (Also Russian 25.) See Russian 25.

Professor Peterson.

04. SHAKESPEARE. Five plays, to be read slowly in conjunction with a substantial selection of the commentary on them, from Samuel Johnson to Stephen Greenblatt and beyond. The texts may be said to represent the variety of Shakespeare's work over fifteen years: a history play, *Richard II*; three comedies, each generically different from the others: a "romantic" comedy, *Much Ado About Nothing*, a "problem" comedy, *Measure for Measure*, and a "romance," *The Winter's Tale*; and the last of the principal tragedies, *Macbeth*. A long paper on one of these texts and brief ones on the other four. Two class meetings per week. A course in Shakespeare or his contemporaries in the theater or in poetry would be helpful.

Professor Sofield.

75. **Seminar in English Studies.** Four sections will be offered in the second semester, 2004-05.

01. CINEMATIC REALISM. This course will examine the terms realism, the real, and reality in relation to various periods and movements in film history. The political and aesthetic implications of these terms will be investigated to articulate the construction and effects of a realist style, its relation to filmic mediation, narrative, and acting. Particular areas under discussion will include the films of Edison and the Lumières, surrealism, post-war neorealism, cinema vérité, documentary journalism, the snuff film, and more recent trends in international cinema and "reality television."

Professor Duerfahrd.

02. AMERICANS IN PARIS. The story of American writers, artists, and musicians who lived and worked in Paris can be imagined as a drama in two acts. After a prologue in which Henry James imagines Paris as a shimmering contrast to the shabby town of Woelett, Massachusetts, Act I, set in the Twenties, brings Ernest Hemingway, F. Scott Fitzgerald, and Gertrude Stein to center stage. Act II, set in the postwar years, belongs to African American writers: Richard Wright, James Baldwin, and Chester Himes. Although the spotlight is on the writers, there are supporting roles for painters (Gerald Murphy), photographers (Man Ray), dancers (Josephine Baker), and musicians

(Sidney Bechet). There is also a kind of epilogue in which the French present their view of Americans in Paris. Foremost among the questions to be asked is this: how did their experience as “exiles abroad” alter and complicate these Americans’ sense of their national, racial, sexual and professional identities? Three class meetings per week.

Professor Guttman.

03. **EMILY DICKINSON.** “Experience is the Angled Road/Preferred against the Mind/By—Paradox—the Mind itself” Dickinson explained in one poem and in this course we will make use of the resources of the town of Amherst to play experience and mind off each other in our efforts to come to terms with her elusive poetry. The course will meet at the Emily Dickinson Museum, make use of Dickinson manuscripts at the Jones Library and the College archives, and set her work in the context of other nineteenth-century writers including Helen Hunt Jackson, Walt Whitman, Edgar Allan Poe, and Harriet Jacobs. As we explore how Dickinson’s poetry responds to her world we will also ask how it can speak to our present. One major project of the course will be to develop exhibits and activities for the Emily Dickinson Museum that will help visitors engage with her poems. One class meeting per week.

Limited to 12 students. Professor Sánchez-Eppler.

04. **POETRY 1950-2005.** Readings and discussion. The syllabus will include poets from the English-speaking world: Bishop, Lowell, Jarrell, Wilbur, Larkin, Hecht, Merrill, Hill, Clampitt, Walcott, Heaney, and others. The course will conclude with a substantial paper on a book published in 2004 or 2005. Two class meetings per week.

Professor Sofield.

79. **Asian Literature: In Translation.** In this course, we will be looking at some of the brightest talents of the Asian Diaspora from America and abroad while exploring the notion of “translation” as a series of choices on how to represent a culture across traditional linguistic and national boundaries. Readings will include works by ancient Chinese hermit poets, Japanese hipster Haruki Murakami, Nobel laureate Gao Xingjian, Taiwanese novelist and screenwriter Chu T’ien-wen, self-described transnational memoirist Brenda Lin, and performance artist and Vietnamese American novelist lê thi diem thúy. We’ll also examine how some of these writers’ works have translated from the page to the screen, from the stage to the page, and always across cultures. All texts are in English.

Limited to 20 students. First semester. Visiting Writer Chai.

82. **Production Workshop in the Moving Image.** This course will introduce students to media criticism and production. Students will gain experience in basic pre-production, production and post-production techniques and will learn to think about and look critically at the moving image. Course requirements include the completion of two short video assignments and one longer final project. The course will include workshops in videography, writing for the moving image, narration and sound recording, and non-linear editing.

Limited to 15 students. Admission with consent of the instructor. First semester. Five College Professor Hillman.

83. **The Non-Fiction Film.** The study of a range of non-fiction films, including (but not limited to) the “documentary,” ethnographic film, autobiographical film, the film essay. Will include the work of Eisenstein, Vertov, Ivens, Franju, Ophüls, Leacock, Kopple, Gardner, Herzog, Chopra, Citron, Wiseman, Blank,

Apted, Marker, Morris, Joslin, Riggs, McElwee. Two film programs weekly. Readings will focus on issues of representation, of "truth" in documentary, and the ethical issues raised by the films.

Limited to 25 students. Omitted 2004-05. Senior Lecturer von Schmidt.

84. Topics in Film Study. The topic changes each time the course is taught. In fall 2004 the topic will be "The Romance in Film." We will look at the romance and the generic forms it has taken in Hollywood and elsewhere: classical romance, melodrama, screwball comedy, romantic comedy, the musical. How has the screen romance variously reflected and/or shaped our own attitudes? We will look at examples representing a range of cultures and historical eras, from a range of critical positions. Three class hours and two screenings per week.

First semester. Senior Lecturer von Schmidt.

84. Topics in Film Study. The topic changes each time the course is taught. In spring 2005 the topic will be "American Film from 1960 to 1980." It is the period of post-classic Hollywood film, from *Psycho* to *Raging Bull*, a period when, as Pauline Kael said, "movies still mattered." It is also a period when a generation of underground, experimental and avant-garde filmmakers flourished, opening up an alternative cinema in New York, San Francisco and elsewhere. Attention will be paid to the situation of film culture(s) within the artistic, social and political culture at large. Three class hours and two screenings per week.

Requisite: Another film course at the college level. Second semester. Professor Cameron.

85. Proust. A critical reading in English translation of substantial portions of Marcel Proust's great work of fiction and philosophy, *A la Recherche du temps perdu* (known now in the revised Scott-Moncrieff translation as *In Search of Lost Time*). While students will be encouraged to read the whole of the work, class discussion and exercises will concentrate on major sections, mainly from *Swann's Way*, *The Guermites Way*, *Sodom and Gomorrah*, and *Time Regained*. Some attention will be given to other writing by Proust and to the tradition of critical commentary in English on Proust's work and its place as a document of European modernism. Two class meetings per week.

Recommended: prior study in nineteenth- or early twentieth-century English or French novel. Not recommended for first-year students. Omitted 2004-05. Professor Cameron.

86. James Joyce. Readings in *Dubliners*, *A Portrait of the Artist as a Young Man*, *Ulysses*, and some portions of *Finnegans Wake*. Two class meetings per week.

Not open to first-year students. Second semester. Professor Cameron.

TUTORIALS. Independent work under the guidance of a tutor.

87. Senior Tutorial. Open to senior English majors who wish to pursue a self-defined project in reading and writing. Students intending to elect this course must submit to the Department a five-page description and rationale for the proposed independent study by the end of the first week of classes in the first semester of their senior year. Those who propose projects in fiction, verse, playwriting, or autobiography must submit a substantial sample of work in the appropriate mode; students wishing to undertake critical projects must include a tentative bibliography with their proposal.

Admission with consent of the Department. Preregistration is not allowed. First or second semester.

88. Senior Tutorial. A continuation, where appropriate, of English 87. Students intending to continue independent work are required to submit to their tutorial advisor, no later than the first day of classes of the second senior semester, a five-page prospectus describing in detail the shape of the intended project along with a substantial writing sample from the work completed in English 87. If he or she approves, the advisor will forward these materials, along with a recommendation, to the Department.

Admission with consent of the Department. Preregistration is not allowed. First or second semester.

87D, 88D. Senior Tutorial. This form of the regular course in independent work for seniors will be approved only in exceptional circumstances.

First and second semesters.

89. Production Seminar in the Moving Image. The topic changes each time the course is taught. Topic to be named. Description to follow.

Not open to first-year students. Requisite: English 82. Admission with consent of the instructor. (Contact English Department before Registration.) Limited enrollment. Second semester. Five College Professor Hey.

91. The Grammar of English. An examination of the structure and history of English grammar through descriptive and exemplary readings. Students will analyze their own sentences and those of literary and non-literary texts, with special attention to the relationship between syntax and style. Topics will include gender differences in usage, ethnic and regional grammars, comparisons with grammars other than English, and the social uses of prescriptive grammar. Literary selections will be from such writers as Dr. Johnson, James, Hemingway, Dickinson, Faulkner, Hopkins, Baldwin, Gibbon, Stein, and Brooks. Media and popular culture will also provide examples. Two class meetings per week.

Open to juniors and seniors. Non-English majors are welcome. Requisites: One English course numbered 01 through 19 and one upper-level English course; exceptions by consent of the instructors. First semester. Professors Barale and Chickering.

92. Photography and the Photographic. This course surveys the history of photography: its origins, movements, styles, and artist figures. We will explore the range of personal and political purposes of the photograph in documentary, crime scenes, medicine, legal identity, portraiture, war reportage, aerial surveillance, colonization, pornography, journalism, and advertisement. Particular attention will be given to the work of Atget, Nadar, Anonymous, Weegee, Cartier-Bresson, Stieglitz, Frank, Winogrand, Kruger, Arbus, and Mapplethorpe. Periods under examination include the New Realism, the Photo-Secession, Surrealism, Postmodernism, and the Direct Style. The specific goal of the class will be for students to discover a way to relate to photographs and to develop ways of speaking and writing about them. Works by Sontag, Benjamin, Barthes, and writings by the photographers will help us learn to understand the photographic moment in an analytical and creative fashion. The more general ambition of the class will be to explore questions of evidence, blur, focus, the caption, memory and nostalgia. We will raise these issues through our investigation of both the evolution of photography and of other media in which the photographic effect is readable: in painting (the photo-realists, Warhol and Richter), film (Antonioni, Marker, and Farrow), and literature (Sebald and Breton).

Second semester. Professor Duerfahrd.

97, 98. Special Topics. Independent Reading Courses.

First and second semesters. The Department.

99. Caribbean Poetry: The Anglophone Tradition. (Also Black Studies 37.)

A survey of the work of Anglophone Caribbean poets, alongside readings about the political, cultural and aesthetic traditions that have influenced their work. Readings will include longer cycles of poems by Derek Walcott and Edward Kamau Brathwaite; dialect and neoclassical poetry from the colonial period, as well as more recent poetry by women writers and performance ("dub") poets.

Omitted 2004-05. Professor Cobham-Sander.

EUROPEAN STUDIES

Advisory Committee: Professors Barbezat, Bezucha, Brandest†, Caplan, Cheyette, Chickering, Courtright*, Czap, Damon, de la Carrera, Doran, Griffiths, Hewitt, Hunt, Machala‡, Maraniss, Marx, Mehta, Rabinowitz, Rockwell‡, Rogowski, Rosbottom (Chair), Sinos, Stavans, and Tiersky; Associate Professor Staller; Assistant Professors Epstein, Gilpin, Katsaros, Rossi, and Schneider; Senior Lecturer Schütz.

European Studies is a major program which provides opportunity for interdisciplinary study of European culture. Through integrated work in the humanities and social sciences, the major examines a significant portion of the European experience and seeks to define those elements that have given European culture its unity and distinctiveness.

Major Program. The core of the major consists of six courses that will examine a significant portion of European civilization through a variety of disciplines. Comparative literary studies, interdisciplinary work in history, sociology, philosophy, political science or economics involving one or more European countries are possible approaches to the major. The student will select the six core courses in consultation with the Chair and an appropriate advisory subcommittee of the Program. Of these six courses, two will be independent research and writing during the senior year, leading to the presentation of a thesis in the final semester. In one of the final two semesters the major may designate the research and writing course as a double course (European Studies 77D or 78D), in which case the total number of courses required to complete the major becomes seven. In addition, a major will take European Studies 21 and

*On leave 2004-05.

†On leave first semester 2004-05.

‡On leave second semester 2004-05.

22 during the sophomore year or as soon as he or she elects a European Studies major.

Save in exceptional circumstances, a major will spend at least one semester of the junior year pursuing an approved course of study in Europe. Upon return, the student will ordinarily elect, in consultation with the advisory subcommittee, at least one course that helps integrate the European experience into the European Studies major. During the second semester of the senior year he or she will give an oral presentation to faculty and students in the Program of his or her independent research and writing in progress. Because of the self-designed nature of the European Studies program, the thesis plays a major role in integrating the student's work in the program. Superior achievement in the thesis project will be considered for recommendation for the degree with Departmental Honors.

A major is expected to be able to read creative and scholarly literature in at least one foreign language appropriate to his or her program.

When designing his or her course schedule, a major should consult regularly with the advisory subcommittee and should give careful study to the offerings of humanities and social science departments at Amherst and the other Valley colleges.

14. Napoleon's Legends. Napoleon Bonaparte's legacy in domestic and international politics and military strategy profoundly influenced nineteenth- and twentieth-century Europe. But so did his legend, created before his great defeat and exile, and nurtured after his death in 1821. In this course, we will study painting (e.g., David and Goya), narrative fiction (e.g., Balzac, Stendhal, and Tolstoy), poetry (e.g., Wordsworth and Hugo), music (e.g., Beethoven), urban history and architecture (e.g., of Paris), and the silent and sound films of the first half of our century (e.g., Gance). We will examine how different generations and a variety of cultures appropriated the imagined and real image of Napoleon and his deeds for social, political, and artistic ends, and thereby influenced the creation of modern Europe. Two class meetings per week.

Limited to 25 students. Omitted 2004-05. Professor Rosbottom.

21. Readings in the European Tradition I. Readings and discussion of a series of related texts from Homer and Genesis to Dante: Homer's *Iliad* and *Odyssey*, selected Greek tragedies, selected dialogues of Plato, Virgil's *Aeneid*, selections from the *Bible*, Augustine's *Confessions*, and Dante's *Divine Comedy*. Three class meetings per week.

Open not only to European Studies majors but also to any student interested in the intellectual and literary development of the West, from antiquity through the Middle Ages. Required of European Studies majors. Limited to 25 students. First semester. Professor Doran.

22. Readings in the European Tradition II. Reading and discussion of writings and art that have contributed in important ways to the definition of the European imagination. Previous readings have included Cervantes' *Don Quixote*, plays of Shakespeare, Montaigne's *Essays*, Racine's *Phaedra*, Molière's *Tartuffe*, Descartes' *Discourse on Method*, Rousseau's *Discourse on the Origin of Inequality*, Voltaire's *Candide*, selected poems of Wordsworth, Marx's *Communist Manifesto*, Flaubert's *Madame Bovary*, Tolstoy's *War and Peace*, Thomas Mann's *Death in Venice*, and others. Open not only to European Studies majors but also to any student interested in the intellectual and literary development of Europe from the Renaissance to the twenty-first century. Two class meetings per week.

Suggested requisite: European Studies 21. Required for European Studies majors. Second semester. Professor Rosbottom.

24. Poetic Translation. This is a workshop in translating poetry into English from another European language, preferably but not necessarily a Germanic or Romance language (including Latin, of course), whose aim is to produce good poems in English. Students will present first and subsequent drafts to the entire class for regular analysis, which will be fed by reference to readings in translation theory and contemporary translations from European languages. Two class meetings per week.

Limited to 12 students. Second semester. Professor Maraniss.

26. Medea: Metamorphoses of a Myth. (Also Women and Gender Studies 14.) Beginning with Euripides' tragedy Medea has continued to occupy the European mind mainly in dramatic treatments by male authors (Seneca, Corneille, Grillparzer, Anouilh, and Heiner Müller). As multiple "outsider"—woman, foreigner, sorceress, demi-goddess, abandoned wife—Medea embodies "otherness" in manifold ways: she is the representative of the conflict between barbarism and civilization, between the supernatural and the natural, the magical and the commonsensical, madness and reason. Recently, women authors like Christa Wolf have entered the debate, aiming to reclaim Medea as one of the repressed voices of femininity. Our approach will be interdisciplinary in nature: in addition to reading dramatic texts and background material, we will explore the transformations of the Medea myth in the European tradition in the fine arts (Vanloo, Delacroix, Anselm Feuerbach), in dance (Martha Graham, the Bolshoi Ballet), sample the operas of Cherubini and Charpentier, and view the films by Pasolini, Ula Stöckl, and Lars von Trier, as well as a priceless B-movie masterpiece, Don Chaffey's *Jason and the Argonauts*.

Readings will be in English. Students who know any of the foreign languages represented are encouraged to read the material in the original.

Limited to 25 students. Second semester. Professor Rogowski.

27. Isaac Bashevis Singer. A survey of the life and work of the Yiddish writer. The course will place Singer's work against the tapestry of its time, from his religious upbringing in pre-WWI Poland to his apprenticeship as a journalist and translator in the 1930s, his debut novel, *Satan in Goray*, his immigration to the United States, and his subsequent transformation into an American icon. Students will explore Singer's vast oeuvre, focusing especially on his stories. His theater and film experiments, as well as his stories for children, will also be explored. Singer's contribution will be analyzed in the context of Yiddish, Jewish, European, and American literatures. Taught in English.

First semester. Professor Stavans.

28. Jewish Hispanic Relations. (Also Spanish 51.) See Spanish 51.
Omitted 2004-05. Professor Stavans.

31. Art and Desire in 18th-Century European Culture. (Also Fine Arts 89.) See Fine Arts 89.

Omitted 2004-05. Professors Courtright and Rosbottom.

32. Sephardic Literature. (Also Spanish 34.) See Spanish 34.
Second semester. Professor Stavans.

35. Culture and Politics in 20th-Century Europe. (Also Political Science 72.) See Political Science 72.

Second semester. Professor Tiersky.

36. Dangerous Reading: The 18th-Century Novel in England and France. (Also English 48 and French 62.) Why was reading novels considered dangerous in the eighteenth century, especially for young girls?

This course will examine the development, during this period, of the genre of the novel in England and France, in relation to the social and moral dangers it posed and portrayed. Along with the troublesome question of reading fiction itself, we will explore such issues as social class and bastardy, sexuality and self-awareness, the competing values of genealogy and character, and the important role of women—as novelists, readers, and characters—in negotiating these questions. We will examine why the novel was itself considered a bastard genre, and engage formal questions by studying various kinds of novels: picaresque, epistolary, gothic, as well as the novel of ideas. Our approach will combine close textual analysis with historical readings about these two intertwined, yet rival, cultures, and we will pair novels in order to foreground how these cultures may have taken on similar social or representational problems in different ways. Possible pairings might include Prévost and Defoe, Laclos and Richardson, Voltaire and Fielding, Sade and Ann Radcliffe. French novels will be read in translation. Two class meetings per week.

Second semester. Professors Frank and Rosbottom.

77, 77D, 78, 78D. Senior Departmental Honors.

97, 98. Special Topics.

Second semester. Professor Gilpin.

Digital Cultures. See German 61.

Omitted 2004-05.

Contemporary Issues: The Body. See German 62.

Omitted 2004-05.

Traumatic Events. See German 63.

First semester. Professor Gilpin.

For other related courses, see the offerings in European areas in the Departments of Classics, Economics, English, Fine Arts, French, German, History, Music, Philosophy, Political Science, Religion, and Spanish.

FILM AND VIDEO ARTS

The study of Film and Video Arts examines the history, theory, and practice of the moving image. The field of Film and Video Arts has emerged in recent decades as a distinct area of serious academic study coming from broadly interdisciplinary perspectives, and at Amherst College this area of study is coordinated interdepartmentally. Although there is no formal department, nor is there a major, faculty from numerous departments across the college regularly offer courses in Film and Video Arts. An historical approach to film and video considers the development of international cinema from the silent era to its transformation in video and its future in digital culture. A theoretical approach reflects on the way conceptions of identity, aesthetics, subjectivity, and ontology may be shaped by cinema and video. These approaches engage discussions in such disciplines as philosophy, social and literary theory, area studies, language study, visual culture, theater and dance, anthropology, and gender studies. The practice of constructing moving images in film and video includes considerations of narrative, non-narrative and experimental structures, camera motion, editing techniques, sound design, mise-en-scene, and digital technologies. The issues of composition and aesthetics that underlie film and video practice illuminate in crucial ways many concerns that also emerge from historical or theoretical discussions of the moving image.

Students who participate in courses in Film and Video Arts find that this field is in active dialogue with different aspects of a liberal arts curriculum. Coursework in Film and Video Arts challenges and transforms the way students regard and react to the moving image beyond its most popular and widely circulated forms. The courses usually involve regular screenings outside of the scheduled class time, plus substantial reading and/or composition assignments. Some courses contain a strong component of film or video study in relation to other kinds of primary texts.

The course offerings for 2004-05 include the following courses:

2004

Responding to Film. See English 01, section 05.

First semester. Professor Cameron.

Introduction to the Study of Film. See English 20.

First semester. Visiting Professor Duerfahrd.

Film Noir, Its Context and Its Legacy. See English 75, section 02.

First semester. Visiting Professor Duerfahrd.

Production Workshop in the Moving Image. See English 82.

First semester. Five College Professor Hillman.

Topics in Film Study. See English 84.

First semester. Senior Lecturer von Schmidt.

2005

The Supernatural in Japanese Fiction, Film and Animation. See Asian 42.

Second semester. Professor Caddeau.

Film and Writing. See English 19.

Second semester. Senior Lecturer von Schmidt.

Cinematic Realism. See English 75, section 01.

Second semester. Visiting Professor Duerfahrd.

Topics in Film Study. See English 84.

Second semester. Professor Cameron.

Production Seminar in the Moving Image. See English 89.

Second semester. Five College Professor Hey.

Photography and the Photographic. See English 92.

Second semester. Visiting Professor Duerfahrd.

Readings, Art and Cinema in the European Tradition II. See European Studies 22.

Second semester. Professor Rosbottom.

European Film. See French 61.

Second semester. Professor Caplan.

Weimar Cinema: The "Golden Age" of German Film. See German 47.

Second semester. Professor Rogowski.

Performance. See German 60.

Second semester. Professor Gilpin.

Russian and Soviet Film. See Russian 29.

Second semester. Professor J. Taubman.

Video and Performance. (Advanced Production.) See Theater and Dance 50.

Second semester. Professor Woodson.

FINE ARTS

Professors Abiodun (Chair), Clark, Courtright*, Keller, Morse, R. Sweeney, and Upton; Associate Professor Staller; Visiting Artist-in-Residence; Visiting Assistant Professors Garand and Kimball; Visiting Lecturer Gloman.

Introduction to the Department. Courses which introduce a student to the Department include, in the practice of art, Fine Arts 2—*Practice of Art*; and Fine Arts 4—*Basic Drawing*; and in the history of art, Fine Arts 1—*Introduction to the History of Western Art*; Fine Arts 32—*Art and Architecture of Europe from 300 to 1500 C.E.*, Fine Arts 35—*Art and Architecture of Europe from 1400-1800*, Fine Arts 37—*American Art and Architecture, 1600-Present*; Fine Arts 45—*The Modern World*; Fine Arts 47—*Arts of China*; Fine Arts 48—*Arts of Japan*; Fine Arts 49—*Survey of African Art*.

Major Program. The Fine Arts major offers the broadest possible means for developing a student's historical understanding, practical skills, and critical faculties with regard to the visual arts and their values in society. Although this objective may be accomplished either with emphasis upon work in art history and criticism or the practice of art, the major program is designed to identify and serve each student's personal interests and capacities through an integrated engagement in the Fine Arts.

Course Requirements. A major will consist of a minimum of ten courses in Fine Arts of which at least three will be taken in the history of art and three in the

*On leave 2004-05.

practice of art. Fine Arts 2, Practice of Art, is required; however, majors who take Painting I, Sculpture I and Basic Drawing will be exempt from Fine Arts 2. Majors must take at least one of the following introductory courses in the history of art: Fine Arts 32—*Art and Architecture of Europe from 300 to 1500 C.E.*; Fine Arts 35—*Art and Architecture of Europe from 1400 to 1800*; Fine Arts 37—*American Art and Architecture, 1600 to Present*; Fine Arts 45—*The Modern World*; Fine Arts 47—*Arts of China*; Fine Arts 48—*Arts of Japan*; Fine Arts 49—*Survey of African Art*. With departmental permission, majors may elect a Fine Arts 97-98 program of individual work; likewise, a limited number of courses in other departments of Amherst College or neighboring institutions may be accepted as partial fulfillment of the major program.

Both majors and non-majors should be aware that numerous courses in other departments of the College offer serious opportunities for them to complement their work in Fine Arts. Though not necessarily counting toward the major, such courses range from topics as obviously relevant as aesthetics, religion, history and the other arts to such perhaps less apparent studies as anthropology, geology, and the history of economics and science. Departmental advisors will assist students in their course selection so as to maximize the possibilities represented by such collateral study.

Students who are thinking of graduate work either in the practice of art (including architecture, conservation, etc.) or in art history, should try to identify that interest as early as possible so that they may take advantage of departmental counsel regarding such preparation as may be necessary (e.g., GRE's, portfolios, foreign language skills, science background). The department faculty is also, of course, happy to discuss career options and prospects with both majors and general students.

Course Levels in the Department of Fine Arts. The Fine Arts curriculum is designed to direct students through studio and history of art courses at increasing levels of complexity. Introductory level courses assume no previous experience.

Departmental Honors Program. Candidates for Honors will, with departmental permission, take Fine Arts 77-78 during their senior year. Fine Arts 77-78 will be counted towards the ten-course requirement for the major.

INTRODUCTION TO THE FINE ARTS

01. Introduction to the History of Western Art. An introduction to works of art as the embodiment of cultural, social and political values from ancient civilizations to the present. Students will analyze a selected number of paintings, sculptures, and buildings from a broad range of perspectives. Two lectures per week.

Limited to 80 students. First semester. Professor Staller.

PRACTICE OF ART: INTRODUCTORY COURSES

02. Practice of Art. An introduction to some of the ways artists have tried to model themselves, nature and the world around them and an exploration of related studio practices. We will investigate elements of perspective, line, and value; color construction; issues of pictorial space such as illusion versus a two-dimensional organization of the picture plane; realism and abstraction; the figure as subject; the implications of photography; the evolution of three-dimensional form, techniques and materials; formal versus conceptual art; art as a critical activity; the role of artistic practice in our culture. Examples will be drawn from disciplines other than artistic, forms other than art, and cultures different from our

own. Class time will be spent in lecture, demonstration, exercises, discussion and critique. There will be weekly out-of-class assignments. Two two-hour class sessions per week.

No prior studio experience required. Not open to students who have taken Fine Arts 04 or 15. Limited to 40 students. Second semester. Professor Garand.

04. Basic Drawing. An introductory course in the fundamentals of drawing. The class will be based in experience and observation, exploring various techniques and media in order to understand the basic formal vocabularies and conceptual issues in drawing; subject matter will include still life, landscape, interior, and figure. Weekly assignments, weekly critiques, final portfolio. Two three-hour sessions per week.

Each section limited to 20 students. First semester: Section 01, Lecturer Gloman; Section 02, Professor Keller. Second semester: Section 01, Lecturer Gloman.

PRACTICE OF ART: MIDDLE-LEVEL STUDIO COURSES

13. Printmaking I. An introduction to intaglio (metal plate) printmaking that introduces the student to drypoint, engraving, and a variety of etching processes. Particular attention will be paid to the interrelationship between the repeatable nature of prints and the unique character of drawings and the notion of printmaking as an extension and codification of drawing procedures. Regular class discussions and critiques will be held.

Requisite: Fine Arts 02 or 04, or consent of the instructor. Limited to 12 students. First semester. Professor Garand.

14. Sculpture I. An introduction to the practice of sculpture in a contemporary and historical context. A series of directed projects will address various material and technical processes such as construction, modeling, casting, carving, and welding. Other projects will focus primarily on conceptual and critical strategies over material concerns. By the end of the course, students will have developed a strong understanding of basic principles of contemporary sculpture and have acquired basic skills and knowledge of materials and techniques. Further, students will be expected to have formed an awareness of conceptual and critical issues in current sculptural practice, establishing a foundation for continued training and self-directed work in sculpture and other artistic disciplines. Two three-hour class meetings per week.

Requisite: Fine Arts 02 or 04, or consent of the instructor. Limited to 18 students. First and second semesters. Professor Keller.

15. Painting I. An introduction to the fundamentals of the pictorial organization of painting. Form, space, color and pattern, abstracted from nature, are explored through the discipline of drawing by means of paint manipulation. Slide lectures, demonstrations, individual and group critiques are regular components of the studio sessions. Two three-hour meetings per week.

Requisite: Fine Arts 02 or 04, or consent of the instructor. Limited to 18 students. First semester. Professor Sweeney and Lecturer Gloman.

18. Photography I. An introduction to black-and-white still photography. The basic elements of photographic technique will be taught as a means to explore both general pictorial structure and photography's own unique visual language. Emphasis will be centered less on technical concerns and more on investigating how images can become vessels for both ideas and deeply human emotions. Weekly assignments, weekly critiques, readings, and slide lectures about the work of artist-photographers, one short paper, and a final

portfolio involving an independent project of choice. Two three-hour meetings per week.

Requisite: Fine Arts 02 or 04, or consent of the instructor. Limited to 12 students. First and second semesters. Professor Kimball.

PRACTICE OF ART: UPPER-LEVEL STUDIO COURSES

22. Drawing II. A course appropriate for students with prior experience in basic principles of visual organization, who wish to investigate further aspects of pictorial construction using the figure as a primary measure for class work. The course will specifically involve an anatomical approach to the drawing of the human figure, involving slides, some reading, and out-of-class drawing assignments. Two two-hour meetings per week.

Requisite: Fine Arts 02 or 04, or consent of the instructor. Limited to 18 students. First semester. Professor Sweeney.

24. Sculpture II. A studio course that investigates more advanced techniques and concepts in sculpture leading to individual exploration and development. Projects cover figurative and abstract problems based on both traditional themes and contemporary developments in sculpture, including: clay modeling, carving, wood and steel fabrication, casting, and mixed-media construction. Weekly in-class discussion and critiques will be held. Two two-hour class meetings per week.

Requisite: Fine Arts 14 or consent of the instructor. Limited to 12 students. Second semester. Professor Keller.

25. Color Photography. This course is an exploration of the materials, processes, techniques, and aesthetics of color photography. It is designed for those who already possess a strong conceptual and technical foundation in black-and-white photography. An emphasis is placed on students' ability to express themselves clearly with the medium. Concepts and theories are read, discussed, demonstrated and applied through a series of visual problems. This course offers the opportunity for each student to design and work on an individual project for an extended period of time. This project will result in a final portfolio that reflects the possibilities of visual language as it relates to each student's ideas, influences and personal vision. Students may work with 35mm, medium format, or U5 cameras. Student work will be discussed and evaluated in both group and individual critiques, complemented by slide presentations and topical readings of contemporary and historical photography. Two two-hour class meetings per week.

Requisite: Fine Arts 02 or 04, and Fine Arts 28 or consent of the instructor. Limited to 8 students. First semester. Professor Kimball.

26. Painting II. This course offers students knowledgeable in the basic principles and skills of painting and drawing an opportunity to investigate personal directions in painting. Assignments will be collectively as well as individually directed. Discussions of the course work will assume the form of group as well as individual critiques. Two three-hour class meetings per week.

Requisite: Fine Arts 15 or consent of the instructor. Limited to 18 students. Second semester. Professor Sweeney.

27. Printmaking II. This course is an extension of intaglio processes introduced in Fine Arts 13, with the addition of more complex procedures such as multiple plate printing and color printing. Special emphasis will be placed upon the idea of layering and overlap as a graphic procedure central to printmaking and an

important component in the creation of form in prints. Students will also be introduced to relief printing and monoprints. There will be weekly critiques and discussions.

Requisite: Fine Arts 13 or consent of the instructor. Limited to 12 students. Second semester. Professor Garand.

28. Photography II. A continuing investigation of the skills and questions introduced in Fine Arts 18. Advanced technical material will be introduced, but emphasis will be placed on locating and pursuing engaging directions for independent work. Weekly critiques, readings, and slide lectures about the work of artist-photographers, one short paper, and a final portfolio involving an independent project of choice.

Requisite: Fine Arts 18 or consent of the instructor. Limited to 12 students. Second semester. Professor Kimball.

29. Advanced Drawing. A drawing course that will emphasize compositional issues by working from memory, imagination, other works of art, and life. Students are required to develop and explore individual directions in pictorial construction. Course work consists of slide lectures, readings, individual and group critiques, in-class drawing experiments and sustained out-of-class drawing projects. Four hours per week.

Requisite: Fine Arts 04 or 15 or equivalent. Limited to 8 students. Second semester. Professor Sweeney.

HISTORY OF ART: INTRODUCTORY COURSES

32. Art and Architecture of Europe from 300 to 1500 C.E. By learning how specifically to encounter the transcendent symbolism of the catacombs of Rome, the devotional intensity of monastic book illumination, the grandeur and vision of the first basilica of St. Peter, the Byzantine church of Hagia Sophia, and selected monasteries and cathedrals of France, we will trace the artistic realization of the spiritual idea of Jewish and Christian history from the transformation of the Roman Empire in the fourth century C.E. to the apocalyptic year of 1500 C.E. Several prophetic masterpieces by Albrecht Dürer, Leonardo da Vinci and Michelangelo Buonarroti completed on the very eve of the modern world will reveal a profound "forgotten awareness" crucial to our collective and private well being but long obscured by the "renaissance" bias that called this period "medieval." Two class meetings per week.

Second semester. Professor Upton.

35. Art and Architecture of Europe from 1400 to 1800. This course is an introduction to painting, sculpture, and architecture of the early modern period. The goal of the course is to identify artistic innovations that characterize European art from the Renaissance to the French Revolution, and to situate the works of art historically, by examining the intellectual, political, religious, and social currents that contributed to their creation. In addition to tracing stylistic change within the oeuvre of individual artists and understanding its meaning, we will investigate the varied character of art, its interpretation, and its context in different regions, including Italy, France, Spain, Germany and the Netherlands.

Omitted 2004-05. Professor Courtright.

37. American Art and Architecture, 1600 to Present. Through the study of form, content, and context (and the relationship among these categories) of

selected works of painting, architecture, and sculpture made in colonial America and the United States from the seventeenth to the twentieth century, this course will probe changing American social and cultural values embodied in art. We will study individual artists as well as thematic issues, with particular attention to the production and reception of art in a developing nation, the transformation of European architectural styles into a new environment, the construction of race in ante- and post-bellum America, and the identification of an abstract style of art with the political ascendance of the United States after World War II. Introductory level.

Second semester. Professor Clark.

45. The Modern World. This course will explore the self-conscious invention of modernism in painting, sculpture and architecture, from the visual clarion calls of the French Revolution to the performance art and earthworks of "art now." As we move from Goya, David, Monet and Picasso to Kahlo, Kiefer and beyond, we will be attentive to changing responses toward a historical past or societal present, the stance toward popular and alien cultures, the radical redefinition of all artistic media, changing representations of nature and gender, as well as the larger problem of mythologies and meaning in the modern period. Study of original objects and a range of primary texts (artists' letters, diaries, manifestos, contemporary criticism) will be enhanced with readings from recent historical and theoretical secondary sources. Two lectures per week.

Second semester. Professor Staller.

47. Arts of China. (Also Asian 43.) An introduction to the history of Chinese art from its beginnings in neolithic times until the start of the eighteenth century. Topics will include the ritual bronze vessels of the Shang and Zhou dynasties, the Chinese transformation of the Buddha image, imperial patronage of painting during the Song dynasty and the development of the literati tradition of painting and calligraphy. Particular weight will be given to understanding the cultural context of Chinese art.

Second semester. Professor Morse.

48. Arts of Japan. (Also Asian 23.) A survey of the history of Japanese art from neolithic times to the present. Topics will include Buddhist art and its ritual context, the aristocratic arts of the Heian court, monochromatic ink painting and the arts related to the Zen sect, the prints and paintings of the Floating World and contemporary artists and designers such as Ando Tadao and Miyake Issey. The class will focus on the ways Japan adopts and adapts foreign cultural traditions. There will be field trips to look at works in museums and private collections in the region.

First semester. Professor Morse.

49. Survey of African Art. (Also Black Studies 46.) An introduction to the ancient and traditional arts of Africa. Special attention will be given to the archaeological importance of the rock art paintings found in such disparate areas as the Sahara and South Africa, achievements in the architectural and sculptural art in clay of the early people in the area now called Zimbabwe and the aesthetic qualities of the terracotta and bronze sculptures of the Nok, Igbo-Ukwe, Ife and Benin cultures in West Africa, which date from the second century B.C.E. to the sixteenth century C.E. The study will also pursue a general socio-cultural survey of traditional arts of the major ethnic groups of Africa.

Second semester. Professor Abiodun.

HISTORY OF ART: UPPER-LEVEL COURSES

50. The Monastic Challenge. A search for spiritual efficacy in the art and architecture of France during the twelfth and thirteenth centuries. First, by learning how to recognize, define and respond to the artistic values at work in a series of "romanesque" and "gothic" monuments including the Abbeys of Fontenay, Vézelay and Mt. St. Michel and the Cathedrals of Laon, Paris, Chartres, Amiens and Reims, we will try to engage directly (e.g., architecturally and spatially) the human aspiration these structures embody. Secondly, with the help of two literary masterpieces from the period, the *Song of Roland* and *Tristan and Isolde*, we will discover that the heart of the "monastic" challenge to our own era is *not* the traditional opposition of the medieval and modern worlds, but rather the recognition of the potential diminishment of art by an exclusively "scholastic" view of reality. The tragic affair of Eloise and Abélard will dramatize a central dilemma too easily forgotten that always (but especially in our own era) threatens art, love and spirituality. Two class meetings per week.

Requisite: One course in Fine Arts or consent of the instructor. First semester. Professor Upton.

51. Renaissance Art in Italy. This course treats painting, sculpture, and architecture of the art historical periods known as the Early and High Renaissance, Mannerism, and the Counter Reformation. It will dwell upon works by artists such as Giotto, Donatello, Botticelli, Leonardo, Raphael, Bramante, Michelangelo, and Titian in the urban centers of Florence, Rome, and Venice, art produced for patrons ranging from Florentine merchants and monks to Roman princes and pontiffs. The art itself—portraits, tombs, altarpieces, cycles of imagined scenes from history, palaces, churches, civic monuments—ranges from gravely restrained and intentionally simple to monumental, fantastically complex or blindingly splendid, and the artists themselves range from skilled artisans to ever more sought-after geniuses. Emphasis will be upon the way the form and content of each type of art conveyed ideas concerning creativity, originality, and individuality, but also expressed ideals of devotion and civic virtue; how artists dealt with the revived legacy of antiquity to develop an original visual language; how art imparted the values of its patrons and society, but also sometimes conflicted with them; and how art and attitudes towards it changed over time. Rather than taking the form of a survey, this course, based on lectures but regularly incorporating discussion, will examine in depth selected works, and will analyze contemporary attitudes toward art of this period through study of the art and the primary sources concerning it. Upper level.

Requisite: One other art history course or consent of the instructor. Omitted 2004-05. Professor Courtright.

52. Art, Culture and Society in the Italian Renaissance. (Also History 27.) See History 27.

Omitted 2004-05.

53. Dutch and Flemish Painting (The "Art" of "Beholding"). This course means to ask the question: What would it be like actually to respond to the paintings of Jan van Eyck, Roger van der Weyden, Hugo van der Goes, Hieronymous Bosch, Pieter Bruegel, Jan Vermeer and Rembrandt van Rijn and to reclaim in such a direct encounter the rejuvenating powers of insight and wisdom residing within the work of art itself. In addition to reaffirming the practice of pictorial contemplation for its own sake, "Dutch and Flemish Painting" will provide

explicit instruction in the means and attitude of beholding complex works of art. Two class meetings per week.

Second semester. Professor Upton.

56. Baroque Art in Italy, France, Spain, and the Spanish Netherlands. After the canonization of the notion of artistic genius in the Italian Renaissance and the subsequent imaginative license of artists known as Mannerists, phenomena sponsored throughout Europe by the largesse of merchants, courtiers, aristocrats, princes, and Churchmen alike, a crisis occurred in European society—and art—in the second half of the sixteenth century. Overturned dogmas of faith, accompanied by scientific discoveries and brutal political changes, brought about the reconsideration of fundamental values that had undergirded many facets of life and society in Europe at the beginning of the seventeenth century, the starting point of this course. Unexpectedly, these upheavals led to a renewed proliferation of innovative art. In this century of remarkably varied artistic production, paradoxes abounded. Some artists sought the illusion of reality by imitating unimproved, even base nature through close observation of the human body, of landscape, and of ordinary, humble objects of daily use, as others continued to quest for perfection in a return to the lofty principles implicit in ancient artistic canons of ideality. More than ever before, artists explored the expression of passion through dramatic narratives and sharply revealing portraiture, but, famously, artists also imbued art meant to inspire religious devotion with unbounded eroticism or with the gory details of painful suffering and hideous death. They depicted dominating political leaders as flawed mortals—even satirized them through the new art of caricature—at the same time that they developed a potent and persuasive vocabulary for the expression of the rulers' absolutist political power. This class, based on lectures but regularly incorporating discussion, will examine in depth selected works of painting, sculpture, and architecture produced by artists in the countries which remained Catholic after the religious discords of this period—e.g., Caravaggio, Bernini, Poussin, Velázquez, and Rubens in Italy, France, Spain, and the Spanish Netherlands—as well as engaging the cultural, social, and intellectual framework for their accomplishments. Upper level.

Requisite: One other course in art history or consent of the instructor. Limited to 30 students. Omitted 2004-05. Professor Courtright.

57. American Painting 1860-1940. This course considers selected American paintings in the period between the Civil War and World War II, with emphasis on their intertwining with a wider cultural, social, and political environment. Individual artists (Winslow Homer, Thomas Eakins, Marsden Hartley, Georgia O'Keeffe, Grant Wood, Jacob Lawrence) and groups (around Robert Henri, Louise and Walter Arensberg, Alfred Stieglitz) will frame our study. Readings will address current interpretative strategies in American art criticism, and students will have an opportunity to pursue independent research.

Requisite: One course in art history or consent of the instructor. Omitted 2004-05. Professor Clark.

58. The Modern Icon. In 1834 the Inquisition finally ended in Spain; throughout the century, Spain and France witnessed anti-clerical demonstrations and legislation; Marx branded religion "the opiate of the masses"; Nietzsche thundered "God is dead." As a cascade of scientific discoveries challenged belief, many avant-garde artists believed that the old symbols were exhausted, and that the old form of religious art (the Crucifixion and so on) was no longer viable. And yet, throughout the 19th, 20th and into the first glimmerings of the 21st century,

artists have felt compelled to give form to spiritual ideas. Sometimes their ideas related to traditional faiths, often they were more idiosyncratic, more personal—inflected, say, by the cult of “art for art,” or theosophy, or a revolutionary ideology searching for martyrs, or by a dream of abstraction that would purge every last taint of the phenomenal world. This course will explore such varied conceptions of spirituality, and the complex status of religions during a self-consciously modern age through the prism of works (pictorial and often verbal) by Goya, David, Friedrich, Van Gogh, Gauguin, Picasso, Matisse, Mondrian, Kandinsky, Malevich, Dalí, Kahlo, Álvarez Bravo, Newman, Muñoz, and Turrell.

Requisite: One course in modern art or consent of the instructor. Omitted 2004-05. Professor Staller.

61. Approaches to Chinese Painting. (Also Asian 44.) A survey of the Chinese pictorial tradition from the Northern Song to the Qing dynasties, focusing in particular on the development of the landscape idiom but considering bird and flower painting and the narrative tradition as well. The course will explore the differences between Western methodological approaches to Chinese painting and the theories of painting developed by the Chinese themselves. There will be field trips to look at works in major museum collections in New England and New York.

Omitted 2004-05. Professor Morse.

66. Sacred Images and Sacred Space: The Visual Culture of Religion in Japan. (Also Asian 61s.) An interdisciplinary study of the visual culture of the Buddhist and Shinto religious traditions in Japan. The class will examine in depth a number of Japan's most important sacred places, including Ise Shrine, Tōdaiji, Daitokuji and Mount Fuji, and will also look at the way contemporary architects such as Andō Tadao and Takamatsu Shin have attempted to create new sacred places in Japan today. Particular emphasis will be placed on the ways by which the Japanese have given distinctive form to their religious beliefs through architecture, painting and sculpture, and the ways these objects have been used in religious ritual.

Omitted 2004-05. Professor Morse.

70. African Art and the Diaspora. (Also Black Studies 45.) The course of study will examine those African cultures and their arts that have survived and shaped the aesthetic, philosophic and religious patterns of African descendants in Brazil, Cuba, Haiti and urban centers in North America. We shall explore the modes of transmission of African artistry to the West and examine the significance of the preservation and transformation of artistic forms from the period of slavery to our own day. Through the use of films, slides and objects, we shall explore the depth and diversity of this vital artistic heritage of Afro-Americans.

First semester. Professor Abiodun.

SPECIAL COURSES

80. Museums and Society. This course considers how art museums reveal the social and cultural ideologies of those who build, pay for, work in, and visit them. We will study the ways in which art history is (and has been) constructed by museum acquisitions, exhibitions, and installation and the ways in which museums are constructed by art history by looking at the world-wide boom in museum architecture, and by examining curatorial practice and exhibition strategies as they affect American and Asian art. We will analyze the relationship between the cultural contexts of viewer and object, the nature of the

translation of languages or aesthetic discourse, and the diverse ways in which art is understood as the materialization of modes of experience and communication. The seminar will incorporate visits to art museums and opportunities for independent research. One meeting per week.

Limited to 15 students. Omitted 2004-05. Professors Clark and Morse.

82. Bad Girls. (Also Women and Gender Studies 08.) To many Europeans in the nineteenth century, women were becoming threatening. With assertiveness and sometimes violence, they demanded suffrage and work outside the home (where they would compete with men for jobs); as newspapers reported, they carried deadly syphilis. This course will examine this set of converging events, contemporary evolutionary theory, debates over "*la femme au foyer*" and "*la nouvelle femme*," and arguments that linked women with putatively deviant sexuality and inferior races. We will study images of women as powerful harpies, whores, and *femmes fatales*, and images of women as powerless invalids and decadently self-destructing addicts. We will address how women claimed agency, as defiant outlaws or by the act of painting. We will analyze the ways in which such images recast as well as reinforced prevailing beliefs in France, England, and Spain, and consider how stereotypes changed over time. We will read texts by Jarry and Huysmans, and consider a range of artists from Renoir, Degas, and Beardsley to Picasso, de Kooning and the Guerrilla Girls.

Limited to 20 students. Omitted 2004-05. Professor Staller.

84. Women and Art in Early Modern Europe. (Also Women's and Gender Studies 06.) This course will examine the ways in which prevailing ideas about women and gender shaped visual imagery and how these images, in turn, influenced ideas concerning women from the Renaissance to the Enlightenment. It will adopt a comparative perspective, both by identifying regional differences among European nations and tracing changes over time. In addition to considering patronage of art by women and works by women artists, we will look at the depiction of women heroes such as Judith; the portrayal of women rulers, including Elizabeth I and Marie de' Medici; and the imagery of rape. Topics emerging from these categories of art include biological theories about women; humanist defenses of women; the relationship between the exercise of political power and sexuality; differing attitudes toward women in Catholic and Protestant art; and feminine ideals of beauty. Two class meetings per week.

Limited to 30 students. Omitted 2004-05. Professor Courtright.

89. Art and Desire in 18th-Century European Culture. (Also European Studies 31.) The elites of the "Republic of Letters" in 18th-century Europe sought ways of redefining social and political structures to allow for more freedom in expression, ranging from political activism to new attitudes towards the social and the erotic, which called into question the established orders of the 17th century. Art of all kinds—painting, architecture, sculpture, literature, music—gave form to the new imagined utopias and dystopias, and created vivid, enticing settings for social and political interaction. Through an examination of the 18th-century imagination in France, England, Italy, Spain, and central Europe, we will discover how this period began the erosion of absolutism, in all its forms, that would lead to the modern world. We will begin in 1685, at the height of the reign of Louis XIV of France, and will end in 1815 with Napoleon's defeat at Waterloo. The course will not be a survey, but rather an examination of selected works, sites, and themes within their intellectual, social, political, religious, and literary contexts. For instance, we will study the visual expression of absolutism (e.g., Versailles), the representation of bourgeois morality in fiction and painting, the theater and

opera as genres of subversion, the landscape garden, the birth of the public museum and thus of public taste, and the changes in city planning and urban life (e.g., Paris).

Omitted 2004-05. Professors Courtright and Rosbottom (Department of French).

SEMINARS

91. Topics in Fine Arts. Two topics will be offered in the first semester, 2004-05.

01. ART AND POLITICAL IDENTITY IN ITALIAN RENAISSANCE COURTS AND CITIES. Art, architecture, and urban planning in the flourishing centers of Florence, Venice, Rome, and Mantua during the 15th and 16th centuries reveal the intersection of humanism (the preoccupation with the rediscovery of antiquity through textual and artistic remains) with the changing politics of the burgeoning cities, their leading families, and powerful social structures. We will look at how artists such as Donatello, Mantegna, Leonardo, Michelangelo, Raphael, Bramante, Titian, Sansovino, Palladio, Vasari and Cellini developed their individual, innovative styles of art, which promoted changes in society, religion, and government—from republics to ducal and papal courts—and shaped ideals of political identity for their patrons.

Requisite: One course in European art history or European history. Limited to 12 students. Omitted 2004-05.

02. THE "ART" OF "BEHOLDING." What would it be like to "Behold" a work of art rather than merely or exclusively observe, analyze or situate it culturally and historically? This seminar will offer a working hypothesis concerning the integrative potential of "Beholding" the "art" of art and provide each member of the seminar the opportunity to test and experience this hypothesis by way of a semester-long encounter with one work of art of the student's own choosing, drawing on the media of painting, sculpture or architecture from any period, location, or artistic tradition. In sharing the progress of each encounter during our class meetings, we will aim to imagine together what contemplative knowing and action might be.

Limited to 12 students. Professor Upton.

03. PRINTMAKING SEMINAR. Description forthcoming.
Professor Garand.

92. Topics in Fine Arts. Three topics will be offered in the second semester, 2004-05.

01. IMAGES AND ICONS. An examination of the role of icons in various religious traditions. The primary focus will be on the ways icons are constructed and used in the Buddhist and Hindu traditions, with comparisons made to their role in Christianity and the religions of Africa. Some of the topics to be covered will include the relationship between icons and deities, the ways in which icons are authenticated and animated, connections between icons and power, the place of icons in ritual and aniconism and iconoclasm.

Limited to 20 students. Professor Morse.

02. WITCHES, VAMPIRES AND OTHER MONSTERS. (Also Women's and Gender Studies 10.) This seminar will explore the construction of the monstrous, over cultures, centuries and disciplines. With the greatest possible historical and cultural specificity, we will investigate the varied forms of monstrous creatures, their putative powers, and the explanations given for their existence—as we

attempt to articulate the kindred qualities they share. Among the artists to be considered are Bosch, Valdes de Leal, Velázquez, Goya, Munch, Picasso, Dalí, Kiki Smith, and Cindy Sherman. One class meeting per week.

Requisite: One course in art history or consent of the instructor. Limited to 12 students. Professor Staller.

03. ARTIST-IN-RESIDENCE SEMINAR. Title and description forthcoming.

DEPARTMENTAL HONORS AND SPECIAL TOPICS

77, 77D, 78, 78D. Senior Departmental Honors. Preparation of a thesis or completion of a studio project which may be submitted to the Department for consideration for Honors. The student shall with the consent of the Department elect to carry one semester of the conference course as a double course weighted in accordance with the demands of his or her particular project.

Open to Seniors with consent of the Department. First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. Full or half course.

First and second semesters. The Department.

RELATED COURSES

Myth, Ritual and Iconography in West Africa. See Black Studies 42.
Second semester. Professor Abiodun.

Visual and Verbal Metaphors in Africa. See Black Studies 43.
First semester. Professor Abiodun.

Roman Archeology: Pompeii and Herculaneum. See Classics 36.
Omitted 2004-05.

FRENCH

Professors Caplan (Chair), de la Carrera, Hewitt, Rockwell‡, and Rosbottom;
Assistant Professor Katsaros; Senior Lecturer Nawar.

The objective of the French major is to learn about French culture directly through its language and principally by way of its literature. Emphasis in courses is upon examination of significant authors or problems rather than on chronological survey. We read texts closely from a modern critical perspective, but without isolating them from their cultural context. To give students a better idea of the development of French culture throughout the centuries, we encourage majors to select courses from a wide range of historical periods, from the Middle Ages to the present.

Fluent and correct use of the language is essential to successful completion of the major. Most courses are taught in French. The Department also urges majors to spend a semester or a year studying in a French-speaking country.

The major in French provides effective preparation for graduate work, but it is not conceived as strictly pre-professional training.

Major Program. The Department of French aims at flexibility and responds to the plans and interests of the major within a structure that affords diversity of experience in French literature and continuous training in the use of the language.

‡On leave second semester 2004-05.

A major (both *rite* and with Departmental Honors) will normally consist of a minimum of eight courses. Students may choose to take (a) eight courses in French literature and civilization; or (b) six courses in French literature and civilization and two related courses with departmental approval. In either case, a minimum of four courses must be taken from the French offerings at Amherst College. One of these four must be taken during the senior year. All courses offered by the Department above French 03 may count for the major. Among these eight courses, one must be chosen from the Middle Ages or Renaissance, and one from the seventeenth or eighteenth centuries. (French 11 satisfies either of these distribution requirements.) Up to four courses taken in a study abroad program may count toward the eight required courses for the major. Comprehensive examinations must be completed no later than the seventh week of the second semester of the senior year.

Departmental Honors Program. Candidates for Departmental Honors must write a thesis in addition to fulfilling the course requirements for the major described above. Students who wish to write a thesis should begin to develop a topic during their junior year and must submit a detailed thesis proposal to the Department *at the beginning of the second week of fall semester classes*. Subject to departmental approval of the thesis proposal, candidates for Departmental Honors will enroll in French 77 and 78 during their senior year. (French 77 and 78 will not be counted towards the eight-course requirement for the major.) Oral examinations on the thesis will be scheduled in late spring.

Foreign Study. A program of study approved by the Department for a junior year in France has the support of the Department as a significant means of enlarging the major's comprehension of French civilization and as the most effective method of developing mastery of the language.

Exchange Fellowships. Graduating seniors are eligible for two Exchange Fellowships for study in France: one fellowship as Teaching Assistant in American Civilization and Language at the University of Dijon; the other as Exchange Fellow, Ecole Normale Supérieure in Paris.

FRENCH LANGUAGE AND COMPOSITION

01. Elementary French. This course features intensive work on French grammar, with emphasis on the acquisition of basic active skills (speaking, reading, writing and vocabulary building). We will be using the multimedia program *French in Action* which employs only authentic French, allowing students to use the language colloquially and creatively in a short amount of time. Three hours a week for explanation and demonstration, plus small sections with French assistants. This course prepares students for French 03.

For students without previous training in French. First and second semesters. Senior Lecturer Nawar and Assistants.

03. Intermediate French. Intensive review and coverage of all basic French grammar points with emphasis on the understanding of structural and functional aspects of the language and acquisition of the basic active skills (speaking, reading, writing and systematic vocabulary building). We will be using *French in Action*, the multimedia program, as well as a French literary text of Jean-Paul Sartre, *Les Jeux sont faits*. Three hours a week for explanation and demonstration, plus small sections with French assistants. This course prepares students for French 05.

Requisite: French 01 or two years of secondary school French. First and second semesters. Senior Lecturer Nawar and Assistants.

05. Language and Literature. An introduction to the critical reading of French literary and non-literary texts; a review of French grammar; training in composition, conversation and listening comprehension. Texts will be drawn from significant short stories, poetry and films. The survey of different literary genres serves also to contrast several views of French culture. Supplementary work with audio and video materials. Successful completion of French 05 prepares students for French 07, 08, 11 or 12. Conducted in French. Three hours a week.

Requisite: French 03 or three to four years of secondary school French. First semester: Professors Caplan and de la Carrera. Second semester: Professor de la Carrera.

07. Contemporary French Literature and Culture. Through class discussion, debates, and frequent short papers, students develop effective skills in self-expression, analysis, and interpretation. Literary texts, articles on current events, and films are studied within the context of the changing structures of French society and France's complex relationship to its recent past. Assignments include both creative and analytic approaches to writing. Some grammar review as necessary, as well as work on understanding spoken French using videotapes. Highly recommended for students planning to study abroad.

Requisite: French 05, or completion of AP French, or four years of secondary school French in a strong program. First semester: Professors de la Carrera and Hewitt. Second semester: Professor Hewitt.

08. French Conversation. To gain as much confidence as possible in idiomatic French, we discuss French social institutions and culture, trying to appreciate differences between French and American viewpoints. Our conversational exchanges will touch upon such topics as French education, art and architecture, the status of women, the spectrum of political parties, minority groups, religion, and the position of France and French-speaking countries in the world. Supplementary work with audio and video materials.

Requisite: French 05, or completion of AP French, or four years of secondary school French in a strong program. Limited to 16 students per section. First and second semesters. Professor Katsaros.

FRENCH LITERATURE AND CIVILIZATION (French 11-19)

11. Cultural History of France: From the Middle Ages to the Revolution. A survey of French civilization: literature, history, art and society. We will discuss Romanesque and Gothic art, the role of women in medieval society, witchcraft and the Church, Reformation and Counter-Reformation, the centralization of power and the emergence of absolute monarchy. Slides and films will complement lectures, reading and discussion of monuments, events and social structures. Conducted in French.

Requisite: French 05 or equivalent. Omitted 2004-05. Professor Caplan.

NOTE: Courses above French 12 are ordered by chronology and topics rather than by level of difficulty.

MEDIEVAL AND RENAISSANCE LITERATURE AND CULTURE (French 20-29)

20. Literary Masks of the Late French Middle Ages. The rise in the rate of literacy which characterized the early French Middle Ages coincided with radical reappraisals of the nature and function of reading and poetic production. This course will investigate the ramifications of these reappraisals for the literature of the late French Middle Ages. Readings may include such major works as *Guillaume de Dole* by Jean Renart, the anonymous *Roman de Renart*, the *Roman de la Rose* by Guillaume de Lorris, selections from the continuation of the *Roman de la Rose* by Jean de Meun, anonymous *Fabliaux*, and poetic works by Christine de Pisan, Guillaume de Machaut, Jean Froissart, and Charles d'Orléans. Particular attention will be paid to the philosophical presuppositions surrounding the production of erotic allegorical discourse. We shall also address such topics as the relationships between lyric and narrative and among disguise, death and aging in the context of medieval discourses on love. All texts will be read in modern French. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. First semester. Professor Rockwell.

21. Medieval French Literature: Tales of Love and Adventure. The eleventh and twelfth centuries witnessed social, political, and poetic innovations that rival in impact the information revolution of recent decades. Essential to these innovations was the transformation from an oral to a book-oriented culture. This course will investigate the problems of that transition, as reflected in such major works of the early French Middle Ages as: *The Song of Roland*, the Tristan legend, the *Roman d'Eneas*, the Arthurian romances of Chrétien de Troyes, anonymous texts concerning the Holy Grail and the death of King Arthur. We shall also address questions relevant to this transition, such as the emergence of allegory, the rise of literacy, and the relationship among love, sex, and hierarchy. All texts will be read in modern French. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor Rockwell.

24. Studies in Medieval Romance Literature and Culture. The study of a major author, literary problem, or question from the medieval period with a particular focus announced each time the course is offered. The topic for spring 2003 was "Dante Alighieri." A reading of the *Divine Comedy* with an eye to the social and philosophical implications of Dante's allegorical practice. Readings, discussions, and papers will be in English.

Omitted 2004-05. Professor Rockwell.

25. Medieval and Renaissance French Literature in Translation. A survey of Medieval and Renaissance French literature in translation from the twelfth through the sixteenth centuries. The course will focus primarily on issues arising from the representational status of images. Readings will include the *Lais* of Marie de France, Arthurian romances by Chrétien de Troyes, the *Quest of the Holy Grail*, Jean Renart's *Guillaume de Dole*, the *Romance of the Rose*, works by Guillaume de Machaut, Jean Froissart, Marguerite de Navarre, Rabelais and Montaigne.

Omitted 2004-05. Professor Rockwell.

27. Humanism and the Renaissance. Humanists came to distrust medieval institutions and models. Through an analysis of the most influential works of the

French Renaissance, we shall study the variety of literary innovations which grew out of that distrust with an eye to their social and philosophical underpinnings. We shall address topics relevant to these innovations such as Neoplatonism, the grotesque, notions of the body, love, beauty, order and disorder. Readings will be drawn from the works of such major writers as: Erasmus, Rabelais, Marguerite de Navarre, Montaigne, Ronsard, Du Bellay, Maurice Scève and Louise Labé. The most difficult texts will be read in modern French. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor Rockwell.

SEVENTEENTH- AND EIGHTEENTH-CENTURY LITERATURE AND CULTURE (French 30-39)

30. The Doing and Undoing of Genres in the Seventeenth and Eighteenth Centuries. This course explores the formation and transformation of various genres in seventeenth- and eighteenth-century literature, with a particular focus announced each time the course is offered. The topic for fall 2003 was "Comedy." Readings include texts by Corneille (*L'Illusion comique*), Molière (*Le Médecin malgré lui*, *Le Tartuffe*, *Le Misanthrope*, *Le malade imaginaire*), Marivaux (*La Double Inconstance*, *Le Jeu de l'amour et du hasard*) Beaumarchais (*Le Barbier de Séville*, *Le Mariage de Figaro*). Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor Caplan.

35. Lovers and Libertines. Passion and the art of seduction, from Mme. de Lafayette's *La Princesse de Clèves* to Stendhal's *Le Rouge et le noir*. We will focus on the oppositions between romantic love and social norms, passion and seduction. Both original masterpieces and their filmic adaptations will be considered. Sample reading list: Mme. de Lafayette, *La Princesse de Clèves*; Prévost, *Manon Lescaut*; Casanova, *Histoire de ma vie*; Laclos, *Les Liaisons dangereuses*; Mozart/da Ponte, *Don Giovanni*; Stendhal, *Le Rouge et le noir*. Conducted in French.

First semester. Professor Caplan.

37. The French Enlightenment. An analysis of the major philosophical, literary, and artistic movements in France between the years 1715 and 1789 within the context of their uneasy relationship to the social, political, and religious institutions of the *ancien régime*. Readings will include texts by Voltaire, Rousseau, Diderot, Condillac, and others. To gain a better sense of what it might have been like to live in eighteenth-century France, we will also read essays in French cultural history. Supplementary work with film and slides. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor de la Carrera.

38. The Republic of Letters. An exploration of Enlightenment thought within the context of the collaborative institutions and activities that fostered its development, including literary and artistic *salons*, *cafés*, and the *Encyclopédie*. We will read texts by Voltaire, Rousseau, Diderot, and others, drawn from the domains of literature, memoirs, and correspondence. To get a better idea of what it might have been like to live in the eighteenth century and be a participant in the "Republic of Letters," we will also read a variety of essays in French cultural history. Supplementary work with films and slides. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor de la Carrera.

39. Worldliness and Otherworldliness. Many eighteenth-century writers imagined and invented other, better societies. To attenuate their criticisms of the social, political, and religious structures of the *ancien régime*, they also had recourse to the viewpoint of fictional “outsiders” who arrive in France as if for the first time and describe what they see in minute and telling detail. We will analyze the role that these “other” worlds and the “otherworldly” point of view played in the development of eighteenth-century thought and literature, as well as some of the repercussions that these questions have had in twentieth-century thought. Readings will include Montesquieu’s *Lettres persanes*, Rousseau’s *Discours sur l’origine de l’inégalité*, Diderot’s *Supplément au Voyage de Bougainville*, and Madame de Graffigny’s *Lettres d’une Péruvienne*, as well as Freud’s *Civilization and Its Discontents* and a selection of essays by Claude Lévi-Strauss. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Second semester. Professor de la Carrera.

NINETEENTH-CENTURY LITERATURE AND CULTURE (French 40-49)

40. The Nineteenth-Century French Novel. This course will trace the evolution of the novel with respect to the broad contexts of nineteenth-century French history and culture. We will focus in particular on the rise of French realism and its relation to the development of modernity in France, examining the treatment of such themes as urban space (the street, the arcade, the barricade), revolution, exoticism and the formation of individual identity—along with its distinctively modern pathologies (alienation, boredom, addiction). Readings will be drawn from such authors as Balzac, Stendhal, Hugo, Sand, Gautier, Flaubert, Zola, Vallès and others. To help illuminate the problem of literary realism, we will take up the question of realist representation in the visual arts as well, examining relevant works by such artists and photographers as Courbet, Millet, Daumier, Manet, Degas, Nadar and Atget. For this purpose we will be making use of the extensive online collections of nineteenth-century visual and literary materials at the Bibliothèque Nationale and elsewhere, and we will also view a film adaptation of one of the works we’ll be reading. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor Katsaros.

41. Modern Poetry and Artistic Representation: From Baudelaire to Deguy. A study of major movements in poetry from the second half of the nineteenth century through the twentieth century, in conjunction with other artistic movements in France. Using a variety of literary and visual materials (including photography and film), this course will focus on the nature, timing and implications of their interactions. The notions of aesthetic perception, experience and pleasure will be investigated in this context. Major movements examined include Romanticism, Symbolism, Decadence, Surrealism, Exile and Resistance during World War II, Contemporary Caribbean Poetry, and the interplay of recent poetic and artistic practice with critical discourse. Theoretical works and manifestos will be studied in relation with both poetry and plastic arts. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. First semester. Professor Katsaros.

42. Women of Ill Repute: Prostitutes in Nineteenth-Century French Literature. Prostitutes play a central role in nineteenth-century French fiction, especially of the realistic and naturalistic kind. Both widely available and largely visible in nineteenth-century France, prostitutes inspired many negative stereotypes. But, as the very product of the culture that marginalized her, the prostitute offered an ideal vehicle for writers to criticize the hypocrisy of bourgeois mores. The socially stratified world of prostitutes, ranging from low-ranking sex workers to high-class courtesans, presents a fascinating microcosm of French society as a whole. We will read selections from Honoré de Balzac, *Splendeur et misère des courtisanes*; Victor Hugo, *Les Misérables*; and Gustave Flaubert, *L'éducation sentimentale*; as well as *Boule-de-Suif* and other stories by Guy de Maupassant; *La fille Elisa* by Edmond de Goncourt; *Nana* by Emile Zola; *Marthe* by Joris-Karl Huysmans; *La dame aux camélias* by Alexandre Dumas fils; and extracts from *Du côté de chez Swann* by Marcel Proust. Additional readings will be drawn from the fields of history (Alain Corbin, Michelle Perrot) and critical theory (Walter Benjamin, Michel Foucault, Julia Kristeva). We will also discuss visual representations of prostitutes in nineteenth-century French art (Gavarni, Daumier, C. Guys, Degas, Manet, Toulouse-Lautrec). Conducted in French.

Requisite: One of the following—French 7, 8, 11, 12 or equivalent. Second semester. Professor Katsaros.

TWENTIETH-CENTURY LITERATURE AND CULTURE (French 50-59)

50. Contemporary French Literature: Crises and Transformation. A study of contemporary French literature and culture focusing on the twentieth-century novel. The course focuses on the long series of novelistic experiments, both narratological and ideological, which begin around the time of the First World War and continue feverishly through the existential novel and the *New Novel* of the seventies and eighties. Our readings will include critical theory as well as works of such major authors as Marcel Proust, André Malraux, Jean-Paul Sartre, Claude Simon, Michel Butor, Nathalie Sarraute, Marguerite Duras, Monique Wittig and Patrick Modiano. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or the equivalent. Omitted 2004-05. Professor Hewitt.

51. French Cultural Studies. This course studies the shifting notions about what constitutes "Frenchness" and reviews the heated debates about the split between French citizenship and French identity. Issues of decolonization, immigration, foreign influence, and ethnic background will be addressed as we explore France's struggles to understand the changing nature of its social, cultural, and political identities. We will study theoretical and historical works, as well as novels, plays and films.

First semester. Professor Hewitt.

52. Modern French Autobiography. This course studies the tortuous relationships between fact and fiction as famous French writers focus on their own lives. We will study how identities are constructed through gender, class and race, and will discuss identity formation (and its breakdown) through certain literary and philosophical theories (existentialism, New Novel theory, modernism, Marxism, postmodernism, postcolonialism). After briefly considering passages

from Rousseau's model autobiography, *Les Confessions*, we turn our attention to twentieth-century authors such as Marguerite Duras, Nathalie Sarraute, Alain Robbe-Grillet, Michel Leiris, Jean-Paul Sartre, Maryse Condé, Roland Barthes, and Louis Althusser. Assignments will include one creative essay in which students write on a personal experience using narrative strategies discussed in class. Conducted in French.

Requisite: One of the following—French 7, 8, 11, 12 or equivalent. Second semester. Professor Hewitt.

53. Literature in French Outside Europe: Introduction to Francophone Studies. This course will explore cross-cultural intersections and issues of identity and alienation in the works of leading writers in the French-speaking Caribbean. Our discussions will focus on the sociopolitical positions and narrative strategies entertained in key French Caribbean texts of postcolonial literature (both fiction and critical essays). Issues involving nationalism, race, gender, assimilation and the use of Creole will help to shape our discussion of how postcolonial subjects share in or distinguish themselves from certain tenets of Western thought. At issue, then, is the way French Caribbean literature and culture trace their own distinctiveness and value. Conducted in French.

Requisite: One of the following—French 07, 08, 11, 12 or equivalent. Omitted 2004-05. Professor Hewitt.

SPECIAL COURSES (French 60-69)

60. Masterpieces of French Literature in Translation. In this course we will read a variety of French literary works from the eighteenth century to the present. Readings may include Voltaire's *Candide*, Laclos' *Dangerous Liaisons*, Charrière's *The Letters of Mistress Henley*, Stendhal's *The Red and the Black*, Balzac's *Cousin Bette*, Baudelaire's *Flowers of Evil*, Flaubert's *Madame Bovary*, Zola's *Nana*, or *The Ladies' Paradise*, Proust's *Swann in Love*, Camus' *The Plague* or *The First Man*, Duras' *The Lover*. We will study these works first as masterful stories, but we also will consider questions of cultural and personal influence, including sexuality and class. We will also learn why most of these works were judged politically or morally scandalous when they came out. For instance, special attention will be paid to the trials and censorship of Baudelaire and Flaubert. Finally, we will study some films inspired by these texts, and learn how different media can treat the same subject. Conducted in English. (French majors will be encouraged to write their papers in French, and to read a portion of these works in French).

First semester. Professor Rosbottom.

61. European Film. A study of issues concerning European film, with a particular focus announced each time the course is offered. In spring 2005 the course will provide an introduction to French film from the 1930s to the present. Among the directors and films to be covered are: Jean Renoir (*Grand Illusion*, *Rules of the Game*), Marcel Carné (*Hôtel du Nord*), Jean-Pierre Melville (*Bob le flambeur*), Alain Resnais (*Hiroshima mon amour*, *Last Year at Marienbad*), François Truffaut (*The 400 Blows*), Jean-Luc Godard (*Breathless*, *My Life to Live*, *Contempt*), Robert Bresson, Agnès Varda, Chantal Akerman, Léos Carax (*Lovers on the Bridge*) and Mathieu Kassovitz (*Hate*). The course will also serve as an introduction to film analysis. Conducted in English.

Second semester. Professor Caplan.

62. Dangerous Reading: The Eighteenth-Century Novel in England and France. (Also European Studies 36 and English 48.) See European Studies 36.

Second semester. Professors Rosbottom and Frank.

ADVANCED COURSES (French 70+)

70. Advanced Seminar. An in-depth study of a major author or literary problem from specific critical perspectives (i.e., Derrida, de Man and Rousseau, Sartre and Flaubert; Bakhtin and Rabelais; Goldman, Barthes and Racine). The topic for spring 2005 is "French Theories." This seminar will focus on theoretical activities in which French intellectuals played a leading role during the second half of the twentieth century: semiotics (the domain of investigation that explores the nature and function of signs and sign-production), structuralism, and deconstruction. We will read work by some of the most influential practitioners of these theories in literary criticism (Roland Barthes), anthropology (Claude Lévi-Strauss), psychoanalysis (Jacques Lacan) and philosophy (Jacques Derrida), with special emphasis upon questions of method (how to do a semiotic or structuralist analysis of an object, what deconstruction does). Conducted in English.

Requisite: One of the following—French 07, 11, 12 or equivalent. Second semester. Professor Caplan.

77, 78. Senior Departmental Honors. A single and a double course.

First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. Independent Reading Courses. Full or half courses.

Approval of the Department Chair is required. First and second semesters.

GEOLOGY

Professors Cheney, Crowley, and Harms (Chair); Assistant Professors Hagadorn and Martini†; Adjunct Professor Coombs.

Major Program. The Geology major starts with an introduction to the fundamental principles and processes that govern the character of the earth from its surface environment to its core. Geology 11 surveys these principles and is required of all Geology majors. Geology encompasses many sub-disciplines that approach study of the earth in a variety of ways, but all share a core of knowledge about the composition and constitution of earth materials. Accordingly, all Geology majors must also take Geology 29 (Structural Geology), Geology 30 (Mineralogy), and Geology 34 (Sedimentology and Stratigraphy). Finally, in consultation with their departmental advisor, Geology majors must take five additional courses from the Department's offerings, constructing an integrated program that may be tailored to the major's fields of interest or future plans. Senior Departmental Honors, generally consisting of Geology 77 and 78D, will count as one such course for the major. Only one of these five courses may be from a Geology course numbered less than 11 and only if that course was taken prior to the junior year. Students may substitute one course from Astronomy 12, Biology 18, Chemistry 11, Math 11 or Physics 16, or a higher numbered course in those departments (excluding Physics 22), for one of the five elective geology courses required for the major. The department, in coordination with the student's academic goals, will consider departures from this major format. In the fall semester of the senior year, each major shall take a comprehensive examination.

†On leave first semester 2004-05.

Departmental Honors Program. For a degree with Honors, a student must have demonstrated ability to pursue independent work fruitfully and exhibit a strong motivation to engage in research. A thesis subject commonly is chosen at the close of the junior year but must be chosen no later than the first two weeks of the senior year. Geology 77, 78D involves independent research in the field or the laboratory that must be reported in a thesis of high quality.

All courses are open to any student having requisite experience or consent of the instructor.

09. Environmental Science: Case Studies. Industrialized society has been a major agent of environmental change. In this course, we will examine environmental issues by first examining processes that operate in natural systems and then assessing how we have modified such systems. Analysis of several environmental case studies will be used as a vehicle to understand the scientific issues associated with environmental change. Topics will include pollution, natural resources, global warming, landscape denudation, and habitat change. Data from the scientific literature will be emphasized. Three hours of lecture each week.

Not open to students who have taken Geology 12. First semester. Professor Hagadorn.

11. Principles of Geology. As the science that considers the origin and evolution of the earth, Geology provides students with an understanding of what is known about the earth and how we know it, how the earth "works" and why we think it behaves as it does. In particular this course focuses upon the earth as an evolving and dynamic system where change is driven by energy generated within the earth. Concepts to be covered are: the structure of the earth's interior, isostasy, deep time, the origin and nature of the magnetic field, plate tectonics, the origin and evolution of mountain belts, and ocean basins and the growth of the continents over time. In this context, Geology 11 considers a diverse range of topics such as the Appalachian mountain belt, the Hawaiian Islands, Yellowstone Park, the consequences of seismicity, faulting, meteorite impact, and volcanism on the earth's inhabitants, and the sources and limitations of mineral and energy resources. This is a science course designed for all students of the College. Three hours of class and two hours of lab in which the student gains direct experience in the science through field trips, demonstrations, and projects.

First and second semesters. Professors Cheney, Crowley and Harms.

24. Vertebrate Paleontology. The evolution of vertebrates as shown by study of fossils and the relationship of environment to evolution. Lectures and projects utilize vertebrate fossils in the Pratt Museum. Three hours of class and one discussion/laboratory session per week. Offered in alternate years.

Requisite: One course in biology or geology or consent of the instructor. Second semester. Professor Coombs.

27. Paleontology. What do fossils tell us about life on Earth over the last four billion years and the potential for life on other planets? In this course, students will gain an appreciation of the richness of ancient life on Earth and will learn to recognize, identify, and interpret fossils in the field and in the laboratory. Building on these skills, students will learn to use fossils to solve problems, test hypotheses, and investigate Earth history. Laboratories will focus on learning the commonly fossilized groups that are involved in key aspects of Earth History, including invertebrate, micro-, plant, and vertebrate fossils. Three hours of lectures and three hours of laboratory.

Requisite: Geology 11 or Geology 12 or equivalent Biology course. First semester. Professor Hagadorn.

28. Hydrogeology. As the global human population expands, the search for and preservation of our most important resource, water, will demand societal vigilance and greater scientific understanding. This course is an introduction to surface and groundwater hydrology and geochemistry in natural systems, providing fundamental concepts aimed at the understanding and management of the hydrosphere. The course is divided into two roughly equal parts: surface and groundwater hydrology, and aqueous geochemistry. In the first section, we will cover the principal concepts of physical hydrogeology including watershed analysis and groundwater management. In the second half, we will integrate the geochemistry of these systems addressing both natural variations and the human impact on our environment. Three hours of lecture and three hours of lab or field trip each week.

Requisite: Geology 11 or 12 or consent of the instructor. Second semester. Professor Martini.

29. Structural Geology. A study of the geometry and origin of sedimentary, metamorphic and igneous rock structures that are the products of earth deformation. Emphasis will be placed on recognition and interpretation of structures through development of field and laboratory methodology. Three hours of lecture and five hours of laboratory each week.

Requisite: Geology 11. First semester. Professor Crowley.

30. Mineralogy. The crystallography and crystal chemistry of naturally occurring inorganic compounds (minerals). The identification, origin, distribution and use of minerals. Laboratory work includes the principles and methods of optical mineralogy, X-ray diffraction, back-scattered electron microscopy, and electron beam microanalysis. Four hours of lecture and two hours of directed laboratory.

Requisite: Geology 11, Chemistry 11 or Chemistry 15 or their equivalent recommended. First semester. Professor Cheney.

32. Igneous and Metamorphic Petrology. A study of igneous and metamorphic processes and environments. Application of chemical principles and experimental data to igneous and metamorphic rocks is stressed. Identification, analysis, and mapping of rocks in laboratory and field. Four hours of class and three hours of laboratory per week.

Requisite: Geology 30. Second semester. Professor Cheney.

34. Sedimentology and Stratigraphy. An overview of the dominant sedimentologic processes operating in both modern and ancient depositional environments. Students will learn how to examine and interpret features of sedimentary rocks and how to assess temporal or spatial patterns in sequences of sedimentary rocks. Students will then use these observations to expand their understanding of Earth history. The laboratory section of the course will include six in-lab field trips, as well as one weekend field trip. Three hours of lecture and three hours of laboratory each week.

Requisite: Geology 11 or 12. Second semester. Professor Hagadorn.

40. Plate Tectonics and Continental Dynamics. An analysis of the dynamic processes that drive the physical evolution of the earth's crust and mantle. Plate tectonics, the changing configuration of the continents and oceans, and the origin and evolution of mountain belts will be studied using evidence from diverse branches of geology. Present dynamics are examined as a means to interpret the record of the past, and the rock record is examined as a key to

understanding the potential range of present and future earth dynamics. Three hours of class and three hours of laboratory each week.

Requisite: Geology 11 and two additional upper-level Geology courses. First semester. Professor Harms.

41. Environmental and Solid Earth Geophysics. Only the surface of the earth is accessible for direct study but, as a two-dimensional surface, it represents a very incomplete picture of the geologic character of the earth. The most fundamental realms of the earth—the core and mantle—cannot themselves be observed. Even the uppermost part of the crust, where the lithosphere and hydrosphere interact to determine the quality of the environment in which we live, is hidden. Indirect signals, observed at the surface, can give us a more comprehensive understanding of earth structure—from environmental problems that lie just below the surface to the dynamics of the core/mantle boundary. We can “see” these subsurface realms using seismology, gravity, magnetism and heat flow observations. This course will bring findings from geophysics to bear on developing a picture of the earth in three dimensions. Three hours of class and three hours of laboratory each week.

Requisite: Geology 11 or 12. First semester. Professor Crowley.

43. Geochemistry. This course examines the principles of thermodynamics, via the methodology of J. Willard Gibbs, with an emphasis upon multicomponent heterogeneous systems. These principles are used to study equilibria germane to the genesis and evolution of igneous and metamorphic rocks. Specific applications include: the properties of ideal and real crystalline solutions, geothermometry, geobarometry, and the Gibbs method—the analytic formulation of phase equilibria. This course also introduces the student to the algebraic and geometric representations of chemical compositions of both homogeneous and heterogeneous systems. Four class hours each week.

Requisite: Geology 30, or Chemistry 12, or Physics 16 or 32. Omitted 2004-05. Professor Cheney.

77, 77D, 78, 78D. Senior Departmental Honors. Independent research on a geologic problem within any area of staff competence. A dissertation of high quality will be required.

Open to seniors who meet the requirements of the Departmental Honors program. First and second semesters. The Staff.

97, 97H, 98, 98H. Special Topics. Independent reading or research. A written report will be required. Full or half courses.

Approval of the Departmental Chair is required. First and second semesters. The Staff.

RELATED COURSE

The Geology of the Great American West. See Mellon Seminar 04.

Second semester. Professor Harms.

GERMAN

Professors Brandest and Rogowski (Chair), Assistant Professor Gilpin, Senior Lecturer Schütz.

†On leave first semester 2004-05.

Major Program. Majoring in German can lead to a variety of careers in education, government, business, international affairs, and the arts. There are two possible concentrations within the German major:

German Literature. The objective of the major with concentration in German Literature is to develop language skills and to provide acquaintance with the literary and cultural traditions of the German-speaking countries: The Federal Republic of Germany, Austria, and Switzerland. The Department offers effective preparation for graduate study in German language and literature, but its primary aim is more broadly humanistic and cross-cultural.

The German Literature concentration requires German 10 (or its equivalent), German 15 and 16 (German Cultural History), and a minimum of five further German courses, of which three must be courses in German literature and culture, conducted in German. The Department may approve up to three courses taken at a German-speaking university as counting toward fulfillment of the major requirements. Majors are advised to broaden their knowledge of other European languages and cultures.

German Studies. German Studies is an interdisciplinary concentration within the German major. Its objective is to develop language skills and a broad understanding of historical, political, and social aspects of culture in the German-speaking countries. It requires German 10 (or the equivalent), 15 and 16 (German Cultural History), and a minimum of five further German courses, conducted either in German or in English. Majors concentrating in German Studies should supplement their German program with courses in European history, politics, economics, and the arts.

Students who major in German Literature or German Studies should enroll in at least one German course per semester. For both concentrations, the Department faculty will help majors develop individual reading lists as they prepare for a Comprehensive Examination administered during each student's final semester.

The German Department supports a variety of activities that help to increase familiarity with German culture, such as film series, guest speakers, the German residential section in Porter House, and a weekly German-language lunch table. The Department awards prizes annually for superior achievement in German courses and for individual initiative benefiting German studies at Amherst.

Study Abroad. German majors are encouraged to spend a summer, semester, or year of study abroad as a vital part of their undergraduate experience. The Department maintains a regular student exchange program with Göttingen University in Germany. Each year we send two students to that university in exchange for two German students who serve as Language Assistants at Amherst College. Faculty can also advise on a variety of other options for study in a German-speaking country.

Departmental Honors Program. In addition to the courses required for a *rite* degree in the major, candidates for Honors must complete German 77 and 78 and present a thesis on a topic chosen in consultation with an advisor in the Department. The aim of Honors work in German is (1) to consolidate general knowledge of the history and development of German language, culture, and history; (2) to explore a chosen subject through a more intensive program of readings and research than is possible in course work; (3) to present material along historical or analytical lines, in the form of a scholarly thesis.

Honors students who major with a concentration in German Studies will be encouraged to arrange for the writing of their theses under the supervision of

a committee comprised of faculty members from various departments, to be chaired by the German Department advisor.

The quality of the Honors thesis, the result of the Comprehensive Examination, together with the overall college grade average, will determine the level of Honors recommended by the Department.

GERMAN LANGUAGE

01. Elementary German I. Our multi-media course *Fokus Deutsch* is based on videos depicting realistic stories of the lives of present day Germans as well as authentic documents and interviews with native speakers from all walks of life. The video program, as well as related Internet Webpages, will serve as a first-hand introduction to the German-speaking countries and will encourage students to use everyday language in a creative way. Text and audio-visual materials emphasize the mastery of speaking, writing, and reading skills that are the foundation for further study. Three hours a week for explanation and demonstration, one hour a week in small sections plus weekly viewing assignments in the laboratory.

First semester. Senior Lecturer Schütz.

02. Elementary German II. A continuation of German 01, with increased emphasis on reading of selected texts. Three class meetings per week plus one additional conversation hour in small sections, with individual work in the language laboratory.

Requisite: German 01 or equivalent. Second semester. Senior Lecturer Schütz.

04. Quick Access: German for Reading. This one-semester course is intended for anyone who wants to read German scholarly and literary texts in the original language. It prepares students for research and thesis work with original source materials, as well as for graduate reading proficiency exams. Focus on the acquisition of reading and comprehension skills. Close reading and translation practice of fiction and expository prose in the humanities, social and natural sciences. Intensive study of basic grammar (morphology and syntax). Individualized choice of texts from a wide range of fields, determined by the needs of the participants. Conducted in English.

Omitted 2004-05.

05. Intermediate German. Systematic review of grammar, aural and speaking practice, discussion of video and television programs, and reading of selected texts in contemporary German. Stress will be on the acquisition and polishing of verbal, reading, writing, and comprehension skills in German. Three hours per week for explanation and structured discussion, plus one hour per week in small sections for additional practice with German Language Assistants.

Requisite: German 02 or two years of secondary-school German or equivalent. First semester. Professor Gilpin.

10. Advanced Composition and Conversation. Practice in free composition and analytical writing in German. Exercises in pronunciation and idiomatic conversation. Supplementary work with audio and video materials. Oral reports on selected topics and reading of literary and topical texts. Conducted in German. Three hours per week, plus one additional hour in small sections and in the language laboratory.

Requisite: German 05 or equivalent, based on departmental placement decision. Second semester. Professor Gilpin.

12. Advanced Reading, Conversation, and Style I. Reading, discussion, and close analysis of a wide range of cultural materials, including selections from *Die Zeit* and *Der Spiegel*, essays, and short works by modern authors and song writers (Böll, Brecht, Biermann, Udo Lindenberg, Bettina Wegner, etc.). Materials will be analyzed both for their linguistic features and as cultural documents. Textual analysis includes study of vocabulary, style, syntax, and selected points of grammar. Round-table discussions, oral reports and structured composition exercises. Students will also view unedited television programs, work with the Internet, and listen to recordings of political and scholarly speeches, cabaret, protest songs and to authors reading from their own works. Conducted in German. Three class hours per week, plus an additional hour in small sections and in the language laboratory.

Requisite: German 10 or equivalent. First semester. Senior Lecturer Schütz.

14. Advanced Reading, Conversation, and Style II. Focusing on one contemporary novel, we will develop strategies for analyzing texts for their literary expression, their linguistic and stylistic features, and their cultural content. Additional materials (Internet, video, CD-ROMs, etc.) on literary and cultural topics as well as articles drawn from history, sociology, psychology, and philosophy. Three class hours per week plus one hour with language assistants.

Requisite: German 10 or equivalent. Second semester. Senior Lecturer Schütz.

GERMAN CULTURE AND LITERATURE

15. German Cultural History to 1800. An examination of cultural developments in the German tradition, from the Early Middle Ages to the rise of Prussia and the Napoleonic Period. We shall explore the interaction between socio-political factors in German-speaking Europe and works of "high art" produced in the successive eras, as well as Germany's centuries-long search for a cultural identity. Literature to be considered will include selections from Tacitus' *Germania*, the *Hildebrandslied*, a courtly epic and some medieval lyric poetry; the sixteenth-century *Faust* chapbook and other writings of the Reformation Period; Baroque prose, poetry, and music; works by Lessing and other figures of the German Enlightenment; *Sturm und Drang*, including early works by Goethe, Schiller, and their younger contemporaries. Slides, book illustrations, recordings, and videos will provide examples of artistic, architectural, and musical works representative of each of the main periods. Conducted in German.

Requisite: German 10 or equivalent. First semester. Professor Rogowski.

16. German Cultural History from 1800 to the Present. A survey of literary and cultural developments in the German tradition from the Romantic Period to contemporary trends. Major themes will include the Romantic imagination and the rise of nationalism in the nineteenth century, the literary rebellion of the period prior to 1848, Poetic Realism and the Industrial Revolution, and various forms of aestheticism, activism, and myth. In the twentieth century we shall consider the culture of Vienna, the "Golden Twenties," the suppression of freedom in the Nazi state, issues of exile and inner emigration, and the diverse models of cultural reconstruction after 1945. Authors represented will include Friedrich Schlegel, Brentano, Heine, Büchner, Hegel, Marx, Nietzsche, Heinrich and Thomas Mann, Kafka, Brecht, Grass, Wolf, and Handke. Music by Schubert, Wagner, Mahler, and Henze; samples of art and architecture. Conducted in German.

Requisite: German 10 or equivalent. Second semester. Professor Brandes.

25. Romantic Couples. Can romantic love be pure passion? Or is it subject to rules designed to express feeling? The course explores the language and representations of love around 1800, during a time of profound social and aesthetic change. We will investigate feminine concepts of "symplophilosophy" and the new social marriage contract which gave rise to a desire to harmonize erotic and Platonic love and friendship; love as a meeting of autonomous subjects, leading to the discovery and realization of the self; the ecstasy of love and erotic misery; longings for ever-lasting fidelity and trust; issues of speechlessness and delusions. New concepts of irony, wit, fantasy, open form and intertextuality, parody and symbol will be explored, together with studies of gender and discourse theory. Readings will include romantic tales and fairy tales, novels, poetry, and letters by Goethe, Friedrich Schlegel, Dorothea Schlegel, Bettina von Arnim, Tieck, Hoffmann, and Kleist; music by Schubert and Wagner; romantic painting by Runge, Friedrich, and the Nazarenes. Conducted in German.

Requisite: German 10 or equivalent. Omitted 2004-05. Professor Brandes.

27. The Age of Goethe. Classical German literature and music, from the 1780s to the 1830s, has influenced German and Western culture until today. While considering music and art, this course will focus primarily on the greatest writers of the period: Goethe, Schiller, and Hölderlin. Placing their literature in the philosophical and political contexts of Idealism and of German enlightened absolutism, we will distinguish this "high art" from contemporary early romantic concepts as well as from German Jacobine activism, which was strongly influenced by the French Revolution. We will also examine the legacy of this rich cultural era in its impact on Western romantic, transcendentalist, and symbolist movements—and its influence on the rise of the myth of the Germans as a "nation of poets and thinkers." Readings will include Goethe's *Faust I*, *Egmont*, *Iphigenie*, and *Römische Elegien*; Schiller's *Die Räuber* and *Maria Stuart*; Hölderlin's *Hyperion* and selected poems; essays and manifestos by Kant, Fichte, and Forster. Listening assignments in Mozart's *Die Zauberflöte* and selected *Lieder* of the period. Conducted in German.

Requisite: German 10 or equivalent. Omitted 2004-05. Professor Brandes.

32. Modernism and Its Discontents. This course will trace the impact of early twentieth-century modernization on the cultural consciousness of artists and politicians. We will first study classical modernism in the context of European and Western avant-garde movements, with emphasis on art and society in Germany. Topics include the effect of rapid urbanization and the rise of modern mass culture; modern constructions of gender and nature; the emergence of visual culture and mass media; the aesthetic revolt and literary visions of Futurism, Dada, and Expressionism; and the radical activism of proletarian didactic art. We will then trace the anti-modernist responses, such as Kaiser Wilhelm's retrogressive push for national art; the socialist realist doctrine of Stalin's cultural policies; Hitler's prohibition of modernist art as "degenerate"; and finally the censorship and self-censorship of certain modernist artists, in the name of political progress. Texts by Hofmannsthal, Hauptmann, Schnitzler, Wedekind, Heinrich Mann, Kafka, Hesse, Rilke, Benjamin, Brecht, and Anna Seghers; selected art by Modersohn-Becker, Kirchner, and Kollwitz; samples of architecture, early radio, films, and music. Conducted in German.

Requisite: German 10 or equivalent. Omitted 2004-05. Professor Brandes.

33. Comedy and Humor. The course with the shortest reading list ever—not! Contrary to popular opinion, Germans (and their Austrian and Swiss neighbors)

do have a sense of humor that has produced a wide variety of both high-brow and popular forms, ranging from the absurdist skits of Karl Valentin and Liesl Karlstadt, to raunchy "Ostfriesenwitze," and to the current boom in sex and "relationship" comedies in film. We will explore broadsheets and cartoons (Wilhelm Busch, Lorient, E. O. Plauen, Uli Stein), populist theater forms such as the operetta (Strauss, Lehar) and farcical "Volkstheater," sophisticated literary comedies (Tieck, Büchner, Sternheim, Dürrenmatt), social satire in print and other media (Heine, Kraus, Tucholsky, Staudte, Irmtraud Morgner, Robert Gernhardt, Eckhard Henscheid, Luise Pusch, Elfriede Jelinek), parody pastiche in song and movies (Comedian Harmonists, Max Raabe, Bully Herbig), and political humor in cabaret from the Wilhelmine period, the Weimar Republic, inside and outside the Third Reich, communist East Germany, and the multi-ethnic Germany of today (Wedekind, Werner Finck, Erika Mann, Gerhart Polt, Sinasi Dikmen). Primary materials will be supplemented by theoretical readings, including Arthur Koestler, Volker Klotz, Susanne Schäfer, and—of course—Sigmund Freud. Conducted in German.

Requisite: German 10 or equivalent. First semester. Professor Rogowski.

34. Post-War German Culture, 1945-1989. How did post-war Germany respond to the dilemma of being the frontier between Communism and the Free World? How did the two German societies develop their own identities and adapt, rebel, or acquiesce culturally in regard to the powers in control? We will situate major literary and cultural developments within the context of political and social history. Topics include coming to terms with the Nazi past; political dissent, democratization, and economic affluence; reactions to the Berlin Wall; the student revolt and feminism; the threat to democracy and civil rights posed by terrorism; the peace movement in the East and the West. Readings in various genres, including experimental literary texts. Authors include Heinrich Böll, Günter Grass, Peter Schneider, and Peter Weiss in the West and Volker Braun, Heiner Müller, Ulrich Plenzdorf, and Christa Wolf in the East. Conducted in German.

Requisite: German 10 or equivalent. Second semester. Professor Brandes.

38. German Drama of the Twentieth Century. From the political agitation of Bertolt Brecht to the performance pieces of Pina Bausch, German drama has had a profound impact on international theater. We shall trace the development of modern German drama from around 1890 to the present day. Topics will include: Naturalism and its attempt to depict social reality; Expressionism and its iconoclastic innovation; recent developments such as the postmodern dramatic collages of Heiner Müller. Particular attention will be focused on Brecht's legacy after World War II in the fields of "epic" and "documentary" theater. Authors discussed will include Gerhart Hauptmann, Frank Wedekind, Georg Kaiser, Bertolt Brecht, Peter Weiss, Friedrich Dürrenmatt, and Botho Strauß. Readings will be supplemented by video materials on Pina Bausch, Johann Kresnick, and Heiner Müller. Conducted in German.

Requisite: German 10 or equivalent. Omitted 2004-05. Professor Rogowski.

COURSES OFFERED IN ENGLISH

42. The Crusades and the Image of Islam. The legacy of the Crusades continues to be felt in Europe, the U.S. and in the Middle East. Originating 900 years ago, when Pope Urban II called on Christians to free the Holy Land of the "Unbelievers," a zealous collection of northern European monks, knights, and soldiers set out from Cologne on the first of several Holy Wars, believing they

would prepare for the coming of the Messiah by liberating Jerusalem. The ensuing "clash of civilizations" pitted Christians first against Jews and then against the Muslim world, resulting in battles, pogroms, and centuries of hostility. To this day, Middle Eastern understanding of Western policies is deeply influenced by the history of the Crusades while European and American attitudes towards the Middle East and Islam are still colored by its controversial lore. This interdisciplinary course will discuss the history and legacy of the Crusades and the image of Muslims and Islam in historiography, theology, and literature, asking questions such as: Who became a Crusader and why? How did the Crusaders perceive and represent Islam and Muslims? How did these views of Islam and the East contribute to European self-definition and expansionism? We will pay attention to three perspectives: the Western European, Christian and Jewish, and the Middle Eastern Muslim views. Materials will include German, French, Hebrew, and Arabic texts by modern and medieval historians, among them Fulcher of Chartres, the Hebrew Chronicles of the Crusades, and Muslim sources; literary readings, such as the *Song of Roland*, Wolfram von Eschenbach's *Willehalm*, *Duke Ernst*, and selected medieval lyric; and religious commentary by St. Bernard. Conducted in English, with German majors required to do a substantial portion of the applicable readings in German.

Omitted 2004-05.

44. Popular Cinema. From Fritz Lang's thrilling detective mysteries to Tom Tykwer's hip postmodern romp *Run Lola Run*, from Ernst Lubitsch's satirical wit to the gender-bending comedies of Katja von Garnier, this course explores the rich legacy of popular and genre films in the German-speaking countries. Topics to be covered include adventure films, comedies, and costume dramas of the silent period, including Fritz Lang's *Spiders* (1919) and Joe May's *The Indian Tomb* (1920); the musical comedies of the Weimar Republic and the "dream couple" Lilian Harvey and Willy Fritsch; Nazi movie stars and the "non-political" entertainment films of the Third Reich, such as Josef von Baky's blockbuster *Münchhausen* (1943); the resurgence of genre films in the 1950s ("Heimatfilme," romantic comedies, melodramas, etc.); the Cold War Westerns in the West (based on the novels by Karl May) and in the East (starring Gojko Mitić); the efforts to produce audience-oriented films in the politicized climate of the 1960s and 1970s; the big budget quasi-Hollywood productions by Wolfgang Petersen; and the recent spate of relationship comedies. We will discuss the work of, among others, actors and performers Karl Valentin, Heinz Rühmann, Zarah Leander, Hans Albers, Heinz Erhardt, Romy Schneider, Lioriot, and Otto, and directors including Ernst Lubitsch, Fritz Lang, Joe May, Wilhelm Thiele, May Spils, Katja von Garnier, Detlev Buck, Tom Tykwer, and Doris Dörrie. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Rogowski.

47. Weimar Cinema: The "Golden Age" of German Film. This course examines the German contribution to the emergence of film as both a distinctly modern art form and as product of mass culture. The international success of Robert Wiene's Expressionist phantasmagoria, *The Cabinet of Dr. Caligari* (1920), heralded the beginning of a period of unparalleled artistic exploration, prior to the advent of Hitler, during which the ground was laid for many of the filmic genres familiar today: horror film (F.W. Murnau's *Nosferatu*), detective thriller (Fritz Lang's *M*), satirical comedy (Ernst Lubitsch's *The Oyster Princess*), psychological drama (G.W. Pabst's *Pandora's Box*), science fiction (Lang's *Metropolis*), social melodrama (Pabst's *The Joyless Street*), historical costume film

(Lubitsch's *Passion*), political propaganda (Slatan Dudow's *Kuhle Wampe*), anti-war epic (Pabst's *Westfront 1918*), documentary montage (Walther Ruttmann's *Berlin—Symphony of a Big City*), and the distinctly German genre of the "mountain film" (Leni Riefenstahl's *The Blue Light*). Readings, including Siegfried Kra-cauer, Walter Benjamin, Lotte H. Eisner, Béla Balázs, and Rudolf Arnheim, will address questions of technology and modernity, gender relations after World War I, the intersection of politics and film, and the impact of German and Austrian exiles on Hollywood. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Second semester. Professor Rogowski.

51. Joyful Apocalypse: Vienna Around 1900. Between 1890 and 1914, Vienna was home to such diverse figures as Sigmund Freud, Gustav Klimt, Gustav Mahler, Leon Trotsky, and—Adolf Hitler. Which social, cultural, and political forces brought about the extraordinary vibrancy and creative ferment in the capital of the Austro-Hungarian Empire? The course will examine the multiple tensions that characterized 'fin-de-siècle' Vienna, such as the connection between the pursuit of pleasure and an exploration of human sexuality, and the conflict between avant-garde experimentation and the disintegration of political liberalism. Against this historical backdrop we shall explore a wide variety of significant figures in literature (Schnitzler, Hofmannsthal, Musil, Kraus), music (Mahler, R. Strauss, Schönberg), and the visual arts (Klimt, Schiele, Kokoschka, O. Wagner, A. Loos). We will explore the significance of various intellectual phenomena, including the psychoanalysis of Freud and the philosophies of Ernst Mach and Ludwig Wittgenstein. We shall also trace the emergence of modern Zionism (Theodor Herzl) in a context of growing anti-Semitism, and discuss the pacifism of Bertha von Suttner in a society on the verge of the cataclysm of the First World War. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Rogowski.

52. Kafka, Brecht, and Thomas Mann. Representative works by each of the three contemporary authors will be read both for their intrinsic artistic merit and as expressions of the cultural, social, and political concerns of their time. Among these are such topics as the dehumanization of the individual by the state, people caught between conflicting ideologies, and literature as admonition, political statement, or escape. Readings of short stories and a novel by Kafka, including "The Judgment," "The Metamorphosis," and *The Castle*; poems, short prose, and plays by Brecht, e.g., *The Three-Penny Opera*, *Mother Courage*, and *The Good Woman of Setzuan*; fiction and essays by Mann, including "Death in Venice" and *Buddenbrooks*. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Brandes.

54. Nietzsche and Freud. Modern thinking has been profoundly shaped by Nietzsche's radical questioning of moral values and Freud's controversial ideas about the unconscious. The course explores some of the ways in which German literature responds to and participates in the intellectual challenge presented by Nietzsche's philosophy and Freud's psychoanalysis. Readings include seminal texts by both of these figures as well as works by Rilke, Thomas Mann, Hermann Hesse, Musil, Schnitzler, and Expressionist poets. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Rogowski.

60. Performance. What is performance? What constitutes an event? How can we address a phenomenon that has disappeared the moment we apprehend it? How does memory operate in our critical perception of an event? How does a body make meaning? These are a few of the questions we will explore in this course, as we discuss critical, theoretical, and compositional approaches in a broad range of multidisciplinary performance phenomena emerging from European—primarily German—culture in the twentieth century. We will focus on construction, representation, space, gender, and dynamism. Readings of performance theory, performance studies, gender studies, and critical/cultural studies, as well as literary, philosophical, and architectural texts will accompany close examination of performance material. Students will develop performative projects in various media (video, performance, text, WWW) and deliver a number of critical oral and written presentations on various aspects of the course material and their own projects. Performance material will be experienced live when possible, and in text, video, digital media and Internet form, drawn from selected works of Dada and Surrealism, Bauhaus, German Expressionism, the Theater of the Absurd, Tanztheater, and Contemporary Theater, Performance, Dance, Opera, New Media, and Performance Art. A number of films, including *Das Cabinet des Dr. Caligari*, Oskar Schlemmer's *Das Triadische Ballett*, Fernand Léger's *Ballett Mécanique*, and Kurt Jooss' *Der Grüne Tisch*, will be also screened. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Second semester. Professor Gilpin.

61. Digital Cultures. This course examines the interactions between contemporary critical and cultural theory and digital cultures, addressing issues of identity construction, gender, corporeal vs. psychic presence, interactivity, bodily motion and motion capture, community, interface, performativity, duration, and representation. We will be looking at work produced internationally, and will focus our attention on interactive projects created in Germany, where a tremendous amount of new media works have been created recently. We will also explore material from Websites and from recent international symposia and exhibitions of electronic art, and view a number of films.

Readings will be drawn from theoretical, literary, philosophical, psychoanalytic, and architectural texts, as well as from multimedia-authoring texts, exhibition catalogs, and international cybermagazines. Students will develop and produce projects involving text, still and moving image, and sound, in digital format. No previous experience with computers is required. Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Gilpin.

62. Contemporary Issues. This course examines issues at the forefront of contemporary debates. The topic varies from year to year. The topic for spring 2003 was "The Body." What is the body? How do we think of it, or ignore it? What do we, and don't we, understand of it? What constitutes corporeality, and how does it affect how we think, dream, and move about in the world? How does the body operate as a political, historical, spatial, spiritual site? How have writers, artists, engineers, and pathologists used the body or conceptions of the body as a source of cultural dramaturgy, as translating agents, as museums of information and emotion? This course involves a multidisciplinary excavation of "the body" and "bodies," how they function, and how they create meaning, through historical and contemporary lenses of architecture, literature, the politics of identity, the philosophy and psychology of perception, anatomy and pathology, still

and moving images, animation, puppetry, robotics, and performance. Among the many materials addressed are the first International Hygiene Exhibition (1911), the monumental "German Hygiene Museum" (1930), and the exhibition "Körperwelten: Die Faszination des Echten" (Worlds of Bodies: the Fascination of the Real). Conducted in English, with German majors required to do a substantial portion of the reading in German.

Omitted 2004-05. Professor Gilpin.

63. Traumatic Events. How is memory constructed and represented? How is it possible to bear witness, and what exactly is involved? Who is authorized to testify, to whom, when? Whose story is it? Is it possible to tell "the story" of a traumatic event? What are the disorders of testimony, and how and where do they emerge? This course will observe the workings of trauma (the enactment and working-through of collective and individual symptoms of trauma), memory, and witnessing in various modes of everyday life. We will examine notions of catastrophe, disaster, accident, and violence, and explore the possibilities and impossibilities of bearing witness in many forms of cultural production: in fiction, poetry, architecture, critical theory, oral and written testimonies, visual art, monuments, memorials, philosophy, science, cartoons, film, video, theater, television reportage, newspaper documentation, performance, on the Internet, and in our public and domestic spaces. We will study various representations of trauma, paying particular attention to events in Germany and Europe from the twentieth century, as well as to 9/11 and other recent international events. Material to be examined will be drawn from the work of Pina Bausch, Joseph Beuys, Christian Boltanski, Cathy Caruth, Paul Celan, Marguerite Duras, Peter Eisenmann, Shoshana Felman, Florian Freund, Jochen Gerz, Geoffrey Hartman, Rebecca Horn, Marion Kant, Anselm Kiefer, Ruth Klüger, Dominick LaCapra, Claude Lanzmann, Dori Laub, Daniel Libeskind, W.G. Sebald, Art Spiegelman, Paul Virilio, Peter Weiss, Wim Wenders, Elie Wiesel, Christa Wolf, and others. Conducted in English, with German majors required to do a substantial portion of the reading in German.

First semester. Professor Gilpin.

OTHER COURSES

77, 78. Senior Departmental Honors.

First and second semesters. The Department.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. The Department.

HISTORY

Professors Bezucha†, Campbell‡, Chetty†, Couvares, Czap, Dennerline‡, Hunt, Levin (Chair), Redding, Sandweiss*, Servot†, and K. Sweeney; Associate Professor Saxton*; Assistant Professors Brandt*, Epstein, López, Moss, and Ringer; Andrew W. Mellon Visiting Assistant Professor Young.

History is the disciplined study of the past. Through it we seek to cultivate the human need to know where we have come from and to capture the ways in

*On leave 2004-05.

†On leave first semester 2004-05.

‡On leave second semester 2004-05.

which the past both burdens and inspires humankind. History includes the study of diverse peoples and individuals in times vastly different from our own as well as the study of events that are currently unfolding. Studying history also involves the study of historians, their writing and their influence on our understanding of the past. Historical writing can focus on specific issues, such as ideas, belief systems, social and economic structures, political institutions, or the lives of ordinary as well as extraordinary men and women. It helps us acquire greater respect for the past and greater humility about the present, to appreciate the lesson that purposive actions often have unanticipated consequences, to reflect about the relationship between social structures and individual thought and action, and to question easy assumptions about the constancy of "common sense" or the inevitability of our own ideas and conventions. Although historians may concentrate their efforts on particular times and places, or emphasize different aspects of the past, they share an interest in change over time and in the rigorous use of methods and sources that help us to understand such change. Courses in this department aim to stimulate independent and creative thought both about the many varieties of history and the evidence from which those histories are crafted.

Major Program. History majors, in consultation with their advisors, design a course of study that combines a broad and meaningful distribution of historical subjects and methods with a concentration that develops analytical skills. All History majors are required to take nine courses. One of these must be History 99, taken normally in the junior or senior year, preferably after completion of two or more other history courses. Those majors who wish to write a thesis must fulfill these requirements and, in addition, take at least two courses, normally History 77 and 78, toward the completion of their thesis.

All History majors must include as one of their courses for the major a *seminar* in which they write a substantial research paper that conforms to the department's "Guidelines for Research Papers," and that is guided by individual consultation with the instructor. (History 99, *Proseminar in History*, does *not* fulfill this requirement.) A student who contemplates writing a thesis in the senior year must complete the research paper by the end of the junior year. A student not intending to write a thesis may delay taking an appropriate seminar and completing the paper until the senior year. In exceptional circumstances and with the approval of the student's advisor and Department, a student may write the research paper in a seminar at another institution or for a course not designated as a seminar (with the consent of the instructor), as long as the paper conforms to the department's "Guidelines for Research Papers."

Concentration within the major. In completing their major, history students must take four courses either in the history of one geographical region (chosen from the six possibilities listed below), or in the history of a particular historical topic (for example, colonialism or nationalism), or in a comparative history of two or more regions, chosen by the student. The geographical regions are as follows: 1) the United States (US); 2) Europe (EU); 3) Asia (AS); 4) Africa and the diaspora (AF); 5) Latin America and the Caribbean (LA); 6) the Middle East (ME). Each student shall designate a concentration in consultation with his or her advisor.

Breadth requirements for the major. History majors must take courses from at least three of the six geographical regions listed above. In addition, all majors must take either two courses that focus on a pre-1800 period^(f) or one pre-1800 course and one course in comparative history^(c).

Comprehensive Evaluation. Students writing senior theses thereby fulfill the Department's comprehensive requirement. Other majors will demonstrate before the middle of their last semester both general and special historical knowledge in essays assigned and read by an evaluating committee of Faculty, and discussed in a colloquium of seniors and Faculty members.

Departmental Honors Program. The Department recommends Latin Honors for seniors who have achieved distinction in their course work and who have completed a thesis of Honors quality. Students who are candidates for Latin Honors will normally take two courses, History 77 and History 78, in addition to the courses required of all majors. With the approval of the thesis advisor, a student may take either History 77 or History 78 as a double course. In special cases, and with the approval of the entire Department, a student may be permitted to devote more than three courses to his or her thesis.

Course Levels in the Department of History. *Introductory level* courses assume little or no previous college or university level experience in studying history either in general or in the specific regions covered by the courses. They are appropriate both for students new to the Department's offerings and for those who wish to broaden their historical knowledge by studying a region, topic, or period that they have not previously explored. *Intermediate level* courses usually focus on a narrower region, topic, or historical period. Although most intermediate level courses have no prerequisites (see the individual course listings), they assume a more defined interest on the part of the student, and are appropriate for those who wish to enhance their understanding of the specific topic as well as their analytical and writing skills. *Seminars* (upper-level courses) usually require the student to complete an independent research paper that satisfies the "Guidelines for Research Papers." They are appropriate both for history majors as a way of fully comprehending and practicing the craft of the historian, as well as for non-history majors who wish to pursue a topic in depth.

Key for concentration and breadth requirements for the major: US (United States); EU (Europe); AS (Asia); AF (Africa and the diaspora); LA (Latin America and the Caribbean); ME (Middle East); ^P (Pre-1800); ^C (Comparative).

INTRODUCTORY COURSES

01. From the Roman Mediterranean to Old Europe. (EU^P) "Old Europe" is the term historians use to label the political, social, and cultural world that came into existence on the European continent during the long 12th century and that endured until the late 18th century in the west and the 19th in the east. What happened before, during that half millennium usually talked about as the "fall of the Roman Empire"? To answer this question the course will explore themes ranging from demographic trends and ecological history to Christianization and the transformation of elites. What then stimulated the growth of social and political practices and institutions, some of which survived the revolutions around 1800 to be with us still—the medieval Church, the monarchies with their attendant train of laws, courts, taxes, armies, the independent cities, aristocracies, merchants, and peasants, but also "heretics," "witches," and other persecuted groups? These will be the themes of the second half of the course. Lectures and discussion. Three class meetings per week.

Second semester. Professor Cheyette.

03. Europe in the Twentieth Century. (EU) This course offers a broad survey of European history in the twentieth century. It will cover events such as World

War I; the Bolshevik Revolution and the ensuing Soviet experiment; the Spanish Civil War; Nazism, World War II, and the Holocaust; the Cold War in Europe; the collapse of communism; and the Balkan Wars in the 1990s. In addition, the course will focus on the broad themes of twentieth-century European history: the confrontation between liberalism, fascism, and communism; the role of nationalism; the development of the welfare state; the decline of Europe's role in the world; the movement for European unity; and changing notions of race, class, and gender during the course of the century. Course materials will focus on primary documents, including films, memoirs, novels, political manifestos, and government and other official documents.

Second semester. Professor Epstein.

04. Exploring Europe in the Modern Age. (EU^P) An introduction to the study of Europe's past since the mid-fifteenth century. The course is organized in the form of a virtual Grand Tour of historic sites around the continent. Moving chronologically, it starts at the walls of Constantinople/Istanbul (breached by the Ottoman Turks in 1453) and ends at the remnant of the Berlin Wall (destroyed since 1989). Lectures and discussion of written and visual documents focus on three major themes: the State, toleration (and intolerance) of minorities, and imperialism/globalization. Assigned materials include a textbook for background reading. Two class meetings per week.

Omitted 2004-05. Professor Bezucha.

05. Russia: A History of Russia Until Approximately 1800. (EU^P) An examination of the roots of Russian culture in the Kievan and Muscovite periods; the development of social and political institutions in the Imperial period, including serfdom and bureaucratic absolutism. The course will consider new thinking about early Russia in light of the recent disappearance of the imperial structure of the Soviet state. Three class meetings per week.

Omitted 2004-05. Professor Czap.

06. Russia: A History of Late Imperial and Soviet Russia. (EU) As Russia struggles today to redefine itself as a democratic, non-imperialist multi-ethnic state and nation with a market-oriented economy, the country's experience at the turn of the century and the early years of the Soviet era have taken on urgent relevance for Russian scholars, politicians and economists. The course will examine Russia's economic take-off and superindustrialization; collapse of the autocracy and moves toward constitutional monarchy and "Soviet democracy"; land reform and forced collectivization; Russification and Soviet multi-nationalism; ideologies of reform and revolution. We will also consider new interpretations of the 1917 Revolution that have emerged since the collapse of the Soviet Union. Two class meetings per week.

First semester. Professor Czap.

07. France Since 1815. (EU) This course will explore the history of modern France since 1815 through focused discussion of some of its more important and enduring issues. The signature dilemmas and conflicts of modernity have played themselves out with a particular drama in France over the last two centuries. We will range freely across that history, considering, for example, France's bitter, often fratricidal politics, bred of an unresolved revolutionary legacy, and its experience of the great peril and possibility of modernization in social, economic and cultural life, as the nation has struggled to reconcile modernity with the desire to remain rooted in certain traditions. We will track France's changing place in the world, from an imperial world power with universalist pretensions to a post-colonial power of declining global influence, with the "world"

increasingly—and to some, disturbingly—present within its borders. The final section of the course will consider France's current challenges in adapting to its global and multicultural present, and its ongoing tensions with America and the American model of liberal modernity. Throughout, we will consider a great variety of perspectives and evidence, including not only scholarly monographs but also autobiographical memoirs, fiction, photography, consumer culture artifacts and film. Two class meetings per week.

Second semester. Professor Young.

08. Colonial North America. (US^P) A survey of early American history from the late 1500s to the mid-1700s. The course begins by looking at Native American peoples and their initial contacts with European explorers and settlers. It examines comparatively the establishment of selected colonies and their settlement by diverse European peoples and enslaved Africans. The last half of the course focuses on the social, economic, political, and cultural conditions influencing the rise of the British colonies. Three class meetings per week.

First semester. Professor Sweeney.

09. Nineteenth-Century America. (US) A survey of American history from the early national period to the turn of the century, with an emphasis on social history. The course will trace the growth of slavery, Civil War and Reconstruction, the rise of postwar large-scale industry, and big cities. Topics will include changing ethnic, racial, gender, and class relations, the struggles between labor and capital, and the emergence of middle-class culture. The format will include lectures and weekly discussions; readings will be drawn from both original and secondary sources. Two class meetings per week.

Omitted 2004-05. Professor Saxton.

10. Twentieth-Century America. (US) The course traces United States political, social, and cultural history from 1900 to the present. Among the topics covered are the rise of the modern corporation, class conflict and the Progressive movement; immigration, ethnic pluralism, and the rise of mass culture; the Great Depression and the New Deal; World War II, the Cold War, and McCarthyism; the civil rights and women's movements, the New Left, the New Right, and the continuing inequalities of race and class. Films and videos will regularly supplement class readings. Three class meetings per week.

Second semester. Professor Couvares.

11. Pre-Columbian Civilizations of Latin America and the Caribbean. (LA^P) Geographically the course will focus on Mesoamerica, the Caribbean and South America, where the initial effects of Spanish contact were most intense. The societies to be studied will include those of the Arawaks and the Caribs as well as the ancient civilizations of the Aztecs, the Mayas and the Incas. We will examine closely the nature and structure of these civilizations (some of which were empires), the mentality of the people, how they designed their way of life and how their cultural predispositions affected their interactions with the Europeans. The course will rely heavily on primary source material, including Spanish Chronicles, but particular attention will be given to native accounts. How did they view the processes of discovery, contact and the eventual destruction of their societies and how did they finally respond? Their voices will serve as counterpoints to the more familiar European accounts: "The New World Civilization that they [the Chroniclers] were describing was alien to them, however actively it may have aroused their curiosity, and however successful they may have been in entering into the spirit of it by an act of historical imagination"—Arnold J. Toynbee. Although the course will be taught

by an historian, guest speakers representing other disciplines, including Mesoamerican and Andean art specialists, will participate, making the course a true multi-disciplinary effort. Two class meetings per week.

Limited to 30 students. First semester. Professor Campbell.

12. Peoples and Cultures of the Caribbean. (LA or AF) An introduction to the Caribbean and the indigenous peoples as seen through the eyes of Columbus and Spanish and French clerics later, alerting students to the problems of ethnohistory. It will proceed to trace the evolution of the region into one of racial and ethnic diversity, encompassing Europeans, Africans, Amer-Indians, Black Caribs, Asians and others. The emphasis of the course is on social history and popular culture, dealing with such topics as folklore, movements such as Garveyism, *Rastafarianism* and nationalism; religious "cults" like *vaudum*, *Santeria*, *pocomania*, the *Shango* and the music like *Reggae* and *Calypso* connected with some of these groups. Lectures and discussions of written and visual material. Two class meetings per week.

Limited to 25 students. Omitted 2004-05. Professor Campbell.

13. Colonialism and Resistance in Latin America, 1492-1820. (LA^P) The course will cover the clash between indigenous and European societies as played out through the conquest. It will then address the issues of how Spain (as well as Portugal) created one of history's most enduring colonial systems, and why this system eventually collapsed. We will also consider the lingering effects of Latin America's colonial past. Coverage includes core regions (Mexico, Brazil, Peru, Caribbean) as well as "fringes" (Colombia, Rio Plata Region, Venezuela, and the present-day U.S. Southwest). Themes include: formation of economic and political systems, religious conversion, slavery, race, gender, political reform, and popular mobilization. Secondary readings and discussions supplemented by original documents, fiction, visual materials, and lectures. Two class meetings per week.

First semester. Professor López.

14. Struggles for Democracy in Modern Latin America, 1820 to the Present. (LA) A survey of the social, political, cultural, and economic history of Latin America from Independence (at the start of the nineteenth century) to the present. The approach is thematic and chronological. As a consequence, some countries and regions (Mexico, Brazil, Chile, Argentina, and Central America) will receive more attention than others (Paraguay, Uruguay, Ecuador, and Venezuela). Major themes include the emergence and consolidation of nation-states; changing ideas of race and gender; development of capitalist economies; the complex role of the U.S. in the region; radicalization among workers, peasants, students, and priests; and the production of historical knowledge. Discussions and secondary readings will be supplemented by original documents, fiction, movies, lectures, and visual materials. Two class meetings per week.

Second semester. Professor López.

15. Chinese Civilization. (AS^P) (Also Asian 24.) A survey of Chinese history from ancient times to the eighteenth century. We will focus on texts and artifacts to explore the classical roots and historical development of Chinese statecraft, philosophy, religion, art, and literature. Using these media for evidence, we will trace the histories of inter-state relations, imperial institutions, global commerce, and family-based society through the ancient Han empire, the great age of Buddhism, the medieval period of global trade, and the Confucian bureaucratic empires that followed the Mongol world conquest. We will also compare these histories to those of European and other civilizations, considering

Chinese and non-Chinese views of the past. Readings include the *Analects of Confucius* and other Confucian and Daoist texts, Buddhist tales and early modern fiction, selections from the classic *Records of the Grand Historian (Shiji)*, and Jonathan Spence's *Emperor of China: Self-portrait of Kangxi*. Two class meetings per week.

First semester. Professor Dennerline.

16. Modern China. (AS) (Also Asian 46.) A survey of Chinese history from the Manchu conquest of 1644 to the present. Beginning with the successes and failures of the imperial state as it faced global economic development, expanding European empires, and internal social change, we will study the Opium War, massive nineteenth-century religious rebellions, Republican revolution and state-building, the "New Culture" movement, Communist revolution, the anti-Japanese war, Mao's Cultural Revolution, and the problems of post-Mao reform, all with comparative reference to current events. Readings, which include a wide variety of documents such as religious and revolutionary tracts, eye-witness accounts, memoirs, and letters, are supplemented by interpretive essays and videos. Two class meetings per week.

Omitted 2004-05. Professor Dennerline.

17. Japanese History to 1600. (AS^P) (Also Asian 25.) An introduction to the distinctive ideas, society, polity, and culture of early Japan. Through lectures, readings and discussion, the course will explore critical problems of Japan's early history: Shinto mythology and the origins of Japanese civilization; the influence of T'ang China and Buddhism on the formation of the early imperial state in the seventh and eighth centuries; the Heian courtly tradition as reflected in the tenth-century literary works of women; the rise of a new warrior class (samurai) and their culture of Zen, tea, and the sword; civil war and unification in the sixteenth and seventeenth centuries; and the first encounter with the West. Two class meetings per week.

First semester. Professor Brandt.

18. Modern Japan. (AS) (Also Asian 47.) Between 1850 and 1970 Japan underwent rapid and profound change. The peaceful isolation of the Tokugawa state gave way to world-power status, wars, and finally foreign occupation. Export-driven industrialization replaced a largely self-sufficient agrarian economy. A highly stratified society of peasants and their samurai rulers became a democracy that idealized the urban white-collar middle class. How did this happen, and why? This course draws upon primary documents, literature, and film to investigate the process by which Japan became modern. We will ask what was lost as well as gained by this process for different groups within Japan, and also for Japan's nearest Asian neighbors. Two class meetings per week.

Second semester. Professor Brandt.

19. Middle Eastern History: 600-1800. (ME^P) (Also Asian 26.) This course surveys the history of the Middle East from the outset of the Islamic period to the beginning of the modern period. It is divided into the following segments: the formative period of Islam, the classical caliphates, the medieval courts, the Mongols, and the great empires of the Ottomans and the Safavids. The course is organized chronologically and follows the making and breaking of empires and political centers; however, the focus of the course is on the intellectual, social, cultural and religious developments in these periods. Two class meetings per week.

First semester. Professor Ringer.

20. The Modern Middle East: 1800-Present. (ME) (Also Asian 48.) This course surveys the history of the Middle East from 1800 to the present. The focus is on the political, social and intellectual trends involved in the process of modernization and reform in the Middle East. General topics include the Ottoman Empire and its decline, the impact of European imperialism and colonialism, programs of modernization and reform, the construction of nationalism and national identities, Islamism, development and contemporary approaches to modernity. Two class meetings per week.

Second semester. Professor Ringer.

22. Colonial and Post-Colonial Africa. (AF) This is a history of Africa from the late nineteenth century to the present day. In the first half of the course, we will study the imperial scramble to colonize Africa, the integration of African societies into the world economy, the social and ecological impact of imperial policies, and the nationalist struggles that resulted in the independent African states. We will also examine the divisiveness of ethnicity in post-colonial states. In the final half of the course, we will investigate three cases: Congo-Zaire and the state as a source of chaos; *mau mau* in Kenya and the internecine nature of the revolt; and the guerilla war and recent land-seizure in Zimbabwe. Three class meetings per week.

Second semester. Professor Redding.

INTERMEDIATE-LEVEL COURSES

27. Culture and Society in the Italian Renaissance. (EU^P) Through an analysis of selected works by Petrarch, Ghiberti, Machiavelli, Benvenuto Cellini, Monteverdi, and other writers, artists and composers, and discussion of contemporary diaries, letters, government records, etc., the course will consider the relationship of artists to patrons and the larger role of clientage and patronage in the society of Renaissance Italy. Special emphasis will be placed on Florence. Two class meetings per week.

Second semester. Professor Cheyette.

28. Topics on the Caribbean: Haiti and the French Caribbean. (LA or AF) This course focuses on political culture, attitudes toward statehood, and political leadership from the Haitian revolution of 1791-1804 to the present. From Toussaint Louverture, who led the revolution without contemplating a break with France, through Aimé Césaire, a proponent of alignment of Martinique, Guadeloupe, and French Guiana with France in 1946, to the Maastricht Treaty of 1992, which brought the territories into the European Union, the leaders of the French Caribbean have distinguished themselves from those of the Anglophone zone. In contrast to the world-wide trend toward decolonization and political independence, these territories chose status as "overseas departments" (*départements d'outremer*, DOM). We will examine the theory and practice of French assimilation policy and its critics, who termed it "cultural genocide." We will also explore the economic, political, and social impact of the American occupation of Haiti (1915-1934), the French occupation of Martinique (1939-1945), and the relentless angst over identity they further engendered, leading to the Indigenous Movement and theoretical constructs such as *Negritude*, *Antillanité*, and *Créolite*. Haiti will receive separate treatment as an independent country, and its relationship with the DOM territories will be discussed. Readings will include historical narratives, novels, and selections from the writing of Jean Price-Mars, Jacques Roumain, Frantz Fanon, Aimé Césaire, Leon-Gontran Damas, Edouard Glissant, and others. All readings will be in English. Two class meetings per week.

Omitted 2004-05. Professor Campbell.

29. The Reformation Era, 1500-1660. (EU^P) The course begins with writings by the great reformers (Erasmus, Luther, Calvin, and Loyola), using them as a basis for examining the relationship between religious ideas, individual temperament, and social, political, and cultural change. It then takes up the connection between Protestantism and the printing press, the role of doctrinal conflict in the evolution of urban institutions, the rise of antisemitism, the significance of the Reformation for urban women, the social impact of the Counter-reformation, and the role of religious millenarianism in the German Peasants' Revolt of 1525, the English Revolution of 1640, and the Thirty Years' War. Readings include several classic interpretations of the Reformation as well as recent works in social history, urban history, women's history, and the history of popular culture. Two class meetings per week.

Second semester. Professor Hunt.

30. The European Enlightenment. (EU^P) This course begins with the political, social, cultural and economic upheavals of late seventeenth-century England, France, and the Netherlands. The second part of the course will look at the Enlightenment as a distinctive philosophical movement, evaluating its relationship to science, to classical antiquity, to organized religion, to new conceptions of justice, and to the changing character of European politics. The final part will look at the Enlightenment as a broad-based cultural movement. Among the topics discussed here will be the role played by Enlightened ideas in the French Revolution, women and non-elites in the Enlightenment, the rise of scientific racism, pornography and libertinism, and the impact of press censorship. Readings for the course will include works by Descartes, Locke, Montesquieu, Voltaire, Rousseau, Diderot, Hume, Adam Smith, Choderlos de Laclos, Kant and Madame Roland. Two class meetings per week.

Omitted 2004-05. Professor Hunt.

31. The World of Things: Consumer Cultures in Europe and America. (C) This course will examine the emergence and historical impact of consumer cultures in the modern West, from the eighteenth century through the present. It will begin with brief consideration of classic and more recent theoretical approaches to the commodity and its place in social life and culture, including Marxist, anthropological and postmodern perspectives, among others. It will then move through analysis of the successive historical "regimes" of consumption, beginning with the aristocratic/luxury ethos of the eighteenth century but focusing in particular upon the high bourgeois and popular "mass" consumption of the nineteenth and twentieth centuries. Some of the topics to be covered will include the emergence of spaces of consumption (the home, the commercial/spectacular metropolis, the department store, the shopping mall, the tourist site), changing attitudes toward shopping and spending, the construction of modern social identities of class, gender, generation and race through consumption, and political struggles over consumption. Our aim throughout will be to discern how the structures, practices and mentalities of western, and now global, modernity have been forged partly in the world of things. Two class meetings per week.

First semester. Professor Young.

32. The Era of the French Revolution. (EU^P) The history of France during the thirty turbulent years separating the start of the ill-fated reign of Louis XVI in 1774 and the imperial coronation of Napoleon Bonaparte in 1804. Two class meetings per week.

First semester. Professor Bezucha.

33. Modern Germany. (EU) This course will explore the history of Germany since 1871. It will examine unification, as well as militarism and colonialism in Imperial Germany; Germany in World War I; the politics of culture in Weimar Germany; Nazi Germany, including Nazi racial ideology, World War II, and the Holocaust; communist East Germany and the revolution of 1989; and the evolution of democracy in West and now united Germany. The course will consider major questions of modern German history: Did Germany pursue a peculiar path of development in the nineteenth century? Was the Nazi rise to power inevitable? How did the Nazi past shape East and West Germany? How did Germany become a stable democracy after 1945? Finally, the course will explore recurring themes in German history such as authoritarianism and dictatorship, and continuities and ruptures in political, social, and cultural history. Texts will include films, slides, fiction, memoirs, diaries, government documents, and classic and recent secondary accounts. Two class meetings per week.

Omitted 2004-05. Professor Epstein.

34. Nazi Germany. (EU) This course will explore the history of Nazi Germany from 1933 to 1945. It will examine the emergence of Hitler and Nazism in Germany, Nazi ideology and aesthetics, Nazi racial policies, daily life in the Third Reich, women under Nazism, resistance to the Nazis, Nazi foreign policy and World War II, the Holocaust, and the Nuremberg War Crimes Trial. Class participants will also discuss themes that range beyond the Nazi case: How do dictatorships function? What constitutes resistance? How and why do regimes engage in mass murder? Texts will include films, diaries, memoirs, government and other official documents, and classic and recent scholarly accounts of the era. Two class meetings per week.

First semester. Professor Epstein.

38. The Era of the American Revolution. (US^P) Surveying the period from 1760 to 1815, this course examines the origins, the development and the more immediate consequences of the American Revolution. The course looks at the founding of the American republic as an intellectual debate, a social movement, a military conflict, an economic event and a political revolution. Three class meetings per week.

Second semester. Professor Sweeney.

39. Native American Histories. (US) This course examines selectively the histories and contemporary cultures of particular groups of American Indians. It will focus on Algonquian- and Iroquoian-speaking native peoples of the east in the period from 1600 to 1800; Indians of the northern plains during the 1800s and 1900s; and the Pueblo and Navajo peoples from the time before their contacts with Europeans until the present day. Through a combination of readings, discussions, and lectures, the course will explore the insights into Native American cultures that can be gained from documents, oral traditions, artifacts, films and other sources. Two class meetings per week.

Second semester. Professor Sweeney.

40. Women of Color: Witnesses to American History. (US) (Also Women's and Gender Studies 40.) See Women's and Gender Studies 40.

Omitted 2004-05. Professor Saxton.

41. African-American History from the Slave Trade to Reconstruction. (US; or may be included in AF concentration, but not AF for distribution in the major) (Also Black Studies 57.) See Black Studies 57.

Combined enrollment limited to 50 students. First semester. Professor Moss.

42. African-American History from Reconstruction to the Present. (US; or may be included in AF concentration, but not AF for distribution in the major) (Also Black Studies 58.) See Black Studies 58.

Combined enrollment limited to 50 students. Second semester. Professor Moss.

44. The Old South, 1607-1876. (US^P) This course will examine southern culture, politics and economic life from its origins up to the Civil War. Primary and secondary readings will cover issues including the roots of slavery and the development of a distinctive Afro-American culture, the rise of a planter aristocracy based on staple crop cultivation, and the evolution of a westward expanding backcountry. The course will focus on the growth and expression of southern ideas of freedom as they played out in the Revolution, Indian removal, and the sectional crisis. Two class meetings per week.

Omitted 2004-05. Professor Saxton.

45. Women's History, America: 1607-1865. (US^P) (Also Women's and Gender Studies 63.) This course looks at the experiences of Native American, European and African women from the colonial period through the Civil War. The course will explore economic change over time and its impact on women, family structure and work. It will also consider varieties of Christianity, the First and Second Awakenings and their consequences for various groups of women. Through secondary and primary sources and discussions students will look at changing educational and cultural opportunities for some women, the forces creating antebellum reform movements, especially abolitionism and feminism, and women's participation in the Civil War. Two class meetings per week.

Omitted 2004-05. Professor Saxton.

47. Women and Politics in Twentieth-Century America. (US) (Also Women's and Gender Studies 67.) This course will look at a number of political battles women have fought over the last one hundred years, beginning with suffrage, and including protective legislation and benefits for mothers and children. It will look at women's experiences in the Civil Rights and anti-war movements and the development of Second Wave Feminism as well as the many feminisms that emerged in its wake. Students will study the backgrounds of, and engage in debate about, a number of current battles including those over reproductive rights, pornography, and sexual harassment. We will make an effort to relate these controversies to earlier themes in twentieth-century women's politics. Two class meetings per week.

Limited to 25 students. Omitted 2004-05. Professor Saxton.

48. Church, Family and Culture in Nineteenth-Century America. (US) (Also Women's and Gender Studies 66.) This course will look at antebellum experience through the lenses of religion, family, and literary, artistic and regional culture. Using a mix of primary and secondary sources, students will trace the changing moral values guiding education as well as the varieties of Christianity that gave shape to different forms of activism. It will also track changing family ideologies, the responsibilities of parents and constructions of childhood and adolescence. The course will include texts reflecting the experiences of family members, reformers, slaves, free blacks, evangelical Christians and Native Americans. It will look at artistic and literary representations of sectional themes and events like Indian Removal, westward expansion, The Fugitive Slave Law and the Dred Scott decision. Two class meetings per week.

Omitted 2004-05. Professor Saxton.

49. American Diplomatic History I. (US) This course will survey the history of American foreign relations from the American Revolution through the First World War.

Omitted 2004-05. Professor Levin.

50. American Diplomatic History II. (US) This course will survey the history of American foreign relations from the First World War to the Korean War.

Omitted 2004-05. Professor Levin.

51. American Diplomatic History III. (US) This course will survey the history of American foreign relations from the Korean War to the end of the Cold War.

Second semester. Professor Levin.

52. U.S. Latino/a History. (LA) An introduction to the history of U.S. Latinos/as in the nineteenth and twentieth centuries. Central themes include ethnic and national identity, community formation, cultural imperialism, migration, gender, art, and political mobilization. Most U.S. Latino groups will be addressed, but the concentration will be on Chicanos and Puerto Ricans, with a secondary emphasis on Dominicans and Cubans. The first half covers the nineteenth century through WWII to consider how U.S. imperialism in the Caribbean, Central America, and the present-day U.S. Southwest related to social, political, and economic changes within emerging Latino societies. The second half of the course traces the rise of radical politics after WWII; the emergence of the Chicano and Puerto Rican Movements; and the more recent turn toward a Pan-Latino or Hispanic identity. Discussions and secondary readings supplemented by original documents, fiction, film, lectures, and visual materials. Two class meetings per week.

Omitted 2004-05. Professor López.

53. Popular Revolutions in Modern Mexico. (LA) Few countries are as well known, yet so poorly understood, as is Mexico among North Americans. Stereotypes of illegal immigration, violence, and drug smuggling often take the place of real understanding. As a result, few North Americans appreciate their neighbor's historical struggles to achieve political stability and economic prosperity. The goals of the course are two-fold: (1) to provide students with a general overview of the course of Mexican history, focusing not only on the dominant narrative, but also on the experience of subaltern groups (including women, indigenous peoples, peasants, and those from the periphery); and (2) to grapple with the question of what genuine social revolution looks like, how it unfolds, and to what degree it has been attained in Mexico. Discussions and secondary readings will be supplemented by original documents, testimonials, on-line materials, movies, images, music, and art. Two class meetings per week.

First semester. Professor López.

54. Environmental History of Latin America. (LA) Environmental history has taken off in exciting new directions. Lamentations about the felling of the trees have given way to larger questions that connect environmental history with social, political, and economic issues. What unexpected links exist between environmental problems (such as environmental degradation, desertification, soil salination, species extinction, biotic invasions, deforestation, and animal grazing) and human problems (such as declining subsistence, income inequality, scientific racism, regional underdevelopment, incomplete capitalist transformation, social marginalization, and political violence)? Taking environmental history seriously forces us to revise our understanding of social changes, the rise and fall of civilizations, and contemporary problems of political instability. And putting current environmental debates into historical context enables us to ask: What models of

environmental activism have worked in Latin America, and which have not? Why? Can history guide us in our current efforts to develop a sustainable approach to the environment that helps the land and its fauna but does so in a way that brings greater justice and self-determination to the people who live there, while at the same time balancing the interests of the state and of investors? Discussion and secondary readings will be supplemented by original documents, testimonials, on-line materials, movies, images, and art. Two meetings per week.

Second semester. Professor López.

55. Caribbean History. (LA or AF) This course will see the Caribbean as an area of European expansionism, identifying systems such as the *encomienda*, the *Repartimiento* and the institutional complex of the plantation slave economy, its eventual abolition and the transition of the society from slavery through colonialism to independence. It will deal with post-emancipation labor dynamics, metropolitan control, race, color, class and caste in the society, the growth of trade unions and their interrelationships with political parties, the movement toward Federation, its failure, and the independence trend making for fragmentation. Attention will be paid to the new linkages being forged in the area. The approach at times will be island specific (French, Spanish, English, Danish, Dutch), or thematic. Two class meetings per week.

Omitted 2004-05. Professor Campbell.

57. China in the World, 1895-1919. (AS) (Also Asian 49.) In 1895 the emergent Japanese empire imposed a humiliating defeat on the declining Qing empire in China, began the colonization of Korea and Taiwan, and set in motion the reformist and revolutionary trends that would shape the political culture of the Chinese nation in later times. In 1919, concessions by the Chinese warlord regime in Beijing to Japan at Versailles sparked the student movement that would further radicalize the political culture and ultimately divide the nation politically between Nationalist and Communist regimes. This course focuses on the intellectual, cultural, political, and economic issues of the era in between, when, despite the weakness of the state, the creative visions and efforts of all informed people were in line with those of progressives throughout the world. We will explore these visions and efforts, with special reference to national identities, civil society, and global integration, and we will consider their fate in wartime, Cold War, and post-Cold War Asia. Two class meetings per week.

First semester. Professor Dennerline.

61. The History of Israel. (ME) This course will survey the history of Israel from the origins of Zionism in the late nineteenth century to the present. Two class meetings per week.

Second semester. Professor Levin.

62. Women in the Middle East. (ME) (Also Asian 63 and Women's and Gender Studies 62.) The course examines the major developments, themes and issues in women's history in the Middle East. The first segment of the course concerns the early Islamic period and discusses the impact of the Quran on the status of women, the development of Islamic religious traditions and Islamic law. Questions concerning the historiography of this "formative" period of Islamic history, as well as hermeneutics of the Quran will be the focus of this segment. The second segment of the course concerns the 19th- and 20th-century Middle East. We will investigate the emergence and development of the "woman question," the role of gender in the construction of Middle Eastern nationalisms, women's political participation, and the debates concerning the connections between women, gender, and religious and cultural traditions. The third segment of the

course concerns the contemporary Middle East, and investigates new developments and emerging trends of women's political, social and religious activism in different countries. The course will provide a familiarity with the major primary texts concerning women and the study of women in the Middle East, as well as with the debates concerning the interpretation of texts, law, religion, and history in the shaping of women's status and concerns in the Middle East today. Two class meetings per week.

First semester. Professor Ringer.

63. State and Society in Africa Before the European Conquest. (AF^P) Africa has been called by one historian the social laboratory of the human species: that continent has been the birthplace of the oldest and most various civilizations on the earth. Art, trade, small-scale manufacturing, medical knowledge, religion, history and legend all flourished before the formal political take-over of the continent by Europeans in the nineteenth century and continue to have a decisive impact on African societies today. It is the variety of social organization in Africa in the period before 1885 that this course will examine. We will discuss the establishment of the Coptic kingdom in Ethiopia, the development of state systems in black Islamic societies and in Southern Africa, and the workings of so-called stateless societies in West Africa and the Congo (Zaire) River basin. The readings will be primarily from studies written using oral traditions and histories, and there will be some discussion of the problems of studying African societies of the past which kept no written records. Two class meetings per week.

First semester. Professor Redding.

64. Introduction to South African History. (AF) This course will explore major themes in the history of a troubled country. The recent elections that dislodged the ruling racial and ethnic oligarchy of South Africa make this country unique in the post-colonial world. The course will begin by examining anthropological evidence regarding indigenous cultures, and move on to study the initiation and expansion of white settlement and the African resistance that whites encountered; the effects of gold mining; the development of racially based conflict; and African nationalism and responses to apartheid. The course will end with discussions both of recent events in South Africa and of the theoretical foundations for historical writing on South Africa. Roughly half the course will be spent on the pre-industrial period (until 1869), and half on the period after the major mineral discoveries. Two class meetings per week.

Second semester. Professor Redding.

66. Disease and Doctors: An Introduction to the History of Western Medicine. (C) Disease has always been a part of human experience; doctoring is among our oldest professions. This course surveys the history of Western medicine from antiquity to the modern era. It does so by focusing on the relationship between medical theory and medical practice, giving special attention to Hippocratic medical learning and the methods by which Hippocratic practitioners built a clientele, medieval uses of ancient medical theories in the definition and treatment of disease, the genesis of novel chemical, anatomical, and physiological conceptions of disease in the early modern era, and the transformations of medical practice associated with the influence of clinical and experimental medicine in the nineteenth century. The course concludes by examining some contemporary medical dilemmas in the light of their historical antecedents. Two class meetings per week.

Omitted 2004-05. Professor Servos.

67. Turning Points in the History of Science. (EU^P) An introduction to some major issues in the history of science from antiquity to the twentieth century. Topics will include the genesis and decay of a scientific tradition in Greco-Roman antiquity, the reconstitution of that tradition in medieval Europe, the revolution in scientific methods of the seventeenth century, and the emergence of science as a source of power, profit, and cultural authority during the past century. Two class meetings per week.

Omitted 2004-05. Professor Servos.

68. Science and Society in Modern America. (US) A survey of the social, political, and institutional development of science in America from the Civil War to the present. Emphasis will be on explaining how the United States moved from the periphery to the center of international scientific life. Topics will include the professionalization of science; roles of scientists in industry, education, and government; ideologies of basic research; and the response of American scientists to the two world wars, the Depression, and the Cold War. Two class meetings per week.

Omitted 2004-05. Professor Servos.

69. Public History in the United States. (US) This course examines the many ways Americans encounter their pasts—in textbooks, films, monuments, museums, historic sites, and public policy. The versions of history presented in these public forums challenge and augment the interpretations of professional historians, and raise questions about who *owns* and *interprets* the past. Readings will include works on the overall problem of history's relationship to "memory" and "heritage," as well as several case studies that look closely at the politics of public history. Examples might include the ongoing assertions of Confederate heritage, Native American claims to historical places and objects, the National Park Service's interpretation of battlefields and parks, the Smithsonian's exhibition on the use of the atomic bomb, debates over reparations for historical injustice, and commemorations of the Oklahoma City bombing. Requirements include several short papers and an individual project that explores how a particular historical event might be visualized and presented to a broad public audience. Two class meetings per week.

Limited to 25 students. Omitted 2004-05. Professor Sandweiss.

SEMINARS (UPPER-LEVEL COURSES)

74. Topics in the History of Sex, Gender and the Family. (C) (Also Women and Gender Studies 20.) The topic changes from year to year. One class meeting per week.

Limited to 20 students. Omitted 2004-05. Professor Hunt.

75. Seminar on Modern European History. (EU) The topic changes each time the course is taught. In fall 2004 the seminar will commemorate the bicentennial of Napoleon Bonaparte's imperial coronation (on 2 December 1804) by focusing on what historian Michael Broers has recently called "one of the most paradoxical episodes in the history of modern Europe": the rise and fall of the short-lived French Empire. Many roads led to Waterloo. We will begin by establishing a working knowledge of the period through lectures, assigned readings, and discussion. While not neglecting the Emperor's dramatic biography and military adventures, our emphasis will be on the character of his domestic dictatorship and the failed attempt to impose colonial-imperialist rule on the map of Europe. During the second half of the semester, each student (in regular consultation with

the instructor) will study and write about a subject of his or her specific interest. Two class sessions per week.

Not open to first-year students. Limited to 20 students. First semester. Professor Bezucha.

76. Topics in European History: Ethnic Cleansing in Twentieth-Century Europe. (EU) Although the term "ethnic cleansing" was first widely used in the 1990s, the process it describes has a long history. Before World War I, much of Europe was characterized by different ethnic groups living in close proximity. During the course of the century, however, virtually all of Europe came to be made up of relatively homogenous nation-states. This seminar will explore the violent process of the "unmixing of peoples." How and why do various nationalisms lead to ethnic cleansing? How do individuals experience ethnic cleansing? What does it mean for an area to be "ethnically cleansed"? And what are the costs and consequences of ethnic cleansing? Case studies will include the Turkish removal of its Armenian population during World War I, Nazi ethnic-cleansing measures (including the Holocaust), the post-1945 removal of Germans from East Central Europe, and ethnic cleansing in the Balkans during the 1990s. Class meetings will focus on secondary readings on nationalism and ethnic cleansing, and primary sources such as photographs, autobiographies, official documents, and documentary films. One class meeting per week.

Admission with consent of the instructor. Limited to 15 students. Second semester. Professor Epstein.

80. Seminar in Russian History. (EU) The topic for spring 2005 is "Russia and Its Near Abroad." Russia's "near abroad" refers to those territories now independent and sovereign states in the Baltic region, the Caucasus, and Central Asia, that were once parts of the Russian Empire and the Soviet Union. Among the issues the seminar will examine are the vexed relations of those territories with the Russian ethnic homeland in the past and in the present; the role those territories played in the collapse of the Soviet Union; the position of large ethnic Russian minorities presently living in those new states and the roles they play in the geo-politics of Russia and Eurasia. Class reports and a research paper. One class meeting per week.

Not open to first-year students. Limited to 20 students. Second semester. Professor Czap.

81. Seminar on the Social and Cultural History of New England. (US^P) This seminar provides an interdisciplinary examination of the creation and transformation of cultural patterns in New England. Drawing upon the resources of Historic Deerfield, Amherst College, Old Sturbridge Village, and other sites, the course will introduce students to the variety of artifacts, landscapes and documentary sources that can be used to explore the history of this region from 1500 to 1900. It will make use of the work of archaeologists, anthropologists, and cultural geographers as well as economic, intellectual, and social historians. Two class meetings per week.

Limited to 20 students. First semester. Professor Sweeney.

83. Seminar on Science and the American State, 1941-1991. (US) Americans lived with world war or the threat of world war almost continuously from Pearl Harbor to the collapse of the Soviet Union. The experience affected all American institutions, not least of all those of science. Defense agencies built vast laboratories and became major patrons of research on university campuses. Business firms shifted R&D strategies to accommodate the agenda of the Pentagon. National defense became a reason to teach math and science in schools,

to fund fellowships, to build particle accelerators and computers, and to go to the moon. It also became a reason to keep secrets. The seminar will study how the state mobilized science for national defense in this era and consider some of the consequences for science, technology, and the American economy. One class meeting per week.

Not open to first-year students. Admission with consent of the instructor. Limited to 20 students. Omitted 2004-05. Professor Servos.

84. Seminar in U.S. Cultural History. (US) The topic changes from year to year. The topic for 2004-05 is "Culture Wars." The seminar will explore cultural conflicts in America from the early nineteenth century to the present. Topics may include conflicts over alcohol and drug use, over freedom of the press, over immigration, over the teaching of evolution, over prostitution, and over "decency" in movies and other forms of entertainment. Special attention will be paid to the class and ethnic roots of such conflicts. Students will be expected to write a research paper on a subject of their choice. One class meeting per week.

Admission with consent of the instructor. Preference given to History majors. Limited to 20 students. First semester. Professor Couvares.

85. Seminar in Western American History. (US) This seminar will focus on how novels and visual images can function as primary source materials to understand some of the central issues of western American history. We will examine a broad range of pictorial materials—including maps, prints, paintings, photographs, and films—in order to understand how images have shaped American perceptions of the western landscape and the diverse peoples of the West. We will also consider how novels—including Helen Hunt Jackson's *Ramona* and Owen Wister's *The Virginian*—have molded popular understanding of the region's past. Particular attention will be given to the ways in which literary and visual images have both expressed and influenced broader cultural ideas relating to exploration and settlement, relations between native and non-native peoples, and the legacy of the Spanish Southwest. Students will be expected to write a research paper on a topic of their choice. Two class meetings per week.

Limited to 15 students. Omitted 2004-05. Professor Sandweiss.

86. Seminar on Trade and Plunder in Latin America and the Caribbean. (LA or AF) This course will deal with the Age of European mercantile expansionism in the region. Topics to be discussed will include the basis for Spain's hegemonic claim to it; the response of Spain's maritime enemies to this monopoly particularly through their *corsairs*, privateers, pirates and *buccaneers*, and the extent to which these groups undermined Spain's hegemony as they helped the British and French especially in their empire-building in the Caribbean, Central and South America. Readings will include primary source documents such as papal bulls, the *Requerimiento*, treaties like Tordesillas and Godolphin, chronicles, eyewitnesses' accounts and historical narratives. One class meeting per week.

First semester. Professor Campbell.

87. Seminar on Race and Nation in the U.S.-Mexican Borderland. (LA or US) The U.S.-Mexican borderland has been the site of intense struggle and even violence over race and nation. These tensions have a long history within the region, and they have had important consequences both for the region, and for the rest of Mexico and the U.S. Most studies tend to focus on either the U.S. Southwest or northern Mexico, but in this course we will attempt to unite the study of these two regions and their people. Within this land short on ecological resources,

whites, Native Americans, and *mestizos* (mixed bloods) competed violently over politics, economics, and culture. We will discuss the similarities and differences between U.S. and Mexican understanding of the boundaries and significance of race, particularly concerning Native Americans, and how this related to politics and economics. We also consider the emergence of the European-American as the ideal U.S. type north of the border, and the *mestizo* as the ideal Mexican type south of the border, and how these developments impacted indigenous politics differently within the two countries. Central themes include race, gender, violence, state and nation formation, industrialization, colonialism and imperialist expansion, popular politics, and environmental change. In addition to secondary readings, the class incorporates original documents, music, and images. Two meetings per week.

Requisite: One course in either U.S. or Latin American history. Not open to first-year students. Limited to 15 students. Omitted 2004-05. Professor López.

88. Comparative Slave Systems. (C) This course is an introduction to the history of slavery from the ancient period to modern New World plantation slavery, focusing on major topics such as demographic patterns, political and economic organizations and philosophical, religious and moral attitudes to slavery in different societies throughout the centuries. It is intended to give a wide perspective of slavery, showing that slavery as a system of labor existed in practically all known societies but identifying certain significant differences found in the New World plantation systems. One class meeting per week.

Omitted 2004-05. Professor Campbell.

89. Seminar on the Changing Place of Indigenous People in Latin American Society. (LA) This course considers the changing significance of being Indian in Latin America, 1492 to the present. The historical study of changing ideas of Indianness in Latin America provides insights into how the unity and disunity of humanity has been understood and experienced in the Americas at different historical moments. The course will cover the first contact between Europeans and Amerindians, then follow through colonial expansion, the nineteenth-century wars for independence and struggles for statehood, and end with the indigenous movements at the end of the twentieth century. Through this period, and across Latin America, ideas about indigenous peoples have been inextricably linked with questions of religion, race, gender, nationality, and, more recently, human rights. The course focuses on broad themes and social and political processes and pays particular attention to the politics of memory. In addition to secondary readings, the class incorporates film, music, and art images. Two class meetings per week.

Limited to 15 students. Omitted 2004-05. Professor López.

90. Treaty-port Japan. (AS) (Also Asian 62.) This seminar considers the society and culture that emerged in the treaty-ports of late nineteenth-century Japan. The so-called "unequal treaties" signed between Japan and the Western powers in the 1850s designated several "open ports"—such as Yokohama, Nagasaki, and Kobe—for residence and trade by foreign nationals. In these cities, a shifting array of European, American, Chinese, and Japanese merchants, soldiers, prostitutes, missionaries, fugitives, diplomats, tourists, and adventurers interacted with each other, and with the larger Japanese society, to create distinctive social and cultural forms that flourished well beyond the legal dismantling of the treaty-port system in the early 1900s. The treaty-ports have left behind a rich archive in several languages, much of which has yet to be studied. We will begin to chart some of the possibilities for a history of treaty-port Japan by

drawing upon recent scholarship on colonialism, travel, and frontiers and borderlands. Topics to be addressed include prostitution and public health, tourism and the Victorian lady traveler, colonial architecture and urban planning, colonial photography, and the study of the Ainu. A significant portion of the course will be devoted to exploring the archival resources of the Five College area and to developing individual research projects. One class meeting per week.

Not open to first-year students. Limited to 15 students. Second semester. Professor Brandt.

91. Histories of Consumption: Western Europe, the U.S., Japan. (C) (Also Asian 52.) Since the 1980s, the history of consumerism—or of department stores, kleptomaniacs, world's fairs, fashion, and advertising, to name just a few of the topics that have attracted special attention—has become a burgeoning new field of study. This seminar takes a comparative approach to introduce and explore the central issues that have emerged in this new literature. While much of the groundbreaking work has focused on Western Europe and the United States in the nineteenth and early twentieth centuries, recent research on the history of modern Japanese consumer culture has begun to enlarge our understanding of what is, after all, a global phenomenon. We will consider some of the major theorists of consumption (such as Marx, Veblen, Bourdieu) as well as key problems in the historical study of consumerism West and East that these have helped to inform. In addition to the ongoing debates on class and gender formation, we will also address questions of national identity, leisure, and the exotic raised by the Japanese material in particular. One class meeting per week.

Not open to first-year students. Limited to 15 students. Omitted 2004-05. Professor Brandt.

92. Topics in African History: Riot and Rebellion in Colonial and Post-Colonial Africa. (AF) This seminar will examine the development of several outbreaks of violence in Africa in the colonial and post-colonial periods. We will look at the economic, social, religious, and political roots of these disturbances, and we will discuss the problems historians face in trying to narrate and analyze these often chaotic events. The events studied will include the Zulu revolt in South Africa in 1907-08; the Watchtower movement in Central Africa over the period 1915-35; the Pondoland revolt in South Africa, 1958-63; the Biafran war in Nigeria, 1969-71; the Lord's Resistance Army in Uganda; and the recent conflicts in Rwanda. One class meeting per week.

Limited to 20 students. Admission with consent of the instructor. First semester. Professor Redding.

93. Seminar on Middle Eastern History: The Islamic Religious Establishment Between State and Society. (ME) (Also Asian 64.) Members of the Islamic religious establishment have played central roles in many modern Middle East events. They have been at the forefront of both political revolutions and intellectual change, often spearheading movements for reform. Conversely, they have also been counted amongst reformers' fiercest opponents. Defying easy categorization as a social, intellectual, political interest or professional group, the religious establishment nonetheless operates on all these levels. This seminar seeks to explore the history and development of the religious establishment (both Shii and Sunni) and the specific institutions, ideas and individuals that shaped and continue to shape its present relationships to state and society. We will pay particular attention to understanding current developments in Iraq and Iran in their historical context. One class meeting per week.

Not open to first-year students. Limited to 20 students. Preference given to students who have taken at least one course regarding the Middle East. Second semester. Professor Ringer.

99. Proseminar in History: Writing the Past. This course offers an opportunity for history majors to reflect upon the practice of history. How do we claim to know anything about the past at all? How do historians construct the stories they tell about the past from the fragmentary remnants of former times? What is the connection of historians' work to public memory? How do we judge the truth and value of these stories and memories? The course explores questions such as these through readings and case studies drawn from a variety of places and times. Two class meetings a week.

Not open to first-year students. Required of all history majors. First semester. Two sections to be offered. Section 01: Professor Brandenberger. Section 02: Professor Epstein. Second semester: Professor Czap.

77, 77D, 78, 78D. Senior Departmental Honors. Culminating in one or more pieces of historical writing which may be submitted to the Department for a degree with Honors. Normally to be taken as a single course but, with permission of the Department, as a double course as well.

Open to juniors and seniors. First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. Independent Reading. Full or half course. First and second semesters.

KENAN COLLOQUIA

Every three years the President selects as William R. Kenan, Jr., Professor a faculty member distinguished for scholarship and teaching. The Kenan Professor devises a colloquium or seminar, usually interdisciplinary in nature, to be taught in conjunction with one or more junior faculty members.

22. Public Art. What is public art and what role does it play in public life and collective memory? This seminar will consider art that is commissioned, paid for and owned by the state (from the "hero on a horse" to "plop art"), as well as private works that the state agrees to allow in public space. We will focus on works of art made in the twentieth century in the United States and Latin America that may include Richard Serra's *Tilted Arc*, Maya Lin's *Vietnam Veterans Memorial*, proposals for memorials to 9/11, Diego Rivera's mural cycle for the Federal Ministry of Education and Judy Baca's "The Great Wall of Los Angeles." We will ask whether and how public art mediates between private and public life, when and how it defines national values, and why so many works have aroused controversy. One class meeting per week.

Limited to 15 students. Omitted 2004-05. Professors Clark and López.

LATIN AMERICAN STUDIES

Amherst students interested in Latin American Studies have the following two options: (1) they can, in conjunction with an advisor and with the approval of the Committee on Academic Standing and Special Majors, design their own Latin American Studies major, taking advantage of the varied Five College offerings in the field; (2) they can participate in the Five College Latin American and Caribbean Studies Certificate Program. This is not a major program and is viewed as supplementary to work done by the major.

Information about the Certificate can be found on page 332. Students interested in a Latin American Studies major are advised of the following faculty at the College who are available for counselling in Latin American Studies: Professors Cobham-Sander of the English and Black Studies Departments, Professor Campbell of the History Department, and Professors Benítez-Rojo, Maraniss, and Stavans of the Spanish Department.

Individual courses related to the Latin American area which are offered at the College include: History 11, 13, 14, 53, 54, 86; Spanish 17, 29, 35, 36, 37, 39, 41, 46, 48, 51, 52, 53, 54, 55, 56, 57, and 59.

LAW, JURISPRUDENCE AND SOCIAL THOUGHT

Professors Kearns and Sarat (Chair), Associate Professors Douglass† and Umphrey*, Assistant Professor Hussain, Visiting Assistant Professors Delaney and Stauffer, Visiting Lecturer Young.

The Department of Law, Jurisprudence and Social Thought (LJST) places the study of law within the context of a liberal arts education. The Department

*On leave 2004-05.

†On leave first semester 2004-05.

offers courses that treat law as an historically evolving and culturally specific enterprise in which moral argument, distinctive interpretive practices, and force are brought to bear on the organization of social life. These courses use legal materials to explore conventions of reading, argument and proof, problems of justice and injustice, tensions between authority and community, and contests over social meanings and practices.

Major Program. A major in Law, Jurisprudence and Social Thought consists of a minimum of nine courses. Offerings in the Department include courses in Legal Theory (these courses emphasize the moral and philosophical dimensions that inform legal life and link the study of law with the history of social and political thought), Interpretive Practices (these courses emphasize the ways law attempts to resolve normative problems through rituals of textual interpretation), Legal Institutions (these courses focus on the particular ways different legal institutions translate moral judgments and interpretive practices into regulation and socially sanctioned force), and Historical and Cross-Cultural Perspectives (these courses explore the ways in which law and societies change over time, as well as the interdependence of law and culture).

Courses required of all majors are: LJST 18 (The Social Organization of Law) and LJST 26 (The Image of Law in Social and Political Thought). These courses should be taken preferably during the first or second year. In addition, majors must complete one course in Interpretive Practices, and one course in Historical and Cross-Cultural Perspectives. Students should consult with their advisor to determine which courses fulfill these requirements. It is also recommended that majors take one course designated as a Seminar which will normally be limited in enrollment, emphasize independent inquiry, and require substantial writing.

Students may receive credit toward a major in LJST for no more than two courses from outside the Department which are listed for inclusion in a Law, Jurisprudence and Social Thought major.

Departmental Honors Program. The Department awards Honors to seniors who have achieved distinction in course work for the nine courses required of all majors, have completed, in addition, a two-course Honors Tutorial (LJST 77 and 78), and have submitted a thesis of Honors quality. In special cases and with the approval of the entire Department, a student may be permitted to devote three courses to his or her Honors project.

Students seeking to do Departmental Honors work must have a college-wide grade average of B+ or above. Admission to the Honors Program is by the consent of the Department, and is contingent upon our assessment of the feasibility and value of the student's formal thesis proposal, his or her capacity to carry the thesis through to a fruitful conclusion as evidenced in prior coursework, and the availability of faculty to supervise thesis work. The thesis proposal consists of a description of an area of inquiry or topic to be covered, a list of courses that provide necessary background for the work to be undertaken, and a bibliography.

Students contemplating Honors work should begin to define a suitable project during the second semester of their junior year, and must submit a thesis proposal in advance of the first week of classes for Departmental evaluation. The Department normally requires a first draft of the Honors thesis to be submitted before the beginning of the second semester. Honors theses will be evaluated at the end of the second semester by a committee of readers whose members will make recommendations to the Department concerning the thesis's level of Honors.

Post-Graduate Study. LJST is not a pre-law program designed to serve the needs of those contemplating careers in law. While medical schools have prescribed

requirements for admission, there is no parallel in the world of legal education. Law schools generally advise students to obtain a broad liberal arts education; they are as receptive to students who major in physics, mathematics, history or philosophy as they would be to students who major in LJST.

LJST majors will be qualified for a wide variety of careers. Some might do graduate work in legal studies, others might pursue graduate studies in political science, history, philosophy, sociology, or comparative literature. For those not inclined toward careers in teaching and scholarship, LJST would prepare students for work in the private or public sector or for careers in social service.

18. The Social Organization of Law. (Also Political Science 18.) Law in the United States is everywhere, ordering the most minute details of daily life while at the same time making life and death judgments. Our law is many things at once—majestic and ordinary, monstrous and merciful, concerned with morality, yet often righteously indifferent to moral argument. Powerful and important in social life, the law remains elusive and mysterious. This power and mystery is reflected in, and made possible by, a complex bureaucratic apparatus which translates words into deeds and rhetorical gestures into social practices.

This course will examine that apparatus. It will describe how the problems and possibilities of social organization shape law as well as how the social organization of law responds to persons of different classes, races and genders. We will attend to the peculiar ways the American legal system deals with human suffering—with examples ranging from the legal treatment of persons living in poverty to the treatment of victims of sexual assault. How is law organized to cope with their pain? How are the actions of persons who inflict injuries on others defined in legal terms? Here we will examine cases on self-defense and capital punishment. Throughout, attention will be given to the practices of police, prosecutors, judges, and those who administer law's complex bureaucratic apparatus.

First semester. Professor Sarat.

19. Are Rights Self-Evident? Rights figure prominently in all discussions concerning the individual and the state. Such discussions tend to take the concept of rights as self-evident and instead argue over what the content of rights or statements about rights ought to be. Locke connected the idea of rights to natural law; as such, rights offer to the individual protection from state power. In more contemporary rights discourse, a libertarian-style liberal might claim that individuals have rights whether or not they are recognized by a legal system and thus rights limit the role of the state. A liberal who endorses a more active role for government might justify that recommendation by recourse to an idea of human rights—human rights do not require the enforcement of a legal system in order to be intelligible, and they make demands that governments ought to fulfill. However, *meaningful* rights tend to require enforcement by a force-backed institution, and human rights in the international arena are often left unenforced. Thus, the real challenges posed to rights theories by rights outside of sovereign borders leave us with questions such as: From where do rights derive their force? Are rights self-evident? Course readings will include works by political and legal theorists such as Dworkin, Rawls, Hart, Fuller, Nozick, Hobbes and Locke, and the course will end by considering some recent writings on international human rights.

Limited to 35 students. First semester. Professor Stauffer.

20. Murder. Murder is the most serious offense against the legal order and is subject to its most punitive responses. It gives meaning to law by establishing the limits of law's authority and its capacity to tame violence. Murder is, in

addition, a persistent motif in literature and popular culture used to organize narratives of heroism and corruption, good and evil, fate and irrational misfortune. This course considers murder in law, literature and popular culture. It begins by exploring various types of murders (from "ordinary murder" to serial killing and genocide) and inquiring about the differences among them. It examines the definition of homicide in different historical and cultural contexts and compares that crime with other killings which law condemns (e.g., euthanasia and assisted suicide) as well as those it tolerates or itself carries out. It asks how, if at all, those who kill are different from those who do not and whether murder should be understood as an act of defiant freedom or simply of moral depravity. In addition, we will analyze the increasing prevalence of murder in American urban life as well as its various cultural representations. Can such representations ever adequately capture murder, the murderer, and the fear that both arose? How is murder commodified and consumed in popular culture? What is the significance of such commodification and consumption for the way it finds its way into law's own narratives? The course will draw on legal cases and jurisprudential writings, murder mysteries, texts such as *Oedipus Rex*, *Crime and Punishment*, *Macbeth*, Poe's "The Murders at the Rue Morgue," Capote's *In Cold Blood*, and Arendt's *Eichmann in Jerusalem*, and films such as Hitchcock's *Rope*, *Thelma and Louise*, *Silence of the Lambs*, and *Menace to Society*. Throughout, we will ask what we can learn about law and culture from the way both imagine, represent and respond to murder.

Second semester. Professor Sarat.

22. Law, Violence and Forgiveness. No matter what progress legal institutions and social order have promised, mass violence has not ceased to erupt in the "civilized" world. Is such violence the work of irrationality or chance, and can we best "solve" the problem of mass violence by subjecting it to the rationality of law? This course investigates how law adjudicates violence and atrocity, and then considers some alternatives to legal solutions to violent conflict, such as truth commissions, reparations and extra-legal mediation. Choices in this area matter because they may affect or determine how and whether a society will recover from an outbreak or history of violence. The aim of the course will be to consider whether law is always the best means of providing justice. As a way of opening up our questions to a broader frame, we will also read case studies of community mediation with regard to less violent crimes in the United States. Course readings will include Gary Bass's *Stay the Hand of Vengeance*, Martha Minow's *Between Vengeance and Forgiveness*, Hannah Arendt's *The Human Condition* and Donald Shriver's *An Ethic for Enemies*, as well as various articles on truth commissions and reparations, and legal documents pertaining to these forms of recovery from atrocity.

Second semester. Professor Stauffer.

23. Legal Institutions and Democratic Practice. This course will examine the relationship between legal institutions and democratic practice. How do judicial decisions balance the preferences of the majority and the rights of minorities? Is it possible to reconcile the role that partisan dialogue and commitment play in a democracy with an interest in the neutral administration of law? How does the provisional nature of legislative choice square with the finality of judicial mandate? By focusing on the United States Supreme Court, we will consider various attempts to justify that institution's power to offer final decisions and binding interpretations of the Constitution that upset majoritarian preferences. We will examine the origins and historical development of the practice of judicial review and consider judicial responses to such critical issues as slavery, the New Deal, and

abortion. The evolving contours of Supreme Court doctrine will be analyzed in the light of a continuing effort to articulate a compelling justification for the practice of judicial intervention in the normal operation of a constitutional democracy.

Second semester. Professor Douglas.

24. Property, Liberty and Law. What we call property is enormously important in establishing the nature of a legal regime. Moreover, an exploration of property offers a window on how a culture sees itself. Examining how property notions are used and modified in practice can also provide critical insights into many aspects of social history and contemporary social reality.

We will begin our discussion of property by treating it as an open-ended cluster of commonplace and more specialized notions (e.g., owner, gift, lease, estate) used to understand and shape the world. We will look at how the relation of property to such values as privacy, security, citizenship and justice has been understood in political and legal theory and how different conceptions of these relations have entered into constitutional debates. We will also study the relationship of property and the self (How might one's relation to property enter into conceptions of self? Do we "own" ourselves? Our bodies or likenesses? Our thoughts?), property and everyday life (How are conceptions of property used to understand home, work and community?) and property and culture, (Do our conceptions of property influence understandings of cultural differences between ourselves and others? Does it make sense to claim ownership over one's ancestors?). In sum, this course will raise questions about how property shapes our understandings of liberty, personhood, agency and power.

Omitted 2004-05. Professor Delaney.

25. Film, Myth, and the Law. The proliferation of law in film and on television has expanded the sphere of legal life itself. Law lives in images which today saturate our culture and have a power all their own, and the moving image provides a domain in which legal power operates independently of law's formal institutions. This course will consider what happens when legal events are renarrated in film, and examine film's treatment of legal officials, events, and institutions (e.g., police, lawyers, judges, trials, executions, prisons). Does film open up new possibilities of judgment, model new modes of interpretation, and provide new insights into law's violence? We will discuss ways in which myths about law are reproduced and contested in film. Moreover, attending to the visual dimensions of law's imagined lives, we ask whether law provides a template for film spectatorship, positioning viewers as detectives and as jurors, and whether film, in turn, sponsors a distinctive visual aesthetics of law. Among the films we may consider are *Inherit the Wind*, *Northside 777*, *Judgment at Nuremberg*, *Rear Window*, *Silence of the Lambs*, *A Question of Silence*, *The Sweet Hereafter*, *Dead Man Walking*, *Basic Instinct*, *The Shawshank Redemption*, *Unforgiven*, and *A Civil Action*. Throughout we will draw upon film theory and criticism as well as the scholarly literature on law, myth, and film.

Limited enrollment. Second semester. Professor Sarat.

26. The Image of Law in Social and Political Thought. Law haunts the imagination of social and political thinkers. For some, law is a crucial tool for the radical reconstruction of society, an essential component of any utopian project. For others, law is by its very nature conservative, ever wedded to the status quo, a cumbersome and confusing apparatus made necessary by a world of imperfection. This course will attempt to make sense of the diverse and contradictory images of law which inform the work of social and political theorists. We will examine how images of law both lie at the center of, and are constituted by,

concepts of personhood, community, legitimacy, and power. Readings include works by (or about) Thoreau, Hobbes, Blackstone, Marx, Freud, and such contemporary thinkers as Shklar, Unger, Hart, and Fish.

Second semester. Professor Kearns.

27. Narratives of Crime. This course investigates the significance of the ways in which we write crime and crime is written. That is, we will be examining ways in which crime is constructed and inscribed in various cultural terrains (particularly literature, newspaper discourse, legal discourse, and public policy). The two central themes of the course are, first, the importance of understanding how the ways in which we speak about crime influence policy-making, theorizing, and processes of judgment in relation to crime; and, second, the significance and interpretation of inscriptions of crime and criminality (such as those produced by the news media, in literature, art, public policy, and legal judgment). In the case studies and readings selected, these issues will be considered mainly in the context of crimes of violence, with a particular emphasis on the trauma (whether individual or social) produced by such crimes, the problems of memory and commemoration of violence, and the difficulties of inscribing in discourse the experiences of victimization, wounds, or death. The course will provide an introduction to theories and methods designed to investigate these themes and will examine them through a number of case studies (including homicide, sexual assault, the aftermath of terrorist disaster, the Holocaust, and the concerns of contemporary art).

Limited to 40 students. First semester. Visiting Lecturer Young.

28. Law and Social Relations: Persons, Identities and Groups. One of the foundational analytics governing law's relationship to identity and personhood is the grand trope of public and private. As an historical matter, the public/private divide has demarcated the boundary of law's authority: under a liberal theory of government, law may regulate relations in the public sphere but must leave the private realm in the control of individuals. The stakes associated with this line of demarcation are extremely high: those problems of identity and relation that are considered "public" are problems visible to law and subject to law's authority; those that are considered private remain below the horizon of law's gaze. Yet definitions of the public and the private are notoriously slippery and inexact, and their contours are inexorably historically specific. In the nineteenth century to be denied a seat on a train as an African American, or a license to practice law as a white woman, was to experience a kind of discrimination that the law would refuse to see. In the twentieth century we no longer experience such officially sanctioned harms, but remain conflicted about the extent to which law should address other, more "private" interactions: verbal bigotry, family relations, sex.

This course will trace and explore the modes by which the public/private divide constitutes identities in law by examining the ways law defines the public, and does or does not regulate ostensibly "private" harms. Using both legal and non-legal texts we will map a history of social relations, particularly as they implicated deeply held assumptions about racialized, gendered, and sexualized bodies, and explore the shifting boundary between public and private as it has emerged in public debates over the meaning of equality, privacy, and free speech. To what extent does law's authority remain constituted upon the public/private divide? What relationship does that divide have to a politics of identity? To what extent are we now witnessing the redefinition, even the virtual elimination, of the private? And with what consequences for our social relations?

Omitted 2004-05. Professor Umphrey.

29. Law, Crime and Culture. The aim of the course is an investigation of the relationships between law, crime and culture, as manifested in cinematic and televisual images of law and justice. The course has two main themes: (1) embedded within the practices and principles of criminal law and criminal justice are cultural dimensions and assumptions influencing the construction and analysis of legality, crime and criminality; (2) representations of law, crime and criminality in popular culture intersect with, resist, and are affected by assumptions about law and crime in criminal law and criminal justice. The course will consider these themes in the context of recent debates about the cultural construction of law and crime in socio-legal studies, criminology, cultural studies and film theory. It will develop the skills necessary for analyzing these themes and will also consider them through a number of case studies (involving, for example, television crime drama; trial movies; the gangster film; the cultural fascination with the serial killer; youth culture, hip-hop and graffiti; and the cinematic depiction of violence and gender).

Limited to 40 students. First semester. Visiting Lecturer Young.

32. Law's Nature: Humans, the Environment and the Predicament of Law. "Nature" is at once among the most basic of concepts and among the most ambiguous. Law is often called upon to clarify the meaning of nature. In doing so it raises questions about what it means to be human.

This course is organized around three questions. First, what does law as a humanistic discipline say about nature? Second, what can law's conception of nature tell us about shifting conceptions of humanness? Third, what can we learn by attending to these questions about law's own situation in the world and its ability to tell us who we are? We will address these questions by starting with the environment (specifically wilderness). We will then expand our view of nature by examining legal engagements with animals (endangered species, animals in scientific experiments, and pets), human bodies (reproductive technologies, involuntary biological alterations, the right to die) and brains (genetic or hormonal bases for criminal defenses). Throughout, we will focus our attention on the themes of knowledge, control and change. We will look, for example, at relationships between legal and scientific forms of knowledge and the problematic role of expert knowledge in adjudicating normative disputes. We will also look at law's response to radical, technologically induced changes in relations between humans and nature, and to arguments in favor of limiting such transformations.

Second semester. Professor Delaney.

33. Race, Place, and the Law. Understandings of and conflicts about place are of central significance to the experience and history of race and race relations in America. The shaping and reshaping of places is an important ingredient in the constitution and revision of racial identities: think of "the ghetto," Chinatown, or "Indian Country." Law, in its various manifestations, has been intimately involved in the processes which have shaped geographies of race from the colonial period to the present day: legally mandated racial segregation was intended to impose and maintain both spatial and social distance between members of different races.

The objective of this course is to explore the complex intersections of race, place, and law. Our aim is to gain some understanding of geographies of race "on-the-ground" in real places, and of the role of legal practices—especially legal argument—in efforts to challenge and reinforce these racial geographies. We will ask, for example, how claims about responsibility, community, rationality, equality, justice, and democracy have been used to justify or resist both racial

segregation and integration, access and expulsion. In short, we will ask how moral argument and legal discourse have contributed to the formation of the geographies of race that we all inhabit. Much of our attention will be given to a legal-geographic exploration of African-American experiences. But we will also look at how race, place and the law have shaped the distinctive experiences of Native Americans, Hispanic Americans, and Asian Americans.

First semester. Professor Delaney.

34. Law, Crime, and Cultural Processes. Crime and criminality are the sites where law most directly and forcefully intervenes in everyday life through ritual and spectacle, through the construction of boundaries that include or exclude certain kinds of behavior or types of individuals from the polity, and through direct physical violence and the containment of bodies. This course will address, both historically and theoretically, the ways in which crime and criminality have been imagined, enacted, and punished over the last two centuries. Exploring the interplay of criminological discourse and popular culture, we will examine the movement from what Michel Foucault has described as a "society of spectacle," in which punishment was public and bodily, toward a "society of surveillance" in which criminals are scrutinized and remade behind and outside the high walls of the penitentiary. We will also sort through various theories of criminality and inquire into their cultural assumptions and consequences. Can criminal activity be represented as a product of biology, or environment, or sensibility? Who ought to be held legally or morally responsible for his or her acts? What are the social and cultural conditions that have produced various competing understandings of "the criminal," and why might we excuse, tolerate, even condone some illegalities at any given moment in history? In answering those questions we will draw upon a mix of historical, literary, philosophical, social scientific, and filmic texts.

Limited to 60 students. Omitted 2004-05. Professor Umphrey.

36. The State and the Accused. This course will examine the unusual and often perplexing means by which the law makes judgments about guilt and innocence. Our inquiry will be framed by the following questions: What gives a court the authority to pass judgment on a person accused of criminal wrongdoing, and what defines the limits of this authority? What ends does the law seek to pursue in bringing an accused to justice? What "process" is due the accused such that the procedures designed to adjudicate guilt are deemed fair? How do these standards differ as we travel from adversarial systems of justice (such as the Anglo-American) to inquisitorial systems (e.g., France or Germany)? Finally, how has the process of rapid globalization changed the relationship between the state and the accused and, with it, the idea of criminal justice itself? In answering these questions, our investigations will be broadly comparative, as we consider adversarial, inquisitorial, and transnational institutions of criminal justice. We will also closely attend to the differences between law's response to "common" criminals and extraordinary criminals, such as heads of state, armed combatants, and terrorists.

Limited to 50 students. Omitted 2004-05. Professor Douglas.

39. Norms, Rights, and Social Justice: Feminists, Disability Rights Activists and the Poor at the Boundaries of the Law. (Also Political Science 39.) See Political Science 39.

First semester. Professor Bumiller.

41. Interpretation in Law and Literature. Interpretation lies at the center of much legal and literary activity. Both law and literature are in the business of

making sense of texts—statutes, constitutions, poems or stories. Both disciplines confront similar questions regarding the nature of interpretive practice: Should interpretation always be directed to recovering the intent of the author? If we abandon intentionalism as a theory of textual meaning, how do we judge the “excellence” of our interpretations? How can the critic or judge continue to claim to read in a manner deemed “authoritative” in the face of interpretive plurality? In the last few years, a remarkable dialogue has burgeoned between law and literature as both disciplines have grappled with life in a world in which “there are no facts, only interpretations.” This seminar will examine contemporary theories of interpretation as they inform legal and literary understandings. Readings will include works of literature (Hemingway, Kafka, Woolf) and court cases, as well as contributions by theorists of interpretation such as Spinoza, Dilthey, Freud, Geertz, Kermode, Dworkin, and Sontag.

Limited to 20 students. Second semester. Professor Douglas.

42. Policing: Legal Practices and Popular Imagination. The word “policing” suggests an act or a process, the construction and supervision of borders, the constant demonstration and imposition of authority or force over a person, group, behavior, or space presumed to be a threat to order. This course will explore policing as both a material practice and a cultural trope. We will examine the history of the police and various police tactics for maintaining order, constantly bearing in mind the blurred line between the police and the criminal, their interdependent identities and violent underpinnings. At the same time, we will consider “popular” policing and various kinds of social regulation as extensions of the state’s police power. On still another level, we will search out policing as a cultural phenomenon and an epistemological category. What is the relation between policing and detection? Between policing and surveillance? What role do the imaginary and the aesthetic play in giving meaning to the idea of policing? How are these meanings inscribed in popular cultural forms (the roman policier, the journalistic exposé, *film noir*) and contemporary life (home-video culture, on-the-job surveillance)?

Omitted 2004-05. Professor Umphrey.

43. Law’s History. History is the backbone of the common law, a body of principles developed over time through a slow accretion of decisions constantly engaged with their own historical antecedents, or “precedent.” Thus, questions of history are integral to an understanding of the rhetorical and hermeneutic practices involved in the creation of legal doctrine. Paying close attention to legal texts—opinions, treatises, and commentary—we will examine the way legal scholars and jurists since the eighteenth century have used historical materials to construct narratives that can justify their decisions, and how those uses have changed over time.

Yet the problem of history in law extends beyond its justificatory use in legal texts, and will push us to further questions. What, in the context of doctrine-making, is history? Does it include the personal histories detailed at trial? Does it erase the lived experiences of social groups at specific historical moments? How do these “other” histories, embedded in every legal case but often obscured in judicial opinions and treatises, put into question the legal system’s objective epistemological stance toward the very people over whom it presides?

Limited to 25 students. Second semester. Professor Hussain.

44. The Civil Rights Movement: From Moral Commitment to Legal Change. In America the term “civil rights” conventionally signifies rights of minorities

and, more specifically, rights of African-Americans. It is also sometimes claimed that the expansion of these rights entailed imposing limitations on the rights of others. This course challenges these understandings by examining the idea that all Americans have "civil rights" and that the distribution of civil rights in society need not mean limiting the rights of one group to advance the interests of another. We will explore these propositions through a study of the influence and impact of the Civil Rights Movement from the 1950s to 1970s on American law and American society more generally. We will examine how political movements mobilize moral commitment and the ways such commitment is received in or by legal institutions. After a survey of important legal and social changes brought about by civil rights advocates, we will look at how such changes inspired the contemporary struggles of Native Americans, women, and poor people. In addition, we will examine the meaning of legal equality and recent controversies about affirmative action. Throughout, we will seek to understand how law is changed as well as how law contributes to social change.

Omitted 2004-05. Professor Delaney.

45. Law and the American War in Vietnam. The American war in Vietnam was, among other things, a watershed event in American legal history. Throughout the duration of the war there was vigorous debate about its legality in terms of international law, natural law and constitutional law. The conduct of the war and its relation to the draft and to dissent generated unprecedented public disagreement about such fundamental legal issues as authority, obligation, due process, civil liberties, crime and punishment, and the relationship between law and morality. The war was also the topic or context for a number of trials during which official legal actors endeavored to make formal legal sense of the war and of law's relationship to it. As a historical event, the war may also be examined in light of more contemporary themes such as legal consciousness, law as violence, and governmentality. The course will explore legal aspects of the war both as a historical study and as a case study of law in extreme situations.

Second semester. Professor Delaney.

46. Law, God and Modernity. It is the hallmark of modernity that law is secular and rational, made by humans for their purposes. Modern law relegates the divine to the realm of private belief, while the modern state guarantees the uninterrupted observance of a multiplicity of beliefs. Yet secularism has never been an uncontested position and many philosophers have suggested that the sovereignty of the modern state is itself a worldly duplicate of religious understandings of god's omnipotence. Today the connection of law and the sacred has taken on new urgency with the so-called "return of the religious," most famously with the rise of political Islam but also with Christian movements in the west, and with the transformations of sovereignty through globalization. This course is a historical and cross-cultural examination of the relationship of law, sovereignty, and the sacred. It focuses on a range of topics: the understanding of secularism in general and the American doctrine of the separation of church and state in particular; the legal theory of Islamization; the meaning of orthodoxy, both legal and religious. It examines both the secular uses of the concept of the sacred, and the religious deployment of modern legal concepts. It asks how the proper names of law and god are used to anchor various normative visions.

Limited to 50 students. Second semester. Professor Hussain.

47. Global Legality. Traditionally, the idea of law has been associated with the legal system of a nation state, derived from a national constitution and delimited

by territorial borders. Yet today, with the complex process called globalization, it is often argued that the prominence of borders, the older sovereign powers of that state, and even the idea of a national law are all in decline. Instead, we have an unprecedented flow of goods, money and people; the increasing regulation of economic and social life by supranational organizations such as the I.M.F. and World Bank; and with the institution of human rights, a new conception of rights and duties that is universal in scope. This class will examine the economic, cultural and, above all, legal dimensions of globalization. We will focus on the history of the League of Nations and the United Nations, the idea and practice of human rights, and the transfer of state powers to international agencies. We will also ask, however, if such processes are as new as they are often made out to be. Taking a larger historical perspective that includes colonialism and imperialism, we will trace older versions of a global legality, of the recurrent dream (or nightmare) of a single order of law and values to govern all of humankind.

Limited to 18 students. First semester. Professor Hussain.

48. Law and Historical Trauma. Certain events in political history—revolutions, civil wars, transitions from authoritarian or totalitarian regimes to political democracy, or particular moments in the ongoing constitutional life of a nation—seem unusual in the breadth and depth of the break or rupture that they make from tradition, the past, and the ongoing self-understandings of a people. Those events pose a special opportunity and challenge for law. Can law repair the traumatic ruptures associated with revolution, civil war, and recent democratic transitions? In such moments does law provide a reassuring sense of stability that serves to maintain the underlying continuity of history? Or, does it compound the crisis of dramatic historical transformation by insisting on judging the past, bringing the losers to justice, and publicly proclaiming the “crimes” of the old order? What can we learn about law by examining its responses to historical trauma? To address these questions we will first examine the idea of trauma and ask what makes particular events traumatic and others not. Is trauma constitutive of law itself? Is law always born in traumatic moments and, at the same time, continuously preoccupied with responding to its own traumatic origins? We will then proceed comparatively and historically by focusing on a series of case studies including colonial revolution in Algeria, Aboriginal rights cases in Australia, slavery and civil war in the United States, and regime changes in South Africa, Germany, and Argentina. In each we will identify the part played by law and ask what we can learn about the capacities and limits of law both to preserve national memory and, at the same time, to build new social and political practices.

Admission with consent of the instructor. First semester. Professor Hussain.

49. Revenge and Law. To speak of revenge is to open a festering wound at the heart of law that cannot be wished away. On the one hand, law is built upon the exclusion of vengeance. The most basic principle of criminal law is that the state takes over the prosecution of criminals from the victims of crime. In doing so, law insists that that wrong of crime is a public wrong, namely the criminal’s wrongful will to break the law. Criminal punishment, therefore, is to be proportional to the wrongful will and not to the damages or harms that result from that will. On the other hand, however, revenge remains a constant presence in criminal law, despite the persistent attempts of philosophers and jurists to banish it. Can revenge be a legitimate and just motive for criminal punishment?

Prior to asking if revenge can justify punishment, it is first necessary to get a handle on revenge itself. To gain clarity concerning revenge, this course will

look at the phenomenon of revenge itself as it has been practiced, imagined, and thought throughout history. Through a close reading of texts, films, and art, we will ask: Is there a pre-legal practice of revenge? Can revenge be distinguished from retribution? And, most importantly, what is it about the present age that demands, even necessitates, the persistent and increasing acceptance of revenge as an integral part of law?

Omitted 2004-05.

50. Twentieth-Century American Legal Theory. The discipline of legal theory has the task of making law meaningful to itself. But there is a variety of competing legal theories that can make law meaningful in divergent ways. By what measure are we to assess their adequacy? Is internal coherence the best standard or should legal theory strive to accord with the extra-legal world? Then too, the institutions and practices of law are components of social reality and, therefore, as amenable to sociological or cultural analysis as any other component. Here again, many different kinds of sense can be made of law depending upon how "the social" is itself theorized. This course engages the theme of law and the problems of social reality by way of a three-step approach. The first part of the course presents an overview of the main lines of twentieth-century American legal thought. We begin with a study of legal formalism and the challenges posed to it by legal realism and its various successor theories. One focus of debate between formalism and its rivals is how much social realism should be brought to bear on legal analysis. Another question is: what kind of social realism should be brought to bear on the analysis of law. The second segment of the course provides a survey of some of the candidates. These include the Law and Society Movement, neo-Marxism and Critical Legal Studies. In the final segment we look at how these theoretical issues are given expression in connection with more practical contexts such as poverty law, labor law or criminal law.

First semester. Professor Delaney.

56. Representing and Judging the Holocaust. This seminar will address some of the foundational questions posed by radical evil to the legal imagination. How have jurists attempted to understand the causes and logic of genocide, and the motives of its perpetrators? Is it possible to "do justice" to such extreme crimes? Is it possible to grasp the complexities of history in the context of criminal trial? What are the special challenges and responsibilities facing those who struggle to submit traumatic history to legal judgment? We will consider these questions by focusing specifically on a range of legal responses to the crimes of the Holocaust. Our examination will be broadly interdisciplinary, as we compare the efforts of jurists to master the problems of representation and judgment posed by extreme crimes with those of historians, social theorists, and artists. Readings will include original material from the Nuremberg, Eichmann, and Irving trials, and works by, among others, Hannah Arendt, Zygmunt Bauman, Christopher Browning, Primo Levi, and Art Spiegelman.

Limited to 18 students. Omitted 2004-05. Professor Douglas.

77, 78. Senior Departmental Honors. Independent work under the guidance of a tutor assigned by the Department. Open to senior LJST majors who wish to pursue a self-defined project in reading and writing and to work under the close supervision of a faculty member. Admission is by consent of the Department.

97, 98. Special Topics. Independent Reading Courses. Reading in an area selected by the student and approved in advance by a member of the Department.

LINGUISTICS

Courses in linguistics and related fields are offered occasionally through the Departments of Asian Languages and Civilizations, English, Mathematics and Computer Science, and Philosophy. The College does not offer a major in this subject. Students interested in linguistics are advised to consult Professor Wako Tawa, Department of Asian Languages and Civilizations, Amherst College.

MATHEMATICS AND COMPUTER SCIENCE

Professors Armacost, Call, Cox, Denton, C. McGeoch†, L. McGeoch, Rager (Chair), Starr, and Velleman*; Assistant Professors Benedetto and Kaplan; Visiting Assistant Professor Leise; Visiting Associate Professor Sipe.

The Department offers the major in Mathematics and the major in Computer Science as well as courses meeting a wide variety of interests in these fields. Non-majors who seek introductory courses are advised to consider Mathematics 05, 11, 15, and Computer Science 05 and 11, none of which requires a background beyond high school mathematics.

Mathematics

Major Program. The minimum requirements for the Mathematics major are Mathematics 11, 12, 13, 25, 26, 28, and at least three other courses in Mathematics numbered 14 or higher. In addition, a major must complete two courses outside Mathematics which demonstrate significant use of mathematics. These two courses may be chosen from the following list: Computer Science 27, 31, or 38, Physics 16, 17, 23 or 24, Philosophy 50, or Economics 58, 65, 67, or 73. Requests for alternative courses must be approved in writing by the Chair of the Department.

Students with a strong background in Mathematics may be excused from taking certain courses such as introductory calculus courses. It is recommended that such students take the Advanced Placement Examination in Mathematics.

A student considering a major in Mathematics should consult with a member of the Department as soon as possible, preferably during the first year. This will facilitate the arrangement of a program best suited to the student's ability and interests. Students should also be aware that there is no single path through the major; courses do not have to be taken in numerical order (except where required by prerequisites).

For a student considering graduate study, the Departmental Honors program is strongly recommended. Such a student is advised to take the Graduate Record Examination early in the senior year. It is also desirable to have a reading knowledge of two foreign languages, usually French, German, or Russian.

All students majoring in Mathematics are expected to attend the departmental colloquium during their junior and senior years.

Comprehensive Examination. A comprehensive examination for majors who are not participating in the Honors Program will be given near the beginning of the spring semester of the senior year. (Those who will complete their studies in the

*On leave 2004-05.

†On leave second semester 2004-05.

fall semester may elect instead to take the comprehensive examination at the beginning of that semester.) The examination covers Mathematics 11, 12, 13, 25, and a choice of Mathematics 26 or 28. A document describing the comprehensive examination can be obtained from the Department Coordinator.

Departmental Honors Program. Students are admitted to the Honors Program on the basis of a qualifying examination given at the beginning of the spring semester of their junior year. (Those for whom the second semester of the junior year occurs in the fall may elect instead to take the qualifying examination at the beginning of that semester.) The examination is identical to the comprehensive examination mentioned above and is described in a document available from the Department Coordinator. Before the end of the junior year, an individual thesis topic will be selected by the Honors candidate in conference with a member of the Department. After intensive study of this topic, the candidate will write a report in the form of a thesis which should be original in its presentation of material, if not in content. In addition, the candidate will report to the departmental colloquium on her or his thesis work during the senior year. Honors candidates are also required to complete Mathematics 31 and either Mathematics 42 or 44.

05. Calculus with Algebra. Mathematics 05 and 06 are designed for students whose background and algebraic skills are inadequate for the fast pace of Mathematics 11. In addition to covering the usual material of beginning calculus, these courses will have an extensive review of algebra and trigonometry. There will be a special emphasis on solving word problems.

Mathematics 05 starts with a quick review of algebraic manipulations, inequalities, absolute values and straight lines. Then the basic ideas of calculus—limits, derivatives, and integrals—are introduced, but only in the context of polynomial and rational functions. As various applications are studied, the algebraic techniques involved will be reviewed in more detail. When covering related rates and maximum-minimum problems, time will be spent learning how to approach, analyze and solve word problems. Four class hours per week. Note: While Mathematics 05 and 06 are sufficient for any course with a Mathematics 11 requisite, Mathematics 05 alone is not. However, students who plan to take Mathematics 12 should consider taking Mathematics 05 and then Mathematics 11, rather than Mathematics 06.

First semester. Professor Benedetto.

06. Calculus with Elementary Functions. Mathematics 06 is a continuation of Mathematics 05. Trigonometric, logarithmic and exponential functions will be studied from the point of view of both algebra and calculus. The applications encountered in Mathematics 05 will reappear in problems involving these new functions. The basic ideas and theorems of calculus will be reviewed in detail, with more attention being paid to rigor. Four class hours per week.

Second semester. Professor Benedetto.

11. Introduction to the Calculus. Basic concepts of limits, derivatives, anti-derivatives; applications, including max/min problems and related rates; the definite integral, simple applications; trigonometric functions; logarithms and exponential functions. Four class hours per week.

First and second semesters. The Department.

12. Intermediate Calculus. A continuation of Mathematics 11. Inverse trigonometric and hyperbolic functions; methods of integration, both exact and approximate; applications of integration to volume and arc length; improper integrals;

l'Hôpital's rule; infinite series, power series and the Taylor development; and polar coordinates. Four class hours per week.

Requisite: A grade of C or better in Mathematics 11 or consent of the Department. First and second semesters. The Department.

13. Multivariable Calculus. Elementary vector calculus; introduction to partial derivatives; multiple integrals in two and three dimensions; line integrals in the plane; Green's theorem; the Taylor development and extrema of functions of several variables; implicit function theorems; Jacobians. Four class hours per week.

Requisite: A grade of C or better in Mathematics 12 or the consent of the instructor. First semester: Professors Starr and Leise. Second semester: Professor Leise.

14. Introduction to Probability. This course explores the nature of probability and its use in modeling real world phenomena. By restricting attention to finite and countable contexts, it becomes possible to study a broad class of models with minimal appeal to the machinery of calculus. The course begins with the development of an intuitive feel for probabilistic thinking, based on the simple yet subtle idea of counting. It then evolves toward the rigorous study of discrete and continuous probability spaces, random variables, and distribution functions. Examples will be used as a guide throughout the course, and a variety of applications from such areas as games of chance, information theory, game theory, decision theory and operations research will be included. In studying these applications, particular attention will be paid to the associated probability models. Four class hours per week. Offered in alternate years.

Requisite: Mathematics 12 or consent of the instructor. Second semester. Professor Denton.

15. Discrete Mathematics. This course is an introduction to some topics in mathematics that do not require the calculus. Emphasis is placed on topics that have applications in computer science, including elementary set theory, logic, mathematical induction; basic counting principles; relations and equivalence relations; graph theory; and rates of growth. Additional topics may vary from year to year. This course not only serves as an introduction to mathematical thought but it is also recommended background for advanced courses in computer science. Four class hours per week.

Second semester. Professor Starr.

16. Chaotic Dynamical Systems. Given a system such as the weather, the stock market or the population of a large city, there are many questions that can be asked about its long-term behavior. A Dynamical System is a mathematical model of such a system, and in this course, we will study dynamical systems from a mathematical point of view. In particular, we will describe the various ways in which a dynamical system can behave, and we will discover that some very simple systems can have surprisingly complex behavior. This will lead to the notion of a chaotic dynamical system. We will also discuss Newton's method, fractals, and iterations of complex functions. Three class hours per week plus a weekly one-hour computer laboratory. Offered in alternate years.

Requisite: Mathematics 13 or consent of the instructor. Second semester. Professor Leise.

17. Introduction to Statistics. Elementary probability, including statements of the law of large numbers and the central limit theorem; distribution functions of frequent occurrence in statistics, such as the Normal, Poisson, Chi square and

Student's, and their use in hypothesis testing and estimation; roles of the law of large numbers and the central limit theorem in hypothesis testing and estimation (including errors of Type I and Type II); a brief introduction to analysis of variance and non-parametric methods. Four class hours per week.

Requisite: Mathematics 11 or the equivalent. First semester. Professor Denton.

18. Mathematical Modeling in Biology, Chemistry and Geology. This course is an introduction to the use of differential equations to model naturally occurring systems in Biology, Chemistry, and Geology. The course will begin with population models, including epidemics and predator-prey interactions. This will involve the study of initial value problems, phase-plane analysis and stability. These ideas will then be applied to systems of differential equations arising from chemical reactions, including ozone formation and the Belousov-Zhabotinskii oscillatory reactions. The chaotic Lorenz equations from meteorology will also be discussed. The course will then switch to the partial differential equations used in the study of groundwater flow. Darcy's law will be formulated at increasing levels of sophistication until arriving at the numerical solution of the Laplace equation. The final topic will be advection, which is used to model transport phenomena in biological and geological systems. Four class hours per week (which include occasional in-class computer labs).

Requisite: Mathematics 11 or consent of the instructor. Omitted 2004-05.

20. Differential Equations. The solution, application and theory of differential equations. After a study of elementary methods of solution, systems of differential equations, and the existence, uniqueness and stability of solutions, attention will be given to topics among the following: numerical methods, partial differential equations, and eigenfunction expansions. Four class hours per week.

Requisite: Mathematics 13. Second semester. Visiting Professor Sipe.

23. Topics in Geometry. The topics and requisites may change from year to year. The topics for 2004 were neutral geometry, non-Euclidean geometry and differential geometry.

In Euclidean geometry, the parallel axiom asserts that given a line and a point not on the line, there is a unique line through the point parallel to the given line. This implies, for example, that the sum of the angles of a triangle is always 180 degrees. In the nineteenth century, it was discovered that this is not the only possible geometry.

The course begins with neutral geometry, which makes no assumptions about parallel lines. We then study non-Euclidean geometry, which uses a different parallel axiom. Here, we still have geometric objects like circles and lines, but many of the theorems and formulas are different. For example, the sum of the angles of a triangle will always be less than 180 degrees, and this sum determines the area of the triangle. This will have interesting consequences concerning similar triangles. We also study the fascinating history of non-Euclidean geometry.

The final part of the course was an introduction to differential geometry. The key concepts are geodesics (which replace straight lines) and curvature (which measures how a surface bends). These enable us to make some interesting models of non-Euclidean geometry and to see how geometric ideas can be applied in a much wider context. Three class hours per week. Offered in alternate years.

Requisite: Mathematics 13 or consent of the instructor. Omitted 2004-05.

24. Theory of Numbers. An introduction to the theory of rational integers; divisibility, the unique factorization theorem; congruences, quadratic residues.

Selections from the following topics: cryptology; Diophantine equations; asymptotic prime number estimates; continued fractions; algebraic integers. Four class hours per week. Offered in alternate years.

Requisite: Mathematics 12 or consent of the instructor. Second semester. Professor Cox.

25. Linear Algebra. The study of vector spaces over the real and complex numbers, introducing the concepts of subspace, linear independence and basis; systems of linear equations; linear transformations and their representation by matrices; determinants; eigenvalues and eigenvectors. The course may also cover inner product spaces, dual spaces, the Cayley-Hamilton Theorem, and an introduction to canonical forms. Four class hours per week.

Requisite: Mathematics 12 or consent of the instructor. First semester. Professor Leise.

26. Groups, Rings and Fields. A brief consideration of properties of sets, mappings, and the system of integers, followed by an introduction to the theory of groups and rings including the principal theorems on homomorphisms and the related quotient structures; integral domains, fields, polynomial rings. Four class hours per week.

Requisite: Mathematics 25 or consent of the instructor. Second semester. Professor Armacost.

27. Set Theory. Most mathematicians consider set theory to be the foundation of mathematics, because everything that is studied in mathematics can be defined in terms of the concepts of set theory, and all the theorems of mathematics can be proven from the axioms of set theory. This course will begin with the axiomatization of set theory that was developed by Ernst Zermelo and Abraham Fraenkel in the early part of the twentieth century. We will then see how all of the number systems used in mathematics are defined in set theory, and how the fundamental properties of these number systems can be proven from the Zermelo-Fraenkel axioms. Other topics will include the axiom of choice, infinite cardinal and ordinal numbers, and models of set theory. Four class hours per week.

Requisite: Mathematics 15, 25 or 28, or consent of the instructor. Omitted 2004-05.

28. Introduction to Analysis. Completeness of the real numbers; topology of n -space including the Bolzano-Weierstrass and Heine-Borel theorems; sequences, properties of functions continuous on sets; infinite series, uniform convergence. The course may also study the Gamma function, Stirling's formula, or Fourier series. Four class hours per week.

Requisite: Mathematics 13. Second semester. Professor Starr.

31. Functions of a Complex Variable. An introduction to analytic functions; complex numbers, derivatives, conformal mappings, integrals. Cauchy's theorem; power series, singularities, Laurent series, analytic continuation; Riemann surfaces; special functions. Four class hours per week.

Requisite: Mathematics 13. First semester. Professor Benedetto.

34. Mathematical Logic. Mathematicians confirm their answers to mathematical questions by writing proofs. But what, exactly, is a proof? This course begins with a precise definition specifying what counts as a mathematical proof. This definition makes it possible to carry out a mathematical study of what can be accomplished by means of deductive reasoning and, perhaps more interestingly, what cannot be accomplished. Topics will include the propositional and

predicate calculi, completeness, compactness, and decidability. At the end of the course we will study Gödel's famous Incompleteness Theorem, which shows that there are statements about the positive integers that are true but impossible to prove. Four class hours per week. Offered in alternate years.

Requisite: Mathematics 15, 25 or 28, or consent of the instructor. Omitted 2004-05.

37. Topics in Mathematics. The topics may vary from year to year. The topic for fall 2004 is the algebra and geometry of polynomial equations. Algebraic geometry is the study of geometric objects by means of their defining equations. This course will introduce algorithmic methods for manipulating and understanding algebraic equations. On the theoretical side, we will study the structure of ideals in polynomial rings, and on the practical side, we will discuss applications to computer graphics, robotics, and chemical kinetics. Four class hours per week with occasional in-class computer labs. Offered in alternate years.

Requisite: Mathematics 26. First semester. Professor Cox.

42. Functions of a Real Variable. An introduction to Lebesgue measure and integration; topology of the real numbers, inner and outer measures and measurable sets; the approximation of continuous and measurable functions; the Lebesgue integral and associated convergence theorems; the Fundamental Theorem of Calculus. Four class hours per week. Offered in alternate years.

Requisite: Mathematics 28. Omitted 2004-05.

44. Topology. An introduction to general topology; the topology of Euclidean, metric and abstract spaces, with emphasis on such notions as continuous mappings, compactness, connectedness, completeness, separable spaces, separation axioms, and metrizable spaces. Additional topics may be selected to illustrate applications of topology in analysis or to introduce the student briefly to algebraic topology. Four class hours per week. Offered in alternate years.

Requisite: Mathematics 28. Second semester. Professor Benedetto.

77, 78. Senior Departmental Honors.

Open to seniors with the consent of the Department. First and second semesters. The Department.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. The Department.

RELATED COURSE

Philosophy of Mathematics. See Philosophy 50.

Omitted 2004-05.

Computer Science

Major Program. The minimum requirements for the Computer Science major include Computer Science 11, 12, 14, 21, and 31, and three additional Computer Science courses numbered above 21. In addition, a major must complete Mathematics 11, one of Mathematics 15, 26, and 28, and one other Mathematics course numbered 12 or higher.

Students with a strong background may be excused from taking Computer Science 11, 12 and/or Mathematics 11. It is recommended that such students take the appropriate Advanced Placement Examination and consult with a member of the Department in the first year. If excused from all three, a major must take one additional elective in Computer Science. Majors are encouraged to complete

Computer Science 11, 12, 14, and 21, Mathematics 11, and one of Mathematics 15, 26, or 28 before the junior year.

Majors who took Computer Science 11 before 2004-05 are not required to take Computer Science 12.

Participation in the Departmental Honors program is strongly recommended for students considering graduate study in computer science. Such students should consult with a member of the Department in the junior year to plan advanced coursework and to discuss fellowship opportunities. Most graduate programs in computer science require that the applicant take the Graduate Record Examination early in the senior year.

All students majoring in Computer Science are expected to attend the departmental colloquium during their junior and senior years.

Comprehensive Examination. A comprehensive examination for majors will be given near the beginning of the spring semester of the senior year. (Those who will complete their studies in the fall semester may elect instead to take the comprehensive examination at the beginning of that semester.) The examination covers Computer Science 11, 14, 21, and 31. A document describing the comprehensive examination can be obtained from the Department Coordinator.

Departmental Honors Program. The Honors Program in Computer Science is open to senior majors who wish to pursue independent research and to write a thesis. A student may apply to the program by submitting a proposal during the spring semester of the junior year. If the proposal is accepted, the student is admitted to the program, enrolls in Computer Science 77 for the fall semester, and begins research under the guidance of a faculty advisor. Students in Computer Science 77 meet together weekly to discuss their independent work. At the end of the fall semester, each student writes an extended abstract describing his or her work. Students whose abstracts show significant progress are admitted to Computer Science 78 and complete a thesis during the spring semester. A document describing the details of the Honors Program is available from the Department Coordinator.

05. Demystifying the Internet. This course provides an introductory survey of topics in computer science that are related to the Internet. Students will become familiar with the history and underlying structure of the Internet and with technologies such as email, web browsers, search engines, and web page design tools. We will learn about the science behind the technology: topics to be addressed include network design and network protocols, limitations of modern encryption methods, and applications of algorithmics and artificial intelligence to the design of search engines. Some time will also be spent considering social issues such as privacy, worms and viruses, spam, cookies, and encryption policy. Two class meetings per week, with occasional in-class lab sessions.

This course does not provide prerequisite credit for any computer science course, nor does it count towards the computer science major. No previous experience with computers is required. Limited to 40 students. First semester. Professor C. McGeoch.

11. Introduction to Computer Science I. This course introduces ideas and techniques that are fundamental to computer science. The course emphasizes procedural abstraction, algorithmic methods, and structured design techniques. Students will gain a working knowledge of a block-structured programming language and will use the language to solve a variety of problems illustrating ideas in computer science. A selection of other elementary topics will be presented, for example: the historical development of computers, comparison and

evaluation of programming languages, and artificial intelligence. A laboratory section will meet once a week to give students practice with programming constructs. Two class hours and one one-hour laboratory per week.

First semester: Professor Kaplan. Second semester: Professor L. McGeoch.

12. Introduction to Computer Science II. A continuation of Computer Science 11. This course will emphasize more complicated problems and their algorithmic solutions. The object-oriented programming paradigm will be discussed in detail, including data abstraction, inheritance and polymorphism. Other topics will include the implementation of simple data structures and the use of finite-state machines in algorithm design. A laboratory section will meet once a week to give students practice with programming constructs. Two class hours and one one-hour laboratory per week.

Requisite: Computer Science 11 or consent of the instructor. This course is the appropriate starting point for most students with some prior programming experience. It is open to students who took Computer Science 11 before 2004-05 only with consent of the instructor. First and second semesters. Professor Rager.

14. Introduction to Computer Systems. This course will provide an introduction to computer systems, stressing how computers work. Beginning with Boolean logic and the design of combinational and sequential circuits, the course will discuss the design of computer hardware components, microprocessing and the interpretation of machine instructions, and assembly languages and machine architecture. The course will include a brief introduction to operating systems and network communication. A laboratory section will allow students to design and build digital circuits and to develop assembly language programs. Three class hours and one one-hour laboratory per week.

Requisite: Computer Science 11 or some programming experience. Second semester. Professor Kaplan.

21. Data Structures. A fundamental problem in computer science is that of organizing data so that it can be used effectively. This course introduces basic data structures and their applications. Major themes are the importance of abstraction in program design and the separation of specification and implementation. Program correctness and algorithm complexity are also considered. Data structures for lists, stacks, queues, trees, sets and graphs are discussed. This course will provide advanced programming experience. Four class hours per week.

Requisite: Computer Science 11 or consent of the instructor. Computer Science 12 will be a requisite after 2003. First semester. Professor L. McGeoch.

23. Programming Language Paradigms. The main purpose of a programming language is to provide a natural way to express algorithms and computational structures. The meaning of "natural" here is controversial and has produced several distinct language paradigms; furthermore the languages themselves have shaped our understanding of the nature of computation and of human thought processes. We will explore these paradigms and discuss the major ideas underlying language design. We will apply formal methods to analyze the syntax and semantics of programming languages. Several languages will be introduced to illustrate ideas developed in the course. Three class meetings per week. Offered in alternate years.

Requisite: Computer Science 21 or consent of the instructor. First semester. Professor Rager.

24. Artificial Intelligence. An introduction to the ideas and techniques that allow computers to perform intelligently. The course will cover both methods to

solve "general" problems (e.g., heuristic search and theorem provers) and "expert systems" which solve specific problems (e.g., medical diagnosis). Laboratory work will include introductions to LISP and/or PROLOG and to special AI tools. Other topics will be chosen to reflect the interest of the class and may include: communicating in English, game playing, planning, vision and speech recognition, computers modeled on neurons, learning, modeling of human cognitive processes and the possibility and implications of the existence of non-human intelligence. Four class hours per week. Offered in alternate years.

Requisite: Computer Science 11. Omitted 2004-05.

27. Cryptography. Banks, businesses, and governments have long needed the ability to transmit information between computers while preventing eavesdroppers from acquiring the information. With the expansion of electronic commerce on the Internet, individuals need similar assurance that their transactions are private. One way to try to keep information secret is to *encrypt* it before transmitting it. Encryption can also be used to achieve other goals of secure communications, such as permitting "digital signatures" on electronic messages in order to prevent the transmission of fraudulent messages. In this course we will study a variety of encryption schemes, how they can be used, and how secure they are. Topics will include classical cryptosystems, the data encryption standard, public-key cryptography, key escrow systems, and public policy on encryption. Three one-hour lectures per week. Offered in alternate years.

Requisites: Computer Science 21 and one of Mathematics 15, 24, 26, or 28. First semester. Professor L. McGeoch.

29. Networks. Computing networks have fundamentally changed the ways we use computers. The ubiquity of networks and their broad range of uses have introduced substantial challenges in the design and analysis of computer communication. It is now critical that any pair of computers be able to communicate large amounts of data with minimal delay, thus producing challenges for the design, management, and analysis of networks.

This course will examine the underlying concepts that make computer networks possible. We will begin with the problems of communicating between two computers, and then we will address the problems of building generalized networks for an arbitrary number of computers. Topics will include layered network structure, signaling methods and their theoretical limitations, error detection and correction, flow control, routing, congestion, protocol design, compression, encryption, programming interfaces, and security.

Requisite: Computer Science 11. First semester. Professor Kaplan.

30. Concurrency. We consider the implications of shifting from a single-process model of computation to one comprising two or more processes that interact while running concurrently. Examples of concurrent processes are found inside parallel computers, on distributed systems, and in Internet services. This course will explore problems of concurrency as they arise in several areas of computer science, including models of concurrent computation and their realization in architecture, designing correct protocols and efficient algorithms, developing programming languages to describe concurrency, and writing concurrent programs. Three class hours per week.

Requisites: Computer Science 14 and 21. Omitted 2004-05.

31. Algorithms. This course addresses the design and analysis of computer algorithms. Although theoretical analysis is emphasized, implementation and evaluation techniques are also covered. Topics include: set algorithms such as sorting and searching, graph traversal and connectivity algorithms, string

algorithms, numerical algorithms, and matrix algorithms. Algorithm design paradigms will be emphasized throughout the course. The course will end with a discussion of the theory of NP-Completeness and its implications. Four class hours per week.

Requisites: Computer Science 21 and Mathematics 15, 26, or 28 or consent of the instructor. First semester. Professor C. McGeoch.

32. Computer Graphics. This course will explore the algorithms used in creating “realistic” three-dimensional computer images. Major topics will include object representations (polygon meshes, curved surfaces, functional models), rendering algorithms (perspective transformations, hidden-surface removal, reflectance and illumination, shadows, texturing), and implementation techniques (scan conversion, ray tracing, radiosity).

Requisite: Computer Science 21 or consent of the instructor. Second semester. Professor Rager.

37. Compiler Design. An introduction to the principles of the design of compilers, which are translators that convert programs from a source language to a target language. Some compilers take programs written in a general-purpose programming language, such as C, and produce equivalent assembly language programs. Other compilers handle specialized languages. For instance, text processors translate input text into low-level printing commands. This course examines techniques and principles that can be applied to the design of any compiler. Formal language theory (concerning regular sets and context-free grammars) is applied to solve the practical problem of analyzing source programs.

Topics include: lexical analysis, syntactic analysis (parsing), semantic analysis, translation, symbol tables, run-time environments, code generation, optimization, and error handling. Each student will design and implement a compiler for a small language. Three class hours per week. Offered in alternate years.

Requisites: Computer Science 14 and 21. Omitted 2004-05.

38. Theoretical Foundations of Computer Science. This course covers basic mathematical concepts that are essential in computer science, and then uses them to teach the theory of formal languages and machine models of languages. The notion of computability will be introduced in order to discuss undecidable problems. The topics covered include: regular, context-free and context-sensitive languages, finite state automata, Turing machines, decidability, and computational complexity. Three class hours per week. Offered in alternate years.

Requisites: Computer Science 11 and Mathematics 15, 26 or 28 or consent of the instructor. Second semester. Professor L. McGeoch.

39. Principles of Operating System Design. An introduction to the design and implementation of operating systems. The problem of managing computer resources is complex, and there are significant system design issues concerning process management, input/output control, memory management, and file systems. This course examines these issues and the principles that are the basis of modern operating systems. Topics include: interprocess communication, process scheduling, deadlock avoidance, device drivers, virtual memory, and security. Three class hours per week. Offered in alternate years.

Requisites: Computer Science 14 and 21. Omitted 2004-05.

40. Seminar in Computer Science. In fall 2002 the topic was “Algorithms in the Real World.” In many areas of algorithm analysis there is a significant gap between theory and practice. Theoretical bounds on algorithm performance are based on abstract machines, asymptotic behaviors, and worst-case assumptions

about input; however, programs run on real computers, typically with highly structured inputs. This course examines recent efforts to close this gap through development of more realistic models of computation (which incorporate caching and paging strategies) and through experimental research on algorithms. Students will read research papers and carry out small experimental studies on selected algorithms. Two class meetings per week.

Requisite: Computer Science 31. Omitted 2004-05.

77, 78. Senior Departmental Honors. Open to seniors with consent of the Department.

First and second semesters. The Department.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. The Department.

MELLON SEMINAR

The Andrew W. Mellon Professorship is awarded for a three-year period to a member of the faculty whose scholarship and teaching transcend normal disciplinary lines. The Mellon Professor contributes to the continuing process of curriculum revision and revitalization by developing courses or colloquia exploring new ways to teach and learn in his or her area of interest and inquiry.

04. The Geology of the Great American West. Like the political and economic landscape of the western United States in the mid-19th century, the western continent is young in many respects, its development still underway and observable today. From the high plains west of the Mississippi River, across the Rockies, Canyonlands, and Great Basin, to the Sierra Nevada, the striking natural landscapes of western North America result from the interactions of varied geologic processes through geologic time. The first several weeks of this course will survey the fundamental geologic dynamics that shape the earth's surface and review major stages in the evolution of the earth's crust and oceans. We will then turn to the particular expression of those processes in the American west, with special attention given to our national parks. Readings from the reports of the first geologists to survey the western lands (Powell in the Grand Canyon and Hayden in Yellowstone) will be included, as will the art and literature of explorers and early travelers through the west. We will consider how those representations introduced and interpreted the western landscape for easterners of the day, and will investigate how the developing American self-image may have been influenced by the character of our lands. Two class meetings per week. No previous knowledge of geology is assumed.

Second semester. Professor Harms.

MUSIC

Professors Kallick, Reck (Chair), and Spratlan; Assistant Professors Sawyer and Schneider; Valentine Professor Mórícz and Members of the Brentano String Quartet and Peabody Piano Trio; Andrew W. Mellon Visiting Assistant Professor Harwood; Lecturer Diehl.

The Music Department offers a full range of courses both for students with previous musical experience and for those coming to the study of music for the first time. Students in need of review of music fundamentals (scales, key signatures,

intervals, sight-singing) and those particularly interested in learning to read music should enroll in Music 11. Students with fluency in music fundamentals but without extensive theory background should consider Music 12, 25, 65, and 69. Students who have not previously taken a course in music theory at Amherst College are encouraged to take a self-administered placement exam available on reserve in the Music Library and on the Music Department Website (<http://www.amherst.edu/~music/>). Students are also encouraged to discuss placement in music theory with a member of the Music Department. Students contemplating a major in music should take the necessary background courses so as to elect Music 31 no later than the fall of their junior year. Students will not be admitted to the major before the completion of Music 31. Students contemplating honors work must complete Music 32 no later than the spring of their sophomore year. (This applies to the Class of 2008.)

Performance Ensemble. Performance ensemble (28H, 28—fall and spring semesters) is available on a credit or non-credit basis. There is no extra fee charged in either case. Students who wish to participate in any of the department's large choral or instrumental ensembles or in a chamber music group or jazz combo should consult the Music Department Coordinator for information regarding the various performing options.

Performance Instruction. Performance Instruction (29H, 29 [fall semester], 30H, 30 [spring semester]) is available on a credit or non-credit basis. A fee is charged in either case. For 2004-05 the fee for each semester course will be \$600, for which the student is fully committed following the 14-day add/drop period. Students who wish to elect performance instruction for credit must meet the criteria outlined under the heading PERFORMANCE on page 243. Those students who elect performance instruction for credit and are receiving need-based scholarship assistance from Amherst College will be given additional scholarship grants in the full amount of these fees. See the Music Department Coordinator for information regarding instructors for this program.

Major Program. The Department offers the major in Music with a concentration in performance, jazz, popular or world music, composition, music theory, music history, music literature and criticism, and opera studies. Students interested in declaring a music major should contact the chair, normally, no later than the first week of their junior year. At that time, students will be asked to describe in writing their goals for the major and the courses they plan to elect. Normally, students will not be admitted to the major in their senior year. In consultation with a member of the department, students will determine the most appropriate manner for fulfilling the departmental requirement of eight semester courses. All majors must elect at a minimum Music 31, 32 and one course designated as a major seminar. Students will not be admitted to the major before the completion of Music 31. A seminar will fulfill this requirement only if elected after the completion of Music 31. Note that because the music faculty is eager to help students create individualized paths in the major, we strongly encourage potential majors to speak with members of the department as early as possible in their academic careers. Majors contemplating honors work must also elect Music 33 or 34, and at least one course from among Music 21, 22, and 23. (This applies to the Class of 2008.) Majors contemplating honors in composition must complete Music 71 or Music 72 no later than the spring of their junior year, and normally Music 69 in preparation. In 2004-05, major seminars include Music 33, 34, 44, and 45.

The Department of Music urges all prospective majors to consult with a member of the department so that a satisfactory sequence of courses may be arranged. We urge, as well, that students acquaint themselves with the wide variety of music courses available through Five College Interchange. For example, courses in African-American music are also offered at the University of Massachusetts and Hampshire College and courses in rock and popular music at Smith College. Above all, the Department is committed to helping students put together that program which is most suited to their interests, abilities, and aspirations.

Comprehensive Examination. Majors who are not electing to do honors work must successfully complete a comprehensive examination in the senior year or enroll in Music 44: Music, History, and Ideas (see Music 44 course description for further explanation). No comprehensive exam is required of students doing honors projects. Note that Music 44 may be used to fulfill either the seminar requirement or comprehensive examination requirement, but not both.

Departmental Honors Program. In the senior year students may elect to do honors work—a critical thesis (historical, theoretical, or ethnomusicological), a major composition project, a major opera project, or performance of a full recital. In preparation for this work, a student will ordinarily elect a number of courses in a field of concentration beyond those required. The thesis course, Music 77-78, should be elected in the senior year. Students interested in the Honors Program should inform the Department of their plans no later than the midpoint of the spring semester in their junior year. An honors proposal must be submitted to the Music Department for approval no later than the end of drop/add in the fall of the senior year.

INTRODUCTORY COURSES

01. Discovering Music. An introductory course designed to teach those with little or no musical background to listen to and write about music with greater understanding. A historical survey of Western art music ranging from Gregorian chant to music of the 1990s will enable students to identify a wide range of styles and genres of vocal and instrumental music. Assignments will emphasize aural analysis and be complemented by the reading of select historical documents. Exams will include listening identification. No musical background necessary. Two class meetings and one listening section per week.

Second semester. Professor Schneider.

09. Performance and Analysis I. Members of the class will be assigned to chamber ensembles, representing a range of repertoire from the past and present. Ensembles will include both student and artist musicians, who will prepare works for performance in class sessions and private coachings. Intensive class analysis will serve as the basis of musical expression and interpretation. In 2004-05, the Brentano String Quartet and the Peabody Piano Trio will serve as player/coaches for Music 09 and Music 10. This course is open to singers and instrumentalists. This course may be repeated.

Admission with consent of the instructor. First semester. Professor Kallick and Valentine Professors.

10. Performance and Analysis II. Members of the class will be assigned to chamber ensembles, representing a range of repertoire from the past and present. Ensembles will include both student and artist musicians, who will prepare works for performance in class sessions and private coachings. Intensive class analysis will serve as the basis of musical expression and interpretation. In

2004-05, the Brentano String Quartet and the Peabody Piano Trio will serve as player/coaches for Music 09 and Music 10. This course is open to singers and instrumentalists. This course may be repeated.

Administration with consent of the instructor. Second semester. Professor Kallick and Valentine Professors.

11. Introduction to Music. This course is intended for students with little or no background in music who would like to develop a theoretical and practical understanding of how music works. Students will be introduced into the technical details of music such as musical notation, intervals, basic harmony, meter and rhythm. Familiarity with basic music theory will enable students to read and perform at sight as well as to compose melodies with chordal accompaniment. Music analyzed and performed during the course will be drawn primarily from the Western tonal tradition. Assignments will include notational exercises, short papers and preparation of music for classroom performance. This course serves as a requisite for many of the music department offerings. Three class meetings and one lab section per week.

Students with some musical experience contemplating music 11 are encouraged to take a self-administered placement exam available on reserve in the Music Library and on the Music Department Website (<http://www.amherst.edu/~music/>). Students are also encouraged to discuss placement in music theory with a member of the Music Department. First semester. Professor Móricz.

12. Exploring Music. Through composition and performance of our own works and through the analysis of popular masterworks from Bach to Broadway, we will build a solid working understanding of the basic principles of melody and harmony in the Western tradition. Creative assignments will include writing melodies and accompaniments as well as brief exercises solving specific musical problems. We will use our instruments and voices to bring musical examples to life in the classroom. A lab session will provide ear- and musicianship-training. Two class meetings per week.

Requisite: Ability to read music, some experience in singing or playing an instrument, or Music 11. Students who have not previously taken a course in music theory at Amherst College are encouraged to take a self-administered placement exam available on reserve in the Music Library and on the Music Department Website (<http://www.amherst.edu/~music/>). Students are also encouraged to discuss placement in music theory with a member of the Music Department. First semester: Professor Schneider. Second semester: Professor Harwood.

15. The Mystery and Magic of J.S. Bach. An exploration of the life and music of J.S. Bach (1685-1750), following his career from Arnstadt to Leipzig and including the great organ works; the keyboard, chamber, and orchestral music from the two-part inventions and *Well-Tempered Clavier* to the *Brandenburg Concertos*; the solo violin and cello works; the cantatas, *St. Matthew Passion*, *B-minor Mass*, and other choral masterpieces; and the unique concepts of *The Musical Offering* and *The Art of the Fugue*. Some musical background and ability to read music. Two class meetings per week.

Omitted 2004-05. Professor Reck.

STUDIES IN OPERA AND MUSICAL THEATER

18. Creating Musical Drama. An exploration of how light and music interact to create stage drama in opera and musical theater. The topic changes from year to year.

No previous experience in design or performance is required. Omitted 2004-05. Professor Kallick.

19. Reading Opera. The topic changes from year to year.

Requisite: Music 31 or consent of the instructor. *Fulfills the seminar requirement for the major.* Omitted 2004-05. Professor Kallick.

STUDIES IN MUSIC HISTORY AND CULTURE

21. Music and Culture I. One of three courses in which music is studied in relation to issues of history, theory, culture, and performance, with the focus of the course changing from year to year. This course is an introduction to European music in the Medieval, Renaissance, and Baroque eras. We will begin by singing Gregorian chant and will go on to cover such topics as the music of the Troubadours, the polyphonic style associated with Notre Dame, the development of musical notation, Renaissance sacred polyphony, madrigals, court dances, and the birth of opera. Throughout the course we will seek to bring the music we study alive by singing and/or playing. We will also host several professional performers of "early music" who will help us understand how this music is likely to have sounded at the time of its creation.

Requisite: Music 12 or consent of the instructor. Omitted 2004-05. Professor Schneider.

22. Music and Culture II. One of three courses in which the stylistic development of Western music is studied in its cultural-historical context. In this course the emphasis will be on a chronological survey of the period 1750-1900. Starting in 1750, the year of J.S. Bach's death, we will witness the birth of modern concert life and the rise of what has become the heart of the "classical" concert repertory. In the first part of the course we will follow the development of the symphony, the string quartet, the concerto and opera, focusing on the works of Haydn, Mozart and Beethoven. In the nineteenth-century portion of the course we will address numerous aspects of Romanticism including the encroachment of the aesthetics of the "sublime" on that of the "beautiful," the replacement of the belief in universal validity with the cult of the individual, and music as a surrogate religion. Composers to be studied include Rossini, Schubert, Mendelssohn, Schumann, Liszt, Berlioz, Wagner, Chopin, Verdi, Musorgsky and Brahms. Readings will include music-historical documents and selected critical and analytical articles. Paper assignments will enable the students to connect detailed musical analysis with historical-cultural interpretation. Weekly listening assignments will help students acquire knowledge of a broad range of Classical and Romantic music. This course may be elected individually or in conjunction with other Music and Culture courses (Music 21 and 23). Two class meetings per week.

Requisite: Music 11, 12, or ability to read music. Second semester. Professor Mórícz.

23. Music and Culture III. One of three courses in which music from both Western and world repertoires is studied in relation to pertinent historical, theoretical, and cultural issues. In the third of three courses, musical examples will be selected to give greatest emphasis to historical developments in Western music from circa 1890 to the present. Topics will include, among others, Bartok, Schoenberg, Stravinsky and the socio-political background of musical modernism; Debussy, Satie, Poulenc, Milhaud and the national roots of neoclassicism; Hindemith, Weil, Copland and music as an agent of social change; music as propaganda during World War II; and the aesthetics of socialist realism. Reading

of historical documents by composers and critics will be supplemented with selections from related works of fiction. This course may be elected individually or in conjunction with other Music and Culture courses (Music 21 and 22). Two class meetings per week.

Requisite: Reading knowledge of music or consent of the instructor. First semester. Professor Schneider.

24. Music of the Whole Earth. (Also Asian 14.) A survey and exploration of the richness and variety of ways of looking at, organizing, and making sound into what is called music in different parts of the world. The course covers tribal, folk, and classical music systems of Oceania/Polynesia, the Far East, Asia, Europe, the Middle East, Africa, and the Americas. There will be comparative studies of world concepts of melody, harmony, polyphony, timbre, form, ensembles, and the techniques and styles of playing and making instruments.

Limited to 30 students. Omitted 2004-05. Professor Reck.

25. Seminar in World Music: The Musics of Japan. (Also Asian 53.) This course will explore a variety of musics from Japan. After an introduction highlighting the musical diversity of the region, ranging from Buddhist chant and gagaku (a Chinese-derived court music over a thousand years old) to Takarazuka and J-pop, we will focus on selected solo, ensemble, ritual, and theatrical traditions in greater anthropological and musicological depth. The goal of this course is to examine music as a fundamental part of life, showing how distinctly Japanese genres have developed in response to internal social changes and contacts with foreign cultures.

Omitted 2004-05.

26. Tracking Beethoven. An exploration of the life and works of Ludwig van Beethoven (1770-1827), following his career from Bonn to Vienna and including orchestral works from symphonies to concertos and overtures, chamber music works from string quartets to piano trios and sonatas for piano with violin and with cello, solo piano works from sonatas to variations, and dramatic works, namely, the *Missa Solemnis* and his single operatic work, *Fidelio*. Particular attention will be paid to how Beethoven understood the politics of his era; why, subsequently, his life and music have come to symbolize the heroic struggle for political and artistic freedom; and what strategies composers after Beethoven have employed in responding to Beethoven's almost overbearing prestige.

Requisite: some musical experience or consent of the instructor. Omitted 2004-05. Professor Kallick.

27. Seminar in American Music. The topic changes from year to year. The topic for 2004-05 is: The Beatles and Pop Music in the 1960s. An interdisciplinary study of the music of the 1960s focusing upon developments in the music and lyrics—and collective biography—of the Beatles, but also including the roots of early rock (Chuck Berry, Elvis Presley), the folk revival (Pete Seeger, Bob Dylan), West Coast groups (the Beachboys, the Grateful Dead), the British invasion (the Rolling Stones and others), and the innovations in the classical music avant garde. Emphasis upon music as a reflection of and response to the social, artistic, and political upheavals of the time, particularly in relation to the counter-culture and the myth of the aquarian age culminating in Woodstock. Two class meetings per week. **Requisite:** Some knowledge of music notation or consent of the instructor.

Limited to 30 students. Second semester. Professor Reck.

PERFORMANCE

28H, 28. Performance Ensemble. First and second semesters. This course entails the study of music from the perspective of ensemble or combo participation. Repertoire will include those compositions programmed by the director of a particular group in each semester. Work for the course will include thorough preparation of one's individual part, intensive listening preparation, and short analytical and historical projects. This course will culminate with a public performance. This course may be repeated. Students who wish to elect performance ensemble credit must meet the following criteria:

1. An instrumental or vocal proficiency of at least intermediate level as determined by the Department.
2. Enrollment in one Music Department course, except Music 01, concurrently with the first enrollment of performance ensemble. Students with substantial background in music theory may petition the chair for exemption from this criterion.

Music 28H, 28 may be elected only with the consent of the ensemble directors and the Music Department Coordinator. This course may be repeated. The following arrangements pertain to the study of performance ensemble at Amherst College:

- a. Unless otherwise arranged with the Department, all performance ensemble courses will be elected as a half course.
- b. Two half courses in performance may be counted as the equivalent of one full course for fulfilling degree requirements. These two half courses must be in the same instrument (or in voice); though not strictly required, the Department urges that the two semesters be consecutive.
- c. A student electing a performance ensemble course may carry four and one-half courses each semester, or four and one-half courses the first semester and three and one-half courses the second semester.
- d. Only with special permission of the Department may students elect more than one performance ensemble in a semester.

29H, 29 (first semester), 30H, 30 (second semester). Performance Instruction. Instruction in performance is available on a credit or non-credit basis. A fee is charged in either case to cover the expense for this special type of instruction. As mentioned above, for 2004-05 the fee for each semester course will be \$600, for which the student is fully committed following the 14-day add/drop period. Those students who elect performance for credit and are receiving need-based scholarship assistance from Amherst College will be given additional scholarship grants in the full amount of these fees. Students who wish to elect performance for credit must meet the following criteria:

1. An instrumental or vocal proficiency of at least intermediate level as determined by the Department.
2. Enrollment in one Music Department course, except Music 01, concurrently with the first semester's enrollment in performance instruction.

Music 29H, 29, 30H, and 30 may be elected only with the consent of the Music Department Coordinator. This course may be repeated. First and second semesters. The following arrangements pertain to the study of performance at Amherst College:

- a. Unless otherwise arranged with the Department, all performance courses will be elected as a half course. Only senior Music Majors preparing a recital may take performance as a full course.
- b. Fifty minutes of private instruction (12 lessons per semester) will be given and regular practice is expected.

- c. Two half courses in performance may be counted as the equivalent of one full course for fulfilling degree requirements. These two half courses must be in the same instrument (or in voice); though not strictly required, the Department urges that the two semesters be consecutive.
- d. A student electing a performance course may carry four and a half courses each semester, or four and a half courses the first semester and three and a half courses the second semester.
- e. Only with special permission of the Department may students elect more than one performance course in a semester.

Students should consult with the Music Department Coordinator to arrange for teachers and auditions. Instruction in performance is also available through the Five Colleges with all of the above conditions pertaining; a student wishing to study under this arrangement must enroll through Five College Interchange.

MUSIC THEORY AND JAZZ

31. Tonal Harmony and Counterpoint. Basic principles of harmonic and contrapuntal technique. Emphasis will be on the acquisition of writing skills. This course is the first of the required music theory sequence for majors. Two class meetings and two ear-training sections per week.

Requisite: Music 12 or consent of the instructor. Students who have not previously taken a course in music theory at Amherst College are encouraged to take a self-administered placement exam available on reserve in the Music Library and on the Music Department Website (<http://www.amherst.edu/~music/>). Students are also encouraged to discuss placement in music theory with a member of the Music Department. First semester: Professor Spratlan. Second semester: Professor Schneider.

32. Form in Tonal Music. A continuation of Music 31 and the second of the required music theory sequence for majors. This course will focus on the understanding of musical form in the eighteenth and nineteenth centuries. Topics to be covered will include sonata form, the romantic character piece and eighteenth-century counterpoint. There will be analyses and writing exercises, as well as model compositions and analytic papers. Two class meetings and two ear-training sections per week.

Requisite: Music 31 or consent of the instructor. Second semester. Professor Sawyer.

33. Repertoire and Analysis. A continuation of Music 32. In this course we will study music by a wide variety of nineteenth-century composers, including Schubert, Schumann, Chopin, Liszt, Wagner, Verdi, Musorgsky and Rimsky-Korsakov. Works will be considered from a number of different analytical perspectives including methods current in the nineteenth century and those developed more recently. Comparing analytical methods of the nineteenth and twentieth centuries will enable students to gain a critical perspective on each and to learn about the limits of analysis and interpretation in general. Work will consist of short weekly assignments, papers, and class presentations. Two class meetings and two ear-training sections per week.

Requisite: Music 31 and 32, or consent of the instructor. *Fulfills the seminar requirement for the major.* First semester. Professor Harwood.

34. Twentieth-Century Music: Focus on Global Influences. This course will survey important compositions of the twentieth century, focusing on works of Western classical composers inspired by contact with music from outside the

classical repertory, including music from other cultures and from folk and popular music traditions. We will examine relevant works of early century masters including Debussy, Ravel, Ives, Stravinsky, Bartók, Gershwin, Copland and Messiaen; as well as more recent work of Ligeti, Reich, Berio, and others, alongside their specific musical influences. This course will feature in-class performances of relevant traditional music by visiting ensembles, and guest appearances by visiting composers. We will consider the compositional challenges of incorporating non-classical influences into a developing modernist musical language of extended harmonic, rhythmic, and instrumental scope; with analytic and writing assignments geared toward evaluating both the technical and expressive results of the attempt to blend musical traditions.

Requisite: Music 31 and 32 or consent of the instructor. Completion of Music 33 would be desirable. *Fulfills the seminar requirement for the major.* Second semester. Professor Sawyer.

35. Jazz Theory and Improvisation I. A course designed to explore jazz harmonic and improvisational practice from both the theoretical and applied standpoint. Students will study common harmonic practice of the jazz idiom, modes and scales, rhythmic practices, and consider their stylistic interpretation. Ideally, a chamber-size ensemble will be developed from students in the class. An end-of-semester performance of material(s) studied during the semester will be required of the class. A jazz-based ear training section will be scheduled outside of the regular class times. Two class meetings per week.

Requisite: Music 11 or 12, or equivalent, or consent of the instructor. Limited to 16 students. Students who have not previously taken a course in music theory at Amherst College are encouraged to take a self-administered placement exam available on reserve in the Music Library and on the Music Department Website (<http://www.amherst.edu/~music/>). Students are also encouraged to discuss placement in music theory with a member of the Music Department. First semester. Lecturer Diehl.

36. Jazz Theory and Improvisation II. A continuation of Music 35, this course is designed to acquaint students with the theory and application of advanced techniques used in jazz improvisation. Work on a solo transcription will be a main focus throughout the semester. An end-of-semester performance of material(s) studied during the semester will be required of the class. A jazz-based ear training section will be scheduled outside of the regular class times. Two class meetings per week.

Requisite: Music 35 and/or performance experience in the jazz idiom strongly suggested. Musical literacy sufficient to follow a score. Limited to 16 students. Second semester. Lecturer Diehl.

SPECIAL COURSES AND SEMINARS

43. Seminar in Rock 'n' Roll. A study of a variety of topics in Rock 'n' Roll, 1950-2000, including (but not limited to) styles such as Rockabilly, Punk, Psychedelic, Grunge, Heavy Metal, Techno, and Rave. Two class meetings per week.

Requisite: Music 11 or 12, experience performing, knowledge of chords, or consent of instructor. Limited to 12 students. Second semester. Professor Reck.

44. Music, History, and Ideas. This course will explore a wide variety of musical compositions, spanning from 1100 to the present. Works will be clustered around a series of topics that illuminate music's continuing connections to prevailing cultural and intellectual ideas in Western thought. Assignments

include readings, listening, and viewing with frequent writing assignments and class presentations.

Requisite: Music 31 or consent of the instructor. Fulfills either the departmental seminar requirement or the comprehensive exam requirement for the major. Second semester. Professor Kallick.

45. String Quartets: From Beethoven to Shostakovich. Beethoven's last five quartets, along with the *Great Fugue*, mark a threshold of radical experimentation in the composer's stylistic development. We will study the expressive and technical innovations of these late works as well as the challenges they pose for performers. We will also consider quartets after Beethoven that present clear evidence of Beethovenian influence with particular emphasis on the works of Dimitri Shostakovich. We will attend live performances and call upon guest performers to discuss the special performance problems presented by these works. Course work will include frequent listening assignments, a series of short written assignments, and one extended paper. Two class meetings per week.

Requisite: Music 31 or consent of the instructor. Fulfills the seminar requirement for the major. First semester. Professor Kallick.

STUDIES IN COMPOSITION

65. Electroacoustic Composition. This course provides instruction in the use of electronic equipment for composition of music. Topics to be considered include approaches to sound synthesis, signal editing and processing, hard disk recording techniques, sequencing audio and MIDI material, and the use of software for interaction between electronics and live performers. The course will also survey the aesthetics and repertory of electroacoustic music. Assignments in the use of equipment and software as well as required listening will prepare students for a final composition project to be performed in a class concert.

Requisite: Music 31. Limited to 10 students. First semester. Professor Sawyer.

67. Song Writing. The writing of songs based upon a study of the works of past masters in a variety of genres and idioms, including George and Ira Gershwin, Chuck Berry, John Lennon/Paul McCartney, Bob Dylan, and others. Two class meetings per week.

Requisite: A composition course with much individual attention. Students should have some background in music performance, chords, or writing. Limited to 8 students. First semester. Professor Reck.

69. Composition I. This course will explore compositional techniques that grow out of the various traditions of Western art music. Innovations of twentieth-century composers in generating new approaches to melody and scale, rhythm and meter, harmony, instrumentation, and musical structure will be examined. The course will include improvisation as a source of ideas for written compositions and as a primary compositional mode. Instrumental or vocal competence and good music reading ability are desirable. Assignments will include compositions of various lengths and related analytical projects. Two class meetings per week.

Requisite: Music 11 or 12, or consent of the instructor. Limited to 15 students. First semester. Professor Sawyer.

71. Composition Seminar I. Composition according to the needs and experience of the individual student. One class meeting per week and private conferences. This course may be repeated.

Requisite: Music 69 or the equivalent, and consent of the instructor. First semester. Professor Spratlan.

72. Composition Seminar II. A continuation of Music 71. One class meeting per week and private conferences. This course may be repeated.

Requisite: Music 71 or the equivalent and consent of the instructor. Omitted 2004-05.

DEPARTMENTAL HONORS AND SPECIAL TOPICS

77, 77D, 78, 78D. Senior Departmental Honors. Advanced work for Honors candidates in music history and criticism, music theory, ethnomusicology, composition, or performance. A thesis, a major composition project or a full-length recital will be required. No student shall elect more than one semester as a double course. A double course or a full course.

First and second semesters.

97, 97H, 98, 98H. Special Topics. Independent Reading Course. Full or half course.

First and second semesters.

RELATED COURSE

The Birth and Growth of Bebop, 1938-1950. See Black Studies 53.

Second semester. Lecturer Diehl.

NEUROSCIENCE

Advisory Committee: Professors S. George (Chair) and Raskint, Assistant Professors Baird, Clotfelter, and Turgeon.

Neuroscience seeks to understand behavior and mental events by studying the brain. The interdisciplinary Neuroscience major at Amherst is designed for those students who wish either to have the breadth of experience this program provides or to prepare for graduate study.

Major Program. Each student, in consultation with a member of the Advisory Committee, will construct a program that will include a basic grounding in biology, chemistry, mathematics, and psychology, as well as advanced work in some or all of these disciplines.

The major is organized into basic, core, and elective courses.

1. The program will begin with the following basic courses: Mathematics 11; Chemistry 11 or 15, 12 and 21; and Biology 19. Physics 16 and 17 or 23 and 24 are recommended.
2. All majors will take three core Neuroscience courses: Neuroscience 26, Biology 30 and Biology 35.
3. Each student will select three additional elective courses in consultation with his or her advisor. A list of approved courses is available from any member of the Advisory Committee.

The large number of courses required for the major makes it necessary for a prospective Neuroscience major to begin the program early (with Chemistry 11 and Mathematics 11 in the first semester of the first year). A student considering a Neuroscience major should also consult early in his or her academic career with a member of the Advisory Committee. All senior majors will participate in the Neuroscience Seminar, which includes guest speakers and student

+On leave first semester 2004-05.

presentations; attendance and participation constitute the senior comprehensive exercise in Neuroscience.

26. Introduction to Neuroscience. (Also Psychology 26.) An introduction to the structure and function of the nervous system, this course will explore the neural bases of behavior at the cellular and systems levels. Basic topics in neurobiology, neuroanatomy and physiological psychology will be covered with an emphasis on understanding how neuroscientists approach the study of the nervous system. Three class hours and three hours of laboratory per week.

Requisite: Psychology 12 or 15 or Biology 18 or 19. Limited to 36 students. Second semester. Professors Baird and George.

Departmental Honors Program. Candidates for the degree with Honors should elect Neuroscience 77 and 78D in addition to the above program. An Honors candidate may choose to do Senior Departmental Honors work with any faculty member from the various science departments who is willing to direct relevant thesis work.

77, 78D. Senior Departmental Honors. Research in an area relevant to neuroscience, under the direction of a faculty member, and preparation of a thesis based upon the research.

Full course first semester. Double course second semester. The Committee.

97, 97H, 98, 98H. Special Topics. Independent Reading. Full or half course.

First and second semesters.

PHILOSOPHY

Professors A. George, Gentzler, Kearns, and Vogel; Professor Emeritus Kennick; Associate Professor J. Moore (Chair); Assistant Professor Shah*; Visiting Assistant Professor Smith.

An education in philosophy conveys a sense of wonder about ourselves and our world. It achieves this partly through exploration of philosophical texts, which comprise some of the most stimulating creations of the human intellect, and partly through direct and personal engagement with philosophical issues. At the same time, an education in philosophy cultivates a critical stance to this elicited puzzlement, which would otherwise merely bewilder us.

The central topics of philosophy include the nature of reality (metaphysics); the ways we represent reality to ourselves and to others (philosophy of mind and philosophy of language); the nature and analysis of inference and reasoning (logic); knowledge and the ways we acquire it (epistemology and philosophy of science); and value and morality (aesthetics, ethics, and political philosophy). Students who major in philosophy at Amherst are encouraged to study broadly in all of these areas of philosophy.

Students new to philosophy should feel comfortable enrolling in any of the entry-level courses numbered 11 through 29. Thirty-level courses are somewhat more advanced, typically assuming a previous course in philosophy. Courses numbered 40 through 49 concentrate on philosophical movements or figures. Sixty-level courses are seminars and have restricted enrollments, a two-course prerequisite, and are more narrowly focused. No course may be used to satisfy more than one requirement.

*On leave 2004-05.

All students are welcome to participate in the activities of the Philosophy Club.

Major Program. To satisfy the comprehensive requirement for the major, students must pass **nine** courses, exclusive of Philosophy 77 and 78. Among these nine courses, majors are required to take:

- (1) three courses in the History of Philosophy: Philosophy 17 and 18, and a course on a Major Figure or Movement (i.e., a 40-level course);
- (2) one course in Logic (Philosophy 13, or Mathematics 34, or the equivalent);
- (3) one course in Moral Philosophy (Philosophy 34 or 38);
- (4) one course in Theoretical Philosophy (i.e., Philosophy 30, 32, 33, 35, 36, 37, or 50); and
- (5) one seminar (i.e., a 60-level course).

Departmental Honors Program. Candidates for Honors in Philosophy must complete the Major Program and the Senior Honors sequence, Philosophy 77 and 78. Admission to Philosophy 78 will be contingent on the ability to write an acceptable honors thesis as demonstrated, in part, by performances in Philosophy 77 and by a research paper on the thesis topic (due in mid-January). The due date for the thesis falls in the third week of April.

01. Doing the Right Thing. A primary objective of this course is to develop analytic tools for making thoughtful moral decisions in our own lives and for evaluating policies and decisions made by others. Equally, this course offers students the opportunity to become effective and eloquent writers. The particular moral puzzles that we will consider will depend in part on the interests of the members of the seminar but may include those that concern assisted suicide, abortion, animal rights, familial obligations, friendship, sex, freedom of speech, affirmative action, punishment, international justice, and the environment.

Open to first-year and sophomore students. Admission with consent of the instructor. Limited to 15 students. Second semester. Professor Gentzler.

11. Introduction to Philosophy. An examination of basic issues, problems, and arguments in philosophy, e.g., proofs for the existence of God, the nature of morality, free will and determinism, the relationship between the mind and the body, knowledge and the problem of skepticism. Discussions will take place in the context of readings from classical and contemporary philosophers.

Limited to 25 students. One section to be taught first semester. Professor Smith. Two sections to be taught second semester. Section 1: Professor Smith. Section 2: Professor Kearns.

13. Logic. "All philosophers are wise and Socrates is a philosopher; therefore, Socrates is wise." Our topic is this *therefore*. We shall expose the hidden structure of everyday statements on which the correctness of our reasoning turns. To aid us, we shall develop a logical language that makes this underlying structure more perspicuous. We shall also examine fundamental concepts of logic and use them to explore the logical properties of, and relations between, statements. This is a first course in formal logic, the study of correct reasoning; no previous philosophical, mathematical, or logical training is needed.

First semester. Professor George.

17. Ancient Philosophy. An examination of the origins of Western philosophical thought in Ancient Greece. We will consider the views of the Milesians, Heraclitus, Parmenides, Protagoras, Socrates, Plato and Aristotle. Particular attention will be paid to questions about the nature, sources, and limits of human knowledge; about the merits of relativism, subjectivism, and objectivism in science and ethics;

about the nature of, and relationship between, obligations to others and self-interest; and about the connection between the body and the mind.

Limited to 30 students. First semester. Professor Gentzler.

18. Early Modern Philosophy. A survey of European philosophy in the seventeenth and eighteenth centuries with emphasis on Descartes, Leibniz, Spinoza, Locke, Berkeley, Hume, and Kant. Reading and discussion of selected works of the period.

Limited to 50 students, preference to Amherst College students. Second semester. Professor Vogel.

20. Paradoxes. A paradox arises when unimpeachable reasoning leads from innocuous assumptions to an outrageous conclusion. A paradox brings us up short. Where did we go wrong? Were our assumptions less innocent than we supposed? Was our reasoning subtly fallacious after all? Must we alter our view of the world to make room for the formerly unacceptable conclusion? Or must we acknowledge an irresolvable conflict within reason itself? Paradoxes are not puzzles, but, at their best, goads to greater clarity and deeper thought. We shall explore a spree of philosophical topics (including time, motion, the past, the future, causation, infinity, truth, belief, the will, action, faith) via reflection on a range of paradoxes, ancient and modern, authentic and counterfeit.

Limited to 25 students. Preference will be given to those who have not already had a course in Philosophy. Second semester. Professor George.

21. Moral Problems. A philosophical examination of the moral dimension of everyday life. Topics will include guilt, shame, despair, dread, resentment, greed, pride, cowardice, sloth, lying, procrastinating, succumbing to temptation and failing oneself. Readings will be selections from the works of ethical theorists and moral psychologists in the Western philosophical tradition, from pre-Socratics to contemporary writers.

Limited to 30 students. Omitted 2004-05. Professor Smith.

23. Health Care Ethics. U.S. citizens are currently faced with many important decisions about health care policy. Who should have access to health care and to which services? Should physician-assisted suicide be legalized? Should AIDS be treated differently from other sorts of communicable diseases? Should we be allowed to clone ourselves, sell our organs, rent our wombs, or use genetic information to engineer the features of future generations? These issues, in turn, raise basic philosophical questions. What is the nature of rights? Do we, for example, have a basic right to health care, to genetically related children, to privacy, or to authority about the timing and manner of our deaths? These issues also raise questions about the relative weight and nature of various goods—e.g., life, pain relief, health, offspring, autonomy, privacy, and virtue. Finally, these issues raise questions about the nature of rationality. Is it possible to reach rational decisions about ethical matters, or is ethics merely subjective? What is the purpose of moral “theory”? Do different moral theories—e.g., utilitarian, Kantian, care-based—yield different results? If so, how can we decide between different moral theories?

Limited to 30 students. Omitted 2004-05. Professor Gentzler.

25. Political Philosophy. Analytic philosophers of the 20th century discovered powerful methods of illustrating the radically public nature of language, intentional action, and even thoughts and emotions. Drawing on Wittgenstein’s *Philosophical Investigations* and contemporary discussions of joint-intentional action, we

will take a new look at classic philosophical debates about coercion, justice, crime and punishment, leaders and followers, war, class, law, and the state.

Limited to 30 students. Omitted 2004-05. Professor Smith.

27. Issues in Aesthetics. A critical examination of selected theories of the nature of art, expression, creativity, artistic truth, aesthetic experience, interpretation and criticism. Special emphasis is placed on the thought of modern philosophers and critics.

Limited to 30 students. First semester. Professor Smith.

28. Choice, Chance and Conflict. Life is a risky and competitive business. As individuals, we constantly confront choices involving chancy and uncertain outcomes. And our institutional decisions (e.g., in government and business) are often complicated by the competing interests of the individuals involved. Are there any general, rational procedures for making individual and institutional choices that involve chance and conflict? Positive answers to this question have been proposed within decision theory, game theory, and social choice theory. This course will provide an introduction to these theories and their philosophical foundations. Topics may include the following: different conceptions of probability, utility, and rationality; weakness of the will; the problems of induction; the justification of proposed rules for rational decision making under uncertainty and risk; the justification of various voting procedures and other methods of determining group interests from the competing interests of individuals within the group.

Second semester. Professor Moore.

30. Freedom and Responsibility. Are we free? An absence of external constraint seems to be necessary for freedom, but is it enough? Can obsessions, addictions, or certain types of ignorance threaten our freedom? Some philosophers have argued that if our actions are causally determined, then freedom is impossible. Others have argued that freedom does not depend on the truth or falsity of causal determinism. Is freedom compatible with determinism? Must we act freely in order to be responsible for our actions? Is freedom of action sufficient for responsibility? Are the social institutions of reward and punishment dependent for their justification upon the existence of responsible, free agents? We will attempt to determine the nature of persons, action, freedom and responsibility in an effort to answer questions such as those posed above.

Requisite: One course in Philosophy or consent of the instructor. Omitted 2004-05. Professor Gentzler.

32. Metaphysics. Metaphysics concerns itself with basic and fundamental questions about the nature of reality. At its most general, metaphysics asks how we should distinguish appearance from reality, how we should understand existence, and what general features are had by reality and by the entities that exist as part of it. We will examine these questions, as well as other central issues in metaphysics. Additional topics may include: causation, change, identity, substances and properties, space and time, abstract objects like numbers and propositions, possibility and necessity, events, essences, and freedom of the will. Readings will be drawn primarily from contemporary sources.

Requisite: One course in Philosophy or consent of the instructor. Second semester. Professor Vogel.

33. Philosophy of Mind. An introduction to philosophical problems concerning the nature of the mind. Central to the course will be the mind-body problem. Here we will be concerned with the question of whether there is a mind (or

soul or self) that is distinct from the body, and the question of how thought, feelings, sensations, and so on, are related to states of the brain and body. In connection with this, we will consider, among other things, the nature of consciousness, mental representation, and persons.

Requisite: One course in Philosophy. Omitted 2004-05. Professor Moore.

34. Normative Ethics. We will be concerned to see whether there is anything to be said in a principled way about right and wrong. The core of the course will be an examination of three central traditions in ethical philosophy in the West, typified by Aristotle, Immanuel Kant, and John Stuart Mill. We will also look at contemporary discussions of the relation between the demands of morality and those personal obligations that spring from friendships, as well as recent views about the nature of personal welfare.

Requisite: One course in Philosophy or consent of the instructor. Limited to 25 students. First semester. Professor Harold of Mount Holyoke College.

35. Theory of Knowledge. A consideration of some basic questions about the nature and scope of our knowledge. What is knowledge? Does knowledge have a structure? What is perception? Can we really know anything at all about the world?

Requisite: One course in Philosophy or consent of the instructor. Omitted 2004-05. Professor Vogel.

36. Philosophy of Language. "Caesar was stabbed." With those words, I can make a claim about someone who lived in the distant past. How is that possible? How do our words succeed in picking out particular portions of reality, even ones with which we have had no contact? How does language enable us to convey thoughts about everything from Amherst College, to the hopes of a friend, to the stars beyond our galaxy? What *are* the thoughts, or the meanings, that our words carry? And whatever they turn out to be, how do they come to be associated with our words: through some mental activity on our part, or instead through our use of language? We will explore these and other philosophical questions about language through a reading of seminal works by 20th century thinkers.

Requisite: One course in Philosophy. Omitted 2004-05. Professor George.

37. Philosophy of Science. The practice of science and its fruits have dominated the lives of human beings for centuries. But what is science? How does it differ, if at all, from common sense, or religion, or philosophy? One hears that scientists follow the "scientific method," but what is that? It is said to be based on observation, but what is it to observe something? And how can our observations justify claims about what we do not, or even cannot, observe? The claims of science are often said to describe "laws of nature," but what are such laws? These claims are said to form "theories," but what is a theory? And if science issues in theories, what is their point, that is, what is the goal of science? To predict? To explain? What is it to explain something, anyway? And do all sciences explain in the same way; for instance, does physics explain in the way that psychology does? Science is often treated as the paragon of rationality and objectivity. But what is it to be rational or objective? To what degree does, or can, science really approach such ideals? Are there any values explicit or implicit in the practice of science? If so, do they threaten science's alleged objectivity, and do they conflict with other values one might hold?

Requisite: One course in Philosophy or consent of the instructor. First semester. Professor George.

38. What Is Morality About? When we assert that murder is wrong, what are we saying? Are we describing some aspect of a moral realm that exists independently of what humans think and do? If so, how do we gain access to this realm (do we have moral antennae or ethical telescopes?), and what is the relation between truths in this realm and those in the ordinary world of mental and physical entities? On the other hand, if we are not talking about independent moral facts when we call an action wrong, what are we doing? Are we saying anything meaningful at all, or are we merely expressing emotions?

Requisite: One course in Philosophy or consent of the instructor. Limited to 25 students. Omitted 2004-05. Professor Shah.

39. Philosophy of Law. A law student could memorize the legal rules announced in every case and statute on the books and still fail a bar exam. To learn the law is to acquire the knack of applying the rules to a wide variety of concrete situations, and even rudimentary exercises in real-world law application resist reduction to any formal-deductive model. In virtue of what, then, is the legal "insider" able to arrive at determinate outcomes by applying legal rules? To investigate this question, students will begin by acquiring mastery in a few selected areas of law application. (This part of the course will end with a law-school style exam.) The rest of the course will consist in a philosophical exploration of the process of law-application and legal reasoning. Authors will include Wittgenstein, Hume, Kant, Aquinas, Hart and Dworkin.

Requisite: One course in Philosophy or consent of the instructor. Limited to 30 students. Second semester. Professor Smith.

40. Plato. A close examination of some of the major dialogues of Plato. Primary emphasis will be on interpreting and assessing the philosophical positions that are articulated in these dialogues concerning the nature of the good life, knowledge, and reality.

Requisite: One course in Philosophy or consent of the instructor. Limited to 25 students. Omitted 2004-05. Professor Gentzler.

41. Nietzsche. A careful reading of *Beyond Good and Evil*, *The Gay Science*, *On The Genealogy of Morals*, *Ecce Homo*, selections from *The Will to Power*, and finally *Thus Spoke Zarathustra*.

Requisite: Philosophy 17 or 18. Not open to first-year students. Limited to 25 students. Omitted 2004-05. Professor Smith.

44. Kant. An examination of the central metaphysical and epistemological doctrines of the *Critique of Pure Reason*, including both the historical significance of Kant's work and its implications for contemporary philosophy.

Requisite: Philosophy 18 or consent of the instructor. Omitted 2004-05. Professor Vogel.

47. Reason and Being. Hegel wrote that "the real is the rational, and the rational is the real." Taken one way, this saying expresses the fundamental claim of rationalism, that reality is intelligible, and accessible to reason. Taken another way, Hegel's remark articulates a version of monism, that reason and reality are literally one and the same thing. This course explores the themes of rationalism and monism in modern Western philosophy. We will begin with Spinoza (1632-1677), perhaps the most powerful exponent of these positions. We then turn to related views of Hegel (1770-1831) and the sharp dissent from the rationalist tradition entered by Kierkegaard (1813-1855). Finally, we will take up some work of Heidegger (1889-1976), as heir and critic of his predecessors. We will discuss

topics such as the following: the nature of mind and reality and the relation between them, time, freedom, necessity, eternity, infinity, and God.

Requisite: One course in Philosophy or consent of the instructor. Limited to 25 students. First semester. Professor Vogel.

48. Quine, Wittgenstein and Philosophy's End. W. V. Quine (American, 1908-2000) and Ludwig Wittgenstein (Austrian, 1889-1951) changed the course of philosophy in the 20th century. Through their work on language, they offered novel and powerful reconceptions of philosophy, its methods, and its ends. In the process, they left many wondering whether much remained of philosophy as it had been traditionally pursued, whether it had in a sense come to an end. An intensive immersion in the writings of Quine, Wittgenstein, and some of those who inspired them.

Requisite: Two courses in Philosophy or consent of the instructor. Second semester. Professor George.

49. Aristotle. For hundreds of years, Aristotle was known simply as "The Philosopher." Indeed, in many ways Aristotle defined the scope and methods of Western Philosophy. We will consider Aristotle's reasons for fixing the boundaries of philosophy where he did. In addition, we will examine Aristotle's main doctrines concerning language and reality, scientific method and the structure of scientific knowledge, the nature of "things," the nature of life and living organisms, the relationship between soul and body, the nature of human action, the connection between human virtue and happiness, and the ways in which his views are based on, and challenge, our ordinary ways of regarding the world around us.

Requisite: One course in Philosophy or consent of the instructor. Second semester. Professor Gentzler.

50. Philosophy of Mathematics. Mathematics is often thought to be the paragon of clarity and certainty. However, vexing problems arise almost immediately upon asking such seemingly straightforward questions as: "What is the number 1?" "Why can proofs be trusted?" "What is infinity?" "What is mathematics about?" During the first decades of the twentieth century, philosophers and mathematicians mounted a sustained effort to clarify the nature of mathematics. The result was three original and finely articulated programs that seek to view mathematics in the proper light: logicism, intuitionism, and finitism. The mathematical and philosophical work in these areas complement one another and indeed are, to an important extent, intertwined. For this reason, our exploration of these philosophies of mathematics will examine both the philosophical vision that animated them and the mathematical work that gave them content. In discussing logicism, we will focus primarily on the writings of Gottlob Frege. Some indication of how the goal of logicism—the reduction of mathematics to logic—was imagined to be achievable will also be given: introduction to the concepts and axioms of set theory, the set-theoretic definition of "natural number," the Peano axioms and their derivation in set theory, reduction of the concepts of analysis to those in set theory, etc. Some of the set-theoretic paradoxes will be discussed as well as philosophical and mathematical responses to them. In the section on intuitionism, we will read papers by L.E.J. Brouwer and Michael Dummett, who argue that doing mathematics is more an act of creation than of discovery. This will proceed in tandem with an introduction to intuitionistic logic, which stands in contrast to the more commonly used classical logic. Finally, we will discuss finitism, as articulated in the writings of David Hilbert, who sought to reconcile logicism and intuitionism. Students will then

be taken carefully through Gödel's Incompleteness Theorems and their proofs. The course will conclude with an examination of the impact of Gödel's work on Hilbert's attempted reconciliation, as well as on more general philosophical questions about mathematics and mind.

Requisite: Philosophy 13 or Mathematics 34 or consent of the instructors. Omitted 2004-05. Professors George and Velleman.

60. Seminar: Topics in Contemporary Philosophy. The topics to be discussed will vary from year to year. We will examine and engage issues that are the focus of some of the most significant and probing recent work in philosophy. This seminar is not a survey, but will instead concentrate on two or three of the following: the nature of possibility and necessity and the status of "possible worlds," identity over time, causation and laws of nature, rules and rule-following, color, self-knowledge, concepts and conceptual knowledge, truth, and the relation between mind and world. Readings will be drawn from the work of figures such as Quine, Kripke, Lewis, Davidson, Stalnaker, Evans, McDowell, and Field.

Requisite: Two courses in philosophy or consent of the instructor. Some background in logic (Philosophy 13 or the equivalent) would be helpful. Limited to 15 students. Omitted 2004-05. Professor Vogel.

61. Seminar: Skepticism. The topics change from year to year. Some of the most interesting and most characteristic work in recent philosophy has been concerned with the problem of skepticism about the external world, i.e., roughly, the problem of how you know that your whole life isn't merely a dream. We will critically examine various responses to this problem and, possibly, consider some related issues such as relativism and moral skepticism. There will be readings from authors such as Wittgenstein, Moore, and Austin, and philosophers working today such as Dretske and Putnam.

Requisite: Two courses in Philosophy or consent of the instructor. Limited to 15 students. First semester. Professor Vogel.

64. Seminar: Ethics and Metaphysics of Belief. How can mental states represent, or be "about," things and states of affairs outside the mind? And more generally, how can one part of the world—a mind, an utterance, an inscription, or even a fuel gauge—represent or carry information about the way things are in another part of the world? This question has, in one form or another, worried and exercised many great philosophers.

Much contemporary research, including that of the seminar instructors, has focused on the nature of belief, which is thought to be central to our mental functioning. Some of the most interesting and pressing questions about the nature of belief push up simultaneously against both its metaphysical and its normative or broadly ethical features. In this seminar we will explore this ethical-metaphysical mix by investigating questions such as those that follow. (1) Naturalism: Can representational capacities of belief be reduced to, or explained entirely in terms of, "naturalistically acceptable" relations like causation and biological purpose? Or will any workable account appeal, at some point, to conditions that are ideal, optimal or in some way normative? (2) Externalism: In what ways, if any, are a subject's particular beliefs determined by the natural environment or the socio-linguistic community, of which she is a part? (3) Holism: To what degree do our beliefs depend upon one another for their existence and individuation? Would such dependence be problematic? (4) Pragmatism: Should our beliefs be guided entirely by evidence, or (as William James once argued) should our passions also play a role? And is this dispute itself to be resolved on

moral, prudential, epistemic, or some other grounds? (5) **Voluntarism:** Does it even make sense to talk about how we ought to regulate our beliefs, given that it seems that we cannot place our beliefs under the direct control of our wills?

Requisite: Two courses in Philosophy or consent of the instructors. Limited to 15 students. Omitted 2004-05. Professors Moore and Shah.

65. Seminar: Consciousness. Many philosophers regard the mind as entirely physical: according to "materialism," mental states and events are nothing more than complex arrangements of the natural properties and processes we find in inanimate portions of reality. The most trenchant problem for such philosophers has been to provide a materialistically adequate explanation or understanding of human consciousness. How, asks the non-materialist, can the "raw feel" of an intense toothache, the taste of a good Merlot, the "rich" experiential quality of a violin, or the inner life of a bat be fully understood as nothing more than a complex arrangement of physical particles? Isn't there some aspect of consciousness that will elude any materialist analysis? This seminar will focus on recent materialist attempts to meet consciousness-based objections of this type. In examining the contemporary debate, we will discuss the following questions: What is the relation between consciousness and self-consciousness (i.e., the capacity of the mind to reflect upon itself)? Are there connections between language and consciousness, and between consciousness and moral considerability? Can functionalist versions of materialism accommodate the possibility of "color-spectrum inversion"? Is the special introspective access we have to our own mental states infallible or self-intimating? Is introspection a perceptual faculty like vision?

Requisite: Two courses in Philosophy or consent of the instructor. Limited to 15 students. Second semester. Professor Moore.

66. Seminar: Threats to Morality. Unlike other types of anxiety that philosophers try to induce (e.g., How can I know that my hand exists? Do numbers really exist?), the status of morality is something that almost everyone seems to worry about. Moral relativism is not merely a position taken up by some fictional philosophical character but is widely advocated throughout the humanities. In this seminar we will see if there is anything to be said on behalf of moral relativism. We will discuss questions such as: Is moral relativism a coherent position? Is there a cogent argument that takes us from the widely recognized fact of cultural diversity to the conclusion that there are no universal moral truths? Does a scientific view of the universe make room for moral facts?

Requisite: Two courses in Philosophy or consent of the instructor. Limited to 15 students. Omitted 2004-05. Professor Shah.

67. Seminar: Ethics of Belief. W.K. Clifford claims, "It is wrong always, everywhere, and for anyone, to believe anything upon insufficient evidence." William James, on the other hand, claims that under certain circumstances the determination of belief ought to be guided by our passions, not evidence. What is at issue between James and Clifford? How are we to go about rationally adjudicating this dispute? Is it to be resolved on moral, prudential, epistemic, or some other grounds? Is this a genuine factual dispute, or are our opinions about this matter an expression of our own normative attitudes? Does it even make sense to talk about how we ought to regulate our beliefs, given that it seems that we cannot place our beliefs under the direct control of our wills? In examining these questions, we will seek illumination by looking at parallels between theoretical and practical reason. Familiarity with any of the following would be helpful: metaethics, philosophy of action, philosophy of mind, and epistemology.

Requisite: Two courses in Philosophy or consent of the instructor. Limited to 15 students. Omitted 2004-05. Professor Shah.

69. Seminar: Well-Being. Moral philosophers, economists, political scientists, and psychologists all make use of the closely related concepts of well-being, welfare, utility, prudential value, and quality of life. Indeed, we all want what is good for us. But what does it mean to say that something is good for us? That we like it? That we want it? That it develops our essential capacities as human beings? What? Can we measure and compare different levels of well-being? What role should the concept of well-being play in moral and political philosophy?

Requisite: Two courses in Philosophy. Limited to 15 students. First semester. Professor Gentzler.

77. Senior Departmental Honors. Required of candidates for Honors in Philosophy. Directed research culminating in a substantial essay on a topic chosen by the student and approved by the Department.

Open to seniors with consent of the Department. First semester. The Department.

78. Departmental Honors Course. Required of candidates for Honors in Philosophy. The continuation of Philosophy 77. In special cases, subject to approval of the Department, a double course.

Open to seniors with consent of the Department. Second semester. The Department.

97, 98. Special Topics. Independent Reading Course. Reading in an area selected by the student and approved in advance by a member of the Department.

Admission with consent of the instructor. First and second semesters.

PHYSICAL EDUCATION

Professors Gooding (Chair), Morgan, and Thurstont; Coaches Arena, Bagwell, Everden, Faulstick, Hixon, McBride, Mills, Nedeau, Nichols, Paradis, Plumer, Robson, and Schur.

†On leave first semester 2004-05.

The courses in Physical Education are available to all Amherst College students and members of the College community. All courses are elective, and although there is no academic credit offered, transcript notation is given for successful completion of all courses.

Courses are offered on a quarter basis, two units per semester, and one unit during the January interterm. Classes are offered on the same time schedule as all academic courses. Students are encouraged to enroll in courses that interest them and may obtain more information about the Physical Education Program from the Department of Physical Education and Athletics.

In an attempt to meet the needs and interests of the individual student, the Department offers the following:

1. **Physical Education Courses.** In these courses, the basic skills, rules and strategy of the activity are taught and practiced. This program emphasizes individual activities which have value as lifelong recreational pursuits.
2. **Recreational Program.**
 - (a) **Organized Recreational Classes**, in which team sports are organized, played, and supervised by Physical Education Department personnel, and
 - (b) **Free Recreational Scheduling**, where the Department schedules, maintains and supervises facilities and activities for members of the College community, i.e., recreational golf, skating, squash, swimming and tennis.

A detailed brochure concerning all programs is available upon request from the Department of Physical Education. Details concerning the College's physical education and athletic programs also appear in the *Student Handbook*.

PHYSICS

Professors Hilborn, Hunter (Chair, first semester)†, Jagannathan, and Zajonc*; Assistant Professors Friedman*, Hall, and Loinaz; Visiting Assistant Professor Normandeau.

Physics is the study of the natural world emphasizing an understanding of phenomena in terms of fundamental interactions and basic laws. As such, physics underlies all of the natural sciences and pervades contemporary approaches to the study of the universe (astronomy and astrophysics), living systems (biophysics and neuroscience), chemistry (chemical physics), and earth systems (geophysics and environmental science). In addition, the relationship of physics to mathematics is deep, complex and rich. To reflect the broad range of activities pursued by people with training in physics, the department has developed a curriculum that provides a solid background in the fundamentals of physics while allowing some flexibility, particularly at the upper level, for students' interests in astronomy, biology, chemistry, computer science, geology, mathematics and neuroscience. The core physics program provides a course of study for those who are interested in physics as a liberal arts major, with career plans in diverse fields such as law, medicine, business and education. The department also provides a number of upper-level electives to deepen the background of those students intending to pursue careers in physics and closely related technical fields.

The sequence Physics 16, 17 may be taken by students who require two semesters of physics with laboratory. Mathematics 11 is a requisite for Physics 16. There is no additional mathematics requirement for Physics 17.

*On leave 2004-05.

†On leave second semester 2004-05.

Students interested in majoring in physics should take Physics 23 and 24 early in their college career. Those who have taken Physics 16 and 17 are also able to join the majors' stream, but they should discuss the transition with a faculty member as early as they can. The general content of the two sequences is similar, but the mathematical levels are different. Mathematics 12 is a requisite for Physics 24, but not for Physics 17. Hence, in particular, students who wish to major after completing Physics 17 should complete Mathematics 12.

Major Program. Students who wish to major in physics are required to take Mathematics 11 and 12, and Physics 23, 24 (or Physics 16, 17, but see above), 25, 26, 27, 30 (or Chemistry 43), 43, 47 and 48. Students may petition the Department to substitute an upper-level course in a related discipline for a required upper-level departmental course. Students planning a career in physics should seriously consider taking one or more electives in physics and mathematics. Physics 52 is an advanced course in electromagnetic theory and will follow the required intermediate course on the subject, Physics 47; similarly, Physics 53, an advanced course in quantum mechanics, will follow Physics 48. Physics 70 offers the opportunity for advanced laboratory experience, and Physics 60 is a course on General Relativity. Not all these electives may be offered every year, and from time to time, the department may offer other upper-level electives.

All Physics majors must take a written comprehensive examination in the second semester of their senior year, which they must pass as a requirement for graduation as a major.

General Education Physics Courses. The Physics Department offers a variety of courses for students not majoring in the sciences. Typically these courses do not assume any background beyond high-school mathematics. Physics 10 is on Electronics; Physics 12 is a course on Light, Color and Vision; Physics 13 presents an understanding of modern technological devices based on a few simple principles of physics; and Physics 22 is a course on the Physics of Sound and Music. In most years, the department teaches some of these courses. In 2005, to mark the centenary of Einstein's famous papers of 1905, Physics 18, a course titled "Einstein," will be offered in the second semester.

Departmental Honors Program. Students who wish to receive departmental Honors should enroll in Physics 77 and 78D in addition to completing the other requirements for the major. At the end of the first semester of the senior year the student's progress on the Honors problem will determine the advisability of continuation in the Honors program.

The aim of Departmental Honors work in Physics is to provide the student an opportunity to pursue, under faculty direction, in-depth research into a project in experimental and/or theoretical physics. Current experimental areas of research in the department include atomic and molecular physics, precision measurements and fundamental symmetries, Bose-Einstein condensation, ultra cold collisions, the quantum-classical frontier, non-linear dynamics, and phase transitions. Theoretical work is primarily in the area of High Energy and Elementary Particle physics, but faculty members pursue studies in quantum computers, foundations of quantum mechanics, and classical gravitation theory. In addition to apparatus for projects closely related to the continuing experimental research activity of faculty members, facilities are available for experimental projects in many other areas. Subject to availability of equipment and faculty interest, Honors projects arising out of students' particular interests are encouraged. Students must submit a written thesis on the Honors work a few weeks before the end of their final semester (in late April for spring graduation). Students

give a preliminary presentation of their work during the first semester, and a final presentation at the end of the second semester. In addition, they take oral examinations devoted primarily to the thesis work.

The departmental recommendation for the various levels of Honors will be based on the student's record, Departmental Honors work, Comprehensive Examination and oral examination on the thesis.

11. Light, Color and Vision. We will examine the phenomena of light, color, and vision from the points of view of physics, physiology and neuroscience. We will also see how these phenomena affect visual perception and are manipulated by artists including painters and theater designers. The course will treat the reflection, refraction, diffraction and interference of light along with optical instruments, modern quantum theories of light, and lasers. We will also discuss optical illusions and natural light phenomena such as rainbows and glories. Although there are no formal prerequisites, some familiarity with high school physics will be useful.

First semester. Professor Hilborn.

13. Demystifying Technology. As technology advances, the ever-increasing complexity of our environment can easily lead to the sense that the world around us is beyond our ability to comprehend in a rational manner. In this course we will attempt to demystify the workings of many common devices ranging from lights to lasers, bicycles to rockets, radios to CDs, and solar panels to nuclear power plants. Hands-on experiences will be encouraged wherever possible. We will discover that much of the technological world around us can be understood in terms of a few underlying physical principles.

No mathematics beyond high-school algebra and trigonometry will be assumed. Limited to 24 students. Students who have completed or who intend to complete Physics 17 or the equivalent are discouraged from enrolling in this course. Omitted 2004-05.

16. Introductory Physics I: Mechanics and Wave Motion. The course will begin with a description of the motion of particles and introduce Newton's dynamical laws and a number of important force laws. We will apply these laws to a wide range of problems to gain a better understanding of them and to demonstrate the generality of the framework. The important concepts of work, mechanical energy, and linear and angular momentum will be introduced. The unifying idea of conservation laws will be discussed. The study of mechanical waves permits a natural transition from the dynamics of particles to the dynamics of waves, including the interference of waves. Additional topics may include fluid mechanics and rotational dynamics. Three hours of lecture and discussion and one three-hour laboratory per week.

Requisite: Mathematics 11. First semester: Professors Hilborn and Norman-deau. Second semester: Professor Loinaz.

17. Introductory Physics II: Electromagnetism and Optics. Most of the physical phenomena we encounter in everyday life are due to the electromagnetic force. This course will begin with Coulomb's law for the force between two charges at rest and introduce the electric field in this context. We will then discuss moving charges and the magnetic interaction between electric currents. The mathematical formulation of the basic laws in terms of the electric and magnetic fields will allow us to work towards the unified formulation originally given by Maxwell. His achievement has, as a gratifying outcome, the description of light as an electromagnetic wave. The course will consider both ray-optics and wave-optics descriptions of light. Laboratory exercises will emphasize electrical circuits,

electronic measuring instruments, optics and optical experiments. Three hours of lecture and discussion and one three-hour laboratory per week.

Requisite: Physics 16 or 23. First semester: Professor Hall. Second semester: Professor Normandeau.

18. Einstein. Marking the centennial of Einstein's *annus mirabilis* in 2005, this course will work backward and forward in time to study the context and consequences of three of his papers of 1905: his paper on the light quantum, his (first) paper on the evidence for atoms and the determination of their size, and his (first) paper on relativity. Einstein's "fifty years of conscious brooding" on the nature of light will reach back to Newton, and thence to the nineteenth-century developments on the wave theory and the electromagnetic theory of light. The twentieth-century developments set off by Einstein's light quantum paper will be intertwined with the study of the structure and dynamics of atoms—the quantum theory. Starting from his 1905 paper on the determination of atomic size, the course will trace his seminal contributions to the quantum theory over the next two decades. Einstein's subsequent dissent from the dominant interpretation of quantum mechanics will also be addressed. In the discussion of the quantum theory, the exploration of the strangeness of the world it describes will be balanced against the extraordinary success and precision with which the theory confronts phenomena. The study of the principle of relativity will include Galileo's and Newton's contributions to that subject in the seventeenth century, but will concentrate on Einstein's Special Theory. The topic will conclude with a simplified discussion of the General Theory and some of the contemporary ideas about spacetime on the largest and smallest scales. Some attention will be paid to what, if any, general lessons may be drawn about the nature of scientific inquiry from the episodes in physics that will be the main subjects of this course. While no college-level mathematics or physics will be required, liberal use will be made of high school mathematics, and occasionally more sophisticated mathematics will be developed and applied. Three class meetings per week.

Second semester. Professor Jagannathan.

20. Quantum Challenges. The puzzles of quantum mechanics have challenged physicists and philosophers alike. Working from the original writings of the founders of quantum mechanics such as Planck, Bohr, Einstein, Heisenberg, and Schrödinger, as well as from the work of more recent authors, we will explore the revolutionary ideas of quantum mechanics and their philosophical implications. We will also discuss experimental confirmation of the extraordinary predictions of quantum mechanics and the current and future application of quantum effects. In particular we will treat wave-particle duality, the uncertainty principle, the concept of the photon, particle identity, quantum entanglement, the Einstein-Podolsky-Rosen effect, macroscopic quantum effects and the measurement problem. While there are no prerequisites, the course will make use of high school mathematics and physics.

Omitted 2004-05.

22. Physics of Sound and Music. This course will provide an introduction to the physics of sound and music. The production of sound with musical instruments such as strings, brass and woodwinds and with the human voice will be demonstrated and described. Physical principles underlying the phenomena of waves, vibrations and sound wave propagation will be discussed. We will also consider issues relating to the detection of sound by the human ear, pitch perception, musical scales, harmony and room acoustics. Electronic amplification and reproduction of sound and Fourier analysis of sound will be demonstrated.

The course is intended for a general audience. A working knowledge of basic algebra will be necessary. Two class meetings per week, some of which may be used as laboratory sessions.

Omitted 2004-05.

23. The Newtonian Synthesis: Dynamics of Particles and Systems, Waves. The idea that the same simple physical laws apply equally well in the terrestrial and celestial realms, called the Newtonian Synthesis, is a major intellectual development of the seventeenth century. It continues to be of vital importance in contemporary physics. In this course, we will explore the implications of this synthesis by combining Newton's dynamical laws with his Law of Universal Gravitation. We will solve a wide range of problems of motion by introducing a small number of additional forces. The concepts of work, kinetic energy, and potential energy will then be introduced. Conservation laws of momentum, energy, and angular momentum will be discussed, both as results following from the dynamical laws under restricted conditions and as general principles that go well beyond the original context of their deduction. Newton's laws will be applied to a simple continuous medium to obtain a wave equation as an approximation. Properties of mechanical waves will be discussed. Four hours of lecture and discussion and one three-hour laboratory per week.

Requisite: Mathematics 11. First semester. Professor Hunter.

24. The Maxwellian Synthesis: Dynamics of Charges and Fields, Optics. In the mid-nineteenth century, completing nearly a century of work by others, Maxwell developed an elegant set of equations describing the dynamical behavior of electromagnetic fields. A remarkable consequence of Maxwell's equations is that the wave theory of light is subsumed under electrodynamics. Moreover, we know from subsequent developments that the electromagnetic interaction largely determines the structure and properties of ordinary matter. The course will begin with Coulomb's Law but will quickly introduce the concept of the electric field. Moving charges and their connection with the magnetic field will be explored. Currents and electrical circuits will be studied. Faraday's introduction of the dynamics of the magnetic field and Maxwell's generalization of it will be discussed. Laboratory exercises will concentrate on circuits, electronic measuring instruments, and optics. Four hours of lecture and discussion and one three-hour laboratory per week.

Requisite: Mathematics 12 and Physics 16 or 23. Second semester. Professors Hall and Jagannathan.

25. Modern Physics. The theories of relativity (special and general) and the quantum theory constituted the revolutionary transformation of physics in the early twentieth century. Certain crucial experiments precipitated crises in our classical understanding to which these theories offered responses; in other instances, the theories implied strange and/or counterintuitive phenomena that were then investigated by crucial experiments. After an examination of the basics of Special Relativity, the quantum theory, and the important early experiments, we will consider their implications for model systems such as a particle in a box, the harmonic oscillator, and a simple version of the hydrogen atom. We will also explore the properties of nuclei and elementary particles, study lasers and photonics, and discuss some very recent experiments of interest in contemporary physics. Three class hours per week.

Requisite: Mathematics 12 and Physics 17 or 24. First semester. Professor Normandeau.

26. Intermediate Laboratory. A variety of classic and topical experiments will be performed. In the area of fundamental constants, we will undertake a measurement

of the speed of light, a determination of the ratio of Planck's constant to the charge of the electron through the study of the photoelectric effect, and an experiment to obtain the charge-to-mass ratio of the electron. We will study the wave nature of the electron through a diffraction experiment. An experiment to measure optical spectra and another on gamma ray spectra will reveal the power of spectroscopy for exploring the structure of matter. Other experiments such as nuclear magnetic resonance, quantized conductance in nanocontacts, and properties of superconductors will give students an opportunity to experience laboratory practice in its contemporary form. Emphasis will be placed on careful experimental work and data-analysis techniques. One meeting a week of discussion plus additional, weekly self-scheduled laboratory work.

Requisite: Physics 25 or consent of the instructor. Second semester. Professor Hilborn.

27. Methods of Theoretical Physics. The course will present the mathematical methods frequently used in theoretical physics. The physical context and interpretation will be emphasized. Topics covered will include vector calculus, complex numbers, ordinary differential equations (including series solutions), partial differential equations, functions of a complex variable, and linear algebra. Four class hours per week.

Requisite: Mathematics 12 or consent of the instructor. First semester. Professor Jagannathan.

30. Statistical Mechanics and Thermodynamics. The basic laws of physics governing the behavior of microscopic particles are in certain respects simple. They give rise both to complex behavior of macroscopic aggregates of these particles, and more remarkably, to a new kind of simplicity. Thermodynamics focuses on the simplicity at the macroscopic level directly, and formulates its laws in terms of a few observable parameters like temperature and pressure. Statistical Mechanics, on the other hand, seeks to build a bridge between mechanics and thermodynamics, providing in the process, a basis for the latter, and pointing out the limits to its range of applicability. Statistical Mechanics also allows one to investigate, in principle, physical systems outside the range of validity of Thermodynamics. After an introduction to thermodynamic laws, we will consider a microscopic view of entropy, formulate the kinetic theory, and study several pertinent probability distributions including the classical Boltzmann distribution. Relying on a quantum picture of microscopic laws, we will study photon and phonon gases, chemical potential, classical and degenerate quantum ideal gases, and chemical and phase equilibria. Three class hours per week.

Requisite: Physics 25 or consent of the instructor. Second semester. Professor Hall.

43. Dynamics. This course begins with the foundation of classical mechanics as formulated in Newton's Laws of Motion. We then use Hamilton's Principle of Least Action to arrive at an alternative formulation of mechanics in which the equations of motion are derived from energies rather than forces. This Lagrangian formulation has many virtues, among them a deeper insight into the connection between symmetries and conservation laws. From the Lagrangian formulation we will move to the Hamiltonian formulation and the discussion of dynamics in phase space, exploring various avenues for the transition from the classical to the quantum theory. We will study motion in a central force field, the derivation of Kepler's laws of planetary motion from Newton's law of gravity, two-body collisions, and physics in non-inertial reference frames. Other topics may include the dynamics of driven, damped oscillators, and non-linear dynamics of chaotic systems. Three class hours per week.

Requisite: Physics 27 or consent of the instructor. First semester. Professor Loinaz.

47. Electromagnetic Theory I. A development of Maxwell's electromagnetic field equations and some of their consequences using vector calculus. Topics covered include: electrostatics, steady currents and static magnetic fields, time-dependent electric and magnetic fields, and the complete Maxwell theory, energy in the electromagnetic field, Poynting's theorem, electromagnetic waves, and radiation from time-dependent charge and current distributions. Three class hours per week.

Requisite: Physics 17 or 24 and Physics 27 or consent of the instructor. First semester. Professor Jagannathan.

48. Quantum Mechanics I. Wave-particle duality and the Heisenberg uncertainty principle. Basic postulates of Quantum Mechanics, wave functions, solutions of the Schroedinger equation for one-dimensional systems and for the hydrogen atom. Four class hours per week and occasional laboratories. Three class hours per week.

Requisite: Physics 25 and Physics 43 or consent of the instructor. Second semester. Professor Hilborn.

52. Electromagnetic Theory II. This course is a continuation of Physics 47. We will focus on applications of Maxwell's equations to radiation and waves. We will consider radiation in free space, in bounded media, and in atomic systems. Three hours per week.

Omitted 2004-05.

53. Quantum Mechanics II. This course is a continuation of Physics 48. We will study variational methods, semiclassical approximations, time-dependent perturbation theory, non-relativistic scattering theory, and the quantization of the radiation field. Three class hours per week.

First semester. Professor Loinaz.

60. General Relativity. The course is an elementary introduction to Einstein's theory of gravity. After a brief review of the special theory of relativity, we will investigate vector and tensor fields in terms of their properties under changes of coordinates. Geometric ideas such as geodesics, parallel transport, and covariant differentiation will be studied. The Principle of Equivalence will be presented as the central physical principle behind Einstein's theory of gravity. After an introduction to the stress tensor, the field equations will be stated and the simplest solutions to them obtained. Physical implications of the theory for the motion of planets and light in the vicinity of massive stars will be derived. Classical cosmology and gravitational radiation will round out a traditional presentation of the subject. Three class hours per week.

Requisite: Physics 35 or Mathematics 23 or consent of the instructor. Omitted 2004-05.

70. Advanced Laboratory. In this, a research-style laboratory, students will choose from a variety of advanced topics, develop a plan of experimental research, implement the experiments, rigorously analyze the data and present their results to their peers. The course will include a detailed discussion of error analysis and will introduce modern experimental devices such as lock-in amplifiers, diffraction spectrometers and SQUIDS. Two lecture hours and four laboratory hours per week.

Requisite: Physics 26. Co-requisite: Physics 48. Omitted 2004-05.

76. Quantum Information, Quantum Measurement and Quantum Computing. Quantum mechanics is well known for its counterintuitive and seemingly paradoxical predictions. Despite its failure to give us a clear, intuitive picture of the world, the theory is remarkably successful at predicting the outcomes of experiments, although those predictions are probabilistic rather than deterministic. Because of its unparalleled success, the thorny issues about the theory's foundations were often ignored during its first 50 years. Recent advances in both theory and experiment have again brought these issues to the fore. This course will review some of the most interesting and intriguing facets of quantum mechanics, as well as the theory's potential applications to information science and computing. Topics to be covered will include the Schrödinger cat paradox and the quantum measurement problem; Bell's inequalities, entanglement and related phenomena that establish the "weirdness" of quantum mechanics; secure communication using quantum cryptography; and how quantum computers (if built) can solve certain problems much more efficiently than classical ones. We will also explore recent experiments in which quantum phenomena appear on the macroscopic scale and some of the philosophical conundrums raised by those results.

Requisite: Physics 25 or 35 or consent of the instructor. Omitted 2004-05.

77. Senior Departmental Honors. Individual, independent work on some problem, usually in experimental physics. Reading, consultation and seminars, and laboratory work.

Designed for Honors candidates, but open to other advanced students with the consent of the Department. First semester. The Department.

78, 78D. Senior Departmental Honors. Same description as Physics 77. A single or double course.

Requisite: Physics 77. Second semester. The Department.

97, 97H, 98, 98H. Special Topics. Independent Reading Course. Full or half course. First and second semesters.

PICK COLLOQUIUM

The Pick Colloquium is part of the Pick Readership established in 1999 by Thomas and Sue Pick to include courses in environmental studies in the curriculum. Under the Readership, a faculty member is appointed to be the Pick Reader for three years, during which time he or she coordinates lectures and panel discussions on environmental themes and organizes one or two interdisciplinary colloquia on the environment each year. The Pick Reader also advises students interested in preparing themselves for careers in environmental studies and related fields.

05. Fisheries. The topic for fall 2003 was fisheries. The dependency of many countries on marine organisms for food has resulted in severe population declines in cod, bluefin tuna, swordfish, and abalone, as well as numerous other marine organisms. In this seminar we will examine the biological, sociological, political, and economic impacts of global depletion of fisheries. Questions addressed are: What is the scope of extinctions or potential extinctions due to over-harvesting of marine organisms? How are fisheries managed, and are some approaches to harvesting better than others? How do fisheries extinctions affect the society and economy of various countries, and ecosystem stability? How do the cultural traditions of fishermen influence attempts to manage

fisheries? Does aquaculture offer a sustainable alternative to overfishing the seas, and what are aquaculture's impacts on ecosystem stability? Three class hours per week.

Not open to first-year students. Limited to 15 students. Omitted 2004-05. Professor Temeles.

06. Habitat Fragmentation, Biological Reserves and Restoration.

Omitted 2004-05.

07. Sustainable Agriculture and Human Populations. The current world human population numbers 6.4 billion people, and the United Nations estimates that 8.9 billion people will live on Earth in the year 2050. Will there be enough food for this many people, and can we sustain our current lifestyle and agricultural practices in the future? These are among the questions asked in this course, which will address the biological, social, economic, and political aspects of agriculture and human population growth. Other questions to be addressed are: How have humans managed to sustain their current rate of population growth? What is the Green revolution? What are the environmental impacts of current agricultural practices? Can we feed the growing world population without destroying our environment and, if so, how? Is genetic engineering of crops a solution to world hunger? Three hours per week.

Not open to first-year students. Limited to 14 students. First semester. Professor Temeles.

08. Invasive Species. Invasive species are the leading cause of extinction, accounting for 39% of known species extinctions on Earth. A recent report noted that invasive species in the United States cause major environmental damages and losses adding up to more than \$138 billion per year. There are approximately 50,000 non-native species in the U.S.A. and the number is increasing. But what, exactly, are invasive species, and why do they pose such tremendous problems for the conservation of biodiversity and nations' economies? In this course we will explore the biological, economic, political, and social impacts of invasive species. We will start by examining the life history characteristics of invasive species, which make them likely to become pests, and the features of habitats, which make them most susceptible to invasion. We will then consider the consequences of invasive species for loss of native biodiversity and the disruption of ecosystem processes, as well as their global environmental and political impacts. Lastly, we will address the tougher issues of what can be done to halt or eradicate invasive species once they have become established, and how to identify and prevent the introduction of potential pest species. Three hours per week.

Not open to first-year students. Limited to 14 students. Second semester. Professors Temeles, Clotfelter, and Miller.

POLITICAL SCIENCE

Professors Arkes, Basu, Bumiller, Dumm, Machala‡, Marx, Mehta (Chair), Sarat, W. Taubman, and Tiersky; Associate Professor Corrales‡; Visiting Assistant Professor Rudy; Five College Professor Newbury; Mellon Visiting Professor Foster; Loewenstein Fellows Mannin and Rush.

‡On leave second semester 2004-05.

Major Program. Majors in Political Science must complete one course numbered 03 to 10. Students may count only one of these courses toward the major. Because they are designed to introduce students to the study of politics, the department recommends that they be taken in the first or second year.

Offerings in the Department include courses in American government, politics, law and public policy, comparative government and politics, international relations, and political theory. While majors are not required to take courses in each of these areas, the Department encourages students to do so.

Rite majors are required to take at least nine courses. Honors candidates, however, take at least 11 courses of which three, Political Science 77D-78, are senior courses devoted to researching and writing the honors thesis. All students, both honors and *rite*, must also take at least one advanced seminar from a group of seminars to be designated in the list of course offerings.

Departmental Honors Program. Students who wish to be considered for graduation with Departmental Honors in Political Science must take part in the Honors program. The Honors program provides qualified students with a culminating opportunity for independent undergraduate research and writing. Candidates for Honors in Political Science will normally take Political Science 77D and 78. The double course in the first semester provides time for students to complete a first draft of a thesis, which must be submitted by the middle of January. At that time, the candidate's advisor, in consultation with a second reader, will evaluate the draft of the thesis and determine whether it merits the candidate's continuing in the Honors program during the second semester. Students who have completed Political Science 77D but who either are not permitted or choose not to enroll in Political Science 78 will be assigned a grade for work completed in Political Science 77D. Students continuing in the Honors program will receive a single grade for the sequence of three courses upon completion of Political Science 78.

A cumulative average of B is required for admission to the Honors program. Students are admitted upon application in the first week of the fall semester senior year. The application consists of a brief description of their thesis topic—what it is, why it is important, and how it is to be illuminated. Prospective applicants should consult with members of the Department during the junior year to define a suitable Honors project, and to determine whether a member of the Department competent to act as advisor will be available to do so. Permission to pursue projects for which suitable advisors are not available may be denied by the Department.

02. Terror. Attacks in Oklahoma City, at the World Trade Towers, at American embassies in Africa, in many other places throughout the world, constitute basic popular images of terrorist acts. Because these images generally invoke a sense of fanaticism, the hate of modernity or an apocalyptic vision rooted in religious radicalism, there is a tendency to automatically demonize those who resort to terrorist violence. But what constitutes terrorist violence? Is it the intentional killing of civilians? What about the deaths of civilian population caused by stray bombs? Can terrorism ever be explained by conditions of utmost hopelessness or extreme social injustice? Can we ever justify terrorism? The purpose of this course will be to situate terrorist acts within the global context, historically, politically and morally. We will discuss not only terrorist actions committed by oppressed groups, separatist movements and radicals seeking political changes, but also by totalitarian and liberal states. The theoretical readings will include Aristotle, Hegel, Sorel, Arendt, Koestler, Fanon and Walzer.

Limited enrollment. Omitted 2004-05. Professor Machala.

03. Secrets and Lies. Politics seems almost unimaginable without secrecy and lying. From the noble lie of Plato's *Republic* to Oliver North's claim that he lied to Congress in the name of a higher good, from the need to preserve secrets in the name of national security to the endless spinning of political campaigns, from President Kennedy's behavior during the Cuban missile crisis to current controversies concerning lies by the tobacco industry, from Freud's efforts to decode the secrets beneath civilized life to contemporary exposés of the private lives of politicians, politics and deception seem to go hand-in-hand. This course investigates how the practices of politics are informed by the keeping and telling of secrets, and the telling and exposing of lies. We will address such questions as: When, if ever, is it right to lie or to breach confidences? When is it right to expose secrets and lies? Is it necessary to be prepared to lie in order to advance the cause of justice? Or, must we do justice justly? When is secrecy really necessary and when is it merely a pretext for Machiavellian manipulation? Are secrecy and deceit more prevalent in some kinds of regimes than in others? As we explore those questions we will discuss the place of candor and civility in politics; the relationship between the claims of privacy (e.g., the closeting of sexual desire) and secrecy and deception in public arenas; conspiracy theories as they are applied to politics; and the importance of secrecy in resistance and revolutionary movements. We will examine the treatment of secrecy and lying in political theory as well as their appearance in literature and popular culture, for example, *King Lear*, *Wag the Dog*, *Mr. Smith Goes to Washington*, *The Year of Living Dangerously*, and *Quiz Show*.

Limited enrollment. First semester. Professor Dumm.

04. The State. Most humans live in territories that are controlled by a state. Why do most nations have states? Why do different nations have different types of states? Why are some states more repressive than others, more war-prone than others, better promoters of development than others, more inclusive than others? How can we make sense of the varied reactions to state domination, ranging from active support to negotiated limits to apathy to vigorous contestation? Does globalization make states more or less democratic, more or less efficient, more or less able to promote development? How do states interact with each other in the international arena? Is the rise in the power of states (e.g., China) an inevitable source of conflict in international relations? How do states deal with non-traditional forms of trans-national threats (e.g., international terrorism)?

This course goes to the heart of current debates on the "state of the state." How significant is the state in an era in which its sovereignty is increasingly challenged both by global and domestic forces? What ought to be the proper role of the state in the twenty-first century? These questions are central to the current debates taking place—in the U.S. and abroad—on the extent to which countries should open up their economies, privatize social services, incorporate minorities and immigrants, recognize gay marriages, accommodate religious fundamentalism, etc. We will explore these questions by studying political theorists and empirical cases from around the world.

Limited enrollment. First semester. Professor Corrales.

05. Politics, Statecraft, and the Art of Ruling. In the teaching of the classic philosophers, the central questions of politics are questions of justice: What are the grounds of our judgment on the things that are just or unjust, right or wrong? What is the nature of the just, or the best, political order? What measures would we be "justified" in imposing with the force of "law"? What is the nature of that regime we would seek to preserve in this country—or, on the other hand, what are the regimes that we would be justified in resisting in other places, even

with the force of arms? The problem of judgment must point to the principles, or the standards, of judgment, and to an understanding that is distinctly philosophic. But political men and women also need a certain sense of the ways of the world: the things that hold people in alliance or impart a movement to events; the ways in which the character of politics is affected by the presence of bureaucracies or elections; the arts of persuasion; the strains of rendering judgments. And the knowledge of these things must depend on experience. In this style of introduction to Political Science, a central place will be given over to the study of statesmen and politicians: Lincoln, Churchill, Eisenhower, but also Kennedy, Johnson, Reagan. The course will draw us back to Aristotle and Plato, to Machiavelli and the American Founders, but then it will also encompass the study of voting and campaigns, and the more recent politics of race and gender.

Limited enrollment. First semester. Professor Arkes.

07. Leadership, Citizens, and Democracy. The paradox of democracy is that self-government requires a perpetual struggle, a kind of permanent war, between the people and their leaders. Is the ambitiousness of leaders good, bad, or just necessary? Can the warring instincts of citizenship and leadership be reconciled? Should those who want to be leaders be praised or blamed? Can leaders ever keep faith with democratic principles? Or do leaders always have "dirty hands"?

Limited enrollment. First semester. Professor Tiersky.

15. Political Economy of Development. This course surveys some of the principal themes in the political economy of lower-income countries. Questions will cover a broad terrain. What are the key characteristics of poor economies? Why did these countries fail to catch up economically with the West in the 20th century? Who are the key political actors? What are their beliefs, ideologies and motivations? What are their political constraints, locally, nationally and globally? We will review definitions of development, explanations for the wealth and poverty of nations, the role of ideas, positive and dysfunctional links between the state and business groups, the role of non-state actors, the causes and consequences of poverty, inequality, disease and corruption, the impact of financial globalization and trade opening, the role of the IMF and the World Bank, and the arguments of anti-developmentalists. We will look at the connection between regime type and development (are democracies at a disadvantage in promoting development?). We will also devote a couple of weeks to education in developing countries. We know education is a human good, but is it also an economic good? Does education stimulate economic growth? What are the obstacles to education expansion? We will not focus on a given region, but rather on themes. Familiarity with the politics or economics of some developing country is helpful but not necessary.

Limited to 25 students. First semester. Professor Corrales.

16. Political Islam. This class will examine the histories, discourses, demands, and strategies of a broad range of Muslim movements in Indonesia, the Philippines, Algeria, Chechnya, Palestine, Afghanistan, Uzbekistan, Kashmir, and Turkey. Beginning with short readings on various Islamist groups and settings, students will devise a taxonomy of discrete Islamist tendencies that challenge the view that Islamism is a uniform entity. The course then reviews some basic elements of social explanation, using the material-ideal divide as a way to clarify the effects of how we classify Islamist movements or how we analyze them.

Students evaluate influential "single-deprivation" models of fundamentalism that claim cultural resistance varies from peaceful to violent due to increases in a single kind of deprivation, such as poverty or cultural encroachment. With this

foundation, we turn to in-depth studies of Islamist movements to explore complex explanatory frameworks that *combine* rather than choose from political-economic environments and religious beliefs. We will strive to construct and test theories that identify causal mechanisms behind violent and non-violent Islamist activism, and include the discursive, interpretive, cultural, or religious arguments and claims of Islamist activists. The course culminates in discussions, inspired by student projects, about broader cross-religious conclusions that we might draw from the course.

First semester. Professor Rudy.

18. The Social Organization of Law. (Also Law, Jurisprudence and Social Thought 18.) See Law, Jurisprudence and Social Thought 18.

First semester. Professor Sarat.

19. Lawlessness: Terror and Its Denial. This course examines the reach of the law in situations of chaos, violence, and terrorism. The course pursues questions about the causes of these diverse forms of disorder and compares their consequences in the home, community, nation, and international arenas. The course will consider terror as a phenomenon of mass society as well as a form of lawlessness in the context of everyday lives. In particular, our inquiry will include the study of outlaw individuals, rogue communities and nations, and mass atrocities (i.e., women-battering; American extremist groups; the events of September 11, 2001; mass rape in Bosnia; and the Holocaust) and examine how the conditions of lawlessness violate moral boundaries, sexual norms, and responsibilities of citizenship. Questions will be raised about the processes of both individual and social denial and how this denial functions in the remembrance and forgetting of atrocities.

Omitted 2004-05. Professor Bumiller.

20. Rethinking Post-Colonial Nationalism. Nationalist fervor seemed likely to diminish once so-called Third World nations achieved independence. However, the past few years have witnessed the resurgence and transformation of nationalism in the post-colonial world. Where anti-colonial nationalist movements appeared to be progressive forces of change, many contemporary forms of nationalism appear to be reactionary. Did nationalist leaders and theoreticians fail to identify the exclusionary qualities of earlier incarnations of nationalism? Were they blind to its chauvinism? Or has nationalism become increasingly intolerant? Was the first wave of nationalist movements excessively marked by European liberal influences? Or was it insufficiently committed to universal principles? We will explore expressions of nationalism in democratic, revolutionary, religious nationalist, and ethnic separatist movements in the post-colonial world.

Second semester. Professor Basu.

21. American Government. This course is an introduction to American national government. We will study the meaning of constitutional rule, federalism, the structure and politics of the Presidency, Congress and Supreme Court, parties and elections, and selected issues in foreign and domestic policy.

Omitted 2004-05. Professor Dumm.

22. U.S.-Latin American Relations. Can small and non-powerful nations ever profit from a relationship with a more powerful hegemon? Who gains and who loses in this type of asymmetrical relationship? This seminar attempts to answer these questions by looking at the relations between the U.S. and Latin America. The seminar begins by presenting different ways in which intellectuals have

tried to conceptualize and analyze the relations between the U.S. and Latin America. These approaches are then applied to different dimensions of the relationship: (1) intra-hemispheric relations prior to World War II (the sources of U.S. interventionism and the response of Latin America); (2) political and security issues after World War II (the role of the Cold War in the hemisphere and U.S. reaction to instability in the region, with special emphasis on Cuba in the early 1960s, Peru in the late 1960s, Chile in the early 1970s, Central America in the 1980s); and (3) economic and business issues (the politics of foreign direct investment and trade, and the debt crisis in the 1980s). Finally, we examine contemporary trends: the emerging hemispheric convergence, economic integration, drug trade, immigration, the defense of democracy regime, the re-emergence of multilateral interventionism, and plan Colombia. *This course fulfills the requirement for an advanced seminar in political science.*

Requisite: Political Science 26 or its equivalent. Limited enrollment. Admission with consent of the instructor. Omitted 2004-05. Professor Corrales.

23. Political Obligations. The mark of the polity, or the political order, has always been the presence of “law”—the capacity to make decisions that are binding, or obligatory, for everyone within the territory. The roots of obligation and law are the same: “ligare,” to bind. When the law imposes a decision, it restricts personal freedom and displaces “private choice” in favor of a public obligation, an obligation applied uniformly or universally. The law may commit us then on matters that run counter even to our own convictions, strongly held, about the things that are right or wrong, and even on matters of our private lives. The law may forbid people to discriminate on grounds of race even in their private businesses; the law may forbid abortions, or on the other hand, the law may compel the funding of abortions even by people who find them abhorrent. This state of affairs, this logic of the law, has always called out for justification, and in facing that question, we are led back to the original understanding of the connection between morality and law. The law can justify itself only if it can establish, as its ground, propositions about the things that are in principle right or wrong, just or unjust—which is to say, right or wrong, just or unjust, for others as well as ourselves. The questions of law and obligation then must point to the questions at the root of moral philosophy: What is the nature of the good or the just, and the grounds on which we may claim to “know” moral truths?

The course will proceed through a series of cases after it returns to the beginning of political philosophy and lays the groundwork for the argument. We will begin with Aristotle on the polis, and the debate between Abraham Lincoln and Stephen Douglas on “natural rights.” We will draw on Kant and Hume, on Thomas Reid and Bertrand Russell, as we seek to set the groundwork in place. The argument of the course will then be unfolded further, and tested, through a train of cases and problems: conscientious objection, the war in Vietnam, the obligation to rescue, the claims of privacy. And the culmination will come on the issues of abortion, euthanasia, and assisted suicide.

Second semester. Professor Arkes.

25. Comparative European Political Development. An introduction to European government and politics. The course is strongly historical. Britain, France, Germany, and Italy are the focus. European integration and the European Union are discussed at the end, in relation to the national development of Europe’s nation-states. The uniqueness of nation-states and political cultures is set against all the homogenizing tendencies of contemporary European life—supra nationalism, globalization, Americanization. Has there been a decline of ideology in European

politics, and if so, is it a good or bad thing? Are the nation-state and national sovereignty declining or reviving in the age of European integration and globalization? What has happened to social class and class conflict in Europe? What are the causes and characteristics of today's racism, xenophobia, and immigration politics in Europe?

This course is an informal sequence with Political Science 45, Contemporary Europe. Courses may be taken in either order, and one is not a requisite for the other. Omitted 2004-05. Professor Tiersky.

26. World Politics. An introductory course which examines the dynamics of emerging post-Cold War international military, political and economic relations. Close attention is paid to the collapse of the Soviet Union as well as the transformed role of the United States. Among the topics examined are the technological and economic bases of hegemonic power, "imperial overstretch," spheres of influence, nationalism, ethnic and racist violence, spread of weapons of mass destruction, state and class interests, as well as the role of law and legal institutions in world politics. Other issues to be discussed include changes in world geopolitics (the European Union, the "German Question," "China," "rogue states") as well as changes in the world economy (protectionism, free trade, globalization, regionalization). The course does not rely on a single theoretical framework; instead, we will follow in the path of such classics as Thucydides, Machiavelli, Kant, Hobbes, Clausewitz, Adam Smith and Karl Marx.

Omitted 2004-05. Professor Machala.

27. Russian Politics Past and Present. How and why did a revolution that began as a dream of heaven on earth end up in a nightmare in which as many as 20 million perished? To what extent was Stalin's brand of totalitarianism rooted in such sources as Marxism-Leninism itself, in traditional Russian political culture, and in Stalin's own paranoid personality? How did Stalinism express itself in politics, economics, culture, and ethnic and foreign policy? What was its impact on reforms under Khrushchev and Gorbachev, and on post-Soviet politics? The first part of the course will examine the rise and fall of the USSR. The second, post-Soviet, section will focus on three transitions (from totalitarianism toward democracy, from a supercentralized economy to a more or less free market, and from a multinational empire to fifteen separate nation-states) as well as new Russia's relations with the world and especially the United States. In addition, we will discuss other general political issues as they work themselves out in Soviet and Russian contexts: the nature of revolution and nationalism, the causes and consequences of tyranny, the perils of political and social reform, and the role of power and ideology in foreign policy.

Omitted 2004-05. Professor Taubman.

28. Modern Classics in Political Philosophy. This course will be an introduction to the study of modern political philosophy. The course is organized around four classic texts which will be considered chronologically; they are: Hobbes, *Leviathan*; Locke, *The Two Treatise of Government*; J.S. Mill, *On Liberty and Considerations on Representative Government*; and Nietzsche, *Beyond Good and Evil*. The questions that will structure this study will include: What do the various philosophers take to be the original motivation underlying the formation of political society? How do these motivations conform with the normative prescriptions that are proposed? What are the limits of legitimate political authority, and what are the philosophical justifications for them? What are the justifications underlying the various proposed institutional arrangements and under what conditions can these arrangements be legitimately suspended?

Finally, does the organizing of political life of necessity do violence to a more noble conception of human potentiality?

Omitted 2004-05. Professor Mehta.

29. Women and Politics in Africa. (Also Women and Gender Studies 61 and Black Studies 41.) This course will explore the genesis and effects of political activism by women in Africa, which some believe represents a new African feminism, and its implications for state/civil society relations in contemporary Africa. Topics will include the historical effects of colonialism on the economic, social, and political roles of African women, the nature of urban/rural distinctions, and the diverse responses by women to the economic and political crises of post-colonial African policies. Case studies of specific African countries, with readings of novels and women's life histories, as well as analyses by social scientists.

First semester. Five College Professor Newbury.

30. American Politics/Foreign Policy. Since the disintegration of the Soviet Union one decade ago, the United States has emerged as the sole world Great Power. This change coincided with Clinton's presidency, his impeachment, the unprecedented growth and globalization of the U.S. economy as well as increasing social inequality and the declining interest of Americans in foreign affairs. The purpose of this seminar will be to examine domestic social, cultural and political forces that have shaped America's post-Cold War foreign policy, such as the power of corporate capitalist interests, organized labor, ethnic lobbies, mass media, public opinion, Congress, grass roots organizations as well as the role of key government individuals. Attention will be also devoted to a comparison of Bill Clinton's and George W. Bush's psychological profile, policy-making style and political leadership, as well as differences in their domestic policy objectives with an eye towards understanding how these differences influence(d) their administration's foreign policy agendas.

Omitted 2004-05. Professor Machala.

31. Introduction to Latin American Politics. This is an introduction to the study of modern Latin American politics. The overriding question that guides the course is: why have democracy and self-sustained prosperity been so difficult to accomplish in the region? The course is divided into four parts. The first part examines historical and institutional legacies common throughout the region that might have hindered democratic and economic development. The second part focuses on similarities in how Latin American countries have responded to this legacy since the 1930s (e.g., the rise of economic nationalism, statism, corporatism and populism). The third part looks at differences across the region by focusing on Cuba, Argentina, Chile, Mexico and Venezuela. Hypotheses will be formulated to explain why, for instance, some countries remained democratic while others did not; why some countries remained stable while others did not; why some societies resisted authoritarianism more effectively than others. This part of the course also looks at the role of political figures, institutions, political parties, societal groups (such as labor, business, the military and the Catholic Church), and cultural traits (such as machismo) in shaping these responses. The final part of the course examines developments since the 1980s—the transition to democracy and to market economies, the rise of social movements, the myths of racial and sexual democracy, the rise in crime, the endurance of porous states and laws, the re-militarization of the Andes, and neopopulism.

Omitted 2004-05. Professor Corrales.

32. Race, Class and Power. This course will analyze the relationship between social stratification and race, and the distribution of power and social status in American society, focusing on the 20th century. It will include historical and contemporary examination of various ethnic and racial groups and their incorporation into American society. Lecture and discussion.

Limited to 30 students. First semester. Mellon Visiting Professor Foster.

33. The American Presidency. This course is an examination of the contemporary American Presidency. We will examine the Constitutional and historical roots of the growth of Presidential power, the role of the modern President in the shaping of domestic and foreign policy, Presidential elections, and the cultural and iconographic significance of the modern presidency. Special attention will be paid to contemporary conflicts between the executive and legislative branches of government.

First semester. Professor Dumm.

34. American Political Thought. This course is a study of aspects of the canon of American political thought. While examining the roots of American thought in Puritanism and Quakerism, the primary focus will be on American transcendentalism and its impact on subsequent thought. Among those whose works we are likely to consider are Ralph Waldo Emerson, Henry David Thoreau, Margaret Fuller, Walt Whitman, W.E.B. DuBois, William James, Jane Addams, John Dewey, Martin Luther King, Hannah Arendt, Richard Rorty, and Stanley Cavell.

Not open to first-year students. Second semester. Professor Dumm.

35. Urban Politics and Public Policy. The City as an entity is no longer disparate from the countryside or the smaller communities that are adjacent to it. When we now speak of the city we find ourselves really talking about several entities subsumed under one word: the city. In the city we do not have a central city and suburbs. When we speak of the governance of the city we are dealing with a municipal government for the city, governments for the suburbs, public authorities, the state, and the federal government. There are a multiplicity of governmental units that are responsible for providing municipal services.

This course has as its primary function to analyze the political and planning problems that confront America's largest cities. The city as we know it is not a unitary body, and, as a consequence, many actors help to determine what public policies it will adopt and which policies it will reject. So as students of urban government, we will focus upon politics, who gets what, when, where, and how. We will also attempt to deal with rational planning: the whole is greater than the sum of the parts.

There will be a number of policy areas that will be discussed. They are: housing, crime, public education, transportation and race. Also, an attempt will be made to see if some of these policy areas can be dealt with in such a way that the city as we know it will remain a viable and worthwhile place to live and work.

Limited to 20 students. First semester. Mellon Visiting Professor Foster.

37. The American Founding. Lincoln famously said at Gettysburg that the nation had been brought forth "four score and seven years" earlier. Counting back 87 years from Gettysburg brought the beginning of the republic to 1776, not 1789. The American Founding included the ingenious crafting of the Constitution, but the Founding, and the Union, did not begin with the Constitution. It began with the Declaration of Independence and the articulation of that "proposition" as Lincoln called it, which marked the character of the regime: "all men are created equal." From that proposition sprang the principle for government by consent, and as Lincoln and the Founders understood, the case in principle

against slavery. Lincoln thought it a stroke of genius on the part of Jefferson that, on the occasion of a revolution, he inserted in the Declaration an “abstract truth applicable to all men and all times.” And yet, now, that truth of the Declaration has become controversial; it is often denied on both sides of the political divide, by conservatives, as well as liberals. But the claim for the Founders remains: if that central moral “truth” of the Declaration is not true, it may not be possible to give a coherent account of the American regime and the rights it was meant to secure.

The course will explore the writings and work of that uncommon generation that made the case for the American revolution and framed a “new order for the ages.” The topics will include the political philosophy of “natural rights”; the debates during the Constitutional Convention in 1787, and during the contest over ratification; the Federalist and Anti-federalist papers; the political economy of the new Constitution; the jurisprudence of Alexander Hamilton, James Wilson, and John Marshall; and some of the leading cases in the founding period of the Supreme Court.

Second semester. Professor Arkes.

39. Norms, Rights, and Social Justice: Feminists, Disability Rights Activists and the Poor at the Boundaries of the Law. (Also Law, Jurisprudence, and Social Thought 39.) This seminar explores how the civil rights movement began a process of social change and identity-based activism. We evaluate the successes and failures of “excluded” groups’ efforts to use the law. We primarily focus on the recent scholarship of theorists, legal professionals, and activists to define “post-identity politics” strategies and to counteract the social processes that “normalize” persons on the basis of gender, sexuality, disability, and class. *This course fulfills the requirement for an advanced seminar in Political Science.*

Not open to first-year students. Requisite: An introductory political science course or its equivalent. Limited enrollment. First semester. Professor Bumiller.

40. The Political Thought of Kant, Hegel and Marx. This seminar will consider some of the main moral and political themes in the writings by Kant, Hegel and Marx. The readings will include Kant’s *Critique of Practical Reason*, selections from Hegel’s *Philosophy of Right* and his *Philosophy of History*, and selections from Marx’s *Capital*. An underlying and organizing theme of this seminar will be the role of history in the political thought of these thinkers.

Limited enrollment. First semester. Professor Mehta.

41. The American Constitution I: The Structure of Rights. This course will focus on the questions arising from the relations of the three main institutions that define the structure of the national government under the Constitution. We will begin, at all times, with cases, but the cases will draw us back to the “first principles” of constitutional government, and to the logic that was built into the American Constitution. The topics will include: the standing of the President and Congress as interpreters of the Constitution; the authority of the Congress to counter the judgments—and alter the jurisdiction—of the federal courts on matters such as abortion and busing; the logic of “rights” and the regulation of “speech” (including such “symbolic expression” as the burning of crosses); and the original warning of the Federalists about the effect of the Bill of Rights in narrowing the range of our rights.

Omitted 2004-05. Professor Arkes.

42. The American Constitution II: Federalism, Privacy, and the “Equal Protection of the Laws.” In applying the Constitution to particular cases, it becomes necessary to appeal to certain “principles of law” that were antecedent to the

Constitution—principles that existed before the Constitution, and which did not depend, for their authority, on the text of the Constitution. But in some cases it is necessary to appeal to principles that were peculiar to the government that was established in the “decision of 1787”; the decisions that framed a new government under a new Constitution. This course will try to illuminate that problem by considering the grounds on which the national government claims to vindicate certain rights by overriding the authority of the States and private institutions. Is the federal government obliged to act as a government of “second resort” after it becomes clear that the State and local governments will not act? Or may the federal government act in the first instance, for example, to bar discriminations based on race, and may it reach, with its authority, to private businesses, private clubs, even private households? The course will pursue these questions as it deals with a number of issues arising from the “equal protection of the laws”—most notably, with the problem of discriminations based on race and sex, with racial quotas and “reverse discrimination.” In addition, the course will deal with such topics as: self-incrimination, the exclusionary rule, the regulation of “vices,” and censorship over literature and the arts. (This course may be taken independently of Political Science 41, The American Constitution I.)

First semester. Professor Arkes.

43. Contemporary Political Theory. A consideration of twentieth- and twenty-first-century Western political theory. Topics to be considered include the fate of modernity, identity and difference, power, representation, freedom, and the state. This year’s readings may include works by the following authors: Freud, Weber, Benjamin, Heidegger, Arendt, Derrida, Foucault, Berlin, Butler, Connolly, and Agamben. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Admission with consent of the instructor. Second semester. Professor Dumm.

45. Contemporary Europe. The main subjects are European Integration and European Security. The course deals selectively with the period 1945 to the present. Central issues are the domination of European political life by outside powers after World War II; historical and political reasons for European integration; current problems and prospects of the European Union’s development, especially its institutional deepening and geographical enlargement; the question of whether Europe can insure its own security; the American challenge and contradictory European responses.

Not open to first-year students. First semester. Professor Tiersky.

47. Asian and Asian American Women: Myths of Deference, Arts of Resistance. (Also Asian 54 and Women’s and Gender Studies 47.) Even the most sympathetic observers often assume that Asian women are so deeply oppressed that they demure in face of intolerable conditions. Such notions of women’s deference find echoes in popular conceptions of Asian American women. Part of the work of this course is to question assumptions of women’s quiescence by redefining agency and activism. But an equally important challenge is to avoid romanticizing resistance by recognizing victimization in the absence of agency, agency in the absence of activism, and activism in the absence of social change. Thus while appreciating the inventive ways in which Asian and Asian American women resist, we will explore why such resistance may perpetuate their subjugation.

Omitted 2004-05. Professor Basu.

48. Cuba: The Politics of Extremism. The study of Cuba's politics presents opportunities to address issues of universal concern to social scientists and humanists in general, not just Latin Americanists. When is it rational to be radical? Why has Cuban politics forced so many individuals to adopt extreme positions? What are the causes of radical revolutions? Is pre-revolutionary Cuba a case of too little development, uneven development or too rapid development? What is the role of leaders: Do they make history, are they the product of history, or are they the makers of unintended histories? Was the revolution inevitable? Was it necessary? How are new (radical) states constructed? What is the role of foreign actors, existing political institutions, ethnicity, nationalism, religion and sexuality in this process? How does a small nation manage to become influential in world affairs, even altering the behavior of superpowers? What are the conditions that account for the survival of authoritarianism? To what extent is the revolution capable of self-reform? Is the current intention of state leaders of pursuing closed politics with open economics viable? What are the most effective mechanisms to change the regime? Why does the embargo survive? Why did Cubans (at home and abroad) care about Elián González? Although the readings will be mostly from social scientists, the course also includes selections from primary sources, literary works and films (of Cuban and non-Cuban origin). As with almost everything in politics, there are more than just two sides to the issue of Cuba. One aim of the course is to expose the students to as many different sides as possible.

Omitted 2004-05. Professor Corrales.

49. Ancient Political Philosophy. This course provides an introduction to the political thought of Plato, Aristotle, and Saint Augustine. It is organized around classic texts which will be considered chronologically: Plato's *Republic* (selections); Aristotle, *The Politics*, and *The Ethics*; and St. Augustine, *The City of God*. The questions that will structure this study will include: Why is the study of politics something about which we need and can have general theories? What is the significance and the status of an "ideal" polity with respect to actual polities? What do the various philosophers take to be the original motivation underlying the formation of political society? How do these motivations conform with the normative prescriptions that are proposed? How do questions of hierarchy and equality inform ancient thought. And finally, what is the status of philosophy itself in offering political prescriptions?

Second semester. Professor Mehta.

50. Modern Social Theory. This course will consider the following broad questions with respect to Tocqueville, Marx, Durkheim and Weber: (1) What is the cement of society, i.e., what makes society a coherent unit of experience and analysis? (2) What are the rigidities and flexibilities in society, i.e., how do societies change, develop, and come apart? (3) What is the role of ideas in the cohesion and development of societies? (4) What normative constraints do the answers to the above questions place on societies? With respect to this question the focus in this course will be on the political constraints in contrast with, for instance, the technological, cultural or economic constraints. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Omitted 2004-05. Professor Mehta.

51. British Politics. This course will be divided between an analysis of British domestic politics and a discussion of Britain and European integration. Britain is a particularly interesting European country because its domestic politics derive from a European heritage, yet Britain has often been a reluctant partner

in European Union projects, and its foreign policy strategy is to play the role of a bridge between Europe and the United States. One major research paper and a presentation of one's research will be required.

Requisite: One of Political Science 04, 07, 25, 26, 30, 31, or 45. Limited enrollment. Not open to first-year students. Second semester. Loewenstein Fellow Mannin.

52. Evil. In response to the recently revived concern with "evil" in politics and philosophy, this class examines the conceptualizations, controversies, and causes of "evil." Diverse readings will address theological and genealogical accounts of the term itself, historical and discursive practices grounded in the notion, and social-scientific explanations (from political science, anthropology, sociology) of arguably "evil" human behavior: war, structural violence, terrorism, genocide, imprisonment, capital punishment, child abuse, slavery, imperialism, occupation, and torture.

Limited enrollment. Second semester. Professor Rudy.

53. Representing Domestic Violence. (Also Women's and Gender Studies 53.) See Women's and Gender Studies 53.

First semester. Professors Bumiller and Sánchez-Eppler.

54. Seminar in War and Peace. This seminar is a conceptual and theoretical discussion of war and peace. It is not a history or policy study. What are the causes of war? Is war distinctly human, or is it an atavism of man's animal nature? What are the causes of peace? If it were possible, should war be abolished? Or is war an awful but necessary, even positive, human behavior? Are there distinctively new forms of war, such as "virtual war" and "catastrophic terrorism?"

The syllabus ranges widely, from classical sources to contemporary debates and new questions. Ideas discussed range from the premise that war is inevitable, an unavoidable aspect of human culture, to assertions that nonviolence, a warless world, is possible. Readings include Euripides's *The Trojan Women*; Simone Weil's *The Iliad: A Poem Of Force*; Thucydides; Quintus Curtius Rufus's *The Life Of Alexander*; Hobbes; Kant's *Perpetual Peace*; Clausewitz's *On War*; Gandhi; Margaret Mead's "War Is Just an Invention"; Martin Luther King's "Letter from the Birmingham Jail"; Sebastian Faulks' *Birdsong*; Kenneth Waltz's *Man, The State, and War*; and Raymond Aron's *Peace and War*.

Students should have some background in international relations study; in morality, law, and politics; and/or international law. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Not open to first-year students. Second semester. Professor Tiersky.

55. The Politics of Civil Society. Civil society is both one of the most ubiquitous and contested concepts in contemporary political life. On the one hand, civil society is seen to play a vital role in cultivating values of participation and care in modern civilization. Civil society is considered to be the key link between citizens and government, operating, as Tocqueville once claimed, as the "mediating institution" without which democracy would be unthinkable. Yet at the same time civil society is a deeply contested concept—often considered to be an apparatus of the state designed to control and funnel participation, creating docile citizens, resulting in the suppression of individuality, and acting as a mere instrument of mass control.

This course is an investigation into the politics of civil society, examining some of the recent history of this concept in political theory and its role in contemporary political life. We will read thinkers such as Hannah Arendt, Vaclav

Havel, Benedict Anderson, Jürgen Habermas, paying closest attention to the role of civil society in the political development of the United States. Toward that end, we will examine civil society from the post-World War II era to the present, including works by such authors as David Reisman, Betty Friedan, Christopher Lasch, Robert Bellah, Robert Putnam, Michael Sandel, and Cornel West. We will also examine recent policies and policy proposals designed to “strengthen civil society,” such as welfare reform, school vouchers programs, faith based drug rehabilitation programs, and community policing.

Omitted 2004-05. Professor Dumm.

57. Problems of International Politics. The topic changes periodically. The current topic is: “Rethinking the Cold War.” During the last several years, the collapse of Communism has led to the opening of long-secret archives and the availability of former high-ranking officials in the Soviet Union and Eastern Europe. On the basis of such newly available sources, it is becoming possible to study the cold war from “the other side,” as well as on the basis of Western sources. This course will ask how these new sources have changed, or should change, our understanding of the cold war. It will use both new and old sources to examine such issues as: the cold war’s origins, the Korean war, the German question, the role of nuclear weapons, the Berlin and Cuban crises, the rise and fall of detente, the role of leaders and institutions, the impact of misperceptions and miscalculations, and the end of the cold war. *This course fulfills the requirement for an advanced seminar in Political Science.*

Requisite: One of Political Science 21, 26, 27, 30, 45, 48, 54, 62, History 31, 50, 51 or their equivalents. Limited enrollment. Admission with consent of instructor. Omitted 2004-05. Professor Taubman.

58. The Political Theory of the American Founding. James Wilson observed in 1793 that the law in America would be placed on a radically different foundation from that of the law in England. The law would not begin with the notion of a sovereign issuing commands: “[L]aws derived from the pure source of equality and justice must be founded on the consent of those whose obedience they require. The sovereign, when traced to his source, must be found in the man.” This course will explore the writings and work of that uncommon generation that made the case for the American revolution and framed a “new order for ages.” The topics will include the political philosophy of “natural rights”; the debates during the Constitutional Convention in 1787, and during the contest over ratification; the Federalist and Anti-Federalist papers; the political economy of the new Constitution; the jurisprudence of Alexander Hamilton, James Wilson, and John Marshall; and some of the leading cases in the founding period of the Supreme Court. Two class meetings per week. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Omitted 2004-05. Professor Arkes.

60. Punishment, Politics, and Culture. Other than war, punishment is the most dramatic manifestation of state power. Whom a society punishes and how it punishes are key political questions as well as indicators of its character and the character of the people in whose name it acts. This course will explore the connections between punishment and politics with particular reference to the contemporary American situation. We will consider the ways crime and punishment have been politicized in recent national elections as well as the racialization of punishment in the United States. We will ask whether we punish too much and too severely, or too little and too leniently. We will examine particular modalities of punishment, e.g., maximum security prisons, torture, the

death penalty, and inquire about the character of those charged with imposing those punishments, e.g., prison guards, executioners, etc. Among the questions we will discuss are: Does punishment express our noblest aspirations for justice or our basest desires for vengeance? Can it ever be an adequate expression of, or response to, the pain of victims of crime? When is it appropriate to forgive rather than punish? We will consider these questions in the context of arguments about the right way to deal with juvenile offenders, drug offenders, sexual predators ("Megan's Law"), rapists, and murderers. We will, in addition, discuss the meaning of punishment by examining its treatment in literature and popular culture. Readings may include selections from *The Book of Job*, Greek tragedy, Kafka, Nietzsche, Freud, George Herbert Mead, and contemporary treatments of punishment such as Foucault's *Discipline and Punish*, Butterfield's *All God's Children*, Scarry's *Body in Pain*, Garland's *Punishment in Modern Society*, Hart's *Punishment and Reasonability*, and Mailer's *Executioner's Song*. Films may include *The Shawshank Redemption*, *Dead Man Walking*, *Mrs. Soffel*, *Minority Report*, and *One Flew Over the Cuckoo's Nest*.

Limited enrollment. Second semester. Professor Sarat.

61. Taking Marx Seriously. Should Marx be given yet another chance? Is there anything left to gain by returning to texts whose earnest exegesis has occupied countless interpreters, both friendly and hostile, for generations? Has Marx's credibility survived the global debacle of those regimes and movements which drew inspiration from his work, however poorly they understood it? Or, conversely, have we entered a new era in which post-Marxism has joined a host of other "post-" phenomena? This seminar will deal with these and related questions in the context of a close and critical reading of Marx's texts. The main themes we will discuss include Marx's conception of capitalist modernity, material and intellectual production, power, class conflicts and social consciousness, and his critique of alienation, bourgeois freedom and representative democracy. We will also examine Marx's theories of historical progress, capitalist exploitation, globalization and human emancipation. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Prerequisite: One of Political Science 28, 29, 49, 65, 68 or an equivalent. First semester. Professor Machala.

62. United States Foreign Policy: Democracy and Human Rights. Is the United States committed to promoting democracy and human rights abroad or just advancing its own strategic and domestic corporate interests? What influence does the United States have on the development of democracy around the world and the emergence of—and compliance with—international human rights conventions, protocols and laws? This seminar begins with an historical overview of American democracy and human rights rhetoric and policies and seeks to uncover the range of political, economic, cultural and geostrategic motivations underlying U.S. behavior. We will then examine American foreign policy responses to contemporary human rights and democracy issues as they relate to women, regional and civil violence, state-sponsored violence and repression, development, globalization, and environmental degradation and resource scarcity. Throughout the semester we will examine how these policies have influenced events in Latin America, East Asia, Eastern Europe, and sub-Saharan and southern Africa. Previous course work relating to international relations, American politics or foreign policy, or political theory required. *This course fulfills the requirement for advanced seminar in Political Science.*

Admission with consent of the instructor. Omitted 2004-05.

64. Seminar on International Politics: Global Resource Politics. An intensive investigation of new and emerging problems in international peace and security affairs. We will examine such issues as: international terrorism; global resource competition; the security implications of globalization; international migrations; transboundary environmental problems; illegal trafficking in guns, drugs, and people. Participants in the seminar will be required to choose a particular problem for in-depth investigation, entailing a study of the nature and evolution of the problem, the existing international response to it, and proposals for its solution. Students will prepare a major paper on the topic and give an oral presentation to the class on their findings. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited to 25 students. Second semester. Five College Professor Klare.

65. States of Poverty. (Also Women's and Gender Studies 65.) In this course the students will examine the role of the modern welfare state in people's everyday lives. We will study the historical growth and retrenchment of the modern welfare state in the United States and other Western democracies. The course will critically examine the ideologies of "dependency" and the role of the state as an agent of social control. In particular, we will study the ways in which state action has implications for gender identities. In this course we will analyze the construction of social problems linked to states of poverty, including hunger, homelessness, health care, disability, discrimination, and violence. We will ask how these conditions disproportionately affect the lives of women and children. We will take a broad view of the interventions of the welfare state by considering not only the impact of public assistance and social service programs, but the role of the police, family courts, therapeutic professionals, and schools in creating and responding to the conditions of impoverishment. The work of the seminar will culminate in the production of a research paper and students will be given the option of incorporating field work into the independent project. *This course fulfills the requirement for an advanced seminar in Political Science.*

Requisite: One of Political Science 03, 04, 05, 07, 18, or 21, Women's and Gender Studies 11, or consent of the instructor. Limited to 20 students. Omitted 2004-05. Professor Bumiller.

66. Topics in Contemporary Political Philosophy. This seminar will consider works in political philosophy that have been published within the last decade. It will be organized around the following four topics: justice, equality, the normative force of history and ethical/cultural pluralism. The readings will include works by the following thinkers: John Rawls, Amartya Sen, Michael Sandel, Ronald Dworkin, Charles Taylor, Alistair MacIntyre, David Bromwich, Jurgen Habermas, Martha Nussbaum, Jean-Francois Lyotard, and Bikhu Parekh. *This course fulfills the requirement for an advanced seminar in Political Science.*

Second semester. Professor Mehta.

68. Globalization, Social Movements and Human Rights. (Also Women's and Gender Studies 68.) This seminar will explore the changing trajectories of social movements amidst economic, political and cultural globalization. Social movements have organized in opposition to the environmental destruction, increased class inequalities and diminished accountability of nation states that have often accompanied the global spread of capitalism. Globalization from above has given rise to globalization from below as activists have organized transnationally, employing new technologies of communication and appealing to universal human rights. However, in organizing transnationally and appealing to universal principles, activists may find their energies displaced from local to

transnational arenas, from substantive to procedural inequalities, and from grass roots activism to routinized activity within the judicial process. We will consider the extent to which globalization heightens divisions between universalistic and particularistic movements or contributes to the creation of a global civil society which can protect and extend human rights. We will examine women's movements, environmental movements, and democracy movements in several regions of the world. *This course fulfills the requirement of an advanced seminar in Political Science.*

Requisite: One of Political Science 20, 22, 26, 31, 39, 46, 47, 48, or 70. Limited enrollment. Omitted 2004-05. Professor Basu.

69. Markets and Democracy in Latin America. In the 1980s, an unprecedented process of change began in Latin America: nations turned toward democracy and the market. This seminar explores the literature on the rise of market democracies in Latin America and, at the same time, encourages students to think about ways to study the post-reform period. The seminar begins by looking at the situation prior to the transition: the sources of Latin America's overexpanded state, economic decay, political instability, and democratic deficit. The seminar then focuses directly on the processes of transition, paying particular attention to the challenges encountered. It explores, theoretically and empirically, the extent to which democracy and markets are compatible. The seminar then places Latin America's process of change in a global context: comparisons will be drawn with Asian and post-Socialist European cases. The seminar concludes with an overview of current shortcomings of the transition: Latin America's continued international vulnerability (the currency crises of the 1990s), economic insecurity, the rise of crime, drug trade, neopopulism, the cleavage between nationalists and internationalists, the prospects for further reforms. *This course fulfills the requirements of an advanced seminar in Political Science.*

Requisite: Some background in the economics and politics of developing countries. Limited enrollment. Admission with consent of the instructor. Omitted 2004-05. Professor Corrales.

70. The Political Theory of Globalization. "Globalization" can mean many things. To some, it means equal integration of individual societies into worldwide political, economic and cultural processes. To others it means accentuated uneven economic development, accompanied by cultural imperialism, which merely exaggerates the political dependence of "peripheral" on "core" societies. For still others, globalization is shorthand for the social and cultural changes that follow when societies become linked with and, in an escalating way, dependent upon the world capitalist market. The idea that underlies these multiple meanings of globalization is the radical intensification of worldwide social relations and the lifting of social activities out of local and national conditions. The course will examine the major theoretical discourses raised by this idea, such as (1) the effect of globalizing material production on the integrity of liberal democracy and the welfare state, (2) the nexus between globalizing cultural production and the politics of otherness, (3) the impact of globalizing communication technologies and mass consumerism on the formation of transnational "gated class communities," and (4) the relationship between globalizing corporate capitalist governance and the democratization of discrete state formations. We will also explore the connection between the theories of modernity/post-modernity and globalizing civil society as well as the ideological partnership of liberalism, neoliberalism and poststructuralism in legitimizing the current globalizing "human condition." *This course fulfills the requirement of an advanced seminar in Political Science.*

Requisite: Two courses—one from each cluster or their equivalent: (a) Political Science 20, 25, 26, 35; (b) 28, 44, 56, 61, 63, 65, 68, 69. Limited enrollment. Omitted 2004-05. Professor Machala.

72. Culture and Politics in 20th-Century Europe. (Also European Studies 35.) This is a seminar to discuss political ideas, ideologies and culture in 20th-century Europe. Some of the main themes are: Nationalism; Marxism; Fascism; anti-Semitism; Existentialism, the so-called “decline of ideology”; and Europeanism, that is, enthusiasm for what Europeans call “the idea of Europe.” Throughout the course ideas are connected to historical context: Europe’s decadence and self-destruction 1914-1945; European decline and renewal since the end of World War II; and the contemporary dialectic of Europeanism “from the top down” (the European Union’s structures) and “from the bottom up” (young people studying in each others’ universities, intellectuals and business groups forging cross-border links, the extent of a new European-oriented political culture in Europe’s civil societies). The seminar will discuss books and films, from Bertolucci’s *1900*, to Trotsky’s *What is Fascism and How to Fight It*, to Sartre’s *Existentialism is a Humanism*, to the recent films *L’Auberge espagnole* and *Good Bye, Lenin*. This course fulfills the requirement for an advanced seminar in Political Science.

Limited to 20 students. Preference to upperclass students and Political Science and European Studies majors. Second semester. Professor Tiersky.

77D, 78. Senior Departmental Honors. Totaling three full courses, usually a double course in the fall and one regular course in the spring.

Open to seniors who have satisfied the necessary requirements. First and second semesters. The Department.

97, 98. Special Topics.

First and second semesters.

RELATED COURSES

Personality and Political Leadership. See Colloquium 14. *This course fulfills the requirement for an advanced seminar in Political Science.*

Limited enrollment. Admission with consent of the instructors. Second semester. Professors W. Taubman and Demorest.

Post-Cold War American Diplomatic History. See Colloquium 18.

Limited to 30 students. Admission with consent of the instructors with preference given to students who have taken one of the following courses: Political Science 26, 30, History 49, 50, and 51. Not open to first-year students. First semester. Professors Machala and Levin.

Murder. See Law, Jurisprudence and Social Thought 20.

Second semester. Professor Sarat.

PREMEDICAL STUDIES

Amherst College has no premedical major. Students interested in careers in medicine may major in any subject, while also completing medical school admission requirements. Entrance requirements for most medical schools will be satisfied by taking the following courses: Mathematics 11, or Mathematics 05 and 06; Chemistry 11 or 15, and Chemistry 12, 21, and 22; Physics 16 and 17, or Physics 23 and 24; Biology 18 and 19, or any two Biology courses with laboratory;

and two English courses. Students interested in medicine or other health professions are supported by Dean Carolyn Bassett, the Health Professions Advisor in the Career Center, and by a faculty Health Professions Committee chaired by Professor Stephen George. All students considering careers in medicine should read the *Amherst College Guide for Premedical Students*, which has extensive information about preparation for health careers and suggestions about scheduling course requirements. The Guide may be found on the College's Website under Career Center.

PSYCHOLOGY

Professors Aries (Chair, first semester), Demorest, Olvert (Chair, second semester), and Raskint; Associate Professors Hart and Sanderson*; Assistant Professors Baird, Schulkind, and Turgeon; Andrew W. Mellon Visiting Assistant Professor Seeley; Visiting Assistant Professor McIntyre; Visiting Professor Halgin.

Major Program. Students majoring in Psychology are required to elect nine full courses in Psychology. In order to ensure a comprehensive view of the discipline the department requires both vertical structure and breadth. Vertical structure will be achieved by the requirement of introductory and intermediate courses as well as an upper-level seminar. Breadth will be achieved by the requirement of a range of intermediate courses and the recommendation of elective specialized courses.

The required introductory courses include Psychology 11, 12 and 22. It is strongly advised that these courses be taken on the Amherst campus. Additionally starting with the class of '06, students must choose one course from at least three, rather than two, of the following groups of intermediate-level courses:

Area 1: Developmental (Psych 27), Adolescence (Psych 32), Aging (Psych 36).

Area 2: Social (Psych 20), Personality (Psych 21), Abnormal (Psych 28).

Area 3: Psychobiology of Abnormal Behavior (Psych 24), Psychopharmacology (Psych 25), Introduction to Neuroscience (Psych 26), Research Methods in Physiological Psychology (Psych 45).

Area 4: Cognitive (Psych 33), Memory (Psych 34).

All students must choose one upper-level seminar. Seminars may be chosen from the following courses: Sex Role Socialization (Psych 40), Environmental Psychology (Psych 46), Clinical Inquiry (Psych 53), Close Relationships (Psych 54), Motivation (Psych 56), Hormones and Behavior (Psych 59), Developmental Psychobiology (Psych 60), Psychology and the Law (Psych 63), Music Cognition (Psych 66).

Departmental Honors Research. A limited number of majors will engage in honors research under the direction of a faculty member during their senior year. Honors research involves credit for three courses (usually one course credit during the fall and two credits during the spring semester) and culminates in a thesis. The thesis usually involves both a review of the previous literature pertinent to the selected area of inquiry and a report of the methods and results of a study conducted by the student. Any student interested in pursuing honors research in psychology should discuss possible topics with appropriate faculty before preregistration in the second semester of the junior year, and express their preferences on the department website by that year's deadline.

*On leave 2004-05.

†On leave first semester 2004-05.

11. Introduction to Psychology. An introduction to the nature of psychological inquiry regarding the origins, variability, and change of human behavior. As such, the course focuses on the nature-nurture controversy, the processes associated with cognitive and emotional development, the role of personal characteristics and situational conditions in shaping behavior, and various approaches to psychotherapy.

Limited to 100 students. First semester: Professor Seeley. Second semester: Professor McIntyre.

12. Introduction to Biological Psychology. This course will examine how brain function regulates a broad range of mental processes and behaviors. We will discuss how neurons work; and how the brain obtains information about the environment (sensory systems), regulates an organism's response to the environment (motor systems), controls basic functions necessary for survival such as eating, drinking, sex, and sleep, and mediates higher cognitive function such as memory and language. We will also consider the consequences of brain malfunction as manifested in various forms of disease and mental illness.

Limited to 75 students. First and second semesters. Professor Turgeon.

17. Psychology of Food and Eating Disorders. Food shapes our lives in many ways that extend far beyond mere ingestive acts. Through a broad survey of basic and clinical research literature, we will explore how foods and food issues imbue our bodies, minds, and relationships. We will consider biological and psychological perspectives on various aspects of eating such as metabolism, neural mechanisms of hunger and satiety, metabolic disorders, food allergies, pica, failure to thrive, starvation, taste preference and aversion, obesity, anxiety and depression relief, food taboos, bulimia, and the anorexias. Strong emphasis will be placed on biological mechanisms and controlled laboratory research with both human and animal subjects.

Requisite: Psychology 11 or 12. Limited to 40 students. First semester. Professor Baird.

20. Social Psychology. The individual's behavior as it is influenced by other people and by the social environment. The major aim of the course is to provide an overview of the wide-ranging concerns characterizing social psychology from both a substantive and a methodological perspective. Topics include person perception, attitude change, interpersonal attraction, conformity, altruism, group dynamics, and prejudice. In addition to substantive issues, the course is designed to introduce students to the appropriate research data analysis procedures.

Requisite: Psychology 11. Limited to 40 students. First semester: Professor McIntyre. Second semester: Professor Seeley.

21. Personality. A consideration of theory and methods directed at understanding those characteristics of the person related to individually distinctive ways of experiencing and behaving. Prominent theoretical perspectives will be examined in an effort to integrate this diverse literature and to determine the directions in which this field of inquiry is moving. These theories will also be applied to case histories to examine their value in personality assessment.

Requisite: Psychology 11. Limited to 40 students. First semester. Professor Demorest.

22. Statistics and Experimental Design. An introduction to and critical consideration of experimental methodology in psychology. Topics will include the formation of testable hypotheses, the selection and implementation of

appropriate procedures, the statistical description and analysis of experimental data, and the interpretation of results. Articles from the experimental journals and popular literature will illustrate and interrelate these topics and provide a survey of experimental techniques and content areas.

Requisite: Psychology 11 or consent of the instructor. Limited to 30 students. First semester: Professor Schulkind. Second semester: Professor McIntyre.

24. Psychobiology of Abnormal Behavior. This course will investigate the evidence for biological explanations of abnormal behavior. We will examine how scientists have come to our current understanding of the biological bases of disorders such as schizophrenia, depression, Alzheimer's disease, Parkinson's disease, post-traumatic stress disorder, eating disorders, addiction, anxiety disorders, obsessive-compulsive disorder, and attention deficit disorder.

Requisite: Psychology 12 or consent of the instructor. Limited to 40 students. Omitted 2004-05. Professor Baird.

25. Psychopharmacology. In this course we will examine the ways in which drugs act on the brain to alter behavior. We will review basic principles of brain function and mechanisms of drug action in the brain. We will discuss a variety of legal and illegal recreational drugs as well as the use of psychotherapeutic drugs to treat mental illness. Examples from the primary scientific literature will demonstrate the various methods used to investigate mechanisms of drug action, the biological and behavioral consequences of drug use, and the nature of efforts to prevent or treat drug abuse.

Requisites: Psychology 12 or Psychology/Neuroscience 26, or consent of the instructor. Limited to 40 students. First semester. Professor Turgeon.

26. Introduction to Neuroscience. (Also Neuroscience 26.) See Neuroscience 26.

Requisite: Psychology 12 or 15 or Biology 18 or 19. Limited to 36 students. Second semester. Professors Baird and George.

27. Developmental Psychology. A study of human development across the life span with emphasis upon the general characteristics of various stages of development from birth to adolescence and upon determinants of the developmental process.

Requisite: Psychology 11 or 12. Limited to 25 students. Second semester. Professor Olver.

28. Abnormal Psychology. A review of various forms of psychopathology including addictive, adjustment, anxiety, childhood, dissociative, impulse control, mood, organic, personality, psychophysiological, schizophrenic, and sexual disorders. Based on a review of contemporary research findings, lectures and discussion will focus on the most relevant approaches for understanding, diagnosing, and treating psychological disorders. The biopsychosocial model will serve as a basis for explaining the etiology of psychological disorders, and discussion will focus on empirically supported interventions for treating these conditions.

Requisite: Psychology 11 or 12, or consent of the instructor. Limited to 75 students. First semester. Professor Halgin of the University of Massachusetts.

32. Psychology of Adolescence. This course will focus on the issues of personal and social changes and continuities which accompany and follow physiological puberty. Topics to be covered include physical development, autonomy, identity, intimacy, and relationship to the community. The course will present cross-cultural perspectives on adolescence, as well as its variations in American society. Both theoretical and empirical literature will be examined.

Requisite: Psychology 11. Limited to 25 students. Second semester. Professor Aries.

33. Cognitive Psychology. This course will examine how the mind extracts information from the environment, stores it for later use, and then retrieves it when it becomes useful. Initially, we will discuss how our eyes, ears, and brain turn light and sound into colors, objects, speech, and music. Next, we will look at how memory is organized and how it is used to accomplish a variety of tasks. Several memory models will be proposed and evaluated: Is our brain a large filing cabinet? a sophisticated computer? We will then apply these principles to understand issues like intelligence, thinking, and problem solving. Throughout the course, we will discuss how damage to various parts of the brain affects our ability to learn and remember.

Requisite: Psychology 11 or 12. Limited to 40 students. First semester. Professor Schulkind.

34. Memory. This course will provide a comprehensive overview of the study of memory. We will begin by examining empirical research on memory for different kinds of content: factual information vs. personal events vs. cognitive skills. This research will be used to evaluate several contemporary models of memory. From there, we will examine how memory theories have been applied to understanding "real world" issues such as eyewitness testimony, and the false/recovered memory debate. We will also discuss developmental changes in memory—from infancy to old age. We will supplement our analysis of memory with evidence from the rapidly growing field of cognitive neuroscience.

Requisite: Psychology 11. Limited to 40 students. Second semester. Professor Schulkind.

36. Psychology of Aging. An introduction to the psychology of aging. Course material will focus on the behavioral changes which occur during the normal aging process. Age differences in learning, memory, perceptual and intellectual abilities will be investigated. In addition, emphasis will be placed on the neural correlates and cognitive consequences of disorders of aging such as Alzheimer's disease. Course work will include systematic and structured observation within a local facility for the elderly.

Requisite: Psychology 11 or 12. Limited to 20 students. Second semester. Professor Raskin.

40. Sex Role Socialization. An examination of the processes throughout life that produce and maintain sex-typed behaviors. The focus is on the development of the psychological characteristics of males and females and the implications of that development for participation in social roles. Consideration of the biological and cultural determinants of masculine and feminine behaviors will form the basis for an exploration of alternative developmental possibilities. Careful attention will be given to the adequacy of the assumptions underlying psychological constructs and research in the study of sex differences.

Requisite: Psychology 11 or 12 and consent of the instructor. Limited to 15 students. Omitted 2004-05. Professor Olver.

44. The Social Psychology of Race. An interdisciplinary investigation of the social psychology of race in the United States examining the nature and causes of racial stereotypes, prejudice, and discrimination. We will discuss alternatives to more traditional cognitive approaches that regard stereotyping primarily as a bias produced by the limits of individual processing. While grounded in social psychological theory, we will examine the emergence of race as an

important social variable resulting from the interplay of various socio-historical forces. Readings will range from scientific journal articles to personal and intellectual accounts by some key figures in race research including G. Allport, W.E.B. Du Bois, N. Lemann, J.H. Stanfield, S. Steele, and C. West.

Requisite: Psychology 11. Limited to 30 students. First semester. Professor Hart.

45. Research Methods in Physiological Psychology. This course will provide students with "hands-on" exposure to state of the art techniques currently used in physiological psychology research. In a laboratory setting, students will be trained to design and carry out classic, current, and original experiments that explore the neurological bases of behaviors such as sex, drinking, and feeding, among others. The entire research process, from hypothesis to data collection to written report, will be emphasized.

Requisite: Psychology 26, or consent of the instructor. Omitted 2004-05. Professor Baird.

46. Environmental Psychology. The field of environmental psychology emerged in response to our society's increasing concern about environmental problems. While it deals with applied problems, the field makes use of theory and research on basic psychological processes to study the relationship between people and their environments. This course introduces students to the methods and findings of the field. In the first half of the course we will examine empirical research on topics such as the effects of environmental qualities (e.g., temperature, light, air pollution) on human functioning; differences in environmental attitudes and activism as a function of various human factors (e.g., culture, personality, gender); and the influence of interventions (e.g., education, reward, punishment) on promoting conservation behavior. In the second half of the course, students will design and conduct their own research projects which focus on one of the topics previously studied.

Requisite: Psychology 22. Limited to 15 students. Open to juniors and seniors. Second semester. Professor Demorest.

47. Health Psychology. An introduction to the theories and methods of psychology as applied to health-related issues. We will consider theories of reasoned action/planned behavior, social cognition, and the health belief model. Topics will include personality and illness, addictive behaviors, psychoneuroimmunology, psychosocial factors predicting health service utilization and adherence to medical regimens, and framing of health-behavior messages and interventions.

Requisite: Psychology 11 or 12. Limited to 30 students. Omitted 2004-05. Professor Sanderson.

51. Social Cognition. This course focuses on how cognitive processes influence and are influenced by social variables. The initial section of the class will examine classic and contemporary theories that describe how mental representations underlie basic areas of psychology such as attention, reasoning, memory, motivation, stereotypes and prejudice, and the self. In the second section of the class, the students will independently survey the literature on a topic of interest and present the results of their research to the class. In addition to summarizing the literature, the students will be required to propose novel hypotheses based on the major theories in their chosen field. In the final section of the course, students will work in groups to design and conduct empirical tests of the hypotheses generated in the second section of the course, culminating in a written report of the experiment, its findings, and its theoretical implications.

Requisites: Psychology 20 and 22. Limited to 15 students. First semester. Professor McIntyre.

53. Clinical Inquiry. This course will examine methods used by clinical psychologists to understand the psychology of individual personalities. The first half of the course will focus on the analysis of narrative imagery to decipher the dominant patterns of thinking, feeling, and behaving that reflect the way an individual organizes his/her experience of the world. We will study narratives freely generated (i.e., autobiographical reports) as well as those generated to a standard psychological test (i.e., the Thematic Apperception Test). In the second half of the course, students will each pick a psychological test to study in detail and will lead class meetings devoted to those tests.

Requisite: Psychology 21 or 28. Limited to 15 students. Open to juniors and seniors. First semester. Professor Demorest.

54. Close Relationships. An introduction to the study of close relationships using social-psychological theory and research. Topics will include interpersonal attraction, love and romance, sexuality, relationship development, communication, jealousy, conflict and dissolution, selfishness and altruism, loneliness, and therapeutic interventions. This is an upper-level seminar for the major requirement which requires intensive participation in class discussion and many written assignments.

Requisite: Psychology 20 or 21. Open to juniors and seniors. Admission with consent of the instructor. Limited to 15 students. Omitted 2004-05. Professor Sanderson.

56. Seminar in Motivation. This course will explore in detail the neurophysiological underpinnings of basic motivational systems such as feeding, drinking, and sex. Students will read original articles in the neuroanatomical, neurophysiological, and behavioral scientific literature. Key goals of this course will be to make students conversant with the most recent scientific findings and adept at research design and hypothesis testing.

Requisite Psychology 12 or 26 and consent of the instructor. Limited to 15 students. First semester. Professor Baird.

57. History of Psychiatry. Though the history of madness is as old as humanity, the field of psychiatry has come of age over the past 300 years. The understanding and treatment of mental illness within the psychiatric profession has drawn upon neurological and medical, as well as psychological and psychodynamic points of view. An emerging field, Neuropsychanalysis, attempts to integrate the two. This course will survey psychiatry's evolution, with special emphasis on the major contributions that have changed perspectives and directions in psychiatric medicine. We will also review the history of how mentally-ill patients have been housed, from custodial asylums to de-institutionalization and community-based programs, as a reflection of changing attitudes towards mental disease. Seminar. One class meeting per week.

Requisite: Psychology 11 and 12, or consent of the instructor. Limited to 20 students. Second semester. Professor Raskin.

59. Hormones and Behavior. This course will analyze how hormones influence the brain and behavior. We will focus on the role gonadal hormones play in animal behaviors such as aggression and sex and consider whether these hormones greatly influence human behaviors. Sexual orientation, maternal behavior, cognitive abilities, the menopause, etc., will be addressed from the point of view of science and from a social, historical and cultural perspective.

Students must have a strong science background; knowledge of biology or neuroscience is preferred.

Admission with consent of the instructor. Limited to 15 students. Second semester. Professor Turgeon.

60. Developmental Psychobiology. A study of the development of brain and behavior in mammals. The material will cover areas such as the development of neurochemical systems, how the brain recovers from injury, and how early environmental toxins influence brain development. Emphasis will be placed on how aberrations in the central nervous system influence the development of behavior.

Requisite: Psychology 12. Limited to 20 students. Second semester. Professor Raskin.

63. Psychology and the Law. Psychology strives to understand (and predict) human behavior. The law aims to control behavior and punish those who violate laws. At the intersection of these two disciplines are questions such as: Why do people obey the law? What are the most effective means for punishing transgressions so as to encourage compliance with the law? The idea that our legal system is the product of societal values forms the heart of this course. We will repeatedly return to that sentiment as we review social psychological principles, theories, and findings addressing how the principal actors in legal proceedings affect each other. We will survey research on such topics as: criminal versus civil procedure, juror selection criteria, juror decision making, jury size and decision rule, the death penalty, insanity defense, and eyewitness reliability. To a lesser degree the course will also consider (1) issues that arise from the impact of ideas from clinical psychology and other mental-health related fields upon the legal system, and (2) the impact that the legal system has had upon the field of psychology.

Requisite: Psychology 20 and consent of the instructor. Limited to 15 students. Second semester. Professor Hart.

66. Music Cognition. Current theories of cognitive psychology will be evaluated in light of what is known about the effects of musical stimuli on learning, memory, and emotion. The course will begin by examining how musical information is stored and, subsequently, retrieved from memory. Particular attention will be paid to comparing learning and memory of musical and non-musical stimuli. The course will also compare the behavior of trained and untrained musicians to determine how expertise influences cognitive performance. Finally, the course will consider the ability of music to elicit emotional responses and the psychological basis for its use in applied settings.

Requisite: Psychology 33. Limited to 15 students. Second semester. Professor Schulkind.

77, 78 or 78D. Senior Departmental Honors. Open to senior majors in Psychology who have received departmental approval. First and second semesters.

97, 97H, 98, 98H. Special Topics. This course is open to qualified students who desire to engage in independent reading on selected topics or conduct research projects. Preference will be given to those students who have done good work in one or more departmental courses beyond the introductory level. A full course or a half course.

Open to juniors and seniors with consent of the instructor. First and second semesters.

RELATED COURSE

Personality and Political Leadership. See Colloquium 14.

Limited enrollment. Admission with consent of the instructors. Second semester. Professors Demorest and W. Taubman.

RELIGION

Professors Doran (Chair), Elias, Niditch, and Wills; Assistant Professors Dole and Heim.

The study of Religion is a diversified and multi-faceted discipline which involves the study of both specific religious traditions and the general nature of religion as a phenomenon of human life. It includes cultures of both the East and West, ancient as well as modern, in an inquiry that involves a variety of textual, historical, phenomenological, social scientific, theological and philosophical methodologies.

Major Program. Majors in Religion will be expected to achieve a degree of mastery in three areas of the field as a whole. First, they will be expected to gain a close knowledge of a particular religious tradition, including both its ancient and modern forms, in its Scriptural, ritual, reflective and institutional dimensions. Ordinarily this will be achieved through a concentration of courses within the major. A student might also choose to develop a program of language study in relation to this part of the program, though this would not ordinarily be required for or count toward the major. Second, all majors will be expected to gain a more general knowledge of some other religious tradition quite different from that on which they are concentrating. Ordinarily, this requirement will be met by one or two courses. Third, all majors will be expected to gain a general knowledge of the theoretical and methodological resources pertinent to the study of religion in all its forms. It is further expected of Honors majors that their theses will demonstrate an awareness of the theoretical and methodological issues ingredient in the topic being studied.

Majors in Religion are required to take Religion 11, "Introduction to Religion," Religion 64, "Theories of Religion," and six additional courses in Religion or related studies approved by the Department. In meeting this requirement, majors and prospective majors should note that no course in Religion (including Five College courses) or in a related field will be counted toward the major in Religion if it is not approved by the student's departmental advisor as part of a general course of study designed to cover the three areas described above. In other words, a random selection of eight courses in Religion will not necessarily satisfy the course requirement for the major in Religion.

All majors, including "double majors," are required early in the second semester of the senior year to take a comprehensive examination in Religion. This examination will be designed to allow the student to deal with each of the three aspects of his or her program as described above, though not in the form of a summary report of what has been learned in each area. Rather, the emphasis will be on students' abilities to use what they have learned in order to think critically about general issues in the field.

Departmental Honors Program. Honors in Religion shall consist of Religion 11, Religion 64, and the thesis courses, Religion 77 and 78D, plus five additional semester courses in Religion or related studies approved by the Department; satisfactory fulfillment of the general Honors requirements of the College;

satisfactory performance in the comprehensive examination; and the satisfactory preparation and oral defense of a scholarly essay on a topic approved by the Department.

11. Introduction to Religion. This course introduces students to the comparative study of religion by focusing on a major theme within two or more religious traditions. Traditions and topics will vary from year to year. In 2004-05, the major traditions will be Judaism and Christianity and the theme will be war. Through a range of classical and modern sources, we will explore the complex ways in which issues in religion relate to the causes and conduct of war. In addition to working with cases presented in class, each student will prepare an independent study project dealing with religious issues at play in a contemporary conflict.

First semester. Professors Doran and Niditch.

13. Popular Religion. Religions, ancient or modern, are sometimes described as having two modalities or manifestations: the one institutional, of the establishment, the other, popular. The latter is sometimes branded as superstitious, idolatrous, syncretistic, heretical, or cultish. Yet we have come to realize that "popular" religion is frequently the religion of the majority, and that popular and classical threads tend to intertwine in religions as lived by actual adherents. People often express and experience their religiosity in ways related to but not strictly determined by their traditions' sacred officials, texts, and scholars. In the modern era, mass media have provided additional means of religious expression, communication, and community, raising new questions about popular religion. In this course we will explore examples from ancient and modern times, seeking to redefine our understanding of popular religion by looking at some of the most interesting ways human beings pursue and share religious experience within popular cultural contexts.

Topics for study include: ancient Israelite traditions concerning the dead; early Jewish omen texts; televangelist movements; modern apocalyptic groups such as Heaven's Gate; and recent films, television programs, and role-playing games rich in the occult or the overtly religious.

Omitted 2004-05. Professor Niditch.

20. Close Reading: The Classics of Judaism and Christianity. This seminar offers an opportunity for students to engage in the close reading of one or two classic works in the history of Judaism or Christianity. The texts chosen will vary from year to year. In 2004-05 the course will focus on the parables of Jesus. The parables are often seen as the most distinctive feature of Jesus' teaching. We will explore what kind of a literary figure is a parable: is it an extended metaphor, or does it owe something to the *maschal* pronounced by prophets in the Hebrew Scriptures? Can one "get behind" the parable as articulated by each gospel writer to recover an "original" formulation? We will look not only at parables found in the canonical scripture, but also those found in other early Christian writings.

Second semester. Professor Doran.

21. Ancient Israel. This course explores the culture and history of the ancient Israelites through a close examination of the Hebrew Bible in its wider ancient Near Eastern context. A master-work of great complexity revealing many voices and many periods, the Hebrew Bible or Old Testament is a collection of traditional literature of various genres including prose and poetry, law, narrative, ritual texts, sayings, and other forms. We seek to understand the varying ways Israelites

understood and defined themselves in relation to their ancestors, their ancient Near Eastern neighbors, and their God.

Omitted 2004-05. Professor Niditch.

22. Christian Scriptures. An analysis of New Testament literature as shaped by the currents and parties of first-century Judaism. Emphasis will be placed on the major letters of Paul and the four Gospels.

Omitted 2004-05. Professor Doran.

23. Buddhism in Theory and Practice. (Also Asian 15.) This course is an introduction to the diverse ideals, practices, and traditions of Buddhism from its origins in South Asia to its geographical and historical diffusion throughout Asia and, more recently, into the west. We will explore the Three Jewels—the Buddha, the Dharma, and the Sangha—and how they each provide refuge for those suffering in samsara (the endless cycle of rebirth). We will engage in close readings of the literary and philosophical texts central to Buddhism, as well as recent historical and anthropological studies of Buddhist traditions.

First semester. Professor Heim.

26. Theravada Buddhism. (Also Asian 69.) This course introduces the history and civilization of Theravada Buddhism. The Theravada (the “Doctrine of the Elders”) is the dominant form of Buddhism in Sri Lanka, Cambodia, Laos, Thailand, and Myanmar (Burma); in recent decades it has also found a following in other regions in Asia and the west. We will trace the Theravada’s origins as one of the earliest sectarian movements in India to its success and prestige as a religious civilization bridging South and Southeast Asia. We will also consider this tradition’s encounter with modernity and its various adaptations and responses to challenges in the contemporary world. No previous background in Buddhism is required.

Second semester. Professor Heim.

27. Buddhist Ethics. (Also Asian 58.) A systematic exploration of the place of ethics and moral reasoning in Buddhist thought and practice. The scope of the course is wide, with examples drawn from the whole Buddhist world, but emphasis is on the particularity of different Buddhist visions of the ideal human life. Attention is given to the problems of the proper description of Buddhist ethics in a comparative perspective.

Second semester. Professor Heim.

29. Biographies in Buddhist Literature. Who is the Buddha? What is the nature of the Buddhist life? In the first half of this course we engage in close readings of different versions of the Buddha’s life story. We will read accounts of the Buddha’s previous lives, his birth and youth, his departure from home, his religious quest, the night of enlightenment, his teaching career, and his final release from the world. Of particular interest are the ways in which these accounts intersect with Buddhist history, art, doctrine, ritual, and religious experience. The second half of the course explores autobiographies and biographies of Buddhist lives in both premodern and contemporary traditions from the whole Buddhist world. We shall also consider along the way theoretical reflection about religious (auto)biography.

Omitted 2004-05. Professor Heim.

32. Religion in the Atlantic World, 1441-1600. (Also Black Studies 28.) American history is rooted in the early history of the Atlantic world, when African, European, and Native American peoples were brought together in a new way by the emerging Atlantic empires of Portugal and Spain. This course is an

examination of the complex interaction among religious traditions that was a central feature of this "new world." Special attention will be given to: (1) the earlier Mediterranean-world rivalry of Christianity and Islam and its influence in shaping Portuguese and Spanish attitudes and behavior toward the Africans and Indians they encountered in the Atlantic world; (2) the religious history of the kingdom of Kongo during the reign of Nzinga Mbemba/Afonso I (1506-1543), when there developed among the elite a Catholicism that has been variously interpreted as the wholesale adoption of Portuguese religion, a politically motivated veneer over unchanging traditional beliefs and practices, or a blending of an imported Christianity and prior Kongolese religion; and (3) the religious history of sixteenth-century Mexico, where similar interpretive issues have arisen concerning the fate of Mesoamerican religious traditions in the aftermath of the Spanish conquest; and (4) the "syncretistic" religious patterns evident among "maroon" communities (quasi-independent groupings of escaped and resistant African slaves and sometimes Indians) in several locations, including Mexico, Panama, and Brazil. Emphasis will be placed throughout on a close reading of contemporary sources (in translation) in their historical context, but links will also be drawn between the specific historical cases studied and more general issues in the interpretation of religious conflict and religious change.

Second semester. Professor Wills.

37. The Body in Ancient Judaism. The body is a template; the body encodes; the body is a statement of rebellion or convention, of individual attitude or of identity shared by a group. Dressed in one way or another or undressed, pierced or tattooed, shaggy or smooth, fed one way or another, sexually active or celibate, the body, viewed in parts or as a whole, may serve human beings as consummate and convenient expression of world-view. In this course we will explore ancient Israelite and early Jewish representations of the body juxtaposing ancient materials and modern theoretical and descriptive works. Specific topics include treatment of and attitudes towards the dead, hair customs, views of bodily purity, biblical euphemisms for sex, food prohibitions, circumcision, and God's body.

Omitted 2004-05. Professor Niditch.

38. Folklore and the Bible. This course is an introduction to the cross-discipline of folklore and an application of that field to the study of Israelite literature. We will explore the ways in which professional students of traditional literatures describe and classify folk material, approach questions of composition and transmission, and deal with complex issues of context, meaning, and message. We will then apply the cross-disciplinary and cross-cultural methodologies of folklore to readings in the Hebrew Scriptures. Selections will include narratives, proverbs, riddles, and ritual and legal texts. Topics of special interest include the relationships between oral and written literatures, the defining of "myth," feminism and folklore, and the ways in which the biblical writers, nineteenth-century collectors such as the Brothers Grimm, and modern popularizers such as Walt Disney recast pieces of lore, in the process helping to shape or misshape us and our culture.

Omitted 2004-05. Professor Niditch.

39. Women in Judaism. (Also Women's and Gender Studies 39.) A study of the portrayal of women in Jewish tradition. Readings will include biblical and apocryphal texts; Rabbinic legal (*halakic*) and non-legal (*aggadic*) material; selections from medieval commentaries; letters, diaries, and autobiographies

written by Jewish women of various periods and settings; and works of fiction and non-fiction concerning the woman in modern Judaism. Employing an inter-disciplinary and cross-cultural approach, we will examine not only the actual roles played by women in particular historical periods and cultural contexts, but also the roles they assume in traditional literary patterns and religious symbol systems.

Second semester. Professor Niditch.

40. Prophecy, Wisdom, and Apocalyptic. We will read from the work of the great exilic prophets, Jeremiah, Ezekiel, and Isaiah, examine the so-called "wisdom" traditions in the Old Testament and the Apocrypha exemplified by Ruth, Esther, Job, Ecclesiastes, Proverbs, Susanna, Tobit, and Judith, and, finally, explore the phenomenon of Jewish apocalyptic in works such as Daniel, the Dead Sea Scrolls, 4 Ezra, and 2 Baruch. Through these writings we will trace the development of Judaism from the sixth century B.C. to the first century of the Common Era.

Second semester. Professor Niditch.

41. Reading the Rabbis. We will explore Rabbinic world-views through the close reading of *halakic* (i.e., legal) and *aggadic* (i.e., non-legal) texts from the Midrashim (the Rabbis' explanations, reformulations, and elaborations of Scripture) the Mishnah, and the Talmud. Employing an interdisciplinary methodology which draws upon the tools of folklorists, anthropologists, students of comparative literature, and students of religion, we will examine diverse subjects of concern to the Rabbis ranging from human sexuality to the nature of creation, from ritual purity to the problem of unjust suffering. Topics covered will vary from year to year depending upon the texts chosen for reading.

First semester. Professor Niditch.

45. History of Christianity—The Early Years. This course deals with issues which arose in the first five centuries of the Christian Church. We will examine first how Christians defined themselves vis-à-vis the Greek intellectual environment, and also Christian separation from and growing intolerance towards Judaism. Secondly, we will investigate Christians' relationship to the Roman state both before and after their privileged position under Constantine and his successors. Thirdly, the factors at play in the debates over the divinity and humanity of Jesus will be examined. Finally, we will look at the rise and function of the holy man in late antique society as well as the relationship of this charismatic figure to the institutional leaders of the Christian Church. Note will be taken that if it is primarily an issue of the holy *man*, what happened to the realization of the claim that "in Christ there is neither male nor female"? What too of the claim that "in Christ there is neither free nor slave"?

Second semester. Professor Doran.

49. Modern Christian Thought I. This course is a survey of the Christian theological/intellectual tradition covering roughly the nineteenth century. Immanuel Kant's critical philosophy threw traditional theological claims into doubt by suggesting that knowledge of anything outside space and time is impossible. At the same time, the emerging discipline of the historical study of religion brought into prominence the variability and contingency of the Christian tradition. Particularly in Germany, Christian thought was to wrestle intensely for the next century or so with the problem of knowledge of God and the authority of tradition. What would theology look like shorn of robust claims about God and aware of its own historicity? Does the Christian tradition contain resources to resist philosophical and historical critiques? This course will be devoted to tracking

these debates. Some of the authors to be treated are Kant, Schleiermacher, Hegel, Kierkegaard, Newman, von Harnack, Troeltsch, and Barth.

First semester. Professor Dole.

50. Modern Christian Thought II. This course is a survey of the Christian theological/intellectual tradition covering roughly the twentieth century. Karl Marx characterized religion as "the opium of the people," a tool of the intellectual powers-that-be to distract the working classes from the goal of social justice. One prominent response by the Christian tradition was the internalization of this critique, leading to a renewal of attention to the intersection of theology and social and political ends. The course will track the development of debates on these subjects, discussing Christian realism, Social Gospel Christianity, Christian socialism, liberation theology and its descendents. Some of the authors to be treated are Marx, Reinhold Niebuhr, Barth, Rahner, Gustavo Gutierrez, Mary Daly, James Cone, and Stanley Hauerwas.

Second semester. Professor Dole.

53. Sufism. (Also Asian 56.) This seminar explores mystical experience and philosophy through an inquiry into the Islamic movement called Sufism. The course examines Sufism from several directions: it surveys individual mystics and Sufi martyrs; studies the social organization of Sufi communal life and religious practice; explores the symbolism of mystical poetry; analyzes the ideas of prominent Sufi philosophers; and traces the development of Sufism in Africa and India. The narrow goal of the course is to understand the spiritual dimensions of Islamic religious leadership and the variety of its manifestations in the intellectual life, social organizations, and regional diversification of the Islamic world. The wider goal is to gain an understanding of the nature of religious experience and the role of communal and individual dimensions of mysticism within this religious experience.

Limited to 15 students. Second semester. Professor Elias.

55. Islam in the Modern World. (Also Asian 57.) The purpose of the course is to achieve an understanding of events occurring in the Islamic world by studying how Muslims view themselves and the world in which they live. Beginning with a discussion of the impact of colonialism, we will examine Islamic ideas and trends in the late colonial and post-colonial periods. Readings will include religious, political and literary writings by important Muslim figures. Movements, events and central issues (e.g., the changing status of women and the aftermath of the breakdown of the Soviet Union) will be examined in the context of modern nation states. Special attention will be paid to contesting forms of Islam in the late twentieth century and to developments in Islam in the United States, both among converts and immigrants. One of the main objectives is to show that what appear to be similar movements in the Islamic world are, in fact, widely disparate in their origins and goals.

Omitted 2004-05. Professor Elias.

56. Women and Islamic Constructions of Gender. (Also Women's and Gender Studies 56.) This course focuses on the lives of contemporary Muslim women, the factors informing constructions of gender in the Islamic world, and the role played by attitudes toward sex and gender in determining women's status in modern Islamic religion and society. We will begin by briefly examining the status and images of women as well as notions of gender in classical Islamic thought, including themes relating to scripture, tradition, law, theology, philosophy and literature. The second section of the course will focus on contemporary Muslim women in a number of different cultural contexts and highlight

a variety of significant issues: veiling and seclusion, kinship structures, violence, health, feminist activism, literary expression, etc. We will also discuss notions of masculinity and attitudes toward homosexuality. Throughout the semester we will attempt to place Islamic feminist thought in dialogue with western feminism with the hope of arriving at a better understanding of issues related to gender, ethics and cultural relativism.

Second semester. Professor Elias.

57. Islamic Ethics. (Also Asian 39.) This course examines classical and modern sources in Islamic ethics to understand the place of moral and ethical thought in Islam. By looking at Islamic scripture, legal and theological writings, as well as literary sources, we will explore a wide scope of topics such as biomedical, reproductive and sexual ethics, as well as attitudes toward war and violence. The overall purpose of the course is to understand diverse Muslim understandings of what it means to live an ideal life, both individually and collectively.

First semester. Professor Elias.

59. Religion and Race in the Early Republic. Against the background of a general survey of religion in the United States from the framing of the Constitution to the Jacksonian era, this course will focus on the intersection between religion and the complex realities of race and slavery during this period. Topics to be addressed will include: the meaning and consequences of the constitutional "separation of church and state"; the nature and extent of what has sometimes been termed "the democratization of American religion" during these decades; the rise of the American Protestant missionary movement, both foreign and domestic; American responses to the Islamic world; the impact of the Haitian Revolution on American religion and racial politics; and the development of Roman Catholicism in the early United States. Special attention will be given to the religious life of African Americans.

Omitted 2004-05. Professor Wills.

61. Religion in Black America: The Twentieth Century. (Also Black Studies 51.) This course will examine continuity and change in the role of religion in African-American life in the twentieth century. Does religion generally hold the same place now in black America that it did a hundred years ago? Or has its role changed in some fundamental way? What explains this continuity or change? Special attention will be given to historical and social scientific interpretations claiming that the period between the two world wars saw "urbanization" and "modernization" begin a deep transformation of religion's place in African-American life.

First semester. Professor Wills.

63. Suspicion and Religion. This course considers the tradition of the "hermeneutics of suspicion" of religion from its origins in the late nineteenth century to the present. We will discuss classical texts from the tradition of suspicion about religion and contemporary descendents. The course attempts to develop an understanding of the structure of appeals to suspicion, facilitating the evaluation of their strengths and weaknesses. A question to be asked throughout the course is: What is it about religion that accounts for the fact that it has so often been a target of suspicion? We will also examine the "suspicion of suspicion," the deployment of suspicion by advocates of religion against secularism. Some authors to be treated are Hegel, Feuerbach, Marx, Freud, Nietzsche, Foucault, and Merold Westphal.

First semester. Professor Dole.

64. The Mirror of Religion: Theories and Methods in Religious Studies. What does religious studies study? How do its investigations proceed? Is religion something we can only study when we no longer “have” it? Or, on the contrary, can a religious worldview only truly be understood from within, by those who share its beliefs and values? Is there a generic “something” that we can properly call “religion” at all? Or are some recent scholars right in charging that the concept of religion shaped by the European Enlightenment is inapplicable to other cultural context? This course will explore several of the most influential efforts to develop theories of religion and methods for its study. We will consider psychological, sociological, anthropological, and phenomenological theories of religion, along with recent challenges from thinkers associated with feminist and postcolonial perspectives.

Second semester. Professors Dole and Wills.

67. Sacrifice and the Gift. This course is a thematic exploration of giving and sacrifice as central categories of human experience. The course is explicitly comparative, drawing on examples from both premodern and modern contexts, and in multiple religious traditions. The course is also multi-disciplinary, making use of religious, philosophical, ethical, literary, and anthropological reflections on the meanings of the gift. We shall discuss how the gift is related to religious sacrifice, hospitality, charity, alms-giving, and reciprocity. We will also consider the nature of giving and sacrifice in the contemporary world, as in, for example, the logics of philanthropy in the context of global capitalism, and the meanings of sacrifice in the context of nationalism and war.

First semester. Professor Heim.

68. Apocalyptic Renewal in the Western Tradition. Apocalyptic leaders have called for the end of the present world order and the inauguration of a new one, sometimes to be brought about by peaceful means, sometimes by violence. This course will explore apocalyptic thought in writings of Second Temple Judaism and in formative writings of early Christianity, its reappearance in Late Antiquity and its flourishing in the medieval period before turning to its influence on such movements as the Millerite movement and Waco.

Omitted 2004-05. Professor Doran.

69. The Power of Icons. Images and icons occupy a central place in human life. They are worshiped, venerated, denounced and destroyed, but seldom are they ignored. This course will explore the role played by icons and religious images in a variety of religious contexts. It will cover the nature of icons and the controversy surrounding them in Greek Orthodox and Roman Catholic Christianity. Aniconism and iconophobia will be analyzed in the Islamic context. The Christian and Muslim ambivalence toward icons and images will be contrasted with their centrality in Hinduism. The course will also explore the limits of what constitute religious icons by examining truck decoration in Pakistan and the cult of Elvis in the United States.

Limited to 20 students. First semester. Professor Elias.

73. Seminar on Christianity as a Global Religion. Christianity is often thought of as a “Western” or European religion. This overlooks, however, much of the early history of Eastern Christianity and, more importantly, the present reality that Christianity is increasingly the religion of “non-Western” peoples, both in their ancestral homelands and abroad. Through common readings and independent research, this seminar will explore aspects of the early history of eastern Christianity, the role of European missions of the early modern and modern periods in the further globalization of Christianity, and recent and contemporary

developments in Christian thought and practice in Africa, Asia, the Caribbean, Latin America, and among populations from these places now resident in the United States.

Not open to first-year students. First semester. Professor Wills.

77. Senior Departmental Honors. Required of candidates for Honors in Religion. Preparation and oral defense of a scholarly essay on a topic approved by the Department. Detailed outline of thesis and adequate bibliography for project required before Thanksgiving; preliminary version of substantial portion of thesis by end of semester.

Open to seniors with consent of the instructors. First semester. The Department.

78D. Senior Departmental Honors. Required of candidates for Honors in Religion. A continuation of Religion 77. A double course.

Open to seniors with consent of the instructors. Second semester. The Department.

97, 98. Special Topics. Independent Reading Course. Reading in an area selected by the student and approved in advance by a member of the Department.

First and second semesters. The Department.

RUSSIAN

Professors Ciepiela*, Peterson (Chair), Rabinowitz, and J. Taubman; Assistant Professor Dianina; Senior Lecturer Emerita Schweitzer; Lecturer Babyonyshev; Visiting Lecturer Brandenberger.

Major Program. The major program in Russian is an individualized interdisciplinary course of study. It includes general requirements for all majors and a concentration of courses in one discipline: literature, film, cultural studies, history, or politics. Eight courses are required for the major, including Russian 11 and one course beyond Russian 11 taught in Russian. Courses numbered 04 and above will count for the major. Normally, two courses taken during a semester abroad in Russia may be counted; H-14 and H-15 together will count as one course. Additionally, all majors must elect either Russian 21 or History 05 or an approved equivalent. Other courses will be chosen in consultation with

*On leave 2004-05.

the advisor from courses in Russian literature, culture, history and politics. Students are strongly encouraged to enroll in non-departmental courses in their chosen discipline.

Comprehensives. Students majoring in Russian must formally define a concentration within the major no later than the pre-registration period in the spring of the junior year. By the end of the add/drop period in the fall of the senior year, they will provide a 4- or 5-page draft essay which describes the primary focus of their studies as a Russian major. Throughout this process of defining a topic of concentration, majors will have the help of their advisors. A final draft of the essay, due at the end of the add/drop period of second semester of the senior year, will be evaluated by a committee of departmental readers in a conference with the student. This, in addition to a one-hour translation exam taken in the fall of the senior year, will satisfy the comprehensive examination in Russian.

Departmental Honors Program. In addition to the above requirements for the major program, the Honors candidate will take Russian 77-78 during the senior year and prepare a thesis on a topic approved by the Department. Students who anticipate writing an Honors essay in Russian history or politics should request permission to work under the direction of Professor Peter Czap (History) or Professor William Taubman (Political Science). All Honors candidates should insure that their College program provides a sufficiently strong background in their chosen discipline.

Study Abroad. Majors are encouraged to spend a semester or a summer studying in Russia. Information about approved programs is available from Department faculty.

01. First-Year Russian I. Introduction to the contemporary Russian language. By presenting the fundamentals of Russian grammar and syntax, the course helps the student make balanced progress towards competence in listening comprehension, speaking, reading, writing, and cultural competence. Four meetings per week, plus an additional conversation hour conducted by a native speaker.

First semester. Professor J. Taubman and Lecturer Babyonyshev.

02. First-Year Russian II. Continuation of Russian 01.

Requisite: Russian 01 or equivalent. Second semester. Professor Peterson and Lecturer Babyonyshev.

03. Second-Year Russian I. This course stresses vocabulary building and continued development of speaking and listening skills. Active command of Russian grammar is steadily increased. Readings from authentic materials in fiction, non-fiction and poetry. Brief composition assignments. Four meetings per week, including a conversation hour.

Requisite: Russian 02 or the equivalent. This will ordinarily be the appropriate course placement for students with 2-3 years of high school Russian. First semester. Professor Rabinowitz and Lecturer Babyonyshev.

04. Second-Year Russian II. Continuation of Russian 03.

Requisite: Russian 03 or equivalent. Second semester. Professor Dianina and Lecturer Babyonyshev.

11. Third-Year Russian: Studies in Russian Language and Culture I. This course advances skills in reading, speaking, understanding, and writing Russian, with materials from twentieth-century culture. Readings include fiction by Chekhov, Bulgakov, and Kharmis, and poetry by Akhmatova, Blok, Tsvetaeva, and

Pasternak. Conducted in Russian, with frequent writing assignments and occasional grammar and translation exercises.

Requisite: Russian 04 or equivalent. First-year students with strong high school preparation (usually 4 or more years) may be ready for this course. First semester. Professor Dianina and Senior Lecturer Emerita Schweitzer.

12. Third-Year Russian: Studies in Russian Language and Culture II. We will be reading, in the original Russian, works of fiction, poetry and criticism by nineteenth-century authors such as Pushkin, Tolstoy, Gogol, Dostoevsky, Turgenev and Chekhov. Conducted in Russian, with frequent writing and translation assignments.

Requisite: Russian 11 or equivalent. Second semester. Professor Rabinowitz and Senior Lecturer Emerita Schweitzer.

14H. Advanced Intermediate Conversation and Composition. A course designed for intermediate level students who wish to develop their fluency, pronunciation, oral comprehension, and writing skills. We will study and discuss Russian films of various genres. Two hours per week.

Requisite: Russian 11 or consent of the instructor. Second semester. Lecturer Babyonyshev.

15H. Advanced Conversation and Composition. A course designed for advanced students of Russian who wish to develop their fluency, pronunciation, oral comprehension, and writing skills. Major attention will be given to reading, discussion and interpretation of current Russian journalistic literature. This course will cover several basic subjects, including the situation of the Russian media, domestic and international politics, culture, and everyday life in Russia. Two hours per week.

Requisite: Russian 12 or consent of the instructor. First semester. Lecturer Babyonyshev.

COURSES OFFERED IN ENGLISH

16. Twentieth-Century Russian Poetry in Translation. An introduction to the world of Russia's poets, who have imagined themselves as prophet and mad pariah, lips moving in the grave, and gatherer of trash. Threatened by silence, exile, and mockery, they speak as conscience and memory; their predicament raises essential questions about the tasks and powers of poetry. We will read poems by Mayakovsky, Akhmatova, Mandelstam, Pasternak, and Tsvetaeva, and by three contemporary poets, Brodsky, Sedakova, and Shvarts. Along the way we will study the image of the Russian poet in Western poetry, and read autobiographical and critical writings, some by the poets themselves. All readings in English translation, with special assignments for those able to read Russian.

Omitted 2004-05. Professor Ciepiela.

17. Strange Russian Writers: Gogol, Dostoevsky, Bulgakov, Nabokov, et al. A course that examines the stories and novels of rebels, deviants, dissidents, loners, and losers in some of the weirdest fictions in Russian literature. The writers, most of whom imagine themselves to be every bit as bizarre as their heroes, include from the nineteenth century: Gogol ("Viy," "Diary of a Madman," "Ivan Shponka and His Aunt," "The Nose," "The Overcoat"); Dostoevsky ("The Double," "A Gentle Creature," "Bobok," "The Dream of a Ridiculous Man"); Tolstoy ("The Kreutzer Sonata," "Father Sergius"), and from the twentieth century: Olesha (*Envy*); Platonov (*The Foundation Pit*); Bulgakov (*The Master and Margarita*); Nabokov (*The Eye, Despair*); Erofeev (*Moscow Circles*); Pelevin ("The Yellow

Arrow"). Our goal will be less to construct a canon of strangeness than to consider closely how estranged women, men, animals, and objects become the center of narrative attention and, in doing so, reflect the writer Tatyana Tolstaya's claim that "Russia is broader and more diverse, stranger and more contradictory than any idea of it. It resists all theories about what makes it tick, confounds all the paths to its possible transformation." All readings in English translation.

Not open to first-year students. Limited to 40 students. First semester. Professor Rabinowitz.

21. Russian Literature and Society: The Rise of a National Tradition. Literature was the main vehicle for the transmission of national culture and identity in nineteenth-century Russia. In a society limited by repressive censorship and authoritarian rule, the Russian author assumed the role of a "second government." Why and how did Russian writers ascend to this special status? What is uniquely Russian about Russian literature? What gives it power to shape and influence identities? This course studies the emergence of a national literary tradition in Russia as it was fashioned by writers and their reading publics in the first half of the nineteenth century. Among authors to be read are Karamzin, Pushkin, Gogol, Lermontov, Pavlova, Turgenev, Goncharov, and early Dostoevsky and Tolstoy. Literary texts will be placed in their wider social and cultural contexts, Russian as well as European. Topics for discussion include the Russian public sphere, the role of the artist in society, the Russia vs. the West controversy, the myth of St. Petersburg, the superfluous man, the "woman question." All readings in translation, with special assignments for those able to read in Russian.

First semester. Professor Dianina.

22. Survey of Russian Literature II. An examination of major Russian writers and literary trends from about 1860 to the Bolshevik Revolution as well as a sampling of Russian émigré literature through a reading of representative novels, stories, and plays in translation. Readings include important works by Dostoevsky, Tolstoy, Chekhov, Gorky, Sologub, Bely, Bunin and Nabokov. The evaluation of recurring themes such as the breakdown of the family, the "woman question," madness, attitudes toward the city, childhood and perception of youth.

Second semester. Professor Rabinowitz.

23. Russian Literature in the Twentieth Century. Political and artistic revolutions in twentieth-century Russia had repercussions far beyond its borders; we still feel the aftershocks to this day. How do artists respond to, interpret, and shape historical events? In this course we will consider a variety of written and visual texts dealing with the Bolshevik revolution, the Stalinist terror, World War II, the Thaw, the advent of glasnost' and perestroika, and the post-Soviet era. We will see how provocateurs and innovators such as Mayakovsky, Akhmatova, Babel, Zoshchenko, Bulgakov, Solzhenitsyn, Brodsky, Pelevin, and Tolstaya ushered in new ways of seeing and explored the relationship between art and ideology, exile and creativity, memory and survival, individual psychology and historical cataclysm. All readings will be in translation, with special assignments for those who read Russian. Two meetings per week.

Omitted 2004-05.

24. Culture of the Stalin Era. This interdisciplinary course investigates one of the most debated and daunting issues in Soviet history through contemporary literature and culture. The study of artistic production, from "elite" forms to low-brow mass culture, challenges canonical views of Stalinism and provides for a rich appreciation of the period. Topics include revolutionary idealism and the

meaning of revolution, everyday life, the politics of official culture, the nature of "popular" culture, the end of the avant-garde, Socialist Realism, the impact of propaganda, the purges, the wartime apocalypse, the origins of the Cold War, the legacy of Stalinism since 1953 and the politics of historical biography. Each unit juxtaposes conventional historical sources with competing interpretations and interdisciplinary material drawn from literature, film and the arts.

First semester. Visiting Lecturer Brandenberger.

25. Seminar on One Writer: Vladimir Nabokov. (Also English 75, section 03.) An attentive reading of works spanning Nabokov's entire career, both as a Russian and English (or "Amero-Russian") author, including autobiographical and critical writings, as well as his fiction and poetry. Special attention will be given to Nabokov's lifelong meditation on the elusiveness of experienced time and on writing's role as a supplement to loss and absence. Students will be encouraged to compare Nabokov's many dramatizations of "invented worlds" and to consider them along with other Russian and Western texts, fictional and philosophical, that explore the mind's defenses against exile and separation. All readings in English translation, with special assignments for those able to read Russian. Two meetings per week.

Not open to first-year students. First semester. Professor Peterson.

27. Dostoevsky. Well over a century after his death, Dostoevsky remains one of the most powerfully appealing and paradoxical novelists. Perceived as the most "Russian" of Russian writers, he finds many enthusiastic readers in the West. A professional author, journalist, and social critic urgently engaged in the debates of his time, his work remains vital today. How can we understand Dostoevsky's appeal to so many audiences? What did he mean to his contemporaries? What does he mean to you? These broad questions will guide our close reading of Dostoevsky's fiction alongside the critical contexts in which it was produced and received. Major texts to be read include *Poor Folk*, *Notes from Underground*, *Crime and Punishment*, *The Idiot*, *The Brothers Karamazov*, *Demons*. Among contexts to be considered are: social criticism, aesthetics, urbanization, populism, nationalism, Russian orthodoxy, and Dostoevsky's reception and influence in the West. All readings and discussion in English. Conducted as a seminar.

Second semester. Professor Dianina.

28. Tolstoy. Lev Tolstoy's life and writings encompass self-contradictions equaled in scale only by the immensity of his talent: the aristocrat who renounced his wealth, the former army officer who preached nonresistance to evil, the father of thirteen children who advocated total chastity within marriage, and, of course, the writer of titanic stature who repudiated all he had previously written, including *War and Peace* and *Anna Karenina*. We will read these two masterworks in depth, along with other fictional and publicistic writings (*Childhood*, *The Death of Ivan Ilyich*, *Kreutzer Sonata*, *What Is Art?*), as we explore both the nature of his artistic achievement and his evolving views on history, the family, war, death, religion, art, and education. Conducted in English, all readings in translation, with special assignments for students who read Russian. Two class meetings per week.

Omitted 2004-05. Professor J. Taubman.

29. Russian and Soviet Film. Lenin declared "Cinema is the most important art" and the young Bolshevik regime threw its support behind a brilliant group of film pioneers (Eisenstein, Vertov, Kuleshov, Pudovkin, Dovzhenko) who worked out the fundamentals of film language. Under Stalin, historical epics and musical comedies, not unlike those produced in Hollywood, became

the favored genres. The innovative Soviet directors of the sixties and seventies (Tarkovsky, Parajanov, Abuladze, Muratova) moved away from politics and even narrative toward "film poetry." Post-Soviet Russian cinema has struggled to define a new identity, and may finally be succeeding. This course will introduce the student to the great Russian and Soviet film tradition. Frequent short writing assignments. Conducted in English. Two class meetings and one or two required screenings a week.

Second semester. Professor J. Taubman.

30. Chekhov and His Theater. (Also Theater and Dance 21.) See Theater and Dance 21.

Omitted 2004-05. Professor Ciepiela and Playwright-in-Residence Congdon.

ADVANCED LITERARY SEMINARS

43. Advanced Studies in Russian Literature and Culture I. The topic changes every year. This year's theme will be Nikolai Gogol. A seminar on Gogol's *Dead Souls*. A close reading and analysis of Gogol's masterpiece with special attention to the language and structure of the novel. We will also explore the legacy of Gogol's works in the Russian literary and critical tradition. Taught entirely in Russian.

First semester. Senior Lecturer Emerita Schweitzer.

44. Advanced Studies in Russian Literature and Culture II. The topic changes every year. This year's topic to be announced. Two class meetings per week. Taught entirely in Russian.

Second semester. Lecturer Babyonyshev.

77, 78. Senior Departmental Honors. Meetings to be arranged. Open to, and required of, seniors writing a thesis.

First and second semesters. The Department.

97, 98. Special Topics. Independent Reading Course.

First and second semesters. The Department.

Seminar in Russian History. See History 80.

Second semester. Professor Czup.

Russian Politics Past and Present. See Political Science 27.

Omitted 2004-05. Professor W. Taubman.

Problems of International Politics. See Political Science 57.

Omitted 2004-05. Professor W. Taubman.

SPANISH

Professors Benítez-Rojo, Maraniss, and Stavans; Senior Lecturers Otaño-Benítez and Alegre; Lecturer Carracelas-Juncal; Visiting Professor Marquez; Visiting Lecturer Alvarez-Borland. Professor Rosbottom will act as Chair.

The objective of the major is to learn about Hispanic cultures directly through the Spanish language and principally by way of their literature and other artistic expressions.

We study literature and a variety of cultural manifestations from a modern critical perspective, without isolating them from their context. To give students a better idea of the development of the Hispanic world throughout the centuries, we expect majors to select courses on the literature and cultures of Spain, Latin America, and Latinos in the U.S. Fluent and correct use of the language is essential to the successful completion of the major. Most courses are taught in Spanish. The Department urges majors to spend a semester or a year studying in a Spanish-speaking country.

Major Program. The Department of Spanish expects its majors to have a broad and diverse experience in the literatures and cultures of Spanish-speaking peoples. To this end, continuous training in the use of the language and travel abroad will be emphasized.

The following requirements for a major in Spanish (both *rite* and with Departmental Honors) will apply. The major will consist of a minimum of nine courses in the literatures and cultures of Spanish-speaking peoples. Majors will be expected to take one course in each of the three cultural areas encompassing the Hispanic world: Spain, Latin America, and Latinos in the USA. All courses offered by the Department above Spanish 03 will count for the major. Five of those courses must be taken from the Spanish offerings at Amherst College. Courses enrolled abroad or outside the Department will require departmental approval.

Departmental Honors Program. In addition to the major program described above, a candidate for Departmental Honors must present a thesis and sustain an oral examination upon the thesis. Candidates will normally elect 78D in the second semester of their senior year.

Combined Majors. Both *rite* and Departmental Honors majors may be taken in combination with other fields, e.g., Spanish and French, Spanish and Religion, Spanish and Fine Arts. Plans for such combined majors must be approved in advance by representatives of the departments concerned.

Interdisciplinary Majors. Interdisciplinary majors are established through the Committee on Academic Standing and Special Majors, with the endorsement and cooperation of the Department or with the approval of individual members of the Department.

Study Abroad. Students majoring in Spanish are encouraged and expected to spend a summer, a semester, or a year studying in Spain or Latin America. Plans for study abroad must be approved in advance by the Department. Guidelines are available.

Placement in Spanish language courses. See individual course descriptions for placement indicators.

Placement in courses on Hispanic culture. Unless otherwise specified, admission to courses in literature is granted upon satisfactory completion of Spanish 05 or a course of equivalent level at another institution (a score of 4 in the Advanced Placement Examination).

01. Elementary Spanish. Grammar, pronunciation, oral practice, and reading. Major emphasis on speaking and on aural comprehension. Three hours a week in class, plus two hours with a teaching assistant and regular work in the language laboratory.

For students without previous training in Spanish. This course prepares for Spanish 03. Limited to 15 students. First and second semesters. Lecturer Carracelas-Juncal and Assistants.

03. Intermediate Spanish. A continuation of Spanish 1. Intensive review of grammar and oral practice. Reading and analysis of literary texts. Three hours a week in class plus one hour with a teaching assistant and regular work in the language laboratory. Prepares for Spanish 05.

For students with less than three years of secondary school Spanish who score 3 or 4 on the Advanced Placement Examination. Limited to 15 students. First and second semesters. Senior Lecturer Alégre and Assistants.

05. Language and Literature. An introduction to the critical reading of Hispanic literary texts; an intensive review of Spanish grammar; training in composition, conversation and listening comprehension. Conducted in Spanish. Three hours a week in class and one hour with a teaching assistant. Regular work in the language laboratory. Prepares for more advanced language and literature courses. This course counts for the major.

Limited to 15 students. First semester: Senior Lecturer Otaño-Benítez and Lecturer Carracelas-Juncal, and Assistants. Second semester: Lecturer Carracelas-Juncal and Assistants.

06. Spanish Conversation. This course will develop the student's fluency, pronunciation and oral comprehension in Spanish. We will base our discussion on current issues and on the experience of the Spanish-speaking people of Spain, Latin America, and the United States. We will deal with media information through various sources (newspapers, television, radio, video). The course will meet for three hours per week with the instructor and one hour with a teaching assistant and work at the language laboratory. This course counts for the major.

For students who have completed Spanish 05 or the equivalent in secondary school Spanish (advanced standing or a score of 5 on the Advanced Placement Examination). Limited to 15 students. First and second semesters. Senior Lecturer Otaño-Benítez and Assistants.

07. Advanced Spanish Composition. Rapid review of Spanish grammar, practice in set translation and free composition in various genres. Three hours of classroom work per week. Conducted in Spanish. This course counts for the major.

Recommended for Spanish majors and honor students. For students who have completed Spanish 05 or have a score of 5 on the Advanced Placement Examination. Highly recommended for native speakers looking to improve their grammar and writing skills. Limited to 15 students. First and second semesters. Senior Lecturer Alégre.

16. Introduction to Spanish Literature. A study of Spanish consciousness from the beginning through the Golden Age. Emphasis on the chivalric and picaresque traditions, mystical poetry, sacred and secular drama, and the invention of the novel. Conducted in Spanish.

For students who have completed Spanish 05, or the equivalent in secondary school Spanish (advanced standing or a score of 5 on the Advanced Placement Examination). Omitted 2004-05. Professor Maraniss.

17. Introduction to Spanish-American Literature. An examination of the major literary contributions of Latin America from the indigenous *Popol Vuh* to the "post-boom" period of the 1980s and beyond. Students will be asked to place these works in a context of world literature as well as in the historical and

social milieux from which they spring. An emphasis will be placed on the short story. Conducted in Spanish.

For students who have completed Spanish 05 or the equivalent (advanced standing or a score of 5 on the Advanced Placement Examination). First semester. Professor Benítez-Rojo.

22. Discovery, Conquest, and New World Writings. An exploration of early colonial times as seen through the works of contemporary Latin American writers, film-makers, and historians of the conquest. Readings will include Alejo Carpentier's *El arpa y la sombra*, Abel Posse's *El largo atardecer del caminante*, Antonio Benítez-Rojo's *El mar de las lentejas*, Christopher Columbus's *Diario*, Bartolomé de las Casas's *Brevísima relación de la destrucción de las Indias*, Alvar Núñez Cabeza de Vaca's *Los naufragios*, Tzvetan Todorov's *The Conquest of America*. The course is conducted in Spanish and assumes a basic knowledge of the language.

Requisite: Spanish 5 or equivalent. Second semester. Professor Benítez-Rojo.

24. Modern Spanish Literature. Readings from major writers of the Spanish generations of 1898 and 1927: Baroja, Machado, Valle-Inclán, Miró, García Lorca, Salinas, Alberti, Guillén, Cernuda. Conducted in Spanish.

Omitted 2004-05. Professor Maraniss.

29. Jorge Luis Borges. A comprehensive study of the style, originality and influence of the contemporary Argentine author (1899-1986). His essays, poetry, and fiction will be discussed in the context of Latin American and international literature. Conducted in Spanish.

Open to juniors and seniors or with consent of the instructor. Limited to 20 students. Omitted 2004-05. Professor Maraniss.

31. History of the Spanish Language. An interdisciplinary, trans-historical assessment of the rise and dissemination of the Spanish language throughout a millennium through novels, plays, poems, essays, philological items, and popular culture. Students will follow the development of *castellano* from a regional dialect in the Iberian Peninsula to the imperial tool of colonization of the Americas and the Caribbean. Emphasis will be placed on the varieties of the Spanish language from Argentina to Peru, from Spain to Mexico, from Puerto Rico to the United States. Works by Berceo, Nebrija, Covarrubias, Cervantes, "El Inca" Garcilaso, the *Diccionario de Autoridades*, Sor Juana Inés de La Cruz, Borges, Gabriel García Márquez, among others, will be contemplated. This course is conducted in Spanish and assumes a basic knowledge of the language.

Requisite: Spanish 5 or equivalent. First semester. Professor Stavans.

32. Latino Fiction. A close reading of Latino fiction from the late 19th century to the present day. Novels and stories by Julia Alvarez, Junot Díaz, Sandra Cisneros, Cristina García, Edward Rivera, Tomás Rivera, among others, will be studied in their hemispheric context. This course is conducted in English.

Requisite: Spanish 5 or equivalent. Second semester. Professor Stavans.

33. Cuban Literature and Culture. An interdisciplinary course, bringing together Cuba's social history (plantation society, the Spanish-American War, the Cuban Revolution), folklore (Afro-Cuban culture), music (havanera, danza, danzón, rumba, conga, bolero, mambo, cha-cha), art (Wilfredo Lam and others), film-making (Tomás Gutiérrez Alea and Enrique Pineda Barnet), and literature from the nineteenth century to the present (Gertrudis Gómez de Avellaneda, Cirilo Villaverde, Fernando Ortiz, Nicolás Guillén, Lydia Cabrera, José Lezama Lima,

Alejo Carpentier, Severo Sarduy, Nancy Morejón, Guillermo Cabrera Infante, Zoe Valdés, and others). Extensive use of audio-visual material.

For students who have completed Spanish 05 or the equivalent (advanced standing or a score of 5 in the Advanced Placement Examination. First semester. Professor Benítez-Rojo.

34. Sephardic Literature. (Also European Studies 32.) Since 1492, a rich transnational literature has been produced by Sephardic Jews in Ladino and other languages, in countries like Argentina, Brazil, Bulgaria, Colombia, Egypt, England, France, Greece, Iraq, Israel, Mexico, Peru, and the United States. The course will analyze its roots in medieval Spain and do a close analysis of the oeuvre of canonical authors such as Georgio Bassani, Elias Canetti, Albert Cohen, Edmond Jabès, Primo Levi, Albert Memmi, and A.B. Yehoshua. Topics like religion, secularism, assimilation, and anti-Semitism will be discussed. Conducted in English.

Second semester. Professor Stavans.

35. Hispanic U.S.A. A study of Latino writing in North America from 1542 to the present, taking into account the socio-historical context (Spanish, Chicano, Puerto Rican, Cuban, Dominican, etc.) as well as problems of style and technique. Of particular interest will be the introduction of little-known, newly translated texts from the seventeenth through nineteenth centuries. Authors to be discussed include Alvar Núñez Cabeza de Vaca, María Amparo Ruíz de Burton, Eusebio Chacón, Julia Alvarez, Cristina García, Richard Rodríguez, Oscar Hijuelos and some anonymous works. Conducted in English.

Limited to 25 students. Omitted 2004-05.

36. Popular Culture of Hispanic America. An engaging examination of highbrow and mass culture in Mexico, Argentina, Cuba, Chile, and other countries of the Caribbean and south of the Rio Grande, from the 1930s to the present. Soap-operas, performance art, folklore, *artesanías* and native music will be discussed, as well as science fiction, detective and romance novels. Use of audio-visual materials. Conducted in Spanish.

Omitted 2004-05. Professor Stavans.

37. U.S. Latino Autobiography. Since the 1960s, U.S. Latino writers have used autobiography in order to carve out a new identity that would allow them not only to reclaim their heritage but also to define their relationship to American culture. In this course we will study autobiographical writings by Mexican-Americans, Puerto Ricans, Dominicans, and Cuban-Americans in order to explore how Latino writers find and invent themselves through the writing of autobiography. In addition to non-fictional autobiographies, this course will include fictional writings where the identity of the protagonist is a major theme. Particular attention will be given to how Latino writers experiment with this genre in order to address changing constructions of immigration, language, exile, and identity. We will study a wide range of authors and works, including Richard Rodríguez' *Hunger for Memory*, Carlos Eire's *Waiting for Snow in Havana*, Julia Alvarez' *Something to Declare* and Gustavo Pérez Firmat's *Cincuenta lecciones de exilio y desexilio*. Course will be conducted in English.

Requisite: Reading knowledge of Spanish. Limited to 15 students. First semester. Visiting Lecturer Alvarez-Borland.

39. Foundational Fictions. In the process of nation-building in the nineteenth and twentieth centuries, many Latin-American political, military and intellectual leaders wrote and/or called for novels that would promote unity through

political and economic programs. A discussion of works by major writers, such as: Domingo Faustino Sarmiento's *Facundo* (Argentina), Jorge Isaacs' *María*, (Colombia), Alberto Blest Gana's *Martín Rivas* (Chile), Ignacio Manuel Altamirano's *El Zarco* (Mexico), Clorinda Matto de Turner's *Aves sin nido* (Peru), Manuel Zeno Gandía's *La charca* (Puerto Rico), José Eustasio Rivera's *La vorágine* (Colombia), and Rómulo Gallegos' *Doña Bárbara* (Venezuela). Conducted in Spanish.

For students who have completed Spanish 05 or the equivalent (advanced standing or a score of 5 on the Advanced Placement Examination). Second semester. Professor Benítez-Rojo.

40. Of Puerto Rican Literature and Society: Boriquen to Diasporican. An examination of the rise of national society in Puerto Rico and the literary—particularly poetic—forms in which it finds articulated expression. From the aboriginal Areyto and Juan Castellanos' Spanish colonial elegies to the contemporary nuyorican and other diasporican writers' doubly maverick Spanglish or newly inflected English, emphasis is on the evolving historical context and distinctive forms, artistic strategies, voice, moods, settings and characteristic thematic concerns of its cultural development: the historically contested and varying content of "Puerto Rican," the contours, reach, and shifting scope of notions of nationality and the national. Conducted in Spanish.

Requisite: Spanish 7 or equivalent. Limited to 20 students. Second semester. Visiting Professor Marquez.

41. The Boom: Spanish-American Literature of the Sixties and Seventies. Recent prose works by leading Spanish-American authors will be considered both as they contribute to the tradition of Western narrative and as attempts to articulate what is perceived as a rapidly, sometimes violently, changing society. The experiments in narrative technique will thus be related to the process of making sense of the modern world. Works by Gabriel García Márquez, Carlos Fuentes, Jorge Luis Borges, Julio Cortázar, Juan Rulfo and Guillermo Cabrera Infante will be read in the original language whenever possible. Conducted in Spanish.

For students who have completed Spanish 07 or equivalent. Limited to 12 students. Omitted 2004-05. Professor Benítez-Rojo.

43. Pablo Neruda. An exploration of the life and oeuvre of the prolific Chilean poet (1904-1973) and recipient of the Nobel Prize for Literature. His work will be read chronologically, starting with *Twenty Love Poems and a Song Of Despair* and ending with his five posthumous collections. Special attention will be paid to *Residence On Earth* and *Canto General*. The counterpoint of politics and literature will define the classroom discussion. Neruda's role as witness of, and sometimes participant in, the Spanish Civil War, the Cuban Revolution, the workers' and students' upheaval in Latin America in the sixties, and the failed presidency of Salvador Allende in Chile will serve as background. Course will be conducted in English.

Omitted 2004-05. Professor Stavans.

44. The Spanish Civil War: Art, Politics, and Violence. Sixty years ago, the Spanish Second Republic was engaged in a civil conflict that had become a holy war to the European left and right. This course will examine the effects of the war and its passions upon the lives and works of several exemplary writers and artists in England (Orwell, Auden, Romilly, Cornford), France (Malraux, Bernanos, Simon), Spain (Machado, Hernández, Lorca, Picasso), the United States (Hemingway, Dos Passos), and South America (Neruda, Vallejo). Students

are encouraged to read texts in the original languages whenever possible. Course will be conducted in English.

First semester. Professor Maraniss.

45. Cervantes. *Don Quixote de la Mancha* and some of Cervantes' "exemplary novels" will be read, along with other Spanish works of the time, which were present at the novel's birth. The course will be taught in two sections, one for those who will read and discuss the book in Spanish (for students who have completed Spanish 5 or equivalent), and one in English.

First semester. Professor Maraniss.

46. Crossing Literary Genres: Spanish American Women's Writings. For over three centuries Spanish American women have been continuously writing. They have produced a massive amount of works, ranging from travelogues and memoirs to poetry and theater, from novels and short stories to essays and criticism. Furthermore, they have written in the tradition of many literary currents and movements. This course will discuss works by Gertrudis Gómez de Avellaneda (Cuba, nineteenth-century romantic novel), Flora Tristán (Peru, nineteenth-century travelogue), Teresa de la Parra (Venezuela, Modernista memoirs), Rosario Castellanos (Mexico, theater), Rigoberta Menchú (Guatemala, life story), Sylvia Iparraguirre (Argentina, historical novel), Isabel Allende (Chile, short stories), María Amparo Escandón (Neo-Picaresca novel), and others. Conducted in Spanish.

For students who have completed Spanish 05 or equivalent. Limited to 20 students. Second semester. Senior Lecturer Otaño-Benítez.

48. Spanish American Fiction by Women. This course will study contemporary Spanish American novels and short stories written by women. Special attention will be paid to the importance of female forms of resistance, struggle and bonding against social and economic marginalization. The course will also explore the role of women in a variety of political contexts, ranging from revolution to ideological repression. Texts by: Isabel Allende, Gioconda Belli, Rosario Ferré, Angeles Mastreta, Elena Poniatowska, Mayra Santos Febres, Ana Lydia Vega, Zoé Valdés, Luisa Valenzuela, and others. Conducted in Spanish.

Omitted 2004-05. Senior Lecturer Otaño-Benítez.

49. Seventeenth-Century European Theater. Readings of plays by Spanish, English and French playwrights of what has been, in the modern world, the great century of the stage. Works of Lope de Vega, Calderón de la Barca, Shakespeare, Molière, Racine, Webster and Wycherly. Conducted in English. Students will read plays in the original languages whenever possible.

Second semester. Professor Maraniss.

50. Creative Writing Workshop in Spanish. A writing workshop, with the particular focus announced each time the course is offered. The topic for spring 2003 was "Fiction."

A first-level fiction workshop. Students will learn through weekly exercises a variety of techniques—characterization, description, monologue, dialogue, conflict staging, point of view, plotting, and other technical problems. Students are expected to write a simple short story in Spanish for their final grade. Conducted in Spanish.

For students who have completed Spanish 07 or equivalent. Limited to 12 students. Omitted 2004-05. Professor Benítez-Rojo.

51. Jewish Hispanic Relations. (Also European Studies 28.) Spanning from the tenth century to present-day United States, this survey uses historical, literary, and

political texts to explore the precarious status of Jews in the Hispanic world. It starts in medieval Spain, places special attention in the 1492 expulsion of the Iberian Peninsula as a major catharsis, and follows the chains of immigration to the Spanish-speaking Americas and the Caribbean, especially to Argentina, Cuba, and Mexico. Brazil, even though it isn't in the Hispanic orbit, will also be contemplated. The survey concludes with a discussion of the partnership between the Jewish and Hispanic minorities in the U.S. Jewish and non-Jewish authors analyzed, whose works are originally in Spanish, Hebrew, Ladino, Portuguese, Yiddish, French, and English will be read in English translation. They include Miguel de Cervantes, Fernando de Rojas, Christopher Columbus, Alberto Gerchunoff, and Moacyr Scliar. Conducted in English.

Omitted 2004-05. Professor Stavans.

52. Drugs in Latin America. A cultural history of drugs south of the Rio Grande and in the Caribbean Basin, from the pre-Columbian period (Maya, Inca, Nahuatl, Quechua, etc.) through the Age of Independence, Positivism, and the 20th century. Medicine, religion and politics will be the leading concerns in the classroom discussion. Students will read novels, poems, essays, stories, *testimonios* and legal documents, and be exposed to films as well as TV, radio and newspaper reports. Course will be conducted in Spanish.

For students who have completed Spanish 07 or equivalent. Omitted 2004-05. Professor Stavans.

53. The Sounds of Spanglish. A linguistic and cultural study of the Latino population in the United States through its language. The course spans almost five hundred years, from 1521 to the present. It starts with the Spanish explorers to Florida and ends with today's rappers and poets. Novels, plays, and film will be used as primary texts. The various modalities of Spanglish, spoken by, among other groups, Nuyoricans, Chicanos, and Cuban-Americans, will be compared. The development of Spanglish as a street jargon will be compared to Yiddish, Ebonics, and other minority tongues. The course will also discuss the rapid changes of Spanish, under strong pressure from English, in the Southern Hemisphere. Works by Dr. Samuel Johnson, Antonio de Nebrija, and Fernando Ortiz will be used. Conducted in English.

Omitted 2004-05. Professor Stavans.

54. Spanish American Poetry: Nineteenth and Twentieth Century (1880-1940). This course's fundamental objective is to study the development of Spanish American poetry from the last decades of the nineteenth century to the establishment of the *avant garde* well into the twentieth century. Through poetic and critical work of important poets, writers and artists of the time we will study the main cultural and literary movements: *modernismo*, *posmodernismo*, *vanguardia* and *posvanguardia*. We will read work from authors such as José Martí, Rubén Darío, Ramón López Velarde, Gabriela Mistral, Cesar Vallejo, Vicente Huidobro, Jorge Luis Borges and Pablo Neruda, among others. Course will be conducted in Spanish.

Omitted 2004-05.

55. Latin American Literature and the Paranormal. For many years now, Latin American writers have chosen to employ codes other than those of realism when writing of the problems that individuals experience in their sociocultural milieux. In countries whose populations, lacking a real history, still make use of myths and legends, and in which differing cultures are still in conflict, the realist novel has turned out to be inadequate to the fictionalization of certain states of the group mind. It is here that magic realism, the uncanny, the fantastic

and other forms of paranormal literature find their most characteristic place. The course will examine works by Julio Cortázar, Jorge Luis Borges, Juan Rulfo, Felisberto Hernández, Gabriel García Márquez, Carlos Fuentes, María Luisa Bombal and Miguel Angel Asturias, among others. Conducted in Spanish.

For students who have completed Spanish 5 or equivalent. Omitted 2004-05. Professor Benítez-Rojo.

56. Spanish America's Modern Historical Novel. Beginning with the publication of Alejo Carpentier's *El reino de este mundo* (1949), the modern historical novel has become one of the most important genres in Spanish American fiction. The course will discuss different types of novels, including Mario Vargas Llosa's *La guerra del fin del mundo*, Gabriel García Márquez's *El general en su laberinto*, Abel Pose's *Los perros del paraíso*, Carlos Fuentes' *La campaña*, among others. It will also explore the process of transforming a person's life in a novel. Conducted in Spanish.

For students who have completed Spanish 07 or equivalent. Omitted 2004-05. Professor Benítez-Rojo.

57. Julio Cortázar. A comprehensive study of the style, originality, versatility and influence of the contemporary Argentine author. A representative sample of his works will be discussed in the context of Latin American and international literature. Special attention will be given to his short stories and collage-books like *La vuelta al día en ochenta mundos*, *Último round*, and *El libro de Manuel*. Conducted in Spanish.

For students who have completed Spanish 05 or equivalent. Omitted 2004-05. Professor Benítez-Rojo.

58. The Indigenista Novel in Perú, Bolivia and Ecuador. Towards the 1920s, particularly in the Andean region, the Indian portrayed in the pages of the *indigenista* novel begins to symbolize a denunciation of, and violent protest against, the exploitation of which he himself is a victim in Latin American society. The course will discuss the following works: Alcides Arguedas' *Raza de bronce* (Bolivia), Jorge Icaza's *Huasi-pungo* (Ecuador), Ciro Alegria's *El mundo es ancho y ajeno*, José María Arguedas' *Los ríos profundos* and *El zorro de arriba y el zorro de abajo* (Perú), and Manuel Scorza's *Redoble por Rancas* (Perú).

For students who have completed Spanish 05 or equivalent. Omitted 2004-05. Professor Benítez-Rojo.

77, 78D. Senior Departmental Honors. Two single courses.

First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. The Department calls attention to the fact that Special Topics courses may be offered to students on either an individual or group basis.

Students interested in forming a group course on some aspect of Hispanic life and culture are invited to talk over possibilities with a representative of the Department. When possible, this should be done several weeks in advance of the semester in which the course is to be taken.

First and second semesters.

TEACHING

Students interested in teaching and education may achieve, during their four years at Amherst, state certification in Massachusetts for positions in secondary

schools. Reciprocity agreements between Massachusetts and over 30 other states permit students certified in Massachusetts to qualify for public school positions across the country. Those who wish to obtain certification for public school teaching may—as an alternative to enrolling in a Masters program after graduation—draw upon our liaison with the Psychology and Education Department at Mount Holyoke College to complete the requirements for provisional certification during their undergraduate years. Acceptance into the Mount Holyoke program requires a formal application in the spring of the student's junior year.

Because the requirements for Massachusetts certification involve both coursework and a considerable number of hours engaged in classroom teaching, students interested in the possibility of a public school teaching career should consult with the education advisor in the Career Center and with the faculty advisor to the Program in Secondary School Teaching, Professor Barry O'Connell of the English Department, as early as possible in their time at Amherst. In addition to majoring in the subject area in which they seek certification, students will need the following courses, or their equivalents, in order to participate in the Mount Holyoke program. Many of these can be taken at Amherst; others in any of the Five Colleges. A few must be taken at Mount Holyoke (indicated by an *).

1. Introduction to Psychology
2. Adolescent Psychology
3. Educational Psychology
4. A course in multicultural education (at Amherst English 06 meets this requirement)
5. Differences in Learning (Educ. 234 at Mount Holyoke College, or with approval courses at Smith College or University of Massachusetts)
6. Observing and Assisting in Middle and Secondary Schools (Educ. 332j a January interterm course at Mount Holyoke College or TEAMS at University of Massachusetts among other possibilities)
7. Educ. 330* Process of Learning and Teaching in Middle and Secondary Schools
8. Teaching (Math, English, etc.) In Secondary School, an Amherst College special topics course taken in conjunction with the teaching internship
9. Educ. 331* Teaching Internship. This is a double course at Amherst College, to be taken in the spring semester of the senior year or during a ninth term at Mount Holyoke College.

Passage of the Massachusetts Educator Certification Test, is required of all participants in the Mount Holyoke College Program. Tests are administered four times each year in October, January, April and June. Application forms and test preparation materials are available at the Amherst College Career Center.

THEATER AND DANCE

Professors Dougan and Woodson (Chair); Assistant Professor Mukasa*; Senior Resident Artist Lobdell; Playwright-in-Residence Congdon; Five College Associate Professor Valis Hill; Visiting Lecturers Sylla and Tsoules.

*On leave 2004-05.

Curriculum. The study of theater and dance is an integrated one. While recognizing historical differences between these arts, the department emphasizes their aesthetic and theoretical similarities.

The basic structure of the curriculum and the organizational pattern of the department's production activities are designed to promote the collaborative and interdependent nature of the theatrical arts. Faculty, staff and major students form the nucleus of the production team and are jointly responsible for the college's Theater and Dance season. Advanced students carry specific production assignments. Students in Core Courses and in Courses in the Arts of Theater and Dance also participate, through laboratory experiences, in the creation and performance of departmental productions.

Major Program. In the election of departmental courses, students may choose to integrate the many aspects of theater and dance or to focus on such specific areas as choreography, playwriting, directing, design, acting, performance art and video. Because advanced courses in theater and dance are best taken in a prescribed sequence, students preparing to major in the department are advised to complete the three Core Courses and one course in the Arts of Theater and Dance by the end of the sophomore year. Two of the three core courses are offered every semester in rotation. Students interested in the possibility of majoring in the Department should consult with the Chair as soon as possible.

Minimum Requirements. The three Core Courses; two courses in the History, Literature and Theory of Theater and Dance; two courses in the Arts of Theater and Dance (For the purpose of fulfilling this requirement, two half-courses in dance technique approved by the Department may replace one course in the Arts of Theater and Dance); one advanced course in the Arts of Theater and Dance; the Major Series: 75H or 76H and 77 or 78. More specific information about courses which fulfill requirements in the above categories can be obtained from the Department office.

The Senior Project. Every Theater and Dance major will undertake a Senior Project. In fulfillment of this requirement, a student may present work as author, director, choreographer, designer, and/or performer in one or more pieces for public performance. Or a student may write a critical, historical, literary or theoretical essay on some aspect of theater and dance. As an alternative, and with the approval of the department, a student may present design portfolio work, a directorial production book or a complete original playscript. In such cases, there will be no public performance requirement. In all cases, the project will represent a synthesis or expansion of the student's education in theater and dance.

Project proposals are developed in the junior year and must be approved by the faculty. That approval will be based on the project's suitability as a comprehensive exercise. Because departmental resources are limited, the opportunity to undertake a production project is not automatic. Approval for production projects will be granted after an evaluation of the practicability of the project seen in the context of the department's other production commitments. Written proposals outlining the process by which the project will be developed and the nature of the product which will result must be submitted to the Department chair by April 1 of the academic year before the project is proposed to take place. The faculty will review, and in some cases request modifications in the proposals, accepting or rejecting them by May 1. Students whose production proposals do not meet departmental criteria will undertake a written project.

Comprehensive Evaluation. Because the Theater and Dance curriculum is sequenced, successful completion of the required courses and of the major series—Production Studio and Senior Project—represents satisfaction of the departmental comprehensive requirement. In addition, majors are required to attend departmental meetings and end-of-the-semester interviews each semester.

Departmental Honors Program. Departmental recommendations for Honors will be based on faculty evaluation of three factors: (1) the quality of the Senior Project, including the documentation and written work which accompanies it; (2) the student's academic record in the department; and (3) all production work undertaken in the department during the student's career at Amherst.

Extra-Curriculum. In both its courses and its production activities, the Department welcomes all students who wish to explore the arts of theater and dance. This includes students who wish to perform or work backstage as an extracurricular activity, students who elect a course or two in the department with a view toward enriching their study of other areas, students who take many courses in the department and also participate regularly in the production program while majoring in another department, as well as students who ultimately decide to major in theater and dance.

Theater and Dance

CORE COURSES IN THEATER AND DANCE

11. The Language of Movement. An introduction to movement as a language and to dance and performance composition. In studio sessions students will explore and expand their individual movement vocabularies by working improvisationally with weight, posture, gesture, patterns, rhythm, space, and relationship of body parts. We will ask what these vocabularies might communicate about emotion, thought, physical structures, cultural/social traditions, and aesthetic preferences. In addition we will observe movement practices in everyday situations and in formal performance events and use these observations as inspiration for individual and group compositions. Two two-hour class/studio meetings and a two-hour production workshop per week. Selected readings and viewing of video and live performance.

Limited to 20 students. Second semester. Professor Woodson.

12. Materials of Theater. An introduction to design, directing, and performance conducted in a combined discussion/workshop format. Students will be exposed to visual methods of interpreting a text. Early class discussions focus on a theoretical exploration of theater as an art form and seek to establish a vocabulary for and understanding of basic theatrical conventions, with readings from Aristotle through Robert Wilson. Students will spend the bulk of the semester testing these theories for themselves, ultimately designing their own performances for two plays. Two two-hour classes and two-hour production workshop included in this time.

Limited to 12 students. First semester. Professor Dougan.

13. Action and Character. This course examines what happens on stage (the action) and "how" that action happens (the character) from the points of view of the playwright and the actor. The course assumes that the creative processes of both the actor and the playwright are similar. Therefore, the students will write scenes and at least one short play, which will be rehearsed as homework for presentation in class. Students will be given a series of acting and playwrighting

exercises to develop craft and to reinforce their understanding of creative processes. Students will be assigned plays and certain critical texts to support their work in writing and acting.

Enrollment in each section is limited but early registration does not confer preferential consideration. Twenty students attending the first class will be admitted. Selection will be based upon the instructor's attempt to achieve a suitable balance between first-year students and upperclassmen and between men and women, and to achieve a broad range of levels of acting experience. Notice of those admitted will be posted within 24 hours of the first meeting and a waiting list will be available. First semester. Resident Artist Lobdell and Playwright-in-Residence Congdon.

COURSES IN THE HISTORY, THEORY AND LITERATURE OF THEATER AND DANCE

21. Chekhov and His Theater. (Also Russian 30.) Anton Chekhov's reputation rests as much on his dramaturgy as on his fiction. His plays, whose staging by the Moscow Art Theater helped revolutionize Russian and world theater, endure in the modern repertoire. In this course, we will study his dramatic *oeuvre* in its cultural and historical context, drawing on the biographical and critical literature on Chekhov, printed and visual materials concerning the late nineteenth-century European theater, and the writings of figures like Constantin Stanislavsky, who developed a new acting method in response to Chekhov's art. We also will examine key moments in the production history of Chekhov's plays in Russian, English, and American theater and film.

Omitted 2004-05. Playwright-in-Residence Congdon and Professor Ciepiela.

22. Appreciating Acting. This course is intended for those students with little or no background in acting who would like to develop an understanding of the actor's process and an ability to view acting critically. Students will be introduced to the actor's methods of reading and breaking down a script into beats. Students will view several productions of plays by Shakespeare, Chekhov, and Shaw on film and video, focusing upon the actors' choices within selected beats. Issues of relaxation, concentration, sensory imagination, and physical metaphor will be examined. Students will examine several performances by Marlon Brando, Alec Guinness, Maggie Smith, and Richard Burton to engage with aspects of character and range. Students will view films from the silent era, the 1930s, 1950s, 1970s and the 1990s to study how acting styles may shift. Students will write frequently in response to the films and plays they watch.

Omitted 2004-05. Resident Artist Lobdell.

23. World Theaters: Theories and Histories. An examination of selected performance forms—Japanese Noh and Butoh, Chinese opera, Balinese shadow puppetry and trance dance, and Yoruban ritual masked dance, among others. The course will describe common underlying performative impulses and disciplines while placing the widely divergent forms into their cultural contexts. Additionally, we will examine in detail several Western responses and/or assumptions about these other stages—for example, Antonin Artaud's impassioned responses to a viewing of Balinese dance; the relationship between Noh drama and W.B. Yeats' spare, poetic plays; and to reverse the flow, the influence of Mary Wigman's expressionistic dance upon Japanese artists developing Butoh.

Limited to 25 students. Second semester. Resident Artist Lobdell.

24. Twentieth-Century American Dance: Sixties Vanguard to Nineties Hip-Hop.

This survey of late twentieth-century dance begins in the sixties—a decade of revolt and redefinition in American modern dance when expressions of non-conformity became a key theme for artists of the counterculture who struggled for self-definition in defiance of traditional social values. The socio-political environment of the sixties, particularly the Feminist Movement, provoked new ideas about dance, the dancer's body and a radically changed dance aesthetic; and produced dance works that spoke of freedom, spontaneity, spirituality; experimentation, democratic participation and the liberation of the body. The post-modern perspectives that grew out of debates of the period about the nature of gender, ethnicity, and sexuality in turn yielded theories about the relationship between cultural forms and the construction of identities from a new generation of dancers, whose works emphasized dialogue and self-reflective critique. Presenting dance as an art form and embodied social practice, borrowing from spectacular vernaculars, and blurring the traditional boundaries of the modern and classical, these late-century renegades moved dance (as performance art and prime subject for cultural studies) from the margins to the mainstream.

Second semester. Five College Professor Valis Hill.

25. Drama and Society. Plays are not written in a vacuum. A playwright is surrounded by historical and social conditions which influence the choices she or he makes. A play may challenge aspects of its society or fulfill its traditions. Plays are also written to be produced. Rarely are they created solely for the purpose of being read. When we undertake the task of bringing living form to the words of a playwright, we confront our own historical and social conditions and the intersection between the play and what makes this play relevant and important to produce today. This course uses a broad survey of dramatic literature to examine the tension between when and how a play was written and what it can say today. Especially it explores how we see ourselves through looking at how we interpret these pieces. We will read works by Beckett, Brecht, Chekov, Euripides, Genet, Hansberry, O'Neill, Pirandello, Rivera, Shakespeare, Sherman, Sophocles, Treadwell and Wilson. We will examine production history, historical context, biographical information and theoretical considerations relating to a number of these plays. Additionally, we will view recent interpretations of some of these works.

Omitted 2004-05. Professor Mukasa.

28. Contemporary American Drama. Playwriting is vital and alive in America today. Building upon the foundations of American Realism and European abstraction, modern American plays explore a wide range of human issues including family and the search for place; sex and sexuality; politics, social power and personal identity. In addition, there is an important strain of American playwriting that involves modern reinterpretations of ancient Greek classics. Many of the plays of the past 30 years represent what should be seen as a new genre: tragic comedy, where humor and serious dramatic issues are intertwined in a seamless and effective way. Focusing on plays by A. Wilson, Shepard, Congdon, Vogel, Kushner, Hwang, Parks, Fornes, Mamet, Dove, Iizuka, and Mee, we examine the stylistic and theoretical antecedents for this work and examine modern America culture through the lens of some of its most articulate theater artists. Supplemented by video excerpts, we explore how to analyze plays dramaturgically, identifying elements in a play that are not immediately visible to an untrained eye but that are essential to understanding a play's point and purpose.

Omitted 2004-05.

29. Topics in Theater and Dance. A series of courses designed for small groups of students centering on questions of theory and practice, on contemporary trends, and on the particular interests of departmental faculty and visiting artists. Requisites may occasionally be established by instructors of individual courses. Omitted 2004-05.

COURSES IN THE ARTS OF THEATER AND DANCE

30H. Contemporary Dance Techniques. The study and practice of contemporary movement vocabularies, including regional dance forms, contact improvisation and various modern dance techniques. Because the specific genres and techniques will vary from semester to semester, the course may be repeated for credit. Objectives include the intellectual and physical introduction to this discipline as well as increased body awareness, alignment, flexibility, coordination, strength, musical phrasing and the expressive potential of movement. The course material is presented at the beginning/intermediate level.

WEST AFRICAN.

First semester. Visiting Lecturer Sylla.

MODERN I/II.

First semester. Visiting Lecturer TBA.

MODERN/JAZZ III/IV.

First semester. Visiting Lecturer Tsoules.

MODERN/BALLET IV/V.

Second semester. Visiting Lecturer TBA.

FUSION: AFRICAN/MODERN II/III.

Second semester. Ms. Alexis-Bruce.

31. Playwriting I. A workshop in writing for the stage. The semester will begin with exercises that lead to the making of short plays and, by the end of the term, longer plays—ten minutes and up in length. Writing will be done in and out of class; students' work will be discussed in the workshop and in private conferences. At the end of the term, the student will submit a portfolio of revisions of all the exercises, including the revisions of all plays. (To be offered at the same time and in the same place as Theater and Dance 61.)

Not open to first-year students. Admission with consent of the instructor. Limited to 15 students. First and second semesters. Playwright-in-Residence Congdon.

32. Writing for the Theater. A styles class in playwriting, which incorporates the reading of plays with the writing in-the-style-of exercises, exploring the technical and thematic elements of playwriting that individual writers, consciously or unconsciously, emphasize: character and motivation; lyricism and milieu; language and culture; landscape, languagescape and metaphysics; social satire and social commentary; theatricality and experimentation with form; politics and confrontation. Open to anyone interested in studying, in detail, the techniques of playwriting in the context of careful reading of plays for the technical methods by which individual playwrights enact their formal, political, and personal ideas.

Omitted 2004-05. Playwright-in-Residence Congdon.

33. From Idea to Performance. A theoretical and practical consideration of the process by which the performance-maker's initial idea is altered, adapted,

developed, rehearsed and finally transmitted to the audience through the medium of theatrical productions.

Omitted 2004-05. Professor Woodson.

34. Contemporary Dance Technique and Repertory. This course will include studio sessions in contemporary modern/jazz dance technique at the intermediate level and rehearsal sessions to create original choreography; the completed piece(s) will be presented in concert at the end of the semester. The emphasis in the course will be to increase expressive range, technical skills and performance versatility of the dancer through the practice, creation and performance of technique and choreography. In addition, the course will include required readings, the viewing of dance videos and live performances to give an increased understanding of the historical and contemporary context for the work.

First semester. Visiting Lecturer Tsoules.

35. Scripts and Scores. This course will provide structures and approaches for creating original choreography and performance pieces and events. An emphasis will be placed on interdisciplinary and experimental approaches to composition, choreography, and performance making. These approaches include working with text and movement, visual systems and environments, non-traditional music and sound and chance scores to inspire and include in performance. Students will create and perform dance, theater, or performance art pieces for both traditional theater spaces and for found (indoor and outdoor) spaces.

This course is open to dancers and actors as well as interested students from other media and disciplines. Consent of the instructor is required for students with no experience in improvisation or composition. Two two-hour class meetings per week and weekly lab/rehearsal sessions.

Limited to 12 students. Second semester. Professor Woodson.

36. Rehearsal. An advanced course in acting. The class will focus upon the actor's close analysis of the playwright's script to define specific problems and to set out tactics for their solutions. The interaction of the actor's creative work outside rehearsal and the work within rehearsal will be delineated by assigned exercises.

Requisite: Theater and Dance 13 or consent of the instructor. Limited to 16 students. First semester. Resident Artist Lobdell.

37. The Actor's Instrument. Technical issues of the body, voice, will, and imagination for the actor; exercises and readings in acting theory. Introduction of techniques to foster physical and emotional concentration, will and imaginative freedom. Exploration of Chekhov psycho-physical work, Hagen object exercises, Spolin and Johnstone improvisation formats, sensory and image work, mask and costume exercises, and neutral dialogues. The complex interweaving of the actor's and the character's intention/action in rehearsal and performance is the constant focus of the class. Three two-hour class meetings per week.

Requisite: Theater and Dance 13. Limited to 16 students. Omitted 2004-05. Resident Artist Lobdell.

38. Acting Technique. Students in this class will rehearse scenes directed by students enrolled in Theater and Dance 45. In addition, students will meet with the instructor weekly for specific exercises based upon problems confronted in rehearsal.

Requisite: Theater and Dance 13. Limited to 20 students. Second semester. Resident Artist Lobdell.

41. Scene Design. The materials, techniques and concepts which underlie the design and creation of the theatrical environment.

Requisite: Theater and Dance 12 or consent of the instructor. Limited to 8 students. Second semester. Professor Dougan.

42. Lighting Design. An introduction to the theory and techniques of theatrical lighting, with emphasis on the aesthetic and practical aspects of the field as well as the principles of light and color.

Requisite: Theater and Dance 12 or consent of the instructor. Lab work in lighting technology. Omitted 2004-05. The Department.

43. Costume Design. An introduction to the analytical methods and skills necessary for the creation of costumes for theater and dance with emphasis on the integration of costume with other visual elements.

Requisite: Theater and Dance 12 or consent of the instructor. Limited to 8 students. Lab work in costume construction. First semester. Professor Dougan.

45. Stage Directing. Practice of the artistic, technical and interpretative skills required of the director through scene work and prepared production statements. Studio presentation of three scenes.

Requisite: Theater and Dance 12 or 13. Limited to 10 students. Second semester. Professor to be named.

50. Video and Performance. This advanced production class will give students an opportunity to explore various relationships between live performance and video. Experiments will include creating short performance pieces and/or choreography specifically designed for the video medium; creating short pieces that include both live performance and projected video; and creating short experimental video pieces that emphasize a sense of motion in their conceptualization, and realization. Techniques and languages from dance and theater composition will be used to expand and inform approaches to video production and vice-versa. Sessions include studio practice (working with digital cameras and Final Cut Pro digital editing) and regular viewing and critiques. Students will work both independently and in collaborative teams according to interest and expertise.

Requisite: Previous experience in theater, dance, music composition, and/or video production or consent of the instructor. Limited to 10 students. Second semester. Professors Woodson and Blum. (Also Dance 353 at Smith College.)

STUDIO COURSES

61. Playwriting Studio. (To be offered at the same time and in the same place as Theater and Dance 31.) A workshop/seminar for writers who want to complete a full-length play or series of plays. Emphasis will be on bringing a script to a level where it is ready for the stage. Although there will be some exercises in class to continue the honing of playwriting skills and the study of plays by established writers as a means of exploring a wide range of dramatic vocabularies, most of the class time will be spent reading and commenting on the plays of the workshop members as these plays progress from the first draft to a finished draft.

Requisite: Theater and Dance 31 or the equivalent. Admission with consent of the instructor. Limited to 10 students. Second semester. Playwright-in-Residence Congdon.

62. Performance Studio. An advanced course in the techniques of creating performance. Each student will create and rehearse a performance piece that develops and incorporates original choreography, text, music, sound and/or video.

Experimental and collaborative structures and approaches among and within different media will be stressed. The final performance pieces and events will be presented in the Holden Theater. Can be taken more than once for credit.

Requisite: Theater and Dance 35 and consent of the instructor. First semester. Professor Woodson. See Theater and Dance 29.

64. Design Studio. An advanced course in the arts of theatrical design. Primary focus is on the communication of design ideas and concepts with other theater artists. Also considered is the process by which developing theatrical ideas and images are realized. Students will undertake specific projects in scenic, costume and/or lighting design and execute them in the context of the Department's production program or in other approved circumstances. Examples of possible assignments include designing workshop productions, and assisting faculty and staff designers with major responsibilities in full scale production. In all cases, detailed analysis of the text and responsible collaboration will provide the basis of the working method. May be repeated for credit.

Requisite: Theater and Dance 41, 42, or 43 or consent of the instructor. Second semester. Professor Dougan.

65. Directing Studio. This is an advanced course in directing that emphasizes creating vital, interesting characters in the context of an active story and an evocative performance world. The approach in this class encompasses a wide range of directorial styles friendly to a spectrum from "straight theater" to "performance." It aims to reinforce the skills that you have and to help you develop and expand these skills more effectively. Students direct three scenes of varying length and do "perception labs," exploring the way theatrical presentation is received by viewers in an audience.

Requisite: Theater and Dance 45. Consent of the Chairperson must be obtained during the pre-registration period. Omitted 2004-05.

75H. Production Studio. An advanced course in the production of Theater and Dance works. Primary focus will be on the integration of the individual student into a leadership role within the Department's producing structure. Each student will accept a specific responsibility with a departmental production team testing his or her artistic, managerial, critical, and problem-solving skills.

Admission with consent of Professor Dougan. Not open to first-year students. First semester. The Department.

76H. Production Studio. Same description as Theater and Dance 75H. Second semester. The Department.

77, 78. Senior Departmental Honors. For Honors candidates in Theater and Dance. Open to seniors. First and second semesters. The Department.

97, 97H, 98, 98H. Special Topics. Independent Reading Course. Full or half course. Admission with consent of the instructor. First and second semesters. The Department.

RELATED COURSE

Creating Musical Drama. See Music 18.
Omitted 2004-05.

Five College Dance

Five College Dance Department. In addition to dance courses at Amherst College through the Department of Theater and Dance (Contemporary Techniques,

Language of Movement, Scripts and Scores, Performance Studio, and Issues in Contemporary Dance), students may also elect courses through the Five College Dance Department listed below. The Five College Dance Department combines the programs of Amherst College, Hampshire College, Mount Holyoke College, Smith College, and the University of Massachusetts. The faculty operates as a consortium, coordinating curricula, performances, and services. The Five College Dance Department supports a variety of philosophical approaches to dance and provides an opportunity for students to experience a wide spectrum of performance styles and techniques. Course offerings are coordinated among the campuses to facilitate registration, interchange and student travel; students may take a dance course on any of the five campuses and receive credit at the home institution. There are also numerous performing opportunities within the Five College Dance Department as well as frequent master classes and residencies offered by visiting artists.

Please note: Five College Dance Course lists (specifying times, locations and new course updates) are available two weeks prior to pre-registration at the Theater and Dance Office in Webster Hall, individual campus dance departments and the Five College Dance Department office located at Hampshire College. The schedule is also online at www.fivecolleges.edu/sites/dance/.

An asterisk (*) after a section signifies that the class is open only to Five College Dance majors.

The Five College Dance Department Faculty. Professors Coleman, Daniel, Freedman, Lowell, Nordstrom, Schwartz, Waltner, and Woodson; Associate Professors Blum, Brown, C. Flachs and R. Flachs. Visiting Guest Artists Dowling, Davis, Hill, Keithley, Lipitz, Middleton, Pengelly, Pursle, Raff, Soledade, and Wolfzahn.

STUDIO TECHNIQUE

Participation in technique classes beyond level 1 is by audition or by consent of the instructor; students may repeat any level for credit. Technique classes are taken for half-credit.

Ballet. Introductory through advanced study of the principles and vocabularies of classical ballet. Class is comprised of three sections: Barre, Center and Allegro. Emphasis is placed on correct body alignment, development of whole body movement, musicality, and embodiment of performance style. Pointe work is included in class and rehearsals at the instructor's discretion.

Ballet I.

First semester. To be offered at Mount Holyoke College (Flachs), Smith College (TBA) and University of Massachusetts (Lipitz).

Second semester. To be offered at University of Massachusetts (Lipitz).

Ballet II.

First semester. To be offered at Smith College (Softic).

Second semester. To be offered at University of Massachusetts (Lipitz) and Mount Holyoke College (Flachs).

Ballet III.

First semester. To be offered at Mount Holyoke College (Flachs), Smith College (Blum), and University of Massachusetts (Lipitz).*

Ballet IV.

First semester. Intermediate Intensity: To be offered at Mount Holyoke College (Flachs) and Smith College (Blum). High Intensity: To be offered at University of Massachusetts (Lipitz).

Ballet V.

First semester. To be offered at Smith College (Blum) and University of Massachusetts (Lipitz).

Ballet VI.

Second semester. To be offered at Smith College (Blum).

Ballet Pointe.

First semester. To be offered at Mount Holyoke College (Flachs).

Ballet Pointe/Variations.

First semester. To be offered at University of Massachusetts (Lipitz).

Ballet Rep/Variations.

First semester. To be offered at Mount Holyoke College (Flachs).

Cuban I.

First semester. To be offered at Smith College (Daniel).

Classical Indian Dance I.

First and second semesters. To be offered at Mount Holyoke College (Devi).

Contact Improvisation.

First semester. To be offered at Smith College (Camera).

Second semester. To be offered at Mount Holyoke College (Wolfzahn).

Fast and Furious: Men's Dance.

Second semester. To be offered at University of Massachusetts (Brown).

Floor Barre.

Second semester. To be offered at Smith College (Blum).

Javanese Dance.

First and second semesters. To be offered at Smith College (Sumarsan).

Jazz Dance. Introductory through advanced jazz dance technique, including the study of body isolations, movement analysis, syncopation and specific jazz dance traditions. Emphasis is placed enhancing musical and rhythmic phrasing, efficient alignment, performance clarity in complex movement combinations, and the refinement of performance style.

Jazz Dance I.

First semester. To be offered at University of Massachusetts (TBA) and Smith College (Madsen).

Second semester. To be offered at Mount Holyoke College (Gervais) and Smith College (TBA).

Jazz Dance II.

First semester. To be offered at Smith College (Madsen).

Second semester. To be offered at Smith College (TBA) and University of Massachusetts (TBA).

Jazz Dance III.

First semester. High Intensity: To be offered at University of Massachusetts (Schuberg). Intermediate Intensity: To be offered at Smith College (Sweeney).

Jazz Dance IV.

Second semester. To be offered at University of Massachusetts (TBA) and Smith College (TBA).

Jazz Dance V.

First semester. To be offered at Smith College (Davis) and University of Massachusetts (Schuberg).

Jazz Dance VI.

Second semester. To be offered at Smith College (Davis) and University of Massachusetts (TBA).

Modern Dance. Introductory through advanced study of modern dance techniques. Central topics include refining kinesthetic perception, development efficient alignment, increasing strength and flexibility, broadening the range of movement qualities, exploring new vocabularies and phrasing styles, and encouraging individual investigation and embodiment of movement material.

Modern Dance I.

First semester. To be offered at Hampshire College (Wolfzahn), Mount Holyoke College (Freedman), Smith College (Martincich), and University of Massachusetts (Brown).

Second semester. To be offered at Smith College (Waltner).

Modern Dance II.

First semester. To be offered at Smith College (Bruce).

Second semester. To be offered at Hampshire College (Nordstrom), Mount Holyoke College (Freedman), Smith College (TBA), and University of Massachusetts (Brown).

Modern Dance I/II. See Contemporary Dance Technique, Theater and Dance 30H.

First semester. To be offered at Amherst College (TBA).

Fusion: African Modern II/III. See Contemporary Dance Technique, Theater and Dance 30.

Second semester. To be offered at Amherst College (Bruce).

Modern Dance III.

First semester. To be offered at Hampshire College (TBA), Smith College (Davis), and University of Massachusetts (Brown).

Second semester. To be offered at Hampshire College (TBA).

Modern/Jazz Dance III/IV. See Contemporary Dance Technique, Theater and Dance 34.

First semester. To be offered at Amherst College (Tsoules).

Intermediate Modern/Ballet IV/V. See Contemporary Dance Technique, Theater and Dance 34.

Second semester. To be offered at Amherst College (TBA).

Modern Dance IV.

First semester. To be offered at Mount Holyoke College (Coleman).

Second semester. To be offered at Mount Holyoke College (Coleman), Smith College (Davis), and University of Massachusetts (Brown).

Modern Dance V.

First semester. To be offered at Smith College (TBA).

Modern Dance VI.

Second semester. To be offered at Mount Holyoke College (Coleman) and Smith College (Davis).

Repertory.

First semester. To be offered at Smith College (Davis).

Tap I.

First semester. To be offered at Mount Holyoke College (TBA).

West African Dance.

First semester. To be offered at Amherst College (Sylla), Mount Holyoke College (Sylla), and Smith College (Love).

Second semester. To be offered at Mount Holyoke College (Sylla) and Smith College (Love).

West African II: African Explorations.

Second semester. To be offered at Smith College (Love).

Yoga-Breath, Flow and Presence.

First semester. To be offered at University of Massachusetts (Schwartz).

REPERTORY AND PERFORMANCE.

Contemporary Dance Technique and Repertory.

First semester. To be offered at Amherst College (Tsoules).

Contemporary Rep.

First semester. To be offered at Mount Holyoke College (Freed/Cole).

Jazz Rep (by audition).

First semester. To be offered at University of Massachusetts (TBA).

Rep/Jazz/Modern.

First semester. To be offered at Smith College (Davis).

University Dancers.

First semester. To be offered at University of Massachusetts (Brown/Lipitz/Guest Artist).

Variations/Ballet Rep.

First semester. To be offered at Mount Holyoke College (Flachs).

THEORY

Theory courses are taken for full credit and generally include three class hours and two to three lab hours.

Advanced Studies: Fleeting Images.

First semester. To be offered at Smith College (Hill).

Rhythmic Analysis I.

First semester. To be offered at University of Massachusetts (Arslanian).

Rhythmic Analysis II.

First semester. To be offered at Mount Holyoke College (Jones).

Black Traditions.

First semester. To be offered at Hampshire College (Hill).

Community Crossover.

First semester. To be offered at Mount Holyoke College (Dowling.)

Composition. Introductory through advanced study of elements of dance composition, including phrasing, space energy, motion, rhythm, musical forms, character development, and personal imagery. Course work emphasizes organizing and designing movement creatively and meaningfully in a variety of forms (solo, duet and group), and utilizing various devices and approaches, e.g., motif and development, theme and variations, text and spoken language, collage, structured improvisation, others.

Composition I.

First semester. To be offered at Hampshire College (Lowell) and University of Massachusetts (Schwartz).

Second semester. To be offered at Amherst College (see Language of Movement, Theater and Dance 11), Mount Holyoke College (Coleman), Smith College (Davis), and University of Massachusetts (Brown).

Composition II.

First semester. To be offered at Mount Holyoke College (Cole/Jones) and University of Massachusetts (Schwartz).

Second semester. To be offered at Amherst College (Woodson; see Scripts and Scores, Theater and Dance 35), Smith College (Davis), and University of Massachusetts (Brown).

Composition III.

First semester. To be offered at Amherst College (Woodson). See Performance Studio, Theater and Dance 62.

Second semester. To be offered at Smith College (Davis) and Amherst College (Woodson and Blum). See Theater and Dance 50.

Contact Improv Dance and Theory.

First semester. To be offered at Hampshire College (Wolfzahn).

Dance and Culture.

First semester. To be offered at Smith College (Daniel).

Dance Education.

Second semester. To be offered at University of Massachusetts (Schwartz).

Dance History: Jazz Tap History and Practice.

Second semester. To be offered at University of Massachusetts (Hill).

Dance in the Twentieth Century.

First semester. To be offered at University of Massachusetts (Brown).

Second semester. To be offered at Mount Holyoke College (Flachs).

Dance Production.

First semester. Two sections. To be offered at Smith College (Soledade).

Second semester. To be offered at University of Massachusetts (Lipitz).

Laban Movement.

First semester. To be offered at Hampshire College (Nordstrom).

The Mindful Body.

First semester. To be offered at Smith College (Waltner).

Scientific Foundations of Dance I.

Second semester. To be offered at Hampshire College (TBA).

Twentieth-Century American Dance: Sixties Vanguard to Nineties Hip-Hop.
Second semester. To be offered at Amherst College (Hill).

Twentieth-Century Dance.

First semester. To be offered at Smith College (Waltner).

Second semester. To be offered at Amherst College (Hill). See Theater and Dance 24.

Interpretation and Analysis of African Dance.

First semester. To be offered at Smith College (Love).

FIVE COLLEGE DANCE DEPARTMENT
MISSION STATEMENT

The educational and artistic mission of the Five College Dance Department is to champion the imaginative, expressive powers of human movement. The curriculum emphasizes in-depth study of a broad spectrum of dance as an art form, including technical creative, historical, cultural and scientific perspectives. Students are encouraged to balance performance and creative studies with comprehensive understanding of the historical and cultural contexts of different dance traditions. They may shape their major studies in either traditional or interdisciplinary ways—reflecting the wide range of career options and new directions of the contemporary field.

WOMEN'S AND GENDER STUDIES

Professors Barale, Basu (Chair), Bumiller‡, Griffiths*, Hunt, and Olver; Associate Professor Saxton*.

Women's and Gender Studies is an interdisciplinary and cross-cultural exploration of the creation, meaning, function, and perpetuation of gender in human societies, both past and present. It is also an inquiry specifically into women's material, cultural, and economic productions, their self-descriptions and collective undertakings.

Major Program. Students majoring in Women's and Gender Studies are required to take a minimum of eight courses. Courses required of all majors include Women's and Gender Studies 11 and 24, and one course in cross-cultural and/or diasporic studies. Students should consult with their advisors to determine which courses fulfill this requirement. The remaining electives may be chosen from Women's and Gender Studies offerings or may be selected, in consultation with a student's advisor, from courses given in other departments (see list of related courses). Other Amherst or Five College courses that address issues of women and/or gender as part of their concern may be counted toward the major only if approved by the Women's and Gender Studies department. All senior majors will satisfy the comprehensive exam by reading a common text to be announced in the fall and writing an essay to be read by the department and discussed in a colloquium of Women's and Gender Studies seniors and faculty in the spring term.

Department Honors Program. In addition to the courses required for the major, students accepted as honors candidates will elect either Women's and Gender

*On leave 2004-05.

‡On leave second semester 2004-05.

Studies 77D and 78 or 77 and 78D, depending on which option better accommodates the disciplines involved in the thesis project.

01. Reading Gender, Reading Race. (Also English 01, section 04, and Black Studies 19.) See English 01, section 04.

Limited to 20 students. Second semester. Visiting Professor Schneider.

05. The Dao of Sex: Sexuality in China, Past and Present. (Also Asian 28.) See Asian 28.

First semester. Professor Zamperini.

06. Women and Art in Early Modern Europe. (Also Fine Arts 84.) See Fine Arts 84.

Limited to 30 students. Omitted 2004-05. Professor Courtright.

08. Bad Girls. (Also Fine Arts 82.) See Fine Arts 82.

Admission with consent of the instructor. Combined enrollment limited to 20 students. Omitted 2004-05. Professor Staller.

10. Witches, Vampires and Other Monsters. (Also Fine Arts 92, section 02.) See Fine Arts 92.

Second semester. Professor Staller.

11. The Cross-Cultural Construction of Gender. This course introduces students to the issues involved in the social and historical construction of gender and gender roles from a cross-cultural and interdisciplinary perspective. Topics will include women and social change; male and female sexualities including homosexualities; the uses and limits of biology in explaining human gender differences; women's participation in production and reproduction; the relationship among gender, race and class as intertwining oppressions; women, men and globalization; and gender and warfare.

First semester. Professor Hunt.

12. Hard Reading. (Also English 52.) See English 52.

Omitted 2004-05. Professor Barale.

13. Fashion Matters: Clothes, Bodies and Consumption in East Asia. (Also Asian 29.) See Asian 29.

Second semester. Professor Zamperini.

14. Medea: Metamorphoses of a Myth. (Also European Studies 26.) See European Studies 26.

Second semester. Professor Rogowski.

16. To Paint Their Lives. (Also Asian 17.) See Asian 17.

Omitted 2004-05.

20. Topics in the History of Sex, Gender, and the Family. (Also History 74.) See History 74.

Limited to 15 students. Omitted 2004-05. Professor Hunt.

24. Gender Labor. In this course we will explore the intimate relations of gender and labor: both the necessary labor of genders' production as well as the gendered organization of labor itself. In general the course will use gender to focus on contemporary concerns in the American workplace—class, ethnicity, sexuality, and race—but will also make critical comparisons with developments in other nations. The biological labor of reproduction and its intersection with the labor of production will necessarily be a constant concern in our discussions. We shall have to become familiar with certain terms: glass ceiling, glass escalator,

mommy-track, affirmative action, child care, sexual harassment, welfare to workfare. We certainly might want to ask what constitutes work? But we also might need to wonder if work is done for love, is it still work?

Second semester. Professors Barale and Olver.

28. Reading Popular Culture. (Also English 13.) See English 13.

Limited to 20 students. First semester. Visiting Professor Schneider.

31. Sexuality and Culture. An examination of the social and artistic construction of genders, bodies, and desires. In any given semester, the course may examine particular historical periods, ethnic groups, sexual orientation and theoretical approaches. The topic changes from year to year.

Textualities: This semester the focus of the course will be early-to-mid-twentieth-century Lesbian writing, some of it quite experimental and some of it not at all. Our concerns will emerge out of that very difference. What do form and style allow or deny? How does a narrative of the sexual shape its telling? In what ways have literary style and political agenda been bedfellows? As a seminar, this course will use novels and critical readings. Students will be expected to make a seminar presentation and to write three essays, the final one of length.

Preference to juniors and seniors who have taken one course in either Women's and Gender Studies or English. Not open to first-year students. Limited to 15 students. First semester. Professor Barale.

39. Women in Judaism. (Also Religion 39.) See Religion 39.

Second semester. Professor Niditch.

40. Women of Color: Witnesses to American History. (Also History 40.) Students will read court records, fiction, memoirs, history, letters and poetry to reconstruct how Native American and African American women experienced and witnessed history. We will study the economic, political, and social conditions impinging on these women. The figures we will study will include Sojourner Truth, Ida B. Wells, Elaine Brown, Mary Jemison and Sarah Winnemucca. Through the lens of individual feeling and perception, we will look at a selection of significant historical events including the advent of slavery, the Seven Years War, the Second Great Awakening, Indian Removal, Reconstruction, the subjugation of the Plains Indians, Progressivism, and the Civil Rights movement.

Omitted 2004-05. Professor Saxton.

44. Women's Activism in Global Perspective. Globally as well as locally, women are claiming a new voice in civil society by spearheading both egalitarian movements for social change and reactionary movements which would restore them to putatively traditional roles. They are prominent in local level community-based struggles but also in women's movements, perhaps the most international movements in the world today. This course will explore the varied expressions of women's activism at the grass roots, national and transnational levels. How is it influenced by the intervention of the state and international agencies? How is it affected by globalization? Among the issues and movements which we will address are struggles to redefine women's rights as human rights, women's activism in religious nationalism, the international gay-lesbian movement, welfare rights activism, responses to state regulation, and campaigns around domestic violence. Our understanding of women's activism is informed by a richly comparative perspective and attention to cases from diverse regions of the world.

Omitted 2004-05. Professor Basu.

47. Asian and Asian American Women: Myths of Deference, Arts of Resistance. (Also Political Science 47 and Asian 54.) See Political Science 47.

Omitted 2004-05. Professor Basu.

53. Representing Domestic Violence. (Also Political Science 53.) This course is concerned with literary, political and legal representations of domestic violence and the relations between them. We question how domestic violence challenges the normative cultural definitions of home as safe or love as enabling. This course will consider how these representations of domestic violence disrupt the boundaries between private and public, love and cruelty, victim and oppressor. In order to better understand the gaps and links between representation and experience, theory and praxis, students as part of the work for this course will hold internships (three hours per week) at a variety of area agencies and organizations that respond to situations of domestic violence.

Limited to 25 students. First semester. Professors Bumiller and Sánchez-Eppler.

56. Women and Islamic Constructions of Gender. (Also Religion 56.) See Religion 56.

Second semester. Professor Elias.

61. Women and Politics in Africa. (Also Political Science 29 and Black Studies 41.) See Political Science 29.

First semester. Five College Professor Newbury.

62. Women in the Middle East. (Also History 62 and Asian 63.) See History 62.

First semester. Professor Ringer.

63. Women's History, America: 1607-1865. (Also History 45.) See History 45.

Omitted 2004-05. Professor Saxton.

65. States of Poverty. (Also Political Science 65.) See Political Science 65.

Omitted 2004-05. Professor Bumiller.

66. Church, Family and Culture in Nineteenth-Century America. (Also History 48.) See History 48.

Omitted 2004-05. Professor Saxton.

68. Globalization, Social Movements and Human Rights. (Also Political Science 68.) See Political Science 68.

Omitted 2004-05. Professor Basu.

69. Flowers in the Mirror: Writing Women in Chinese Literature. (Also Asian 67.)

Omitted 2004-05.

77, 78, 78D. Senior Departmental Honors. Open to senior majors in Women's and Gender Studies who have received departmental approval.

First and second semesters.

97, 98. Special Topics. Independent Reading Courses.

First and second semesters.

FIVE COLLEGE FACULTY COURSE OFFERINGS

Below are listed courses taught by faculty holding Five College joint appointments. But these courses are only a few of those available through the Five College Student Interchange. (Through the Interchange students at any one of the five campuses may register for any course offered at the others, provided they follow policies in place at their own campuses, receive approval from their home campus advisor, meet any course requisites, and determine that space is available.) For more complete course information, consult the online course catalog at <http://www.fivecolleges.edu/fcolcc.html>.

FIVE COLLEGE SUPERVISED INDEPENDENT LANGUAGE PROGRAM, Five College Center for the Study of World Languages, University of Massachusetts (under the Five College Program). Elementary-level courses are currently offered in the following languages: Arabic, Bulgarian, Czech, Farsi, Modern Greek, Hindi, Hungarian, Indonesian, Norwegian, Romanian, Serbo-Croatian, Slovak, Swahili, Thai, Turkish, Twi, Urdu, Vietnamese, and Wolof. For further information, including information on registration, consult the website (<http://www.umass.edu/fclang>).

African Studies

CATHARINE NEWBURY, Professor of Government (at Smith College in the Five College Program).

Political Science 29. Women and Politics in Africa. See Political Science 29.

First semester. Amherst College.

Polit 398. The Rwanda Genocide in Comparative Perspective. In 1994 Rwanda was engulfed by violence that caused untold human suffering, left more than half a million people dead, and reverberated throughout the Central African region. Using a comparative perspective, this course explores parallels and contrasts between Rwanda and other cases of genocide and mass murder in the 20th century. Topics include the nature, causes, and consequences of genocide in Rwanda, regional dynamics, the failure of the international community to intervene, and efforts to promote justice through the U.N. International Criminal Tribunal for Rwanda. We will also consider theories of genocide and their applicability to Rwanda, exploring comparisons with other cases such as the Armenian genocide, the Holocaust, the destruction of the Herero, and war in Liberia and Sierra Leone.

Second semester. University of Massachusetts.

Arabic

MOHAMMED MOSSA JIYAD, Senior Lecturer in Arabic (at Mount Holyoke College in the Five College Program).

Asian 130f. Elementary Arabic I. This course covers the Arabic alphabet and elementary vocabulary for everyday use, including courtesy expressions. Students will concentrate on speaking and listening skills and basic Arabic syntax and morphology, as well as basic reading and writing. MWF 1:15-2:05 p.m.

First semester. Mount Holyoke College.

Arabic. Elementary Arabic I. Same description as Asian 130f. MWF 10-11 a.m.
First semester. Smith College.

Arabic 230. Intermediate Arabic I. This course continues Elementary Arabic I, study of modern standard Arabic. It covers oral/aural skills related to interactive and task-oriented social situations, including discourse on a number of topics and public announcements. Students read and write short passages and personal notes containing an expanded vocabulary on everyday objects and common verbs and adjectives. MW 2:30-4 p.m. F 2:30-3:30 p.m.

First semester. Mount Holyoke College.

Asian 131s. Elementary Arabic II. Continuation of Elementary Arabic I. Students will expand their command of basic communication skills, including asking questions or making statements involving learned material. Also, they will expand their control over basic syntactic and morphological principles. Reading materials (messages, personal notes, and statements) will contain formulaic greetings, courtesy expressions, queries about personal well-being, age, family, weather and time. Students will also learn to write frequently used memorized material such as names, forms, personal notes and addresses.

Second semester. Mount Holyoke College.

Arabic. Elementary Arabic. Same description as Asian 130s.
Second semester. Smith College.

Arabic 231. Intermediate Arabic. Same description as Arabic 226.
Second semester. Mount Holyoke College.

Asian/Pacific/American Studies

RICHARD CHU, Assistant Professor of History (at the University of Massachusetts in the Five College Program).

History 175f. Asian/Pacific/American History, 1850 to the Present. (American Studies 102f, Asian Studies 175f.) This course situates Asian/Pacific/American experiences within the context of American history, as well as that of their countries of origin. First we will look at the pre-World War II era, exploring relationships between the U.S. quest for empire in the Pacific, political-economic dislocations in Asian countries, and anti-Asian prejudice against migrants in the U.S. Next we will examine the period after WW II, especially Japanese American internment; post-1965 immigration; war in Southeast Asia; the rise of post-colonial and new nation in Asia; and contemporary issues facing the A/P/A community in the U.S. Major themes include migration, racism, gender, and colonialism. TTh 1:15-2:30 p.m.

First semester. Mount Holyoke College.

History 197P. "Empire," "Race," and the Philippines: Indigenous Peoples and the Spanish, U.S. and Japanese Imperial Projects. Is the United States an "empire"? Today, U.S. political, military, and economic involvement in many parts of the world such as Iraq and Haiti makes this an urgent and important question. This course addresses the issue of American imperial power by examining the history of U.S. presence in the Pacific, particularly in the Philippine Islands, during the first half of the twentieth century, and by comparing it with that of two other imperial powers that also colonized the Philippines—Spain and Japan. We will also investigate how indigenous peoples negotiated, manipulated, resisted, or thwarted attempts by colonial and post-colonial dominant groups to control their minds, bodies, resources, especially through racial and gendered classifications. Themes to be discussed include religion, ethnicity, gender, imperialism, colonialism, orientalism, post-colonialism, neo-colonialism, and nationalism. Requirements: a midterm and a final exam, occasional quizzes, and an individual or group research project. TTh 9:30-10:45 a.m.

First semester. University of Massachusetts.

Professor Chu will offer courses second semester at the University of Massachusetts and Amherst and Smith Colleges. Check the Online Five College Course Schedule for more complete information: <http://www.fivecolleges.edu/sites/courses/>.

NITASHA SHARMA, Visiting Assistant Professor of American Studies (at Amherst College in the Five College Program).

Colloquium 220. Asian Americans in Film and Video. This course introduces students to films made by and about Asian Americans. Using a chronological and thematic approach, various genres (including narrative dramas, documentaries and experimental films) will be analyzed within the context of Asian American history and issues concerning the development of Asian American identities. Some of the issues we will cover include stereotypes of Asians in Hollywood; the re/creation of history and memory; the intersection of race, class, gender, and sexuality in Asian American films; Asian/Black relations on film. Students will be expected to apply theoretical insights to their analysis of a number of key Asian American films. These theories include contemporary theories of race and ethnicity, current debates about identity and representation, and film theory. TTh 3-4:50 p.m.

Admission with consent of the instructor. Limited to 20 students. First semester. Smith College.

American Studies 75. Introduction to Asian American Studies. See American Studies 75.

First semester. Amherst College.

SS 297. Asian Diasporas. (co-taught with Lili Kim) This comparative seminar focuses on the migration and settlement processes of various Asian diasporas throughout the world through an historical and contemporary approach. We will analyze the experiences of Chinese (in Cuba, Jamaica, and New Zealand), Koreans (in Argentina), and South Asians (in the Caribbean, England, and South Africa) by focusing on their processes of migration, the historical development of diasporic communities, and the role of cultural production (music, art, literature, performance). In this co-taught class, students will engage with theories of globalization and transnationalism, cultural production, community formation, ethnicity, identity and authenticity. This course seeks to push the boundaries of Asian American Studies beyond the borders of America, challenge the division of "East" and "West," highlight the long legacy of global economies,

and understand how individuals and communities make their "home away from home."

Second semester. Hampshire College.

American Studies 80. Hapa Issues: Asian Americans of Mixed Racial Descent. See American Studies 80.

Second semester. Amherst College.

Dance

CONSTANCE VALIS HILL, Visiting Associate Professor of Dance (at Hampshire College in the Five College Program).

Dance 377. Balanchine 100. Commemorating the centennial of his birth, this seminar pays tribute to the aesthetic vitality of George Balanchine, the foremost classical choreographer of the twentieth century. In our time, Balanchine (1904-1983) transformed the classic dance from its nineteenth-century codification into a steadily evolving language capable of expressing the most subtle yet profound of human emotions. We will identify the major themes in Balanchine's works, which include Diaghilev, Waltzes, Tchelichew and Surreality, Tchaikovsky, Americana, Narratives, Abstractions, Stravinsky, and Apotheosis. Each week, we will view, discuss, write about, and analyze at least one major work within the theme. While we will focus on Balanchine's choreographic methods and musicality, we will also look at his borrowings from jazz and modern dance, Broadway and Hollywood work, collaborations with visual artists, and the gradual elimination of sets and elaborate costumes, as well as the emergence of the "Balanchine ballerina" who encapsulated the choreographer's romantic idealism.

This course is recommended to all Five College students interested in music, dance and choreography, as well as students in Rose Flach's Pointe class and dancers in the Five Colleges who have been cast to perform Balanchine's *Serenade* in the FCDD 25th Anniversary season. M 7-10 p.m.

First semester. Mount Holyoke College.

Theater and Dance 24. Twentieth-Century American Dance: Sixties Vanguard to Nineties Hip-Hop. See Theater and Dance 24.

Second semester. Amherst College.

HACU 270. Fleeting Images: Choreography on Film. This selected survey of choreography on film and video indulges in the purely kinesthetic experience of watching the dancing body on film. We will focus on works that have most successfully produced a true synthesis of the two mediums, negotiating between the spatial freedom of film and the time-space-energy fields of dance, the cinematic techniques of camera-cutting collage, and the vibrant continuity of the moving body. We will discern the roles of the choreographer, director, and editor in shaping and controlling the moving image, and explore the relationship of music and the dancing body on film. Putting theory into practice, we will form small group collaborations to create an original study in choreography for the camera; students will be expected to engage in all aspects of production, from the concept, script, choreography and storyboard to performance, direction, lighting, sound and editing. This class is open to film/video concentrators and dancers/choreographers interested in exploring the relationship between dance and the camera and the creative processes involved in creating choreography for the camera.

Second semester. Hampshire College.

Film/Video

HOLLY HEY, Visiting Assistant Professor of Film/Video Production (at Mount Holyoke College in the Five College Program).

FILMST 210. Production Seminar/Moving Image. This course offers an introductory exploration into the moving image as an art form outside of the conventions of the film and television industries. This class will cover technical and aesthetic aspects of video production and will also offer a theoretical and historical context in which to think about independent cinema and video art. Satisfies Humanities I-A requirement prereq. Four credits. One meeting (3 hours), 1 screening (3 hours); a lab fee may be charged. W 1-3:50 and TU 7-10 p.m. (screening).

Admission with consent of the instructor. Limited to 10 students. First semester. Mount Holyoke College.

79075 COMM 497B ST. Video Art Production 01 LEC. Lecture, lab. This intermediate production course offers an exploration into the moving image as an art form, outside of the conventions of the film and television industries. This class will cover technical and aesthetic aspects of media art production and will also offer a theoretical and historical context in which to think about independent cinema and video art. Machmer E-30D. Th 9:30-12:30 p.m. and Lab W 7-10 p.m. in SC 108.

Admission with consent of the instructor. Limited to 12 students. Students will be selected at the first day of class. Students cannot add this course through SPIRE. If you have questions, please contact the University of Massachusetts Film Studies Program at 545-3659.

First semester. University of Massachusetts.

English 89. Production Seminar in the Moving Image: Human Locomotion and the Moving Image. This course will focus on human locomotion and the innovative ways in which it is represented in film and video. Description to follow.

Requisite: English 82 or its equivalent. Admission with consent of the instructor. Limited to 15 students. Second semester. Amherst College.

BABA HILLMAN, Assistant Professor of Video/Film Production (at Hampshire College in the Five College Program).

HACU-0209-1. Video I. Video I is an introductory video production course. Over the course of the semester students will gain experience in pre-production, production, and post-production techniques as well as learn to think and look critically about the making of the moving image. Projects are designed to develop basic technical proficiency in the video medium as well as the necessary working skills and mental discipline so important to a successful working process. Final production projects will experiment with established media genres. In-class critiques and discussion will focus on media analysis and image/sound relationships. F 9-11:50 a.m.

Requisite: 100-level course in media arts (Introduction to Media Arts, Introduction to Media Production, Introduction to Digital Photography and New Media, or equivalent). Lab fee charged for the course. Limited to 16 students. First semester. Hampshire College.

English 82. Production Workshop in the Moving Image. See English 82. T 2-4:40 p.m. and T evening screening 7:30-10 p.m.

Admission with consent of the instructor. Limited to 15 students. First semester. Amherst College.

HACU 287. Directing and Performance for Video and Film.

Second semester. Hampshire College.

Geosciences

J. MICHAEL RHODES, Professor of Geochemistry (at the University of Massachusetts in the Five College Program).

GEO 591P. Geochemistry of Magmatic Processes. The primary purpose of this course is to understand how geochemical data (major elements, trace elements and isotopic ratios) can be used to identify and quantify magmatic processes. The chemical and mineralogical composition of the source, together with the type and degree of melting, control the initial composition of the magma. Conversely, knowing the composition of a magma can tell us something about the nature and heterogeneity of the source and the melting process. Rarely, however, does a magma reach the earth's surface without further modification to its composition. Most magmatic rocks are filtered through a magma chamber prior to their emplacement at or near the surface. Magma chamber processes, such as fractional crystallization, magma mixing, contamination and recharge, or a dynamic combination of these processes, invariably modify the composition of the magma. In this course, we will learn how to use geochemical data to try to resolve the relative importance and effects of these various processes. T, Th 4-5:15 p.m.

First semester. University of Massachusetts, Room 159, Morrill Science Center.

GEO 515. X-Ray Fluorescence Analysis. Theoretical and practical application of X-ray fluorescence analysis in determining major and trace element abundances in geological materials.

First semester. University of Massachusetts.

GEO 591V. Volcanology. A systematic discussion of volcanic phenomena, including types of eruptions, generation and emplacement of magmas, products of volcanism, volcanic impact on humans, and the monitoring and forecasting of volcanic events. Case studies of individual volcanoes illustrate principles of volcanology, with particular emphasis on Hawaiian, ocean-floor and Cascade volcanism. Each week deals with a particular topic in volcanism and includes a lecture, readings from the textbook, and class presentations.

For the class presentation, each student is required to select and read a paper from an appropriate journal, and come to class prepared to discuss the paper. Honors students will "adopt" a currently active volcano. They will report, on a regular basis, to the class what their volcano is doing during the semester, and prepare a final term report on their adopted volcano. Seminar: F 1:30-3:30 p.m., Room 258, Morrill Science Center, plus two-hour lecture, time and place to be determined.

Second semester. University of Massachusetts.

International Relations

MICHAEL T. KLARE, Professor of Peace and World Security Studies (at Hampshire College in the Five College Program).

Social Science 263. America and The World: The Global Debate Over U.S. Hegemony. America is now the world's only superpower, and it is likely to

retain this dominant position for a long time to come. This unique situation has aroused enormous debate both at home and in the world at large over how the United States should wield its enormous power in international affairs. There are some in this country, including many senior figures in the Bush administration, who argue that the U.S. should use its power unilaterally and to America's exclusive advantage; others argue that the U.S. should employ its power in the interests of the broader international community. This debate has been further sharpened by the war in Iraq and the international opposition it has aroused. This course will examine and assess the domestic and international debates over America's international role and look at particular aspects of U.S. foreign policy. Students will be expected to participate in a series of policy debates on America's response to various international issues (proliferation, human rights, globalization, the environment, trade, and so on) and to write a paper on a particular problem in foreign affairs. MW 10:30-11:45 a.m.

First semester. Hampshire College.

Gov 250. Case Studies In International Relations. The development and application of theoretical concepts of international relations; examination of historical events and policy decisions; testing theories against the realities of state behavior and diplomatic practice. In fall 2004, the course will focus on the international political ramifications of transboundary environmental problems and growing competition for scarce and valuable resources. In particular, we will examine the ways in which states, non-state actors, and the international community are responding to such problems as global climate change, water scarcity, intensified competition for energy supplies, deforestation, land degradation, and fisheries depletion. In each case, emphasis will be placed on the prospects for both conflict and cooperation in addressing global problems. MW 2:40-4 p.m.

First semester. Smith College.

HACU/Social Science-2xx. The Art of War and Peace. (co-taught with Sura Levine). An examination of the representation of war and peace in the visual arts from ancient times to the present. War and the desire for peace have been the subjects of some of the world's most important works of art, among them ancient Greek and Roman sculptures, Paolo Uccello's "Battle of San Romano," Francisco Goya's "Third of May," and Pablo Picasso's "Guernica." This course will not be a chronological survey, but instead will examine such themes as the visual and political iconography of militarism; the glorification of empire and conquest through art; war and the glorification of the masculine (and the male physique); nationalism, war and art; images of peace and tranquility; and the art of anti-war propaganda. Students will be required to select a particular theme or work of art for intensive study and to present their findings in class.

Second semester. Hampshire College.

Political Science 64. Seminar In International Politics. See Political Science 64.

Second semester. Amherst College.

JON WESTERN, Assistant Professor of International Relations (at Mount Holyoke College under the Five College Program).

IR 319f. United States and the Promotion of Democracy and Human Rights. Is the United States committed to promoting democracy and human rights abroad or just advancing its own strategic and domestic corporate interests? What influence does the United States have on the development of democracy around the world and the emergence of—and compliance with—international

human rights conventions, protocols and laws? This seminar begins with an historical overview of American democracy and human rights rhetoric and policies and seeks to uncover the range of political, economic, cultural and geostrategic motivations underlying U.S. behavior. We will then examine American foreign policy responses to contemporary human rights and democracy issues as they relate to women, regional and civil violence, state-sponsored violence and repression, development, globalization, and environmental degradation and resource scarcity. Throughout the semester we will examine how these policies have influenced events in Latin America, East Asia, Eastern Europe, and sub-Saharan and southern Africa. Previous course work relating to international relations, American politics or foreign policy, or political theory required. Admission with consent of the instructor. *This course fulfills requirement for advanced seminar in Political Science.* T 1-3:50 p.m.

Italian

ELIZABETH H. D. MAZZOCCO, Associate Professor of Italian and Director of the Five College Center for the Study of World Languages (at the University of Massachusetts in the Five College Program).

Professor Mazzocco is on leave.

Russian/East European/ Eurasian Studies

SERGEY GLEBOV, Assistant Professor of History (at Smith College in the Five College Program).

HST239. (L) Russia and Its Cultural Frontiers. Empire and Nations, 1552-1914.

The goal of this course is to introduce students to the emergence, development, and dissolution of one of the last great multinational empires in the world. The course will focus on those aspects of Russian history that are relevant to our understanding of the role of nationalities, as well as on those aspects of state, society, and culture that shed light on the interaction between the imperial center/centers and periphery/peripheries. Although the course follows the traditional periodization of Russian history, our approach will be on the varieties of imperial experiences rather than on a single narrative of Russian state and society. At the same time, we will explore how the Russian Empire as a whole dealt with pressures of modernization and how the boundary between Russia and the West was constructed and maintained.

As a result of this course, students will gain greater understanding of how multinational states managed diversity. They will gain understanding of contemporary theorizing of modern nationalism and will be better suited to navigate themselves in the often complex situation of the post-Soviet world. The students will also learn about colonialism and "orientalism", mobile diasporas,

and supranational institutions. Finally, they will be tempted to think of the history of multinational empires as a model of world history, and explore parallels between modernization processes in the Russian empire and globalization. MW 1:10-2:30 p.m.

First semester. Smith College.

393 R. Russia's Western Borderlands. TTh 2:30-3:45 p.m.

Requisites or consent of the instructor. See online course schedule for details. First semester. University of Massachusetts.

247(C). Aspects of Russian History: Affirmative Action Empire: Soviet Experiences of Managing Diversity. How the Communist rulers of the Soviet Union mobilized national identities to maintain control over the diverse populations of the USSR. World War I and the Revolution of 1917 opened a window of opportunities for the nationalities of the former Russian Empire. Soviet policies of creating, developing, and supporting national identities among diverse Soviet ethnic groups in light of collectivization, industrialization, expansion of education, and Stalin's Terror. How World War II and post-war reconstruction became formative experiences for today's post-Soviet nations. W 7-9:30 p.m.

Second semester. Smith College.

FIVE COLLEGE AFRICAN STUDIES CERTIFICATE PROGRAM

The Five College African Studies Certificate Program is administered by the Five College African Studies Council through its Faculty Liaison Committee, which consists of the certificate program advisors from each of the five colleges. The certificate program offers an opportunity for students to pursue an interest in African Studies as a complement to their majors.

Requirements: The Five College African Studies Certificate Program requires a minimum of six courses on Africa. An African course is defined as one the content of which is at least 50% devoted to Africa per se. The program is designed to be broadly interdisciplinary in character. A coherent plan of study should be developed between the student and his or her certificate program advisor. Students are encouraged to complete their studies of Africa with an independent study course that gives this course work in African Studies a deliberate, integrative intellectual focus.

Minimum requirements of the Five College Certificate in African Studies are:

1. A minimum of one course providing an historical perspective;
2. A minimum of one course on Africa in the social sciences (anthropology, economics, geography, political science, sociology);
3. A minimum of one course on Africa in the fine arts and humanities (art, folklore, history, literature, music, philosophy, religion);
4. A minimum of three more courses on Africa, each in a different department, chosen from history, the social sciences, or the fine arts and humanities;
5. Proficiency in a language other than English through the level of second year in college, to be fulfilled either in a language indigenous to Africa or an official language in Africa (French, Portuguese or Arabic).

No more than three courses in any one department may be counted toward the minimum requirements of this certificate. With the approval of the student's certificate program advisor, not more than three relevant courses taken

at schools other than the five colleges may be counted toward the minimum certificate requirements. Students must receive a grade of B or better in every course that qualifies for the minimum certificate requirements. No course that counts for the minimum requirements may be taken on a pass/fail basis. Students are also encouraged to take advantage of opportunities currently available on each campus through study abroad programs to spend a semester or more in Africa.

Students who complete the certificate program requirement will be given a certificate from the Five College African Studies Council, and the following entry shall be made on the student's permanent college record: "Completed requirements for the Five College African Studies Certificate."

Further information about the Five College African Studies Certificate Program is available at www.fivecolleges.edu/sites/african/ or from the certificate program advisor at Amherst College, who will have a list of courses at all five colleges which will satisfy certificate requirements, as well as certificate program application forms. (Such lists and forms are also available at the Five College Center.) During 2004-05 the Amherst certificate program advisor is Professor Rowland Abiodun of the Departments of Fine Arts and Black Studies.

FIVE COLLEGE CERTIFICATE IN CULTURE, HEALTH, AND SCIENCE

The Five College Certificate in Culture, Health, and Science complements a traditional disciplinary major by allowing students to deepen their knowledge of human health, disease, and healing through an interdisciplinary focus. Under the guidance of faculty program advisors on each campus, students choose a sequence of courses available within the five colleges and identify an independent research project that will count toward the certificate. The certificate represents areas of study critical to understanding health and disease from a biocultural perspective.

To receive the certificate students take seven courses (earning a B or better in each course) distributed across the following categories:

1. Overviews of Biocultural Approaches;
2. Mechanisms of Disease Transmission;
3. Population, Health, and Disease;
4. Healers and Treatment;
5. Ethics and Philosophy;
6. Research Design and Analysis.

A comprehensive list of certificate requirements is available online at <http://www-unix.oit.umass.edu/~culhs/chs.html>. For 2004-05, the Amherst faculty advisor will be Professor Christopher Dole.

FIVE COLLEGE INTERNATIONAL RELATIONS CERTIFICATE PROGRAM

The Five College International Relations Certificate is issued by Mount Holyoke College on behalf of the Five Colleges. The purpose of the International Relations Certificate Program is to encourage students interested in international relations but majoring in other fields to develop a coherent approach to the

study of this subject. The Program recommends a disciplined course of study designed to enhance students' understanding of complex international processes—political, military, economic, social, cultural, and environmental—that are increasingly important to all nations. Receipt of the certificate indicates that the student has completed such a course of study as a complement to his or her major.

An Amherst student qualifies for the certificate by satisfactorily completing the following seven requirements:

1. A course in introductory world politics;
2. A course concerning global institutions or problems;
3. A course on the international financial and/or commercial system;
4. A modern (post-1789) history course relevant to the development of the international system;
5. A course on contemporary American foreign policy;
6. Two years of college-level foreign language study; (Please note that Amherst College's foreign language requirement differs from that noted in the Five College International Relations brochure.)
7. Two courses on the politics, economy and/or society of foreign areas, of which one must involve the study of a Third World country or region.

No more than four of these courses in any one discipline can be counted toward the certificate. No single course can satisfy more than one requirement. A grade of *B* or better must be achieved in a course in order for it to count toward the certificate. Amherst students should request grades for Hampshire College courses offered in fulfillment of requirements for the certificate.

The Certificate Program is administered by the Five College International Relations Committee whose members also serve as faculty advisors concerning the program on the five campuses. Amherst students' selection of courses to satisfy the requirements for the certificate is monitored and approved by Amherst's faculty advisor. Further information about the Five College International Relations Certificate Program is available at www.mtholyoke.edu/acad/intrel/5col/homepage.htm or from the faculty advisors at Amherst who will have Certificate Program application forms. (Such forms are also available at the Five College Center.) During the first semester 2004-05, the Amherst faculty advisors will be Professors Ronald Tiersky, William Taubman, and Javier Corrales.

FIVE COLLEGE LATIN AMERICAN AND CARIBBEAN STUDIES CERTIFICATE PROGRAM

The Five College Latin American and Caribbean Studies Certificate is issued by the Five College Council on Latin American Studies. The Certificate program provides a framework for students interested in Latin America and the Caribbean to develop a coherent, interdisciplinary approach to the study of this subject.

Requirements: The Certificate Program requires eight courses on Latin America and the Caribbean that include the following:

1. An introductory course in the social and political history of Latin America and/or the Caribbean
2. One course on Latin America or the Caribbean in the humanities (including art, dance, film, folklore, literature, music, religion, and theater)

3. One course on Latin America or the Caribbean in the social sciences (including anthropology, economics, geography, political science, history, and sociology)
4. An interdisciplinary seminar (normally in the senior year) that brings together the various themes and techniques of analysis learned in the above courses.

Students must earn a grade of B or better in each course. In addition, students must meet a language requirement, demonstrating proficiency in Spanish or Portuguese at the level of a fourth-semester language course. This requirement can be met through coursework or through an examination. However, language instruction will not count toward the eight courses required for the certificate.

The program is designed to be broadly interdisciplinary in character. Students are expected to begin with an introductory course that covers a range of countries and themes, and proceed to more advanced and focused areas of study. A student's specialization in Latin America and the Caribbean may include a semester or year of study abroad or a summer doing field research for a senior honors thesis in the student's major. Some, though not all, of this coursework may count toward the eight courses required for the Certificate, according to guidelines set by the Five College Council.

Faculty advisors will help students design their programs of study and provide a list of courses at the Five Colleges that satisfy the certificate requirements, as well as certificate program application forms. (Such lists and forms are also available at Five Colleges Inc.) During 2004-05 the Amherst faculty advisor will be Professor Javier Corrales. For more information, consult the Latin American Studies Website at www.fivecolleges.edu/sites/latinamericanstudies/.

FIVE COLLEGE CERTIFICATE IN LOGIC

The Five College Certificate in Logic brings together aspects of logic from different disciplines within the curriculum: Philosophy, Mathematics, Computer Science, and Linguistics. The Certificate offers an opportunity for students to pursue an interest in logic as a complement to their majors.

To earn the Five College Certificate in Logic, a student must take six courses in logic from any of the Five Colleges. No more than four courses can be counted towards the Certificate from any single one of the above disciplines. At least two courses must be taken at an advanced level (300 or above at University of Massachusetts, 210 or above at Smith College, 300 or above at Hampshire College or Mount Holyoke College, 25 or above at Amherst College). And at least one course must expose students to the basic meta-theory of first-order logic and to Gödel's Incompleteness Theorems. Students must receive grades of at least "B" in each course counting towards the Certificate.

The logic courses offered at the five institutions occasionally overlap. To insure that every Certificate student chooses wisely, each course of study must be approved by the coordinating committee for the Logic Certificate (which comprises one representative from each participating institution). Please see Professor Alexander George (Philosophy) or Professor Daniel J. Velleman (Computer Science and Mathematics) for further information.

For a list of courses fulfilling certificate requirements, consult the Logic Website at www.fivecolleges.edu/sites/logic/.

HONORS

FELLOWSHIPS

FELLOWS

PRIZES AND AWARDS

ENROLLMENT

Professorships and Readerships

Winifred L. Arms Professorship in the Arts and Humanities. Established in 1982 by Winifred Arms in memory of her husband, Robert A. Arms '27, the Arms Professorship is held by a distinguished member of the faculty concerned with one of the fields of artistic or literary expression.

Beitzel Professorship in Technology and Society. Established in 1999 by George B. Beitzel '50, this professorship recognizes distinction in the arts and sciences, particularly in the use of technology to enhance undergraduate learning. The Beitzel Professor at Amherst College will have a vision of interfacing man and machine in a way that fuses computer, networking, fiberoptic, or future electronic technologies with the values of the academy, the ideals of a liberal education and the goals of an enlightened society.

Parmly Billings Professorship in Hygiene and Physical Education. Established in 1890 by Frederick Billings of Woodstock, Vermont, this professorship honors the memory of his son, Parmly Billings 1884.

Brian E. Boyle Professorship in Mathematics and Computer Science. Established in 1998 by Brian E. Boyle '69, this professorship recognizes exceptional teaching and research in the Mathematics and Computer Science Department or its successor department. The Boyle Professorship is held by a senior member of the faculty who has appreciation for the role of technology in teaching and who has demonstrated a dedication to the values of a liberal arts education.

Elizabeth W. Bruss Readership. Established in 1982, in memory of Elizabeth Bruss, The Bruss Reader is a member of the faculty appointed by the President and the Dean of the Faculty to a three-year term that rotates among the various academic disciplines at Amherst integrating material about women into the curriculum. The Bruss Reader will also serve as a resource person for colleagues, bringing new information regarding women to their attention.

Class of 1880 Professorship in Greek. Given to the College by all living members of the Class at its 50th reunion in 1930.

Class of 1959 Professorship. Established by the Class of 1959 on the occasion of its 40th reunion to honor a distinguished faculty member, in one of the traditional disciplines, with a deep commitment to students and to their habits of mind.

Henry Steele Commager Professorship. Established in 1991 by Wyatt R. Haskell '61, Jonathan P. Rosen '66, and others in recognition of Professor Commager's 35 years of distinguished scholarship and dedication to the teaching of undergraduates at Amherst College.

George H. Corey Professorship in Chemistry. Established in 1952 by bequest of George H. Corey 1888.

G. Armour Craig Professorship in Language and Literature. Established in 1994 by an anonymous donor, this professorship honors G. Armour Craig, Professor of English 1940-1985 and Acting President 1983-1984.

William Nelson Cromwell Professorship in Jurisprudence and Political Science. Established in 1948 by bequest of William Nelson Cromwell, founder of the New York City law firm Sullivan & Cromwell.

George Lyman Crosby Professorship in Philosophy. Established in 1950 by Stanley Warfield Crosby, brother of George Lyman Crosby 1896.

Stanley Warfield Crosby, Jr., Professorship in Religion. Established in 1950 by Stanley Warfield Crosby '13 in memory of his son, Stanley Warfield Crosby, Jr., who was killed in the Korean War.

Amanda and Lisa Cross Professorship. Established in 1980 by Theodore L. Cross '46, Trustee 1973-85, emeritus since 1985, in honor of his daughters, Amanda and Lisa Cross.

Sidney Dillon Professorship in Astronomy. Established in 1894 by the family of Sidney Dillon, Chairman of Union Pacific Railroad.

Joseph B. Eastman Professorship in Political Science. Established in 1944 by friends of Joseph B. Eastman '04, Trustee 1940-44.

Edwin F. and Jessie Burnell Fobes Professorship in Greek. Established by Professor Francis H. Fobes, who taught Classics 1920-48, emeritus 1948-57.

Eliza J. Clark Folger Professorship. Established in 1930 by Emily Jordan Folger (Mrs. Henry Clay Folger), in memory of Mr. Folger's mother.

Emily C. Jordan Folger Professorship. Established in 1930 by Emily Jordan Folger (Mrs. Henry Clay Folger).

Henry Clay Folger 1879 Professorship. Established in 1930 by Emily Clay Folger (Mrs. Henry Clay Folger).

Clarence Francis Professorship in the Social Sciences. Established in 1969 in honor of Clarence Francis '10, former Chairman of General Foods and Amherst Trustee 1944-50.

Julian H. Gibbs Professorship in Natural and Mathematical Sciences. Established by the Trustees in 1983 to honor Julian H. Gibbs '46, Professor of Chemistry and 15th President of the College.

Samuel Green Professorship. Established in 1867 by John Tappan, Trustee 1834-1854, and founding pastor of Union Church in Boston, in honor of Samuel Green, also pastor of Union Church.

Edward S. Harkness Professorship. Established in 1930 by Edward S. Harkness, New York philanthropist.

William H. Hastie Professorship. Established in 1986 by the Trustees to honor Judge William H. Hastie '25, the first black federal judge and Chief Justice of the U.S. Court of Appeals for the Third Circuit. Judge Hastie was Trustee 1962-75, emeritus 1975-76.

Hitchcock Professorship in Mineralogy and Geology. Established in 1847 by Boston merchant Samuel A. Hitchcock of Brimfield and Samuel Williston, East-hampton button manufacturer and Trustee 1841-74.

Charles Hamilton Houston Professorship. Established in 1987 by Gorham L. Cross '52 to honor the achievements of Charles Hamilton Houston '15, principal architect of the legal strategy leading to the 1954 Supreme Court decision prohibiting race discrimination in U.S. public schools.

William R. Kenan, Jr., Professorship. Established in 1969 by the William R. Kenan, Jr., Charitable Trust.

Stanley King Professorship in Dramatic Arts. Established in 1952 by the Trustees in recognition of the generosity and service of Stanley King '03, President 1932-46, emeritus 1946-51.

Alfred Sargent Lee '41 and Mary Farley Ames Lee Professorship. Established in 2000 by Alfred Sargent Lee '41 and Mary Farley Ames Lee to recognize a senior member of the faculty who demonstrates distinction in undergraduate teaching and a commitment to the liberal arts tradition at Amherst College.

Lewis-Sebring Professorship in Latin American and Latino Culture. Established in 2001 by the Lewis-Sebring Family Foundation on behalf of Charles A. Lewis '64 and Penny Bender Sebring, this professorship promotes the study of the culture, language, politics, history or art of Latin America or Latino America. The professorship honors a member of the faculty whose teaching and scholarship focus on Latin America or the contributions of Latino America to the intellectual and cultural life of the United States.

Rufus Tyler Lincoln Professorship in Biology. Established in 1916 by Caroline Tyler Lincoln (widow of Rufus P. Lincoln 1862) in memory of her son, Rufus Tyler Lincoln.

Jonathan R. Longley Professorship. Established in 2001, the Jonathan R. Longley '74 Professorship recognizes a senior member of the faculty who demonstrates distinction in undergraduate teaching and a commitment to the liberal arts tradition at Amherst College.

Manwell Family Professorship in Life Sciences. Established in 2000 by Edward J. Manwell '25, this professorship is held by a faculty member who has shown dedication to the life of the College and distinction in teaching and research.

Massachusetts Professorship in Chemistry and Natural History. Established in 1847 by the Trustees in recognition of a grant from the Commonwealth of Massachusetts.

John J. McCloy Professorship. Established in 1983 by the Trustees to honor John J. McCloy '16, Trustee 1947-69, Chairman 1956-69, and Honorary Chairman 1969-1989, to support visiting scholars who teach courses in American institutions and international relations.

William R. Mead Professorship in Fine Arts. Established in 1936 by bequest of Mr. and Mrs. William R. Mead 1867. William R. Mead was a founder of McKim, Mead and White, architects.

Andrew W. Mellon Professorship. Established in 1974 by a grant from the Andrew W. Mellon Foundation.

Charles E. Merrill Professorship in Economics. Established in 1950 by Charles E. Merrill '08.

Zephaniah Swift Moore Professorship. Named for the first president of the College and held by a distinguished classicist on the Amherst College faculty.

Dwight W. Morrow Professorship. Established in 1941 by bequest of Dwight W. Morrow 1895, Trustee 1916-1931, to endow a professorship in political science or American history.

Anson D. Morse Professorship in History. Established in 1924 by Dwight W. Morrow 1895, Trustee 1916-31, in honor of Professor Anson Morse, who taught at Amherst from 1878 to 1907.

John C. Newton Professorship in Greek and Sculpture. Established in 1891 by bequest of John C. Newton, a Worcester mason and building contractor.

Edward N. Ney Professorship in American Institutions. Established in 1986 by Edward N. Ney '46, Trustee 1979-89, emeritus since 1989.

George Daniel Olds Professorship in Economics and Social Institutions. Established in 1914 by Frank L. Babbott, Jr. '13 to honor Dean George D. Olds, who later served as President 1924-27, emeritus 1927-31.

Olin Professorship in Asian Studies. Established in 1998 by the Spencer T. and Ann W. Olin Foundation to support a faculty member who advances students' understanding and appreciation of Asian art, economics, history, languages, politics, society or cultures.

James E. Ostendarp Professorship. Established in 1990 by former students, friends, and colleagues to honor (football) Coach Ostendarp on the occasion of a dinner in his honor held in New York City to show their appreciation for his keen interest in all aspects of the Amherst experience and his commitment to the development of the Amherst student within the ideals of a liberal arts education.

Domenic J. Paino Professorship in Global Environmental Studies. Established in 1997 by Birgitta and Domenic J. Paino '55, this professorship reflects the donors' interest in issues affecting the entire world and their commitment to the study of the interconnectedness of nations.

Ward H. Patton Professorship in Economics. Established in 1989 by Ward H. Patton, Jr. '42, in memory of his father, who was instrumental in building the Green Giant Company.

Thomas F. Pick Readership in Environmental Studies. Established in 1999, this readership will support individuals who are dedicated to teaching, studying or researching in an area of environmental studies. The Pick Reader is a member of the faculty appointed by the President and the Dean of the Faculty to coordinate studies and to organize events relating to environmental studies across existing disciplines and departments. The Pick Reader will serve as a campus resource person in environmental studies.

Peter R. Pouncey Professorship. Established in 1995 by an anonymous donor in honor of Peter R. Pouncey, President 1984-1994 and Professor of Classics 1984-1999.

E. Dwight Salmon Professorship in History. Established in 1989 by Thomas H. Wyman '51, Trustee 1976-92, Chairman 1986-92, and emeritus 1992-present, to honor Professor Emeritus E. Dwight Salmon, who taught history at Amherst from 1926 to 1963.

Willem Schupf Professorship in Asian Languages and Civilizations. Established in 1994 by H. Axel Schupf '57, Trustee 1993-present, in memory of his father, to confirm the College's commitment to studying the East.

Winthrop H. Smith Professorship. Established in 1956 by Winthrop H. Smith '16, Trustee 1952-61, to fund a professorship in American history and American studies.

Bertrand Snell Professorship in American Government. Established in 1951 by bequest of Bertrand H. Snell 1894.

Stone Professorship in Natural Sciences. Established in 1880 by Valeria Goodenow Stone in honor of Julius H. Seelye, President 1876-90.

Thalheimer Professorship. Established in 1998 by the family of Louis B. Thalheimer '66, who served as a Trustee of the College from 1992-1998, and his daughter, Deborah E. Thalheimer '94, this professorship recognizes distinction in teaching and is intended to honor a scholar-teacher who has a strong interest in and commitment to undergraduates.

Willard Long Thorp Professorship in Economics. Established in 1989 by alumni and friends to honor Willard Long Thorp '20, Professor of Economics 1926-33 and 1952-63, Trustee 1942-55, and Acting President 1957.

Joseph E. and Grace W. Valentine Professorship in Music. Established in 1982 by bequest of Joseph E. and Grace W. Valentine.

Richard S. Volpert Professorship in Economics. Established in 2000 by Barry S. Volpert '81 and Teri C. Volpert in honor of Richard S. Volpert '56, this professorship supports a faculty member in the Department of Economics who has shown distinction in teaching and research concerning free market economics and dedication to the life of the College.

William J. Walker Professorship in Mathematics and Astronomy. Established in 1861 by Boston physician William J. Walker.

Thomas B. Walton, Jr., Memorial Professorship. Established in 1984 by Thomas B. Walton in memory of his son, Thomas B. Walton, Jr. '45.

The John William Ward Professorship. Established in 2003 by a member of the Board of Trustees, the John William Ward Professorship recognizes a senior faculty member at Amherst College who is an accomplished scholar and teacher who has served the College community with distinction on a key committee or in an administrative post. The Ward Professor will be selected by the President and the Dean of the Faculty and appointed by the Board of Trustees.

G. Henry Whitcomb Memorial Professorship. Established in 1921 in memory of G. Henry Whitcomb 1864, Trustee 1884-1916, by his three sons, all Amherst alumni.

L. Stanton Williams Professorship. Established in 1990 by L. Stanton Williams '41 to support teaching and scholarship that encourages students to use the skills and knowledge acquired at Amherst for the benefit of their communities and the wider society.

Samuel Williston Professorship in English. Established in 1845 by Samuel Williston, Easthampton button manufacturer and Trustee 1841-74.

Samuel Williston Professorship in Greek and Hebrew. Established in 1869. Formerly known as Graves Professorship of Greek Language and Literature.

Winkley Professorship in History and Political Economy. Established in 1885 by Henry Winkley, New York and Philadelphia retailer.

Lectureships

Henry Ward Beecher Lectureship. Established by Frank L. Babbott 1878 in honor of Henry Ward Beecher 1834. The incumbent is appointed biennially by the faculty for supplementary lectures in the departments of history and the political, social, and economic sciences.

Copeland Colloquium Fund. Established in 1971 by Morris A. Copeland '17. The Colloquium supports visiting fellows who remain in residence at Amherst and pursue their own diverse interests while engaging themselves in various ways with faculty and students.

Croxton Lectureship. Established in 1988 by William M. Croxton '36 in memory of his parents, Ruth L. and Hugh W. Croxton. Income from this endowed fund is used to bring to campus well-known guest speakers who focus on topical issues.

Samuel B. Cummings Lectureship. Established in 1997 by bequest of Samuel B. Cummings, this fund is to be used for an annual or biannual lecture in one of the academic fields of anthropology, archaeology, psychology, and/or sociology.

Joseph Epstein Lecture Fund in Philosophy. Established in 1987 by members of the Department of Philosophy to sponsor philosophical talks and discussions at Amherst. The fund honors Professor Joseph Epstein, who for 35 years taught Amherst students philosophy, especially logic, philosophy of science, and American pragmatism.

Clyde Fitch Fund. Established by Captain and Mrs. W. G. Fitch of New York in memory of their son, Clyde Fitch 1886. This fund is used for the furtherance of the study of English literature and dramatic art and literature.

Forry and Micken Fund in Philosophy and Science. Established in 1983 by Carol Micken and John I. Forry '66 to promote the study of philosophical issues arising out of new developments in the sciences, including mathematics, and issues in the philosophy and history of science.

John Whitney Hall Lecture Fund. Established in 1994 by Betty Bolce Hall to honor her husband. Income is to be used to initiate and maintain the John Whitney Hall '39 Lecture Series on Japan. Professor Hall became an authority on premodern Japanese history, training graduate students who entered academic, business and governmental fields relating to Japan. For more than 30 years he worked to develop Japanese studies in American colleges and universities.

Charles H. Houston Forum. Established in 1980 by Gorham L. Cross, Jr. '52 to honor Charles H. Houston '15. The income from this fund brings lecturers on law and social justice to Amherst.

Victor S. Johnson Lectureship Fund. Established in memory of Victor S. Johnson (1882-1943) by his sons for the purpose of "bringing to the campus each year a stimulating individual worthy of the lectureship's purpose of serving the best tradition of the liberal arts and individual freedom."

Corliss Lamont Lectureship for a Peaceful World. Established in 1982 by Corliss Lamont '57, this fund supports lecturers who may provide insight into the analytical or operational problems of lessening friction among nations.

Max and Etta Lazerowitz Lectureship. Established in 1985 by the late Professor Morris Lazerowitz of Smith College to honor his parents, this fund provides for the annual appointment of the Lazerowitz Lecturer, who is a member of the Amherst College faculty below the rank of full professor.

Georges Lurcy Lecture Series. Established in 1982 by the Georges Lurcy Charitable and Educational Trust, this lectureship was given to the College to bring distinguished lecturers to Amherst to speak on topics relating to countries other than the United States.

Everett H. Pryde Fund. Established in 1986 by Phyllis W. Pryde in honor of her late husband Everett H. Pryde '39 to bring to the College distinguished visiting scientists to lecture on selected topics in the field of chemical research and to fund the Everett H. Pryde Research Award, given annually to an Amherst senior.

Rapaport Lectureship in Contemporary Art Fund. The Rapaport Lectureship in Contemporary Art Fund, established in 1999, provides support for an annual lecture on some aspect of contemporary art. The goal of the Rapaport Lectureship is to increase awareness and appreciation of contemporary art among students and in the community.

George William and Kate Ellis Reynolds Fund. Established in 1929 by Rev. George W. Reynolds 1877 and his wife to fund lectureships on topics of Christianity, science, and American democracy.

John Woodruff Simpson Lectureship. Established in memory of John Woodruff Simpson 1871 by his wife and daughter, to fund fellowships and "to secure from time to time, from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College."

Tagliabue Fund. Established in 1991 by Paul and Chandler Tagliabue to honor their son Andrew, who graduated in 1991. The fund supports the Asian Languages and Civilizations Department at Amherst College and funds lectures by social scientists on Asian issues.

Willis D. Wood Fund. Established in memory of Willis D. Wood 1894 to fund visiting scholars and lecturers to "talk with students and faculty about different aspects of the spiritual life."

Honors

THE PHI BETA KAPPA SOCIETY

Massachusetts Beta Chapter. The students elected to membership in this honor society are those of highest standing. A preliminary election of outstanding students occurs at the end of the first semester of junior year, and further elections occur during the first semester and at Commencement time of senior year.

President: Professor Natasha Staller

Secretary-Treasurer: Gerald M. Mager

Auditor: Professor Rose R. Olver

THE SOCIETY OF SIGMA XI

Sigma Xi, the National Honorary Scientific Research Society, was founded in 1886, and the Amherst Chapter was installed March 23, 1950. As one of its purposes, the Society gives recognition of those students, members of the Faculty, research associates, and alumni who have demonstrated ability to carry on constructive scientific research or who show definite promise of research ability. Other functions are the maintenance of companionship among investigators in the various fields of science, the holding of meetings for the discussion of scientific subjects, and the fostering of an interest in scientific research in the College.

Undergraduates who show definite promise of research ability are typically recommended to associate membership by the departments concerned.

Fellowships

COLLEGE FELLOWSHIPS

FROM the income of the College's fellowship funds, approximately 150 awards are made annually to graduates of Amherst College for study in graduate or professional schools. Applications should be made by February 10 on forms available in December from the Fellowships Office. This same deadline applies to seniors and to graduates. You need not have been accepted at graduate school to apply, but the awards are made contingent upon final enrollment. The awards are based on merit and need (except for the Kellogg and Rosenblum) and are determined by the Faculty Committee on Student Fellowships. An exception to this is the Amherst-Doshisha Fellowship for which the deadline is November 15 and for which there is a special Selection Committee.

The Amherst-Doshisha Fellowship. Amherst-Doshisha Fellowship at Amherst House, Doshisha University, Kyoto, Japan, is open to graduating seniors and recent alumni of the College for a term of one, or in some cases, two years. The recipient will have the opportunity to work with Professor Hideo Higuchi, representative of the College at Doshisha, and to teach English to Japanese students. No knowledge of the Japanese language is required.

The fellowship offers a stipend and an allowance for travel and incidental expenses, shared equally between Amherst and Doshisha. The fellowship year is normally from September to August. It carries with it formal teaching responsibilities in the English language at Doshisha University, at the first-year and second-year level. The academic year at Doshisha allows fellows to travel in Asia during February and March.

Applicants should complete applications no later than November 15. This fellowship is awarded by the Board of Trustees upon the recommendation of the Amherst-Doshisha Fellowship Committee.

The Amherst Memorial Fellowships. These fellowships, in memory of Amherst graduates who gave their lives for an ideal, are given primarily for the study of social, economic, and political institutions, and for preparation for teaching and the ministry. The fund was established because of the "need for better understanding and more complete adjustment" between humans and their "existing social, economic, and political institutions for the study of the principles underlying these human relationships."

The object of the fellowships is to permit students of character, scholarly promise, and intellectual curiosity to investigate some problem in the humanistic

sciences. During previous training candidates should have given evidence of marked mental ability in some branch of the social sciences—history, economics, political science—and have given promise of original contribution to a particular field of study. It is desirable that they possess qualities of leadership, a spirit of service, and an intention to devote their efforts to the betterment of social conditions through teaching in its broad sense, journalism, politics, or field work.

Preference is given to candidates planning to do advanced work in the field of the social sciences, but awards may also be made to candidates who are planning to go to theological school in preparation for a career in the ministry and to those from other fields than the social sciences who are preparing for a career in teaching in secondary schools or colleges.

The fellowships are for one year but, upon reapplication, may be approved for one or two additional years, depending upon the nature of the subjects investigated or upon other circumstances which, in the judgment of the committee, warrant a variation in the length of tenure.

The stipend will vary according to the circumstances of the appointment. Awards will depend upon those aspects of individual cases which, in the judgment of the committee, most suitably fulfill the purpose of the foundation.

These fellowships are awarded by the Board of Trustees upon the recommendation of the Faculty Committee on Student Fellowships.

The John Mason Clarke 1877 Fellowship in Paleontology and Geology. A fund from the estate of Noah T. Clarke was established in memory of his father, John Mason Clarke 1877, to provide income for a fellowship or fellowships for the pursuit of studies in paleontology or geology, preferably in the New York State Museum in Albany, New York.

The Evan Carroll Commager Fellowship. This fund, established by Professor Henry Steele Commager in memory of his late wife and "as a testimony to her affection for this College," enables an Amherst student to study at Cambridge University. The fellowship is for one year but, upon reapplication, may be approved for a second year. The award is open to any student, with preference to seniors and to those applying to Peterhouse, St. John's, Trinity, or Downing College.

The Henry P. Field Fellowships. Two fellowships are available from the income of the bequest of the late Henry P. Field 1880 to promote graduate study in the fields of English and history. Appointments are made annually by the College on the recommendation of the departments of English and history.

The Warner Gardner Fletcher Fellowship. The income from a gift from the late Warner Gardner Fletcher '41 is awarded to "pursue work for the improvement of education." Preference is given to candidates who are engaged in the study of education and then to candidates for the Master of Arts in Teaching.

Seth E. Frank '55 Fellowship. Established in 1997 by Seth E. Frank '55, the income from this fund is to be used annually for post-graduate work by a graduate of Amherst College. The fellowship is to be awarded to a graduate who has demonstrated exceptional ability, interest, and achievement in the area of International Relations. The fellowship is not limited to graduate study but may be awarded for other endeavors which are international in scope.

The Roswell Dwight Hitchcock Memorial Fellowship. A fund, established by the Alpha Delta Phi Fraternity, provides an annual award to a member or members of the senior Class for excellence in history and the social and economic sciences. The holder of the fellowship pursues for one year a course of study in history or economics, to be completed within the period of two years next following graduation.

The Rufus B. Kellogg University Fellowship. The income from the fund, established by the late Rufus B. Kellogg 1858, provides certain prizes, and a fellowship award for three years to a graduate of Amherst College, who shall be appointed upon the following conditions: The Fellow is elected by the Faculty on the recommendation of the Faculty Committee on Student Fellowships. Consideration is given to seniors or members of the classes graduated in the preceding six years. The fellowship is awarded to that graduate who, in the judgment of the Faculty, is best equipped for study and research, without regard to any other considerations, except that the Fellow should have an especially good knowledge of at least one modern foreign language and should have had at least one year of Latin in preparatory school or college. The three years shall be spent by the Fellow at a German university or other approved institution, for the study of philosophy, philology, literature, history, political science, political economy, mathematics or natural science. At least one college term of the final year shall be spent by the Fellow at Amherst College, to give lectures on a subject selected by the Fellow and approved by the Trustees. The lectures shall be published in book form or in a learned journal. This fellowship is based solely on merit. The Kellogg Fellowship will not be awarded again until 2006-07.

The Sterling P. Lamprecht Fellowship. From the income of this fund, fellowships are awarded to recent graduates of Amherst College for the pursuit of philosophy. Upon reapplication, these fellowships may be approved for a maximum of three years. They need not be awarded at all in one particular year, and it might be, if there were no suitable graduates, awarded to an undergraduate, in which case it would be known as the Sterling P. Lamprecht Scholarship. Preference, however, would be given for graduate study.

The Edward Poole Lay Fellowship. The income from a fund, established by Frank M. Lay 1893 and Mrs. Lay, in memory of their son Edward Poole Lay '22, provides fellowships to graduates who have shown unusual proficiency and talent in music and who desire to continue studies in the field. Preference is given to candidates who are proficient in voice. In the event that there are no qualified candidates in the musical arts (especially voice and instrumental music), they may be awarded to qualified candidates in the field of the dramatic arts. These fellowships are awarded by the Board of Trustees upon the recommendation of the Faculty Committee on Student Fellowships.

The Forris Jewett Moore Fellowships. These fellowships, in three fields of study, were established in memory of Forris Jewett Moore 1889 by his widow, Emma B. Moore.

(1) A fellowship to graduates distinguished in the study of chemistry while undergraduates, who desire to engage in further study of that subject. Preference is given to eligible candidates for the field of organic chemistry.

(2) A fellowship to graduates distinguished in the study of history while undergraduates, who desire to engage in further study of that subject.

(3) A fellowship to graduates distinguished in the study of philosophy while undergraduates, who desire to engage in further study of that subject.

The George Stebbins Moses Memorial Fellowship. This memorial fellowship is awarded to a graduate who has been accepted by a recognized divinity school, who has good reason to seek financial aid, who seems to be an all-around person qualified in all respects as a religious and moral leader and a lover of ordinary people, and who is qualified scholastically to meet the calling of a theological career creditably. The candidate need not be an outstanding student, but improvement in the upperclass years, dedication, and a

sense of purpose will be given great consideration. The fellowship may be renewed for a second or third year at the discretion of the Committee. More than one fellowship may be awarded in any given year.

The George A. Plimpton Fellowships. These fellowships, established by the Board of Trustees in memory of George A. Plimpton 1876, a member of the Board from 1890 to 1895 and from 1900 to 1936, and President of the Board from 1907 to 1936, are awarded *without stipend* to seniors who are of outstanding scholastic ability and promise, who plan to continue their studies in graduate school, and who are not in need of financial assistance. These fellowships are awarded by the Board of Trustees on recommendation of the Faculty Committee on Student Fellowships.

The C. Scott Porter Memorial Fellowship for Graduate Study. Established in 1972 by the family of C. Scott Porter '19, mathematics professor, 1924-31, and Dean of the College from 1931-1966, the C. Scott Porter Memorial Fellowship is awarded annually to a graduate for further study without restriction as to department or field.

The Lloyd I. Rosenblum Memorial Fellowship. Established in 1997 for his son, Peter M. Rosenblum '70, and other family members, the fellowship is to be awarded annually to a graduate of Amherst College embarking on his or her first year of graduate studies in the fields of botany and biology. Each beneficiary should be a person who demonstrated significant promise in the relevant fields of study as an undergraduate at Amherst College. The fellowship is to be awarded solely on the basis of merit and without regard to race, sex, religion, gender, or nationality.

The Charles B. Rugg Fellowship. Established in memory of Charles Belcher Rugg '11, this fellowship is awarded to a graduate for the study of law. The award may be renewed for a second or third year upon recommendation of the Faculty Committee on Student Fellowships.

The John Woodruff Simpson Fellowships and Lectureships. A fund was established in memory of John Woodruff Simpson 1871 by his wife and daughter. Income from the fund provides: (1) A fellowship for the study of law; (2) A fellowship for the study of medicine; (3) A fellowship for the study of theology, without regard to creed or religious belief; (4) A fellowship for study at any school, college or university in preparation for the teaching profession; (5) A fellowship for use in graduate study at the Universities of Oxford or Cambridge in England or at the Sorbonne in Paris. The fund may also be used to secure from time to time from England, France or elsewhere, scholars for the purpose of delivering lectures or courses of instruction at Amherst College.

These fellowships are awarded by the Board of Trustees upon the recommendations of the Faculty Committee on Student Fellowships.

The Benjamin Goodall Symon, Jr., Memorial Fellowship. This fellowship is awarded to a graduate who has been accepted by a recognized divinity school, who has good reason to seek financial aid, who seems to be an all-around individual qualified in all respects as a religious and moral leader, and who is qualified scholastically to meet the calling of a theological career creditably, although the student may plan to use the divinity school training for work in another field. The candidate need not be an outstanding student, but improvement in the upperclass years, dedication, and a sense of purpose will be given great consideration.

The fellowship may be renewed for a second or third year at the discretion of the Committee. More than one fellowship may be awarded in any given year.

The Roland Wood Fellowship. Awarded annually on recommendation of the Department of Theater and Dance as a fellowship to one or more promising and deserving graduates of Amherst College for continued study in or of the theater.

DEPARTMENTAL FELLOWSHIPS

French Department Fellowship. The French Department offers two exchange fellowships. The appointments will be made by the Department after an announcement at the beginning of March and interviews. Amherst seniors with a high proficiency in French may apply.

The University of Dijon Assistantship. This fellowship is an appointment as teaching assistant in American Civilization and Language for one year at the University of Dijon. The fellowship offers a stipend paid by the French government and free admission to courses at the University.

Exchange Fellowship, Ecole Normale Supérieure in Paris. This fellowship is without stipend but offers a room at the Ecole Normale Supérieure and admission to any university course in Paris.

The Edward Hitchcock Fellowship. This fellowship, established by the late Mrs. Frank L. Babbott of Brooklyn, N.Y., is available for study in the department of physical education. Its object is to make the student familiar with the best methods of physical training, both in the gymnasium and on the field. The appointment is made by the Faculty upon the recommendation of the Department of Physical Education and Athletics.

Fellows

Jose Francisco Abad '03, *John Woodruff Simpson Fellow in Medicine.* University of Massachusetts Medical School.

Ruby Z. Afram '00, *Charles B. Rugg Fellow in Law.* Yale Law School.

Richard Alan Beaudoin '98, *Roland Wood Fellow in Music Composition.* Brandeis University.

Laura Becvar '97, *Forris Jewett Moore Fellow in Cognitive Science/Chemistry.* University of California at San Diego.

Lara Blakiston Birk '98, *John Woodruff Simpson Fellow in Sociology.* Boston College.

Sara Bozorg '03, *John Woodruff Simpson Fellow in Medicine.* University of Rochester.

Julien Bradley '98, *Amherst Memorial Fellow in Business Administration.* Dartmouth College.

Daniel O. Breecker '01, *John Mason Clarke Fellow in Geology.* University of New Mexico.

Ella Brians '01E, *Forris Jewett Moore Fellow in Philosophy.* New School University.

- Megan Crista Brown '95, *Amherst Memorial Fellow in English/Cultural Studies*. Pennsylvania State University.
- Jason Robert Cavatorta '04, *John Woodruff Simpson Fellow in Plant Breeding*. Cornell University.
- Patricia Chang '01, *John Woodruff Simpson Fellow in International Security and Political Economy*. Harvard University.
- Yassine Daoud '99, *John Woodruff Simpson Fellow in Medicine*. Harvard Medical School.
- Michael Andrew Doss '03, *John Woodruff Simpson Fellow in Law*. School not known.
- Michael Dougan '02, *John Woodruff Simpson Fellow in Medicine*. Harvard Medical School.
- John Redmond Downey, Jr. '03, *John Woodruff Simpson Fellow in Medicine/Public Health*. Stanford University School of Medicine.
- James Robert Drabick '02, *John Woodruff Simpson Fellow in Law*. Georgetown University.
- Rebecca Erwin '02, *Forris Jewett Moore Fellow in Physics*. California Institute of Technology.
- Sarah B. Fascitelli '99, *Amherst Memorial Fellow in International Affairs*. Columbia University.
- Sondra Danielle Fein '00, *John Woodruff Simpson Fellow in Architecture*. Harvard University.
- Ross Firszenbaum '02, *John Woodruff Simpson Fellow in Law*. Boston College.
- Adriana Fotino '00, *John Woodruff Simpson Fellow in International Relations*. The Johns Hopkins University.
- Kyle Fruh '02, *Forris Jewett Moore Fellow in Philosophy*. University of Colorado.
- Antara Ganguli '01, *Seth E. Frank '55 Fellow in International Relations*. The Johns Hopkins University.
- Peter Joseph Graif '02, *Amherst Memorial Fellow in Anthropology*. University of Chicago.
- Marni Carolyn Grambau '04, *Roland Wood Fellow in Costume Design*. Independent Study/Philadelphia Opera Theater.
- Suzanne Hasselle-Newcombe '00, *Evan Carroll Commager Fellow in Modern History*. University of Cambridge.
- Jonathan Henry Hassid '02, *Amherst Memorial Fellow in Political Science*. University of California at Berkeley.
- Katherine Corrigan Haver '01, *Seth E. Frank '55 Fellow in International Affairs/Human Rights*. Columbia University.
- Sarah Hilary Johnson '02, *Roland Wood Fellow in Theater*. Independent Study/Lyric Stage Company of Boston.
- Priyadarshani Joshi '01, *John Woodruff Simpson Fellow in Public and International Affairs*. Princeton University.

- Peter Joshua Juran '02, *John Woodruff Simpson Fellow in Medicine*. Yale University.
- Heyang Julie Kae '01, *Amherst Memorial Fellow in English/Asian American Literature*. University of Washington.
- Alicia Kahn '98, *John Mason Clarke Fellow in Geological Sciences*. Rutgers University.
- Kristin Kane '97, *Edward Poole Lay Fellow in Music*. Cornell University.
- Scott Kerns '01, *Edward Poole Lay Fellow in Theater/Stage Combat*. Independent Study/The Society of American Fight Directors.
- Joshua Michael Kershenbaum '96, *John Woodruff Simpson Fellow in Law*. Temple University.
- Alyson Jeanne Kiesel '98, *John Woodruff Simpson Fellow in English and American Literature*. New York University.
- David Young Kim '99, *Amherst Memorial Fellow in the History of Art and Architecture*. Harvard University.
- Stacy Melissa Kitsis '01, *Amherst Memorial Fellow in Education*. Tufts University.
- Amelia Klein '00, *Rufus B. Kellogg University Fellow in 19th- and 20th-Century Poetry*. Harvard University.
- Valerie Klein '98, *Amherst Memorial Fellow in Mathematics Education*. University of Pennsylvania.
- Elizabeth Yoshiko Koehler '01, *John Woodruff Simpson Fellow in Medicine*. University of Southern California.
- Aliza Batya Krefetz '03, *Amherst Memorial Fellow in Translation Studies*. University of East Anglia.
- Yusuke Kuwayama '04, *Roscoe D. Dwight Hitchcock Memorial Fellow in Economics*. University of Illinois.

Ema Vyroubalova '02, *Amherst Memorial Fellow in English and Comparative Literature*. Stanford University.

Matthew Daniel Walker '95, *Sterling P. Lamprecht Fellow in Philosophy*. Yale University.

Brad Michael Walters '02, *Forris Jewett Moore Fellow in History*. Columbia University.

Lais Washington '01, *John Woodruff Simpson Fellow in Law*. New York University School of Law.

Elizabeth M. Wexler '03, *John Woodruff Simpson Fellow in Coastal Environmental Management*. Duke University.

Jeffrey Ryuta Willis '00, *John Woodruff Simpson Fellow in International Health*. The Johns Hopkins University.

Alissa Suzanne Wilson '00, *John Woodruff Simpson Fellow in International Negotiation and Conflict Resolution*. Tufts University.

Joshua David Wolff '98, *Forris Jewett Moore Fellow in American History*. Columbia University.

Eric Wubbels '01, *Edward Poole Lay Fellow in Music Composition*. Columbia University.

Kathy Xiong '04E, *Warner Gardner Fletcher Fellow in Education*. New York University.

Ryan Yeung '04, *John Woodruff Simpson Fellow in Public Finance*. New York University.

NATIONAL FELLOWS AND SCHOLARS

Ethan Alexander-Davey '04, *Fulbright Scholar*, Russia.

Daniel Altschuler '04, *Watson Fellow*.

Rocio Digon '03, *Fulbright Scholar*, Netherlands.

Katelyn Gamson '05, *Goldwater Scholar*.

Crystal Kahn '04, *Fulbright Scholar*, Italy.

Joanne Wang '04, *Fulbright Teaching Assistant*, Taiwan.

AMHERST-DOSHISHA FELLOW

Blake Van Noy '04, Amherst House, Doshisha University, Kyoto

Prizes and Awards

AMERICAN STUDIES

The Doshisha American Studies Prize, a gift from Amherst House, Doshisha University, is awarded for the American studies honors thesis judged by the Department of American Studies as most likely to stimulate interest in and understanding of America overseas, with a view toward possible publication in Japan.

Abigail Leslie Andrews '04.

The George Rogers Taylor Prize is awarded to the student who, in the opinion of the American Studies Department, shows the most promise for creative and scholarly work in American Studies.

Katherine Carmines Mooney '04.

The Stephen E. Whicher Prize, established in memory of Stephen E. Whicher '36, is awarded for the best essay by a senior in the interpretation of American literature in the Department of English or American Studies.

See English.

ANTHROPOLOGY/SOCIOLOGY

The Donald S. Pitkin Prize in Anthropology-Sociology, established in honor of the founder of that department on the occasion of his retirement, is given to that student whose honors thesis best exemplifies the humane values to which Professor Pitkin committed his research and teaching.

Divided among Alissa Reymes King '04, Rebecca Anne Louick '04, and Michael Bard Schlossman '04.

ASIAN LANGUAGES AND CIVILIZATIONS

The Doshisha Asian Studies Prize from the income of a gift from Amherst House, Doshisha University, is awarded for the best undergraduate honors thesis pertaining to Asia.

Divided between Geoffrey Stuart Brounell '04 and Olga Alexandria Zlotnik '04.

ASTRONOMY

The Porter Prize, established by the late Eleazer Porter of Hadley, is awarded for proficiency in first-year astronomy.

Joseph Pendergast Vladeck '06.

ATHLETICS

The Manstein Family Award, given by Carl '72, Mark '74 and Joanne Manstein '83, is presented to the outstanding senior varsity athlete who has been accepted to medical school and plans a career in medicine. The prize is awarded by the Department of Physical Education.

Not awarded 2003-04.

BIOLOGY

The James R. Elster Award for research in biology was created in memory of James R. Elster '71 by his parents, Dr. and Mrs. Samuel K. Elster. This fund has been established for the purpose of providing support in the summer months for a research project to be undertaken by an undergraduate in the Department of Biology.

Indrani Saran '05.

The Sawyer Prize is awarded to that second-semester sophomore who, in the opinion of the Biology Department, has shown the most promise as a student of biology.

Evan Lloyd Guiney '06.

The Oscar E. Schotté Award is given to that member of the graduating class who, in the opinion of the department, has done the best independent work in biology.

Divided between Anna Evangeline Savage '04 and John Louis Stanton-Geddes '04.

The Oscar E. Schotté Scholarship Prize is awarded to a member of the junior or senior class majoring in science to enable completion of a special project during the summer.

Divided between Caleb Edwin Murphy '04 and Anna Evangeline Savage '04.

The William C. Young Prize, established in memory of William C. Young '21, is awarded to a talented student from the Biology Department to undertake a summer course, a specialized program at an advanced school or institute, a summer field program or research at a specialized laboratory.

David Jacob Reiss '05.

BIOLOGY AND GEOLOGY

The Harvey Blodgett Scholarship, established by Frederick H. Blodgett in memory of his grandfather, Harvey Blodgett of the Class of 1829, is awarded to aid student work in biology and geology in their educational phases as distinct from their more technical and strictly scientific phases.

combined with

The Phi Delta Theta Scholarship, established by the Phi Delta Theta Fraternity, is awarded as a scholarship at the Woods Hole Marine Laboratory to a student for proficiency in biology.

Alexei Ural Kudla '04.

BLACK STUDIES

The Edward Jones Prize is given in honor of the College's first black alumnus. It is awarded by the Black Studies Department to a graduating senior for the best honors thesis which addresses a present or future issue of concern to black people in Africa and the Diaspora.

Not awarded 2003-04.

CHEMISTRY

The Howard Waters Doughty Prize is awarded to that member of the senior class who, in the opinion of the Chemistry Department, has prepared the best honors thesis.

Divided between Gerard Joseph Hilinski '04 and Hillary Elizabeth Hoffman '04.

The Frank Fowler Dow Prizes, established by Fayette B. Dow in memory of his father, are awarded to a senior preparing to enter medical school and whose undergraduate work indicates a career of distinction in medicine.

Alicia Joan Little '04.

The Everett H. Pryde Research Award is presented annually to a senior who has been an outstanding teaching assistant in chemistry and who shows great promise for carrying out research in science or medicine.

Gerard Joseph Hilinski '04.

The White Prize is awarded by the Chemistry Department to that chemistry major in the junior class who seems most likely to benefit from a summer's research experience at Amherst. It consists of a summer fellowship.

Winn Trevett Cashion '05.

The David R. Belvetz '54 Memorial Fund Award in Chemistry was established by family and friends of David R. Belevetz and is awarded to support the work of an Amherst student engaged in preparing a senior honors thesis, as determined by the Chemistry Department Faculty.

Christine Lepicier Hagan '05.

CLASSICS

The Anthony and Anastasia Nicolaides Award, established by Cleanthes Anthony Nicolaides '68, in honor of his parents and in testimony of their belief in the goodness of science, is awarded to the senior who presents the best thesis on the topic of Greek science and mathematics from Homeric times to 1453 A.D.

Not awarded 2003-04.

COMPUTER CENTER

The Computer Center Prize is awarded for outstanding contributions in the application of the computer to a broad range of academic disciplines, and for generous help to many students and faculty at the Computer Center.

Isuru Malaka Seneviratne '04.

COMPUTER SCIENCE

The Computer Science Prize is awarded to a senior who has completed an honors thesis and who, in the opinion of the Department of Mathematics and Computer Science, has achieved the best performance in the study of computer science. The award is based on the thesis and overall achievement in computer science.

Crystal Louise Kahn '04.

ECONOMICS

The Bernstein Prize, funded by a gift from the Bernstein family in honor of the work their son, Jeffrey '91, did at Amherst College, is awarded to the senior who has done particularly outstanding honors work in economics.

Ashley Margaret Simonsen '04.

The Economics Department Junior Class Prize, awarded to that member of the junior class who, in the opinion of the Economics Department, has achieved a record of excellence in the study of economics at Amherst College.

Divided between Matthew Jason Botsch '05 and Douglas Moore Norton '05.

The Hamilton Prize, established by his former students in memory of Professor Walton Hale Hamilton, distinguished member of the Department of Economics from 1915 to 1923, is awarded to that student other than a senior who ranks highest in the introductory economics course.

Divided between Rachel Lake Hoerger '06 and Penka Aleksandrova Kovacheva '07.

The James R. Nelson Memorial Award and The James R. Nelson Prize were established from the income of a fund established by former students, colleagues and friends to encourage and recognize the scholarly and humane qualities that Professor Nelson exemplified and sought to foster in his students.

The James R. Nelson Memorial Award is presented to that senior who, in the opinion of the Economics Department, has achieved excellence in the study of economics while pursuing a broad liberal education.

Jonathan Philip Edwards '04.

The James R. Nelson Prize is awarded to the senior who, in the opinion of the Economics Department, has written a distinguished honors thesis that applies economic analysis to an important question of public policy.

Divided between Pavel Andreevich Chernyshov '04 and Ryan Yeung '04.

ENGLISH

The Academy of American Poets Prize is awarded annually for the best poem or group of poems, preferably on nature, submitted by an undergraduate.

Samuel Anthony Masinter '04.

The Armstrong Prize, established in part by Collin Armstrong of the Class of 1877 in memory of his mother, Miriam Collin Armstrong, is awarded to members of the freshman class who excel in composition.

Patrick John McGrath '07.

The Collin Armstrong Poetry Prize, established in part by Mrs. Elizabeth H. Armstrong, is awarded to the undergraduate author of the best original poem or group of poems.

Evan Aron Klavon '05.

The Elizabeth Bruss Prize is presented to that senior English major who in the judgment of the English Department best represents those qualities of breadth and imagination exemplified by Elizabeth Bruss.

Divided between Jordan Tyler Kravitz '04 and Samuel Anthony Masinter '04.

The Corbin Prize, established by the estate of William Lee Corbin of the Class of 1896, is awarded for an outstanding original composition in the form of poetry or an informal essay.

Divided between Elizabeth Maria Galoozis '05 and Samuel Anthony Masinter '04.

The G. Armour Craig Award for Prose Composition is awarded to that junior or senior who writes the best autobiographical essay on an experience of intellectual discovery.

Joanna Kang '05.

The Peter Burnett Howe Prize for excellence in prose fiction was established by a gift from Robert B. Howe '30 in memory of his son Peter Burnett Howe '60.

Jordan Tyler Kravitz '04.

The Rolfe Humphries Poetry Prize is presented to that senior who has achieved the greatest sense of poetic form in his or her undergraduate writing. The

award is made on the basis of three submissions to the English Department in the applicant's senior year and may include writing produced during the undergraduate years.

Conor James O'Sullivan '04.

The Harry Richmond Hunter Jr. Prize, established in memory of Harry Richmond Hunter Jr. '29 by his parents, is awarded to that member of the sophomore class who presents the best essay on a topic approved by the English Department.

Rebecca Lindsay Blum '06.

The James Charlton Knox Prize was established by the friends of Jim Knox '70, to honor his memory and recognize his abiding interest in English literature. It is given to the outstanding English student who demonstrates the greatest integration of scholarship, interest and creativity in the study of English.

David Warner Golann '04.

The MacArthur-Leithauser Travel Award, from the income of a gift by the MacArthur Foundation to the College in 1985 at the request of Brad Leithauser, MacArthur Fellow and Visiting Writer at the College for 1984-85, is given annually by the English Department to a sophomore or junior of creative promise who might most benefit from exposure to a foreign landscape, for the purpose of enabling the student to travel outside the continental United States.

Divided between Sarah Ann Bass '06 and Michael Thomas Hogan '05.

The Ralph Waldo Rice Prize, established by Mrs. Mary Rice Jenkins in memory of her brother of the Class of 1910, is awarded for the best essay on "The Liberal College and Christian Citizenship" or any subject named by the faculty.

David Warner Golann '04.

The Laura Ayres Snyder Poetry Prize, endowed by a gift from Jeffrey F. Snyder '60, in honor of his daughter, Laura Ayres Snyder '89, is awarded to a member of the junior class and is intended to subsidize a student-poet during the summer between his or her junior and senior years. The judges of the prize are one faculty member each from the Departments of English, Philosophy, and Physics in even numbered years and English, History, and Biology in odd numbered years.

Divided between Evan Aron Klavon '05 and David Miguel Molina '05.

The Stephen E. Whicher Prize, established in memory of Stephen E. Whicher '36 for the best essay by a senior in the interpretation of American literature in the Department of English or American Studies.

Joan Eunjo Ahn '04.

FINE ARTS

The Associates of Fine Arts of Amherst College Summer Fellowships in the History of Art and in the Practice of Art are intended to encourage and support proposals for programs of summer study in fine arts. Students may propose participation in an established summer program or may present proposals for individual study without restriction as to state or country. Proposals are invited from any fine arts major with at least one semester left at Amherst after the completion of the fellowship.

The Associates of Fine Arts Summer Fellowships in the History of Art:

Divided between Adrienne K. Lei '05 and Nadia L. Marx '05.

The Associates of Fine Arts Summer Fellowships in the Practice of Art:

Not awarded in 2003-04.

The Hasse Prize, established in memory of Adrian H. Hasse '43, is awarded for the best submitted work having a human figure as a theme.

Divided between Livia Angiolillo '04 and Huiting Koh '04.

The Anna Baker Heap Prize, established by Arnold N. Heap of the Class of 1873, is awarded to that senior who submits the best essay in the field of "Art."

Divided among David Scott Byrnes '04, Jessica Anne Maratsos '04, and Sophia Ronan Rochmes '04.

The Athanasios Demetrios Skouras Prize, given in memory of Mr. Skouras of the Class of 1936, who died in 1943 in Athens as a result of Nazi reprisal killings, is awarded to a student who, in the opinion of the Fine Arts Department, has created an outstanding work of art.

Courtney Lawrence Davies '05.

The Wise Fine Arts Award is presented annually in the spring to a student in the College for distinction in the completion of an original work or works of art and the purchase thereof. The prize-winning work of art will become the property of the Trustees of Amherst College.

Shane Bernhard Neufeld '04.

FRENCH

The Jeffrey J. Carre Award, established in 1983 by his family, friends, professional colleagues and students, is presented to a sophomore or junior who has demonstrated excellence in the French language. The prize is to be used toward travel in France during the summer following the award.

Anna Maria Antoniak '05.

The Frederick King Turgeon Prize in French Literature was established by former students of Professor Turgeon upon the occasion of his retirement. It is used for the award of a book to the student who has done particularly distinguished work in French during the year.

Divided between Jessica Heeyoung Chang '04 and Julius Orighomisan Nanna '04.

GEOLOGY

The Richard M. Foose Scholarship Prize, established by alumni and friends to honor Professor Richard M. Foose at the time of his retirement after 23 years of service to Amherst College, is awarded annually to a student or students on the recommendation of the Department of Geology, to support summer field/research in geology.

Divided among Meghan Elizabeth Dickoff '07, Charles Thomas Hoxie '05, Ariel Beau Morales '07, and Eliza Danielle Temeles '06.

The Walter F. Pond Prize, established in honor of Walter Pond '07, is awarded to the senior who has submitted the best honors thesis in geology.

Stacey Kathryn Kepler '04.

The David F. Quinn Memorial Award is awarded in memory of David Quinn '80 to an outstanding senior who, during his or her undergraduate career, has made a positive contribution to geology at Amherst through character, leadership, enthusiasm, and participation in departmental activities.

Njoki Wambui Gitahi '04.

The Belt-Brophy Prize, formerly The Warren Stearns Prize, is awarded to that student at the end of the junior year who, in the judgment of the staff of the Department of Geology, has shown the greatest promise for success as a geologist. The prize consists of a Brunton compass with field case, the most versatile field tool of the geologist.

Naomi Elizabeth Kirk-Lawlor '05.

GERMAN

The Consulate General Prize for Academic Achievement in German Literature, made available by the Consulate General of the Federal Republic of Germany in Boston, is awarded to that student who, in the judgment of the Department of German, has written the best paper as part of a German course.

Divided between Ethan Frederick Greene '04 and Gregory Michael Hedin '06.

The Consulate General Prize for German Studies is made available by the Consulate General of the Federal Republic of Germany in Boston. It is awarded to that junior or senior who, in the judgment of the Department of German, has made a superior contribution to any aspect of German studies.

Colin Metz Lindsay '06.

GREEK

The William C. Collar Prize, established by William C. Collar of the Class of 1859, is awarded to the member of the freshman class who has made on a written examination the best version in English of a previously unseen page from some Greek author.

*Divided between Nicholas Joseph Cuba '07 and
Elizabeth Suzannah Kuperberg '07.*

The Hutchins Prize, established by Waldo Hutchins of the Class of 1842, is awarded to a senior for excellence in Greek.

Ethan Alexander-Davey '04.

HISTORY

The Asa J. Davis Prize is awarded to a student who has demonstrated outstanding achievement in the study of the History of Africa and the Black Diaspora and whose work best reflects the comprehensive interest of Asa Davis in historical and cultural contacts between Africa, the Old World and the Americas.

Not awarded 2003-04.

The Alfred F. Havighurst Prize, intended for the purchase of books, is awarded to that major in the Department of History who has in four years at Amherst best fulfilled the standards of excellence and humane scholarship exemplified by Professor Havighurst during his teaching career at Amherst College.

*Divided among Adrian Karl Althoff '04, Gregory Peter Dworkowitz '04,
Lincoln Philip Mayer '04, and Andrew Jeffrey Spadafora '04.*

JOURNALISM

The Samuel Bowles Prize, established by Samuel Bowles King '02, to stimulate interest in journalism as a career, is awarded to a student who has demonstrated proficiency in journalism.

Kelly Christine Smith '04.

LATIN

The Bertram Prizes, established by John Bertram of Salem, are two prizes awarded to students who, together with attaining a high average in the Latin courses of the senior year, present the best essays connected with these courses.

Senior First: Lisa Marie Blumsack '04.

Senior Second: Divided between Adebayo Akeem Owolewa '04 and Thomas Matthew Harada '04.

The Billings Prizes were established by Frederick Billings in memory of Parmly Billings of the Class of 1884. Two prizes are awarded for general excellence in the Latin courses of the sophomore year, together with the best essays on special topics connected with the authors read in that year.

Sophomore First: Katherine Chauncey Goodrich '06.

Sophomore Second: Min Wang '06.

The Crowell Prizes were established in memory of Edward Payson Crowell of the Class of 1853. Two prizes are awarded—one for the highest scholarship in freshman Latin courses and the other to the students who, together with attaining a high average in the Latin courses of the junior year, present the best essays on some approved topic connected with the junior Latin course.

Freshman First and Second combined and divided among:

Kirsten Virginia Forsberg '07, Megan Cara Ingraham '07, and Novika Ishar '07.

Junior First: Gabriel Ross Ravel '05.

Junior Second: Lisa Margaret Wallmark '05.

The Dr. Ernest D. Daniels Latin Prize, established in honor of Dr. Daniels of the Class of 1890, is awarded to the graduating senior who has submitted the best honors thesis on a Latin subject.

Lisa Marie Blumsack '04.

LAW, JURISPRUDENCE AND SOCIAL THOUGHT

The Robert Cover Prize honors the memory of Robert Cover, a distinguished legal scholar whose work inspired the humanistic conception of law in the liberal arts embodied in Amherst's Department of Law, Jurisprudence and Social Thought. It is given annually to a graduating senior for distinguished achievement in that major.

Rachael Lynn Ballard McCracken '04.

LIBRARY

The Frederick S. Lane '36 Prizes (formerly known as Friends of Amherst College Library Prizes) for Student Book Collections are awarded to the entrants in the Student Book Collection Competition who demonstrate strong interests in book collecting and who present good, beginning collections.

First: Divided between Daniel Loren Altschuler '04 and Justin Thomas Turner '04.

Second: Matthew Paul Langione '05.

Third: Allison Peterson Rung '05.

The Frederick S. Lane '36 Prize for Excellence in Book Collecting (formerly known as the M. Abbott Van Nostrand Prize for Excellence in Book Collecting) is awarded by the Friends of Amherst College Library to the entrant in the Student Book Collecting Competition who demonstrates considerable experience, knowledge, and ability in the field of book collecting.

William Michael Miglore '06.

MATHEMATICS

The Robert H. Breusch Prize is awarded to the senior who, in the opinion of the faculty in mathematics, has presented the best honors thesis in mathematics.

Divided between Mihailis Evangelos Diamantis '04 and Andrew Kruse Gillette '04.

The Walker Prizes were established by William J. Walker of Newport, Rhode Island. Two prizes are awarded for proficiency in mathematics of the first year and two prizes for proficiency in mathematics of the second year. In each case the award is determined by an examination.

Freshman First: Sarah Grace Cotter '07.

Freshman Second: Jonathan Borowsky '07.

Sophomore First: Tsetelina Vaneva Petkova '06.

Sophomore Second: Ding'an Fei '06.

MUSIC

The Sylvia and Irving Lerner Piano Prize is awarded to that student who has demonstrated the greatest skill and musicianship as a pianist.

Divided between Emily Anne Frey '04 and Melody Ko '04.

The Mishkin Prize, established by the Friends of Music, is awarded in memory of Professor Henry G. Mishkin to that senior selected by the Department of Music who produces the best thesis on a critical or musical topic.

Not Awarded 2003-04.

The Lincoln Lowell Russell Prize, established by J. W. Russell Jr. of the Class of 1899 in memory of his son, is awarded to the seniors who have done most to foster the singing spirit at Amherst.

Divided between Melissa Lauren Gang '04 and Njoki Wambui Gitahi '04.

The Eric Edward Sundquist Prize, established in memory of Mr. Sundquist of the Class of 1936, is awarded to that senior who has demonstrated excellence in musical composition and performance.

Jarrad Abbott Mills '04.

NEUROSCIENCE

The James Olds Memorial Neuroscience Award, established by the Swerdlow Family Foundation in recognition of the contributions made to the neurosciences by Dr. Olds of the Class of 1947, is presented to the student whose research in the neurosciences is judged, by the faculty of the Neuroscience Program, to be of highest quality.

Divided between Jason Smucny '04 and Laura Schiffman Tochen '04.

PHILOSOPHY

The Gail Kennedy Memorial Prize is awarded to a senior major in Philosophy in recognition of a distinguished honors essay.

Mihailis Evangelos Diamantis '04.

PHYSICS

The Bassett Physics Prizes were established by Preston Rogers Bassett '13. Two prizes may be awarded each year to those students who have distinguished

themselves by the excellence and maturity of their performance in the class and laboratory work of the first course in Physics.

First and Second combined and divided among

Alexander Willard Bridges '07, Benjamin Allen Purkis '07, and Jae Ha Woo '07.

The William Warren Stifler Prize, established by Professor Stifler, is awarded to a senior who has majored in physics and especially excelled in the course on electricity and magnetism.

Solomon Steven Granor '04.

POLITICAL SCIENCE

The Densmore Berry Collins Prize in Political Science is given annually in memory of Mr. Collins, of the Class of 1940, for the best honors thesis in political science.

Geoffrey Stuart Brounell '04.

PSYCHOLOGY

The Haskell R. Coplin Memorial Award, established in memory of Mr. Coplin, Professor of Psychology, recognizes that member of the graduating class who, in the opinion of the Psychology Department, displays the scholarly and humane qualities that best exemplify Professor Coplin. The prize is to a senior who has shown distinguished work in psychology classes and in an honors thesis, and who has contributed to the life of the department.

Mary Christine DuVernay '04.

PUBLIC SPEAKING

The Bancroft Prizes, established by Frederic Bancroft of the Class of 1882, are awarded to the two seniors who produce the best orations. Both composition and delivery are considered.

First: Lincoln Philip Mayer '04.

Second: Eric Grant Osborne '04.

The Gilbert Prize, established by William O. Gilbert of the Class of 1890, is awarded to a member of the junior class who produces the best oration. Both composition and delivery are considered in making the award.

First: Alan David Lawn '05.

Second: Nancy Rose Hawa '05.

The Hardy Prizes, established by Alpheus Hardy of Boston, are awarded for excellence in extemporaneous speaking.

First: Alan David Lawn '05.

Second: William Thomas Murray '05.

The Kellogg Prizes, established by Rufus B. Kellogg of the Class of 1858, consist of two prizes that are awarded to members of the sophomore or freshman classes for excellence in declamation.

First: David Matthew Gottlieb '06.

Second: Marisa Christina Maleck '07.

The Rogers Prize was given by Noah C. Rogers of the Class of 1880 and is awarded for excellence in debate.

Alan David Lawn '05.

RELIGION

The Moseley Prizes, established by Thomas Moseley of Hyde Park, are awarded to seniors for the best essays on a subject approved by the Department of Religion.

First: Eunice Moonkyung Koo '04.

Second: David Winthrop Wright '04.

RUSSIAN

The Carol Prize in Russian, given by David James Carol '77 in honor of his parents, Joseph and Roberta, is awarded to the student who has demonstrated the greatest dedication and commitment to Russian.

Graham Frederick Dumas '04.

The Mikhail Schweitzer Memorial Book Award, established by students, parents and friends in fond memory of Mikhail Schweitzer, survivor of the Soviet Gulag, author, and custodian at Amherst College, for the award of books to the student who, in the judgment of the Russian Department, most shares Misha Schweitzer's love of Russian literature and culture.

Divided between Ethan Alexander-Davey '04 and Jaime Lauren Atteniese '04.

SPANISH

The Pedro Grases Prizes for Excellence in Spanish is given by a member of the Class of 1939 to honor a great teacher and cordial scholar. It is awarded each year to that senior who has shown the greatest progress in the ability to read Hispanic literature with insight and to write and speak Spanish with intelligence and humane sensitivity.

Michael Joseph Hanlon '04.

THEATER AND DANCE

The Raymond Keith Bryant Prize, an annual gift from Robert E. and Ethel M. Bryant in memory of their son of the Class of 1936, is awarded to that student who, in the opinion of the judges, gives the best performance of the year in a Masquers' play.

Honora Carlile Talbott '07.

SCHOLARSHIP AND CITIZENSHIP

The Addison Brown Scholarship from a fund established by Addison Brown of the Class of 1852, is awarded to that senior who, being already on the scholarship list, has attained the highest standing in the studies of the freshman, sophomore and junior years.

Mary Christine DuVernay '04.

The Samuel Walley Brown Scholarship, established by Samuel Walley Brown of the Class of 1866, is awarded to that member of the junior class who, in the estimation of the Trustees, ranks highest in his/her class in character, class leadership, scholarship, and athletic ability.

David Allen Babbott '05.

The Charles W. Cole Scholarship is awarded each year to the undergraduate with an established financial aid need, who, after two years at Amherst, stands highest in the academic rank of the sophomore class. The recipient will be designated

"Charles W. Cole Scholar" and will carry the award for the junior and senior years at Amherst.

Xin Zheng '05.

The Charles Hamilton Houston Fellowship is an annual gift awarded to a graduating senior who best personifies a commitment to realizing his or her humane ideals, much in the way Charles Houston '15 devoted his life to the struggle for equal protection under the law for African-Americans in the United States.

Luke Swarthout '04.

The Howard Hill Mossman Trophy, awarded annually to the member of the senior class who has brought, during his/her four years at Amherst, the greatest honor in athletics to the Alma Mater—the word "honor" to be interpreted as relating both to achievement and to sportsmanship.

Paul Spencer Whiting '04.

The Gordon B. Perry Memorial Award is given to a freshman in good academic standing, whose participation and attitude in freshman athletics and other activities are outstanding.

Shauneen Meghan Garrahan '07.

The Psi Upsilon Prize was established by the Gamma Chapter of Psi Upsilon in 1941 on the occasion of the centennial anniversary of the founding of the Chapter. The prize is awarded to that member of the graduating class who is considered preeminent in scholarship, leadership, athletics and character.

Paul Spencer Whiting '04.

The John Sumner Runnells Memorial, established in memory of John Sumner Runnells of the Class of 1865, is awarded to that member of the junior class who, in the opinion of the Trustees of the College, is preeminent in his/her zeal for knowledge and industry to attain it.

Nelly Cessiska Almeida '05.

The Obed Finch Slingerland Memorial Prize is awarded by the Trustees of the College to a member of the senior class, who has shown by his/her own determination and accomplishment the greatest appreciation of and desire for a college education.

*Divided between Valentin Gheorghe Burlacu '04 and
Renata Donna Robinson '04.*

The Stonewall Prize, established by David L. Kirp '65 and other alumni, is awarded annually to that student who produces a work of exceptional intellectual or artistic merit pertaining to the gay, lesbian or bisexual experience.

Divided between Vanessa Eve Hettinger '04 and Sophia Ronan Rochmes '04.

The Woods-Travis Prize, an annual gift in memory of Josiah B. Woods of Enfield and Charles B. Travis of the Class of 1864, is awarded for outstanding excellence in culture and faithfulness to duty as a scholar.

Katherine Carmines Mooney '04.

The Thomas H. Wyman 1951 Medal, established in 2003 by his classmates, is awarded to that member of the senior class who best represents the highest standards in scholarship, athletics, and/or extracurricular activities, community service, integrity, character and humanism as determined by the Dean of Students and the Prize Committee.

Luke Swarthout '04.

AMHERST COLLEGE is accredited by the New England Association of Schools and Colleges, Inc., a non-governmental, nationally recognized organization.

Accreditation of an institution by the New England Association indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process. An accredited school or college is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the New England Association is not partial but applies to the institution as a whole. As such, it is not a guarantee of the quality of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the status of an institution's accreditation by the New England Association should be directed to the administrative staff of the school or college. Individuals may also contact the Association by writing: New England Association of Schools and Colleges, Inc., 209 Burlington Road, Bedford, MA 01730 (781) 271-0022.

Student Absence Due to Religious Beliefs: The Legislature has enacted and the Governor has signed into law Chapter 375, Acts of 1985. It adds to Chapter 151C of the General Laws the following new section:

Any student in an educational or vocational training institution, other than a religious or denominational educational or vocational training institution, who is unable, because of religious beliefs, to attend classes or to participate in any examination, study, or work requirement on a particular day shall be excused from any such examination or study or work requirement, and shall be provided with an opportunity to make up the examination, study, or work requirement missed because of such absence on any particular day; provided, however, that such makeup examination or work shall not create an unreasonable burden upon such school. No fees of any kind shall be charged by the institution for making available to the said student such opportunity. No adverse or prejudicial effects shall result to students because of availing themselves of the provisions of this section.
